CHAPTER 946
ADOPTION OF UNIFORM AND MODEL RULES
[Prior to 9/18/24, see Professional Licensure Division[645] Ch 66]

Chapter rescission date pursuant to Iowa Code section 17A.7: 8/28/29

481—946.1(17A,272C) Board of barbering and cosmetology arts and sciences adoption of uniform and model rules. The board hereby adopts by reference the following:

946.1(1) to **946.1(9)** Reserved.

946.1(10) Model rules for licensee review committee, 481—Chapter 505.

This rule is intended to implement Iowa Code chapter 272C.

[**ARC 8148C**, IAB 7/24/24, effective 8/28/24; Editorial change: IAC Supplement 9/18/24]

[Filed ARC 8148C (Notice ARC 7296C, IAB 1/24/24), IAB 7/24/24, effective 8/28/24]

BOARD OF SIGN LANGUAGE INTERPRETERS AND TRANSLITERATORS

CHAPTER 961
LICENSURE OF SIGN LANGUAGE INTERPRETERS AND TRANSLITERATORS

[Prior to 9/18/24, see Professional Licensure Division[645] Ch 361]

Chapter rescission date pursuant to Iowa Code section 17A.7: 5/22/29

481—961.1(154E) Definitions. For purposes of these rules, the following definitions will apply:

"Active interpreter or transliterator services" means the actual time spent personally providing interpreting or transliterating services or providing interpreting or transliterating services through videoconferencing or remotely. When in a team interpreting situation, the time spent monitoring while the team interpreter is actively interpreting will not be included in the time spent personally providing interpreting or transliterating services.

"Active license" means a license that is current and has not expired.

"Board" means the board of sign language interpreters and transliterators.

"Direct supervision of a temporary license holder" means monitoring of interpreting or transliterating services while personally observing the temporary license holder providing those services, as outlined in paragraphs 961.3(4)*"b"* and *"c."*

"Grace period" means the 30-day period following expiration of a license when the license is still considered to be active.

"Inactive license" means a license that has expired because it was not renewed by the end of the grace period.

"Licensee" means any person licensed to practice as a sign language interpreter or transliterator in the state of Iowa.

"Licensure by endorsement" means the issuance of an Iowa license to practice as a sign language interpreter or transliterator to an applicant who is or has been licensed in another state.

"Reactivate" or *"reactivation"* means the process as outlined in rule 481—961.9(17A,147,272C) by which an inactive license is restored to active status.

"Reinstatement" means the process as outlined in rule 481—506.31(272C) by which a licensee who has had a license suspended or revoked or who has voluntarily surrendered a license may apply to have the license reinstated, with or without conditions.

"Supervisor" means a sign language interpreter or transliterator licensed pursuant to Iowa Code section 154E.3 and subrule 961.2(1) who provides on-site evaluations and advisory sessions with a temporary license holder for the purpose of the professional development of that temporary license holder.

[**ARC 7829C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 9/18/24]

481—961.2(154E) Requirements for licensure.

961.2(1) The following criteria will apply to licensure:

a. Applicants will submit a completed online licensure application and pay the nonrefundable fee; and

b. Applicants will provide proof of one of the following:

(1) Passed the National Association of the Deaf/Registry of Interpreters for the Deaf (NAD/RID) National Interpreter Certification (NIC) examination after November 30, 2011; or

(2) Passed one of the following examinations administered by the Registry of Interpreters for the Deaf (RID):

1. Oral Transliteration Certificate (OTC); or
2. Certified Deaf Interpreter (CDI); or

(3) Passed the Educational Interpreter Performance Assessment (EIPA) with a score of 3.5 or above after December 31, 1999; or

(4) Passed the Cued Language Transliterator National Certification Examination (CLTNCE) administered by The National Certifying Body for Cued Language Transliterators; or

(5) Currently holds one of the following NAD/RID certifications awarded through November 30, 2011, by the National Council on Interpreting (NCI):

1. National Interpreter Certification (NIC); or
2. National Interpreter Certification Advanced (NIC Advanced); or
3. National Interpreter Certification Master (NIC Master); or

(6) Currently holds one of the following certifications previously awarded by the RID:

1. Certificate of Interpretation (CI); or
2. Certificate of Transliteration (CT); or
3. Certificate of Interpretation and Certificate of Transliteration (CI and CT); or
4. Interpretation Certificate/Transliteration Certificate (IC/TC); or
5. Comprehensive Skills Certificate (CSC); or

(7) Currently holds one of the following certifications previously awarded by the National Association of the Deaf (NAD):

1. NAD III (Generalist); or
2. NAD IV (Advanced); or
3. NAD V (Master); or

(8) Currently holds an advanced or master certification awarded by the Board for Evaluation of Interpreters (BEI).

961.2(2) Licensees who were issued their licenses within six months prior to the renewal will not be required to renew their licenses until the renewal cycle two years later.

a. An applicant who has relocated to Iowa from a state that did not require licensure to practice the profession may submit proof of work experience in lieu of educational and training requirements, if eligible, in accordance with rule 481—501.2(272C).

b. An applicant who has been licensed in another state will provide verification of license from the jurisdiction in which the applicant has most recently been licensed, sent directly from the jurisdiction to the board office. The applicant must also disclose any public or pending complaints against the applicant in any other jurisdiction. Web-based verification may be substituted for verification directly from the jurisdiction's board office if the verification provides:

(1) Licensee's name;
(2) Date of initial licensure;
(3) Current licensure status; and
(4) Any disciplinary action taken against the license.

[**ARC 7829C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 9/18/24]

481—961.3(154E) Requirements for temporary license.

961.3(1) An applicant who has not successfully completed one of the board-approved examinations or does not hold an approved certification set forth in paragraph 961.2(1)*"d"* will provide verification the applicant has passed one of the following:

a. The written portion of the Registry of Interpreters for the Deaf (RID) examination;
b. The written portion of the Board for Evaluation of Interpreters (BEI) examination;
c. The written portion of the Educational Interpreter Performance Assessment (EIPA) examination;
d. The EIPA prehire examination at the highest recommended level;
e. An associate degree or higher from a formal interpreter training program (ITP) with a regionally accredited college or university;
f. The American Sign Language Proficiency Interview (ASLPI) at the 2+ level or higher; or
g. The Sign Language Proficiency Interview (SLPI) at the intermediate level or higher.

961.3(2) An applicant will submit a written supervisory agreement that complies with the requirements stated in subrule 961.3(4). The temporary license will be valid for two years from the initial issue date and may be renewed once for the immediately following two-year period.

961.3(3) A temporary license holder is only authorized to practice if the following direct supervision requirements are fulfilled:

a. Enter into a written agreement with a supervisor in which the temporary license holder and the supervisor agree to the minimum requirements provided in paragraphs 961.3(4)*"b"* and *"c."* The supervisor will possess a full, unrestricted sign language interpreter and transliterator license. The agreement will be signed and dated by the temporary license holder and the supervisor; will include

the temporary license holder's and supervisor's names, addresses and contact information; and will be provided to the board with the application for a temporary license.

b. Have a supervisor observe the temporary license holder in active practice for no fewer than six bimonthly observation sessions per year for at least 30 minutes each, if the temporary license holder is working alone, or at least 60 minutes each, if the temporary license holder is working in a team interpreting situation.

c. Attend at least six bimonthly advisory sessions with the supervisor per year for the purpose of discussing the supervisor's suggestions for the temporary license holder's professional skill development based on the observation sessions.

d. Maintain an event log documenting the date, time, length and setting of each observation session and advisory session. This event log will be submitted with the temporary license holder's renewal application.

e. Ensure that the supervisor attends each of the observation sessions and advisory sessions or reschedules the sessions as necessary to ensure compliance.

f. If the replacement of a supervisor becomes necessary, develop a new written agreement with the new supervisor.

g. Obtain permission from clients as necessary to allow the supervisor to be in attendance during the observation sessions.

961.3(4) As an Iowa-licensed practitioner in accordance with this chapter, a supervisor providing direct supervision of a temporary license holder as provided in subrule 961.3(4) is obligated to report to the board an interpreter or transliterator temporary license holder who is not complying with direct supervision requirements or who is not practicing in compliance with Iowa law and rules, including but not limited to Iowa Code chapter 154E and 481—Chapters 961 through 964.

[**ARC 7829C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 9/18/24]

481—961.4(154E) Licensure by endorsement.

961.4(1) An applicant who has been a licensed sign language interpreter or transliterator under the laws of another jurisdiction will file an application for licensure by endorsement with the board office. The board may receive by endorsement any applicant from the District of Columbia or another state, territory, province or foreign country who:

a. Meets the requirements of rule 481—961.2(154E);

b. Shows evidence of licensure requirements that are similar to those required in Iowa; and

c. Provides an equivalency evaluation of foreign educational credentials sent directly from the equivalency service to the board.

961.4(2) Licensure by verification. A person who is licensed in another jurisdiction but who is unable to satisfy the requirements for licensure by endorsement may apply for licensure by verification, if eligible, in accordance with rule 481—501.1(272C).

[**ARC 7829C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 9/18/24]

481—961.5(154E) License renewal.

961.5(1) The biennial license renewal period for a license to practice as a sign language interpreter or transliterator will begin on July 1 of an odd-numbered year and end on June 30 of the next odd-numbered year. The licensee is responsible for renewing the license prior to its expiration.

961.5(2) An individual who was issued a license within six months of the license renewal date will not be required to renew the license until the subsequent renewal date two years later.

961.5(3) A licensee applying for renewal will:

a. Meet the continuing education requirements as provided in 481—subrules 962.2(1) and 962.2(2) or, in lieu of meeting such requirements, provide proof of a current national interpreter certification issued by an organization recognized by the board (e.g., Registry of Interpreters for the Deaf (RID); National Association of the Deaf (NAD); NAD-RID National Interpreter Certification (NIC)) as evidence of meeting continuing education requirements. A licensee whose license was reactivated during the current biennial license period may use continuing education credit earned during the compliance period for the first renewal following reactivation; and

b. Submit the completed renewal application and renewal fee, and attach verification of completion of continuing education hours on the website before the license expiration date.

961.5(4) A two-year license will be issued after the requirements of the rule are met. In the event the board receives adverse information on the renewal application, the board will issue the renewal license but may refer the adverse information for further consideration or disciplinary investigation.

961.5(5) The license certificate and proof of active licensure will be displayed in a conspicuous public place at the primary site of practice.

961.5(6) Late renewal. The license will become late when the license has not been renewed by the expiration date on the renewal. The licensee will be assessed a late fee as specified in 481—subrule 507.18(4). To renew a late license, the licensee will complete the renewal requirements and submit the late fee within the grace period.

961.5(7) Inactive license. A licensee whose license is inactive continues to hold the privilege of licensure in Iowa, but may not practice until the license is reactivated.

[**ARC 7829C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 9/18/24]

481—961.6(17A,147,272C) License reactivation. To apply for reactivation of an inactive license, a licensee needs to:

961.6(1) Submit a completed online reactivation application and pay the nonrefundable fee.

961.6(2) If licensed in another jurisdiction, submit a license verification from the jurisdiction in which the applicant has been most recently licensed and has been practicing during the time period in which the Iowa license was inactive sent directly from the jurisdiction to the board office. Web-based verification may be substituted for verification from a jurisdiction's board office if the verification includes:

a. The licensee's name;

b. The date of initial licensure;

c. Current licensure status; and

d. Any disciplinary action taken against the license.

961.6(3) Provide verification of current competence to practice sign language interpreting or transliterating by satisfying one of the following criteria:

a. If the license has been on inactive status for five years or less, or the licensee is actively practicing in another jurisdiction:

(1) Verification of a current certification as identified in subrule 961.2(1) or of passing an examination identified in subrule 961.2(1) after the license became inactive; or

(2) Verification of active practice, consisting of a minimum of 2,080 hours, in another state or jurisdiction during the two years preceding an application for reactivation; and

(3) Verification of completing 40 hours of continuing education within two years of the application for reactivation.

b. If the license has been on inactive status for more than five years and the licensee is not currently practicing in another jurisdiction:

(1) Verification of completing 40 hours of continuing education within two years of the application for reactivation; and

(2) Verification of passing an examination identified in subrule 961.2(1) after the license became inactive.

[**ARC 9720C**, IAB 11/26/25, effective 12/31/25]

481—961.7(17A,147,272C) License reinstatement. A licensee whose license has been revoked, suspended, or voluntarily surrendered must apply for and receive board-approved reinstatement of the license and must apply for and be granted reactivation of the license prior to practicing sign language interpreting or transliterating in this state.

[**ARC 7829C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 9/18/24]

These rules are intended to implement Iowa Code chapters 17A, 147, 154E and 272C.

CHAPTER 962
CONTINUING EDUCATION FOR SIGN LANGUAGE INTERPRETERS AND TRANSLITERATORS

[Prior to 9/18/24, see Professional Licensure Division[645] Ch 362]

Chapter rescission date pursuant to Iowa Code section 17A.7: 5/22/29

481—962.1(154E,272C) Definitions. For the purpose of these rules, the following definitions apply:

"Active license" means a license that is current and has not expired.

"Approved program/activity" means a continuing education program/activity meeting the standards set forth in these rules.

"Audit" means the selection of licensees for verification of satisfactory completion of continuing education requirements during a specified time period.

"Board" means the board of sign language interpreters and transliterators.

"Continuing education" means planned, organized learning acts acquired during licensure designed to maintain, improve, or expand a licensee's knowledge and skills in order for the licensee to develop new knowledge and skills relevant to the enhancement of practice, education, or theory development to improve the safety and welfare of the public.

"Hour of continuing education" means at least 50 minutes spent by a licensee in actual attendance at and completion of an approved continuing education activity.

"Inactive license" means a license that has expired because it was not renewed by the end of the grace period.

"Independent study" means a subject/program/activity that a person pursues autonomously that meets standards for approval criteria in the rules and includes a posttest.

"License" means license to practice.

"Licensee" means any person licensed to practice as a sign language interpreter or transliterator in the state of Iowa.

[**ARC 7830C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 9/18/24]

481—962.2(154E,272C) Continuing education requirements.

962.2(1) Requirements for permanent licensees. The continuing education compliance period runs concurrently with each two-year renewal period beginning on July 1 of each odd-numbered year and ending on June 30 of the next odd-numbered year. Each person who is licensed to practice as a sign language interpreter or transliterator in this state will be required to complete a minimum of 40 hours of continuing education as specified in rule 481—962.3(154E,272C).

962.2(2) Exception for new permanent licensees. A person licensed for the first time will not be required to complete continuing education as a prerequisite for the first renewal of the license. Thereafter, the new licensee will complete the continuing education requirements as set forth in rule 481—962.3(154E,272C). The licensee may use continuing education hours acquired anytime from the initial licensing until the second license renewal to meet the requirements.

962.2(3) National Interpreters Certification (NIC) or Registry of Interpreters for the Deaf (RID) Certification. A licensee who provides proof of a current NIC or current RID Certification meets continuing education requirements for that biennium renewal cycle.

962.2(4) Requirements for temporary license holders. The continuing education compliance period runs concurrently with each two-year renewal period beginning on the date of initial licensure. Temporary license holders will be required to obtain 40 hours of continuing education as set forth in rule 481—962.3(154E,272C). The temporary license holder may use only continuing education hours acquired during the current renewal period. Proof of continuing education hours acquired will be submitted with a temporary license renewal application.

962.2(5) Hours of continuing education credit may be obtained by attending and participating in a continuing education activity.

962.2(6) Licensees who complete continuing education hours in excess of the requirements for renewal may apply up to 50 percent of the required hours to the following renewal period. Licensees may apply a maximum of 20 hours from the previous renewal period.

962.2(7) The licensee is responsible for the cost of continuing education.

[**ARC 7830C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 9/18/24; **ARC 9317C**, IAB 5/28/25, effective 7/2/25]

481—962.3(154E,272C) Standards.

962.3(1) *General criteria.* A continuing education activity that meets all of the following criteria is appropriate for continuing education credit if the continuing education activity:

a. Is an organized program of learning fundamental to the practice of the profession that contributes directly to the professional competency of the licensee;

b. Is conducted by individuals who have specialized education and training in the subject matter of the program. At the time of audit, the board may request the qualifications of presenters;

c. Fulfills stated program goals, objectives, or both; and

d. Provides proof of attendance, including:

(1) Date, location, course title, and presenter(s);

(2) Number of program contact hours; and

(3) Certificate of completion or evidence of successful completion of the course provided by the course sponsor.

962.3(2) *Specific criteria.*

a. Continuing education will be obtained by attending programs relating to the practice of interpreting or transliterating for the deaf or hard of hearing and that are:

(1) Educational activities, including lectures, conferences, focused seminars, clinical and practical workshops, simultaneous live satellite broadcasts and teleconferences;

(2) Obtained in content areas that conform to the content areas specified in the RID Certification Maintenance Program Standards and Criteria for Approved Sponsors, revised edition, June 2004, with the exception of the number of continuing education units (CEUs) required, which is defined in paragraph 962.3(2)*"b."* RID activity categories of independent study or teaching an academic class are not professional study categories that can be claimed for credit by temporary license holders.

b. Each renewal period, licensees will obtain 40 hours (4 CEUs) of continuing education, including no less than 30 hours (3 CEUs) of professional studies. The remaining 10 hours (1 CEU) may be in either professional or general studies. The board will accept proof of a current NIC or current RID Certification in lieu of proof of the 40 hours of continuing education.

c. Continuing education hours of credit equivalents for academic coursework per biennium are as follows:

1 academic semester hour = 15 continuing education hours

1 academic quarter hour = 10 continuing education hours

1 CEU = 10 continuing education hours

[**ARC 7830C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 9/18/24]

These rules are intended to implement Iowa Code section 272C.2 and chapter 154E.

CHAPTER 963
DISCIPLINE FOR SIGN LANGUAGE INTERPRETERS AND TRANSLITERATORS
[Prior to 9/18/24, see Professional Licensure Division[645] Ch 363]

Chapter rescission date pursuant to Iowa Code section 17A.7: 5/22/29

481—963.1(154E) Definition.

"Consumer" means an individual utilizing interpreting services who uses spoken English, American Sign Language, or a manual form of English, and in an interpreting situation or setting, the term "consumer" includes both the deaf or hard-of-hearing individual or individuals and the hearing individual or individuals present in such situation or setting.

[**ARC 7831C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 9/18/24]

481—963.2(154E,272C) Grounds for discipline. The board may impose any of the disciplinary sanctions provided in rule 481—363.2(154E,272C) when the board determines that the licensee is guilty of any of the following acts or offenses or those listed in 481—Chapter 504:

963.2(1) Unethical conduct. In accordance with Iowa Code section 147.55(3), behavior (e.g., acts, knowledge, and practices) that constitutes unethical conduct includes but is not limited to the following:

a. Engaging in sexual activities or sexual contact with a consumer when there is a risk of exploitation or potential harm to the consumer or when the relationship could reasonably be expected to interfere with the interpreter's or transliterator's objectivity, competence, or effectiveness.

b. Failure to decline or to withdraw from an interpreting or transliterating assignment when the interpreter or transliterator does not possess the professional skills and knowledge required for the specific interpreting or transliterating situation or setting.

c. Failure to refrain from providing advice or personal opinions or aligning with one person over another in the course of one's professional duties.

d. Discriminating against a consumer on the basis of age, sex, race, creed, illness, marital status, political belief, religion, mental or physical disability or diagnosis, sexual orientation, or economic or social status.

e. Failure to inform a consumer when federal or state laws require disclosure of confidential information.

f. Failure to avoid a conflict of interest when there is a risk of exploitation or potential harm to the consumer or when the relationship could reasonably be expected to interfere with the interpreter's objectivity, competence, or effectiveness; or failure to disclose to a consumer an actual or perceived conflict of interest.

g. Failure to present a professional appearance that is not visually distracting and is appropriate to the setting.

h. Failure by a temporary license holder to comply with the requirements of 481—subrule 961.2(6).

963.2(2) Reserved.

CHAPTER 964
ADOPTION OF UNIFORM AND MODEL RULES
[Prior to 9/18/24, see Professional Licensure Division[645] Ch 364]

Chapter rescission date pursuant to Iowa Code section 17A.7: 8/28/29

481—964.1(17A,272C) Board of sign language interpreters and transliterators adoption of uniform and model rules. The board hereby adopts by reference the following:

964.1(1) to **964.1(9)** Reserved.

964.1(10) Model rules for licensee review committee, 481—Chapter 505.

This rule is intended to implement Iowa Code chapter 272C.

[**ARC 8148C**, IAB 7/24/24, effective 8/28/24; Editorial change: IAC Supplement 9/18/24]

[Filed ARC 8148C (Notice ARC 7296C, IAB 1/24/24), IAB 7/24/24, effective 8/28/24]
[Editorial change: IAC Supplement 9/18/24]

CHAPTER 965
LICENSURE OF EMPLOYERS FOR SIGN LANGUAGE INTERPRETERS AND TRANSLITERATORS

Chapter rescission date pursuant to Iowa Code section 17A.7: 7/2/30

481—965.1(154E) Definition. For the purpose of these rules, the following definition will apply:

"Employer" means an employer that employs a person to provide interpreting or transliterating services to the employer's employees.

[**ARC 9318C**, IAB 5/28/25, effective 7/2/25]

481—965.2(154E) Requirements for licensure.

965.2(1) A person employed by an employer licensed pursuant to this chapter to provide interpreting or transliterating services to the employer's employees is not required to be licensed pursuant to this chapter, but shall meet the requirements for licensure under Iowa Code section 154E.3. The interpreter will not interpret or transliterate prior to providing evidence of meeting licensure requirements to the employer.

965.2(2) The following criteria apply to licensure:

a. Employers will submit a completed online licensure application and pay the nonrefundable fee.

b. Employers will submit the following information pertaining to their employed interpreters or transliterators:

(1) First and last name.

(2) Address and telephone number.

(3) Proof of passing one of the examinations or proof of certification as outlined in 481—paragraph 961.2(1)*"b."*

c. Employers will submit required information for new interpreters or transliterators to the board office within 30 days of hire.

d. Consumers will be provided information to file a complaint with the department of inspections, appeals, and licensing to address any concerns with sign language interpretation or transliteration provided.

[**ARC 9318C**, IAB 5/28/25, effective 7/2/25]

481—965.3(154E) License renewal.

965.3(1) The biennial license renewal period for a license will begin on July 1 of an odd-numbered year and end on June 30 of the next odd-numbered year. The licensee is responsible for renewing the license prior to its expiration.

965.3(2) A licensee who was issued a license within six months of the license renewal date will not be required to renew the license until the subsequent renewal date two years later.

965.3(3) A licensee applying for renewal will:

a. Provide attestation that the licensee's employees providing interpreting or transliterating services meet the continuing education requirements as provided in 481—Chapter 962, and

b. Submit the completed renewal application and renewal fee.

965.3(4) A two-year license will be issued after the requirements of this rule are met. In the event the board receives adverse information on the renewal application, the board will issue the renewal license but may refer the adverse information for further consideration or disciplinary investigation.

965.3(5) Late renewal. The license will become late when the license has not been renewed by the expiration date on the renewal. The licensee will be assessed a late fee as specified in 481—subrule 507.18(4). To renew a late license, the licensee will complete the renewal requirements and submit the late fee within the grace period.

965.3(6) Inactive license. A licensee whose license is inactive continues to hold the privilege of licensure in Iowa but cannot practice until the license is reactivated.

[**ARC 9318C**, IAB 5/28/25, effective 7/2/25]

481—965.4(17A,147,272C) License reactivation. To apply for reactivation of an inactive license, a licensee needs to:

965.4(1) Submit a completed online licensure application and pay the nonrefundable fee, and

965.4(2) Submit the following information pertaining to the licensee's employed interpreters or transliterators:

a. First and last name.

b. Address and phone number.

c. Proof of passing one of the examinations or proof of certification as outlined in 481—paragraph 961.2(1)*"b."*

[**ARC 9318C**, IAB 5/28/25, effective 7/2/25]

481—965.5(17A,147,272C) License reinstatement. A licensee whose license has been revoked, suspended, or voluntarily surrendered must apply for and receive board-approved reinstatement of the license and must apply for and be granted reactivation of the license prior to employing sign language interpreters or transliterators in this state.

[**ARC 9318C**, IAB 5/28/25, effective 7/2/25]

481—965.6(154E,272C) License discipline. The board may impose any of the disciplinary sanctions provided in Iowa Code section 272C.3 when the board determines that the licensee is guilty of any of the acts or offenses listed in 481—Chapter 504 or 481—Chapter 963.

[**ARC 9318C**, IAB 5/28/25, effective 7/2/25]

These rules are intended to implement Iowa Code chapter 154E.

[Filed ARC 9318C (Notice ARC 8955C, IAB 2/19/25), IAB 5/28/25, effective 7/2/25]

CHAPTERS 966 to 979

BOARD OF NURSING HOME ADMINISTRATORS

CHAPTER 980
LICENSURE OF NURSING HOME ADMINISTRATORS

[Prior to 8/24/88, see Nursing Home Administrators Board of Examiners[600], Ch 2]
[Prior to 9/18/24, see Professional Licensure Division[645] Ch 141]

Chapter rescission date pursuant to Iowa Code section 17A.7: 6/19/29

481—980.1(155) Definitions. For purposes of these rules, the following definitions shall apply:

"Active license" means a license that is current and has not expired.

"Administrator" means a licensed nursing home administrator.

"Board" means the board of nursing home administrators.

"Grace period" means the 30-day period following expiration of a license when the license is still considered to be active.

"HSE" means a Health Services Executive as designated by the National Association of Boards of Examiners of Long Term Care Administrators.

"Inactive license" means a license that has expired because it was not renewed by the end of the grace period.

"Licensee" means any person licensed to practice as a nursing home administrator in the state of Iowa.

"License expiration date" means December 31 of odd-numbered years.

"Licensure by endorsement" means the issuance of an Iowa license to practice nursing home administration to an applicant who is or has been licensed in another state.

"NAB" means National Association of Boards of Examiners of Long Term Care Administrators.

"Preceptor" means a person who is currently licensed as a nursing home administrator and is approved by the department to supervise a person in a mentoring or administrator training program.

"Provisional license" means a license issued to an administrator appointed on a temporary basis to perform the duties of a nursing home administrator.

"Reactivate" or *"reactivation"* means the process as outlined in rule 481—980.15(17A,147,272C) by which an inactive license is restored to active status.

"Reinstatement" means the process as outlined in rule 481—506.31(272C) by which a licensee who has had a license suspended or revoked or who has voluntarily surrendered a license may apply to have the license reinstated, with or without conditions.

[**ARC 7971C**, IAB 5/15/24, effective 6/19/24; Editorial change: IAC Supplement 9/18/24]

481—980.2(155) Requirements for licensure. The following criteria shall apply to licensure:

980.2(1) Submit a completed online application and pay the nonrefundable licensure fee specified in rule 481—507.10(147,155);

980.2(2) Provide verification of certification as an HSE through NAB; or

980.2(3) Provide verification of the following:

a. Transcripts verifying a baccalaureate or postbaccalaureate degree sent directly from an accredited college or university;

b. Passing score on all required national NAB examinations and meeting all other licensure requirements to be approved to take all required national NAB examinations;

c. Completion of one of the following:

(1) Administrator training program supervised by a preceptor who meets the requirements outlined in rule 481—980.4(155);

(2) Practicum in long-term health care completed through an accredited college or university; or

(3) 2,080 hours of long-term health care administration or health-care-related experience in a nursing home may be approved by board staff.

980.2(4) An applicant who has been licensed in another state will provide verification of license from the jurisdiction in which the applicant has most recently been licensed, sent directly from the jurisdiction to the board office. The applicant must also disclose any public or pending complaints against

the applicant in any other jurisdiction. Web-based verification may be substituted for verification direct from the jurisdiction's board office if it provides:

a. Licensee's name;

b. Date of initial licensure;

c. Current licensure status; and

d. Any disciplinary action taken against the licensee.

[**ARC 7971C**, IAB 5/15/24, effective 6/19/24; Editorial change: IAC Supplement 9/18/24; **ARC 9469C**, IAB 8/6/25, effective 9/10/25; see Delay note at end of chapter; Editorial change: IAC Supplement 8/5/26]

481—980.3(147,155) Foreign-trained applicants. Foreign-trained nursing home administrators will:

980.3(1) Provide an equivalency evaluation of their educational credentials by International Educational Research Foundation, Inc., Credentials Evaluation Service. A candidate will be responsible for the expense of the curriculum evaluation.

980.3(2) Provide a copy of the certificate or diploma awarded to the applicant from a nursing home administration program in the country in which the applicant was educated.

980.3(3) Provide satisfactory evidence of completion of administrator training program, practicum or 2,080 hours of work experience in long-term health care administration.

[**ARC 7971C**, IAB 5/15/24, effective 6/19/24; Editorial change: IAC Supplement 9/18/24]

481—980.4(155) Preceptor qualifications. Preceptor qualifications are as follows:

980.4(1) Current licensure and at least two years of experience as a nursing home administrator.

980.4(2) Completion of NAB's preceptor training course or another board-approved training course prior to the preceptorship.

980.4(3) Preceptor has not had the preceptor's nursing home administrator license disciplined, limited, suspended, or placed on probation during the one year immediately prior to the preceptorship.

980.4(4) Is not related to the training administrator.

980.4(5) Is approved by board staff prior to preceptorship.

[**ARC 7971C**, IAB 5/15/24, effective 6/19/24; Editorial change: IAC Supplement 9/18/24; **ARC 9469C**, IAB 8/6/25, effective 9/10/25; see Delay note at end of chapter]

481—980.5(155) Provisional license. A provisional license may be issued to an administrator appointed on a temporary basis to perform the duties of a nursing home administrator. A provisional license is considered a temporary appointment, and the person appointed may serve as an administrator for a period of time not to exceed 24 months in an entire career. The 24 months in service are not required to be consecutive; however, a new application is required for each appointment period. It is the responsibility of the approved provisional administrator to maintain documentation of the actual dates the administrator serves in that capacity.

980.5(1) The limited circumstances under which the request for a provisional appointment will be granted include the inability of the licensed administrator to perform the administrator's duties, the death of the licensed administrator, or circumstances that prevent the immediate transfer of the licensed administrator's duties to another licensed administrator. A provisional license will not be issued to a licensed nursing home administrator.

980.5(2) Application for a provisional license shall be in writing on forms prescribed by the board. Applicants will meet the following minimum qualifications:

a. Be at least 20 years of age.

b. Be employed on a full-time basis of no less than 40 hours per week to perform the duties of the nursing home administrator.

c. Be knowledgeable about the nursing home administrator's domains of practice, including resident care, human resources, finance, physical environment, and leadership and management.

d. Be without a history of unprofessional conduct or denial of or disciplinary action against a license to practice nursing home administration or any other profession by any lawful licensing authority for reasons outlined in 481—Chapter 982.

e. Provide evidence to establish that the provisional appointment will not exceed the lifetime maximum period of 24 calendar months in duration. For any period in which the applicant previously

served as a provisional administrator, written employment verification or a written attestation of the facility owner, chief operating officer, or board officer will satisfy this requirement.

f. Provide evidence that the provisional appointment complies with the requirements in 481—subrule 58.8(4). A written attestation of the facility owner, chief operating officer, or board officer will satisfy this requirement.

980.5(3) Applications for an extension of the time period for the provisional appointment within the same facility do not require the payment of an additional fee, as long as all other requirements stated in this rule are met.

980.5(4) The board expressly reserves the right to withdraw approval of a provisional appointment. Withdrawal of approval will be based on information or circumstances warranting such action. The provisional administrator will be notified of the withdrawal of approval in writing by certified mail.

[**ARC 7971C**, IAB 5/15/24, effective 6/19/24; Editorial change: IAC Supplement 9/18/24; **ARC 9469C**, IAB 8/6/25, effective 9/10/25; see Delay note at end of chapter]

481—980.6(155) Licensure by endorsement.

980.6(1) An applicant who has been a licensed nursing home administrator under the laws of another jurisdiction will file an application for licensure by endorsement with the board office. The board may receive by endorsement any applicant from the District of Columbia or another state, territory, province or foreign country who:

a. Meets the requirements of rule 481—980.2(155), and

b. Provides evidence of an active license as a nursing home administrator for at least two years just prior to application, or meets the qualifications outlined in rule 481—980.2(155).

980.6(2) Licensure by verification. A person who is licensed in another jurisdiction but who is unable to satisfy the requirements for licensure by endorsement may apply for licensure by verification, if eligible, in accordance with rule 481—501.1(272C).

[**ARC 7971C**, IAB 5/15/24, effective 6/19/24; Editorial change: IAC Supplement 9/18/24; **ARC 9469C**, IAB 8/6/25, effective 9/10/25; see Delay note at end of chapter]

481—980.7(147,155) License renewal.

980.7(1) The biennial license renewal period for a license to practice nursing home administration will begin on January 1 of each even-numbered year and end on December 31 of the next odd-numbered year. All licensees will renew on a biennial basis. The licensee is responsible for renewing the license prior to its expiration.

980.7(2) An individual who was issued a license within six months of the license renewal date does not need to renew the license until the subsequent renewal two years later.

980.7(3) A licensee applying for renewal shall:

a. Meet the continuing education requirements of rule 481—981.2(272C) and the mandatory reporting requirements of subrule 980.7(8). A licensee whose license was reactivated during the current renewal compliance period may use continuing education credit earned during the compliance period for the first renewal following reactivation; and

b. Submit the completed renewal application and renewal fee before the license expiration date.

980.7(4) A two-year license will be issued after the requirements of this rule are met. If the board receives adverse information on the renewal application, the board shall issue the renewal license but may refer the adverse information for further consideration or disciplinary investigation.

980.7(5) Late renewal. The license will become late when the license has not been renewed by the expiration date on the renewal. The licensee will be assessed a late fee as specified in 481—subrule 507.10(3). To renew a late license, the licensee will complete the renewal requirements and submit the late fee within the grace period.

980.7(6) Inactive license. A licensee whose license is inactive continues to hold the privilege of licensure in Iowa, but may not practice as a nursing home administrator in Iowa until the license is reactivated.

980.7(7) Licensees will display their license certificate and proof of active licensure will be in a conspicuous public place at the primary site of practice.

980.7(8) Mandatory reporter training requirements.

a. A licensee who examines, attends, counsels, or treats children, dependent adults, or both in the scope of the licensee's professional practice will complete the applicable department of health and human services training relating to the identification and reporting of child abuse, dependent adult abuse, or both. Written documentation of training completion should be maintained for three years. The training is not required if the licensee is engaged in active duty military service or holds a waiver demonstrating a hardship in complying with these training requirements.

b. The board may select licensees for audit of compliance with the requirements in subrule 980.7(8).

[**ARC 7971C**, IAB 5/15/24, effective 6/19/24; Editorial change: IAC Supplement 9/18/24; **ARC 9469C**, IAB 8/6/25, effective 9/10/25; see Delay note at end of chapter]

481—980.8(17A,147,272C) License reactivation. To apply for reactivation of an inactive license, a licensee shall:

980.8(1) Submit a completed online reactivation application and pay the nonrefundable application fee.

980.8(2) Provide verification of current competence to practice as a nursing home administrator by satisfying the following criteria:

a. Verification of the license from the jurisdiction in which the applicant has most recently been practicing during the time period the Iowa license was inactive, sent directly from the jurisdiction to the board office. The applicant must also disclose any public or pending complaints against the applicant in any other jurisdiction. Web-based verification may be substituted for verification from a jurisdiction's board office if the verification includes:

(1) Licensee's name;

(2) Date of initial licensure;

(3) Current licensure status; and

(4) Any disciplinary action taken against the license; and

b. Verification of completion of 40 hours of continuing education within two years of the application for reactivation or verification of active practice, consisting of a minimum of 2,080 hours, in another state or jurisdiction during the two years preceding an application for reactivation.

[**ARC 7971C**, IAB 5/15/24, effective 6/19/24; Editorial change: IAC Supplement 9/18/24]

481—980.9(17A,147,272C) License reinstatement. A licensee whose license has been revoked, suspended, or voluntarily surrendered must apply for and receive board-approved reinstatement of the license and must apply for and be granted reactivation of the license prior to practicing as a nursing home administrator in this state.

[**ARC 7971C**, IAB 5/15/24, effective 6/19/24; Editorial change: IAC Supplement 9/18/24]

These rules are intended to implement Iowa Code chapters 17A, 147, 155, and 272C.

◊ Two or more ARCs

1 Effective date of rule 600—2.7 delayed by the Administrative Rules Review Committee 70 days.

2 Effective date of 645—subrule 141.3(2), delayed until adjournment of the 1996 General Assembly by the Administrative Rules Review Committee at its meeting held October 10, 1995.

3 March 28, 2012, effective date of 141.9(1) delayed 70 days by the Administrative Rules Review Committee at its meeting held March 12, 2012.

4 September 10, 2025, effective date of amendments to ch 980 [**ARC 9469C**] delayed 70 days by the Administrative Rules Review Committee at its meeting held September 8, 2025.

CHAPTER 981
CONTINUING EDUCATION FOR NURSING HOME ADMINISTRATION

[Prior to 8/24/88, see Nursing Home Administrators Board of Examiners [600], Ch 3]
[Prior to 9/13/95, see 645—Chapter 142]
[Prior to 9/18/24, see Professional Licensure Division[645] Ch 143]

Chapter rescission date pursuant to Iowa Code section 17A.7: 6/19/29

481—981.1(272C) Definitions. For the purpose of these rules, the following definitions will apply:

"Active license" means the license is current and has not expired.

"Approved program/activity" means a continuing education program/activity meeting the standards set forth in these rules.

"Audit" means the selection of licensees for verification of satisfactory completion of continuing education requirements during a specified time period.

"Continuing education" means planned, organized learning acts designed to maintain, improve, or expand a licensee's knowledge and skills in order for the licensee to develop new knowledge and skills relevant to the enhancement of practice, education, or theory development to improve the safety and welfare of the public.

"Hour of continuing education" means at least 50 minutes spent by a licensee in actual attendance at and completion of an approved continuing education activity.

"Inactive license" means a license that has expired because it was not renewed by the end of the grace period.

"Independent study" means a subject/program/activity that a person pursues autonomously that meets standards for approval criteria in the rules and includes a posttest.

"License" means license to practice.

"Licensee" means any person licensed to practice as a nursing home administrator in the state of Iowa.

"National Continuing Education Review Service (NCERS)" means the continuing education review service operated by the National Association of Boards of Examiners for Nursing Home Administrators.

[**ARC 7972C**, IAB 5/15/24, effective 6/19/24; Editorial change: IAC Supplement 9/18/24]

481—981.2(272C) Continuing education requirements.

981.2(1) The biennial continuing education compliance period will extend for a two-year period beginning on January 1 of each even-numbered year and ending on December 31 of the next odd-numbered year. Each biennium, each person who is licensed to practice as a licensee in this state will be required to complete a minimum of 40 hours of continuing education. Licensees who complete continuing education hours in excess of the requirements for renewal may apply up to 50 percent of the required hours to the following renewal period. Licensees may apply a maximum of 20 hours from the previous renewal period.

981.2(2) Requirements of new licensees. Those persons licensed for the first time will not be required to complete continuing education as a prerequisite for the first renewal of their licenses. Continuing education hours acquired anytime from the initial licensing until the second license renewal may be used.

981.2(3) Hours of continuing education credit may be obtained by attending and participating in a continuing education activity.

981.2(4) The licensee is responsible for the cost of continuing education.

[**ARC 7972C**, IAB 5/15/24, effective 6/19/24; Editorial change: IAC Supplement 9/18/24; **ARC 9284C**, IAB 5/14/25, effective 6/18/25]

481—981.3(155,272C) Standards.

981.3(1) *General criteria.* A continuing education activity that meets all of the following criteria is appropriate for continuing education credit if the continuing education activity:

a. Is an organized program of learning fundamental to the practice of the profession that contributes directly to the professional competency of the licensee;

b. Is conducted by individuals who have specialized education, training and experience in the subject matter of the program;

c. Fulfills stated program goals, objectives, or both; and

d. Provides proof of attendance including:

(1) Date(s), location, course title, presenter(s);

(2) Number of program contact hours; and

(3) Certificate of completion or evidence of successful completion of the course provided by the course sponsor.

981.3(2) *Specific criteria.* Licensees may obtain continuing education hours of credit by:

a. Participating in the continuing education programs approved by the National Continuing Education Review Service (NCERS).

b. Academic coursework that meets the criteria set forth in these rules. Continuing education credit equivalents are as follows:

1 academic semester hour = 15 continuing education hours

1 academic quarter hour = 10 continuing education hours

c. Attendance at or participation in a program or course that meets the requirements in subrule 981.3(1).

d. Making presentations; conducting research; producing publications; preparing new courses; participating in home study courses; attending electronically transmitted courses; and attending workshops, conferences, or symposiums.

e. Self-study coursework that meets the criteria set forth in these rules. Continuing education credit equivalent for self-study is as follows:

180 minutes of self-study work = 1 continuing education hour

The maximum number of hours for self-study, including television viewing, video or sound-recorded programs, correspondence work, or research, or by other similar means that is not directly sponsored by and supervised by an accredited postsecondary college or university or NCERS, is eight hours.

[**ARC 7972C**, IAB 5/15/24, effective 6/19/24; Editorial change: IAC Supplement 9/18/24]

481—981.4(155,272C) Exemptions. A licensee is exempt from the continuing education requirement when that person:

1. Served honorably on active duty in the military service;
2. Resided in another state with continuing education requirements that the applicant met;
3. Was a government employee working in the licensee's specialty and assigned to duty outside the United States; or
4. Has a disability, illness, or primary caregiver status requiring an extension of time or exemption upon approval by the board office.

[**ARC 7972C**, IAB 5/15/24, effective 6/19/24; Editorial change: IAC Supplement 9/18/24]

These rules are intended to implement Iowa Code section 272C.2 and chapter 155.

CHAPTER 982
DISCIPLINE FOR NURSING HOME ADMINISTRATORS
[Prior to 5/30/01, see 645—Chapter 141]
[Prior to 9/18/24, see Professional Licensure Division[645] Ch 144]

Chapter rescission date pursuant to Iowa Code section 17A.7: 6/19/29

481—982.1(155,272C) Grounds for discipline. The board may impose any of the disciplinary sanctions provided in rule 481—504.3(272C) when the board determines that the licensee is guilty of any of the following acts or offenses or those listed in 481—Chapter 504.

982.1(1) Any falsification or misrepresentation contained in any report or document attesting to the facts, conditions and activities of the internship or work experience and submitted by the applicant, administrator/preceptor or other participants may be grounds for denial of license or for suspension or revocation of the nursing home administrator license in addition to the imposition of fines and any other penalties provided by law.

982.1(2) Any misappropriation of resident funds or facility funds may be grounds for denial of license or for suspension or revocation of the nursing home administrator license in addition to the imposition of fines and any other penalties provided by law.

This rule is intended to implement Iowa Code chapters 147, 155 and 272C.

CHAPTER 983
ADOPTION OF UNIFORM AND MODEL RULES
[Prior to 9/18/24, see Professional Licensure Division[645] Ch 145]

Chapter rescission date pursuant to Iowa Code section 17A.7: 8/28/29

481—983.1(17A,272C) Board of nursing home administrators adoption of uniform and model rules. The board hereby adopts by reference the following:

983.1(1) to **983.1(9)** Reserved.

983.1(10) Model rules for licensee review committee, 481—Chapter 505.

This rule is intended to implement Iowa Code chapter 272C.

[**ARC 8148C**, IAB 7/24/24, effective 8/28/24; Editorial change: IAC Supplement 9/18/24]

[Filed ARC 8148C (Notice ARC 7296C, IAB 1/24/24), IAB 7/24/24, effective 8/28/24]

CHAPTERS 984 to 1000
Reserved

INTERIOR DESIGN EXAMINING BOARD

CHAPTER 1001
DESCRIPTION OF ORGANIZATION

[Prior to 6/24/26, see Interior Design Examining Board[193G] Ch 1]

Chapter rescission date pursuant to Iowa Code section 17A.7: 4/23/30

481—1001.1(544C,17A) Definitions. As used in these rules, the following definitions of words and terms apply:

"Board" means the same as in Iowa Code section 544C.1(1).

"CIDQ" means the Council for Interior Design Qualification.

"Department" means the same as in Iowa Code section 544C.1(4).

"Registered interior design" means the same as in Iowa Code section 544C.1(9).

"Registered interior designer" means the same as in Iowa Code section 544C.1(10).

[**ARC 9023C**, IAB 3/19/25, effective 4/23/25]

481—1001.2(544C) Description.

1001.2(1) The purpose of the board is to administer and enforce the provisions of Iowa Code chapter 544C. The board has promulgated these rules to clarify the board's intent and procedures.

1001.2(2) The primary mission of the board is to protect the public interest. All board rules are construed as fostering the guiding policies and principles described in Iowa Code chapter 544C.

[**ARC 9023C**, IAB 3/19/25, effective 4/23/25]

481—1001.3(544C,17A) Organization and duties. The board elects annually from its members a chairperson and a vice-chairperson. A quorum of the board is four members, and all final motions and actions must receive a majority vote. The board enforces the provisions of Iowa Code chapter 544C and maintains a roster of all registered interior designers in the state.

1001.3(1) *Chairperson.* The chairperson, when present, presides at the meetings, appoints committees, and exercises all duties and powers of the chairperson.

1001.3(2) *Vice chairperson.* The vice chairperson, in the absence or incapacity of the chairperson, exercises the duties and powers of the chairperson.

[**ARC 9023C**, IAB 3/19/25, effective 4/23/25]

481—1001.4(544C,17A) Meetings. Calls for meetings are issued in accordance with Iowa Code section 21.4. The first meeting scheduled after April 30 is the annual meeting. The chairperson and vice chairperson are elected at the annual meeting. The chairperson and vice chairperson serve one-year terms. The newly elected officers assume the duties of their respective offices at the conclusion of the meeting at which they are elected.

[**ARC 9023C**, IAB 3/19/25, effective 4/23/25]

481—1001.5(544C) Other meetings. In addition to the annual meeting and any subsequent meetings, the time and place of which may be fixed by vote of the board, a meeting may be called by the chairperson of the board or by joint call of a majority of its members.

[**ARC 9023C**, IAB 3/19/25, effective 4/23/25]

481—1001.6(544C) Administrative committees. The board chairperson may appoint administrative committees of members of the board for the purpose of making recommendations on matters specified by the board.

[**ARC 9023C**, IAB 3/19/25, effective 4/23/25]

481—1001.7(544C,17A) Waivers. Persons who wish to seek waivers from board rules should consult the uniform rules for the department at 7—Chapter 2504.

[**ARC 9023C**, IAB 3/19/25, effective 4/23/25; Editorial change: IAC Supplement 8/5/26]

These rules are intended to implement Iowa Code chapters 17A, 21, 22, 252J, 261, 272C and 544C.

[Filed 9/21/06, Notice 8/16/06—published 10/11/06, effective 11/15/06]
[Filed ARC 3024C (Notice ARC 2797C, IAB 11/9/16), IAB 4/12/17, effective 5/17/17]
[Filed ARC 5568C (Notice ARC 5360C, IAB 12/30/20), IAB 4/21/21, effective 5/26/21]
[Filed ARC 9023C (Notice ARC 8547C, IAB 12/25/24), IAB 3/19/25, effective 4/23/25]
[Editorial change: IAC Supplement 6/24/26]
[Editorial change: IAC Supplement 8/5/26]

CHAPTER 1002
REGISTRATION
[Prior to 6/24/26, see Interior Design Examining Board[193G] Ch 2]

Chapter rescission date pursuant to Iowa Code section 17A.7: 4/23/30

481—1002.1(544C) Certificate of registration. All applicants for registration will complete a board-approved application and satisfy the interior design education, practical training, examination, and fee requirements established by this rule.

1002.1(1) *Education and practical training.* An applicant for registration shall meet the education and training requirements set forth in Iowa Code section 544C.5.

1002.1(2) *Examination.* An applicant for registration will verify successful completion of the National Council for Interior Design Qualification examination or its equivalent.

1002.1(3) *Reciprocity.* The board may also grant registration by reciprocity as provided in Iowa Code section 544C.6.

1002.1(4) *Military service and veteran reciprocity.* The board may grant registration for military service applicants, spouses, and veterans as provided for in 481—Chapter 7.

1002.1(5) *Registration by verification.* The board may grant registration via verification as provided for in 481—Chapter 501.

[**ARC 9024C**, IAB 3/19/25, effective 4/23/25; Editorial change: IAC Supplement 6/24/26]

481—1002.2(17A,272C,544C) Renewal of certificates of registration. Certificates of registration expire biennially on June 30. Certificates issued to registrants with last names beginning with A through K expire on June 30 of even-numbered years and certificates issued to registrants with last names beginning with L through Z expire on June 30 of odd-numbered years. However, a registration issued on or after May 1 but before June 30 will not expire until June 30 of the next renewal. For example, a license issued on May 17, 2020, would not expire until June 30, 2022. A registrant who fails to renew by the expiration date is not authorized to use the title of registered interior designer in Iowa until the certificate is reinstated as provided in rule 481—1002.3(544C,17A).

1002.2(1) It is the policy of the board to send to each registrant a notice of the pending expiration date. Failure to receive this notice does not relieve the registrant of the responsibility to timely renew the certificate and pay the renewal fee.

1002.2(2) If grounds exist to deny a timely and sufficient application to renew, the board shall send written notification to the applicant by restricted certified mail, return receipt requested. Grounds may exist to deny an application to renew if, for instance, the registrant failed to satisfy the continuing education provisions required as a condition for registration. If the basis for denial is a pending disciplinary action or disciplinary investigation that is reasonably expected to culminate in disciplinary action, the board shall proceed as provided in 481—Chapter 506. If the basis for denial is not related to a pending or imminent disciplinary action, the applicant may contest the board's decision as provided in 481—Chapter 506.

1002.2(3) When a registrant appears to be in violation of mandatory continuing education requirements, the board may, in lieu of proceeding to a contested case hearing on the denial of a renewal application as provided in 481—Chapter 506, and after or in lieu of giving the licensee an opportunity to come into compliance under rule 481—1003.3(17A,544C), offer a registrant the opportunity to sign a consent order. While the terms of the consent order will be tailored to the specific circumstances at issue, the consent order will typically impose a penalty between $50 and $250, depending on the severity of the violation; establish deadlines for compliance; and require that the registrant complete hours equal to double the deficiency in addition to the required hours. The consent order may impose additional educational requirements on the registrant. Any additional hours of continuing education completed in compliance with the consent order cannot again be claimed at the next renewal. The board will address subsequent offenses on a case-by-case basis. A registrant is free to accept or reject the offer. If the offer of settlement is accepted, the registrant will be issued a renewed certificate of registration and will be subject to disciplinary action if the terms of the consent order are not fulfilled. If the offer of settlement is rejected, the matter will be set for hearing if timely requested by the registrant pursuant to 481—Chapter 506.

1002.2(4) A registrant who continues to use the title of registered interior designer in Iowa after the registration has expired may be subject to disciplinary action. Such unauthorized activity may also be grounds to deny a registrant's application for reinstatement.

1002.2(5) Registrants shall notify the board within 30 days of any change of address or business.

[**ARC 9024C**, IAB 3/19/25, effective 4/23/25; Editorial change: IAC Supplement 6/24/26]

481—1002.3(544A,17A,272C) Grounds for denial of registration renewal. Failure of a registrant to complete the continuing education requirements as set forth in 481—Chapter 1003, failure to file a report of completed continuing education, or failure to submit a written request for waiver or exemption shall be grounds for the board to deny renewal of the registration.

[**ARC 9024C**, IAB 3/19/25, effective 4/23/25; Editorial change: IAC Supplement 6/24/26]

481—1002.4(544A,17A) Reinstatement of certificates of registration. An individual may reinstate a lapsed certificate of registration to active registration by doing the following:

1. Paying the current renewal fee;
2. Paying the reinstatement fee of $100;
3. Providing a written statement outlining the professional activities that the applicant performed in Iowa during the period of nonregistration, including a list of all projects with which the applicant had involvement and explaining the service provided by the applicant; and
4. Submitting documented evidence of completion of 10 continuing education hours, which should have been reported on the June 30 renewal date on which the applicant failed to renew, and 5 continuing education hours for each year or portion of a year of expired registration up to a maximum of 20 continuing education hours. All continuing education hours are to be completed in health, safety, and welfare subjects; be acquired in structured educational activities; and be in compliance with requirements in 481—Chapter 1003. The continuing education hours used for reinstatement may not be used again at the next renewal and may not have been earned more than four years prior to the date of the application to reinstate.

[**ARC 9024C**, IAB 3/19/25, effective 4/23/25; Editorial change: IAC Supplement 6/24/26]

481—1002.5(544A) Applications.

1002.5(1) The interior designer is responsible for verifying the accuracy of the information submitted on applications regardless of how the application is submitted or by whom it is submitted. For instance, if the office manager of an interior designer's firm submits an application for renewal on behalf of the interior designer and that information is incorrect, the interior designer will be held responsible for the information and may be subject to disciplinary action.

1002.5(2) Persons applying for initial, renewal, or reciprocal registration will submit an application on a form provided by the board and pay a registration fee of $275. An applicant applying for initial, reciprocal, or reinstatement registration within 12 months from the applicant's renewal date pays half of the required fee. An applicant applying for initial, reciprocal, or reinstatement registration 12 months or more from the applicant's renewal date pays the full registration fee.

1002.5(3) Fee schedule.

Type of fee	Amount
Registration fee	$275
Renewal	$275
Reinstatement of lapsed registration	$100
License predetermination fee	$25
Dishonored check, draft, order or other payment failure	$30

All fees are nonrefundable.

[**ARC 9024C**, IAB 3/19/25, effective 4/23/25; Editorial change: IAC Supplement 6/24/26]

CHAPTER 1003
CONTINUING EDUCATION
[Prior to 6/24/26, see Interior Design Examining Board[193G] Ch 3]

Chapter rescission date pursuant to Iowa Code section 17A.7: 4/23/30

481—1003.1(17A,272C,544C) Definitions. As used in these rules, the following definitions apply:

"Contact hour" means one 60-minute clock hour of educational activity of which at least 50 minutes are devoted to instructional content. Where other units of credit are stated for an educational experience (e.g., continuing education units (CEUs)), they will be credited in terms of actual contact hours.

"Distance education" means any education process based on the geographical separation of student and instructor.

"Health, safety and welfare subjects" or *"HSW subjects"* means subjects that relate to the planning and designing of spaces and elements to minimize the risk of injury to persons or property. Such subjects include compliance with applicable building and safety codes, the planning and designing of spaces and elements that optimize over time the physically and mentally healthful use of those spaces and elements, and the planning and designing of spaces and elements that are durable, maintainable, cost-effective, environmentally conscientious and conservative of resources; that function properly in all relevant respects; that encourage access, functional independence and use by all relevant populations; that encourage user satisfaction, including aesthetic appeal; that promote a sense of user confidence and peace of mind; that integrate effectively with the surrounding environment; and that, in other similar ways, enhance the health, safety and well-being of the public.

"Structured activity" means a method of interior design-related learning led by a qualified individual and conducted or sponsored by a professional organization, technical organization, industry source or accredited college or university taught in person or through distance education.

[**ARC 9025C**, IAB 3/19/25, effective 4/23/25; Editorial change: IAC Supplement 6/24/26]

481—1003.2(17A,272C,544C) Continuing education requirements.

1003.2(1) Hours required. Completion of a minimum of ten contact hours in acceptable health, safety and welfare subjects satisfies the continuing education necessary for biennial registration renewal. All hours shall be in structured activity programs and must be acquired during the renewal period. A registrant may carry over up to five contact hours of continuing education credit obtained in excess of the requirements for a renewal period to the following renewal period.

1003.2(2) Continuing education hours may be acquired in any state, provided that the registrant can demonstrate that the program meets the definition of structured activity as defined in this chapter.

1003.2(3) A registered interior designer who holds a registration in Iowa for less than 12 months from the date of initial registration is not required to report continuing education at the first registration renewal. A registered interior designer who holds a registration in Iowa for 12 months or more, but less than 24 months from the date of initial registration, will report five contact hours of HSW subjects in a structured activity, earned in the preceding 12 months, at the first registration renewal.

1003.2(4) Sources of continuing education. Credit may not be claimed for any activity required as part of a registered interior designer's routine professional responsibilities. Structured activities include the following:

a. Completion of any program or course sponsored by a professional or technical organization or industry source.

b. Instruction of a course, seminar, lecture, presentation, workshop, webinar or similar formal educational program. Credit is allowed at a maximum of three preparation hours for each class hour spent for actual presentation, valid for the initial presentation only. College and university faculty may not claim contact or preparation credit for teaching regular curriculum courses.

c. Research that is formally presented to the profession or public. Credit is allowed at a maximum of four contact hours per reporting period and shall be valid for the initial presentation only.

d. Completion of college or university credit courses dealing with interior-design-related subjects. Each semester hour equals 15 contact hours. A quarter hour equals ten contact hours.

1003.2(5) Approved continuing education. The board does not preapprove continuing education activities or courses; however, acceptable HSW subjects that enhance the health, safety, and well-being of the public include the following topics:

a. Life safety, ADA, and other building and safety codes, standards and administrative regulations governing the practice of interior design.

b. Safety and security.

c. Physical and mental health issues.

d. Topics that relate to human physiology, perception, anthropometrics, ergonomics, psychology, sociology, ecology and cultural factors.

e. Energy efficiency.

f. Environmental issues.

g. Accessibility and universal design.

h. Materials and methods.

i. Building systems.

j. Statutes and rules relating to interior design regulation.

k. Professional ethics.

l. Legal aspects of professional practice.

m. Construction documents and services.

n. Project administration.

[**ARC 9025C**, IAB 3/19/25, effective 4/23/25; Editorial change: IAC Supplement 6/24/26]

481—1003.3(17A,272C,544C) Controls and reporting.

1003.3(1) An applicant for registration renewal may be requested to provide, in such manner and at such time as prescribed by the board, a signed statement, under penalty of perjury, on forms provided by the board, setting forth the continuing education in which the registrant has participated.

a. When an applicant is requested to provide a listing of the continuing education completed for structured activities, the information will include the following:

(1) The school, firm or organization conducting the course.

(2) The location of the course.

(3) The title of the course or a description of the course content.

(4) The name of the principal instructor.

(5) The dates attended.

(6) The hours claimed.

b. Reserved.

1003.3(2) The board may verify information submitted by registrants. If an application for renewal is not approved, the applicant will be notified and may be granted a period of time by the board in which to correct the deficiencies noted. Any discrepancy between the number of CEUs reported and the number of CEUs actually supported by documentation may result in a disciplinary review. If, after the disciplinary review, the board disallows any CEUs, or the registrant has failed to complete the required CEUs, the interior designer has 60 days from notification by the board to either provide further evidence of having completed the CEUs disallowed or remedy the discrepancy by completing the required number of CEUs (provided that such CEUs shall not again be used for the next renewal). An extension of time may be granted on an individual basis if requested by the registrant within 30 days of notification by the board. If the registrant fails to comply with the requirements of this subrule, the registrant may be subject to disciplinary action. If the board finds, after proper notice and hearing, that the interior designer willfully disregarded these requirements or falsified documentation of required CEUs, the interior designer may be subject to disciplinary action.

1003.3(3) The registrant is responsible for maintaining verification of claimed credit for a minimum of five years subsequent to submission of the report to the board office. Acceptable verification may be presented with a course completion certificate or a college transcript.

[**ARC 9025C**, IAB 3/19/25, effective 4/23/25; Editorial change: IAC Supplement 6/24/26]

481—1003.4(17A,544C) Exemptions.

1003.4(1) As provided in Iowa Code section 272C.2(4), a registered interior designer is deemed to have complied with the continuing education requirements set forth in this chapter if during the continuing education compliance period the registrant:

a. Has served honorably on active duty in the military service; or

b. Is a resident of another state or district having a continuing education requirement for registered interior design and has complied with all requirements of that state or district for practice therein; or

c. Is a government employee working as a registered interior designer outside the United States.

1003.4(2) The board shall have authority to make exceptions for reasons of individual hardship, including health (certified by a medical doctor) or other good cause. See 7—Chapter 2504.

[**ARC 9025C**, IAB 3/19/25, effective 4/23/25; Editorial change: IAC Supplement 6/24/26]

These rules are intended to implement Iowa Code chapter 544C.

CHAPTER 1004
PROFESSIONAL CONDUCT
[Prior to 6/24/26, see Interior Design Examining Board[193G] Ch 4]

Chapter rescission date pursuant to Iowa Code section 17A.7: 5/8/29

481—1004.1(544C) Rules of conduct. A registered interior designer shall maintain a high standard of integrity and professional responsibility within the profession of registered interior design to protect the public health, life, safety, and welfare. Failure by a registrant to adhere to the provisions of Iowa Code section 272C.10 and chapter 544C and the following rules of conduct may be grounds for disciplinary action.

1004.1(1) *Competence.*

a. A registered interior designer shall act with reasonable care and competence and apply the technical knowledge and skill ordinarily applied by a registered interior designer of good standing providing interior design services in the same locality.

b. The board may initiate discipline against a registered interior designer or may, when appropriate, refer a registered interior designer to the board's impaired practitioner review committee based on habitual intoxication or addiction to the use of drugs or other impairment that adversely affects the registrant's ability to practice in a safe and competent manner.

1004.1(2) *Conflict of interest.*

a. A registered interior designer shall not accept compensation for services from more than one party on a project unless the circumstances are fully disclosed to and agreed to (such disclosures and agreements are to be in writing) by all interested parties in advance of payment of such compensation.

b. If a registered interior designer has any business association or direct or indirect financial interest that is substantial enough to influence the registered interior designer's judgment in connection with the registered interior designer's performance of professional services, the registered interior designer shall fully disclose, in writing, to the client or employer the nature of the business association or financial interest, and if the client or employer objects to the association or financial interest, the registered interior designer will either terminate such association or interest or offer to give up the commission or employment.

c. A registered interior designer shall not solicit or accept compensation from material or equipment suppliers in return for specifying or endorsing the products.

d. When acting as the interpreter of building contract documents and the judge of contract performance, a registered interior designer shall render decisions impartially, favoring neither party to the contract.

1004.1(3) *Full disclosure.*

a. A registered interior designer shall not deliberately make a materially false statement or deliberately fail to disclose a material fact requested in connection with application for registration or renewal of registration.

b. A registered interior designer shall not assist in the application for registration of a person known by the registered interior designer to be unqualified with respect to education, training, experience or character.

c. A registered interior designer engaged in the practice of interior design must act in the best interest of the client and shall not allow integrity, objectivity or professional judgment to be impaired.

d. A registered interior designer with knowledge of a violation of these rules by another registered interior designer shall report such knowledge to the board.

1004.1(4) *Professional conduct.*

a. A registered interior designer shall respect the confidentiality of sensitive information obtained in the course of the interior designer's professional activities.

b. A registered interior designer shall not engage in conduct involving fraud, deceit, misrepresentation or dishonesty in the practice of interior design.

c. A registered interior designer shall neither attempt to obtain a contract to provide interior design services through any unlawful means nor assist others in such an attempt.

d. A registered interior designer shall neither offer nor make any payment to a governmental official with the intent of influencing the official's judgment in connection with a prospective or existing project in which the interior designer has an interest.

1004.1(5) *Seal and certificate of responsibility.*

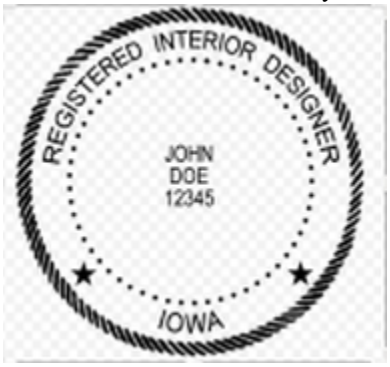
a. The seal under Iowa Code section 544C.14 shall include:

(1) An outside circle with a diameter of approximately 1 ¾ inches.

(2) The name of the registered interior designer and the words "Registered Interior Designer."

(3) The Iowa registration number and the word "Iowa."

b. The seal will substantially conform to the sample shown below:



c. A legible rubber stamp, electronic image or other facsimile of the seal may be used.

d. Each technical submission submitted to a client or any public agency, hereinafter referred to as the official copy, shall contain an information block on its first page or on an attached cover sheet with application of a seal by the registered interior designer in responsible charge and an information block with application of a seal by each professional consultant contributing to the technical submission. The seal and original signature shall be applied only to a final technical submission. Each official copy of a technical submission shall be stapled, bound or otherwise attached together so as to clearly establish the complete extent of the technical submission. Each information block shall display the seal of the individual responsible for that portion of the technical submission. The area of responsibility for each sealing professional shall be designated in the area provided in the information block, so that responsibility for the entire technical submission is clearly established by the combination of the stated seal responsibilities. The information block will substantially conform to the sample shown below:

S E A L	I hereby certify that the portion of this technical submission described below was prepared by me or under my direct supervision and responsible charge. I am a duly registered interior designer under the laws of the state of Iowa. _____ Signature Date Printed or typed name_____ Registration number_____ My registration renewal date is June 30,_____ . Pages or sheets covered by this seal: _____ _____ _____ _____ _____

e. The information requested in each information block must be typed or legibly printed in permanent ink or a secure electronic signature. An electronic signature as defined in or governed by Iowa Code chapter 554D meets the signature requirements of this rule if it is protected by a security procedure, as defined in Iowa Code section 554D.103(14), such as digital signature technology. It is the registrant's responsibility to ensure, prior to affixing an electronic signature to a technical submission, that security procedures are adequate to:

(1) Verify that the signature is that of a specific person, and

(2) Detect any changes that may be made or attempted after the signature of the specific person is affixed. The seal implies responsibility for the entire technical submission unless the area of responsibility is clearly identified in the information accompanying the seal.

f. It is the responsibility of the registered interior designer who signed the original submission to forward copies of all changes and amendments to the technical submission, which becomes a part of the official copy of the technical submission, to the public official charged with the enforcement of the state, county, or municipal building code.

g. A registered interior designer is responsible for the custody and proper use of the seal. Improper use of the seal may be grounds for disciplinary action.

h. The seal appearing on any technical submission establishes prima facie evidence that said technical submission was prepared by or under the responsible charge of the individual named on that seal.

[**ARC 7742C**, IAB 4/3/24, effective 5/8/24; Editorial change: IAC Supplement 6/24/26]

This rule is intended to implement Iowa Code chapter 544C.

[Filed 5/15/07, Notice 3/28/07—published 6/6/07, effective 7/11/07]
[Filed ARC 7742C (Notice ARC 7510C, IAB 1/24/24), IAB 4/3/24, effective 5/8/24]
[Editorial change: IAC Supplement 6/24/26]

CHAPTER 1005
GROUNDS FOR DISCIPLINE, DISCIPLINARY INVESTIGATIONS, AND DISCIPLINARY PROCEEDINGS

[Prior to 6/24/26, see Interior Design Examining Board[193G] Ch 5]

Chapter rescission date pursuant to Iowa Code section 17A.7: 4/23/30

481—1005.1(17A,272C,544C) Grounds for discipline. The board may initiate disciplinary action against a registered interior designer on any of the following grounds:

1. A violation of any of the rules of professional conduct set forth in 481—Chapter 1004.
2. A violation of Iowa Code section 272C.9(2) or 272C.9(3).
3. Failure to comply with an order of the board imposing discipline.
4. Continuing to practice as a registered interior designer without satisfying the continuing education requirement, absent express waiver granted by the board.
5. Failure to fully cooperate with a registrant disciplinary investigation or investigation against a nonregistrant, including failure to respond to a board inquiry within 30 calendar days of the date of mailing by certified mail of a written communication directed to the registrant's last address on file at the board office.
6. A violation of Iowa Code section 544C.9 or 272C.10.

[**ARC 9026C**, IAB 3/19/25, effective 4/23/25; Editorial change: IAC Supplement 6/24/26]

481—1005.2(17A,272C,544C) Initiation of disciplinary investigations. The board may initiate a registrant disciplinary investigation upon the board's receipt of information suggesting that a registrant may have violated a law or rule enforced by the board which violation, if true, would constitute grounds for registrant discipline. The board may also review the publicly available work product of a registrant on a general or random basis to determine whether reasonable grounds exist to initiate disciplinary proceedings or to conduct a more specific investigation.

[**ARC 9026C**, IAB 3/19/25, effective 4/23/25; Editorial change: IAC Supplement 6/24/26]

481—1005.3(17A,272C,544C) Conflict of interest. If the subject of a complaint is a member of the board, or if a member of the board has a conflict of interest in any disciplinary matter before the board, that member will abstain from participation in any consideration of the complaint and from participation in any disciplinary hearing that may result from the complaint.

[**ARC 9026C**, IAB 3/19/25, effective 4/23/25; Editorial change: IAC Supplement 6/24/26]

481—1005.4(272C,544C) Complaints. Written complaints may be submitted to the board office by mail, email, website portal, or personal delivery.

1005.4(1) *Contents of a written complaint.* Written complaints may be submitted on forms provided by the board that are available from the board's website. Written complaints should include as much of the following information as possible:

a. The full name, address and telephone number of the complainant (person filing the complaint).

b. The full name, address and telephone number of the respondent (registrant against whom the complaint is filed).

c. A statement of the facts and circumstances giving rise to the complaint, including a description of the alleged acts or omissions that the complainant believes demonstrate that the respondent has violated or is violating laws or rules enforced by the board.

d. If known, citations to the laws or rules allegedly violated by the respondent.

e. Evidentiary supporting documentation.

f. Steps, if any, taken by the complainant to resolve the dispute with the respondent prior to filing a complaint.

1005.4(2) *Immunity.* As provided by Iowa Code section 272C.8, a person will not be civilly liable as a result of filing a report or complaint with the board unless such act is done with malice, nor will an

employee be dismissed from employment or discriminated against by an employer for filing such a report or complaint.

1005.4(3) *Role of complainant.* The role of the complainant in the disciplinary process is limited to providing the board with factual information relative to the complaint. A complainant is not party to any disciplinary proceeding that may be initiated by the board based in whole or in part on information provided by the complainant.

1005.4(4) *Role of the board.* The board does not act as an arbiter of disputes between private parties, nor does the board initiate disciplinary proceedings to advance the private interest of any person or party. The role of the board in the disciplinary process is to protect the public by investigating complaints and initiating disciplinary proceedings in appropriate cases. The board possesses sole decision-making authority throughout the disciplinary process, including the authority to determine whether a case will be investigated, the manner of the investigation, whether a disciplinary proceeding will be initiated, and the appropriate registrant discipline to be imposed, if any.

1005.4(5) *Initial complaint screening.* All written complaints received by the board are initially screened to determine whether the allegations of the complaint fall within the board's investigatory jurisdiction and whether the facts presented, if true, would constitute a basis for disciplinary action against a registrant. Complaints that are clearly outside the board's jurisdiction, that clearly do not allege facts upon which disciplinary action would be based, or that are frivolous are referred to the board for closure at the next scheduled board meeting. All other complaints are referred to the board's disciplinary committee for committee review as described in rule 481—1005.6(17A,272C,544C).

[**ARC 9026C**, IAB 3/19/25, effective 4/23/25; Editorial change: IAC Supplement 6/24/26]

481—1005.5(272C,544C) Case numbers. Whether based on a written complaint received by the board or a complaint initiated by the board, all complaint files are tracked by a case numbering system. The board administrator maintains a case file log noting the date each case file was opened, whether disciplinary proceedings were initiated in the case, and the final disposition of the case. Once a case file number is assigned to a complaint, all persons communicating with the board regarding that complaint are encouraged to include the case file number to facilitate accurate recordkeeping and a prompt response.

[**ARC 9026C**, IAB 3/19/25, effective 4/23/25; Editorial change: IAC Supplement 6/24/26]

481—1005.6(17A,272C,544C) Investigation procedures.

1005.6(1) *Disciplinary committee.* The board chairperson may annually appoint, as needed, two to three members of the board to serve on the board's disciplinary committee to review and process disciplinary complaints. The disciplinary committee is a purely advisory body that reviews complaint files referred by the board administrator, generally supervises the investigation of complaints, and makes recommendations to the full board on the disposition of complaints. Members of the committee may not personally investigate complaints, but they may review the investigative work product of others in formulating recommendations to the board.

1005.6(2) *Committee screening of complaints.* Upon the referral of a complaint from the board administrator or from the full board, the committee determines whether the complaint presents facts that, if true, suggest that a registrant may have violated a law or rule enforced by the board. If the committee concludes that the complaint does not present facts that suggest such a violation or that the complaint does not otherwise constitute an appropriate basis for disciplinary action, the committee will refer the complaint to the full board with the recommendation that the complaint be closed with no further action. If the committee determines that the complaint does present a credible basis for disciplinary action, the committee may either immediately refer the complaint to the full board recommending that a disciplinary proceeding be commenced or initiate a disciplinary investigation.

1005.6(3) *Committee procedures.* If the committee determines that additional information is necessary or desirable to evaluate the merits of a complaint, the committee may assign an investigator or expert consultant, appoint a peer-review committee, provide the registrant an opportunity to appear before the disciplinary committee for an informal discussion as described in rule 481—503.4(272) or request that board staff conduct further investigation. Upon completion of an investigation, the investigator, expert consultant and peer-review committee or board staff will present a report to the committee. The committee

will review the report and determine what further action is necessary. The committee may do any of the following:

a. Request further investigation.

b. Determine there is not probable cause to believe a disciplinary violation has occurred and refer the case to the full board with the recommendation of closure.

c. Determine there is probable cause to believe that a law or rule enforced by the board has been violated but that disciplinary action is unwarranted on other grounds and refer the case to the full board with the recommendation of closure. The committee may also recommend that the registrant be informally cautioned or educated about matters that could form the basis for disciplinary action in the future.

d. Determine there is probable cause to believe a disciplinary violation has occurred and refer the case to the full board with the recommendation that the board initiate a disciplinary proceeding (contested case).

1005.6(4) *Subpoena authority.* Pursuant to Iowa Code sections 17A.13(1) and 272C.6(3), the board is authorized in connection with a disciplinary investigation to issue subpoenas to compel witnesses to testify or persons to produce books, papers, records and any other real evidence, whether or not privileged or confidential under law, that the board deems necessary as evidence in connection with a disciplinary proceeding or relevant to the decision of whether to initiate a disciplinary proceeding. Board procedures concerning investigatory subpoenas are set forth in rule 481—503.5(17A,272C).

[**ARC 9026C**, IAB 3/19/25, effective 4/23/25; Editorial change: IAC Supplement 6/24/26]

481—1005.7(17A,272C,544C) Informal discussion. If the disciplinary committee considers it advisable, or if requested by the affected registrant, the committee may grant the registrant an opportunity to appear before the committee for a voluntary informal discussion of the facts and circumstances of an alleged violation, subject to the provisions of this rule.

1005.7(1) An informal discussion is intended to provide a registrant an opportunity to share the registrant's account of a complaint in an informal setting before the board determines whether probable cause exists to initiate a disciplinary proceeding. A registrant is not required to attend an informal discussion. Because disciplinary investigations are confidential, the registrant may not bring other persons to an informal discussion, but registrants may be represented by legal counsel.

1005.7(2) Unless disqualification is waived by the registrant, board members or staff who personally investigate a disciplinary complaint are disqualified from making decisions or assisting the decision makers at a later formal hearing. An informal discussion is a form of investigation because it is conducted in a question-and-answer format. In order to preserve the ability of all board members to participate in board decision making and to receive the advice of staff, a registrant who desires to attend an informal discussion must therefore waive the right to seek disqualification of a board member or staff based solely on the board member's or staff's participation in an informal discussion. A registrant would not waive the right to seek disqualification on any other ground. By electing to attend an informal discussion, a registrant accordingly agrees that none of the participating board members or staff is disqualified from acting as a presiding officer in a later contested case proceeding or from advising the decision-maker.

1005.7(3) Because an informal discussion constitutes a part of the board's investigation of a pending disciplinary case, the facts discussed at the informal discussion may be considered by the board in the event the matter proceeds to a contested case hearing and those facts are independently introduced into evidence.

1005.7(4) The disciplinary committee, subject to board approval, may propose a consent order at the time of the informal discussion. If the registrant agrees to a consent order, a statement of charges will be filed simultaneously with the consent order, as provided in 481—Chapter 506.

[**ARC 9026C**, IAB 3/19/25, effective 4/23/25; Editorial change: IAC Supplement 6/24/26]

481—1005.8(17A,272C,544C) Closing complaint files.

1005.8(1) *Grounds for closing.* Upon the recommendation of the board's executive officer pursuant to subrule 1005.4(5), the recommendation of the disciplinary committee pursuant to rule 481—1005.6(17A,272C,544C), or on its own motion, the board may close a complaint file, with or without prior investigation. The board's decision is final and not eligible for judicial review.

1005.8(2) *Cautionary letters.* The board may issue a confidential letter of caution to a registrant when a complaint file is closed that informally cautions or educates the registrant about matters that could form the basis for disciplinary action in the future if corrective action is not taken by the registrant. Cautionary letters do not constitute disciplinary action, but the board may take such letters into consideration in the future if a registrant continues a practice about which the registrant has been cautioned.

1005.8(3) *Reopening closed complaint files.* The board may reopen a closed complaint file if additional information arises after closure that provides a basis to reassess the merits of the initial complaint.

[**ARC 9026C**, IAB 3/19/25, effective 4/23/25; Editorial change: IAC Supplement 6/24/26]

481—1005.9(17A,272C,544C) Initiation of disciplinary proceedings. Disciplinary proceedings may be initiated only by the affirmative vote of a quorum of the board at a public meeting. Board members who are disqualified shall not be included in determining whether a quorum exists. If, for example, two members of the board are disqualified, four members of the board constitute a quorum of the remaining six board members for purposes of voting on the case in which the two members are disqualified. When three or more members of the board are disqualified or otherwise unavailable for any reason, the board's executive officer may request the special appointment of one or more substitute board members pursuant to Iowa Code section 17A.11(5).

[**ARC 9026C**, IAB 3/19/25, effective 4/23/25; Editorial change: IAC Supplement 6/24/26]

481—1005.10(17A,272C,544C) Disciplinary contested case procedures. Unless in conflict with a provision of board rules in this chapter, all of the procedures set forth in 481—Chapter 506 apply to disciplinary contested cases initiated by the board.

[**ARC 9026C**, IAB 3/19/25, effective 4/23/25; Editorial change: IAC Supplement 6/24/26]

481—1005.11(272C,544C) Disciplinary sanctions.

1005.11(1) *Types of sanctions.* The board has authority to impose the following disciplinary sanctions:

a. Revoke a registration issued by the board.

b. Suspend a registration issued by the board.

c. Revoke or suspend the privilege to engage in one or more areas of registered interior design.

d. Impose a period of probation, either with or without conditions.

e. Impose requirements regarding continuing education. The board may specify that a designated amount of continuing education be taken in specific subjects and may specify the time period for completing these courses. The board may also specify whether that continuing education be in addition to the continuing education routinely required for registration renewal. The board may also specify that additional continuing education be a condition for the termination of any suspension or reinstatement of a registration. The board may also specify that current reference materials be obtained and maintained.

f. Require reexamination, using one or more parts of the National Council for Interior Design Qualification (NCIDQ) examination given to candidates for the registered interior design registration.

g. Impose civil penalties in an amount set by the board but not to exceed $1,000 per violation. Civil penalties may be imposed for any of the disciplinary violations specified in rule 481—1005.2(17A,272C,544C).

h. Issue a reprimand.

1005.11(2) *Imposing discipline.* Discipline may be imposed against a registrant only by the affirmative vote of a majority of the members of the board who are not disqualified.

1005.11(3) *Voluntary surrender.* The board may accept the voluntary surrender of a registration to resolve a pending disciplinary investigation or contested case. The board shall not accept a voluntary surrender of a registration to resolve a pending disciplinary investigation unless a statement of charges will be filed along with the order accepting the voluntary surrender. Such a voluntary surrender is considered disciplinary action and will be published in the same manner as other disciplinary orders.

1005.11(4) *Notification requirements.* Whenever a registration is revoked, suspended, restricted, or voluntarily surrendered under this chapter, the registrant shall:

a. Within 15 days of receipt of the board's final order, notify in writing all clients of the fact that the registration has been revoked, suspended or voluntarily surrendered or that the practice of the registrant has been restricted. Such notice shall advise the client to obtain alternative professional services unless the restriction at issue would not impact the registered interior design services provided for that client;

b. Within 30 days of receipt of the board's final order, file with the board copies of the notices sent pursuant to paragraph 1005.11(4)*"a."* Compliance with this requirement is a condition for an application for reinstatement.

1005.11(5) *Civil penalties.* Factors the board may consider when determining whether to assess the amount of civil penalties include:

a. Whether other forms of discipline are being imposed for the same violation.

b. Whether the amount imposed will be a substantial deterrent to the violation.

c. The circumstances leading to the violation.

d. The severity of the violation and the risk of harm to the public.

e. The economic benefits gained by the registrant as a result of the violation.

f. The interest of the public.

g. Evidence of reform or remedial action.

h. Time elapsed since the violation occurred.

i. Whether the violation is a repeat offense following a prior cautionary letter, disciplinary order, or other notice of the nature of the infraction.

j. The clarity of the issues involved.

k. Whether the violation was willful and intentional.

l. Whether the registrant acted in bad faith.

m. The extent to which the registrant cooperated with the board.

[**ARC 9026C**, IAB 3/19/25, effective 4/23/25; Editorial change: IAC Supplement 6/24/26]

481—1005.12(272C,544C) Publication of decisions.

1005.12(1) The board will publish the name of each registrant disciplined by the board, along with a brief description of the underlying circumstances, regardless of the nature of the violation.

1005.12(2) The board will issue a formal press release in those instances in which a registration has been suspended or revoked.

1005.12(3) The board will notify other state interior design boards that have issued a similar license to an Iowa registrant of disciplinary action taken against the Iowa registrant. The board will also notify the CIDQ of disciplinary action taken against an Iowa registrant.

[**ARC 9026C**, IAB 3/19/25, effective 4/23/25; Editorial change: IAC Supplement 6/24/26]

481—1005.13(272C,544C) Reinstatement.

1005.13(1) The term "reinstatement," as used in this rule and in rule 481—506.32(272C), includes the reinstatement of a suspended registration, the modification or removal of a practice restriction, the issuance of a registration following the denial of an application to renew a registration, and the issuance of a new registration following the revocation or voluntary surrender of a registration.

1005.13(2) Any person whose registration has been revoked, suspended or restricted by the board or who has voluntarily surrendered a registration to conclude a disciplinary investigation or proceeding or whose application to renew a registration has been denied may apply to the board to modify or terminate the suspension, issue or reissue the registration, or modify or remove the restriction in accordance with the provisions of this rule and the terms of the order of revocation, suspension or restriction, denial of registration renewal, or acceptance of voluntary surrender of a registration.

1005.13(3) If the applicable order did not establish terms upon which the registrant may apply for reinstatement, an initial application for reinstatement may not be made until one year has elapsed from the date of the order that revoked, suspended or restricted the registration, denied registration renewal, or accepted a voluntary surrender.

1005.13(4) All proceedings for reinstatement will be initiated by the respondent and are subject to the procedures set forth in 481—Chapter 506. In addition, the board may grant an applicant's request to appear informally before the board prior to the issuance of a notice of hearing on the application if the applicant

requests an informal appearance in the application and agrees not to seek to disqualify on the grounds of personal investigation the board members or staff before whom the applicant appears.

1005.13(5) An order granting an application for reinstatement may impose such terms and conditions as the board deems desirable, which may include one or more of the types of disciplinary sanctions described in rule 481—1005.11(272C,544C).

1005.13(6) The board will not grant an application for reinstatement when the initial order that revoked, suspended or restricted the registration, denied registration renewal, or accepted a voluntary surrender was based on a criminal conviction and the applicant cannot demonstrate to the board's satisfaction that:

a. All terms of the sentencing or other criminal order have been fully satisfied;

b. The applicant has been released from confinement and any applicable probation or parole; and

c. Restitution has been made or is reasonably in the process of being made to any victims of the crime.

[**ARC 9026C**, IAB 3/19/25, effective 4/23/25; Editorial change: IAC Supplement 6/24/26]

These rules are intended to implement Iowa Code chapters 17A, 272C, and 544C.

ACCOUNTANCY EXAMINING BOARD

CHAPTER 1021
DEFINITIONS

[Prior to 7/13/88, see Accountancy, Board of[10]]
[Prior to 6/10/26, see Accountancy Examining Board[193A] Ch 1]

Chapter rescission date pursuant to Iowa Code section 17A.7: 4/10/29

481—1021.1(542) Definitions. The following definitions apply to the rules of the board of accountancy.

"Act" means the Accountancy Act of 2001 as amended by 2008 Iowa Acts, chapter 1106.

"AICPA" means the American Institute of Certified Public Accountants.

"AICPA Code of Professional Conduct" means the AICPA code of professional conduct as amended through January 1, 2024.

"Attest" or *"attest service"* means the same as defined in Iowa Code section 542.3(1).

"Attest engagement team" means the team of individuals participating in attest service, including those who perform concurring and second partner reviews. The attest engagement team includes all employees and contractors retained by the firm who participate in attest service, irrespective of their functional classification.

"Audit" means the procedures performed in accordance with applicable auditing standards for the purpose of expressing or disclaiming an opinion on the fairness with which the historical financial or other information is presented in conformity with generally accepted accounting principles, another comprehensive basis of accounting, or a basis of accounting described in the report.

"Board" means the same as defined in Iowa Code section 542.3(2).

"Certificate" means the same as defined in Iowa Code section 542.3(3).

"Client" means the same as defined in Iowa Code section 542.3(6).

"Commission" means the same as defined in Iowa Code section 542.3(7) and includes any form of compensation in a fixed or variable amount or percentage received for selling, recommending or referring any product or service of another, including a referral fee.

"Compensation" means anything of value received by a CPA or LPA while practicing public accounting for selling, recommending or referring a product or service of another.

"Compilation" means the same as defined in Iowa Code section 542.3(8).

"Contingent fee" means the same as defined in Iowa Code section 542.3(9).

"Certified public accountant" or *"CPA"* means the same as defined in Iowa Code section 542.3(4).

"Examination of prospective financial information" means an evaluation by a CPA of a forecast or projection, the support underlying the assumptions in the forecast or projection, whether the presentation of the forecast or projection is in conformity with AICPA presentation guidelines, and whether the assumptions in the forecast or projection provide a reasonable basis for the projection or forecast.

"FASB" means the Financial Accounting Standards Board.

"Financial statement" means a presentation of financial data, including accompanying notes derived from accounting records and intended to communicate an entity's economic resources or obligations at a point in time or the changes therein for a period of time in conformity with a comprehensive basis of accounting, but does not include incidental financial data included in management advisory services reports to support recommendations to a client, nor does it include tax returns and supporting documents.

"Firm" means a sole proprietorship, partnership, corporation, professional corporation, professional limited liability company, limited liability partnership or any other form of organization issued a permit to practice as a firm under Iowa Code section 542.7 or 542.8 or the office of the auditor of state, state of Iowa, when the auditor of state is a certified public accountant.

"Forecast" means prospective financial statements that present, to the best of the responsible party's knowledge and belief, an entity's expected financial position, results of operations, and changes in financial position or cash flows that are based on the responsible party's assumptions reflecting conditions it expects to exist and the course of action it expects to take.

"GASB" means the Governmental Accounting Standards Board.

"Home office" means the same as defined in Iowa Code section 542.3(10).

"IASB" means International Accounting Standards Board.

"IFRS" means International Financial Reporting Standards.

"IRS" means the Internal Revenue Service, United States Department of the Treasury.

"License" means the same as defined in Iowa Code section 542.3(11).

"Licensed public accountant" or *"LPA"* means the same as defined in Iowa Code section 542.3(12).

"Licensed public accounting firm" means the same as defined in Iowa Code section 542.3(13).

"Licensee" means the same as defined in Iowa Code section 542.3(14).

"Managing partner," "managing shareholder," or *"managing member"* means the designated individual with ultimate responsibility for the operation of a firm's practice.

"NASBA" means the same as defined in Iowa Code section 542.3(17).

"NSA" means the National Society of Accountants.

"Office" means the same as defined in Iowa Code section 542.3(18).

"Owner" means any person who has equity ownership interest in a CPA or LPA firm.

"PCAOB" means the Public Company Accounting Oversight Board created by the Sarbanes-Oxley Act of 2002.

"Peer review," as used in 193A—Chapters 11 and 12, means the same as defined in Iowa Code section 542.3(19).

"Person," unless the context indicates otherwise, means individuals, sole proprietorships, partnerships, corporations, limited liability companies, limited liability partnerships or other forms of entities.

"Person associated with a CPA or LPA" means any owner, partner, shareholder, member, employee, assistant, or independent contractor of a CPA or LPA firm.

"Practice of public accounting" means the same as defined in Iowa Code section 542.3(24).

"Practice privilege" means the same as defined in Iowa Code section 542.3(25).

"Principal place of business" means the same as defined in Iowa Code section 542.3(26).

"Projection" means prospective financial statements that present, to the best of the responsible party's knowledge and belief given one or more hypothetical assumptions, an entity's expected financial position, results of operations, and changes in financial position or cash flows that are based on the responsible party's assumptions reflecting conditions it expects would exist and the course of action it expects would be taken given such hypothetical assumptions.

"Report" means the same as defined in Iowa Code section 542.3(27).

"Respondent" means any person against whom a formal statement of charges has been filed.

"Review" means the same as Iowa Code section 542.3(1)*"a"*(2).

"SAS" means statements on auditing standards.

"SEC" means the United States Securities and Exchange Commission.

"SSARS" means the statements on standards for accounting and review services.

"State" means the same as defined in Iowa Code section 542.3(28).

"Substantial equivalency" means the same as defined in Iowa Code section 542.3(29).

"Year," when used in the context as a time measurement of experience in accounting work, means a period of 365 days.

[**ARC 7677C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

CHAPTER 1022
ORGANIZATION AND ADMINISTRATION

[Prior to 7/13/88, see Accountancy, Board of[10]]
[Prior to 6/10/26, see Accountancy Examining Board[193A] Ch 2]

Chapter rescission date pursuant to Iowa Code section 17A.7: 4/10/29

481—1022.1(542) Description.

1022.1(1) The accountancy examining board administers and enforces the provisions of Iowa Code chapter 542 with regard to the practice of accountancy in the state.

1022.1(2) The primary mission of the board is to protect the public interest.

[**ARC 7678C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1022.2(542) Advisory committees. The board chair may appoint advisory committees composed of board members to make recommendations on matters within the board's jurisdiction.

[**ARC 7678C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1022.3(542) Annual meeting. At the first board meeting scheduled after April 30 of each year (the annual meeting), the board will elect a chair and vice-chair to serve until their successors are elected.

[**ARC 7678C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1022.4(542) Other meetings. Other meetings throughout the year may be established by the chairperson, by board resolution, or by a request of a majority of board members.

[**ARC 7678C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1022.5(542) Board administrator's duties. The board administrator's duties include the following:

1022.5(1) Ensuring that complete records are kept of all applications for examination and registration; all certificates, licenses and permits granted; and all necessary information in regard thereto. The board administrator is the lawful custodian of the board records.

1022.5(2) Determining when the prerequisites for licensure have been satisfied with regard to issuance of certificates, licenses or registrations.

1022.5(3) Submitting to the board any questionable application.

1022.5(4) Keeping accurate minutes of board meetings.

1022.5(5) Keeping a list of persons issued certificates as certified public accountants, persons issued licenses as licensed public accountants, and all firms issued permits to practice.

1022.5(6) Performing such additional administrative duties as assigned.

[**ARC 7678C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1022.6(542) Disclosure of confidential information.

1022.6(1) Persons who take the examination may consent to the publication of their names on a list of passing candidates.

1022.6(2) Information relating to the examination results, including the specific grades by subject matter, may only be given to the person who took the examination, except that the board may:

a. Disclose the specific grades by subject matter to the regulatory authority of any other state or foreign country in connection with the candidate's application for a reciprocal certificate or license from the other state or foreign country, but only if requested by the applicant.

b. Disclose the specific grades by subject matter to educational institutions, professional organizations, or others, provided the names of the persons taking the examination are not provided in conjunction with the scores.

[**ARC 7678C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1022.7(17A,21,22,272C,542) Uniform rules. Administrative and procedural rules can be found in rules of the model rules governing professional licensing division programs 481—Chapters 500 through 507.

[**ARC 7678C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

These rules are intended to implement Iowa Code chapters 17A, 21, 22, 272C and 542.

[Filed and effective 9/22/75 under ch 17A, C '73]
[Filed 6/24/76, Notice 5/17/76—published 7/12/76, effective 8/16/76]

[Editorial change: IAC Supplement 6/10/26]

CHAPTER 1023
CERTIFICATION OF CPAs

[Prior to 7/13/88, see Accountancy, Board of[10]]
[Prior to 6/10/26, see Accountancy Examining Board[193A] Ch 3]

Chapter rescission date pursuant to Iowa Code section 17A.7: 4/10/29

481—1023.1(542) Qualifications for a certificate as a certified public accountant.

1023.1(1) A person who meets the qualifications of Iowa Code section 542.5 and this chapter and applies pursuant to Iowa Code section 542.6 may be granted a certificate as a certified public accountant.

1023.1(2) An application may be denied if the applicant is in violation of any of the requirements of Iowa Code chapter 542, prior enforcement proceedings under 481—Chapter 1037, or Iowa Code section 272C.15.

[**ARC 7679C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1023.2(542) Colleges or universities recognized by the board. Pursuant to Iowa Code section 542.5(7), the board recognizes educational institutions accredited by the Association to Advance Collegiate Schools of Business and the regional accrediting bodies listed in the Accredited Institutions of Postsecondary Education as published on January 1, 2024.

This rule is intended to implement Iowa Code section 542.5.

[**ARC 7679C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1023.3(542) Accounting concentration.

1023.3(1) A candidate will be deemed to have met the educational requirement if, as part of the 150 semester hours of education as outlined in Iowa Code section 542.5, the candidate has met one of the following four conditions:

a. Earned a graduate degree with a concentration in accounting from a program that is accredited in accounting by an accrediting agency recognized by the board.

b. Earned a graduate degree in business from a program that is accredited in business by an accrediting agency recognized by the board and completed at least 24 semester hours in accounting, including courses covering the subjects of financial accounting, auditing, taxation, and management accounting. Such accounting hours exclude elementary accounting or principles of accounting, internships or life experience.

c. Earned a baccalaureate degree in business or accounting from a program that is accredited in business by an accrediting agency recognized by the board and completed at least 24 semester hours in accounting courses covering the subjects of financial accounting, auditing, taxation, and management accounting. Such accounting hours exclude elementary accounting or principles of accounting, internships or life experience.

d. Earned a baccalaureate or higher degree and completed the following hours from an accredited institution recognized by the board:

(1) At least 24 semester hours in accounting courses above elementary accounting or principles of accounting covering the subjects of financial accounting, auditing, taxation, and management accounting, not including internships or life experience; and

(2) At least 24 additional semester hours in business-related courses, not including internships or life experience. Elementary accounting hours that do not qualify under subparagraph 1023.3(1)*"d"*(1) may apply toward business-related courses.

Quarter hours will be accepted in lieu of semester hours at a 3:2 ratio; that is, three quarter hours are equivalent to two semester hours. Internships and life experience hours may apply toward the total required 150 hours.

1023.3(2) The board will consider correspondence study and study in other schools not meeting the above requirements on an individual basis if the candidate can provide evidence that such study would be acceptable for credit by a college or university recognized by the board; provided, however, that at least

18 of the required hours in accounting and at least 16 of the required hours in business-related subjects are obtained from a college or university recognized by the board.

1023.3(3) The applicant needs to have an official transcript of credit issued by a recognized institution sent by the institution to the board's test administrator at the time of application in order for the applicant's claimed college or university credits to be confirmed.

1023.3(4) Graduates of foreign colleges or universities will have their education evaluated by a foreign credentials evaluation advisory service specified by the board.

[**ARC 7679C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1023.4(542) Examination applications.

1023.4(1) An individual desiring to take the certified public accountant examination as an initial candidate should apply to the board's test administrator. Only a complete application will be considered. A complete application includes a completed application form, the designated fee, and all applicable college transcripts.

1023.4(2) To be eligible to apply for the examination, a candidate needs to fulfill the requirements of rule 481—1023.3(542). A candidate may apply for the examination before the educational requirements are met pursuant to Iowa Code section 542.5(9).

1023.4(3) A candidate whose application is denied under subrule 1023.1(2) may be denied admittance to the examination by the board.

1023.4(4) A candidate may be considered as a reexamination applicant regardless of whether or not the candidate sat for the examination once initially approved. Reexamination applicants may apply to the board's test administrator.

1023.4(5) A nonrefundable proctoring fee will be collected from a candidate who wishes to be proctored in Iowa.

[**ARC 7679C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1023.5(542) Content and grading of the examination.

1023.5(1) The board may use the Uniform Certified Public Accountant Examination prepared by the American Institute of Certified Public Accountants or another nationally recognized organization under a plan of cooperation with the boards of all states and territories of the United States.

1023.5(2) The board may also make use of the advisory grading service provided by the American Institute of Certified Public Accountants or another nationally recognized organization under a plan of cooperation with the boards of all states and territories of the United States.

[**ARC 7679C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1023.6(542) Conditional requirements.

1023.6(1) Effective with the implementation of the computer-based examination, a candidate may take the test subjects individually and in any order. Except as provided in rule 481—1023.7(542), credit for any subjects passed will be valid for 30 months from the actual date initial credit is earned, without the candidate having to attain a minimum score on any failed subject(s) and without regard to whether the candidate sat for any other subjects. The candidate needs to pass all four subjects of the examination within a rolling 30-month period that begins on the date initial credit is earned, which is calculated on the date the examination administrator provides scores to the boards, the candidate, or both. If all four subjects are not passed within the 30-month period, credit for any subject taken outside the 30-month period will expire.

1023.6(2) A candidate will be deemed to have passed the examination once the candidate holds, at the same time, valid credit for passing each of the four subjects of the examination. For purposes of this rule, credit for passing a subject of the examination is valid from the actual date of the testing event for that subject, regardless of the date the candidate actually received notice of the passing score.

This rule is intended to implement Iowa Code section 542.5.

[**ARC 7679C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1023.7(542) Extension of conditional status.

1023.7(1) The time limit within which a candidate needs to pass all subjects under these rules will not include any period during which the candidate was serving in the armed forces of the United States. This

exception does not apply if the candidate takes an examination while so serving. The board may extend the time limit in particular instances on a case-by-case basis.

1023.7(2) The time limit within which a candidate needs to pass all subjects under these rules may be extended for hardship cases, such as when the applicant for the examination is prevented from attending for such reasons as unexpected illness, verified by a medical doctor, or a death in the family, verified in writing.

1023.7(3) The time limit within which a candidate needs to pass all subjects under these rules may be extended if circumstances occur that prevent the score from an examination from reaching the candidate in a reasonable period of time. Such circumstances would allow the candidate the opportunity to retake a failed subject.

[**ARC 7679C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1023.8(542) Transfer of credit from another jurisdiction. A candidate requesting transfer of grades from any other jurisdiction will be subject to the same provisions of these rules as an Iowa candidate, provided that the examination given by the licensing authority in the other state was an examination approved by the Iowa board.

[**ARC 7679C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1023.9(542) Examination procedures. At the examination, a candidate needs to provide evidence of identification and comply with the requirements of the examination administrator.

[**ARC 7679C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1023.10(542) Conduct of the examination.

1023.10(1) Any individual who subverts or attempts to subvert the examination process may, at the discretion of the board, have the individual's examination scores declared invalid for the purpose of certification in Iowa, be barred from accountancy licensing and certification examinations in Iowa, or be subject to the imposition of other sanctions the board deems appropriate.

1023.10(2) Individuals are subject to the conduct rules and regulations of the examination administrator.

1023.10(3) Any examination candidate who wishes to appeal a decision of the board under this rule may request a contested case hearing. The request for hearing needs to be in writing, briefly describe the basis for the appeal, and be filed in the board's office within 30 days of the date of the board decision being appealed. Any hearing requested under this subrule will be governed by the rules applicable to contested case hearings under 481—Chapter 506.

[**ARC 7679C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1023.11(542) Refunding of examination fees. Examination fees will not be refunded except in hardship cases, such as when the candidate for the examination is prevented from attending for such reasons as unexpected illness, verified by a medical doctor, a death in the family, or a call to active military service, in which case 50 percent of the fee may be returned. Written documentation including evidence of the hardship will be provided to the board's test administrator.

[**ARC 7679C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1023.12(542) Experience for certificate.

1023.12(1) One year of experience will consist of full- or part-time employment that extends over a period of no less than one year and no more than three years and includes no fewer than 2,000 hours of performance of services outlined in Iowa Code section 542.5(12). Experience may be gained in more than one employment situation, including an internship.

1023.12(2) An applicant seeking qualification as an attest CPA will have, at a minimum, two years of experience, as described in 481—subrule 1026.2(1).

1023.12(3) All experience will be verified by a licensee with direct supervisory control over the applicant or by a licensee who can attest that the experience gained by the applicant meets the requirements of Iowa Code section 542.5(12) if the applicant is not supervised by a licensee.

1023.12(4) Teaching experience will be in the employment of an institution of higher education and will include teaching a minimum of 24 semester hours of accounting courses for which the course participants receive credit on an official transcript. Teaching of noncredit continuing education courses will not qualify under this rule.

[**ARC 7679C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1023.13(542) Ethics course and examination. A successful candidate will need to pass an examination covering the code of ethical conduct prior to issuance of the certificate.

[**ARC 7679C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1023.14(542) Obtaining the certificate.

1023.14(1) A candidate who successfully passes the examination, completes the ethics course and examination and meets the obligations of rule 481—1023.1(542) needs to apply for the certificate on the board's website. An applicant for a certificate may be denied the certificate for reasons outlined in subrule 1023.4(3) regardless of when the incident occurred.

1023.14(2) If the candidate does not file an application for a certificate within three years of passing the examination, the candidate needs to comply with the basic continuing education obligations outlined in rule 481—1030.5(542) prior to filing an application. The continuing education hours need to include a minimum of eight hours of continuing education every three years devoted to financial statement presentation, such as courses covering the statements on standards for accounting and review services (SSARS) and accounting and auditing updates.

[**ARC 7679C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1023.15(542) Use of title.

1023.15(1) Only a person who holds an active, unexpired certificate and who complies with the requirements of 481—Chapters 1025 and 1030 or a person lawfully exercising a practice privilege under Iowa Code section 542.20 may use or assume the title "certified public accountant" or the abbreviation "CPA" or any other title, designation, words, letters, abbreviation, sign, card, or device tending to indicate that such person is a certified public accountant.

1023.15(2) Rules regarding the use of the title "CPA" in a firm name are found in the AICPA Code of Professional Conduct as adopted by reference in 481—Chapter 1033.

[**ARC 7679C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

These rules are intended to implement Iowa Code chapter 542 and section 10A.506.

CHAPTER 1024
LICENSURE OF LPAs

[Prior to 7/13/88, see Accountancy, Board of[10]]
[Prior to 6/10/26, see Accountancy Examining Board[193A] Ch 4]

Chapter rescission date pursuant to Iowa Code section 17A.7: 4/10/29

481—1024.1(542) Qualifications for a license as a licensed public accountant.

1024.1(1) A person who meets the qualifications and applies subject to Iowa Code section 542.8 may be granted a license as a licensed public accountant.

1024.1(2) An application may be denied if the applicant is in violation of any of the requirements of Iowa Code chapter 542, prior enforcement proceedings under 481—Chapter 1037, or Iowa Code section 272C.15.

[**ARC 7680C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1024.2(542) Examination application.

1024.2(1) An individual desiring to take the examination to qualify for a license as a licensed public accountant should apply to the board's test administrator.

1024.2(2) To be eligible to take the examination, the applicant needs to meet the conditions of Iowa Code section 542.8(1)*"b"* at the time of filing the application.

1024.2(3) A candidate whose application is denied under subrule 1024.1(2) may be denied admittance to the examination by the board.

[**ARC 7680C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1024.3(542) Major in accounting. In determining whether the conditions in Iowa Code section 542.8(1)*"b"*(2) as to a major in accounting have been met, the board will follow the provisions associated with a concentration in accounting outlined in rule 481—1023.3(542).

[**ARC 7680C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1024.4(542) Transcripts needed. In order for an applicant's claim to college or university credits to be confirmed, the applicant needs to have an official transcript of credit issued by a recognized institution sent by the institution to the board's test administrator at the time of application.

[**ARC 7680C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1024.5 Reserved.

481—1024.6(542) Content and grading of the examination.

1024.6(1) The board may use the examination prepared by the Accreditation Council for Accountancy and Taxation, without questions regarding auditing or attest functions.

1024.6(2) The board may use the grading services provided by the Accreditation Council for Accountancy and Taxation.

1024.6(3) Absent a showing of good cause, the board will accept the passing grade established by the Accreditation Council for Accountancy and Taxation.

1024.6(4) Alternatively, an applicant may satisfy the examination obligations of this rule by passing the Financial Accounting and Reporting and Regulation sections of the CPA examination provided by the AICPA.

[**ARC 7680C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1024.7(542) Conditional requirements. Effective with the implementation of the computer-based examination, a candidate may take the required test subjects individually and in any order. Except as provided in rule 481—1023.7(542), credit for any subjects passed will be valid for 18 months from the actual date the candidate sat for the subject, without the candidate having to attain a minimum score on any failed subject(s) and without regard to whether the candidate sat for any other subjects. The candidate needs to pass both subjects of the examination within a rolling 18-month period that begins on the date that

the first subject is passed. If both subjects are not passed within the 18-month period, credit for any subject taken outside the 18-month period will expire.
[**ARC 7680C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1024.8(542) Examination procedures. The examination procedures to be followed by a candidate for the certified public accountants' examination as outlined in rule 481—1023.8(542) apply to a licensed public accountant examination candidate.
[**ARC 7680C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1024.9(542) Refunding of examination fees. Examination fees will not be refunded except as provided by the rules concerning the refunding of examination fees to an examination candidate for a certified public accountant certificate outlined in rule 481—1023.10(542).
[**ARC 7680C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1024.10(542) Credit for an examination taken in another state. A candidate who has partially passed an examination in another state will be given credit for the part or parts passed, provided the candidate meets the conditioning requirements of the board and further provided the examination given by the licensing authority in the other state was an examination that complies with rule 481—1024.7(542).
[**ARC 7680C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1024.11(542) Experience for license.

1024.11(1) One year of experience will consist of full- or part-time employment that extends over a period of no less than one year and no more than three years and includes no fewer than 2,000 hours of performance of services outlined in Iowa Code section 542.8(8). Experience may be gained in more than one employment situation, including an internship.

1024.11(2) All experience will be verified by a licensee with direct supervisory control over the applicant or by a licensee who can attest that the experience gained by the applicant meets the conditions of subrule 1024.12(1) if the applicant is not supervised by a licensee.

1024.11(3) Teaching experience needs to be in the employment of an institution of higher education and needs to include teaching a minimum of 24 semester hours of accounting courses for which the course participants will receive credit on an official transcript. Teaching of noncredit continuing education courses will not qualify under this rule.
[**ARC 7680C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1024.12(542) Ethics course and examination. A successful candidate will need to pass an examination covering the code of ethical conduct prior to issuance of the license.
[**ARC 7680C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1024.13(542) Statements on standards for accounting and review services (SSARS) education. An LPA license applicant needs to complete a minimum of eight hours of continuing education devoted to statements on standards for accounting and review services (SSARS) prior to issuance of the license.
[**ARC 7680C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1024.14(542) Obtaining the license. A candidate who successfully passes the examination and completes conditions outlined in rules 481—1024.12(542), 481—1024.13(542), and 481—1024.14(542) may apply for licensure on the board's website. An applicant is obligated to list on the application all states in which the applicant has applied for or holds a certificate, license or permit and will also list any past denial, revocation, suspension, refusal to renew, or voluntary surrender to avoid disciplinary action of a certificate, license or permit. An applicant will notify the board in writing within 30 days after the occurrence of any issuance, denial, revocation, suspension, refusal to renew, or voluntary surrender to avoid disciplinary action of a certificate, license or permit by another state. An applicant for licensure may be denied the license for reasons outlined in subrule 1024.1(2) regardless of when the incident occurred.
[**ARC 7680C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1024.15(542) Licensure by reciprocity.

1024.15(1) Iowa Code section 542.8 examination obligations will be waived for an applicant who has passed a comparable examination administered by another state if the examination was prepared and graded by the Board of Examiners of the American Institute of Certified Public Accountants or the Accreditation Council for Accountancy and Taxation.

1024.15(2) A person desiring a license as a licensed public accountant in this state on the basis of a licensed public accountant license issued by another state needs to apply on the board's website. The burden is on the applicant to obtain information satisfactory to the board that the applicant's license in such other state is in full force and effect and that the conditions for obtaining such license were substantially equivalent to those of this state to obtain a license as a licensed public accountant.

1024.15(3) An applicant needs to list on the application all states in which the applicant has applied for or holds a certificate, license or permit and needs to also list any past denial, revocation, suspension, refusal to renew or voluntary surrender to avoid disciplinary action of a certificate, license, or permit. An applicant needs to notify the board in writing within 30 days after the occurrence of any issuance, denial, revocation, suspension, refusal to renew or voluntary surrender to avoid disciplinary action of a certificate, license or permit by another state.

1024.15(4) An applicant needs to affirm that all information provided on the form is accurate. Providing false information will be considered prima facie evidence of a violation of Iowa Code chapter 542. A nonrefundable application fee will be charged to each applicant.

[**ARC 7680C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1024.16(542) Use of title. Only a person holding a license as a licensed public accountant may use or assume the title "licensed public accountant" or the abbreviation "LPA" or any other title, designation, words, letters, abbreviation, sign, card, or device tending to indicate that such person is a licensed public accountant.

[**ARC 7680C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

These rules are intended to implement Iowa Code section 542.8.

CHAPTER 1025
LICENSURE STATUS AND RENEWAL OF CERTIFICATES AND LICENSES

[Prior to 7/13/88, see Accountancy, Board of[10]]
[Prior to 5/1/02, see 193A—Chapter 6]
[Prior to 6/10/26, see Accountancy Examining Board[193A] Ch 5]

Chapter rescission date pursuant to Iowa Code section 17A.7: 4/10/29

481—1025.1(542) Licensure status and practice privilege.

1025.1(1) Licenses issued by the board pursuant to Iowa Code section 542.6, 542.8, or 542.19, or any other applicable law or rule, may be in active, inactive, or lapsed status, as follows:

a. An initial license is issued in active status with an expiration date. Maintaining active status is conditioned on periodic renewal as provided in rule 481—1025.3(542). Completion of sufficient continuing education as provided in 481—Chapter 1030 is a prerequisite to renewal in active status.

b. A license may be renewed in inactive status as provided in rule 481—1025.7(272C,542) if the licensee does not satisfy the continuing education obligations for renewal in active status. A renewal license issued in inactive status lapses if not timely renewed pursuant to rule 481—1025.3(542). An inactive license may be reinstated to active status at any time pursuant to subrule 1025.7(7).

c. An active or inactive license that is not timely renewed lapses. A lapsed license may be reinstated to active or inactive status at any time pursuant to subrule 1025.4(3).

1025.1(2) Practicing public accounting in Iowa or for a client with a home office in Iowa while holding an inactive or lapsed license is a ground for discipline under Iowa Code section 542.10 and may also or alternatively provide grounds for the regulatory actions described in Iowa Code section 542.14.

1025.1(3) Out-of-state individuals holding an inactive or lapsed Iowa CPA certificate and out-of-state individuals to whom an Iowa CPA certificate has never been issued under Iowa Code chapter 542 or prior law may exercise a practice privilege under Iowa Code section 542.20 if they hold an active CPA certificate in the jurisdiction in which they maintain their principal place of business and otherwise satisfy all of the conditions described in Iowa Code section 542.20 and 481—Chapter 1039.

1025.1(4) Exercising a practice privilege in Iowa or for a client with a home office in Iowa while holding an inactive or lapsed Iowa CPA certificate places a special burden on the individual to ensure that the public is informed about the individual's licensure status in Iowa and in the jurisdiction of active licensure, as provided in 481—paragraphs 1039.8(2)*"b"* and 1039.8(3)*"b."* As a practical matter, an individual's failure to clarify licensure status in Iowa and in the jurisdiction of the individual's principal place of business may confuse the public. However, the public may consult CPAverify, a comprehensive national data bank, to verify an individual's licensure in another jurisdiction. CPAverify may be accessed at www.cpaverify.org. A client contacting the board or consulting the board's website will be informed of the individual's licensure status in Iowa.

[**ARC 7681C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1025.2(542) Notices.

1025.2(1) The board typically sends, by electronic means, a notice to licensees in the May preceding license expiration, but neither the failure of the board to send nor a licensee's failure to receive a renewal notice excuses the obligation to timely renew a license.

1025.2(2) A licensee needs to notify the board within 30 days of any change of address or firm affiliation.

[**ARC 7681C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1025.3(542) Renewal procedures.

1025.3(1) Licenses expire on June 30 of each year. Licensees will submit electronic online renewal application by the deadline in the renewal year. An application is deemed filed on the date of electronic renewal. An annual renewal fee will be charged.

1025.3(2) Applicants for renewal are obligated to disclose on the application all background and character information requested by the board including, but not limited to:

a. All states or foreign jurisdictions in which the applicant has applied for or holds a CPA certificate or license, an LPA license, or a substantially equivalent designation from a foreign country;

b. Any past denial, revocation, suspension, or refusal to renew a CPA certificate, license or permit to practice or LPA license; voluntary surrender of a CPA certificate, license or permit or LPA license to resolve or avoid disciplinary action; or similar actions concerning a substantially equivalent foreign designation;

c. Any other form of discipline or other penalty imposed against a CPA certificate, license or permit, LPA license, or a substantially equivalent foreign designation, or a practice privilege;

d. The conviction of any crime; and

e. The revocation of a professional license of any kind in this or any other jurisdiction.

1025.3(3) A licensee who performs compilation services for the public other than through a certified public accounting or licensed public accounting firm needs to submit a certification of completion of a peer review conducted in accordance with 481—Chapter 1031 no less often than once every three years.

1025.3(4) Within the meaning of Iowa Code section 17A.18(2), a timely and sufficient renewal application needs to be:

a. Received by the board in electronic form on or before the date the license is set to expire or lapse;

b. Certified as accurate through the online renewal process;

c. Fully completed, including continuing education, if applicable; and

d. Accompanied with the proper fee. Attempted financial transactions that result in payment of anything less than the proper fee will result in application rejection.

1025.3(5) The administrative processing of an application to renew an existing license does not prevent the board from subsequently commencing a contested case to challenge the licensee's qualifications for continued licensure if grounds exist to do so.

1025.3(6) If grounds exist to deny a timely and sufficient application to renew, the board will send written notification to the applicant by certified mail, return receipt requested. Grounds may exist to deny an application to renew if, for instance, the licensee failed to meet the continuing education obligations. If the basis for denial is pending disciplinary action or disciplinary investigation, which is reasonably expected to culminate in disciplinary action, the board shall proceed as provided in 481—Chapter 506. If the basis for denial is not related to a pending or imminent disciplinary action, the applicant may contest the board's decision as provided in 481—Chapter 506. The board shall proceed as provided in 481—Chapter 506.

1025.3(7) When a licensee appears to be in violation of mandatory continuing education under 481—Chapter 1030, the board may, in lieu of proceeding to a contested case hearing on the denial of a renewal application as provided in rule 481—506.33(17A,272C), offer a licensee the opportunity to renew in inactive status or to sign a consent order. While the terms of the consent order will be tailored to the specific circumstances at issue, the consent order will typically impose a penalty, depending on the severity of the violation; establish deadlines for compliance; and may impose additional educational obligations on the licensee. A licensee is free to accept or reject the offer. If the offer of settlement is accepted, the licensee will be issued a renewed license and will be subject to disciplinary action if the terms of the consent order are not complied with. If the offer of settlement is rejected, the matter will be set for hearing, if timely requested by the applicant pursuant to 481—Chapter 506. A licensee who falsely reports continuing education to the board may be subject to additional sanctions including, when appropriate, suspension or revocation.

1025.3(8) A certificate or license holder who continues to practice public accounting as a CPA or an LPA in Iowa after the certificate or license has expired may be subject to disciplinary action. Such unauthorized activity may also be grounds to deny a licensee's application for reinstatement.

[**ARC 7681C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1025.4(542) Failure to renew.

1025.4(1) A license or certificate holder who fails to renew the certificate or license by the expiration date, but does so within 30 days following its expiration date, will be assessed a penalty as provided in rule 481—1032.1(542).

1025.4(2) If the holder fails to renew the certificate or license within the 30-day grace period, the certificate or license will lapse. The licensee is not authorized to practice during the period of time that the certificate or license is lapsed, including the 30-day grace period.

1025.4(3) The board may reinstate a lapsed certificate or license upon the applicant's submission of an application to reinstate and completion of all of the following:

a. Paying a penalty as provided in rule 481—1032.1(542);

b. Paying the current renewal fee;

c. Providing evidence of completed continuing education outlined in rule 481—1030.5(542), if the licensee wishes to reinstate to active status; and

d. Providing a written statement outlining the professional activities of the applicant during the period in which the applicant's license was lapsed describing all services performed that constitute the practice of accounting including, but not limited to, those professional practice activities described in subrule 1025.9(2). The applicant will also be obligated to state whether the applicant exercised a practice privilege in the period during which the license was lapsed and, if so, the jurisdiction of the applicant's principal place of business and status of out-of-state licensure.

1025.4(4) A licensee holding a lapsed CPA certificate is not authorized to perform attest or compilation services or to otherwise practice public accounting using the title "CPA" in Iowa or for a client with a home office in Iowa. A licensee holding a lapsed LPA license is not authorized to perform compilation services or to otherwise practice public accounting in Iowa using the title "LPA." A licensee holding a lapsed CPA certificate or LPA license may not use the title "CPA" or "LPA" in any context unless the licensee discloses that the certificate or license has lapsed. Additionally, a person holding a lapsed Iowa CPA certificate and who is actively licensed as a CPA in another jurisdiction in which the person maintains the principal place of business may be eligible to exercise a practice privilege pursuant to Iowa Code section 542.20 and 481—Chapter 1039.

1025.4(5) Practicing public accounting on a lapsed license is a ground for discipline. The board may find probable cause to file charges if the individual continues to offer services defined as the practice of public accounting while using the title "CPA" or "LPA" during the period of lapsed licensure. In addition to the disciplinary sanctions described in rule 481—1036.3(272C,542), individuals found to have practiced public accounting on a lapsed license will be obligated to notify clients upon such terms as the board orders.

[**ARC 7681C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1025.5(272C,542) Certificates and licenses—property of the board. Every certificate or license granted by the board will, while it remains in the possession of the holder, be preserved by the holder but always remain the property of the board. In the event that the certificate or license is revoked or suspended, or is not renewed in the manner prescribed by Iowa Code chapter 542 or 272C, the licensee will, on demand, deliver the certificate or license by the holder to the board. However, a person is entitled to retain possession of a lapsed certificate or license that has not been revoked, suspended or voluntarily surrendered in a disciplinary action as long as the person complies with all provisions of Iowa Code sections 542.10 and 542.13. A lapsed certificate or license may be reinstated to active or inactive status at any time pursuant to subrule 1025.4(3).

[**ARC 7681C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1025.6(542) Licensee's continuing duty to report. An active or inactive licensee has a duty to notify the board in writing of the licensee's conviction of a crime within 30 days of the date of conviction. "Conviction" is defined in Iowa Code section 542.5(2). Licensees also have a duty to notify the board in writing within 30 days of the date of any issuance, denial, revocation, or suspension of a certificate, license or permit by another state.

[**ARC 7681C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1025.7(272C,542) Inactive status.

1025.7(1) *General purpose.* This rule establishes a procedure under which a person issued a certificate as a certified public accountant or a license as a licensed public accountant may apply to the

board for licensure in inactive status. Inactive licensure under this rule is available to a certificate or license holder who is not engaged in Iowa or for a client with a home office in Iowa in any practice of public accounting. A person eligible for inactive status may, as an alternative, allow the person's certificate or license to lapse.

1025.7(2) *Eligibility.* A person holding a lapsed or active certificate or license that has not been revoked or suspended may apply to renew in inactive status through the online application process if the person is not engaged in the state of Iowa or for clients with a home office in Iowa in any practice regulated by the board, including:

a. Supervising or performing any attest services, such as audits, reviews or agreed-upon procedures (which may only be performed by a CPA within a CPA firm that holds a permit to practice);

b. Supervising or performing compilation services or otherwise issuing compilation reports (which may only be performed by a CPA or LPA); or

c. Performing any accounting, tax, consulting, or financial or managerial advisory services for any client, business, employer, government body, or other entity while holding oneself out as a CPA or an LPA or otherwise using titles regulated by Iowa Code section 542.13.

1025.7(3) *Affirmation.* The application form will contain a statement in which the applicant affirms that the applicant will not engage in any of the practices in Iowa listed in subrule 1025.7(2) without first complying with all rules governing reinstatement to active status. A person in inactive status may reinstate to active status at any time pursuant to subrule 1025.7(7).

1025.7(4) *Renewal.* A person licensed in inactive status may renew the person's certificate or license on the schedule described in rule 481—1025.1(542). Such person is exempt from the continuing education provisions under 481—Chapter 1030 and will be charged a reduced renewal fee as provided in rule 481—1032.1(542). An inactive certificate or license lapses if not timely renewed.

1025.7(5) *Permitted practices.* A person may, while registered as inactive, perform for a client, business, employer, government body, or other entity those accounting, tax, consulting, or financial or managerial advisory services that may lawfully be performed by a person to whom a certificate or license has never been issued as long as the person does not in connection with such services use the title "CPA" or "LPA," or any other title regulated under Iowa law for use only by CPAs or LPAs in Iowa Code section 542.13 (with or without additional designations such as "inactive"). Regulated titles may only be used by active CPAs or LPAs who are subject to continuing education under 481—Chapter 1030 to ensure that the use of such titles is consistently associated with the maintenance of competency through continuing education. Additionally, individuals who are actively licensed as CPAs in another jurisdiction in which they maintain their principal place of business may be eligible to exercise a practice privilege pursuant to Iowa Code section 542.20 and 481—Chapter 1039.

1025.7(6) *Unauthorized practices.* A person who, while licensed in inactive status, engages in any of the practices described in subrule 1025.7(2) or violates any provision of rule 481—1034.2(17A,272C,542) is subject to disciplinary action. A person in inactive status is not authorized to verify the experience of an applicant for a CPA certificate under Iowa Code section 542.5(12) or an applicant for an LPA license under Iowa Code section 542.8(8).

1025.7(7) *Reinstatement to active status.* A person licensed in inactive status needs to, prior to engaging in any of the practices in Iowa listed in subrule 1025.7(2) or for a client with a home office in Iowa, apply to the board to reinstate to active status. Such person will be obligated to pay the applicable renewal fee for active status, but is given credit for renewal fees previously paid for inactive status if the person applies for reinstatement at a date other than the person's regular renewal date. Such person will be obligated to demonstrate compliance with all applicable continuing education and peer review obligations. A person who has engaged in the practice of public accounting as an active licensee of another jurisdiction while licensed as inactive in Iowa will be deemed to have satisfied the continuing education obligations for reinstatement if the person demonstrates that the person has satisfied substantially equivalent continuing education in the other jurisdiction.

1025.7(8) *Retired status.* A person holding an inactive license who does not reasonably expect to return to the workforce in the practice of public accounting due to bona fide retirement or disability may use the title "CPA, retired" or "LPA, retired," as applicable, in the context of non-income-producing

personal activities. These designations may only be used during a period of bona fide retirement or disability.

[**ARC 7681C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

These rules are intended to implement Iowa Code chapters 272C and 542 and section 10A.506.

CHAPTER 1026
ATTEST AND COMPILATION SERVICES
[Prior to 6/10/26, see Accountancy Examining Board[193A] Ch 6]

Chapter rescission date pursuant to Iowa Code section 17A.7: 4/10/29

481—1026.1(542) Who may perform attest services.

1026.1(1) Only a CPA may perform audit, review, or other attest services as defined in Iowa Code section 542.3(1).

1026.1(2) Only an actively licensed attest-certified Iowa CPA or an out-of-state licensee exercising a practice privilege under Iowa Code section 542.20 may perform attest services in Iowa or for a client with a home office in Iowa. CPAs are cautioned, however, that a government body or a client may obligate that an individual be licensed in Iowa as a condition of performing attest services in Iowa or for a client with a home office in Iowa, whether or not the individual may otherwise satisfy the conditions for a practice privilege. Iowa licensure as a certified public accountant is a precondition, for example, to perform certain audit services described in Iowa Code chapter 11.

1026.1(3) CPAs performing attest services, whether the CPAs are certified in Iowa or exercising a practice privilege, may only do so in a CPA firm that holds a permit to practice pursuant to Iowa Code section 542.7 or in an out-of-state CPA firm exercising a practice privilege in compliance with Iowa Code section 542.20(5) and 542.20(6) and associated rules and the peer review and ownership provisions of Iowa Code section 542.7.

1026.1(4) CPAs who are responsible for supervising attest services for a CPA firm or who sign or authorize someone to sign the accountant's report on behalf of a CPA firm are obligated to satisfy the experience or competency obligations established by nationally recognized professional standards that are applicable to the attest services performed.

[**ARC 7682C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1026.2(542) Necessary attest experience.

1026.2(1) A CPA who is responsible for supervising attest services or who signs or authorizes someone to sign the accountant's report on behalf of a firm is obligated to have two years of full-time or part-time equivalent experience that extends over a period of no less than two years and includes no fewer than 4,000 hours, including at least 2,000 hours providing attest services under the supervision of one or more CPAs responsible for supervising attest services on behalf of a CPA firm that holds a permit to practice in Iowa or an equivalent form of CPA firm licensure in another jurisdiction.

1026.2(2) Experience needs to include all of the following:

a. Experience in applying a variety of attest procedures and techniques to the usual and customary financial transactions recorded in accounting records.

b. Experience in the preparation of attest working papers covering the examination of the accounts usually found in accounting records.

c. Experience in the planning of the program of attest work, including the selection of the procedures to be followed.

d. Experience in the preparation of written explanations and comments on the findings of the examinations and on the content of the accounting records.

e. Experience in the preparation and analysis of reports and financial statements together with explanations and notes thereon.

1026.2(3) Attest experience is verified by the applicant and by a CPA who supervised the applicant or, if a supervising CPA is unavailable, by a CPA or CPA firm with sufficient factual documentation to verify the applicant's attest qualification.

1026.2(4) Any applicant or CPA who has been requested to submit to the board evidence of an applicant's attest experience and has refused to do so will, upon request by the board, explain in writing or in person the basis for the refusal. The board may obligate any applicant or CPA who furnished the evidence of an applicant's experience to substantiate the information provided. An applicant may be

obligated to appear before the board to supplement or verify evidence of experience. The board may inspect documentation relating to an applicant's claimed experience.
[**ARC 7682C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1026.3(542) Attest qualification.

1026.3(1) Attest qualification is necessary before a CPA may perform attest services in Iowa or for a client with a home office in Iowa. "Attest qualification" or "attest qualified" means that the CPA has satisfied the experience obligations of rule 481—1026.2(542).

1026.3(2) All CPAs who held an individual permit to practice in Iowa at any point prior to July 1, 2002, are deemed to be attest qualified. Under Iowa law prior to July 1, 2002, CPAs were only issued an individual permit to practice if they verified their qualification to perform attest services. Individual permits to practice were discontinued under Iowa law effective July 1, 2002.

1026.3(3) CPAs who did not hold a permit to practice prior to July 1, 2002, may attain or establish attest qualification as follows:

a. Applicants may apply for attest qualification when initially applying for a certificate as an Iowa CPA under Iowa Code section 542.6 or when applying for reciprocal Iowa certification under Iowa Code section 542.19 or any other applicable law or rule.

b. Iowa CPA certificate holders may apply for attest qualification at any time at which they are qualified to do so.

c. Out-of-state CPAs performing attest services while exercising a practice privilege under Iowa Code section 542.20 do not have to individually apply to the board for attest qualification. However, if:

(1) CPAs perform attest services in an Iowa CPA firm, the Iowa CPA firm will affirm when applying for an initial or renewal firm permit to practice that the CPAs who supervise attest services for the firm or who sign or authorize someone to sign the accountant's report on behalf of the firm, as such attest services are or will in the following year be performed in Iowa or for a client with a home office in Iowa, have been qualified to perform attest services in Iowa or another jurisdiction.

(2) CPAs perform attest services through an out-of-state CPA firm exercising a practice privilege, the out-of-state CPA firm will affirm upon request from the board that the CPAs who supervise attest services for the firm or who sign or authorize someone to sign the accountant's report on behalf of the firm, as such attest services are or will in the following year be performed in Iowa or for a client with a home office in Iowa, have been qualified to perform attest services in Iowa or another jurisdiction.
[**ARC 7682C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1026.4(542) Compilation services.

1026.4(1) Only a CPA licensed by the board under Iowa Code section 542.6 or 542.19 or any other applicable law or rule; an LPA licensed by the board under Iowa Code section 542.8 or any other applicable law or rule; or a person exercising a practice privilege under Iowa Code section 542.20 may issue a report in standard form upon a compilation of financial information or otherwise provide compilation services in Iowa or for a client with a home office in Iowa.

1026.4(2) An individual described in subrule 1026.4(1) may perform compilation services through a CPA firm that holds a permit to practice under Iowa Code section 542.7, an LPA firm that holds a permit to practice under Iowa Code section 542.8, a CPA firm exercising a practice privilege under Iowa Code section 542.20, or, if both the individual and business comply with Iowa Code section 542.13(13), through any other form of business.

1026.4(3) All individuals described in subrule 1026.4(1) who are responsible for supervising compilation services or who will sign or authorize someone to sign the accountant's compilation report on financial statements, as such compilation services will be performed in Iowa or for a client with a home office in Iowa, are obligated to comply with the nationally recognized professional standards that are applicable to compilation services, including SSARS.

1026.4(4) All individuals described in subrule 1026.4(1) will satisfy peer review obligations individually or through the peer review of a CPA or LPA firm holding a permit to practice pursuant to Iowa Code section 542.7 or 542.8 or a CPA firm exercising a practice privilege under Iowa Code section 542.20.

[**ARC 7682C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

These rules are intended to implement Iowa Code chapter 542.

CHAPTER 1027
CERTIFIED PUBLIC ACCOUNTING FIRMS
[Prior to 5/1/02, see 193A—Chapter 8]
[Prior to 6/10/26, see Accountancy Examining Board[193A] Ch 7]

Chapter rescission date pursuant to Iowa Code section 17A.7: 4/10/29

481—1027.1(542) When licensure is needed.

1027.1(1) Except as provided in 481—Chapter 1040, a sole proprietorship, corporation, partnership, limited liability company, or any other form of organization is obligated to apply for a permit to practice as a firm of certified public accountants pursuant to Iowa Code section 542.7.

1027.1(2) A firm that is not subject to subrule 1027.1(1) may practice public accounting in Iowa in accordance with Iowa Code section 542.7(1)*"b."*

1027.1(3) Unless individual Iowa licensure is needed by a government body or a client, the public accounting services provided by a CPA firm holding an Iowa permit to practice may be performed in Iowa or for a client with a home office in Iowa by Iowa CPAs or wholly by persons exercising a practice privilege under Iowa Code section 542.20.

1027.1(4) A CPA firm issued a permit to practice by the board is accountable to the board and subject to discipline by the board for the acts of its owners or other agents, pursuant to 481—subrule 1034.2(4), whether or not such persons are individually licensed by the board.

[**ARC 7683C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1027.2(542) Application process.

1027.2(1) All applications are submitted through the board's online application process. The board will only process fully completed applications accompanied by the proper fee. Each application fee is nonrefundable.

1027.2(2) An initial or renewal application for a firm permit to practice may be denied:

a. Pursuant to Iowa Code section 542.7(3)*"f"*;

b. Based on the firm's failure to comply with Iowa Code section 542.7 or a failure to sustain the simple majority of ownership obligations of Iowa Code section 542.7(3); or

c. Based on a regulatory or disciplinary action or, to the extent applicable and subject to the limitations and processes set forth at Iowa Code section 272C.15 and corresponding implementing rules located at 481—Chapter 502, a criminal conviction described in subrules 1027.3(14) and 1027.3(15) against any of the firm's licensed or unlicensed owners.

[**ARC 7683C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1027.3(542) Application contents. Applicants for a firm permit to practice will provide information requested by the board, including:

1027.3(1) The lawful name of the firm.

1027.3(2) The legal form and jurisdiction of the firm's organization.

1027.3(3) Contact information for the principal place of business of the firm and each Iowa office.

1027.3(4) All jurisdictions in which the firm is licensed or has applied for licensure.

1027.3(5) The names, licensure, and contact information for all persons responsible for supervising attest and compilation service or responsible for the proper licensure of the firm.

1027.3(6) The highest level of public accounting services offered by the firm, such as compilation or attest.

1027.3(7) Evidence of satisfactory completion of the last firm peer review, when applicable.

1027.3(8) Sufficient information from which the board can determine that a simple majority of owners hold a CPA certificate under Iowa Code section 542.6 or 542.19 or hold a CPA certificate in another state and are eligible to exercise a practice privilege under Iowa Code section 542.20. The board reserves the right to request at any time a full list of owners, or a targeted sublist, such as a list of those persons who perform services from an Iowa office or those who perform attest or compilation services in Iowa or for a client with a home office in Iowa.

1027.3(9) The affirmation described in 481—paragraph 1026.3(3)*"c."*

1027.3(10) Affirmation that all CPAs who are responsible for supervising attest services for the CPA firm or who sign or authorize someone to sign the accountant's report on behalf of the CPA firm satisfy the experience or competency standards established by nationally recognized professional standards.

1027.3(11) Affirmation that all CPAs or LPAs who are responsible for supervising compilation services or who sign or authorize someone to sign the accountant's compilation report on behalf of the firm comply with nationally recognized professional standards that are applicable to the compilation services performed in Iowa or for a client with a home office in Iowa.

1027.3(12) Affirmation that all nonlicensee owners are active participants in the firm or affiliated entity.

1027.3(13) Affirmation that the firm and its licensed or unlicensed owners will comply with all applicable Iowa laws and rules, including rules of professional conduct, when practicing in Iowa or for a client with a home office in Iowa.

1027.3(14) Details of any past denial, cancellation, revocation, suspension, refusal to renew, or voluntary surrender of a professional license of any kind, authority to practice, or practice privilege by the board or another state agency in any jurisdiction, a federal agency, or the PCAOB, regarding the firm and the firm's current owners (e.g., partners, shareholders, or members).

1027.3(15) Details of any past felony conviction or the conviction of any crime, any element of which is dishonesty or fraud, as provided in Iowa Code section 542.5(2), under the laws of any state or the United States, regarding the firm and the firm's current owners (e.g., partners, shareholders, or members).

[**ARC 7683C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1027.4(542) Renewal procedures.

1027.4(1) The permit holder will submit an electronic online renewal by the June 30 deadline each year. Applications are deemed filed on the date of electronic renewal.

1027.4(2) The permit holder will list on the renewal application all states in which the applicant has applied for or holds a permit as a certified public accounting firm and list any past denial, revocation, suspension, refusal to renew or voluntary surrender to avoid disciplinary action of a permit to practice or practice privilege. Renewal applications include such additional information as the board needs, including all of the information described in rule 481—1027.3(542).

1027.4(3) Within the meaning of Iowa Code chapters 17A, 272C and 542, a timely and sufficient renewal application will be:

a. Received by the board in electronic form on or before June 30;

b. Certified as accurate through the online renewal process;

c. Fully completed and accompanied with the proper fee. The fee will be deemed improper if, for instance, the amount is incorrect, the fee was not included with the application, the credit card number provided by the applicant is incorrect, the date of expiration of a credit card is omitted or incorrect, the attempted credit card transaction is rejected, or the applicant's check is returned for insufficient funds or a closed account.

[**ARC 7683C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1027.5(542) Failure to renew permit.

1027.5(1) A firm that fails to renew the permit by the expiration date, but does so within 30 days following the expiration date, will be assessed a penalty as provided in rule 481—1032.1(542).

1027.5(2) If the firm fails to renew the permit within the 30-day grace period outlined in rule 481—1027.6(542), the permit will lapse and the firm will need to reinstate in accordance with rule 481—1027.7(542). The firm is not authorized to practice during the period of time that the permit is lapsed, including the 30-day grace period.

1027.5(3) The board may reinstate the permit upon payment of the proper renewal fee and a penalty as provided in rule 481—1032.1(542). A written statement outlining the firm's professional activities during the period of lapsed licensure, including a list of Iowa clients and the services performed, is also needed.

1027.5(4) The board may find probable cause to file charges for unlicensed practice if the firm engaged in any activity that obligates licensure pursuant to subrule 1027.1(1) during the period of lapsed licensure. In addition to the disciplinary sanctions described in rule 481—1036.3(272C,542), firms found to have practiced public accounting in violation of subrule 1027.1(1) on a lapsed license will notify clients upon such terms as the board orders.

[**ARC 7683C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1027.6(542) Notice to the board. A holder of or applicant for a permit shall notify the board in writing within 30 days of an occurrence described in Iowa Code section 542.7(6).

[**ARC 7683C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1027.7(542) Noncompliance. The board may grant a reasonable period of time, usually 90 days, for a firm to take such corrective action pursuant to Iowa Code section 542.7(7).

[**ARC 7683C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

These rules are intended to implement Iowa Code chapters 17A, 272C and 542 and section 10A.506.

CHAPTER 1028
LICENSED PUBLIC ACCOUNTING FIRMS
[Prior to 7/13/88, see Accountancy, Board of[10]]
[Prior to 6/10/26, see Accountancy Examining Board[193A] Ch 8]

Chapter rescission date pursuant to Iowa Code section 17A.7: 4/10/29

481—1028.1(542) Initial permit to practice.

1028.1(1) A sole proprietorship, corporation, partnership, limited liability company, or any other form of organization may apply for a permit to practice under Iowa Code section 542.8.

1028.1(2) The application may be completed and submitted through the online application process and provide sufficient information pursuant to Iowa Code section 542.8(12) or certificates issued by the board under Iowa Code section 542.6 or 542.19 or are eligible to practice under practice privilege pursuant to Iowa Code section 542.20, or otherwise hold a license or certificate to practice public accounting in another state. At least one owner has to be licensed under Iowa Code section 542.8.

1028.1(3) The application will list the physical location and contact information for all offices within this state and the licensee in charge of each such office.

1028.1(4) Fraud or deceit, by commission or omission, in obtaining a firm permit to practice is a ground for discipline, including permanent revocation of the firm's permit to practice, the individual certificate of an Iowa LPA or CPA, or an individual's practice privilege, as applicable to the entity or persons responsible.

1028.1(5) An initial or renewal application for a firm permit to practice may be denied pursuant to Iowa Code section 542.8(12)*"e."*

[**ARC 7684C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1028.2(542) Renewal procedures. The permit holder will submit an online renewal with the board by the June 30 deadline each year. Applications are deemed filed on the date of renewal.

[**ARC 7684C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1028.3(542) Failure to renew permit.

1028.3(1) A firm that fails to renew the permit by the expiration date, but does so within 30 days following the expiration date, will be assessed a penalty of 25 percent of the annual renewal fee.

1028.3(2) If the firm fails to renew the permit within the 30-day grace period outlined in subrule 1028.3(1), the permit will lapse and the firm may then apply for reinstatement in accordance with subrule 1028.3(3). The firm is not authorized to practice as an LPA firm during the period of time that the permit is lapsed, including the 30-day grace period.

1028.3(3) The board may reinstate the permit upon payment of the proper renewal fee and a penalty as provided in rule 481—1032.1(542). A written statement outlining the firm's professional activities during the period of lapsed licensure is needed in this context.

1028.3(4) The board may find probable cause to file charges for unlicensed practice if the firm continues to offer services defined as the practice of accounting while using the title "LPAs" or "LPA firm" during the period of lapsed licensure.

[**ARC 7684C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1028.4(542) Notice to the board. A holder of or an applicant for a permit will notify the board in writing within 30 days in compliance with Iowa Code section 542.8(15).

[**ARC 7684C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1028.5(542) Noncompliance. A firm which, after receiving or renewing a permit, is not in compliance with Iowa Code section 542.8 as a result of a change in firm ownership or personnel will take corrective action to bring the firm back into compliance as quickly as possible or apply to modify or amend the permit. The board may grant a reasonable period of time, usually 90 days, for a firm to take such corrective action. Failure to comply within a reasonable period as deemed by the board will result in the suspension or revocation of the firm permit.

[**ARC 7684C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1028.6(542) Peer review obligations. Firm peer review is necessary pursuant to Iowa Code section 542.7(8).

[**ARC 7684C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

These rules are intended to implement Iowa Code chapters 17A, 272C and 542 and section 10A.506.

CHAPTER 1029
RECIPROCITY AND SUBSTANTIAL EQUIVALENCY
[Prior to 6/10/26, see Accountancy Examining Board[193A] Ch 9]

Chapter rescission date pursuant to Iowa Code section 17A.7: 4/10/29

481—1029.1(542) Iowa CPA certificate necessary. A person who holds a certificate or license to practice as a CPA in another state or a substantially equivalent designation from a foreign jurisdiction may apply to the board for an Iowa CPA certificate and has to do so if the person plans to establish the person's principal place of business as a CPA in Iowa.
[**ARC 7685C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1029.2(542) Application forms. Application forms may only be completed and submitted through the online application process. An applicant will attest that all information provided on the form is true and accurate. An application may be denied based on a false statement of material fact. A nonrefundable fee will be charged to each applicant as provided in 481—Chapter 1032.
[**ARC 7685C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1029.3(542) Background and character.

1029.3(1) An applicant for a CPA certificate under this chapter will disclose on the application all background and character information requested by the board including, but not limited to:

a. All states or foreign jurisdictions in which the applicant has applied for or holds a CPA certificate or license, or a substantially equivalent designation from a foreign country;

b. Any past denial, revocation, suspension, or refusal to renew a CPA certificate, license or permit to practice, or voluntary surrender of a CPA certificate, license or permit to resolve or avoid disciplinary action, or similar actions concerning a substantially equivalent foreign designation;

c. Any other form of discipline imposed against the holder of a CPA certificate, license or permit, or a substantially equivalent foreign designation;

d. The conviction of any felony or any crime described in Iowa Code section 542.5(2);

e. The revocation of a professional license of any kind in this or any other jurisdiction; and

f. Such additional information as the board may request to determine if grounds exist to deny certification under 481—subrule 1023.1(2).

1029.3(2) The board may deny an application based on prior discipline imposed against the holder of a CPA certificate, license or permit, or a substantially equivalent foreign designation, or on any of the grounds listed in 481—subrule 1023.1(2).
[**ARC 7685C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1029.4(542) Verification of state licensure. An applicant holding a CPA certificate or license from another state or states will submit verification that the applicant's CPA certificate or license is valid and in good standing in the state in which the applicant's principal place of business is located. An applicant applying for a CPA certificate under the substantial equivalency provisions of Iowa Code section 542.19(1) *"a"* and paragraph 1029.5(1)*"a"* may attach a letter of good standing to the application. Such letter of good standing will be prepared by the state in which the applicant's principal place of business is located and be dated within six months of the date of the application. To expedite the application process, the board will accept verification from another state's board by facsimile or email. The board reserves the right to request an original verification document directly from another state board.
[**ARC 7685C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1029.5(542) Qualifications for a CPA certificate.

1029.5(1) A person who holds in good standing a valid CPA certificate or license from another state is deemed qualified for an Iowa CPA certificate if the person satisfies one of the following three conditions:

a. Substantially equivalent state. The licensing standards on education, examination and experience of the state that issued the applicant's CPA certificate or license were, at the time of licensure, comparable or superior to the education, examination and experience obligations of Iowa Code chapter 542 in effect at

the time the application is filed in Iowa. The board may accept the determination of substantial equivalency made by the National Association of State Boards of Accountancy or may make an independent determination of substantial equivalency.

b. Individual substantial equivalency. The applicant's individual qualifications on education, examination and experience are comparable or superior to the education, examination and experience obligations of Iowa Code chapter 542 in effect at the time the application is filed in Iowa.

c. "Four-in-ten rule." The applicant satisfies all of the following:

(1) The applicant passed the examination necessary for issuance of the applicant's certificate or license with grades that would have been passing grades at the time in this state.

(2) The applicant has had at least four years of experience within the ten years immediately preceding the application that occurred after the applicant passed the examination upon which the CPA certificate or license was based and that in the board's opinion is substantially equivalent to the obligations set forth in Iowa Code section 542.5(12).

(3) If the applicant's CPA certificate or license was issued more than four years prior to the filing of the application in this state, the applicant has fulfilled the continuing professional education mandates as described in Iowa Code section 542.6(3) and 481—Chapter 1030.

1029.5(2) A person who holds in good standing a certificate, license or designation from a foreign authority that is substantially equivalent to an Iowa CPA certificate is deemed qualified for an Iowa CPA certificate if the person satisfies all of the provisions of Iowa Code section 542.19(3). The burden is on the applicant to demonstrate that such certificate, license or foreign designation is in full force and effect and that the prerequisites for that certificate, license or foreign designation are comparable or superior to those needed for a CPA certificate in this state. Original verification from the foreign authority that issued the certificate, license or designation is needed to demonstrate that such certificate, license or designation is valid and in good standing. If the applicant cannot establish comparable or superior qualifications, the applicant will need to pass the Uniform Certified Public Accountant Examination designed to test the applicant's knowledge of practice in this state and country. If the applicant is a Canadian Chartered Accountant, Australian Chartered Accountant, Ireland Chartered Accountant, Mexico Contador Público Certificado (CPC), New Zealand Chartered Accountant, Scottish Chartered Accountant, or South African Chartered Accountant, the applicant may be obligated to take the International Qualification Examination (IQEX) in lieu of the uniform certified public accountant examination.

1029.5(3) An applicant seeking an Iowa CPA certificate based on the provisions of paragraph 1029.5(1)*"b,"* paragraph 1029.5(1)*"c,"* or subrule 1029.5(2) will submit such supporting information on education, examination or experience as the board deems reasonable to determine whether the applicant qualifies for licensure in Iowa.

[**ARC 7685C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1029.6(542) Continuing obligations. A person issued a CPA certificate under this chapter is subject to all laws and rules governing persons holding CPA certificates issued in this state including, without limitation, those concerning continuing education, peer review, and notification of crimes and professional discipline. However, a person issued a CPA certificate under this chapter who maintains the principal place of business in a different state and who maintains in good standing a valid CPA certificate or license in that state is deemed to have satisfied the continuing education and peer review obligations described in 481—Chapters 1030 and 1031 if the person satisfies similar obligations in the state in which the principal place of business is located.

[**ARC 7685C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1029.7(542) Expedited application processing. A person applying for a CPA certificate under the substantial equivalency provisions of Iowa Code section 542.19(1)*"a"* often desires expedited application processing to facilitate cross-border practice. Applications by such persons are especially suitable for rapid processing given the substantially equivalent standards previously enforced in another state. Unless such application reveals grounds to deny the application under subrule 1029.3(2), the board is otherwise aware of such grounds, or the application is unaccompanied by the proper fee, the board's administrator will approve an application that qualifies under Iowa Code section 542.19(1)*"a"* as rapidly as feasible and

deem the effective date of approval to practice in Iowa to be the date the board received the completed application with timely letter of good standing in a substantially equivalent state.

[**ARC 7685C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

These rules are intended to implement Iowa Code section 542.19.

[Filed 4/12/02, Notice 3/6/02—published 5/1/02, effective 7/1/02]
[Filed 9/13/02, Notice 8/7/02—published 10/2/02, effective 11/6/02]

CHAPTER 1030
CONTINUING EDUCATION

[Prior to 7/13/88, see Accountancy, Board of[10]]
[Prior to 6/10/26, see Accountancy Examining Board[193A] Ch 10]

Chapter rescission date pursuant to Iowa Code section 17A.7: 4/10/29

481—1030.1(542) Scope. The right to use the title "Certified Public Accountant" and "Licensed Public Accountant" is regulated in the public interest and imposes a duty on accounting professionals to maintain public confidence and current knowledge, skills, and abilities in all areas of services. CPAs and LPAs have to accept and fulfill their ethical responsibilities to the public and the profession regardless of their fields of employment.

1030.1(1) The development of professional competence involves a continued commitment to learning and professional improvement. A CPA and an LPA performing professional services need to have a broad range of knowledge, skills and abilities. A program that promotes professional competence in the practice of accountancy is defined as one that refers to the process, methods, or principles of accounting or is directly related to the CPA's and LPA's employment and is above the level of the CPA's and LPA's current knowledge.

1030.1(2) Acceptable subjects for continuing professional education include accounting, assurance/auditing, consulting services, specialized knowledge and applications, management, taxation, and ethics. Other subjects, including nontechnical professional skills, may be approved by the board if they maintain or improve CPAs' and LPAs' competence in their current employment.

[**ARC 7686C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1030.2(542) Definitions. The following definitions apply to the rules of this chapter.

"Continuing professional education (CPE)" means education that is acquired by a licensee in order to maintain, improve, or expand skills and knowledge present at initial licensure or to develop new and relevant skills and knowledge.

"Firm meeting" means a formally arranged gathering/assembly of staff or management groups or both to inform them of administrative matters.

"Formal program" means a structured learning activity based on clearly defined learning objectives and outcomes that articulate achievable knowledge, skills and abilities.

"In-house or on-site training" means a formally organized professional educational program sponsored by the employer.

"Live instruction" means an educational program delivered in a classroom setting or through videoconferencing whereby the instructor and student carry out essential tasks while together. Examples include distance learning and webcasts.

"Nontechnical professional skills" means formal programs of learning that contribute to the professional competence of a certificate holder or license holder in fields of study that indirectly relate to the holder's field of business. "Nontechnical professional skills" includes, but is not limited to, the following programs or courses:

1. Communication;
2. Interpersonal management;
3. Leadership and personal development;
4. Client and public relations;
5. Practice development;
6. Marketing;
7. Motivational and behavioral; and
8. Speed reading and memory building.

"Qualified instructor" means an individual whose training and experience adequately prepares the individual to carry out specified training assignments.

"Self-study" means a computer-generated program or written materials or exercises intended for self-study that do not include simultaneous interaction with an instructor but do include tests transmitted to the provider for review and grading.

"Technical professional skills" means formal programs of learning that contribute to the professional competence of a certificate holder or license holder in fields of study that directly relate to the holder's field of business. "Technical professional skills" includes, but is not limited to, the following programs or courses:

1. Auditing standards or procedures;
2. Compilation and review of financial statements;
3. Financial statement preparation and disclosures;
4. Attestation standards and procedures;
5. Projection and forecast standards or procedures;
6. Accounting and auditing;
7. Management advisory services;
8. Personal financial planning;
9. Taxation;
10. Management information systems;
11. Budgeting and cost analysis;
12. Asset management;
13. Professional ethics;
14. Specialized areas of industry;
15. Human resource management;
16. Economics;
17. Business law;
18. Mathematics, statistics and quantitative applications in business;
19. Business management and organization;
20. General computer skills, computer software training, information technology planning and management;
21. Operations management, inventory, and production; and
22. Negotiation or dispute resolution.

[**ARC 7686C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1030.3(542) Applicability. Completion of continuing professional education is a condition precedent to the renewal of the certificate or license.

[**ARC 7686C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1030.4(542) Cost of continuing professional education. All costs of completing continuing professional education are the responsibility of the certificate holder or license holder wishing to maintain registration in this state.

[**ARC 7686C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1030.5(542) Basic continuing professional education.

1030.5(1) Except as provided in subrules 1030.5(2) through 1030.5(7), an applicant for renewal will have completed 120 hours of qualifying continuing professional education during the three-year period ending on the December 31 or June 30 preceding the July 1 renewal date of the certificate or license. The following conditions apply:

a. On each renewal, a CPA or LPA self-selects December 31 or June 30 as the date by which continuing education will be completed in order to be eligible to renew the certificate or license.

b. A CPA or LPA applying to renew a certificate or license may declare a continuing education deadline of December 31 in one renewal cycle and a continuing education deadline of June 30 in a subsequent renewal cycle, and vice versa.

c. Licensees need to maintain continuing education records in a manner that corresponds with the self-selected continuing education deadline of December 31 or June 30.

d. When declaring a June 30 continuing education deadline, licensees should be cautious to ensure that the continuing education is fully completed on or prior to the date the renewal application is submitted to the board.

e. Licensees who renew with penalty during the 30-day grace period following June 30 need to declare either December 31 or June 30 as the continuing education deadline. The deadline cannot be extended beyond June 30.

1030.5(2) At the first annual renewal date of July 1 that is less than 12 months from the date of filing of the initial application for the certificate or license, the certificate holder or license holder is not required to report continuing professional education.

1030.5(3) At the annual renewal date of July 1 that is 12 months or more than 12 months, but less than 24 months, from the date of filing of the initial application for the certificate or license, the certificate holder or license holder will report 40 hours of continuing professional education earned in the one-year period ending December 31 or June 30 prior to the July 1 renewal date.

1030.5(4) At the annual renewal date of July 1 that is 24 months or more than 24 months, but less than 36 months, from the date of filing of the initial application for the certificate or license, the certificate holder or license holder will report 80 hours of continuing professional education earned in the two-year period ending December 31 or June 30 prior to the July 1 renewal date.

1030.5(5) A licensee is deemed to have completed continuing education under this rule if, for the period that the licensee is a resident of another state or district having a continuing professional education obligation, the licensee met the resident state's mandatory continuing professional education.

1030.5(6) The board may make exceptions for reasons of individual hardship including health, certified by a medical doctor, military service, foreign residency, retirement, or other good cause. No exceptions may be made solely because of age. Applicants entitled to a full or partial exception under the provisions of Iowa Code section 272C.2(4) for active military service or government service outside of the United States may request an exception by submitting acceptable documentation as applicable to the exception requested. Applicants seeking an exception on other grounds of undue hardship can submit an application for waiver as provided in 7—Chapter 2504.

1030.5(7) Licensees who apply to reinstate a lapsed or inactive certificate or license to active status pursuant to 481—subrule 1025.6(3) or 1025.9(7) need to satisfy 120 hours of continuing professional education earned in the preceding three-year period prior to the date of the application, including all mandatory education described in rule 481—1030.7(542). Once the certificate or license is reinstated, the continuing education obligations apply at each subsequent renewal. The 120-hour obligation described in this subrule is modified as needed to incorporate the phase-in schedule for initial licensees described in subrules 1030.5(2) through 1030.5(4).

[**ARC 7686C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1030.6(542) Measurement standards. The following standards will be used to measure the hours of credit to be given for qualifying continuing professional education programs completed by individual applicants:

1030.6(1) Credit is measured with one 50-minute period equaling one contact hour of credit. Half-hour credits may be allowed (equal to not less than 25 minutes) after the first hour of credit has been earned.

1030.6(2) Only class hours or the equivalent, and not student hours devoted to preparation, will be counted.

1030.6(3) Credit expressed as continuing education units (CEUs) will be counted as ten contact hours for each continuing professional education unit. (0.1 CEU = 1 CPE)

1030.6(4) Service as lecturer or discussion leader of continuing professional education programs will be counted to the extent that this service contributes to the applicant's professional competence.

[**ARC 7686C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1030.7(542) Mandatory education.

1030.7(1) Every CPA certificate holder or LPA license holder who is responsible for supervising compilation services or who signs or authorizes someone to sign the accountant's compilation report on

behalf of a firm will complete, as a condition of certificate or license renewal, a minimum of eight hours of continuing professional education devoted to financial statement presentation, such as courses covering the statements on standards for accounting and review services (SSARS) and accounting and auditing updates. The financial statement presentation continuing education has to be completed within the three-year period ending on the December 31 or June 30 preceding the application for certificate or license renewal. For credit to be claimed for a course covering multiple topics, a minimum of one hour as outlined in subrule 1030.6(1) has to be devoted to financial statement presentation. For example, if a seminar or presentation is conducted for a total of four hours and only one hour is devoted to financial statement presentation, then only one hour may be claimed toward satisfaction of this subrule.

1030.7(2) Every CPA certificate holder or LPA license holder needs to complete a minimum of four hours of continuing education devoted to ethics and rules of professional conduct during the three-year period ending December 31 or June 30, prior to the July 1 annual renewal date. For a course to qualify to satisfy this subrule, the course description will clearly outline the subject matter covered as professional or business ethics. If credit is to be claimed for a course covering multiple topics, a minimum of one hour as outlined in rule 481—1030.6(542), measurement standards, specifically in subrule 1030.6(1), needs to be devoted to business or professional ethics. For example, if a seminar or presentation is conducted for a total of four hours and only one hour is devoted to business or professional ethics, then only one hour may be claimed toward satisfaction of this subrule. Ethics courses, which are defined as courses dealing with regulatory and behavioral ethics, are limited to courses on the following:

a. Professional standards;
b. Licenses and renewals;
c. SEC oversight;
d. Competence;
e. Acts discreditable;
f. Advertising and other forms of solicitation;
g. Independence;
h. Integrity and objectivity;
i. Confidential client information;
j. Contingent fees;
k. Commissions;
l. Conflicts of interest;
m. Full disclosure;
n. Malpractice;
o. Record retention;
p. Professional conduct;
q. Ethical practice in business;
r. Personal ethics;
s. Ethical decision making; and
t. Corporate ethics and risk management as these topics relate to malpractice and relate solely to the practice of certified public accounting.

[**ARC 7686C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1030.8(542) Programs that qualify and CPE limitations.

1030.8(1) The overriding consideration in determining whether a specific program qualifies as acceptable continuing education is that it be a formal program of learning that contributes directly to the professional competence of an individual certified or licensed in this state. It will be left to each individual certificate holder or license holder to determine the technical or nontechnical professional skills courses of study to be pursued. Thus, the auditor may study accounting and auditing, the tax practitioner may study taxes, and the management advisory services practitioner may study subjects related to such practice. Job-related continuing professional education qualifies as acceptable provided the courses selected from nontechnical professional skills contribute to the professional competence of the certificate holder or license holder.

1030.8(2) Program standards have to include the following:

a. Learning activities based on clearly defined, relevant learning objectives and outcomes that clearly articulate the knowledge, skills, and abilities that can be achieved by participants.

b. Learning activities developed in a manner consistent with the prerequisite education, experience, and advanced preparation of the participants.

c. Activities, materials, and delivery systems that are current, technically accurate, and effectively designed. Providers, sponsors, or contractors that are competent in the subject matter. Competence may be demonstrated through practical experience or education.

d. Learning programs that are reviewed by qualified persons other than those who develop the program to ensure that the program is technically accurate and current and addresses the stated learning objectives. This standard is waived for single presentations such as lectures that are given once.

1030.8(3) Continuing professional education programs will qualify only if:

a. An outline of the program is prepared in advance and preserved.

b. The program is at least one hour (50-minute period) in length.

c. The program is conducted by a qualified instructor, discussion leader or lecturer. A qualified instructor, discussion leader or lecturer is anyone whose background, training, education or experience makes it appropriate for that person to lead a discussion on the subject matter of the particular program.

d. A record of attendance or certification of completion or transcript is maintained.

1030.8(4) The following programs are deemed to qualify provided all other criteria of this rule are met:

a. Professional development programs of recognized national and state accounting organizations.

b. Technical sessions at meetings of recognized national and state accounting organizations and their chapters.

c. Formally organized in-house or on-site educational programs provided by the certificate holder's or license holder's employer.

d. Distance learning programs or group study webcast programs.

e. University or college courses meet the continuing professional education obligations of those attending. Each semester hour is equal to 15 contact hours of credit. Each quarter hour is equal to 10 contact hours of credit.

f. Technical or nontechnical sessions offered by employers in business and industry, as well as firms of certified public accountants.

1030.8(5) Formal correspondence and formal self-study programs contributing directly to the professional competence of an individual that obligate the licensee to register and provide evidence of satisfactory completion will be considered for credit. The amount of credit to be allowed for correspondence and formal self-study programs (including tested study programs) will be recommended by the program sponsor and based upon appropriate "field tests" and will not exceed 50 percent of the renewal obligation. A licensee claiming credit for correspondence or formal self-study courses will obtain evidence of satisfactory completion of the course from the program sponsor. Credit will be allowed in the renewal period in which the course is completed.

1030.8(6) Credit may be allowed for self-study programs on the basis of one hour of credit for each 50 minutes spent on the self-study program if the developer of such programs is approved by either the national continuing professional education registry or by the NASBA continuing education registry and the program sponsor has not designated the amount of credit to be claimed for completing the course of study. The licensee has to estimate the equivalent number of hours and justify the amount of hours claimed. The maximum credit will not exceed 50 percent of the renewal obligation. Credit will be allowed in the renewal period in which the course is completed.

1030.8(7) The credit allowed an instructor, discussion leader, or speaker will be on the basis of two hours for subject preparation for each hour of teaching. Credit for teaching college or university coursework may be claimed for courses taught above the elementary accounting or principles of accounting level. Repetitious presentations will not be considered. The maximum credit for such preparation and teaching will not exceed 50 percent of the renewal period obligation.

1030.8(8) Credit may be awarded for published articles and books. The amount of credit so awarded will be determined by the board. Credit may be allowed for published articles and books provided they

contribute to the professional competence of the licensee. Credit for preparation of such publications may be given on a self-declaration basis up to 25 percent of the renewal period obligation. In exceptional circumstances, a licensee may request additional credit by submitting the article(s) or book(s) to the board with an explanation of the circumstances that the licensee believes justify additional credit.

1030.8(9) Credit may be allowed for the successful completion of professional examinations as detailed below. Credit is calculated at the rate of five times the length of each examination, which is presumed to include all preparation time, claimed in the calendar year of the examination, and limited to 50 percent of the total renewal obligation.

a. Certified Management Accountant/CMA.
b. Certified Information Systems Auditor/CISA.
c. Certified Information Technology Professional/CITP.
d. Certified Financial Planner/CFP.
e. Enrolled Agent/EA.
f. Certified Governmental Financial Manager/CGFM.
g. Certified Government Auditing Professional/CGAP.
h. Certified Internal Auditor/CIA.
i. Accredited Business Valuation/ABV.
j. Certified Financial Forensics/CFF.
k. Certified Valuation Analyst/CVA.
l. Certified Insolvency & Restructuring Advisor/CIRA.
m. Forensic Certified Public Accountant/FCPA.
n. Certified Fraud Examiner/CFE.
o. Certified Business Analyst/CBA.
p. Certified Trust and Financial Advisor/CTFA.
q. Chartered Financial Analyst/CFA.
r. Registered Representative, Series 6 and 7 and other examinations.
s. Registered Investment Advisor/RIA.
t. Certified Forensic Accountant/CrFA.
u. Personal Financial Specialist/PFS.
v. Chartered Life Underwriter/CLU.
w. Fellow of the Society of Actuaries/FSA.
x. Chartered Property & Casualty Underwriter/CPCU.
y. Fellow Life Management Institute/FLMI.
z. Other similar examinations approved by the board.

1030.8(10) Firm meetings for staff or management groups for the purpose of administrative and firm matters do not meet the standards set forth in subrule 1030.8(1).

1030.8(11) Dinner, luncheon and breakfast meetings of recognized organizations may qualify if they meet the appropriate provisions and are limited to 25 percent of the total renewal criteria if the individual meeting is no more than two hours long.

1030.8(12) Continuing professional education taken in nontechnical skills area as defined in rule 481—1030.2(542) is limited to 50 percent of the total renewal obligation.

1030.8(13) The board may look to recognized state or national accounting organizations for assistance in interpreting the acceptability of and credit to be allowed for individual courses.

1030.8(14) The right is specifically reserved to the board to approve or deny credit for continuing professional education claimed under these rules.

[**ARC 7686C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1030.9(542) Controls and reporting.

1030.9(1) An applicant for renewal may be requested to provide, in such manner, including but not limited to the online renewal process, and at such time as set forth by the board, verification and documentation setting forth the continuing professional education in which the licensee has participated. The board may allow for attestation that the licensee has completed continuing education in lieu of

providing a listing. If the applicant for renewal is requested to provide a listing of the continuing professional education completed, the documentation will include:

a. School, firm or organization conducting the course and contact information.
b. Location of course.
c. Title of course or description of content.
d. Principal instructor.
e. Dates attended.
f. Hours claimed.
g. Certificate of completion.
h. Name of participant.
i. Course field of study.
j. Type of instruction or delivery method.
k. Amount of CPE recommended.
l. Verification by CPE program sponsor representative.

Canceled checks and registration forms are not proof of attendance.

1030.9(2) The board may request sponsors of courses to furnish an attendance record, a certification of completion or any other information the board deems essential for administration of these continuing professional education rules.

1030.9(3) The board will verify, on a test basis, information submitted by licensees. If an application for renewal is not approved, the applicant will be so notified and may be granted a period of time by the board in which to correct the deficiencies noted.

1030.9(4) Primary responsibilities for documenting the continuing education compliance is with the licensee, and such documentation has to be retained for a period of three years subsequent to submission of the report claiming the credit. (More information can be found in 481—subrule 1034.3(1) and Iowa Code section 542.10(1)*"a,"* which provides for permanent revocation based on fraud or deceit in procuring a license.) Satisfaction of the obligations, including retention of attendance records, certification of completion records, and written outlines, may be accomplished as follows:

a. For courses taken for scholastic credit in accredited universities and colleges (state, community, or private) or high school districts, evidence of satisfactory completion of the course will be sufficient; for noncredit courses taken, a statement of the hours of attendance, signed by the instructor, will be obtained by the licensee.

b. For correspondence and formal independent self-study courses, written evidence or a certificate of completion from the sponsor or course provider will be obtained by the licensee.

c. In all other instances, the licensee will maintain a record of the information as listed in subrule 1030.8(3).

[**ARC 7686C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1030.10(542) Grounds for discipline. A licensee or an applicant is subject to discipline, including permanent revocation, if the licensee or applicant provides false information to the board in connection with an application to renew or reinstate a certificate or license. A licensee or an applicant is also subject to discipline if the licensee or applicant is unable to document the continuing professional education hours reported to the board in connection with an audit or other request for documentation. False information of this nature will subject the licensee or applicant to discipline whether the false information was supplied intentionally or with reckless disregard for the truth or accuracy of the number of hours claimed. Licensees and applicants are accordingly cautioned to supply the board with accurate continuing professional education information.

[**ARC 7686C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1030.11(272C,542) Alternative continuing education cycles authorized.

1030.11(1) *Purpose.* For a variety of reasons, some CPAs and LPAs may wish to complete their continuing education on a three-year cycle ending on a date other than December 31. By way of illustration, some licensees may prefer to take courses on particular substantive topics that are not always offered at the same time each year. Some licensees may wish to schedule continuing education

to comply with the differing obligations of multiple jurisdictions. This rule is intended to authorize a more flexible time frame within which continuing education may be satisfied. This rule does not alter any other requirement of this chapter.

1030.11(2) *Declaration may vary by renewal cycle.* A CPA or LPA applying to renew a certificate or license may declare a continuing education deadline of December 31 in one renewal cycle and a continuing education deadline of June 30 in a subsequent renewal cycle, and vice versa. Licensees are expected to maintain continuing education records in a manner that complies with the self-selected declaration in any particular renewal cycle.

[**ARC 7686C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

These rules are intended to implement Iowa Code chapters 272C and 542.

CHAPTER 1031
PEER REVIEW

[Prior to 5/1/02, see 193A—Chapter 17]
[Prior to 6/10/26, see Accountancy Examining Board[193A] Ch 11]

Chapter rescission date pursuant to Iowa Code section 17A.7: 4/10/29

481—1031.1(542) Peer review obligations. As a condition of renewal for a CPA or an LPA who issues compilation reports other than through a CPA or an LPA firm that holds a permit to practice, and as a condition of permit renewal for LPA firms that issue compilation reports or CPA firms that provide attest services or issue compilation reports, the applicant shall submit certification of completion of a peer review issued pursuant to this chapter. Such review needs to be completed at the highest level of service provided by the firm or licensee. The performance of preparation services under SSARS 21 does not alone subject a firm or individual to peer review, although if a firm or individual is otherwise subject to peer review, the reviewer may include preparation services in the scope of practices reviewed.
[**ARC 7687C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1031.2(542) Three-year cycle. During the three-year period ending December 31 preceding the application for renewal of a certificate, license, or permit to practice, the individual licensee or firm shall have completed a peer review in accordance with this chapter. A peer review shall be completed no less often than once every three years.
[**ARC 7687C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1031.3(542) System of internal quality control. If the firm has not performed any attest or compilation services prior to the application for renewal, the firm will have in place a system of internal quality control prior to the commencement of an engagement including attest or compilation services and come into compliance with the peer review obligations within 18 months of completion of an engagement including attest or compilation services.
[**ARC 7687C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1031.4(542) Peer review programs that qualify. A firm's completion of a peer review program endorsed or supported by the AICPA, the National Society of Accountants or other substantially similar review programs in Iowa or other states approved by the board satisfies this chapter.
[**ARC 7687C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1031.5(542) Waiver of peer review. At the time of renewal, a licensee or firm may request a waiver from this chapter, as provided in Iowa Code sections 542.7(9) and 542.8(18).
[**ARC 7687C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1031.6(542) Submission of peer review reports. Unless the subject of a peer review timely objects in writing to the administering entity of the peer review program, the administering entity will make available to the board, within 30 days of the issuance of the peer review acceptance letter, the final peer review report or such peer review records as are designated by the peer review program in which the administering entity participates. The subject of a peer review may voluntarily submit the final peer review report directly to the board.
[**ARC 7687C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

These rules are intended to implement Iowa Code chapter 542.

[Filed 12/30/92, Notice 10/28/92—published 1/20/93, effective 2/24/93]
[Filed 12/17/93, Notice 10/13/93—published 1/5/94, effective 2/9/94]
[Filed 4/12/02, Notice 3/6/02—published 5/1/02, effective 7/1/02]
[Filed ARC 7715B (Notice ARC 7484B, IAB 1/14/09), IAB 4/22/09, effective 7/1/09]
[Filed ARC 2152C (Notice ARC 2058C, IAB 7/8/15), IAB 9/30/15, effective 11/4/15]
[Filed ARC 7687C (Notice ARC 7394C, IAB 1/10/24), IAB 3/6/24, effective 4/10/24]
[Editorial change: IAC Supplement 6/10/26]

CHAPTER 1032
FEES

[Prior to 7/13/88, see Accountancy, Board of[10]]
[Prior to 5/1/02, see 193A—Chapter 14]
[Prior to 6/10/26, see Accountancy Examining Board[193A] Ch 12]

Chapter rescission date pursuant to Iowa Code section 17A.7: 4/10/29

481—1032.1(542) Fees. The following is a schedule of the fees for examinations, certificates, licenses, permits and renewals adopted by the board:

Initial CPA examination application:	
Paid directly to CPA examination services	not to exceed $1,500
Reexamination:	
Paid directly to CPA examination services	not to exceed $1,500
Original issuance of CPA certificate or LPA license by examination (fee includes wall certificate)	$100
Original issuance of CPA certificate by reciprocity or substantial equivalency	$100
CPA wall certificate or LPA license issued by reciprocity or substantial equivalency	$50
Replacement of lost or destroyed wall CPA certificate or LPA license	$50
Original issuance of attest qualification	$100
Annual renewal of CPA certificate or LPA license—active status	$100
Late renewal of CPA certificate or LPA license within 30-day grace period (July 1 to July 30)—active status	$25
Annual renewal of CPA certificate or LPA license—inactive status	$50
Late renewal of CPA certificate or LPA license within 30-day grace period (July 1 to July 30)—inactive status	$10
Original issuance of firm permit to practice	$100
Annual renewal of firm permit to practice	$100
Reinstatement of lapsed CPA certificate or LPA license	$100 + renewal fee + $25 per month of expired registration
Reinstatement of lapsed firm permit to practice	$100 + renewal fee + $25 per month of expired registration
Interstate Transfer Form	$25
License predetermination fee	$25

[**ARC 7688C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1032.2(542) Reinstatement.

1032.2(1) *Reinstatement of a lapsed CPA certificate or LPA license.* The fee for the reinstatement of a lapsed CPA certificate or LPA license is $100 plus the renewal fee plus $25 per month of expired registration up to a maximum of $1,000.

1032.2(2) *Reinstatement of lapsed firm permit to practice.* The fee for the reinstatement of a lapsed CPA or LPA firm permit to practice for applications is $100 plus the renewal fee plus $25 per month of expired registration up to a maximum of $1,000.

1032.2(3) *Applicants for reinstatement.* All applicants for reinstatement will be assessed the $100 reinstatement fee. The $25 per month penalty fee described in subrules 1032.2(1) and 1032.2(2) will not be assessed if the applicant for reinstatement did not, during the period of lapse, engage in any acts or practices for which an active CPA certificate, LPA license, or firm permit to practice as a CPA or LPA firm is necessary in Iowa. Falsely claiming an exemption from the monthly penalty fee is a ground for discipline; in addition, other grounds for discipline may arise from practicing on a lapsed certificate, license or permit to practice.

[**ARC 7688C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1032.3(542) Prorating of certain fees. Fees for the issuance of an original CPA certificate or LPA license, pursuant to rule 481—1025.3(542), or the issuance of an initial permit to practice to a CPA or LPA firm, pursuant to rule 481—1027.1(542), will not be prorated.

[**ARC 7688C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

These rules are intended to implement Iowa Code chapter 542.

CHAPTER 1033
RULES OF PROFESSIONAL ETHICS AND CONDUCT

[Prior to 5/1/02, see 193A—Chapter 11]
[Prior to 6/10/26, see Accountancy Examining Board[193A] Ch 13]

Chapter rescission date pursuant to Iowa Code section 17A.7: 4/10/29

481—1033.1(542) Applicability.

1033.1(1) The AICPA Code of Professional Conduct is based upon the premise that the reliance of the public in general and of the business community in particular on sound financial reporting and on the implication of professional competence inherent in the authorized use of a board-regulated title relating to the practice of public accountancy imposes on persons engaged in such practice certain obligations both to their clients and to the public. These obligations, which the rules of professional ethics and conduct are intended to enforce where necessary, include the obligation to maintain independence of thought and action and a continued commitment to learning and professional improvement, to observe applicable generally accepted accounting principles and generally accepted auditing standards, to promote the public interest through sound and informative financial reporting, to hold the affairs of clients in confidence, and to maintain high standards of personal conduct in all professional activities in whatever capacity performed.

1033.1(2) In addition to the rules specifically enumerated herein, and only to the extent applicable to certificate holders' and licensees' respective scope of practice, all certificate holders and licensees are obligated to comply with the AICPA Code of Professional Conduct. In the event of a conflict or inconsistency between the AICPA Code of Professional Conduct and rules specifically enumerated herein, the rules specifically enumerated herein prevail.

1033.1(3) The rules of professional ethics and conduct apply to all professional services performed by all CPAs and LPAs, whether or not they are engaged in the practice of public accountancy, except where the wording of a rule clearly indicates that the applicability is specifically limited to the practice of public accountancy.

1033.1(4) A CPA or an LPA engaged in the practice of public accountancy outside the United States will not be subject to discipline by the board for departing, with respect to such foreign practice, from any of the board's rules of professional ethics and conduct, so long as the CPA's or LPA's conduct is in accordance with the standards of professional conduct applicable to the practice of public accountancy in the country in which the CPA or LPA is practicing. However, even in such a case, if a CPA's or an LPA's name is associated with financial statements in such manner as to imply that the CPA or LPA is acting as an independent public accountant and under circumstances that would entitle the reader of the financial statement to assume that United States practices are followed, the CPA or LPA will comply with applicable generally accepted engagement standards and applicable generally accepted accounting principles.

1033.1(5) A CPA or an LPA may be held responsible for compliance with the rules of professional ethics and conduct by all persons associated with the accountant in the practice of public accounting who are either under the accountant's supervision or are licensees, partners or shareholders in the accountant's practice.

1033.1(6) CPAs and CPA firms exercising a practice privilege in Iowa or for a client with a home office in Iowa are subject to the professional standards set forth in this chapter.

1033.1(7) These rules complement the grounds for discipline set out in 481—Chapter 1034.

[**ARC 7689C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1033.2(542) Rules applicable to all CPAs and LPAs.

1033.2(1) *Cooperation with board inquiry.* A CPA or an LPA will, when requested, respond to communications from the board within 30 days.

1033.2(2) *Reporting convictions, judgments, and disciplinary actions.* In addition to any other reporting obligations in Iowa Code chapter 542 or these rules, a CPA or an LPA needs to notify the board within 30 days of:

a. Imposition upon the CPA or LPA of discipline including, but not limited to, censure, reprimand, sanction, probation, civil penalty, fine, consent decree or order, or suspension, revocation or modification of a license, certificate, permit or practice rights by:

(1) The SEC, PCAOB, or IRS (by the Director of Practice); or

(2) Another state board of accountancy for cause other than failure to pay a professional fee by the due date or failure to complete continuing education obligations by another state board of accountancy; or

(3) Any other federal or state agency regarding the CPA's or LPA's conduct while rendering professional services; or

(4) Any foreign authority or credentialing body that regulates the practice of accountancy;

b. Occurrence of any matter reportable by the CPA or LPA to the PCAOB pursuant to the Sarbanes-Oxley Act, Section 102(b)(2)(f) as amended to December 29, 2022, and PCAOB rules and forms adopted pursuant thereto;

c. Any judgment, award or settlement of a civil action or arbitration proceeding in which the CPA or LPA was a party if the matter included allegations of gross negligence, violation of specific standards of practice, fraud, or misappropriation of funds in the practice of accounting; provided, however, licensed firms will notify the board regarding civil judgments, settlements or arbitration awards directly involving the firm's practice of public accounting in this state; or

d. Criminal charges, deferred prosecution or conviction or plea of no contest to which the CPA or LPA is a defendant if the crime is:

(1) Any felony under the laws of the United States or any state of the United States or any foreign jurisdiction; or

(2) Any crime, including a misdemeanor, if an essential element of the offense is dishonesty, deceit or fraud, as more fully described in Iowa Code section 542.5(2).

1033.2(3) *Firm's duty to report.* Each firm will designate a CPA or an LPA as responsible for firm licensure or office registration and responsible for reporting any matter reportable under this rule.

1033.2(4) *Solicitation or disclosure of CPA examination questions and answers.* A CPA or an LPA who solicits or knowingly discloses a Uniform Certified Public Accountant Examination question(s) or answer(s) without the written authorization of the AICPA has committed an act discreditable to the profession.

1033.2(5) *Falsely reporting continuing professional education (CPE).* A CPA or an LPA has committed an act discreditable to the profession when the CPA or LPA falsely reports CPE credits to the board.

[**ARC 7689C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1033.3(542) Rules applicable to CPAs and LPAs who use the titles in offering or rendering products or services to clients.

1033.3(1) *Use of title.*

a. Certified public accountant. Only a person who holds an active, unexpired certificate and who complies with 481—Chapter 1025, Licensure Status and Renewal of Certificates and Licenses, and 481—Chapter 1030, Continuing Education, or a person lawfully exercising a practice privilege under Iowa Code section 542.20 may use or assume the title "certified public accountant" or the abbreviation "CPA" or any other title, designation, word(s), letter(s), abbreviation(s), sign, card, or device indicating that such person is a certified public accountant.

b. Licensed public accountant. Only a person holding a license as a licensed public accountant may use or assume the title "licensed public accountant" or the abbreviation "LPA" or any other title, designation, word(s), letter(s), abbreviation(s), sign, card, or device indicating that such person is a licensed public accountant.

1033.3(2) *Forms of practice.*

a. Certified public accountant firms. A sole proprietorship, corporation, partnership, limited liability company, or any other form of organization has to apply for a permit to practice under Iowa Code section 542.7 and these rules as a firm of certified public accountants in order to use the title "CPAs" or "CPA firm," as more fully described in 481—Chapter 1027.

b. Licensed public accounting firms. A sole proprietorship, corporation, partnership, limited liability company, or any other form of organization has to apply for a permit to practice under Iowa Code section 542.8 and these rules as a firm of licensed public accountants in order to use the title "LPAs" or "LPA firm," as more fully described in 481—Chapter 1028.

1033.3(3) *Acting through others.* A CPA or an LPA is obligated to not allow others to carry out on the CPA's or LPA's behalf, either with or without compensation, acts which, if carried out by the CPA or LPA, would violate the rules of professional ethics and conduct.

[**ARC 7689C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1033.4(542) Audit, review and other attest services.

1033.4(1) *Practice privilege.* All audit, review, and other attest services performed in Iowa or for a client with a home office in Iowa has to be performed through a CPA firm that holds an active Iowa firm permit to practice or through an out-of-state CPA firm exercising a practice privilege in compliance with Iowa Code section 542.20(5) and 542.20(6) and associated rules and the peer review and ownership provisions of Iowa Code section 542.7. Unless Iowa certification is specifically mandated by a governmental body or client, the individual CPAs performing such attest services may either hold an active Iowa CPA certificate or exercise a practice privilege as more fully described in Iowa Code section 542.20. LPAs and LPA firms are not authorized to perform attest services.

1033.4(2) Reserved.

[**ARC 7689C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1033.5(542) Compilation.

1033.5(1) *Who can perform.* Only a CPA licensed under Iowa Code section 542.6 or 542.19, or any other applicable law or rule; an LPA licensed under Iowa Code section 542.8, or any other applicable law or rule; or a CPA exercising a practice privilege under Iowa Code section 542.20 may issue a report in standard form upon a compilation of financial information or otherwise provide compilation services in Iowa or for a client with a home office in Iowa. (More information can be found in rule 481—1026.4(542).)

1033.5(2) *Peer review.* All individuals described in 481—subrule 1026.4(1) will satisfy peer review obligations, individually or through a peer review of a CPA or an LPA firm holding a permit to practice pursuant to Iowa Code section 542.7 or 542.8 or a CPA firm exercising a practice privilege under Iowa Code section 542.20.

[**ARC 7689C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1033.6(542) Rules applicable to tax practice. CPAs, LPAs, and persons who are not CPAs or LPAs may perform tax services in Iowa. The rules of professional ethics and conduct in this chapter apply to any CPA or LPA who is licensed in Iowa and to any CPA exercising a practice privilege in Iowa whenever such person informs the client or prospective client that the person is a CPA or an LPA. Clients may be so informed in a number of ways, including oral or written representations, the display of a CPA certificate or LPA license, or use of the CPA or LPA title in advertising, telephone or Internet directories, letterhead, business cards or email.

[**ARC 7689C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

These rules are intended to implement Iowa Code chapters 272C and 542.

CHAPTER 1034
DISCIPLINARY AUTHORITY AND GROUNDS FOR DISCIPLINE
[Prior to 6/10/26, see Accountancy Examining Board[193A] Ch 14]

Chapter rescission date pursuant to Iowa Code section 17A.7: 4/10/29

481—1034.1(17A,272C,542) Disciplinary authority. The board exercises disciplinary authority for the protection and well-being of those persons who rely on licensed individuals and firms for the performance of public accounting services within this state or for clients in this state. To perform these functions, the board is broadly vested with authority to review and investigate alleged acts or omissions of licensees, determine whether disciplinary proceedings are warranted, initiate and prosecute disciplinary proceedings, establish standards of professional conduct, and impose discipline, as authorized under Iowa law.
[**ARC 7690C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1034.2(17A,272C,542) Disciplinary policy.

1034.2(1) The board's disciplinary policy rests upon the premise that the reliance of the public in general and of the business community in particular on sound financial reporting, and on the implication of professional competence inherent in the authorized use of a licensee's regulated title relating to the practice of public accountancy, imposes on persons and firms engaged in such practice certain obligations both to their clients and to the public. These obligations include the obligation to maintain independence of thought and action; to strive continuously to improve one's professional skills; to observe, where applicable, generally accepted accounting principles, generally accepted auditing standards, and similar principles and standards; to promote sound and informative financial reporting; to hold the affairs of clients in confidence; and to maintain high standards of personal conduct in all matters affecting one's fitness to practice public accountancy.

1034.2(2) The public interest dictates that persons professing special competence in accountancy have demonstrated their qualifications to do so, and that persons who have not demonstrated and maintained such qualifications not be permitted to represent themselves as having such special competence; that the conduct of persons licensed as having special competence in accountancy be regulated in all aspects of their professional work; and that the use of titles that have a capacity or tendency to deceive the public as to the status or competence of the persons using such titles not be permitted.

1034.2(3) A CPA or LPA firm is subject to discipline for its own violations of Iowa Code chapter 542 and administrative rules and the violations of the firm's CPAs, LPAs, nonlicensee owners, persons acting or purporting to act under a practice privilege, and others performing professional services on the firm's behalf. Whether a CPA or LPA firm will be charged based on the acts of such individuals will depend on the circumstances. Among the factors the board will consider are whether the firm took reasonable steps to prevent the violation, whether the violation was or could have been discovered by the firm upon reasonable inquiry, what steps the firm took upon discovering the violation, whether the acts or omissions involved licensees of the board or were committed by persons who are not individually licensed by the board, the nature of the services at issue, and whether the violations are isolated matters or more systemic to the firm's performance.
[**ARC 7690C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1034.3(17A,272C,542) Grounds for discipline. The board may initiate disciplinary action against a CPA, an LPA, or a firm of CPAs or LPAs that holds an active, inactive or lapsed certificate, license or permit to practice on any of the following grounds:

1034.3(1) *Fraud or deceit in procuring a license.* Fraud or deceit in procuring or attempting to procure an initial, reciprocal, renewal, or reinstated certificate, license, or permit to practice includes any intentional perversion of the truth when submitting an application to the board, or when submitting information in support of another's application to the board, including:

a. False representation of a material fact, whether by word or by conduct, by false or misleading allegation, or by concealment of that which should have been disclosed.

b. Attempting to file or filing with the board any false or forged record or document, such as a college transcript, diploma or degree, examination report, verification of licensure, continuing education certificate, or verification of peer review.

c. Failing or refusing to provide complete information in response to a question on an application.

d. Reporting information, such as satisfaction of continuing education, peer review, or attest qualification, in a false manner through overt deceit or with reckless disregard for the truth or accuracy of the information asserted.

e. Otherwise participating in any form of fraud or misrepresentation by act or omission.

1034.3(2) *Professional incompetence.* Professional incompetence includes, but is not limited to:

a. A substantial lack of knowledge or ability to discharge professional obligations within the practice of public accounting.

b. A substantial deviation from the standards of learning or skill ordinarily possessed and applied by other practitioners in the state of Iowa acting in the same or similar circumstances.

c. A failure to exercise the degree of care ordinarily exercised by the average practitioner acting in the same or similar circumstances.

d. Failure to conform to the minimum standards of acceptable and prevailing practice of public accounting in this state.

e. A willful, repeated, or material deviation from generally accepted engagement standards, generally accepted accounting standards, generally accepted auditing standards, or any other nationally recognized standard applicable to the public accounting services at issue.

f. Any other act or omission that demonstrates an inability to safely practice in a manner protective of the public's interest.

1034.3(3) *Deceptive practices.* Deceptive practices are grounds for discipline, whether or not actual injury is established, and include:

a. Knowingly making misleading, deceptive, untrue or fraudulent representations in the practice of public accounting.

b. Use of untruthful or improbable statements in advertisements. Use of untruthful or improbable statements in advertisements includes, but is not limited to, an action by a licensee in making information or intention known to the public that is false, deceptive, misleading or promoted through fraud or misrepresentation.

c. Acceptance of any fee by fraud or misrepresentation.

d. Falsification of business or client records.

e. Submission of false or misleading reports or information to the board including information supplied in an audit of continuing education, reports submitted as a condition of probation, or any reports identified in this rule or 481—Chapter 1038.

f. Knowingly presenting as one's own a certificate or certificate number, license or license number, permit or permit number, or signature, when the above belongs to another or a fictitious licensee; or otherwise falsely impersonating a person holding a CPA certificate, an LPA license, or a permit to practice as a firm of CPAs or LPAs.

g. Representing oneself as a CPA, LPA, CPA firm, or LPA firm when the certificate, license, or permit to practice has been suspended, revoked, surrendered, or placed on inactive status, or has lapsed, except as allowed under Iowa Code section 542.20.

h. Fraud in representations as to skill or ability.

1034.3(4) *Unethical, harmful or detrimental conduct.* Licensees engaging in unethical conduct or practices harmful or detrimental to the public may be disciplined whether or not injury is established. Behaviors and conduct that are unethical, harmful or detrimental to the public may include, but are not limited to, the following actions:

a. Verbal or physical abuse, or improper sexual contact, if such behavior occurs within the practice of public accounting or if such behavior otherwise provides a reasonable basis for the board to conclude that such behavior within the practice of public accounting would place the public at risk.

b. A violation of a rule of professional conduct relating to improper conflicts of interest, or lack of integrity, objectivity or independence, as provided in the AICPA Code of Professional Conduct.

c. A violation of a provision of Iowa Code section 542.13, or aiding or abetting any unlawful activity for which a civil penalty can be imposed under Iowa Code sections 542.13 and 542.14.

1034.3(5) *Lack of proper qualifications.* Lack of proper qualifications includes, but is not limited to:

a. Continuing to practice as a CPA or LPA without satisfying the continuing education necessary for certificate or license renewal.

b. Continuing to perform attest services or compilation services without timely completion of peer review.

c. Performing attest services as an individual without proper certification or attest qualification, or without acting through a CPA firm holding a permit to practice pursuant to Iowa Code section 542.7 or exercising a practice privilege pursuant to Iowa Code section 542.20.

d. Performing attest services as a firm without holding a permit to practice pursuant to Iowa Code section 542.7 or exercising a practice privilege pursuant to Iowa Code section 542.20, or without ensuring that the individuals responsible for supervising attest services or signing or authorizing someone to sign the accountant's report are attest-qualified, hold the necessary certification or are eligible to exercise a practice privilege, or otherwise performing attest services in a manner inconsistent with Iowa Code chapter 542 or the rules of the board.

e. Habitual intoxication or addiction to the use of drugs, or impairment that adversely affects the CPA's or LPA's ability to practice in a safe and competent manner.

f. Any act, conduct, or condition, including lack of education or experience and careless or intentional acts or omissions, that demonstrates a lack of qualifications that are necessary to ensure a high standard of professional care as provided in Iowa Code section 272C.3(2)*"b,"* or that impairs a practitioner's ability to safely and skillfully practice the profession.

1034.3(6) *Negligence in the practice of public accounting.* Negligence in the practice of public accounting includes the following acts, practices, or omissions, whether or not injury results:

a. Failure or refusal without good cause to exercise reasonable diligence in the practice of public accounting.

b. Failure to exercise due care including negligent delegation of duties in the practice of public accounting.

c. Neglect of contractual or other duties to a client.

1034.3(7) *Professional misconduct.* Professional misconduct includes, but is not limited to, the following:

a. Violation of a generally accepted engagement standard, generally accepted accounting standard, generally accepted auditing standard, or any other nationally recognized standard applicable to the public accounting services at issue, as provided in rule 481—1033.4(542), or any other violation of a provision of the AICPA Code of Professional Conduct.

b. Violation of a regulation or law of this state, another state, the United States, or the PCAOB in the practice of public accounting.

c. Engaging in any conduct that subverts or attempts to subvert a board investigation of a licensed or unlicensed firm, individual, or other entity, or failure to fully cooperate with a disciplinary investigation of a licensee or with an investigation of firms, individuals or other entities that are not licensed by the board, including, without limitation, failure to comply with a subpoena issued by the board or to respond to a board inquiry within 30 days.

d. Revocation, suspension, or other disciplinary action taken against a licensee or person or firm exercising a practice privilege by a licensing authority of this state or another state, territory, or country. A stay by an appellate court does not negate the obligation to report such incidents to the board; however, if such disciplinary action is overturned or reversed by a court of last resort, discipline by the board based solely on such action will be vacated.

e. Suspension or revocation of the right to practice before any state or federal agency, or the PCAOB.

f. Violating Iowa Code section 542.17.

g. Violating Iowa Code section 542.18.

h. Violating or aiding and abetting another's violation of Iowa Code section 542.13 or 542.20.

i. Violating the terms of an initial agreement with the Iowa professionals review committee or violation of the terms of an impaired practitioner recovery contract with the Iowa professionals review committee.

j. Violating a practice privilege afforded to an Iowa licensee in another state.

k. Engaging in the practice of public accounting on a lapsed or inactive certificate, license or permit when the acts or practices obligate active Iowa licensure and, in the case of a firm, allowing such acts or practices by firm CPAs or LPAs.

1034.3(8) *Willful or repeated violations.* The willful or repeated violation or disregard of any provision of Iowa Code chapter 272C or 542 or any administrative rule adopted by the board in the administration or enforcement of such chapters.

1034.3(9) *Failure to report.*

a. Failure by a CPA firm to timely report as provided in rule 481—1027.7(542).

b. Failure of an LPA firm to timely report as provided in rule 481—1028.5(542).

c. Failure to timely report judgments and settlements and reportable violations by others as provided in 481—Chapter 1038.

d. Failure to report in writing to the board any issuance, denial, revocation, or suspension of a license by another state, or the voluntary surrender of a license to resolve a pending disciplinary investigation or action, within 30 calendar days of the licensing authority's final action.

e. Failure to report the conviction of any felony, or a crime described in Iowa Code section 542.5(2), within 30 calendar days of the conviction.

f. Failure to report to the board a change in the licensee's physical or mailing address within 30 calendar days of the change.

g. Failure to report as provided in 481—subrule 1033.4(3) or as otherwise required in the AICPA Code of Professional Conduct.

1034.3(10) *Failure to comply with board order.* Failure to comply with the terms of a board order or the terms of a settlement agreement or consent order, or other decision imposing discipline.

1034.3(11) *Conviction of a crime.* Conviction of any crime described in Iowa Code section 542.5(2) and as limited by Iowa Code section 272C.10(5) is grounds for denial, revocation, or suspension of a license. "Conviction" includes any plea of guilty or nolo contendere, including Alford pleas, or finding of guilt whether or not judgment or sentence is deferred, withheld, not entered, or suspended, and whether or not the conviction is on appeal. If such conviction is overturned or reversed by a court of last resort, discipline by the board based solely on the conviction is vacated.

1034.3(12) *Conduct discreditable to the accounting profession.* Conduct discreditable to the accounting profession includes any act or practice that diminishes the public's confidence in the profession, impairs the credibility of the profession, or otherwise compromises the public's trust. While it is not possible to list all conduct that is discreditable to the accounting profession, the following list provides an illustrative range of acts or practices that are implicated:

a. Dishonesty in business or financial affairs, or a pattern of fiscal irresponsibility.

b. Placement on the sex offender registry.

c. Securities fraud or violation of the Iowa consumer fraud Act.

d. Willful or repeated failure to timely file tax returns or other tax documents.

e. False testimony in a court or administrative proceeding, or affidavit, or otherwise under oath.

f. Providing false or misleading information to a financial institution or governmental body or official.

g. Stating or implying an ability to improperly influence a government agency or official, or attempting to do so through deception, bribery or other unlawful means.

h. Violation of a breach of fiduciary duty when acting in the capacity of a trustee, conservator, or other fiduciary, or as the professional advisor to a fiduciary.

i. Any violation of Iowa Code chapter 542 or administrative rules that involves dishonesty, bad faith, or unethical behavior.

[**ARC 7690C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

These rules are intended to implement Iowa Code chapters 17A, 272C and 542 and section 546.10.

CHAPTER 1035
DISCIPLINARY INVESTIGATIONS
[Prior to 6/10/26, see Accountancy Examining Board[193A] Ch 15]

Chapter rescission date pursuant to Iowa Code section 17A.7: 4/10/29

481—1035.1(17A,272C,542) Initiation of disciplinary investigations. The board may initiate a licensee disciplinary investigation upon the board's receipt of information suggesting that a licensee may have violated a law or rule enforced by the board which, if true, would constitute grounds for licensee discipline. The board may also review the publicly available work product of licensees on a general or random basis to determine whether reasonable grounds exist to initiate disciplinary proceedings or to conduct a more specific investigation.
[**ARC 7691C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1035.2(17A,272C,542) Conflict of interest. If the subject of a complaint is a member of the board, or if a member of the board has a conflict of interest in any disciplinary matter before the board, that member will abstain from participation in any consideration of the complaint and from participation in any disciplinary hearing that may result from the complaint.
[**ARC 7691C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1035.3(272C,542) Complaints. Written complaints may be submitted by any means and by anyone.

1035.3(1) *Contents of a written complaint.* Written complaints may be submitted through the online complaint process. Written complaints, whether submitted on a board complaint form or in other written medium, will contain the following information:

a. The full name, address, and telephone number of the complainant (person complaining).

b. The full name, address, and telephone number of the respondent (licensee against whom the complaint is filed).

c. A statement of the facts and circumstances giving rise to the complaint, including a description of the alleged acts or omissions that the complainant believes demonstrate that the respondent has violated or is violating laws or rules enforced by the board.

d. If known, citations to the laws or rules allegedly violated by the respondent.

e. Evidentiary supporting documentation.

f. Steps, if any, taken by the complainant to resolve the dispute with the respondent prior to filing a complaint.

1035.3(2) *Immunity.* As provided by Iowa Code section 272C.8, a person is not civilly liable as a result of filing a report or complaint with the board unless such act is done with malice, nor may an employee be dismissed from employment or discriminated against by an employer for filing such a report or complaint.

1035.3(3) *Role of complainant.* The role of the complainant in the disciplinary process is limited to providing the board with factual information relative to the complaint. A complainant is not party to any disciplinary proceeding that may be initiated by the board.

1035.3(4) *Role of the board.* The board does not act as an arbiter of disputes between private parties, nor does the board initiate disciplinary proceedings to advance the private interest of any person or party. The role of the board in the disciplinary process is to protect the public by investigating complaints and initiating disciplinary proceedings in appropriate cases. The board possesses sole decision-making authority throughout the disciplinary process, including the authority to determine whether a case will be investigated, the manner of the investigation, whether a disciplinary proceeding will be initiated, and the appropriate licensee discipline to be imposed, if any.

1035.3(5) *Initial complaint review.* All written complaints received by the board are initially reviewed by the board's administrator to determine whether the complaint allegations fall within the board's investigatory jurisdiction and whether the facts presented, if true, would constitute a basis for licensee disciplinary action. Complaints that are clearly outside the board's jurisdiction, which clearly do not allege

facts upon which disciplinary action would be based, or which are frivolous, will be referred by the board administrator to the board for closure at the next scheduled board meeting.
[**ARC 7691C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1035.4(272C,542) Case numbers. Complaint files are tracked by a case numbering system. Once a case file number is assigned to a complaint, all persons communicating with the board regarding that complaint are encouraged to include the case file number to facilitate accurate records and prompt response.
[**ARC 7691C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1035.5(272C,542) Confidentiality of complaint and investigative information.

1035.5(1) *General provisions.* All complaint and investigative information received or created by the board is privileged and confidential pursuant to Iowa Code section 272C.6(4). Such information will not be released to any person except as provided in that section and this rule.

1035.5(2) *Confidentiality of PCAOB information and records.*

a. The PCAOB was created by the Sarbanes-Oxley Act of 2002 (the Act) as a nonprofit corporation under the laws of the District of Columbia. The duties of the PCAOB include the registration of public accounting firms that prepare audit reports for public companies; the promulgation of rules (as approved by the SEC) for auditing, quality control, ethics, independence and other standards relating to the preparation of audit reports; the inspection of registered public accounting firms; the investigation of alleged standards violations; and the imposition of appropriate sanctions following disciplinary proceedings.

b. Pursuant to Section 105(b)(5)(A) of the Act and PCAOB rules, PCAOB investigatory information and records are confidential and privileged and are exempt from disclosure under the federal Freedom of Information Act. PCAOB, in its discretion, may share such information and records, along with the nonpublic sections of inspection reports, with state regulatory authorities as necessary to accomplish the purposes of the Act or to protect investors. As provided in Section 105(b)(5)(B) of the Act, state regulatory authorities also maintain such information and records as confidential and privileged, and the board will maintain that information as confidential.

1035.5(3) *Disclosure to the subject of the investigation.*

a. Legal authority. Pursuant to Iowa Code section 10A.506, the board may supply to a licensee who is the subject of a disciplinary complaint or investigation, prior to the initiation of a disciplinary proceeding, all or such parts of a disciplinary complaint, disciplinary or investigatory file, report, or other information as the board in its sole discretion believes would aid the investigation or resolution of the matter.

b. General rule. As a matter of general policy, the board will not disclose confidential complaint and investigative information to a licensee except as permitted by Iowa Code section 272C.6(4). Disclosure of a complainant's identity in advance of the filing of formal disciplinary charges, for instance, may adversely affect a complainant's willingness to file a complaint with the board.

c. Exceptions to general rule. The board may exercise its discretion to release information to a licensee that would otherwise be confidential under Iowa Code section 272C.6(4) under narrow circumstances, including but not limited to the following:

(1) Following a board determination that probable cause exists to file disciplinary charges against a licensee and prior to the issuance of the notice of hearing, the board may provide the licensee with a peer review or investigative report or expert opinions, as reasonably needed for the licensee to assess the merits of a settlement proposal.

(2) The board may release to a licensee who is the subject of a board-initiated investigation, including investigations initiated following the board's receipt of an anonymous complaint, such records or information as may aid the investigation or resolution of the matter.

(3) The board may release information from a peer review or consultant's report when the soliciting of the licensee's position will aid in making the probable cause determination and such disclosure can be made to the licensee without revealing identifying information regarding the complainant, peer reviewer or consultant.
[**ARC 7691C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1035.6(17A,272C,542) Subpoena authority. Pursuant to Iowa Code sections 17A.13(1), 272C.6(3) and 542.11(1), the board is authorized in connection with a disciplinary investigation to issue subpoenas to compel witnesses to testify or persons to produce books, papers, records and any other real evidence, whether or not privileged or confidential under law, which the board deems necessary as evidence in connection with a disciplinary proceeding or relevant to the decision of whether to initiate a disciplinary proceeding. Board procedures concerning investigative subpoenas are set forth in 7—Chapter 2504.
[**ARC 7691C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1035.7(17A,272C,542) Informal discussion. If the board considers it advisable, or if requested by the affected licensee, the board may grant the licensee an opportunity to appear for a voluntary informal discussion of the facts and circumstances of an alleged violation, subject to the provisions of this rule.

1035.7(1) An informal discussion is intended to provide a licensee an opportunity to share the licensee's side of a complaint in an informal setting before the board determines whether probable cause exists to initiate a disciplinary proceeding. A licensee may attend an informal discussion but is not compelled to do so. Because disciplinary investigations are confidential, a licensee is not permitted to bring persons other than legal counsel to an informal discussion. Where an allegation is made against a firm, the firm may be represented by a managing partner, member or other firm representative.

1035.7(2) Unless disqualification is waived by the licensee, board members or staff who personally investigate a disciplinary complaint are disqualified from making decisions or assisting the decision makers at a later formal hearing. Because board members generally rely upon investigators, peer review committees, or expert consultants to conduct investigations, the issue rarely arises. An informal discussion, however, is a form of investigation because it is conducted in a question and answer format. In order to preserve the ability of all board members to participate in board decision making and to receive the advice of staff, a licensee who desires to attend an informal discussion waives the right to seek disqualification of a board member or staff based solely on the board member's or staff's participation in an informal discussion. A licensee would not be waiving the right to seek disqualification on any other ground. By electing to attend an informal discussion, a licensee accordingly agrees that participating board members or staff are not disqualified from acting as a presiding officer in a later contested case proceeding or from advising the decision maker.

1035.7(3) Because an informal discussion constitutes a part of the board's investigation of a pending disciplinary case, the facts discussed at the informal discussion may be considered by the board in the event the matter proceeds to a contested case hearing and those facts are independently introduced into evidence.

1035.7(4) The board may propose a consent order at the time of the informal discussion. If the licensee agrees to a consent order, a statement of charges is filed simultaneously with the consent order as provided in rule 481—506.35(17A,272C).
[**ARC 7691C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1035.8(17A,272C,542) Closing complaint files.

1035.8(1) *Grounds for closing.* The board may close a complaint file, with or without prior investigation. Given the broad scope of matters about which members of the public may have complaints, it is not possible to catalog all possible reasons why the board may close a complaint file.

1035.8(2) *Closing orders.* The board's administrator may enter an order stating the basis for the board's decision to close a complaint file. If entered, the order will not contain the identity of the complainant or the respondent and will not disclose confidential complaint or investigative information.

If entered, a closing order will be indexed by case number and is a public record pursuant to Iowa Code section 17A.3(1)*"d."* A copy of the order may be mailed to the complainant, if any, and to the respondent. The board's decision whether or not to pursue an investigation, to institute disciplinary proceedings, or to close a file is not subject to judicial review.

1035.8(3) *Cautionary letters.* The board may issue a confidential letter of caution to a licensee when a complaint file is closed that informally cautions or educates the licensee about matters that could form the basis for disciplinary action in the future if corrective action is not taken by the licensee. Informal cautionary letters do not constitute disciplinary action, but the board may take such letters into consideration in the future if a licensee continues a practice about which the licensee has been cautioned.

1035.8(4) *Reopening closed complaint files.* The board may reopen a closed complaint file if additional information arises after closure that provides a basis to reassess the merits of the initial complaint.

[**ARC 7691C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

These rules are intended to implement Iowa Code chapters 17A, 272C and 542.

[Filed 4/12/02, Notice 3/6/02—published 5/1/02, effective 7/1/02]
[Filed 9/13/02, Notice 8/7/02—published 10/2/02, effective 11/6/02]

CHAPTER 1036
DISCIPLINARY PROCEEDINGS
[Prior to 6/10/26, see Accountancy Examining Board[193A] Ch 16]

Chapter rescission date pursuant to Iowa Code section 17A.7: 4/10/29

481—1036.1(17A,272C,542) Initiation of disciplinary proceedings. Disciplinary proceedings may be initiated only by the affirmative vote of a majority of a quorum of the board at a public meeting. Board members who are disqualified will be excluded in determining whether a quorum exists. If, for example, two members of the board are disqualified, four members of the board constitutes a quorum of the remaining six board members for purposes of voting on the case in which the two members are disqualified. When three or more members of the board are disqualified or otherwise unavailable for any reason, the administrator may request the special appointment of one or more substitute board members pursuant to Iowa Code section 17A.11(5).

[**ARC 7692C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1036.2(17A,272C,542) Disciplinary contested case procedures. Unless in conflict with a provision of Iowa Code chapter 542 or board rules in this chapter, all of the procedures set forth in 481—Chapter 506 apply to disciplinary contested cases initiated by the board.

[**ARC 7692C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1036.3(272C,542) Disciplinary sanctions.

1036.3(1) *Type of sanctions.* The board has the authority to impose the following disciplinary sanctions:

a. Revoke a license issued by the board. In the event of a revocation, the licensee is not allowed to remain a member, partner or shareholder of a business entity if the law dictates that all members, partners or shareholders of such an entity be actively involved.

b. Suspend a license issued by the board. A CPA or LPA who is under suspension will refrain, during the period of the suspension, from all facets of the ordinary practice of public accounting.

c. Revoke or suspend the privilege to engage in one or more areas of the practice of public accounting.

d. Impose a period of probation. As a condition to a period of probation, the board may impose terms and conditions deemed appropriate by the board, which may include, but are not limited to, the following:

(1) The board may order the licensee to undergo a quality review or desk review under the board's supervision. The licensee will select, subject to approval by the board, a CPA, an LPA, or a firm of CPAs or LPAs. The review cost will be paid by the licensee. The board will be furnished a copy of the report issued by the reviewing party and may order remedial actions or education as a result of the report findings.

(2) The board may order the licensee to enter into an agreement with a CPA, an LPA, or a firm of CPAs or LPAs to obtain a preissuance review of any audits, compilations, or reviews issued by the licensee or other public accounting services performed during the probationary period. The agreement will be preapproved by the board. The board may order the licensee to report regularly concerning the preissuance reviews conducted pursuant to the agreement. Any cost incurred in obtaining preissuance review will be paid by the licensee.

(3) The board may order the licensee to undergo a substance abuse evaluation and such care and treatment appropriate under the circumstances.

e. Specify that a designated amount of continuing education be taken in specific subjects and may specify the time period for completing these courses. The board may also specify whether that continuing education be in addition to the continuing education routinely necessary for license renewal. The board may also specify that additional continuing education be a condition for the termination of any suspension or reinstatement of a certificate, permit, license, or registration. The board may also specify that current reference materials be obtained and maintained.

f. Obligate the licensee to undergo reexamination, using one or more parts of the CPA or LPA examination given to candidates for the CPA certificate or the LPA license.

g. Impose civil penalties pursuant to Iowa Code section 542.14(2).

h. Issue a reprimand.

i. Order the licensee to alter a professional practice or refrain from engaging in a particular act or practice in the future, notify clients of unlicensed or unprofessional conduct, or take such other remedial measures that are appropriate under the public interest and circumstances of the infraction.

j. Order such alternative discipline as is allowed by law.

1036.3(2) *Imposing discipline.* Discipline may be imposed against a licensee only by the affirmative vote of a majority of the members of the board who are not disqualified.

1036.3(3) *Voluntary surrender.* The board may accept the voluntary surrender of a license to resolve a pending disciplinary contested case or pending disciplinary investigation. The board will not accept a voluntary surrender of a license to resolve a pending disciplinary investigation unless a statement of charges is filed along with the order accepting the voluntary surrender. Such a voluntary surrender is considered disciplinary action and will be published in the same manner as is applicable to any other form of disciplinary order.

1036.3(4) *Client notification.* Whenever a license is revoked, suspended, under probation, or voluntarily surrendered under this chapter, the licensee will:

a. Within 30 days of receipt of the board's final order, notify in writing all clients of the fact that the license has been revoked, suspended or voluntarily surrendered or that the licensee is under probation and the subject of compliance terms imposed by the board; for example, the licensee may agree to discontinue governmental audits while the licensee's license is under probation. Such notice will advise the client to obtain alternative professional services, unless probationary compliance terms at issue would not impact the public accounting services provided for that client;

b. Within 30 days of receipt of the board's final order, file with the board copies of the notices sent pursuant to paragraph 1036.3(4)*"a."* Compliance with this paragraph is a condition precedent for an application for reinstatement.

[**ARC 7692C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1036.4(272C,542) Notification of decisions. The board will notify NASBA of disciplinary action taken against an Iowa licensee.

[**ARC 7692C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1036.5(272C,542) Reinstatement.

1036.5(1) The term "reinstatement" as used in this rule and in rule 481—506.32(17A,272C) includes the reinstatement of a suspended license, the modification or removal of a probationary limitation on a licensee's practice, the issuance of a license following the denial of an application to renew a license, and the issuance of a new license following the revocation or voluntary surrender of a license.

1036.5(2) Any person whose license has been revoked, suspended or placed under probation by the board, or who has voluntarily surrendered a license to conclude a disciplinary investigation or proceeding, or whose application to renew a license has been denied may apply to the board to modify or terminate the suspension, issue or reissue the license, or modify or remove the probationary limitations of practice in accordance with Iowa Code section 542.12, rule 481—506.32(17A,272C), the provisions of this rule, and the terms of the order of revocation, suspension or probation, denial of license renewal, or acceptance of voluntary license surrender.

1036.5(3) If the applicable order did not establish terms upon which the licensee may apply for reinstatement, an initial application for reinstatement may be made after at least one year has elapsed from the date of the order that revoked, suspended or placed under probation the license, denied license renewal, or accepted a voluntary surrender.

1036.5(4) All proceedings for reinstatement are initiated by the respondent and subject to the procedures set forth in rule 481—506.32(17A,272C). In addition, the board may grant an applicant's request to appear informally before the board prior to the issuance of a notice of hearing on the application if the applicant requests an informal appearance in the application and agrees not to seek to disqualify on the ground of personal investigation the board members or staff before whom the applicant appears.

1036.5(5) An order granting an application for reinstatement may impose such terms and conditions as the board deems desirable, which may include one or more of the types of disciplinary sanctions described in rule 481—1036.3(272C,542).

1036.5(6) The board will not grant an application for reinstatement when the initial order that revoked, suspended or placed under probation the license; denied license renewal; or accepted a voluntary surrender was based on a criminal conviction and the applicant cannot demonstrate to the board's satisfaction that:

a. All the terms of the sentencing or other criminal order have been fully satisfied;

b. The applicant has been released from confinement and any applicable probation or parole; and

c. Restitution has been made or is reasonably in the process of being made to any victims of the crime.

[**ARC 7692C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

These rules are intended to implement Iowa Code chapters 17A, 272C, and 542.

[Filed 4/12/02, Notice 3/6/02—published 5/1/02, effective 7/1/02]

[Filed ARC 7715B (Notice ARC 7484B, IAB 1/14/09), IAB 4/22/09, effective 7/1/09]

[Filed ARC 7692C (Notice ARC 7399C, IAB 1/10/24), IAB 3/6/24, effective 4/10/24]

[Editorial change: IAC Supplement 6/10/26]

CHAPTER 1037
ENFORCEMENT PROCEEDINGS AGAINST NONLICENSEES
[Prior to 6/10/26, see Accountancy Examining Board[193A] Ch 17]

Chapter rescission date pursuant to Iowa Code section 17A.7: 4/10/29

481—1037.1(542) Civil penalties against nonlicensees. The board may order compliance with Iowa Code chapter 542 and board rules, revoke a practice privilege, and impose civil penalties by order against a firm, other entity, or individual that is not licensed by the board pursuant to Iowa Code chapter 542 based on the unlawful practices specified in Iowa Code sections 542.13 and 542.20. In addition to the procedures set forth in Iowa Code section 542.14, this chapter applies.
[**ARC 7693C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1037.2(17A,542) Investigations. The board is authorized by Iowa Code section 17A.13(1) and Iowa Code section 542.11 to conduct such investigations as are needed to determine whether grounds exist to impose civil penalties against a nonlicensee. Such investigations will conform to the procedures outlined in 481—Chapter 1035. Complaint and investigatory files concerning nonlicensees are not confidential except as may be provided in Iowa Code chapter 22.
[**ARC 7693C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1037.3(17A,542) Notice of intent to impose civil penalties. The notice of the board's intent to issue an order to enforce compliance with Iowa Code chapter 542 and board rules and to impose a civil penalty will be served upon the nonlicensee by certified mail, return receipt requested, or personal service in accordance with Iowa Rule of Civil Procedure 1.305. Alternatively, the nonlicensee may accept service personally or through authorized counsel. The notice will include the following:

1. A statement of the legal authority and jurisdiction under which the proposed civil penalty would be imposed.
2. Reference to the particular sections of the statutes and rules involved.
3. A short, plain statement of the alleged unlawful practices.
4. The dollar amount of the proposed civil penalty, the nature of the intended order to enforce compliance with Iowa Code chapter 542 and board rules, and whether a practice privilege will be revoked.
5. Notice of the nonlicensee's right to a hearing and the time frame in which hearing can be requested.
6. The address to send a written request for hearing.

[**ARC 7693C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1037.4(17A,542) Request for hearing.

1037.4(1) Nonlicensees have 30 days to request a hearing. The 30-day time frame begins on the date the notice is mailed if served through certified mail to the last-known address, or 30 days from the date of service if service is accepted or made in accordance with Iowa Rule of Civil Procedure 1.305. A request for hearing has to be in writing and is deemed made on the date of the nonmetered United States Postal Service postmark or the date of personal service.

1037.4(2) If a request for hearing is not timely made, the board chairperson or the chairperson's designee may issue an order imposing the civil penalty, revoking the practice privilege, and requiring compliance with Iowa Code chapter 542 and board rules, as described in the notice. The order may be mailed by regular first-class mail or served in the same manner as the notice of intent to impose civil penalty.

1037.4(3) If a request for hearing is timely made, the board will issue a notice of hearing and conduct a hearing in the same manner as applicable to disciplinary cases against licensees.

1037.4(4) A nonlicensee may waive the right to hearing and all attendant rights and enter into a consent order imposing a civil penalty, revoking the practice privilege, and requiring compliance with Iowa Code chapter 542 and board rules at any stage of the proceeding upon mutual consent of the board.

1037.4(5) The notice of intent to issue an order and the order are public records available for inspection and copying in accordance with Iowa Code chapter 22. Hearings are open to the public.

[**ARC 7693C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1037.5(542) "Safe harbor" language. Persons who do not hold a CPA certificate or LPA license, firms that do not hold a CPA or LPA firm permit to practice, or individuals or firms that are ineligible to exercise a practice privilege cannot use in any statement relating to the financial affairs of a person or entity language that is conventionally used by CPAs or LPAs in reports on financial statements. Pursuant to Iowa Code section 542.13(8), such persons or firms may use the following "safe harbor" language:

"I (we) have prepared the accompanying (financial statements) of (name of entity) as of (time period) for the (period) then ended. This presentation is limited to preparing in the form of financial statements information that is the representation of management (owners). I (we) have not audited, reviewed or compiled the accompanying financial statements and accordingly do not express an opinion or any other form of assurance on them."

[**ARC 7693C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1037.6(542) Enforcement options. The board may also pursue other enforcement as provided in Iowa Code sections 542.14(8), 542.14(9) and 542.15.

[**ARC 7693C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

These rules are intended to implement Iowa Code chapters 17A and 542.

[Filed 4/12/02, Notice 3/6/02—published 5/1/02, effective 7/1/02]
[Filed ARC 7715B (Notice ARC 7484B, IAB 1/14/09), IAB 4/22/09, effective 7/1/09]
[Filed ARC 7693C (Notice ARC 7400C, IAB 1/10/24), IAB 3/6/24, effective 4/10/24]
[Editorial change: IAC Supplement 6/10/26]

CHAPTER 1038
LICENSEES' DUTY TO REPORT

[Prior to 5/1/02, see 193A—Chapter 15]
[Prior to 6/10/26, see Accountancy Examining Board[193A] Ch 18]

Chapter rescission date pursuant to Iowa Code section 17A.7: 4/10/29

481—1038.1(272C,542) Reporting acts or omissions committed by licensees.

1038.1(1) An individual or firm licensed by the board has a duty to report under Iowa Code section 272C.9(2). The failure to perform an engagement for a client in accordance with professional standards may demonstrate a lack of qualifications by a licensee or firm. These professional standards are set forth in 481—Chapter 1033.

1038.1(2) When a licensee observes an act or omission referenced in subrule 1038.1(1), the licensee is obligated to report the violation in writing to the board office, setting forth the name of the licensee alleged to have committed the violation and the rule(s) violated, together with a copy of all material that evidences the violation.

[**ARC 7694C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1038.2(272C,542) Reporting judgments and settlements alleging malpractice.

1038.2(1) Licensees have a duty to report under Iowa Code section 272C.9(3). For the purposes of this rule, malpractice actions brought against a firm licensed by the board will be deemed to have been brought against both the firm and the firm's owners (e.g., partners, shareholders, or members) who performed the services that led to the malpractice action.

1038.2(2) When a licensee is a party to an adverse judgment resulting from a professional malpractice action or is a party to a settlement of a claim resulting from an allegation of malpractice, the licensee has an obligation to file a report in writing forwarded to the board office, setting forth the name and address of the client, the date the claim was originally made, a brief description of the circumstances precipitating the claim and a copy of the judgment or settlement agreement resulting from the claim.

[**ARC 7694C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1038.3(272C,542) Timely reporting. The reports under this chapter are to be forwarded to the board within 30 days from the initial receipt of the information giving rise to the reporting obligation.

[**ARC 7694C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1038.4(272C,542) Failure to make reports. The board may initiate a disciplinary proceeding against any licensee who fails to make a timely report under this chapter.

[**ARC 7694C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

These rules are intended to implement Iowa Code chapters 272C and 542.

CHAPTER 1039
PRACTICE PRIVILEGE FOR OUT-OF-STATE CERTIFIED PUBLIC ACCOUNTANTS
[Prior to 6/10/26, see Accountancy Examining Board[193A] Ch 20]

Chapter rescission date pursuant to Iowa Code section 17A.7: 4/10/29

481—1039.1(542) Overview and timing. Out-of-state certified public accountants who maintain their principal place of business in a jurisdiction other than Iowa may practice public accounting in Iowa or for clients with a home office in Iowa without Iowa licensure if all of the conditions of Iowa Code section 542.20 and this chapter are satisfied.
[**ARC 7695C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1039.2(542) Out-of-state licensure status. The practice privilege described in Iowa Code section 542.20 applies to individuals who are licensed to practice as certified public accountants in the jurisdiction in which their principal place of business is located for those periods of time in which all of the following conditions are satisfied:

1039.2(1) The out-of-state license is valid, in good standing, and active. The practice privilege ceases if the out-of-state license expires in the jurisdiction of the individual's principal place of business.

1039.2(2) The individual meets the criteria for substantial equivalency reciprocity, as provided in Iowa Code section 542.19(1)*"a," "b,"* or *"c"* and rule 481—1029.5(542).

1039.2(3) The license authorizes in the individual's principal place of business all of the public accounting services the individual performs or offers to perform in Iowa or for clients with a home office in Iowa.
[**ARC 7695C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1039.3(542) When Iowa licensure may be necessary.

1039.3(1) The auditor of state, the department of agriculture and land stewardship, another governmental official or body, or a client may mandate that an individual be licensed in Iowa as a condition of performing public accounting services in Iowa or for a client with a home office in Iowa, whether or not the individual may otherwise satisfy the conditions for a practice privilege. Iowa licensure as a certified public accountant is necessary, for example, to perform certain audit services described in Iowa Code chapter 11.

1039.3(2) Iowa licensure is necessary if an individual has an office in Iowa at which the individual uses the title "CPA," unless the individual satisfies the conditions for a practice privilege and one of the following is true:

a. The Iowa office is the office of an Iowa CPA or LPA firm that holds a permit to practice under Iowa Code section 542.7 or 542.8, and the individual provides public accounting services through that firm.

b. The Iowa office is the office of a business entity that is not obligated to hold a firm permit to practice under Iowa Code section 542.7 or 542.8, and the individual provides public accounting services through that business entity.

1039.3(3) Iowa licensure is necessary if an individual moves the individual's principal place of business to Iowa and is otherwise obligated to be licensed under Iowa Code chapter 542. The board's streamlined application process for reciprocal licensure is described in Iowa Code section 542.19 and 481—Chapter 1029.
[**ARC 7695C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1039.4(542) Individuals ineligible for a practice privilege.

1039.4(1) The practice privilege described in Iowa Code section 542.20 is not applicable if:

a. The individual has been convicted of a felony under the laws of any jurisdiction.

b. The individual has been convicted of any crime under the laws of any jurisdiction if an element of the crime involves dishonesty or fraud, such as forgery, embezzlement, obtaining money under false pretenses, theft, extortion, conspiracy to defraud, or similar offense, as more fully described in Iowa Code section 542.5(2).

c. The individual's license to practice public accounting has been suspended, revoked, or otherwise disciplined by a licensing authority in this or another state, territory, or country, for any cause other than failure to pay appropriate fees. "Disciplined" includes the voluntary surrender of a license to resolve a pending disciplinary investigation or proceeding in Iowa or another jurisdiction.

d. The individual's right to practice public accounting before any state or federal agency, or the PCAOB, has been suspended or revoked.

e. The individual has applied for licensure as a certified public accountant in Iowa or another jurisdiction and the application has been denied.

f. Civil penalties have been imposed against the individual pursuant to Iowa Code section 542.14.

g. The individual's authority to exercise a practice privilege has been revoked in Iowa or another jurisdiction.

1039.4(2) Individuals precluded from exercising a practice privilege under this rule may apply for licensure in Iowa if otherwise qualified. The board will determine when an application is submitted whether the criminal or disciplinary history or other regulatory action provides a ground to deny licensure.

[**ARC 7695C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1039.5(542) Attest and compilation services. Individuals providing compilation services in Iowa or for a client with a home office in Iowa need to comply with the peer review provisions of Iowa Code section 542.6(6) or provide such services through a CPA or LPA firm, or a substantially equivalent firm that holds a valid license in the firm's principal place of business and that complies with the peer review and ownership provisions of Iowa Code section 542.7 or 542.8.

[**ARC 7695C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1039.6(542) Rights and duties.

1039.6(1) Individuals who satisfy the conditions for a practice privilege may practice public accounting in Iowa or for a client with a home office in Iowa in person or by telephone, mail, or electronic means without licensure under Iowa Code chapter 542 or notice to the board.

1039.6(2) Individuals lawfully practicing public accounting under a practice privilege may use the title "CPA" as long as they do not have an office in Iowa, except as provided in subrule 1039.3(2).

1039.6(3) Individuals practicing public accounting in Iowa or for a client with a home office in Iowa while exercising a practice privilege are subject to all of the following provisions:

a. Practice privilege practitioners are not allowed to make any representation tending to falsely indicate that the individuals are licensed under Iowa Code chapter 542. Such individuals may truthfully identify themselves as licensed in any jurisdiction in which they hold a valid, active, unexpired license to practice as a certified public accountant. For example, a practice privilege practitioner could not use the title "Iowa CPA" or otherwise state or imply licensure in Iowa, but, if true, the individual could use a title such as "CPA, licensed in Texas" or "Florida CPA." Such individuals could also truthfully state that they are CPAs practicing under a practice privilege.

b. Practice privilege practitioners will provide, upon a client's or prospective client's request, accurate information on the state or states of licensure, principal place of business, contact information, and manner in which licensure status can be verified.

c. Practice privilege practitioners will comply with all professional standards, laws, and rules that apply to licensees performing the same professional services.

1039.6(4) As a condition of exercising the practice privilege provided in Iowa Code section 542.20, the individual:

a. Consents to the personal and subject matter jurisdiction and regulatory authority of the board including, but not limited to, the board's jurisdiction to revoke the practice privilege or otherwise take action under Iowa Code section 542.14 for any violation of Iowa Code chapter 542 or board rules;

b. Appoints the regulatory body of the state that issued the license in the individual's principal place of business as the agent upon whom process may be served in any action or proceeding by the board against the individual;

c. Agrees to supply the board, upon the board's request and without subpoena, such information or records licensees are similarly obligated to provide the board under Iowa Code chapter 542, including but not limited to the information described in Iowa Code section 542.20(7)*"c"*; and

d. Agrees to promptly cease offering or providing public accounting services in Iowa or for a client with a home office in Iowa if the license in the individual's principal place of business expires or is otherwise no longer in good standing, or if any of the conditions for exercising the practice privilege are no longer satisfied, or if the board revokes the practice privilege.

[**ARC 7695C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1039.7(542) Penalties.

1039.7(1) Individuals purporting to practice public accounting under a practice privilege who are ineligible to exercise a practice privilege or who fail to satisfy the conditions for exercising a practice privilege are subject to all of the penalties that apply to unlicensed persons, including the criminal, administrative, and civil penalties described in Iowa Code sections 542.14 and 542.15.

1039.7(2) If an individual acting or purporting to act under a practice privilege engages in any act or practice that does or may in the future violate Iowa Code chapter 542 or board rules, the board may take any or all of the following actions, as applicable:

a. Apply to the district court for an injunction, restraining order, or other order, pursuant to Iowa Code section 542.14(1);

b. Issue an order to require compliance with Iowa Code chapter 542 or board rules and impose a civil penalty pursuant to Iowa Code section 542.14;

c. Deny the subsequent license application of the violator or the violator's firm, pursuant to Iowa Code section 542.20(4)*"a"* and *"b"*;

d. Refer the complaint or other relevant information to the jurisdiction that issued a license to the alleged violator; and

e. Take disciplinary action against the individual pursuant to Iowa Code section 542.10 if the individual holds an inactive or lapsed Iowa license.

1039.7(3) Complaints filed with the board alleging violations by individuals who are not licensed by the board, including those acting or purporting to act under a practice privilege, are not confidential under Iowa Code section 272C.6(4) and will not be treated as confidential unless otherwise provided in Iowa Code chapter 22 or other applicable law.

1039.7(4) Persons filing complaints with the board against individuals acting or purporting to act under a practice privilege should provide as much information as possible to assist the board in locating the individual and in determining whether the individual is licensed in any jurisdiction.

[**ARC 7695C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1039.8(542) Relationship between Iowa licensure and the exercise of a practice privilege.

1039.8(1) *Active Iowa licensees.* An Iowa licensee holding an active CPA certificate is treated for all purposes as an Iowa licensee and is not subject to the provisions of Iowa Code section 542.20.

1039.8(2) *Inactive Iowa licensees.* An Iowa licensee holding an inactive CPA certificate is precluded by Iowa Code section 542.6(3) and rule 481—1025.9(272C,542) from performing attest or compilation services or using the title "CPA" while performing public accounting services in Iowa or for a client with a home office in Iowa. The practice of an inactive CPA is restricted because the continuing education necessary to renew in active status does not apply to those renewing in inactive status. Some individuals holding an inactive Iowa CPA certificate may, however, hold an active CPA certificate in another jurisdiction in which they maintain their principal place of business and satisfy continuing education obligations. Such individuals may have maintained an inactive Iowa CPA certificate solely to facilitate reinstatement to active status when active Iowa licensure is necessary in their practice. The following provisions apply to inactive Iowa licensees who may wish to exercise a practice privilege:

a. In a disciplinary investigation or proceeding in which an inactive Iowa licensee is alleged to have improperly used the title "CPA" or otherwise practiced public accounting on an inactive license, the board will consider whether the inactive licensee, at the time of the events at issue, satisfied the conditions for a

practice privilege under Iowa Code section 542.20 and complied with all rules applicable to the exercise of a practice privilege.

b. The individual will take care to avoid public confusion about licensure status as provided in 481—subrule 1025.1(6).

c. Violations of Iowa laws or rules by an individual holding an inactive Iowa CPA certificate will be prosecuted as disciplinary proceedings against a licensee under Iowa Code section 542.10 and, when appropriate under the factual circumstances, may also or alternatively be enforced under the provisions of Iowa Code sections 542.14 and 542.15.

1039.8(3) *Lapsed Iowa licensees.* An Iowa licensee holding a lapsed Iowa CPA certificate is not authorized to perform attest or compilation services or to otherwise practice public accounting using the title "CPA" in Iowa or for a client with a home office in Iowa. A lapsed licensee is subject to discipline for practicing on a lapsed license or representing oneself as a "CPA" in any context unless the licensee truthfully discloses that the certificate has lapsed. Some individuals holding lapsed Iowa CPA certificates may, however, hold active CPA certificates in another jurisdiction in which the individuals maintain their principal place of business. Such individuals may have intentionally allowed their Iowa CPA certificates to lapse because the individuals no longer need an active Iowa license in their practice. The following provisions apply to lapsed Iowa licensees who may wish to exercise a practice privilege:

a. In a disciplinary investigation or proceeding in which a lapsed Iowa licensee is alleged to have improperly used the title "CPA" or otherwise practiced public accounting on a lapsed license, the board will consider whether the lapsed licensee, at the time of the events at issue, satisfied the conditions for a practice privilege under Iowa Code section 542.20 and complied with all rules applicable to the exercise of a practice privilege.

b. The individual will take care to avoid public confusion about licensure status as provided in 481—subrule 1025.1(6).

c. Violations of Iowa laws or rules by an individual holding a lapsed Iowa CPA certificate will be prosecuted as disciplinary proceedings against a licensee under Iowa Code section 542.10 and, when appropriate under the factual circumstances, may also or alternatively be prosecuted under the provisions of Iowa Code sections 542.14 and 542.15.

1039.8(4) *Former Iowa licensees.* An individual who held an Iowa CPA certificate at one time whose Iowa CPA certificate has been revoked or surrendered in connection with a disciplinary investigation or proceeding is barred from performing attest or compilation services or using the title "CPA" whether or not such individual may otherwise qualify for a practice privilege.

a. The former Iowa licensees described in this subrule are ineligible to exercise the practice privilege described in Iowa Code section 542.20.

b. Violations of Iowa Code chapter 542 or board rules by former Iowa licensees are subject to the criminal, civil and administrative remedies described in Iowa Code sections 542.14 and 542.15, and may also be prosecuted as disciplinary proceedings under Iowa Code section 542.10 if the license remains subject to reinstatement under Iowa Code section 542.12.

[**ARC 7695C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

These rules are intended to implement Iowa Code section 542.20.

[Filed ARC 7715B (Notice ARC 7484B, IAB 1/14/09), IAB 4/22/09, effective 7/1/09]

CHAPTER 1040
PRACTICE PRIVILEGE FOR OUT-OF-STATE CERTIFIED PUBLIC ACCOUNTING FIRMS
[Prior to 6/10/26, see Accountancy Examining Board[193A] Ch 21]

Chapter rescission date pursuant to Iowa Code section 17A.7: 4/10/29

481—1040.1(542) Overview and timing. Out-of-state certified public accounting firms that maintain their principal place of business in a jurisdiction other than Iowa may practice public accounting in Iowa or for clients with a home office in Iowa without Iowa licensure if all of the conditions of Iowa Code section 542.20 and this chapter are satisfied.
[**ARC 7696C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1040.2(542) Out-of-state licensure status. The practice privilege described in Iowa Code section 542.20 applies to certified public accounting firms that are licensed to practice as certified public accounting firms in the jurisdiction in which their principal place of business is located for those periods of time in which all of the following conditions are satisfied:

1040.2(1) The out-of-state license is valid, in good standing, and active. The practice privilege ceases if the out-of-state license expires in the jurisdiction of the firm's principal place of business.

1040.2(2) The out-of-state license is substantially equivalent to a permit to practice issued under Iowa Code section 542.7.

1040.2(3) The license authorizes in the firm's principal place of business all of the public accounting services the firm performs or offers to perform in Iowa or for clients with a home office in Iowa.

1040.2(4) The public accounting services offered in Iowa or for clients with a home office in Iowa that are obligated under Iowa law to be performed by a CPA are performed by a person holding a certificate issued under Iowa Code section 542.6 or 542.19, or by a person exercising a practice privilege pursuant to Iowa Code section 542.20 and 481—Chapter 1039.
[**ARC 7696C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1040.3(542) When Iowa licensure may be necessary.

1040.3(1) The auditor of state, the department of agriculture and land stewardship, another governmental official or body, or a client may mandate that a firm be licensed in Iowa as a condition of performing public accounting services in Iowa or for a client with a home office in Iowa, whether or not the firm may otherwise satisfy the conditions for a practice privilege. Iowa licensure as a certified public accounting firm is necessary, for example, to perform certain audit services described in Iowa Code chapter 11.

1040.3(2) Iowa licensure is necessary if the firm has one or more offices in Iowa at which the firm uses the title "CPAs," "CPA firm," "certified public accountants," or "certified public accounting firm."
[**ARC 7696C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1040.4(542) CPA firms, revocation of practice privilege.

1040.4(1) The board may revoke the practice privilege in accordance with Iowa Code section 542.20.

1040.4(2) Firms precluded from exercising a practice privilege under this rule may apply for licensure in Iowa if otherwise qualified. The board will determine when an application is submitted whether the criminal or disciplinary history or other regulatory action against the firm or against any of the firm's owners (e.g., partners, shareholders, or members) provides a ground to deny licensure.
[**ARC 7696C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1040.5(542) Attest and compilation services. Unless otherwise obligated by rule 481—1040.3(542), attest and compilation services may be performed by an out-of-state CPA firm exercising a practice privilege as long as the out-of-state firm is validly licensed in the state of its principal place of business, complies with Iowa Code section 542.20(5) and 542.20(6) and associated rules, and complies with the peer review and ownership provisions of Iowa Code section 542.7.
[**ARC 7696C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1040.6(542) Rights and duties.

1040.6(1) CPA firms that satisfy the conditions for a practice privilege may practice public accounting in Iowa or for a client with a home office in Iowa in person, or by telephone, mail, or electronic means without licensure under Iowa Code chapter 542 or notice to the board.

1040.6(2) CPA firms lawfully practicing public accounting under a practice privilege may use the title "CPAs," "CPA firm," "certified public accountants," or "certified public accounting firm."

1040.6(3) CPA firms practicing public accounting in Iowa or for a client with a home office in Iowa while exercising a practice privilege are subject to all of the following provisions:

a. Practice privilege firms are not allowed to make any representation tending to falsely indicate that the firm is licensed under Iowa Code chapter 542. Such firms may truthfully identify themselves as licensed in any jurisdiction in which the firm holds a valid, active, unexpired license to practice as a certified public accounting firm. For example, a practice privilege firm could not use the title "Iowa CPAs" or "Iowa CPA firm" or otherwise state or imply licensure in Iowa, but, if true, the firm could use a title such as "CPA firm, licensed in Texas" or "Florida CPAs." Such firm could also truthfully state that the firm is practicing in Iowa under a practice privilege.

b. Practice privilege firms will provide, upon a client's or prospective client's request, accurate information on the state or states of licensure, principal place of business, contact information, and manner in which licensure status can be verified.

c. Practice privilege firms will comply with all professional standards, laws, and rules that apply to licensed firms performing the same professional services.

1040.6(4) As a condition of exercising the practice privilege provided in Iowa Code section 542.20, the firm:

a. Consents to the personal and subject matter jurisdiction and regulatory authority of the board including, but not limited to, the board's jurisdiction to revoke the practice privilege or otherwise take action under Iowa Code section 542.14 for any violation of Iowa Code chapter 542 or board rules;

b. Appoints the regulatory body of the state that issued the license in the firm's principal place of business as the agent upon whom process may be served in any action or proceeding by the board against the firm;

c. Agrees to supply the board, upon the board's request and without subpoena, such information or records that licensed firms are similarly obligated to provide the board under Iowa Code chapter 542, including but not limited to the information described in Iowa Code section 542.20(7)*"c,"* and rule 481—1027.3(542); and

d. Agrees to promptly cease offering or providing public accounting services in Iowa or for a client with a home office in Iowa if the license in the firm's principal place of business expires or is otherwise no longer in good standing, or if any of the conditions for exercising the practice privilege are no longer satisfied, or if the board revokes the practice privilege.

[**ARC 7696C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1040.7(542) Penalties.

1040.7(1) Firms purporting to practice public accounting under a practice privilege that are ineligible to exercise a practice privilege or that fail to satisfy the conditions for exercising a practice privilege are subject to all of the penalties that apply to unlicensed firms, including the criminal, administrative, and civil penalties described in Iowa Code sections 542.14 and 542.15.

1040.7(2) If a firm acting or purporting to act under a practice privilege engages in any act or practice that does or may in the future violate Iowa Code chapter 542 or board rules, the board may take any or all of the following actions, as applicable:

a. Apply to the district court for an injunction, restraining order, or other order, pursuant to Iowa Code section 542.14(1);

b. Issue an order mandating compliance with Iowa Code chapter 542 or board rules and impose a civil penalty pursuant to Iowa Code section 542.14;

c. Deny the subsequent license application of the violator or, to the extent responsible for the violation, any of the firm's owners (e.g., partners, shareholders, or members), pursuant to Iowa Code section 542.20(4)*"a"* and *"b"*;

d. Refer the complaint or other relevant information to a jurisdiction that issued a license to the alleged violator; and

e. Take disciplinary action against the firm or, to the extent responsible for the violation, any of the firm's owners (e.g., partners, shareholders, or members), pursuant to Iowa Code section 542.10, if the firm or individual holds an inactive or lapsed Iowa license.

1040.7(3) Complaints filed with the board alleging violations by firms that are not licensed by the board, including those acting or purporting to act under a practice privilege, are not confidential under Iowa Code section 272C.6(4) and will not be treated as confidential unless otherwise provided in Iowa Code chapter 22 or other applicable law.

1040.7(4) Persons filing complaints with the board against firms acting or purporting to act under a practice privilege should provide as much information as possible to assist the board in locating the firm and the individuals allegedly responsible for the acts or omissions causing the complaint, and in determining whether the firm or any responsible individual is licensed in any jurisdiction.

[**ARC 7696C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

481—1040.8(542) Relationship between Iowa licensure and the exercise of a practice privilege.

1040.8(1) *Active Iowa licensees.* An Iowa CPA firm holding an active permit to practice under Iowa Code section 542.7 will be treated for all purposes as an Iowa licensee and is not subject to the provisions of Iowa Code section 542.20.

1040.8(2) *Lapsed Iowa licensees.* An Iowa CPA firm holding a lapsed permit to practice under Iowa Code section 542.7 is not authorized to perform attest or compilation services or to otherwise practice public accounting using the title "CPAs," "CPA firm," "certified public accountants," or "certified public accounting firm" unless the firm is eligible to exercise a practice privilege under Iowa Code section 542.20. The following provisions apply to firms holding a lapsed Iowa permit to practice when exercising a practice privilege:

a. In a disciplinary investigation or proceeding alleging unlicensed practice or improper use of title, the board will consider whether the lapsed licensee, at the time of the events at issue, satisfied the conditions for a practice privilege under Iowa Code section 542.20 and complied with all rules applicable to the exercise of a practice privilege.

b. The firm will take reasonable steps to avoid public confusion over licensure status.

c. Violations of Iowa laws or rules by a firm holding a lapsed permit to practice will be prosecuted as disciplinary proceedings against a licensee under Iowa Code section 542.10 and, when appropriate under the factual circumstances, may also or alternatively be prosecuted under the provisions of Iowa Code sections 542.14 and 542.15.

1040.8(3) *Former Iowa licensees.* A CPA firm that held an Iowa permit to practice at one time that has been revoked or surrendered in connection with a disciplinary investigation or proceeding is barred from performing any act or practice for which Iowa firm licensure is necessary and is further ineligible to exercise the practice privilege described in Iowa Code section 542.20. Violations of Iowa Code chapter 542 or board rules by such a firm are subject to the criminal, civil and administrative remedies described in Iowa Code sections 542.14 and 542.15, and may also be prosecuted as disciplinary proceedings under Iowa Code section 542.10 if the license remains subject to reinstatement under 481—subrule 1027.6(3).

[**ARC 7696C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/10/26]

These rules are intended to implement Iowa Code section 542.20.

ENGINEERING AND LAND SURVEYING EXAMINING BOARD

CHAPTER 1045
ADMINISTRATION

IAC Supp. 8/14/85

[Rules 1.5 to 1.13 were either rescinded or renumbered and new rules added, see IAB 8/14/85]
[Prior to 6/1/88, see Engineering and Land Surveying Examiners, Board of [390] Ch 1]
[Rules 1.10 to 1.29 were amended and transferred to 193C—Chapter 4, IAC Supplement 11/27/91]
[Prior to 6/24/26, see Engineering and Land Surveying Examining Board[193C] Ch 1]

Chapter rescission date pursuant to Iowa Code section 17A.7: 4/10/29

481—1045.1(542B) General statement. The practices of engineering and land surveying affect the life, health, and property of the people in Iowa. The engineering and land surveying examining board's principal mandate is the protection of the public interest.

1045.1(1) *Administration.* Administration of the board has not been separated into panels, divisions, or departments. While the expertise of a board member may be called upon to frame special examinations and evaluate applications for licensing in a specialized engineering branch, the board functions in a unified capacity on all matters that may come before it. The board maintains an office at 6200 Park Avenue, Suite 100, Des Moines, Iowa 50321, and requests or submissions may be directed to the secretary of the board at that location.

1045.1(2) *Meetings.* Regular meetings of the board are held in Des Moines, Iowa. Information concerning the location and dates for meetings may be obtained from the board's office at 6200 Park Avenue, Suite 100, Des Moines, Iowa 50321, or by telephoning 515.725.9022.

[**ARC 7664C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/24/26]

481—1045.2(542B) Definitions. For the purposes of these rules, the following definitions apply:

"Accredited" means a program accredited by the Accreditation Board for Engineering Technology, Inc. (ABET) or the Canadian Engineering Accreditation Board (CEAB) or another accrediting body accepted by the National Council of Examiners for Engineering and Surveying (NCEES).

"Board" means the engineering and land surveying examining board provided by Iowa Code chapter 542B.

"Design coordination" means the same as defined in Iowa Code section 542B.2(2).

"Engineering documents" means the same as defined in Iowa Code section 542B.2(4).

"Engineering survey," as used in the definition of the practice of engineering, includes all survey activities required to support the sound conception, planning, design, construction, maintenance, and operation of engineered projects, but excludes the survey of real property for the establishment of land boundaries, rights-of-way, easements, and the dependent or independent surveys or resurveys of the public land system.

"Engineer intern" means the same as defined in Iowa Code section 542B.2(3).

"In responsible charge" means the same as defined in Iowa Code section 542B.2(6).

"Land surveying documents" means the same as defined in Iowa Code section 542B.2(7).

"Practice of engineering" means the same as defined in Iowa Code section 542B.2(9)*"a"* and *"b."*

1. The practice of engineering includes:

- Environmental engineering activities that may be involved in developing plans, reports, or actions to remediate an environmentally hazardous site;
- Design of fixturing devices for manufacturing machinery that must be performed by a licensed professional engineer or under the responsible charge and direct supervision of a professional engineer unless performed within the industrial exemption by a full-time employee of a corporation that constructs the fixtures.

2. Activities that the board will construe as the practice of engineering for which the board may by order impose a civil penalty upon a person who is not licensed as a professional engineer are set out in Iowa Code section 542B.27.

"Practice of land surveying" means the same as defined in Iowa Code section 542B.2(10) and also includes activities that the board will construe as the practice of land surveying and for which the board may by order impose a civil penalty upon a person who is not licensed as a professional land surveyor as set out in Iowa Code section 542B.27.

"Professional engineer" means the same as defined in Iowa Code section 542B.2(11).

"Professional land surveyor" means a person who engages in the practice of land surveying as defined in this rule.

"Written," when used to describe an examination, means a computer-based format.

[**ARC 7664C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/24/26]

481—1045.3(542B) Declaratory orders. The board's rules regarding declaratory orders can be found in the uniform rules for the division of professional licensing and regulation at 7—Chapter 2503.

[**ARC 7664C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/24/26]

481—1045.4(542B) Waivers.

1045.4(1) The board's rules regarding waivers can be found in the uniform rules for the division of professional licensing and regulation at 7—Chapter 2504.

1045.4(2) Interim rulings. The board chairperson, or vice chairperson if the chairperson is not available, may rule on a petition for waiver when it would not be timely to wait for the next regularly scheduled board meeting for a ruling from the board.

a. The executive secretary shall, upon receipt of a petition meeting all applicable criteria established in 7—Chapter 2504, present the request to the board chairperson or vice chairperson along with all pertinent information regarding established precedent for granting or denying such requests.

b. The chairperson or vice chairperson shall reserve the right to hold an electronic meeting of the board when:

(1) Board precedent does not clearly resolve the request and the input of the board is deemed required; and

(2) The practical result of waiting until the next regularly scheduled meeting would be a denial of the request due to timing issues.

c. A waiver report will be placed on the agenda of the next regularly scheduled board meeting and recorded in the minutes of the meeting.

d. This subrule on interim rulings does not apply if the waiver was filed in a contested case.

[**ARC 7664C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/24/26]

481—1045.5(542B) Licensed professional engineers and building construction.

1045.5(1) *Purpose.* This rule is intended to provide guidance to licensed professional engineers, other design professionals, unlicensed persons engaged in various aspects of building construction, building officials, owners, and others on when the services of a licensed professional engineer are required or not in connection with new building construction and alterations to existing structures.

1045.5(2) *General guidelines.* Given the wide range of buildings covered by this rule and the unique issues that may arise with respect to specific buildings, it is not possible to establish definitive criteria that will universally resolve when building construction or alterations will or will not implicate the practice of professional engineering, as defined in Iowa Code sections 542B.2(8) and 542B.27(1). For example, while the construction of a single-family residence would not generally necessitate the services of a licensed professional engineer, unique or unconventional features of a particular site or design may necessitate complex structural calculations or other services that fall within the definition of professional engineering. As a result, this rule should be interpreted as providing only general guidelines on when a licensed professional engineer is necessary.

1045.5(3) *Applicability.* The board will consider the guidelines provided in this rule when enforcing Iowa Code chapter 542B, including when determining whether an unlicensed person has engaged in the practice of professional engineering. This rule is not intended to constrain building officials or other public officials in their enforcement of other laws, rules, regulations or ordinances. A building code official, for example, may require that certain documents be prepared by a licensed professional engineer or that certain

construction inspections be performed by a licensed professional engineer whether or not the guidelines in this rule would so require. This rule only addresses the practice of professional engineering and does not address the practice of architecture. Similar guidelines with respect to the practice of architecture may be found at 481—Chapter 1065.

1045.5(4) *Definitions.* The definitions set forth in rule 481—1065.1(544A) apply to this rule.

1045.5(5) *Guidelines for new construction.* The following matrix describes by building type and use when the services of a licensed professional engineer are required in connection with new building construction:

BUILDINGS NEW CONSTRUCTION			
Building Use Type	**Description**	**Engineer Required**	**Engineer May Not Be Required**
Agricultural Use	Facilities for private use only and individually owned and operated facilities including grain elevators and feed mills		X
	Corporate-owned facilities or publicly owned facilities including grain elevators and feed mills	X	
Churches and accessory buildings whether attached or separate	One or two stories in height, up to a maximum of 2,000 square feet in gross floor area		X
	Any number of stories in height, greater than 2,000 square feet in gross floor area	X	
	More than two stories in height	X	
Commercial Use	One story in height, up to a maximum of 10,000 square feet in gross floor area		X
	One story in height, greater than 10,000 square feet in gross floor area	X	
	Two stories in height, up to a maximum of 6,000 square feet in gross floor area		X
	Two stories in height, greater than 6,000 square feet in gross floor area	X	
	More than two stories in height	X	
Detached Residential Use	One, two or three stories in height, containing 12 or fewer family dwelling units		X
	More than 12 family dwelling units	X	
	More than three stories in height	X	
	Outbuildings in connection with detached residential buildings		X
Educational Use		X	
Governmental Use	When the occupancy is of another building use type listed herein, those provisions shall apply	X	
Industrial Use		X	
Institutional Use		X	
Light Industrial Use			X
Places of assembly		X	
Warehouse Use	One story in height, up to a maximum of 10,000 square feet in gross floor area		X
	One story in height, greater than 10,000 square feet in gross floor area	X	
	More than one story in height	X	
Factory-Built Buildings	One or two stories in height, up to a maximum of 20,000 square feet in gross floor area		X
	One or two stories in height, greater than 20,000 square feet in gross floor area	X	
	More than two stories in height	X	

BUILDINGS NEW CONSTRUCTION			
Building Use Type	**Description**	**Engineer Required**	**Engineer May Not Be Required**
	More than 20,000 square feet in gross floor area	X	

1045.5(6) *Guidelines for alterations to existing buildings.* The following matrix describes by alteration type when the services of a licensed professional engineer are required in connection with alterations to existing buildings:

ALTERATIONS TO EXISTING BUILDINGS				
Alteration Type	**Description**		**Engineer Required**	**Engineer May Not Be Required**
Structural alterations to exempt buildings under Iowa Code section 544A.18	Modifications that change the structural members, means of egress, handicap accessible path, fire resistivity or other life safety concerns			X
Structural alterations to buildings that are not exempt	Modifications that change the structural members, means of egress, handicap accessible path, fire resistivity or other life safety concerns		X	
Nonstructural alteration	That does not modify means of egress, handicap accessible path, fire resistivity or other life safety concerns			X
	That maintains the previous type of use			X
Nonstructural alteration that changes the use of the building from any other use to:	A place of assembly of people or public gathering		X	
	Governmental use		X	
	Educational use		X	
	Hazardous use		X	
	A place of residence exempted	and is one, two or three stories in height and contains not more than 12 family dwelling units		X
	A place of residence not exempted otherwise	and is more than three stories in height	X	
		and containing more than 12 family dwelling units	X	
Nonstructural alterations that change the use of the building from industrial or warehouse to:	Commercial or office use	and is one story in height and not greater than a maximum of 10,000 square feet in gross floor area		X
		and is one story in height and greater than 10,000 square feet in gross floor area	X	
		and is two stories in height and not greater than a maximum of 6,000 square feet in gross floor area		X
		and is two stories in height and greater than 6,000 square feet in gross floor area	X	
		and is more than two stories in height	X	
		and is greater than 10,000 square feet of gross floor area	X	
Nonstructural alterations to:	Agricultural Use	Including grain elevators and feed mills		X
	Churches and Accessory Building Uses	One or two stories in height, up to a maximum of 2,000 square feet in gross floor area		X

ALTERATIONS TO EXISTING BUILDINGS				
Alteration Type	**Description**		**Engineer Required**	**Engineer May Not Be Required**
		Any number of stories in height, greater than 2,000 square feet in gross floor area	X	
		More than two stories in height	X	
	Commercial Use	One story in height, up to a maximum of 10,000 square feet in gross floor area		X
		One story in height, greater than 10,000 square feet in gross floor area	X	
		Two stories in height, up to a maximum of 6,000 square feet in gross floor area		X
		Two stories in height, greater than 6,000 square feet in gross floor area	X	
		More than two stories in height	X	
	Detached Residential Buildings	One, two or three stories in height, containing 12 or fewer family dwelling units		X
		More than 12 family dwelling units	X	
		More than three stories in height	X	
		Outbuildings in connection with detached residential buildings		X
	Educational Use		X	
	Governmental Use	When the occupancy is of another building use type listed herein, those provisions shall apply	X	
	Industrial Use		X	
	Institutional Use		X	
	Light Industrial Use			X
	Places of Assembly		X	
	Warehouse Use	One story in height, up to a maximum of 10,000 square feet in gross floor area		X
		One story in height, greater than 10,000 square feet in gross floor area	X	
		More than one story in height	X	
	Factory-Built Buildings	One or two stories in height, up to a maximum of 20,000 square feet of gross floor area		X
		One or two stories in height, greater than 20,000 square feet in gross floor area	X	
		More than two stories in height	X	
		More than 20,000 square feet in gross floor area	X	

1045.5(7) *Architectural exceptions do not apply.* The statutory exemptions in Iowa Code section 544A.18 do not apply to the practice of engineering. The construction of a building that falls within an exception in Iowa Code section 544A.18 may necessitate the services of an engineer if, for example:

a. There are structural elements that do not fall within building code definitions of conventional light frame construction,

b. The use of certain structural materials, members or components requires special inspections by engineers, or

c. HVAC, plumbing or electrical systems exceed certain building code standards. However, the matrix guidelines in this rule are generally compatible with the exceptions in Iowa Code section 544A.18 because the construction of buildings that fall outside the exceptions in Iowa Code section 544A.18 generally does implicate the practice of professional engineering in such disciplines as structural, electrical or mechanical engineering.

[**ARC 7664C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/24/26]

These rules are intended to implement Iowa Code sections 17A.9A, 542B.2, and 542B.3.

CHAPTER 1046
FEES AND CHARGES

[Prior to 11/14/01, see 193C—1.9(542B)]
[Prior to 6/24/26, see Engineering and Land Surveying Examining Board[193C] Ch 2]

Chapter rescission date pursuant to Iowa Code section 17A.7: 4/10/29

481—1046.1(542B) General statement. Fees are fixed in such an amount as will defray the expense of administering board responsibilities. Fees are charged in accordance with the following table:

Type of fee	Amount
Renewal	
Active license renewal	$100
Inactive license renewal	$40
Reinstatement of lapsed license (In addition to the reinstatement fee, the applicant for reinstatement must also pay the appropriate prorated reinstated license fee below.)	$100
Reinstatement of inactive to active license	$60
New or reinstated license (In addition to the appropriate prorated reinstated license fee, the applicant for reinstatement must also pay the reinstatement fee above.)	$100 Prorated at six-month intervals
Application for examination	
Principles and Practice of Land Surveying	$100
Examinations	
Fees for National Council of Examiners for Engineering and Surveying (NCEES) examinations are paid directly to the examination service at the rate established by contract based upon cost of the examination materials and processing expenses.	Variable
Iowa State Specific Land Surveying Examination	$30
Application for licensure by comity or verification as a professional engineer or professional land surveyor	$150
Certificates	
Initial professional engineer or professional land surveyor certificate	$15
Additional or duplicate certificate	$25
Engineer or land surveyor intern certificate	No charge
Check returned for insufficient funds	$15
Verification of records for lapsed licensees	$15 per verification
Late renewal fee (for renewals completed after December 31 and before January 31)	$25

[**ARC 7665C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/24/26]

481—1046.2(542B) Nonrefundable fees. Application fees submitted with applications for the Fundamentals of Engineering examination, the Fundamentals of Land Surveying examination, the Principles and Practice of Engineering examination, the Principles and Practice of Land Surveying examination, comity licensure, or renewal of licensure are not refundable for any reason.

[**ARC 7665C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/24/26]

These rules are intended to implement Iowa Code sections 542B.13, 542B.15, 542B.20 and 542B.30.

CHAPTER 1047
APPLICATION AND RENEWAL PROCESS

[Prior to 11/14/01, see 193C—Chapter 1]
[Prior to 6/24/26, see Engineering and Land Surveying Examining Board[193C] Ch 3]

Chapter rescission date pursuant to Iowa Code section 17A.7: 4/10/29

481—1047.1(542B) General statement. A person requesting to be licensed as a professional engineer or professional land surveyor shall submit a completed, standardized application form, which may be obtained electronically from the board's Internet web page.

1047.1(1) *Application expiration.* On the examination and comity applications due date, the applications are considered current if it has been one year or less since the applications were received by the board office.

1047.1(2) *Academic transcripts.*

a. United States institutions. Completion of post-high school education shall be evidenced by the board's receipt of an applicant's transcripts directly from the office of the registrar of each institution conferring a qualifying degree.

b. Institutions outside the United States. Transcripts from institutions located outside the boundaries of the United States of America shall be sent directly from the institution to an evaluation service to be evaluated for authenticity and substantial equivalency with Accreditation Board for Engineering and Technology, Inc. (ABET), or Engineering Accreditation Commission (EAC) accredited engineering programs. To be readily acceptable, such evaluations shall be from the National Council of Examiners for Engineering and Surveying (NCEES). However, the board may accept evaluations from other recognized foreign credential evaluators satisfactory to the board. The expense of the evaluation is the responsibility of the applicant. Each evaluation shall be sent directly to the board from the evaluation service and include a copy of the transcript in the form sent to the evaluation service directly from the educational institution. Each evaluation must address both whether the transcript is authentic and whether the engineering program is equivalent to those accredited by ABET or EAC.

[**ARC 7666C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/24/26]

481—1047.2(542B) Application components and due dates.

1047.2(1) *Fundamentals of Engineering examination.* Applications for the Fundamentals of Engineering examination are submitted directly to the examination service selected by the board to administer the examinations.

1047.2(2) *Fundamentals of Land Surveying examination application components and due dates.* The components of this application include: the completed application form, references pursuant to 481—paragraph 1049.1(5)*"b"* and transcripts. Fundamentals of Land Surveying examination applications must be submitted to the board office. Applications submitted by the first day of each month will be reviewed by the board at the next regularly scheduled board meeting.

1047.2(3) *Principles and Practice of Engineering examination application.* Principles and Practice of Engineering examination applications are submitted directly to the examination service selected by the board. Documentation of a qualifying degree will be required prior to approval to sit for the examination.

1047.2(4) *Principles and Practice of Land Surveying application components and due dates.* Principles and Practice of Land Surveying examination applications are submitted to the board office. Application files with all components submitted to the board office by the first day of each month will be reviewed at the next regularly scheduled board meeting.

a. The examination application file includes the following components:

(1) The completed online application form.
(2) The required number of references.
(3) The project statement.
(4) The ethics questionnaire.

b. In addition, a complete application file includes verification of examination records and transcripts. Examination applications will not be reviewed by the board until the application file is complete.

1047.2(5) *Professional engineer license application.* Professional engineer license applications are submitted to the board office. Application files with all components submitted to the board office by the first day of each month will be reviewed at the next regularly scheduled board meeting.

a. The professional engineer license application includes the following components:

(1) The completed online application form.

(2) The required number of references.

(3) The project statement.

(4) The ethics questionnaire.

b. In addition, a complete application file includes verification of examination records and transcripts. Professional engineer license applications will not be reviewed until the application file is complete.

[**ARC 7666C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/24/26]

481—1047.3(542B) Comity applications.

1047.3(1) The components of a comity application include the completed application form, the ethics questionnaire, references, transcripts, and verification of examinations, as appropriate. Comity applicants may submit the NCEES record in lieu of providing references, verifications, transcripts, and employment history. Since the verification of examination records must, in most cases, be sent directly from the jurisdiction where the applicant took the Fundamentals of Engineering and Principles and Practice Engineering examinations, the applicant should contact the other jurisdiction in advance of submitting the application to request this verification and make every effort to have the verification sent to the board at the time that the application is submitted. Likewise, for transcripts the applicant should contact the university in advance of submitting the application to make every effort to have the transcripts transmitted to the board at the time that the application is submitted.

1047.3(2) Comity applications will be reviewed as they are completed. Comity applications will not be reviewed until all components have been received.

1047.3(3) Comity applicants will be notified in writing via regular mail or email regarding the results of the review of their applications.

1047.3(4) Temporary license. The board does not issue temporary licenses, except as provided for in rule 481—1049.3(542B,272C).

[**ARC 7666C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/24/26]

481—1047.4(542B) Renewal applications.

1047.4(1) *Expiration dates.* Certificates of licensure expire biennially on December 31. Certificates that were initially issued in even-numbered years expire in odd-numbered years and certificates that were initially issued in odd-numbered years expire in even-numbered years. In order to maintain authorization to practice engineering or land surveying in Iowa, licensees must renew their certificates of licensure on or prior to the expiration date. A licensee who fails to renew prior to the date the certificate expires is not authorized to practice in Iowa unless the certificate is reinstated as provided in these rules. However, the board will accept an otherwise sufficient renewal application that is untimely if the board receives the application and late fee within 30 days of the date of expiration.

1047.4(2) *Renewal notification.* The board typically mails a renewal notification to a licensee's last-known address at least one month prior to the license expiration date. Neither the board's failure to mail a renewal notification nor the licensee's failure to receive a renewal notification affects in any way the licensee's duty to timely renew if the licensee intends to continue practicing in Iowa. Licensees need to contact the board office if they do not receive a renewal notification prior to the expiration date.

1047.4(3) *Renewal process.* Upon receipt of a timely and sufficient renewal application, with the proper fee, the board's executive secretary will issue a new license reflecting the next expiration date, unless grounds exist for denial of the application.

1047.4(4) *Notification of expiration.* The board will notify licensees whose certificates of licensure have expired. The failure of the board to provide this courtesy notification, or the failure of the licensee to receive the courtesy notification, does not extend the date of expiration.

1047.4(5) *Sanction for practicing after license expiration.* A licensee who continues to practice in Iowa after the license has expired is subject to disciplinary action. Such unauthorized activity may also provide grounds to deny a licensee's application to reinstate.

1047.4(6) *Timely and sufficient renewal application.* Within the meaning of Iowa Code section 17A.18(2), a timely and sufficient renewal application shall be:

a. Received by the board through the online renewal process;

b. Fully completed; and

c. Accompanied by the proper fee. The fee is deemed improper if, for instance, the amount is incorrect, the fee was not included with the application, the credit card number provided by the applicant is incorrect, the date of expiration of a credit card is left off the application or is incorrect, the attempted credit card transaction is rejected, or the applicant's check is returned for insufficient funds.

1047.4(7) *Responsibility for accuracy of renewal application.* The licensee is responsible for verifying the accuracy of the information submitted on the renewal application regardless of how the application is submitted or by whom it is submitted.

1047.4(8) *Denial of renewal application.* If the board, upon receipt of a timely, complete and sufficient application to renew a certificate of licensure, accompanied by the proper fee, denies the application, the executive secretary will send written notice to the applicant by restricted, certified mail, return receipt requested, identifying the basis for denial. The applicant may contest the board's decision as provided in 481—Chapter 506.

1047.4(9) *Continuing education.* A licensee who does not satisfy the continuing education requirements for licensure renewal will be denied renewal of licensure in accordance with subrule 1047.4(8).

1047.4(10) *Consent order option.* When a licensee appears to be in violation of mandatory continuing education under 481—Chapter 1051, the board may, in lieu of proceeding to a contested case hearing on the denial of renewal as provided in uniform division 481—Chapter 506, offer the licensee the opportunity to sign a consent order. While the terms of a consent order will be tailored to the specific circumstances at issue, the consent order will typically impose a penalty between $50 and $250, depending on the severity of the violation, and establish deadlines for compliance, and the consent order may impose additional educational requirements upon the licensee. A licensee is free to accept or reject the offer. If the offer of settlement is accepted, the licensee will be issued a renewed certificate of licensure and, if the terms of the consent order are not complied with, will be subject to disciplinary action. If the offer of settlement is rejected, the matter will be set for hearing, if timely requested by the applicant pursuant to uniform division 481—Chapter 506.

1047.4(11) *Inactive status.* Licensees who are not engaged in engineering or land surveying practices that require licensure in Iowa may be granted inactive status. No inactive licensee may practice in Iowa unless otherwise exempted in Iowa Code chapter 542B.

[**ARC 7666C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/24/26]

481—1047.5(542B) Reinstatement of licensure.

1047.5(1) To reinstate a license that has lapsed for one year or more, the applicant for reinstatement must pay the fee under rule 481—1046.1(542B) and satisfy one of the following:

a. Provide documentation of 45 professional development hours achieved within the current and previous biennium (dual licensees must provide documentation of 30 professional development hours for each profession); or

b. Successfully complete the principles and practice examination within one year immediately prior to application for reinstatement; or

c. For an applicant for reinstatement who is an out-of-state resident, submit a statement from the resident state's licensing board as documented evidence of compliance with the resident state's mandatory continuing education during the period that the licensee's Iowa license was lapsed. An applicant

for reinstatement whose resident state has no mandatory continuing education shall comply with the documented evidence as outlined in this subrule and at 481—subrule 1051.8(2).

1047.5(2) To reinstate a license that has lapsed for less than one year, the applicant for reinstatement must pay the fee under rule 481—1046.1(542B) and satisfy one of the following:

a. Provide documentation of 30 professional development hours achieved within the current and previous biennium (dual licensees must provide documentation of 20 professional development hours for each profession). Professional development hours used for reinstatement shall not be reused at the next renewal; or

b. Successfully complete the principles and practice examination within one year immediately prior to application for reinstatement; or

c. For an applicant for reinstatement who is an out-of-state resident, submit a statement from the resident state's licensing board as documented evidence of compliance with the resident state's mandatory continuing education requirement during the period that the licensee's Iowa license was lapsed. The statement shall bear the seal of the licensing board. An applicant for reinstatement whose resident state has no mandatory continuing education requirement shall comply with the documented evidence requirement as outlined in this subrule and at 481—subrule 1051.8(2).

1047.5(3) A lapsed license may not be reinstated to inactive status.

1047.5(4) To reinstate from inactive status to active status, the applicant for reinstatement must pay the fee under rule 481—1046.1(542B) and provide documentation of 45 professional development hours achieved within the current and previous biennium (dual licensees must provide documentation of 30 professional development hours for each profession). Professional development hours used for a reinstatement shall not be reused at the next renewal.

[**ARC 7666C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/24/26]

These rules are intended to implement Iowa Code sections 272C.2, 272C.3, 542B.2, 542B.6, 542B.13, 542B.14, 542B.15, 542B.20 and 542B.30.

CHAPTER 1048
ENGINEERING LICENSURE

[Prior to 11/14/01, see 193C—1.4(542B)]
[Prior to 6/24/26, see Engineering and Land Surveying Examining Board[193C] Ch 4]

Chapter rescission date pursuant to Iowa Code section 17A.7: 4/10/29

481—1048.1(542B) Licensure by examination. The board will issue initial licensure only when an applicant satisfies the provisions of Iowa Code section 542B.14 as follows:

1048.1(1) An applicant is eligible for the Engineer in Training certificate by meeting one of the following educational standards:

a. The applicant graduates from an engineering program of four years or more with an Accreditation Board of Engineering and Technology/Engineering Accreditation Commission (ABET/EAC)- or Canadian Engineering Accreditation Board (CEAB)-accredited curriculum. An engineering technology curriculum does not constitute an engineering program of four years or more.

b. After graduation from a nonaccredited engineering program of four years or more as described above, the applicant will complete one extra year of practical experience satisfactory to the board, verified by a professional engineer (PE) supervisory reference.

c. The applicant graduates with a master's degree in engineering from an institution in the United States of America that offers an accredited bachelor's degree in the same curriculum. The master's degree or a doctor of philosophy degree candidate must fulfill the requirements for the bachelor's degree in the same area of specialization.

d. An applicant with a master's degree or a doctor of philosophy degree in engineering from an institution in the United States of America that does not offer an accredited bachelor's degree in the same curriculum will be required to have an additional year of qualifying experience obtained after receipt of the qualifying degree. Applicants using a master's degree or a doctor of philosophy degree as the qualifying degree may not also use the master's degree or a doctor of philosophy degree for qualifying experience credit or as an exemption for the Fundamentals of Engineering examination (FE exam).

1048.1(2) An applicant successfully completes the FE exam.

a. An applicant may take the FE exam any time after the educational requirements as specified above are completed, but the applicant must successfully complete the FE exam prior to taking the Principles and Practice of Engineering examination.

b. College seniors studying an ABET/EAC- or CEAB-accredited curriculum may take the FE exam during the final academic year. Applicants will be permitted to take the examination during the testing period that most closely precedes anticipated graduation.

c. An applicant who graduated from a satisfactory engineering program and has ten years or more of work experience satisfactory to the board is not required to take the FE exam. This experience is in addition to the four or five years of experience necessary for the PE license.

d. An applicant who has earned a Doctor of Philosophy degree from an institution in the United States of America with an accredited Bachelor of Science engineering degree program in the same discipline, or a similar doctoral degree in a discipline approved by the board, is not required to take the FE exam.

e. FE exam candidates will apply directly to the National Council of Examiners for Engineering and Surveying (NCEES) and will self-attest as to the candidate's eligibility to sit for the FE exam. The board will verify acceptable education and experience at the time an applicant applies for an Engineer in Training (EIT) number. The board shall apply the education and experience standards set forth in this rule but may allow reasonable flexibility in timing in the event an applicant sat for and passed the FE exam at a point earlier than provided in this rule. The board will not, however, issue an EIT number unless all experience required for candidates who hold engineering degrees from nonaccredited programs has been satisfied at the time of the EIT application.

1048.1(3) An applicant successfully completes the Principles and Practice of Engineering examination (PE exam).

a. An applicant may take the PE exam any time after passing the FE exam.

b. PE exam candidates will apply directly to the NCEES. The applicant will document a qualifying education. The board will verify acceptable experience at the time the applicant applies for a professional engineer license.

1048.1(4) An applicant obtains satisfactory practical experience in engineering work as follows:

a. Oversight. An applicant has direct supervision or professional tutelage (instruction, guidance, mentoring, review, and critique) from one or more licensed professional engineers. This experience will be verified by one or more licensed professional engineers who are familiar with the applicant's work and can attest that the experience was of the required quality and was accurately described. Verification of the qualifying experience is provided through the reference forms. It is the responsibility of the applicant to provide reference forms to the licensed professional engineers to complete and return directly to the board.

(1) To be readily acceptable, all of the practical experience is under the direct supervision and tutelage of one or more licensed professional engineers.

(2) To be considered, a portion of the qualifying experience is under the direct supervision or tutelage of one or more licensed professional engineers, and the rest of the practical experience is under the direct supervision or tutelage of an unlicensed graduate engineer.

b. Documentation of experience. An applicant submits references and a work project description. The board reserves the right to contact the employer and the person providing tutelage on the project for information about the project experience acquired by the applicant.

(1) References. An applicant for the professional engineer license shall submit three references from professional engineers or a combination of professional engineers and graduate engineers on forms provided by the board.

1. The practical experience provided under the direct supervision or professional tutelage of the licensed professional engineers in the course of a mentoring relationship must include technical skills; professional development; the exercise of professional judgment, ethics, and standards in the application of engineering principles and in the review of such matters by others; and the professional obligations of assuming responsible charge of professional engineering works and services.

2. If the applicant has had more than one supervisor, at least two of the references shall be from a supervisor of the applicant. An applicant shall submit supervisor references to verify at least four years of qualifying experience.

3. If an applicant has had professional experience under more than one employer, the applicant shall provide references from individuals with knowledge of the work performed under a minimum of two employers.

4. The board reserves the right to contact references, supervisors, or employers for information about the applicant's professional experience and competence or to request additional references.

5. The board uses references partially as a means of verifying an applicant's record of experience. The applicant must distribute a reference form to individuals who are asked to submit references for the applicant. To each reference form, the applicant shall attach a narrative of the applicant's experience record that is being addressed by the referring individual.

6. The board may require the applicant to submit other evidence of suitable tutelage and supervision.

7. The board may conduct interviews with persons providing tutelage or supervision to the applicant.

(2) Work project description. An application for initial licensure includes a work project statement describing a significant project on which the applicant worked during the previous 12 months. The board will review all work project statements and will approve only those that include all of the following components:

1. Description of the applicant's degree of responsibility for the project.

2. The project's owner and location.

3. The name of the supervisor in charge of the project and, if the supervisor is a professional engineer, the license number of the supervisor.

4. The applicant's signature and date of signature.

(3) Criteria the board uses in evaluating the acceptability of the project as qualifying experience for the applicant includes, but is not limited to, the following:

1. The degree to which the project and the experience described have progressed from assignments typical of initial assignments to those more nearly expected of a licensed professional;
2. The scope and quality of the professional tutelage experienced by the applicant;
3. The technical decisions required of the applicant in the project; and
4. The professional decisions required of the applicant.

c. Quality. An applicant has experience that demonstrates that the applicant has developed technical skill and initiative in the correct application of engineering principles. Such experience should demonstrate the applicant's capacity to review the application of these principles by others and to assume responsibility for engineering work of professional character.

d. Scope. The applicant has experience that includes sufficient breadth and scope to ensure that the applicant has attained reasonably well-rounded professional competence in a basic engineering field, rather than highly specialized skill in a narrow and limited field.

e. Progression. The record of experience indicates successive and continued progress from initial, subprofessional work of simpler character to recent, professional work of greater complexity and a higher degree of responsibility, as well as continued interest and effort on the part of the applicant toward further professional development and advancement. In evaluating this progression, the board will consider both subprofessional and professional activity as reported by the applicant. However, only work experience obtained after the applicant's receipt of the qualifying degree will be considered, except as described in paragraph 1048.1(4)*"f."* Subprofessional work includes the time spent as an engineering technician, engineering assistant, inspector, or similar under the direct supervision of a licensed professional engineer. Professional work includes the time during which the applicant was occupied in engineering work of higher grade and responsibility than that defined above as subprofessional work. Time spent in teaching engineering subjects in a college or university at the level of assistant professor or higher may be listed as professional work.

f. Special work experience. Work experience prior to graduation from college may be accepted toward satisfaction of practical experience only as follows: Cooperative work programs and internships administered by engineering colleges and verified on the transcript, with a verifying reference from the internship supervisor, will be considered as half-time credit, with a maximum allowance of 6 months (12 months of cooperative work experience or internship) applicable toward the satisfaction of qualifying experience requirements. An applicant's advanced education, military experience, or both will be reviewed in order to determine if they are applicable toward the statutory requirements for experience.

g. Advanced education. An applicant who has earned a master of science degree that includes research experience, in addition to writing an associated thesis, from an institution in the United States of America with an accredited bachelor of science engineering degree program in the same discipline and who has fulfilled the requirements for a bachelor of science degree may be granted a maximum of one year's experience credit. An applicant who has earned a doctor of philosophy degree from an institution in the United States of America with an accredited bachelor of science engineering degree program in the same discipline may be granted a maximum of two years of experience credit in addition to the one-half year's credit for the master of science degree. An applicant using an advanced degree as experience credit may not also use the advanced degree as the qualifying degree to become licensed.

h. Teaching experience. Teaching of engineering subjects at the level of assistant professor or higher in an accredited engineering program may be considered as experience, provided the applicant's immediate supervisor is a licensed professional engineer in the jurisdiction in which the college or university is located. If the applicant's immediate supervisor is not a licensed professional engineer, a program of mentoring or peer review by a licensed professional engineer acceptable to the board must be demonstrated. Applicants using teaching or research as experience must have a minimum of four years of acceptable experience in research, industry, or consulting. The board will consider the complexity of the project(s) presented, the degree of responsibility of the applicant within the project, and other factors the board deems relevant. Academic experience must demonstrate increasing levels of responsibility for the conduct and management of projects involving engineering research, development, or application. The board reserves the right to contact employers for information about the applicant's professional experience and competence.

i. Joint applications. Applicants requesting licensure both as a professional engineer and a land surveyor must submit a history of professional experience in both fields. Such histories will be considered separately on a case-by-case basis. The board does not grant full credit for concurrent experience in both professions.

j. Corporate exemption. The purpose of the provisions on qualifying experience that authorize the board to consider some experience that was not acquired under the direct supervision and tutelage of a licensed professional engineer is to provide a path toward licensure for those applicants who gain experience in settings where licensure is not required under the corporate exemption set forth in Iowa Code section 542B.26 or under similar statutory provisions in other jurisdictions. Such applicants may lawfully gain professional engineering experience under the supervision or tutelage of graduate engineers who are not licensed. To aid such applicants, the following guidelines are provided:

(1) The board will not consider any of the following experience:

1. Experience gained under circumstances where the applicant could not lawfully have practiced professional engineering.

2. Experience attained in compliance with the law but that was not under the supervision or tutelage of a graduate engineer. The fundamental purpose of qualifying experience is professionally guided training to expand and complement engineering education. Self-guided experience does not qualify.

(2) Unlicensed graduate engineers are not authorized to offer professional engineering services to the public or to be in responsible charge of such services, nor are they subject to the examinations required for licensure, the professional and ethical standards applicable to licensees, or the regulatory oversight of a licensing authority. Qualifying experience is intended to address both technical competence and the obligations to the public of a licensed professional engineer.

(3) Because the circumstances of individual applicants in corporate exemption settings are diverse, it is not possible to identify the minimum period of time during which the applicant must receive supervision or tutelage from one or more licensed professional engineers to be eligible for licensure. The board will evaluate both the quantity and quality of such experience. In general, an applicant's exposure to supervision or tutelage by one or more licensed professional engineers should reflect a sustained period of in-depth interaction from which the licensed engineers are in a position to form credible opinions on the applicant's qualifications to be in responsible charge of engineering services offered to the public as a licensed professional engineer.

(4) The burden is on the applicant to demonstrate to the board's satisfaction that the combination of unlicensed and licensed supervision and tutelage satisfies the requirements of qualifying experience described in this rule.

k. Practical experience. An applicant for a professional engineer license shall have a minimum of one year of practical experience in the United States of America or a territory under its jurisdiction.

1048.1(5) Education and experience requirements. The board will require the minimum number of years set forth on the following chart before an applicant will be eligible for licensure.

Experience Requirements	
If the education is:	Required years of experience
A four-year bachelor's degree in a nonaccredited engineering program	5
A four-year bachelor's degree in an accredited engineering program OR a qualifying master's degree pursuant to paragraph 1048.1(1)*"c"* OR a qualifying PhD pursuant to paragraph 1048.1(1)*"d"*	4
A four-year bachelor's degree in an accredited engineering program AND a qualifying master's degree pursuant to paragraph 1048.1(4)*"g"*	3
A four-year bachelor's degree in an accredited engineering program AND a qualifying PhD pursuant to paragraph 1048.1(4)*"g"*	2

A four-year bachelor's degree in an accredited engineering program AND a qualifying master's degree AND a qualifying PhD pursuant to paragraph 1048.1(4)*"g"*	1

1048.1(6) Required examinations. All examinations are uniform examinations prepared and graded by the NCEES. The board may negotiate an agreement with an examination service to administer the examinations to applicants approved by the board, in which case applicants shall pay examination fees directly to the service.

a. Fundamentals of Engineering examination. The Fundamentals of Engineering examination is a computer-based examination covering general engineering principles and other subjects commonly taught in accredited engineering programs.

b. Principles and Practice of Engineering examination. A separate examination is required for each branch in which licensure is granted. An applicant may obtain a Principles and Practice of Engineering Civil (Structural) branch license by passing either the Structural examination or the Principles and Practice of Engineering Structural examinations.

c. Conduct during the examination. Examinees will comply with the testing rules and regulations of the examination administrator.

[**ARC 7667C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/24/26]

481—1048.2(542B) Requirements for licensure by comity. A person holding a certificate of licensure to engage in the practice of engineering issued by a proper authority of a jurisdiction or possession of the United States, the District of Columbia, or any foreign country, based on requirements that do not conflict with the provisions of Iowa Code section 542B.14 and who has met standards determined by the board to be substantially equivalent to those required of applicants for initial licensure in this state may, upon application, be licensed without further examination. Comity applicants are governed by the same standards as are required of applicants for initial licensure in Iowa.

1048.2(1) *References.* An applicant for licensure by comity shall submit references on forms provided by the board to verify satisfactory engineering experience, as provided in paragraph 1048.1(4)*"a."*

1048.2(2) *Basis for evaluation of applications.* Applications for licensure by comity will be evaluated on the following basis:

a. The applicant's record of education, references, practical experience, and successful completion of approved examinations will be reviewed to determine if it currently satisfies the substantive requirements of Iowa Code section 542B.14. In reviewing the education, references, and practical experience of comity applicants, the board will use the same criteria used by the board to determine the eligibility of a candidate for the Principles and Practice of Engineering examination; or

b. The applicant's licensure in a jurisdiction other than Iowa will be reviewed to determine if it was granted only after satisfaction of requirements substantially equivalent to those that are required of applicants for initial licensure in Iowa under Iowa Code section 542B.14. When determining whether the licensing standards satisfied by a comity applicant are substantially equivalent to those required in Iowa, the board considers each of the four licensing prerequisites in Iowa Code section 542B.14(1) individually. The licensing standards are satisfied by the comity applicant if the standards are equal or superior to those required in Iowa for education, fundamentals examination, experience, and professional examination. Unless expressly stated in this chapter, the board will not consider an applicant's superior satisfaction of one licensing prerequisite, such as a higher level of education than is required in Iowa, as resolving an applicant's lack of compliance with another prerequisite, such as professional examination.

1048.2(3) *Comity application process.*

a. An applicant for licensure by comity from a jurisdiction other than Iowa meets or exceeds the education requirements set forth in Iowa Code section 542B.14 and subrule 1048.1(1).

b. An applicant successfully completes the Fundamentals of Engineering examination. An applicant who graduated from a satisfactory engineering program and who has ten years or more of work experience satisfactory to the board is not required to take the Fundamentals of Engineering examination.

c. The applicant successfully completes the Principles and Practice of Engineering examination.

d. The applicant has satisfactory practical experience under paragraph 1048.1(3)*"a."*

e. While the board will consider evidence presented by a comity applicant on non-NCEES examinations successfully completed in a foreign country, the non-NCEES examination will be compared with the appropriate NCEES examination. A non-NCEES professional examination, for instance, must be designed to determine whether a candidate is minimally competent to practice professional engineering in a specific branch of engineering, such as civil, structural, electrical, or mechanical engineering. The examination must be written, objectively graded, verifiable, and developed and validated in accordance with the testing standards of the American Psychological Association or equivalent testing standards. Free-form essays and oral interviews are not equal or superior to NCEES examinations.

1048.2(4) *Education and experience requirements.*

a. For applicants who were originally licensed in a jurisdiction other than Iowa prior to July 1, 1988, the board will employ the following chart to determine if the applicant's licensure was granted after satisfaction of requirements substantially equivalent to those that were required by Iowa Code section 542B.14 at the time of the applicant's original licensure. Column 1 indicates the years of practical experience that were required prior to the Fundamentals of Engineering examination in addition to the completion of the required educational level. To determine the total years of practical experience that were required prior to taking the Principles and Practice of Engineering examination, column 2 is added to column 1.

EXPERIENCE REQUIREMENTS FOR COMITY APPLICANTS
Who were licensed prior to July 1, 1988

If the applicant's educational level was:	The applicant has had the following additional years of experience prior to taking the Fundamentals of Engineering examination:	The applicant has had the following years of experience after receipt of the qualifying degree and prior to taking the Principles and Practice of Engineering examination:
No post-high school education	8	4
Postsecondary study in mathematics or physical sciences		
One year	7	4
Two years	6	4
Three years	5	4
Four years	3	4
Four-year BS degree in mathematics or physical sciences plus master's degree in engineering	0	4
Postsecondary study in engineering technology programs and architecture		
One year	7	4
Two years	5.5	4
Three years	4	4
Four-year degree in a nonaccredited engineering technology program or BA in architecture	2.5	4
Four-year degree in an accredited engineering technology program	2	4
Bachelor of architecture, four years or more	2	4
Four-year degree in engineering technology or architecture plus master's degree in engineering	0	4
Postsecondary study in a nonaccredited engineering program		
One year	7	4
Two years	5	4
Three years	3	4
Four-year BS degree	1	4

EXPERIENCE REQUIREMENTS FOR COMITY APPLICANTS Who were licensed prior to July 1, 1988		
If the applicant's educational level was:	The applicant has had the following additional years of experience prior to taking the Fundamentals of Engineering examination:	The applicant has had the following years of experience after receipt of the qualifying degree and prior to taking the Principles and Practice of Engineering examination:
Four-year degree in a nonaccredited engineering program plus master's degree in engineering	0	4
Postsecondary study in an accredited engineering program		
Two years	6	4
Three years	3	4
Four-year degree in an accredited engineering program	0	4

b. For applicants who were originally licensed in another jurisdiction and who meet the requirements of Iowa Code section 542B.14(1)*"a"*(1)(c), the board will employ the following chart to determine if the applicant's licensure was granted after satisfaction of requirements substantially equivalent to those that were required by Iowa Code section 542B.14 at the time of the applicant's original licensure. Column 1 indicates the years of practical experience that were required prior to the Fundamentals of Engineering examination in addition to the completion of the required educational level. To determine the total years of practical experience that were required prior to taking the Principles and Practice of Engineering examination, column 2 is added to column 1.

EXPERIENCE REQUIREMENTS FOR COMITY APPLICANTS Who meet the requirements of Iowa Code section 542B.14(1)*"a"*(1)(c)		
If the applicant's educational level was:	The applicant has had the following additional years of experience prior to taking the Fundamentals of Engineering examination:	The applicant has had the following years of experience after receipt of the qualifying degree and prior to taking the Principles and Practice of Engineering examination:
College or junior college (mathematics or physical sciences)		
Two years	6	4
Three years	5	4
Four-year BS degree	3	4
Four-year BS degree plus master's degree in engineering	0	4
All engineering technology programs and architecture		
Two years	6	4
Three years	5	4
Four-year degree, nonaccredited technology or BA in architecture	3	4
Four-year degree, accredited technology	2	4
Four-year degree or more, bachelor of architecture	2	4
Four-year BS degree, technology or architecture plus master's degree in engineering	0	4
Engineering program, nonaccredited		
Two years	6	4
Three years	3	4
Four-year BS degree	1	4

EXPERIENCE REQUIREMENTS FOR COMITY APPLICANTS Who meet the requirements of Iowa Code section 542B.14(1)*"a"*(1)(c)		
If the applicant's educational level was:	The applicant has had the following additional years of experience prior to taking the Fundamentals of Engineering examination:	The applicant has had the following years of experience after receipt of the qualifying degree and prior to taking the Principles and Practice of Engineering examination:
Four-year BS degree plus master's degree in engineering	0	4
Engineering program, accredited		
Two years	6	4
Three years	3	4
Four-year BS degree	0	4

c. For all other applicants who were originally licensed in a jurisdiction other than Iowa on or after July 1, 1988, the board will employ the chart found at subrule 1048.1(5) to determine if the applicant's licensure was granted after satisfaction of requirements substantially equivalent to those that are required by Iowa Code section 542B.14.

d. For purposes of this subrule, an applicant's master's degree in engineering is to be from an institution in the United States of America with an accredited bachelor's degree in the same curriculum, and the master's degree candidate is required to fulfill the requirements for the bachelor's degree in the same area of specialization.

[**ARC 7667C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/24/26]

481—1048.3(542B) Requirements for a licensee requesting additional examination. A person holding an active certificate of licensure to engage in the practice of engineering issued by the state of Iowa may, upon written request and payment of the application and examination fees, take additional examinations in other branches of engineering without submitting a formal application to the board as described for initial or comity licensure.

[**ARC 7667C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/24/26]

These rules are intended to implement Iowa Code sections 542B.2, 542B.13, 542B.14, 542B.15, 542B.17 and 542B.20.

CHAPTER 1049
LAND SURVEYING LICENSURE

[Prior to 11/14/01, see 193C—1.4(542B)]
[Prior to 6/24/26, see Engineering and Land Surveying Examining Board[193C] Ch 5]

Chapter rescission date pursuant to Iowa Code section 17A.7: 4/10/29

481—1049.1(542B) Requirements for licensure by examination. The specific requirements for initial licensing in Iowa are established in Iowa Code section 542B.14, and it is the board's intention to issue initial licensure only when those requirements are satisfied chronologically as set forth in the statute.

1049.1(1) The applicant for initial licensure in Iowa must satisfy the education plus experience requirements stated in Iowa Code section 542B.14*"b"*(1). The chart in subrule 1049.1(8) details education-based experience requirements. If the applicant's degree is not in surveying, surveying technology, engineering, or engineering technology, the applicant must have taken a minimum of nine credit hours in mathematics, of which at least one course must include trigonometry in its coursework, and may include college algebra, trigonometry, analytic geometry, differential and integral calculus, linear algebra, numerical analysis, probability and statistics, and advanced calculus; and a minimum of nine credit hours in basic sciences, which must cover one or more of the following topics: general chemistry, advanced chemistry, biology, geology, ecology, meteorology, astronomy, forestry, general physics, advanced physics, or land surveying, for the applicant's degree to be a qualifying degree.

a. Internet or online degrees will only be considered as qualifying degrees if the institution issuing the degree is accredited by a recognized accreditation board or the degree is evaluated as substantially equivalent to that of an accredited program by the National Council of Examiners for Engineering and Surveying (NCEES). The board may accept evaluations from other recognized foreign credential evaluators satisfactory to the board. Initiating the evaluation and the expense of the evaluation are the responsibilities of the applicant. Each evaluation shall be sent directly to the board from the evaluation service and shall include a copy of the transcript in the form sent to the evaluation service directly from the educational institution.

b. Internet or online degrees will only be considered as qualifying degrees if the institution issuing the degree is accredited by a recognized accreditation board.

1049.1(2) The applicant must successfully complete the Fundamentals of Land Surveying examination. The applicant may take the Fundamentals of Land Surveying examination any time after the education and experience requirements described above are completed.

1049.1(3) The applicant must successfully complete the Principles and Practice of Land Surveying examination. An applicant may take the Principles and Practice of Land Surveying examination after passing the Fundamentals of Land Surveying examination.

1049.1(4) The applicant satisfies the qualifying experience requirements set forth in this chapter.

1049.1(5) The applicant must successfully complete the Iowa-specific land surveying examination administered by the board.

1049.1(6) Work project description. A complete application includes a statement of approximately 200 words describing a significant project on which the applicant worked closely during the last 12 months. The statement describes the applicant's degree of responsibility for the project and identifies the project's owner and its location. The statement is signed and dated. The criteria the board uses in evaluating the acceptability of the project as qualifying experience for the applicant includes, but is not limited to, the following:

a. The degree to which the project and the experience described has progressed from assignments typical of initial assignments to those more nearly expected of a licensed professional;

b. The scope and quality of the professional tutelage experienced by the applicant;

c. The technical decisions required of the applicant in the project; and

d. The professional decisions required of the applicant.

The board reserves the right to contact the employer and the person providing tutelage on the project for information about the project experience presented to the applicant.

1049.1(7) References.

a. An applicant for the Principles and Practice of Land Surveying examination will submit a minimum of three references, on forms provided by the board, in accordance with the following:

(1) The references will be from licensed professional land surveyors.

(2) If the applicant has had more than one supervisor, at least two of the references are from a supervisor of the applicant.

(3) If an applicant has had professional experience under more than one employer, the applicant provides references from individuals with knowledge of the work performed under a minimum of two employers.

(4) The board reserves the right to contact employers for information about the applicant's professional experience and competence or to request additional references.

b. An applicant for the Fundamentals of Land Surveying examination will provide three references on forms provided by the board.

1049.1(8) Education and experience requirements. The board requires the minimum number of years set forth on the following chart before an applicant may take either the Fundamentals of Land Surveying or the Principles and Practice of Land Surveying examination. To determine the total years to become licensed as a land surveyor in Iowa, column 2 is added to column 1.

EXPERIENCE REQUIREMENTS		
If the applicant's educational level was:	The applicant must have the following years of experience prior to taking the Fundamentals of Land Surveying examination and the Principles and Practice examination:	The applicant must have the following additional years of experience before the board will issue a license in land surveying:*
A college program with fewer than nine credit hours of surveying [subrule 5.1(1)]		
Two-year degree	4	4
Four-year degree	2	4
Graduate degree	1	4
A college program with nine or more credit hours of surveying		
Two-year degree	0	4
Four-year degree	0	4
Graduate degree	0	4

*This allows applicants to take the Principles and Practice of Land Surveying examination and Iowa State Specific Land Surveying examination during this time period.

1049.1(9) Practical experience requirements. Practical land surveying experience, of which a minimum of one-half shall be field experience, is required prior to licensing. All practical experience must occur after high school graduation and be under the tutelage of a professional land surveyor.

a. Quality. Experience will demonstrate that the applicant has developed technical skill and initiative in the correct application of surveying principles. For the purposes of this chapter, one year of experience shall consist of 1,872 hours of full- or part-time employment, as attested to by the applicant's references. An applicant may use a maximum of 1,872 hours in any one 12-month period to satisfy the experience requirements. Full-time students, as defined by the student's school, may not, simultaneously, be considered full-time employees for the purposes of this chapter.

b. Scope. Experience will be of sufficient breadth and scope to ensure that the applicant has attained reasonably well-rounded professional competence in land surveying. For purposes of this rule, field experience is considered of sufficient breadth and scope if the applicant conducts research for boundary surveys, conducts boundary monument recovery field work, gathers field information necessary for boundary line recovery, analyzes all collected boundary recovery field data, establishes land surveying monuments in the field, prepares land surveying documents, as defined in this chapter, and writes property descriptions.

c. Progression. The record of experience will indicate successive and continued progress from initial work of simpler character to recent work of greater complexity and higher degree of responsibility.

d. Advanced education and military experience. An applicant's advanced education, military experience, or both will be reviewed to determine if they are applicable toward the statutory requirements for experience.

e. Joint applications. Applicants requesting licensure both as professional engineers and professional land surveyors must submit a history of professional experience in both fields. Such histories will be considered separately on a case-by-case basis. The board does not grant full credit for concurrent experience in both professions.

1049.1(10) Examinations. The board prepares and grades the Iowa State Specific Land Surveying examination administered to professional land surveyor candidates. All other examinations are uniform examinations prepared and graded by the NCEES. The board may negotiate an agreement with an examination service to administer the examinations to applicants approved by the board, in which case applicants pay examination fees directly to the service.

An applicant who has failed two consecutive examinations of the state-specific portion of the professional land surveying examination is not allowed to retake the state-specific portion for one year.

a. Materials permitted in examination room. For security reasons, applicants shall comply with requirements regarding materials permitted in the examination room as issued by the NCEES and provided to candidates prior to the examination.

b. Release of examination results. Results of any examination are only reported as pass or fail, except that the candidate who fails an examination may be provided with the candidate's converted score and a diagnostic report indicating areas of weakness, as available.

[**ARC 7668C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/24/26]

481—1049.2(542B) Requirements for licensure by comity. A person holding a certificate of licensure to engage in the practice of land surveying issued by a proper authority of a jurisdiction or possession of the United States, the District of Columbia, or any foreign country, based on requirements that do not conflict with the provisions of Iowa Code section 542B.14 and of a standard not lower than that specified in the applicable licensure Act, may, upon application and successful completion of the Iowa State Specific Land Surveying examination, be licensed without further examination. Comity applicants are governed by the same standards as are required of Iowa applicants.

1049.2(1) *References.* An applicant for licensure by comity shall submit one or more professional land surveyor references on forms provided by the board to verify the number of years of satisfactory experience required with the applicant's level of education. The board reserves the right to contact employers for information about the applicant's professional experience and competence.

1049.2(2) *Comity application process.*

a. The applicant will provide proof of active land surveying licensure in another jurisdiction and be in good standing with that jurisdiction's licensing authority.

b. The applicant for licensure by comity from a jurisdiction other than Iowa will satisfy the education and experience requirements as set forth in Iowa Code section 542B.14 and rule 481—1049.1(542B) for licensure by examination.

c. The applicant needs to successfully complete the Fundamentals of Land Surveying examination.

d. The applicant needs to successfully complete the Principles and Practice of Land Surveying examination.

While the board will consider evidence presented by a comity applicant on non-NCEES examinations successfully completed in a foreign country, the non-NCEES examination will be compared with the appropriate NCEES examination. A non-NCEES professional examination, for instance, must be designed to determine whether a candidate is minimally competent to practice professional land surveying. The examination must be written, objectively graded, verifiable, and developed and validated in accordance with the testing standards of the American Psychological Association or equivalent testing standards. Free-form essays and oral interviews are not equal or superior to NCEES examinations for reasons including the subjective nature of such procedures, lack of verifiable grading standards, and heightened risk of inconsistent treatment.

e. The applicant must successfully complete an Iowa State Specific Land Surveying examination administered by the board.

1049.2(3) *Substantial equivalency.* Pursuant to Iowa Code section 546.10(8), the board may grant a comity application for licensure as a professional land surveyor if the board concludes that the applicant has met or exceeded all requirements for licensure applicable to initial applicants in Iowa, other than the sequence in which experience must be attained.

[**ARC 7668C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/24/26]

481—1049.3(542B,272C) Licensure by verification. In addition to the requirements of rule 481—501.4(272C), professional land surveying candidates applying for an Iowa license by verification must pass the Iowa State Specific Land Surveying examination prior to being issued a license. The board will issue a temporary license that is valid for a period of three months to professional land surveying candidates who have not yet passed the Iowa State Specific Land Surveying examination prior to their application. The professional land surveying candidate may request one renewal of the temporary license for an additional period of three months.

This rule is intended to implement Iowa Code section 272C.12.

[**ARC 7668C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/24/26]

These rules are intended to implement Iowa Code sections 542B.2, 542B.13, 542B.14, 542B.15 and 542B.20.

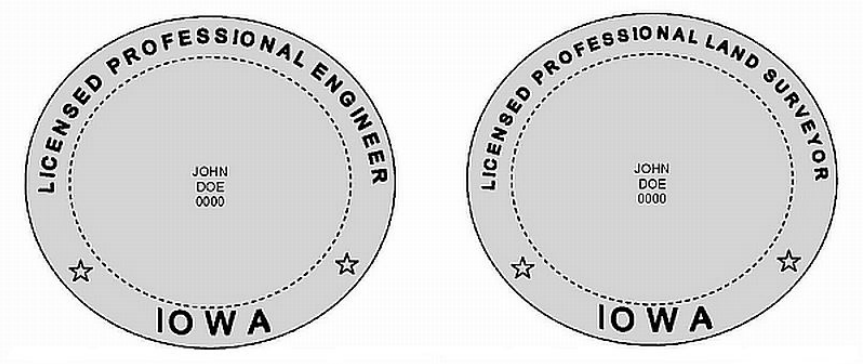
CHAPTER 1050
SEAL AND CERTIFICATE OF RESPONSIBILITY

[Prior to 11/14/01, see 193C—1.30(542B)]
[Prior to 6/24/26, see Engineering and Land Surveying Examining Board[193C] Ch 6]

Chapter rescission date pursuant to Iowa Code section 17A.7: 4/10/29

481—1050.1(542B) Seal and certificate of responsibility.

1050.1(1) The seal, under Iowa Code section 542B.16, should substantially conform to the samples shown below:



1050.1(2) The word "licensed" may be added but is not required on the seal. Neither the word "registrant" nor "registered" may be used on the seal.

1050.1(3) The certification block, under Iowa Code section 542B.16(2), on engineering or land surveying documents submitted to a client or any public agency, hereinafter referred to as the official copy (or official copies), appears on the first page or attached cover sheet. A certification block should be provided for the licensee in responsible charge and for each professional consultant contributing to the submission. In lieu of each contributing professional consultant providing a certification block on the front page or attached cover sheet for application of a seal, a table shall be provided that identifies the contributing professionals and where their respective certification blocks can be found within the document. The seal and original signature only need to be applied to a final submission. Each official copy (or official copies) of a submission shall be stapled, bound or otherwise attached together so as to clearly establish the complete extent of the submission. Each certification block shall display the seal of the licensee and designate the portion of the submission for which that licensee is responsible, so that responsibility for the entire submission is clearly established by the combination of the stated seal responsibilities. Any nonfinal submission of an engineering or land surveying document to a client or public agency shall be clearly labeled "preliminary" or "draft."

The engineering certification block shall conform to the wording in the sample shown below:

SEAL	I hereby certify that this engineering document was prepared by me or under my direct personal supervision and that I am a duly licensed Professional Engineer under the laws of the State of Iowa. _____ (signature) (date) Printed or typed name License number _____ My license renewal date is December 31, _____. Pages or sheets covered by this seal: _____ _____ _____

The land surveying certification block shall conform to the wording in the sample shown below. For maps or acquisition plats prepared from public records or previous measurements by others, the following land surveying certification block may be modified by removing the phrase "and the related survey work was performed."

SEAL	I hereby certify that this land surveying document was prepared and the related survey work was performed by me or under my direct personal supervision and that I am a duly licensed Professional Land Surveyor under the laws of the State of Iowa. _____ (signature) (date) Printed or typed name License number _____ My license renewal date is December 31, _____. Pages or sheets covered by this seal: _____ _____ _____

1050.1(4) Except for the original signature and handwritten date in contrasting ink color, the information requested in each certification block must be typed or legibly printed in permanent ink on each official copy. The seal implies responsibility for the entire submission unless the area of responsibility is clearly identified in the information accompanying the seal.

1050.1(5) It is the responsibility of the licensee to forward copies of all revisions to the submission, which then become a part of the official copy of the submission. Such revisions shall be identified as applicable on a certification block or blocks with professional seals applied so as to clearly establish professional responsibility for the revisions.

1050.1(6) The licensee is responsible for the custody and proper use of the seal. Improper use of the seal is grounds for disciplinary action.

1050.1(7) Computer-generated seals may be used on final original documents.

1050.1(8) Secure electronic signature. An electronic signature as defined in or governed by Iowa Code chapter 554D meets the signature requirements of this rule if it is protected by a security procedure, as defined in Iowa Code section 554D.103(14), such as digital signature technology. It is the licensee's responsibility to ensure, prior to affixing an electronic signature to an engineering or land surveying document, that security procedures are adequate to (1) verify the signature is that of a specific person and (2) detect any changes that may be made or attempted after the signature of the specific person is affixed.

This rule is intended to implement Iowa Code sections 542B.13, 542B.15, 542B.20 and 542B.30.

CHAPTER 1051
PROFESSIONAL DEVELOPMENT

[Prior to 11/14/01, see 193C—Chapter 3]
[Prior to 6/24/26, see Engineering and Land Surveying Examining Board[193C] Ch 7]

Chapter rescission date pursuant to Iowa Code section 17A.7: 4/10/29

481—1051.1(542B,272C) General statement. Completion of continuing education for professional development is a condition of licensure renewal for each licensee.
[**ARC 7670C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/24/26]

481—1051.2(542B,272C) Definitions. As used in these rules, the following definitions apply:

"College or unit semester or quarter hour" means the unit of credit given for advanced technical and graduate courses from universities with programs accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology, Inc. or other related college course qualified in accordance with this chapter.

"Continuing education" means education obtained by a licensee in order to maintain, improve, or expand skills and knowledge obtained prior to initial licensure or to develop new and relevant skills and knowledge.

"Continuing education unit (CEU)" means the unit of credit customarily granted for continuing education courses. One continuing education unit is given for ten hours of class in an approved continuing education course.

"Course or activity" means any qualifying course or activity with a clear purpose and objective that will maintain, improve, or expand the skills and knowledge relevant to the licensee's field of practice.

"Independent study" means any course or activity in which there is no real-time interaction between the training provider and the licensee, such as courses offered on the Internet.

"Professional development hour" or *"PDH"* means a contact hour of instruction or presentation and is the common denominator for other units of credit.
[**ARC 7670C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/24/26]

481—1051.3(542B,272C) Professional development hours.

1051.3(1) *Allowable activities.* Licensees may earn professional development hours by participating in a variety of activities. The following is a list of allowable activities and is not all-inclusive:

a. Successful completion of college courses;

b. Successful completion of continuing education courses;

c. Successful completion of correspondence, televised, videotaped, and other short courses or tutorials;

d. Successful completion of courses online via the Internet;

e. Active participation in seminars, in-house courses, workshops, technical committees of professional engineering organizations, and professional conventions;

f. Teaching or instructing in the activities set forth above if such teaching or instruction is outside of the licensee's regular employment duties and if the licensee can document that such teaching activity or instruction was newly developed and presented for the first time;

g. Authoring published papers, articles or books;

h. Obtaining patents;

i. Attendance at online video courses;

j. Participation on an NCEES examination development committee;

k. Attendance at engineering college graduate research seminars.

All of the allowable activities listed above must adhere to this chapter to be accepted by the board.

1051.3(2) *PDH conversion.* The following chart illustrates the conversion from other units to PDH:

ACTIVITY	PDH
1 College or unit semester hour.	45 PDH per semester hour

ACTIVITY	PDH
Credit for qualifying college or community college courses will be based upon course credit established by the college.	
1 College or unit quarter hour. Credit for qualifying college or community college courses will be based upon course credit established by the college.	30 PDH per quarter hour
1 Continuing education unit as defined in rule 481—1051.2(542B,272C).	10 PDH
1 Contact hour attendance in a class, course, seminar, or professional or technical presentation made at a meeting, in-house training session, convention or conference. Credit for qualifying seminars and workshops will be based on 1 PDH unit for each hour of attendance. Attendance at qualifying programs presented at professional or technical society meetings will earn PDH units for the actual time of each program, excluding time for breaks and meals.	1 PDH per hour
1 Contact hour teaching a class, course, seminar, or a professional or technical presentation. a. Teaching credit is valid for teaching a course or seminar for the first time only. b. Teaching credit does not apply to full-time faculty. c. Teaching credit is limited to 10 PDH per biennial renewal period.	2 PDH per hour
Each published paper, article, or book. Credit for published material is earned in the biennium of publication.	10 PDH per publication
Active participation in a professional or technical society. Credit for active participation in professional and technical societies is limited to 2 PDH per renewal period per organization and requires that a licensee serve as an officer or actively participate in a committee of the organization. PDH credits are earned for a minimum of one year's service.	2 PDH per organization per renewal period
Each patent. Credit for patents is earned in the biennium the patent is issued.	10 PDH per patent
Participation on an NCEES examination development committee or Iowa State Specific Land Surveying examination development committee, including the writing and grading of examination questions, writing reference materials for examinations, and evaluating past examination question performance. Licensees may claim a maximum of 30 PDH per biennial renewal period for participation in this activity.	2 PDH per hour of committee participation

1051.3(3) *Determination of credit.* The board has final authority with respect to approval of courses, credit, PDH value for courses, and other methods of earning credit. No preapproval of offerings will be issued. The board may deny any renewal or reinstatement upon a determination of insufficient or unsatisfactory continuing education.

[**ARC 7670C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/24/26]

481—1051.4(542B,272C) Professional development guidelines. Continuing education activities that satisfy the professional development criteria are those that relate to engineering or land surveying practice or management. It is recognized that an engineer's specialized skills must have as their foundation a fundamental knowledge of chemistry, physics, mathematics, graphics, computations, communication, and humanities and social sciences. However, continuing education in the fundamentals alone will not be sufficient to maintain, improve, or expand engineering skills and knowledge. For that reason, licensees will be limited in their use of fundamental courses in proportion to ABET criteria for accreditation of engineering curricula. Continuing education activities are classified as:

1051.4(1) *Group 1 activities.* Group 1 activities are intended to maintain, improve, or expand skills and knowledge obtained prior to initial licensure. The following chart illustrates the maximum PDH allowable per renewal period for Group 1 activities:

Type of course/activity	Number of PDH allowed per renewal period
Mathematics and basic sciences Math beyond Trigonometry Basic sciences: Chemistry, Physics, Life sciences, Earth sciences	10 PDH
Engineering sciences	10 PDH

Type of course/activity	Number of PDH allowed per renewal period
Mechanics, Thermodynamics, Electrical and electrical circuits, Materials science, *Computer science *Courses in computer science will generally be considered a part of the Engineering Sciences category in the ABET criterion and, therefore, limited to a maximum of 10 PDH per renewal period.	
Humanities and social sciences Philosophy, Religion, History, Literature, Fine arts, Sociology, Psychology, Political science, Anthropology, Economics, Foreign languages, Professional ethics, Social responsibility	5 PDH
Engineering-related courses Accounting, Industrial management, Finance, Personnel administration, Engineering economy, English, Speech, *Computer applications *The computer is considered a tool available to engineers and land surveyors. Courses related to computer drafting and general computer applications are generally not applicable to either Group 1 or Group 2 activities. Computer courses that relate to engineering or land surveying design applications, such as structural design/analysis software, are considered acceptable.	10 PDH

1051.4(2) *Group 2 activities.* Group 2 activities are intended to develop new and relevant skills and knowledge. Credit for participation in activities in the group is unlimited, subject to maximum carryover. Typical areas include postgraduate level engineering science or design, new technology, environmental regulation and courses in management of engineering or land surveying activity (regular work duties do not qualify).

1051.4(3) *Independent study.* To be readily acceptable by the board, independent study as defined in rule 481—1051.2(542B,272C) meets all of the following criteria:

a. A written evaluation process is completed by the independent study provider; and

b. A certificate of satisfactory completion is issued by the provider; and

c. An evaluation assessment is issued to the licensee by the provider; and

d. Documentation supporting such independent studies is maintained by the licensee and provided to the board as required by subrule 1051.8(2).

A maximum of ten professional development hours of independent study activity will be allowed per biennium per licensee.

1051.4(4) *Exclusions.* Types of continuing education activities that will be excluded from allowable continuing education are those in which it is not evident that the activity relates directly to the licensee's practice of professional engineering or land surveying or the management of the business concerns of the licensee's practice, or that do not comply with the board's administrative rules. Examples of activities that do not qualify as continuing education include the following:

a. Regular employment;

b. Toastmasters club meetings;

c. Service club meetings or activities;

d. Personal estate planning;

e. Banquet speeches unrelated to engineering;

f. Professional society business meeting portions of technical seminars;

g. Financial planning/investment seminars;

h. Foreign travel not related to engineering study abroad;

i. Personal self-improvement courses;

j. Real estate licensing courses;

k. Stress management;

l. Trade shows;

m. Peer review;

n. Accreditation review;

o. Independent study or self-study that does not meet the requirements of subrule 1051.4(3);

p. Basic CAD and fundamental computer application courses;

q. Undergraduate engineering seminars.

[**ARC 7670C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/24/26]

481—1051.5(542B,272C) Biennial requirement. The biennial requirement may only be satisfied during the biennium prior to licensure renewal except for the carryover permitted.

1051.5(1) Completion of 30 professional development hours, including at least 2 professional development hours in the area of professional ethics, satisfies the continuing education necessary for biennial licensure renewal in engineering or land surveying. Completion of 40 professional development hours, including 20 professional development hours in engineering and 20 professional development hours in land surveying and at least 4 professional development hours in the area of professional ethics, satisfies the continuing education necessary for biennial licensure renewal for individuals actively licensed in both engineering and land surveying. Up to 15 professional development hours may be carried forward only into the next biennium. For individuals actively licensed in both engineering and land surveying, up to 10 professional development hours for each profession may be carried forward only into the next biennium.

1051.5(2) Inactive licensees are exempt from the continuing education requirements.

1051.5(3) A licensee who is active in one profession and inactive in another is obligated to meet the continuing education requirements for licensure in the profession in which active licensure is maintained.

1051.5(4) A new licensee is obligated to satisfy one-half of the biennial continuing education requirement at the first renewal following initial licensure. Professional engineers and professional land surveyors licensed by comity are not new licensees and are not eligible for the one-half continuing education requirement.

[**ARC 7670C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/24/26]

481—1051.6(542B,272C) Exemptions.

1051.6(1) The continuing education requirements may be reduced in proportion to the following:

a. Periods of time that the licensee serves honorably on active duty in the military services;

b. Periods of time that the licensee is licensed in and a resident of another state or district having continuing education requirements for professional engineering or land surveying and meets all requirements of that state or district for practice therein;

c. Periods of time that the licensee is a government employee working as a professional engineer or professional land surveyor and assigned to duty outside the United States; or

d. Documented periods of the licensee's active practice and absence from the United States that are approved by the board.

1051.6(2) No exemption will be granted without a written request from the licensee with documentation of the period of absence.

[**ARC 7670C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/24/26]

481—1051.7(542B,272C) Hardships or extenuating circumstances. Upon a written request to the board, the board may, in individual cases involving hardship or extenuating circumstances, grant waivers of the continuing education requirements for a period of time not to exceed one year.

[**ARC 7670C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/24/26]

481—1051.8(542B,272C) Reports, records, and compliance review. At the time of application for license renewal, each licensee reports, on a form provided by the board, the number of professional development hours achieved during the preceding biennium.

1051.8(1) *Recordkeeping.* Maintaining records to be used to support professional development hours claimed is the responsibility of the licensee. It is recommended that each licensee keep a log showing the type of activity claimed, sponsoring organization, location, duration, instructor's or speaker's name, and PDH credits earned. The licensee is obligated to maintain documentation of reported PDHs for two years after the period for which the form was submitted.

1051.8(2) *Compliance review.* The board may select licensees for review of compliance with continuing education on a random basis or upon receiving information regarding noncompliance and will review compliance with continuing education for reinstatement of lapsed or inactive licenses. Each licensed

board member is audited for PDH compliance for a biennium that is within each member's respective three-year appointment term. For each PDH claimed, licensees chosen for compliance review will furnish:

a. Proof of attendance. Attendance verification records in the form of completion certificates, or other documents supporting evidence of attendance;

b. Verification of the hours claimed; and

c. Information about the course content.

1051.8(3) *Compliance review sanctions.* Any discrepancy between the number of PDHs reported and the number of PDHs actually supported by documentation may result in a disciplinary review. If, after the disciplinary review, the board disallows any PDH, or the licensee has failed to complete the required PDHs, the licensee has 60 days from board notice to either provide further evidence of having completed the PDHs disallowed or remedy the discrepancy by completing the required number of PDHs (provided that such PDHs are not used again for the next renewal). Extension of time may be granted on an individual basis if requested by the licensee within 30 days of notification by the board. If the licensee fails to comply with the requirements of this subrule, the licensee may be subject to disciplinary action. If the board finds, after proper notice and hearing, that the licensee willfully disregarded these requirements or falsified documentation of required PDHs, the licensee may be subject to disciplinary action as further identified in 481—paragraphs 1053.3(1)*"c"* and 1053.3(3)*"e."*

1051.8(4) *Out-of-state residents.* A person licensed to practice engineering or land surveying or both in Iowa shall be deemed to have complied with the continuing education requirement of this state during the periods that the person is a resident of another state or district that has a continuing education requirement for engineers or land surveyors and the individual meets all requirements of that state or district for practice therein. However, if selected for compliance review, such individuals must provide documentation as specified in subrule 1051.8(2).

[**ARC 7670C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/24/26]

These rules are intended to implement Iowa Code sections 272C.2, 272C.3, 542B.6, and 542B.18.

CHAPTER 1052
PROFESSIONAL CONDUCT OF LICENSEES

[Prior to 11/14/01, see 193C—Chapter 4]
[Prior to 6/24/26, see Engineering and Land Surveying Examining Board[193C] Ch 8]

Chapter rescission date pursuant to Iowa Code section 17A.7: 4/10/29

481—1052.1(542B) General statement. In order to establish and maintain a high standard of integrity, skills and practice in the professions of engineering and land surveying, and to safeguard the life, health, property and welfare of the public, the following code of professional conduct is binding upon every person holding a certificate of licensure as a professional engineer or professional land surveyor in this state. The code of professional conduct is an exercise of the police power vested in the board by the Acts of the legislature.

[**ARC 7671C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/24/26]

481—1052.2(542B) Code of professional conduct. All persons licensed under Iowa Code chapter 542B are charged with having knowledge of the existence of this code of professional conduct and are expected to be familiar with its provisions, to understand them, and to abide by them. Such knowledge includes the understanding that the practices of engineering and land surveying are a privilege, as opposed to a right, and the licensee shall be forthright and candid in statements or written response to the board or its representatives on matters pertaining to professional conduct.

1052.2(1) *Responsibility to the public.* Licensees will conduct their professional practices in a manner that will protect life, health and property and enhance the public welfare. If their professional judgment is overruled under circumstances where safety, health and welfare of the public are endangered, they shall inform their employer or client of the possible consequences, notify such other proper authority as may be appropriate, and withdraw from further services on the project.

Licensees may neither approve nor certify engineering or land surveying documents that may be harmful to the public health and welfare and that are not in conformity with accepted engineering or land surveying standards.

1052.2(2) *Competency for assignments.* Licensees may perform engineering or land surveying assignments only when qualified by education or experience in the specific technical field of professional engineering or professional land surveying involved. Licensees shall engage experts or advise that experts and specialists be engaged whenever the client's or employer's interests are best served by such service.

Licensees may accept an assignment on a project requiring education or experience outside their field of competence, but only to the extent that their services are restricted to those phases of the project in which they are qualified.

1052.2(3) *Truth in reports and testimony.* Licensees, when serving as expert or technical witnesses before any court, commission, or other tribunal, may express an opinion only when it is founded upon adequate knowledge of the facts in issue, upon a background of technical competence in the subject matter, and upon honest conviction of the accuracy and propriety of their testimony. Under these circumstances, the licensee must disclose inadequate knowledge.

Licensees shall be objective and truthful in all professional reports, statements or testimony. All relevant and pertinent information shall be included in such reports, statements or testimony. Licensees shall avoid the use of statements containing a material misrepresentation of fact or omitting a material fact.

1052.2(4) *Conflict of interest.* Licensees shall:

a. Not issue statements, criticisms or arguments on engineering or land surveying matters connected with public policy that are influenced or paid for by an interested party, or parties, unless they have prefaced their comments by explicitly identifying themselves, by disclosing the identities of the party or parties on whose behalf they are speaking, and by revealing the existence of any pecuniary interest.

b. Avoid all known conflicts of interest with their employers or clients and, when unforeseen conflicts arise, shall promptly inform their employers or clients of any business association, interest, or circumstances that could influence judgment or the quality of services.

c. Not accept compensation, financial or otherwise, from more than one party for services on the same project, unless the circumstances are fully disclosed and agreed to by all interested parties.

d. Act in professional matters for each employer or client as faithful agents or trustees and maintain full confidentiality on all matters in which the welfare of the public is not endangered.

1052.2(5) *Ethics.* Licensees shall conduct their business and professional practices of engineering and land surveying in an ethical manner. In addition to the provisions of this chapter, the board will consider, although not necessarily be bound by, the ethical standards that address public protection issues adopted by a recognized state or national engineering or land surveying organization, such as the National Society of Professional Engineers or the National Society of Professional Surveyors.

1052.2(6) *Unethical or illegal conduct.*

a. Business practices. Licensees shall not:

(1) Pay or offer to pay, either directly or indirectly, any commission, percentage, brokerage fee, political contribution, gift, or other consideration to secure work, except to a bona fide employee or bona fide, established commercial or marketing agency retained by them or to secure positions through employment agencies.

(2) Engage in any discriminatory practice prohibited by law and shall, in the conduct of their business, employ personnel upon the basis of merit.

(3) Solicit or accept gratuities, directly or indirectly, from contractors, their agents, or other parties dealing with their clients or employers in connection with work for which they are responsible.

(4) Solicit or accept an engineering or land surveying contract from a governmental body when a principal or officer of the licensee's organization serves as an elected, appointed, voting or nonvoting member of the same governmental body that is letting the contract. For purposes of this subparagraph, "governmental body" means a board, council, commission, or similar multimembered body. A licensee would not violate this provision, however, if the principal or officer of the licensee's organization who serves as a member of the governmental body plays no role in the solicitation or acceptance of the contract, and the contract would be legally permissible under applicable Iowa law, including but not limited to Iowa Code sections 68B.3, 279.7A, 331.342, and 362.5.

(5) Associate with, or permit the use of their names or firms in a business venture by, any person or firm that they know, or have reason to believe, is engaging in business or professional practice of a fraudulent or dishonest nature.

(6) Misrepresent pertinent facts concerning employers, employees, associates, firms, joint ventures, or past accomplishments in brochures or other presentations incident to the solicitation of employment.

b. Individual professional conduct. Licensees shall not:

(1) Use association with nonengineers, corporations or partnerships as "cloaks" for unethical acts.

(2) Violate any local, state or federal criminal law in the conduct of professional practice.

(3) Violate licensure laws of any state or territory.

(4) Affix their signatures or seals to any plans, plats or documents dealing with subject matter in which those licensees lack competence, nor to any plan, plat or document not prepared under their direct personal direction and control.

(5) Falsify their qualifications or permit misrepresentation of their or their associates' qualifications. They shall not misrepresent or exaggerate their responsibility in or for the subject matter of prior assignments.

c. Real property inspection reports. Licensees shall not:

(1) Represent themselves as licensed professional land surveyors or professional engineers on real property inspection reports (e.g., mortgage surveys).

(2) Place their firm names, logos, or title blocks on real property inspection reports (e.g., mortgage surveys).

[**ARC 7671C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/24/26]

481—1052.3(542B) Reporting of acts or omissions. Licensees shall report acts or omissions by a licensee that constitute negligence or carelessness. For the purposes of these rules, "negligence or carelessness" means demonstrating unreasonable lack of skill in the performance of engineering or land surveying services by failure of a licensee to maintain a reasonable standard of care in the licensee's practice of

engineering or land surveying. In the evaluation of reported acts or omissions, the board determines if the engineer or land surveyor has applied learning, skill and ability in a manner consistent with the standards of the professions ordinarily possessed and practiced in the same profession at the same time. Standards referred to in the immediately preceding sentence shall include any minimum standards adopted by this board and any standards adopted by recognized national or state engineering or land surveying organizations.

[**ARC 7671C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/24/26]

481—1052.4(542B) Standards of integrity. Licensees shall:

1. Answer all questions of a duly constituted investigative body of the state of Iowa concerning alleged violations by another person or firm.
2. Admit and accept their own errors and not distort or alter the facts to justify their own decisions when proven wrong.
3. Present information to the engineering and land surveying examining board in writing and cooperate with the board in furnishing further information or assistance required by the board, if a licensee knows or has reason to believe that another person or firm may be in violation of Iowa law or rules regarding ethics or conduct of professional engineering or professional land surveying practice.
4. Licensees cannot assist in the application of an individual they know is unqualified for licensure by reason of education, experience or character.

[**ARC 7671C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/24/26]

481—1052.5(542B) Engineering and land surveying services offered by business entities.

1052.5(1) *Purpose of rule.* The purpose of this rule is to protect the public from misleading or deceptive advertising by business entities that hold themselves out to the public as providing professional engineering or professional land surveying services and to guard against the unlicensed practice of professional engineering or professional land surveying by persons who are not properly licensed to perform such services in the state of Iowa. This rule shall not be construed as restricting truthful advertising by business entities that appropriately place professional engineers or professional land surveyors in responsible charge of the professional services offered to and performed for the public.

1052.5(2) *Definitions.* For purposes of this rule, the following definitions apply:

"Business entity" includes corporations, partnerships, limited liability companies, persons using fictitious or assumed names, or any other form of entity that may conduct business.

"In responsible charge" means the same as defined in Iowa Code section 542B.2(6). Indications of being in responsible charge include:

1. Obtaining or setting the project or service parameters or criteria.
2. Dictating the manner and methods by which professional services are performed.
3. Establishing procedures for quality control and authority over professional services in a manner that ensures that the professional licensee is in control of the work and of all individuals performing the work under the licensee's supervision.
4. Spending sufficient time directly performing the work or directly supervising the work to ensure that the licensee is familiar with all significant details of the work.
5. Maintaining familiarity with the capabilities and methods of the persons performing professional services, and providing adequate training for all persons working under the licensee's direct supervision.
6. Sustaining readily accessible contact with all persons performing professional services by direct physical proximity, or as appropriate in the licensee's professional judgment, by frequent communication, in clear and complete verbal and visual form, of information about the work being performed.
7. Specifically pertaining to land surveying, reviewing all field evidence and making all final decisions concerning the placement of survey monuments and surveyed lines.

"Professional services" includes professional engineering and professional land surveying services, as defined in Iowa Code sections 542B.2(5), 542B.2(8) and 542B.27, as applicable to the fact situation at issue.

1052.5(3) *General rule.* Business entities offering professional services to the public must be owned, managed, or appropriately staffed by one or more professional engineers or professional land surveyors, as applicable, who are in responsible charge of all professional services offered and performed.

1052.5(4) *Appropriate staffing.* The nature and extent of appropriate staffing by licensed professionals is necessarily a fact-based determination dependent on such factors as the nature and volume of professional services offered and performed, the risk of unlicensed practice, the impact of the professional services on the life, health and safety of the public and the public's property, and the representations made to the public. While the legal nature of the business entity's relationship (e.g., owner, manager, employee) with a licensed professional engineer or professional land surveyor is not necessarily determinative, licensed professionals must be in responsible charge of all professional services offered and performed.

1052.5(5) *Professional engineering or professional land surveying firms.* Business entities holding themselves out to the public as professional engineering or professional land surveying firms cannot satisfy the requirements of this rule solely by retaining, through employment or contract, a licensed professional on an as-needed, occasional or consulting basis. Such an arrangement fosters unlicensed practice by the unlicensed owners or managers who place themselves in charge of determining when a licensed professional is needed. When a business entity conveys to the public that it is organized as a firm of licensed professionals, the public has a right to expect that the firm retains the full-time services of one or more licensed professionals. "Full-time" in this context is not measured by hours, but by a licensee's sustained, meaningful, and effective, direct supervision of all professional services performed, whether the firm performs services, for example, 20 hours per month or 80 hours per week.

1052.5(6) *Restricted services.* Business entities that do not generally hold themselves out to the public as professional engineering or professional land surveying firms, but that do offer some type of professional engineering or professional land surveying service, shall be appropriately staffed by licensed professionals in a manner that:

a. Corresponds with the representations made to the public.

b. Places licensed professionals in responsible charge of all professional services performed.

c. Guards against the unlicensed practice of professional engineering or professional land surveying.

1052.5(7) *Permitted practices.*

a. Nothing in this rule is intended to prevent an individual or business entity from truthfully offering services as a project manager, administrator, or coordinator of a multidisciplinary project.

b. Nothing in this rule prevents a joint venture arrangement between an engineering or land surveying firm and a business entity that is not owned, managed, or staffed by professional engineers or professional land surveyors, in which the venturing entities jointly and truthfully offer professional engineering or professional land surveying services on a project-by-project basis. Licensed professional engineers and professional land surveyors who participate in such arrangements shall ensure that the public is accurately informed as to the nature of all professional services to be performed and by whom the services will be performed.

1052.5(8) *Remedies against licensees.* Licensed professional engineers or professional land surveyors who aid and abet the unlicensed offering or practice of professional engineering or professional land surveying, or who otherwise knowingly participate in a business entity that does not comply with this rule, are engaging in unethical practices that are harmful or detrimental to the public and are subject to disciplinary action by the board.

1052.5(9) *Remedies against business entities and unlicensed individuals.* The board may by order impose civil penalties against any business entity or unlicensed individual that offers or performs professional services in violation of Iowa Code chapter 542B.

[**ARC 7671C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/24/26]

These rules are intended to implement Iowa Code sections 542B.6, 542B.21 and 542B.26 and chapter 272C.

CHAPTER 1053
COMPLAINTS, INVESTIGATIONS AND DISCIPLINARY ACTION

[Prior to 11/14/01, see 193C—Chapter 4]
[Prior to 6/24/26, see Engineering and Land Surveying Examining Board[193C] Ch 9]

Chapter rescission date pursuant to Iowa Code section 17A.7: 4/10/29

481—1053.1(542B) Complaints and investigations.

1053.1(1) *Complaints.* The board, upon receipt of a complaint or upon its own motion pursuant to other evidence received by the board, reviews and investigates alleged acts or omissions that reasonably constitute cause under applicable law or administrative rule for licensee discipline. Complaints may be submitted to the board office via the board's website by members of the public, including clients, business organizations, nonprofit organizations, governmental bodies, licensees, or other individuals or entities with knowledge of possible violations of laws or rules by licensees.

1053.1(2) *Form and content.* A written complaint may be submitted on forms available from the board office and on the board's website. The written complaint shall include the following information:

a. The full name, address, and telephone number of complainant.

b. The full name, address, and telephone number of the individual against whom the complaint is filed.

c. A statement of the facts and circumstances giving rise to the complaint, including a description of the alleged acts or omissions that the complainant believes demonstrate that the respondent has violated or is violating laws or rules enforced by the board.

d. Citation of the statutes and administrative rules allegedly violated by the respondent.

e. Evidentiary supporting documentation.

f. Steps, if any, that have been taken by the complainant to resolve the dispute with the respondent prior to the filing of the complaint.

1053.1(3) *Initial complaint screening.* All written complaints received by the board are initially screened by the board's administrator to determine whether the allegations of the complaint fall within the board's investigatory jurisdiction and whether the facts presented, if true, would constitute a basis for disciplinary action against a licensee. Complaints that are clearly outside the board's jurisdiction, which clearly do not allege facts upon which disciplinary action would be based, or that are frivolous will be referred by the board administrator to the board for closure at the next scheduled board meeting. All other complaints are referred by the board administrator to the board's disciplinary committee for committee review.

1053.1(4) *Investigation of allegations.* In order to determine if probable cause exists for a hearing on the complaint, the board may cause an investigation to be made into the allegations of the complaint. It may refer the complaint to a peer review committee or investigator for investigation, review and report to the board.

1053.1(5) *Informal discussion.* If the board considers it advisable, or if requested by the affected licensee, the board may grant the licensee an opportunity to appear before the board or a committee of the board for a voluntary informal discussion of the facts and circumstances of an alleged violation. The licensee may be represented by legal counsel at the informal discussion. It is not necessary for the licensee to attend the informal discussion. By electing to attend, the licensee waives the right to seek disqualification, based upon personal investigation of a board member or staff, from participating in making a contested case decision or acting as a presiding officer in a later contested case proceeding. Because an informal discussion constitutes a part of the board's investigation of a pending disciplinary case, the facts discussed at the informal discussion may be considered by the board in the event the matter proceeds to a contested case hearing and those facts are independently introduced into evidence. The board may seek a consent order at the time of the informal discussion. If the parties agree to a consent order, a statement of charges will be filed simultaneously with the consent order.

1053.1(6) *Immunity.* Complainants are immune from civil liability under Iowa Code section 272C.8.

1053.1(7) *Role of complainant.* The role of the complainant in the disciplinary process is limited to providing the board with factual information relative to the complaint. A complainant is not party to any disciplinary proceeding that the board may initiate based in whole or in part on information provided by the complainant.

1053.1(8) *Role of the board.* The board does not act as an arbiter of disputes between private parties, nor does the board initiate disciplinary proceedings to advance the private interest of any person or party. The role of the board in the disciplinary process is to protect the public by investigating complaints and initiating disciplinary proceedings in appropriate cases. The board possesses sole decision-making authority throughout the disciplinary process, including the authority to determine whether a case will be investigated, the manner of the investigation, whether a disciplinary proceeding will be initiated, and the appropriate licensee discipline to be imposed, if any.

[**ARC 7672C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/24/26]

481—1053.2(542B) Ruling on the initial inquiry.

1053.2(1) *Dismissal.* If a determination is made by the board that a complaint is without grounds or merit, the complaint will be dismissed. A letter of explanation concerning the decision of the board will be sent to the respondent and the complainant.

1053.2(2) *Requirement of further inquiry.* If determination is made by the board to order further inquiry, the complaint and initial recommendations will be provided to the investigator(s) along with a statement specifying the information deemed necessary.

1053.2(3) *Acceptance of the case.* If a determination is made by the board to initiate disciplinary action, the board may enter into an informal settlement or recommend formal disciplinary proceedings. The board's rules regarding informal settlement are found in rule 481—506.35(17A,272C).

This rule is intended to implement Iowa Code sections 542B.21, 542B.22 and 272C.6.

[**ARC 7672C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/24/26]

481—1053.3(10A,17A,272C,542B) Grounds for discipline. The board has authority pursuant to Iowa Code chapters 10A, 542B, 17A and 272C to impose discipline for violations of those chapters and the rules promulgated thereunder and may initiate disciplinary action against a licensee holding an active, inactive or lapsed license on any of the grounds identified in Iowa Code section 542B.21.

1053.3(1) Fraud or deceit in procuring or attempting to procure an initial, comity, renewal, or reinstated license includes any intentional perversion of or reckless disregard for the truth when an application, or information in support of another's application, is submitted to the board, including:

a. False representation of a material fact, whether by word or by conduct, by false or misleading allegation, or by concealment of that which should have been disclosed.

b. Attempting to file or filing with the board any false or forged record or document, such as a college transcript, diploma or degree, examination report, verification of licensure, or continuing education certificate.

c. Reporting information, such as satisfaction of continuing education, in a false manner, through overt deceit, or with reckless disregard for the truth or accuracy of the information asserted.

d. Otherwise participating in any form of fraud or misrepresentation by act or omission.

1053.3(2) Professional incompetence includes, but is not limited to:

a. A substantial lack of knowledge or ability to discharge professional obligations within the practice of engineering or land surveying.

b. A substantial deviation from the standards of learning or skill ordinarily possessed and applied by other practitioners in the state of Iowa acting in the same or similar circumstances.

c. A failure to exercise the degree of care that is ordinarily exercised by the average practitioner acting in the same or similar circumstances.

d. Failure to conform to the minimum standards of acceptable and prevailing practice of engineering or land surveying in this state, including the land surveying standards set forth in Iowa Code chapters 354 and 355 and 481—Chapters 1055 and 1056.

e. Engaging in engineering or land surveying practices that are outside the technical competence of the licensee without taking reasonable steps to associate with a competent licensee or other steps to ensure competent practice.

f. Any other act or omission that demonstrates an inability to safely practice in a manner protective of the public's interest, including acts or omissions described in rule 481—1052.3(542B).

1053.3(3) Deceptive practices include, but are not limited to, the following:

a. Knowingly making misleading, deceptive, untrue or fraudulent representations in the practice of engineering or land surveying.

b. Use of untruthful or improbable statements in advertisements. Use of untruthful or improbable statements in advertisements includes, but is not limited to, an action by a licensee in making information or intention known to the public that is false, deceptive, misleading or promoted through fraud or misrepresentation.

c. Acceptance of any fee by fraud or misrepresentation.

d. Falsification of business or client records.

e. Submission of false or misleading reports or information to the board, including information supplied in an audit of continuing education or as a condition of probation or in a reference submitted for an examination or a license applicant or in any reports identified in this rule or rule 481—1052.3(542B).

f. Knowingly presenting as one's own the license, signature, or seal of another or of a fictitious licensee, or otherwise falsely impersonating a person holding an engineering or land surveying license.

g. Representing oneself as a professional engineer or professional land surveyor after the license has been suspended, revoked, surrendered, or placed on inactive status or has lapsed.

h. Fraud in representations as to skill or ability.

i. Any violation of Iowa Code section 542B.16 or associated rules in 481—Chapter 1050 involving a licensee's seal or certificate.

1053.3(4) Behaviors and conduct that are unethical or harmful or detrimental to the public include, but are not limited to, the following actions:

a. A violation of the code of professional conduct in 481—Chapter 1052.

b. Verbal or physical abuse, or improper sexual contact, if such behavior occurs within the practice of engineering or land surveying or if such behavior otherwise provides a reasonable basis for the board to conclude that such behavior could occur within such practice and, if so, would place the public at risk.

c. Aiding or abetting a violation of a provision of Iowa Code section 542B.27(1).

1053.3(5) Lack of proper qualifications, as provided in Iowa Code section 272C.3(2)*"b,"* includes but is not limited to:

a. Continuing to practice as an engineer or land surveyor without satisfying the continuing education required for license renewal.

b. Violation of Iowa Code section 542B.21(4) that adversely affects the licensee's ability to practice in a safe and competent manner.

1053.3(6) Professional misconduct, which includes, but is not limited to, revocation, suspension, or other disciplinary action taken against a licensee by a licensing authority of this state or another state, territory, or country. "Disciplinary action" includes a voluntary surrender of a license to resolve a pending disciplinary investigation or proceeding. A stay by an appellate court does not negate this requirement; however, if such disciplinary action is overturned or reversed by a court of last resort, discipline by the board based solely on such action shall be vacated. A licensee shall notify the board of such disciplinary action within 30 days of the disciplinary action.

1053.3(7) Willful or repeated violations include the willful or repeated violation or disregard of any provision of Iowa Code chapter 272C or 542B or any administrative rule adopted by the board in the administration or enforcement of such chapters.

1053.3(8) Conviction of felony includes the conviction of a felony under the laws of the United States, of any state or possession of the United States, or of any other country. The board will vacate any discipline based solely on a conviction, if that conviction is overturned or reversed by a court of last resort.

[**ARC 7672C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/24/26]

481—1053.4(542B) Disciplinary findings and sanctions. The board's decision may include one or more of the following findings or sanctions:

1. Exoneration of respondent.
2. Revocation of license.
3. Suspension of license until further order of the board or for a specified period.
4. Nonrenewal of license.
5. Prohibition, until further order of the board or for a specific period, of engaging in specified procedures, methods or acts.
6. Probation.
7. Requirement of additional education or training.
8. Requirement of reexamination.
9. Issuance of a reprimand.
10. Imposition of civil penalties.
11. Issuance of citation and warning.
12. Desk review.
13. Other sanctions allowed by law as may be appropriate.

[**ARC 7672C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/24/26]

481—1053.5(272C) Civil penalties. In addition to other disciplinary options, the board may assess civil penalties of up to $1,000 per violation against licensees who violate any provision of rule 481—1053.3(10A,17A,272C,542B). Factors the board may consider when determining whether and in what amount to assess civil penalties include:

1. Whether other forms of discipline are being imposed for the same violation.
2. Whether the amount imposed will be a substantial economic deterrent to the violation.
3. The circumstances leading to the violation.
4. The severity of the violation and the risk of harm to the public.
5. The economic benefits gained by the licensee as a result of the violation.
6. The interest of the public.
7. Evidence of reform or remedial action.
8. Time elapsed since the violation occurred.
9. Whether the violation is a repeat offense following a prior cautionary letter, disciplinary order, or other notice of the nature of the infraction.
10. The clarity of the issue involved.
11. Whether the violation was willful and intentional.
12. Whether the licensee acted in bad faith.
13. The extent to which the licensee cooperated with the board.
14. Whether the licensee practiced professional engineering or professional land surveying with a lapsed, inactive, suspended or revoked license.

This rule is intended to implement Iowa Code section 542B.22.

[**ARC 7672C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/24/26]

481—1053.6(542B) Publication of decisions. In addition to publication requirements found at 481—subrule 506.31, the following notifications shall be issued:

1. Following suspension of a professional land surveyor's license, notification must be issued to the county recorders and county auditors of the county of residence and immediately adjacent counties in Iowa.
2. Following revocation of a professional land surveyor's license, notification must be mailed to all county auditors in Iowa and the county recorders in the county of residence and immediately adjacent counties in Iowa.
3. Following the suspension or revocation of the license of a professional engineer or professional land surveyor, notification is issued to other boards of examiners for engineers and land surveyors under the jurisdiction of the government of the United States. This notification may be made through the National Council of Examiners for Engineering and Surveying or other national organizations recognized by the

board. In addition, if the licensee is known to be registered in another nation in North America, the appropriate board(s) are notified of the action.

[**ARC 7672C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/24/26]

481—1053.7(542B) Disputes between licensees and clients. Reports from the insurance commissioner or other agencies on the results of judgments or settlements of disputes arising from malpractice claims or other actions between professional engineers or professional land surveyors and their clients may be referred to counsel or peer review committee. The counsel or peer review committee will investigate the report for violation of the statutes or rules governing the practice or conduct of the licensee. The counsel or peer review committee will advise the board of any probable violations or any further action required or recommend dismissal from further consideration.

[**ARC 7672C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/24/26]

481—1053.8(272C,542B) Confidentiality of complaint and investigative information.

1053.8(1) *General provisions.* All complaint and investigative information received or created by the board is privileged and confidential pursuant to Iowa Code section 272C.6(4). Such information shall not be released to any person except as provided in that section.

1053.8(2) *Disclosure to the subject of the investigation.*

a. Legal authority. Pursuant to Iowa Code section 10A.506(9), the board may supply to a licensee who is the subject of a disciplinary complaint or investigation, prior to the initiation of a disciplinary proceeding, all or such parts of a disciplinary complaint, disciplinary or investigatory file, report, or other information as the board in its sole discretion believes would aid the investigation or resolution of the matter.

b. General rule. As a matter of general policy, the board will not disclose confidential complaint and investigative information to a licensee except as permitted by Iowa Code section 272C.6(4). Disclosure of a complainant's identity in advance of the filing of formal disciplinary charges, for instance, may adversely affect a complainant's willingness to file a complaint with the board.

c. Exceptions to general rule. The board may exercise its discretion to release information to a licensee that would otherwise be confidential under Iowa Code section 272C.6(4) under narrow circumstances, including but not limited to the following:

(1) Following a board determination that probable cause exists to file disciplinary charges against a licensee and prior to the issuance of the notice of hearing, the board may provide the licensee with a peer review or investigative report or expert opinions as reasonably needed for the licensee to assess the merits of a settlement proposal.

(2) The board may release to a licensee who is the subject of a board-initiated investigation, including those initiated following the board's receipt of an anonymous complaint, such records or information as may aid the investigation or resolution of the matter.

(3) The board may release information from a peer review or consultant's report when soliciting the licensee's position will aid in making the probable cause determination and such disclosure can be made to the licensee without revealing identifying information regarding the complainant, peer reviewer or consultant.

[**ARC 7672C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/24/26]

These rules are intended to implement Iowa Code chapter 17A and sections 542B.2, 542B.22, and 272C.6.

CHAPTER 1054
PEER REVIEW

[Prior to 11/14/01, see 193C—4.5(542B)]
[Prior to 6/24/26, see Engineering and Land Surveying Examining Board[193C] Ch 10]

Chapter rescission date pursuant to Iowa Code section 17A.7: 4/10/29

481—1054.1(542B,272C) Peer review. The board may appoint a peer reviewer, or multiple peer reviewers, for the investigation of a complaint about the acts or omissions of one or more licensees.

1054.1(1) *Peer review.* Peer reviewers are generally licensed engineers or licensed land surveyors or both, as determined by the board, who are selected for their knowledge and experience in the type of engineering or land surveying involved in the complaint.

An individual is ineligible as a peer reviewer in accordance with the standard for disqualification found at 481—subrule 506.10(1). If a peer reviewer is unable to serve after an investigation has begun, the peer reviewer will notify the board office.

1054.1(2) *Authority.* The peer reviewer's investigation may include activities such as interviewing the complainant, the respondent, individuals with knowledge of the alleged violation, and individuals with knowledge of the respondent's practice in the community; gathering documents; conducting site visits; and performing independent analyses as deemed necessary. Although the board does not become involved in a complaint investigation, the board may give specific instructions to the peer reviewer regarding the scope of the investigation. In the course of the investigation, the peer reviewer will refrain from advising the complainant or respondent on actions that the board might take.

1054.1(3) *Term of service.* The peer reviewer serves at the pleasure of the board. The board may dismiss any peer reviewer or add new peer reviewers at any time.

1054.1(4) *Compensation.* The terms of payment as authorized by the peer review agreement may vary based on the nature and complexity of each assignment. The peer reviewer will be additionally entitled to reimbursement of expenses directly related to the peer review process, deposition or hearing preparation, or deposition or hearing testimony, such as mileage, meals, or out-of-pocket charges for securing copies of documents. Expenses will be reimbursed as allowed under the manuals and guidelines published by the Iowa department of administrative services, state accounting enterprise. The peer reviewer cannot hire legal counsel, investigators, secretarial help or any other assistance without written authorization from the board.

[**ARC 7673C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/24/26]

481—1054.2(542B,272C) Reports. Each peer reviewer will submit a written report to the board within 90 days of the peer review assignment, unless an extension is granted by the board.

1054.2(1) *Components of the report.* The report will include:

a. A statement of the charge to the peer reviewer;

b. A description of the actions taken by the peer reviewer in the peer reviewer's investigation, including but not limited to document review, interviews and site visits;

c. A summary of the peer reviewer's findings, including:

(1) The peer reviewer's opinion as to whether a violation has occurred,

(2) Citation of the Iowa Code section(s) and Iowa Administrative Code rule(s) violated, and

(3) The peer reviewer's opinion of the seriousness of the violation; and

d. A recommendation.

In the case of a land surveyor peer reviewer report, the report must be plat-specific as to the violations.

1054.2(2) *Recommended action.* The peer reviewer report will recommend one of the following:

a. Dismissal of the complaint,

b. Further investigation, or

c. Disciplinary proceedings.

If the peer reviewer recommends further investigation or disciplinary proceedings, supporting information must be submitted to the board, including citation of the specific Iowa Code section(s) and Iowa Administrative Code rule(s) violated.

1054.2(3) *Disciplinary recommendations.* When recommending disciplinary proceedings, a peer reviewer will not suggest a particular form of discipline, but may provide guidance on the severity of the violations that prompted the recommendation and may identify professional areas in which the licensee needs additional education, experience or monitoring in order to safely practice.

[**ARC 7673C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/24/26]

481—1054.3(542B,272C) Confidentiality. The peer reviewer will not discuss or reveal the peer reviewer's findings and conclusions with any party other than the board (through the peer reviewer's report to the board) or board staff.

[**ARC 7673C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/24/26]

481—1054.4(542B,272C) Testimony. Peer reviewers may be required to testify in the event of formal disciplinary proceedings.

[**ARC 7673C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/24/26]

These rules are intended to implement Iowa Code section 272C.3.

CHAPTER 1055
MINIMUM STANDARDS FOR PROPERTY SURVEYS

[Prior to 11/14/01, see 193C—Chapter 2]
[Prior to 6/24/26, see Engineering and Land Surveying Examining Board[193C] Ch 11]

Chapter rescission date pursuant to Iowa Code section 17A.7: 4/10/29

481—1055.1(542B) Scope. Each professional land surveyor will comply with the minimum standards for property surveys described by statute or administrative rule. The minimum standards in this chapter apply to all property surveys performed in this state except those done for acquisition plats as described in Iowa Code chapter 354.

[**ARC 7674C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/24/26]

481—1055.2(542B) Definitions. For the purposes of these rules, the following definitions apply:

"Plat" means both a plat of survey and a subdivision plat as those terms are defined in Iowa Code section 355.1.

"Property survey" means any land survey performed for the purpose of describing, monumenting, retracing and establishing boundary lines, dividing, subdividing, or platting one or more parcels of land.

"Retrace" means following along a previously established line to logical termini.

[**ARC 7674C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/24/26]

481—1055.3(542B) Boundary location. Every property survey shall be made in accordance with the legal description (record title) boundaries as nearly as is practicable. The surveyor will acquire data necessary to retrace record title boundaries, centerlines, and other boundary line locations. The surveyor will analyze the data and determine the position of the boundaries of the parcel being surveyed. The surveyor will make a field survey, locating and connecting monuments necessary for location of the parcel, and coordinate the facts of such survey with the analysis. The surveyor will set monuments marking the corners of such parcel unless monuments already exist at such corners.

[**ARC 7674C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/24/26]

481—1055.4(542B) Descriptions. Descriptions defining land boundaries written for conveyance or other purposes shall be complete, providing definite and unequivocal identification of lines or boundaries. The description must contain dimensions sufficient to enable the description to be platted and retraced and describe the land surveyed either by government lot or by quarter-quarter section or by quarter section and identify the section, township, range and county; and by metes and bounds commencing with a corner monumented and established in the U.S. Public Land Survey System; or if such land is located in a recorded subdivision or recorded addition thereto, then by the number or other description of the lot, block or subdivision thereof that has been previously tied to a corner monumented and established by the U.S. Public Land Survey System. If the parcel is described by metes and bounds, it may be referenced to known lot or block corners in recorded subdivision or additions.

[**ARC 7674C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/24/26]

481—1055.5(542B) Plats. A plat shall be drawn for every property survey performed showing information developed by the survey and including the following elements:

1055.5(1) The plat is drawn to a convenient scale that is clearly stated and graphically illustrated by a bar scale on every plat sheet.

1055.5(2) The plat shows the length and bearing of the boundaries of the parcels surveyed. Where the boundary lines show bearing, lengths or locations that vary from those recorded in deeds, abutting plats or other instruments, the following note is placed along such lines: "recorded as (show recorded bearing, length or location)."

1055.5(3) The plat shows and identifies all monuments necessary for the location of the parcel and indicates whether such monuments were found or placed and includes an accurate description of each monument consisting of size, shape, and material type, capped with license number, and color as applicable.

1055.5(4) The plat is captioned to identify the person for whom the survey was made and the date of the survey and describes the parcel as provided in rule 481—1055.4(542B) above.

1055.5(5) The plat shows that record title boundaries, centerlines, and other boundary lines were retraced to monuments found or placed by the surveyor.

1055.5(6) The plat shows that the survey is tied to a physically monumented land line that is identified by two U.S. Public Land Survey System corners or by two physically monumented corners of a recorded subdivision. The plat shows a distance relationship measured by the surveyor between the two corners on the physically monumented land line. The physically monumented land line shall be germane to the survey of the lot, parcel, or tract.

1055.5(7) The plat bears the signature of the professional land surveyor, a statement certifying that the work was performed by the surveyor or under the surveyor's direct personal supervision, the date of signature, and the surveyor's Iowa license number and legible seal as provided in rule 481—1050.1(542B).

1055.5(8) The surveyor shall record every plat and description, excluding subdivision plats, with the county recorder no later than 30 days after signature on the plat by the surveyor.

[**ARC 7674C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/24/26]

481—1055.6(542B) Measurements.

1055.6(1) Measurements may only be made with instruments and methods capable of attaining the required accuracy for the particular problem involved.

1055.6(2) Measurements as placed on the plat shall be in conformance with the capabilities of the instruments used.

1055.6(3) The unadjusted closure for all closed traverse surveys shall be not greater than 1 in 5,000 and, for subdivision boundaries, 1 in 10,000.

1055.6(4) In a closed traverse, the sum of the measured angles shall agree with the theoretical sum by a difference not greater than 30 seconds times the square root of the number of angles.

1055.6(5) The unadjusted error of field measurements shall not be greater than 1 in 5,000.

1055.6(6) The relative positional tolerance at the 95 percent confidence level shall be as follows:

a. For subdivision boundaries: ±(0.13 feet + 1:10,000)

b. For all other land surveying: ±(0.26 feet + 1:5,000)

1055.6(7) Bearings or angles on any property survey plat shall be shown to the nearest one minute; distance shall be shown to the nearest one-tenth foot.

[**ARC 7674C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/24/26]

481—1055.7(542B) Monuments. Monuments shall adhere to Iowa Code section 355.6. More information can be found in rule 481—1055.3(542B).

[**ARC 7674C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/24/26]

These rules are intended to implement Iowa Code sections 355.3 and 542B.2.

CHAPTER 1056
MINIMUM STANDARDS FOR U.S. PUBLIC LAND SURVEY CORNER CERTIFICATES

[Prior to 11/14/01, see 193C—2.8(355)]
[Prior to 6/24/26, see Engineering and Land Surveying Examining Board[193C] Ch 12]

Chapter rescission date pursuant to Iowa Code section 17A.7: 4/10/29

481—1056.1(542B) General statement. Each professional land surveyor will comply with the minimum standards for preparing a U.S. Public Land Survey Corner Certificate as described by statute or administrative rule. The minimum standards in this chapter apply to every corner certificate prepared in this state.

[**ARC 7675C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/24/26]

481—1056.2(355) U.S. Public Land Survey Corner Certificate.

1056.2(1) A corner is considered a part of the U.S. Public Land Survey System if it has the status of a corner of a:

a. Quarter-quarter section or larger aliquot part of a section.

b. Fractional quarter-quarter section or larger fractional part of a section.

c. Government lot.

1056.2(2) A U.S. Public Land Survey Corner Certificate shall be prepared by the surveyor as part of any land surveying that includes the use of a U.S. Public Land Survey System corner if one or more of the following conditions exist:

a. There is no certificate for the corner monument on file with the recorder of the county in which the corner is located.

b. The surveyor in responsible charge of the land surveying accepts a corner position that differs from that shown in the public records of the county in which the corner is located.

c. The corner monument is replaced or modified in any way.

d. The reference ties in an existing public record are incorrect or missing.

1056.2(3) A U.S. Public Land Survey Corner Certificate shall comply with the following requirements:

a. The identity of the corner monument, with reference to the U.S. Public Land Survey System, shall be clearly indicated.

b. The certificate contains a narrative explaining:

(1) The reason for preparing the certificate.

(2) The evidence and detailed procedure used in establishing or confirming the corner position whether found or placed.

(3) The monumentation found or placed perpetuating the corner position with an accurate description of each monument including but not limited to size, shape, and material type, capped with license number, and color.

(4) The extent of the search for an existing monument when the corner is reset as obliterated or lost.

c. The certificate contains a plan-view drawing depicting:

(1) Relevant monuments including the reference monumentation and an accurate description thereof.

(2) Physical surroundings including highway and street centerlines, fences, structures and other artificial or natural objects as applicable that would facilitate recovery of the corner.

(3) Reference ties in sufficient detail to enable recovery of the corner, including at least three reference ties from the corner to durable physical objects near the corner that are located so that the intersection of any two of the ties will yield a strong corner position recovery. All ties are measured to one-hundredth of a foot.

d. The certificate bears the signature of the professional land surveyor, a statement certifying that the work was performed by the surveyor or under the surveyor's direct personal supervision, the date of signature, and the surveyor's Iowa license number and legible seal as provided in rule 481—1050.1(542B).

1056.2(4) The surveyor shall record the required U.S. Public Land Survey Corner Certificate and forward a copy to the county engineer of the county in which the corner is located within 30 days after completion of the surveying.

[**ARC 7675C**, IAB 3/6/24, effective 4/10/24; Editorial change: IAC Supplement 6/24/26]

These rules are intended to implement Iowa Code sections 355.3, 355.11 and 542B.2.

[Filed 10/24/01, Notice 8/8/01—published 11/14/01, effective 1/1/02]

[Filed ARC 7675C (Notice ARC 7415C, IAB 1/10/24), IAB 3/6/24, effective 4/10/24]
[Editorial change: IAC Supplement 6/24/26]

CHAPTER 1057
CIVIL PENALTIES FOR UNLICENSED PRACTICE

[Prior to 11/14/01, see 193C—1.10(542B)]
[Prior to 6/24/26, see Engineering and Land Surveying Examining Board[193C] Ch 13]

Chapter rescission date pursuant to Iowa Code section 17A.7: 4/10/29

481—1057.1(542B) General statement. The board may impose civil penalties by order against a person who is not licensed as an engineer or land surveyor pursuant to Iowa Code chapter 542B based on the unlawful practices specified in Iowa Code section 542B.27. In addition to the procedures set forth in Iowa Code section 542B.27, this rule shall apply.

1057.1(1) The notice of the board's intent to impose a civil penalty required by Iowa Code section 542B.27 shall be served upon the nonlicensee by restricted certified mail, return receipt requested, or personal service in accordance with Rule of Civil Procedure 56.1. Alternatively, the nonlicensee may accept service personally or through authorized counsel. The notice will include the following:

a. A statement of the legal authority and jurisdiction under which the proposed civil penalty would be imposed.

b. A reference to the particular sections of the statutes and rules involved.

c. A short and plain statement of the alleged unlawful practice.

d. The dollar amount of the proposed civil penalty.

e. Notice of the nonlicensee's right to a hearing and the time frame in which a hearing must be requested.

f. The address to which the written request for a hearing will be made.

1057.1(2) Nonlicensees must request a hearing within 30 days of the date the notice is mailed if served through restricted certified mail to the last-known address or within 30 days of the date of service if service is accepted or made in accordance with Rule of Civil Procedure 56.1. A request for hearing must be in writing and is deemed made on the date of the United States Postal Service postmark or the date of personal service.

1057.1(3) If a request for hearing is not timely made, the board chair or the chair's designee may issue an order imposing the civil penalty described in the notice. The order may be mailed by regular first-class mail or served in the same manner as the notice of intent to impose civil penalty.

1057.1(4) If a request for hearing is timely made, the board will issue a notice of hearing and conduct a hearing in the same manner as applicable to a disciplinary case against a licensed engineer or land surveyor.

1057.1(5) In addition to the factors set forth in Iowa Code section 542B.27, the board may consider the following when determining the amount of civil penalty to impose, if any:

a. The time elapsed since the unlawful practice occurred.

b. Evidence of reform or remedial actions.

c. Whether the violation is a repeat offense following a prior warning letter or other notice of the nature of the infraction.

d. Whether the violation involved an element of deception.

e. Whether the unlawful practice violated a prior order of the board, court order, cease and desist agreement, consent order, or similar document.

f. The clarity of the issue involved.

g. Whether the violation was willful and intentional.

h. Whether the nonlicensee acted in bad faith.

i. The extent to which the nonlicensee cooperated with the board.

1057.1(6) A nonlicensee may waive the right to a hearing and all attendant rights and enter into a consent order imposing a civil penalty at any stage of the proceeding upon mutual consent of the board.

1057.1(7) The notice of intent to impose civil penalty and order imposing civil penalty are public records available for inspection and copying in accordance with Iowa Code chapter 22. Copies may be

provided to the media, the National Council of Examiners for Engineering and Surveying, and other entities. Hearings shall be open to the public.

This rule is intended to implement Iowa Code section 542B.27.

CHAPTERS 1058 to 1060
Reserved

ARCHITECTURAL EXAMINING BOARD

CHAPTER 1061
DESCRIPTION OF ORGANIZATION

[Prior to 7/13/88, see Architectural Examiners, Board of[80]]
[Prior to 6/24/26, see Architectural Examining Board[193B] Ch 1]

Chapter rescission date pursuant to Iowa Code section 17A.7: 5/22/29

481—1061.1(544A,17A) Duties.

1061.1(1) The purpose of the architectural examining board is to administer and enforce the provisions of Iowa Code chapter 544A with regard to the practice of architecture in the state of Iowa, including the examining of candidates, issuing licenses to practice architecture, assuring continuing competency through continued education, investigating violations and infractions of the architecture law, disciplining licensees, and imposing civil penalties against nonlicensees. To this end, the board has promulgated these rules to clarify the board's intent and procedures.

1061.1(2) The primary mission of the board is to protect the public interest. All board rules foster the guiding policies and principles described in Iowa Code section 544A.5. The board and its licensees strive at all times to protect the public interest by promoting the highest standards of architecture.

1061.1(3) The board maintains a roster of all architects authorized to practice architecture in the state.

1061.1(4) Chairperson. The chairperson presides at all meetings, appoints all committees, and otherwise performs all duties pertaining to the office of the chairperson.

1061.1(5) Vice chairperson. The vice chairperson, in the absence or incapacity of the chairperson, exercises the duties and possesses the powers of the chairperson.

1061.1(6) Board administrator. The department of inspections, appeals, and licensing may employ a board administrator who will maintain all necessary records of the board and perform all duties in connection with the operation of the board office. The board administrator determines when the legal requirements for licensure have been satisfied with regard to issuance of certificates, licenses or registrations, and the board administrator submits to the board any questionable application.

[**ARC 7756C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/24/26]

481—1061.2(544A,17A) Meetings. Calls for meetings are issued in accordance with Iowa Code section 21.4. The first meeting scheduled after April 30 is the annual meeting. The chairperson and vice chairperson are elected to serve until their successors are elected. The newly elected officers assume the duties of their respective offices at the conclusion of the meeting at which they are elected. Officers may serve no more than three consecutive one-year terms in each office to which they are elected. Special meetings may be called by the chairperson or board administrator, who will set the time and place of the meeting.

[**ARC 7756C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/24/26]

481—1061.3(544A,17A) Certificates. Certificates issued to successful applicants contain the licensee's name and state license number. All licenses are renewable biennially on July 1, with licensees whose last names begin with the letters A through K renewing in even-numbered years and licensees whose last names begin with the letters L through Z renewing in odd-numbered years as provided in rule 481—1062.5(544A).

The board will maintain an electronic roster of those holders of certificates of licensure who have failed to renew.

[**ARC 7756C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/24/26]

These rules are intended to implement Iowa Code sections 544A.5, 544A.8 through 544A.10, and 272C.4.

CHAPTER 1062
LICENSURE

[Prior to 7/13/88, see Architectural Examiners, Board of[80]]
[Prior to 6/24/26, see Architectural Examining Board[193B] Ch 2]

Chapter rescission date pursuant to Iowa Code section 17A.7: 5/22/29

481—1062.1(544A,17A) Definitions. The following definitions apply as used in Iowa Code chapter 544A, and this chapter of the architectural examining board rules, unless the context otherwise requires.

"Applicant" means an individual who has submitted an application for licensure to the board.

"Approved education program" means a degree accredited by an organization that provides an accreditation system for architecture programs or education deemed equivalent by the board to the National Council of Architectural Registration Boards (NCARB) Education Standard that has been evaluated and found to be an equivalent standard based on the NCARB Alternatives to Education Requirement as identified in the NCARB Certification Guidelines demonstration of successful completion of an Education Evaluation Services for Architects.

"Architectural intern" or *"intern architect"* means an individual who has completed or is completing an approved education program, has completed or is currently enrolled in the NCARB Architectural Experience Program (AXP), and intends to actively pursue licensure by completing the Architect Registration Examination.

"ARE" means the current Architect Registration Examination, as prepared and graded by the NCARB.

"AXP applicant" means an individual who has completed the AXP training requirements set forth in the NCARB Architectural Experience Program Guidelines and has submitted an application for licensure to the board.

"Examination" means the current Architect Registration Examination (ARE) accepted by the board.

"Inactive" means that an architect is not engaged in Iowa in any practice for which a certificate of licensure is required, including architects who have retired from active practice.

"Issuance" means the date of mailing of a decision or order or the date of delivery if service is by other means unless another date is specified in the order.

"NCARB" means the National Council of Architectural Registration Boards. The NCARB Architect Registration Examination Guidelines, NCARB Architectural Experience Program Guidelines, and NCARB Certification Guidelines are available through the National Council of Architectural Registration Boards, 1401 H Street NW, Suite 500, Washington, D.C. 20005; NCARB's website, www.ncarb.org; or the architectural examining board.

"NCARB Architect Registration Examination (ARE) Guidelines" means the edition of a document by the same title published by the National Council of Architectural Registration Boards in April 2026. The document outlines the requirements for examination.

"NCARB Architectural Experience Program Guidelines" means the edition of a document by the same title published by the National Council of Architectural Registration Boards in November 2025. The document outlines the requirements for training.

"NCARB Certification Guidelines" means the edition of a document by the same title published by the National Council of Architectural Registration Boards in January 2026. The document outlines the requirements for licensure as an architect.

"NCARB Education Guidelines" or *"NCARB Education Standards"* means the edition of a document by the same title published by the National Council of Architectural Registration Boards in January 2026. The document outlines the requirements for licensure as an architect.

[**ARC 7757C**, IAB 4/17/24, effective 5/22/24; **ARC 0232D**, IAB 4/29/26, effective 6/3/26; Editorial change: IAC Supplement 6/24/26]

481—1062.2(544A,17A) Licensure. All applicants for licensure will complete an online application form.

1062.2(1) *Initial licensure.* To be eligible for initial licensure by examination, all applicants will have satisfied the architecture education requirements as detailed in paragraph 2.2(1)*"a,"* have passed all divisions of the ARE as provided by the NCARB, have completed the NCARB AXP as detailed

in paragraph 2.2(1)*"a,"* and have established an NCARB council record. A completed NCARB council record shall be transmitted to and filed in the board office. Upon receipt of the council record from NCARB, the board will provide the applicant with an application for licensure form, which must be completed and returned to the board within three months of receipt of the council record. The board shall issue a license number to the applicant upon receipt of the completed application form and appropriate fee.

a. The education and experience requirements are met when an applicant completes one of the following:

(1) A professional degree in architecture from a program that satisfies the NCARB Education Standard or education deemed equivalent by the board and completion of the NCARB AXP one time.

(2) A degree from a four-year bachelor's degree program that includes at least 60 semester credit hours in architecture-related subjects as referenced in the NCARB Certification Guidelines in the Education Alternative section and completion of the NCARB AXP two times.

(3) A two-year associate degree program that includes at least 30 semester credit hours in architecture-related subjects as referenced in the NCARB Certification Guidelines in the Education Alternative section and completion of the NCARB AXP three times.

(4) A high school degree or its equivalent and completion of the NCARB AXP four times.

NOTE: To complete each multiple of the NCARB AXP, the candidate must meet the full program requirements for each multiple as defined in the AXP Guidelines. For example, if a candidate is completing the AXP four times, the candidate must document the required number of hours in each experience area four times. Minimum and maximum hours in each experience setting apply.

b. Examinations for licensure as an architect shall be conducted by the board or its authorized representative.

(1) The board shall make use of the ARE prepared and graded by NCARB under a plan of cooperation with the architectural examining boards of all states and territories of the United States.

(2) The board may make use of a testing service selected by NCARB to administer the examination, provided the examination is held in at least one location within the boundaries of this state.

c. Examination admittance requirements.

(1) An applicant will have established an NCARB record.

(2) NCARB shall notify the testing service of the applicant's eligibility prior to the applicant's scheduling of an examination.

d. AXP eligibility requirements will be verified and satisfied in accordance with the NCARB Architectural Experience Program Guidelines. Documentation of AXP training units will be submitted on AXP report forms published by NCARB and will be verified by signatures of the licensed architects serving as the intern architect's supervisors in accordance with the requirements outlined in the NCARB Architectural Experience Program Guidelines. The completed AXP report form shall demonstrate attainment of an aggregate of the minimum number of value units in each training area and shall be submitted to NCARB for evaluation.

1062.2(2) *Reciprocity.* The board or the board administrator may waive examination requirements for applicants who, at the time of application, are licensed as architects in a different jurisdiction and hold an active NCARB certificate. All such applicants who hold an active NCARB certificate are deemed to possess qualifications that are substantially equivalent to those required of applicants for initial licensure in this state. An active NCARB council certificate shall be transmitted to and filed in the board office. Upon receipt of the certificate from NCARB, the board will provide the applicant with an application for licensure form, which must be completed and returned to the board within three months of receipt of the council certificate.

1062.2(3) *Verification.* The board may grant registration via verification as provided for in 481—Chapter 501.

1062.2(4) *Military service and veteran reciprocity.* The board may grant registration for military service applicants, spouses, and veterans as provided for in 481—Chapter 7.

1062.2(5) *Applicants seeking architectural commission in Iowa.* A person seeking an architectural commission in this state may be admitted to this state for the purpose of offering to provide architectural services, and for that purpose only, without first being licensed in this state if:

a. The person holds an NCARB certificate; and

b. The person holds a current and valid license issued by a licensing authority recognized by this state; and

c. The person notifies the board in writing on a form provided by the board that the person:

(1) Holds an NCARB certificate and a current and valid license issued by a licensing authority recognized by this state,

(2) Is not currently licensed in this state but will be present in this state for the purpose of offering to provide architectural services on a temporary basis, and

(3) Has no previous or pending disciplinary action by any licensing authority; and

d. The person delivers a copy of the notice referred to in paragraph 2.2(5)*"c"* to every potential client to whom the person offers to provide architectural services; and

e. The person provides the board with a sworn statement of intent to apply immediately to the board for licensure if selected as the architect for a project in this state.

The person is prohibited from actually providing architectural services until the person has been issued a valid license in this state.

1062.2(6) *Board refusal to issue license.* The board may refuse to issue a certificate of licensure to any person otherwise qualified upon any of the grounds for which a license may be revoked or suspended or may otherwise discipline a licensee based upon a suspension, revocation, or other disciplinary action taken by a licensing authority in this or another jurisdiction. For purposes of this subrule, "disciplinary action" includes the voluntary surrender of a license to resolve a pending disciplinary investigation or proceeding. A certified copy of the record or order of suspension, revocation, voluntary surrender, or other disciplinary action is prima facie evidence of such fact.

[**ARC 7757C**, IAB 4/17/24, effective 5/22/24; **ARC 0232D**, IAB 4/29/26, effective 6/3/26; Editorial change: IAC Supplement 6/24/26]

481—1062.3(17A,272C,544A) Renewal of certificates of licensure.

1062.3(1) *Active status.* Certificates of licensure expire biennially on June 30. In order to maintain authorization to practice in Iowa, a licensee is required to renew the certificate of licensure prior to July 1 of the year of expiration. A licensee who fails to renew by the expiration date is not authorized to practice architecture in Iowa until the certificate is reinstated as provided in rule 481—1062.4(544A,17A).

a. A licensee whose last name begins with the letter A through K will renew in even-numbered years, and a licensee whose last name begins with the letter L through Z will renew in odd-numbered years. However, a license issued on or after May 1 but before June 30 will not expire until June 30 of the next renewal. For example, a license issued on May 17, 2020, would not expire until June 30, 2022.

b. It is the policy of the board to send to each licensee a notice of the pending expiration date at the licensee's last-known address approximately one month prior to the date the certificate of licensure is scheduled to expire. The notice, when provided, may be by email communication. Failure to receive this notice does not relieve the licensee of the responsibility to timely renew the certificate and pay the renewal fee. A licensee should contact the board office if the licensee does not receive a renewal notice prior to the date of expiration.

c. Upon the board's receipt of a timely and sufficient renewal application as provided in 193—subrule 7.40(3), the board's administrator will issue a new certificate of licensure reflecting the next expiration date unless grounds exist for denial of the application.

d. If grounds exist to deny a timely and sufficient application to renew, the board will send notification to the applicant. Grounds may exist to deny an application to renew if, for instance, the licensee failed to satisfy the continuing education as required as a condition for licensure. If the basis for denial is pending disciplinary action or disciplinary investigation that is reasonably expected to culminate in disciplinary action, the board will proceed as provided in 481—Chapter 506. If the basis for denial is not related to a pending or imminent disciplinary action, the applicant may contest the board's decision as provided in 481—Chapter 506.

e. When a licensee appears to be in violation of mandatory continuing education requirements, the board may, in lieu of proceeding to a contested case hearing on the denial of a renewal application as provided in rule 481—506.35(546,272C), and after or in lieu of giving the licensee an opportunity to

come into compliance under 481—subrule 1063.3(3), offer a licensee the opportunity to sign a consent order. While the terms of the consent order will be tailored to the specific circumstances at issue, the consent order will typically impose a penalty between $50 and $250, depending on the severity of the violation; establish deadlines for compliance; and require that the licensee complete hours equal to double the deficiency in addition to the required hours; and may impose additional educational requirements on the licensee. Any additional hours completed in compliance with the consent order cannot again be claimed at the next renewal. The board will address subsequent offenses on a case-by-case basis. A licensee is free to accept or reject the offer. If the offer of settlement is accepted, the licensee will be issued a renewed certificate of licensure and will be subject to disciplinary action if the terms of the consent order are not complied with. If the offer of settlement is rejected, the matter will be set for hearing, if timely requested by the applicant pursuant to 481—subrule 506.32(5).

f. The board may notify a licensee whose certificate of licensure has expired. The failure of the board to provide this courtesy notification or the failure of the licensee to receive the notification will not extend the date of expiration.

g. A licensee who continues to practice architecture in Iowa after the license has expired may be subject to disciplinary action. Such unauthorized activity may also be grounds to deny a licensee's application for reinstatement.

1062.3(2) *Inactive status.* This subrule establishes a procedure under which a person issued a certificate of licensure as an architect may apply to the board to be licensed as inactive. Licensure under this subrule is available to a license holder who is not engaged in Iowa in any practice for which licensure as an architect is required. A person eligible to be licensed as inactive may, as an alternative to such licensure, allow the certificate of licensure to lapse. During any period of inactive status, a person may use the title "inactive architect" or "retired architect," but may not use the sole title of "architect" or any other title that might imply that the person is offering services as an architect by such an action in violation of Iowa Code section 544A.15. The board will continue to maintain a database of persons licensed as inactive, including information that is not routinely maintained after a certificate has lapsed through the person's failure to renew. A person who is licensed as inactive will accordingly receive renewal applications, board newsletters and other mass communications from the board.

a. Affirmation. The renewal application form will contain a statement in which the applicant affirms that the applicant will not engage in any of the practices in Iowa that are listed in Iowa Code section 544A.16 without first complying with all rules governing reinstatement to active status. A person in inactive status may reinstate to active status at any time pursuant to rule 481—1062.5(544A).

b. Renewal. A person licensed as inactive may renew the person's certificate of licensure on the biennial schedule described in this rule. This person shall be exempt from the continuing education requirements and will be charged a reduced renewal fee as provided in rule 481—1062.9(544A,17A). An inactive certificate of licensure will lapse if not timely renewed.

c. Permitted practices. A person may, while licensed as inactive, perform for a client, business, employer, government body, or other entity those services that may lawfully be provided by a person to whom a certificate of licensure has never been issued. Such services may be performed as long as the person does not in connection with such services use the title "architect" or any other title restricted for use only by architects pursuant to Iowa Code section 544A.15 (without additional designations such as "inactive" or "retired"). Restricted titles may be used only by active architects who are subject to continuing education requirements to ensure that the use of such titles is consistently associated with the maintenance of competency through continuing education.

d. Prohibited practices. A person who, while licensed as inactive, engages in any of the practices described in Iowa Code sections 544A.15 and 544A.16 is subject to disciplinary action.

e. Exemption. A person whose license as an architect has been placed on probation, suspended, revoked, or voluntarily surrendered in connection with a disciplinary investigation or proceeding shall not be eligible for inactive status unless, upon appropriate application, the board first reinstates the license to good standing.

[**ARC 7757C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/24/26]

481—1062.4(544A,17A) Reinstatement of lapsed certificate of licensure to active status. An individual may reinstate a lapsed certificate of licensure to active licensure as follows:

1062.4(1) Pay the current renewal fee.

1062.4(2) Pay the reinstatement fee of $100 plus $25 per month or partial month of expired licensure up to a maximum of $750. All applicants for reinstatement shall be assessed the $100 reinstatement fee. The $25 per month shall not be assessed if the applicant for reinstatement did not, during the period of lapse, engage in any acts or practices for which an active architect license is required in Iowa. Falsely claiming an exemption from the monthly fee is a ground for discipline; in addition, other grounds for discipline may arise from practicing on a lapsed certificate, license or permit to practice.

1062.4(3) Provide a written statement outlining the applicant's professional activities performed in Iowa during the period in which the individual was unlicensed. The statement shall include a list of all projects with which the applicant had involvement and shall explain the service provided by the applicant.

1062.4(4) Submit documented evidence of completion of 24 continuing education hours, which should have been reported on the June 30 renewal date on which the applicant failed to renew, and 12 continuing education hours for each year or portion of a year of expired licensure up to a maximum of 48 continuing education hours. All continuing education hours must be completed in health, safety, and welfare subjects acquired in structured educational activities and be in compliance with requirements in 481—Chapter 1063. The hours reported shall not have been earned more than four years prior to the date of the application to reinstate to active status. The continuing education hours used for reinstatement may not be used again at the next renewal.

[**ARC 7757C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/24/26]

481—1062.5(544A) Reinstatement from inactive status to active status. An individual may reinstate an inactive license to an active license as follows:

1062.5(1) Pay one-half of the current active license fee.

1062.5(2) Submit documented evidence of completion of 24 continuing education hours in compliance with requirements in 481—Chapter 1063. All continuing education hours must be completed in health, safety, and welfare subjects acquired in structured educational activities. The hours reported shall not have been earned more than four years prior to the date of the application to reinstate to active status. The hours used to reinstate to active status cannot again be used to renew.

a. At the first biennial renewal date of July 1 that is less than 12 months from the date of the filing of the application to restore the certificate of licensure to active status, the person shall not be required to report continuing education hours.

b. At the first biennial renewal date of July 1 that is 12 months or more, but less than 24 months, from the date of the filing of the application to restore the certificate of licensure to active status, the person shall report 12 hours of previously unreported continuing education hours.

1062.5(3) Provide a written statement in which the applicant affirms that the applicant has not engaged in any of the practices in Iowa that are listed in Iowa Code section 544A.16 during the period of inactive licensure.

[**ARC 7757C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/24/26]

481—1062.6(544A,17A) Finding of probable cause for unlicensed practice. The board may find probable cause to file charges for unlicensed practice if the individual continues to offer services defined as the practice of architecture outlined in Iowa Code section 544A.16 while using the title "architect," "architectural designer," or similar designation during the period of lapsed licensure.

[**ARC 7757C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/24/26]

481—1062.7(544A,272C) Responsibility for accuracy of applications. The architect is responsible for verifying the accuracy of the information submitted on an application regardless of how the application is submitted or by whom it is submitted. For instance, if the office manager of an architect's firm submits an application for renewal on behalf of the architect and that information is incorrect, the architect will be held responsible for the information and may be subject to disciplinary action.

[**ARC 7757C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/24/26]

481—1062.8(544A,272C) Application denial. An application may be denied on the grounds provided in Iowa Code chapter 544A and in rule 481—500.6(17A,147,272C). The administrative processing of an application shall not prevent the later initiation of a contested case to challenge a licensee's qualifications for licensure. The board may also deny a license on the grounds of submitting a false statement or submission of material fact on an application for licensure.

[**ARC 7757C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/24/26]

481—1062.9(544A,17A) Fee schedule. Under the authority provided in Iowa Code chapter 544A, the following fees are hereby adopted:

Examination fees:	
Fees for examination subjects shall be paid directly to the testing service selected by NCARB.	
Initial license fee	$50
(plus $5 per month until renewal)	
Reciprocal application and license fee	$200
Verification application and license fee	$200
Biennial renewal fee	$200
Biennial renewal fee (inactive)	$100
Reinstatement of lapsed individual license	$100 + renewal fee + $25 per month or partial month of expired license
Reinstatement of inactive individual license	$100
Duplicate wall certificate fee	$50
License predetermination fee	$25
Fee for return of payment	$30

All fees are nonrefundable.

[**ARC 7757C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/24/26]

These rules are intended to implement Iowa Code chapters 544A and 17A.

CHAPTER 1063
CONTINUING EDUCATION

[Prior to 7/13/88, see Architectural Examiners, Board of[80]]
[Prior to 6/24/26, see Architectural Examining Board[193B] Ch 3]

Chapter rescission date pursuant to Iowa Code section 17A.7: 5/22/29

481—1063.1(544A,272C) Continuing education. The following rules adopted by the architectural examining board are in compliance with Iowa Code chapter 544A and section 272C.2 requiring professional and occupational licensees to participate in a continuing education program as a condition of license renewal.

[**ARC 7758C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/24/26]

481—1063.2(544A,272C) Definitions. The following definitions apply as used in Iowa Code chapter 544A and this chapter of the architectural examining board rules, unless the context otherwise requires.

"Continuing education" or *"CE"* means postlicensure learning that enables a licensed architect to increase or update knowledge of and competence in technical and professional subjects related to the practice of architecture to safeguard the public's health, safety, and welfare.

"Continuing education hour" or *"CEH"* means one continuous instructional hour (50 to 60 minutes of contact) spent in structured educational activities intended to increase or update the architect's knowledge and competence in health, safety, and welfare subjects. If the provider of the structured educational activities prescribes a customary time for completion of such an activity and if the prescribed time is not deemed unreasonable by the board, then such prescribed time will be accepted for CEH purposes as the architect's time irrespective of actual time spent on the activity.

"Distance learning" means any education process based on the geographical separation of student and instructor. "Distance learning" includes computer-generated programs, webinars, and home-study/correspondence programs.

"Health, safety, and welfare subjects" means technical and professional subjects that the board deems appropriate to safeguard the public and that are within the following enumerated areas necessary for the proper evaluation, design, construction, and utilization of buildings and the built environment.

1. Building systems: structural, mechanical, electrical, plumbing, communications, security, and fire protection.
2. Construction contract administration: contracts, bidding, and contract negotiations.
3. Construction documents: drawings, specifications, and delivery methods.
4. Design: urban planning, master planning, building design, site design, interiors, safety and security measures.
5. Environmental: energy efficiency, sustainability, natural resources, natural hazards, hazardous materials, weatherproofing, and insulation.
6. Legal: laws, codes, zoning, regulations, standards, life safety, accessibility, ethics, and insurance to protect owners and the public.
7. Materials and methods: construction systems, products, finishes, furnishings, and equipment.
8. Occupant comfort: air quality, lighting, acoustics, and ergonomics.
9. Predesign: land use analysis, programming, site selection, site and soils analysis, and surveying.
10. Preservation: historic, reuse, and adaptation.

"Not engaged in active practice" means that an architect is not engaged in the practice of architecture or earning monetary compensation by providing professional architectural services in any licensing jurisdiction of the United States or a foreign country.

"Retired from active practice" means the same as "not engaged in active practice."

"Structured educational activities" means educational activities in which at least 75 percent of an activity's content and instructional time is to be devoted to health, safety, and welfare subjects related to the practice of architecture, including courses of study or other activities under the areas identified as health, safety, and welfare subjects and provided by qualified individuals or organizations, whether the courses of study or other activities are delivered by direct contact or distance learning methods.

[**ARC 7758C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/24/26]

481—1063.3(544A,272C) Basic requirements.

1063.3(1) To renew licensure, an architect must, in addition to meeting all other requirements, complete a minimum of 24 CEHs for each 24-month period since the architect's last renewal of initial licensure or be exempt from these continuing education requirements as provided in rule 481—1063.5(544A,272C). Failure to comply with these requirements may result in nonrenewal of the architect's license.

1063.3(2) All 24 CEHs must be completed in health, safety, and welfare subjects acquired in structured educational activities. CEHs may be acquired at any location. A licensee may carry over up to 12 CEHs obtained in excess of the requirements for a renewal period to the following renewal period.

1063.3(3) An architect will complete and submit forms as required by the board certifying that the architect has completed the required CEHs. Forms may be audited by the board for verification of compliance with these requirements. Documentation of reported CEHs will be maintained by the architect for two years after the period for which the form was submitted. Any discrepancy between the number of CEHs reported and the number of CEHs actually supported by documentation may result in a disciplinary review. If, after the disciplinary review, the board disallows any CEHs, or the licensee has failed to complete the required CEHs, the architect will have 60 days from notification of the board to either provide further evidence of having completed the CEHs disallowed or remedy the disallowance by completing the required number of CEHs (provided that such CEHs are not used for the next renewal). An extension of time may be granted on an individual basis and must be requested by the licensee within 30 days of notification by the board. If the licensee fails to comply with the requirements of this subrule, the licensee may be subject to disciplinary action. If the board finds, after proper notice and hearing, that the architect willfully disregarded these requirements or falsified documentation of required CEHs, the architect may be subject to disciplinary action.

1063.3(4) An architect who holds licensure in Iowa for less than 12 months from the date of initial licensure or who is reinstating to active status is not required to report CEHs at the first license renewal. An architect who holds licensure in Iowa for 12 months or more, but less than 23 months from the date of initial licensure or who is reinstating to active status, is required to report 12 CEHs earned in the preceding 12 months at the first license renewal.

[**ARC 7758C**, IAB 4/17/24, effective 5/22/24; **ARC 9100C**, IAB 4/16/25, effective 5/21/25; Editorial change: IAC Supplement 6/24/26]

481—1063.4(544A,272C) Authorized structured educational activities. The following list may be used by all licensees in determining the types of activities that may fulfill CE requirements if the activities are conducted as structured educational activities on health, safety, and welfare subjects:

1. Short courses or seminars sponsored by colleges or universities.
2. Technical presentations held in conjunction with conventions or at seminars sponsored or accredited by the American Institute of Architects (AIA), Construction Specifications Institute, Construction Products Manufacturers Council, National Council of Architecture Registration Boards (NCARB), or similar organizations devoted to architectural education.
3. Distance learning sponsored by the AIA, NCARB, or similar organizations.
4. College or university credit courses. Each semester hour equals 12 CEHs. A quarter hour equals 8 CEHs.

[**ARC 7758C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/24/26]

481—1063.5(544A,272C) Exemptions.

1063.5(1) As provided in Iowa Code section 272C.2(4), a licensed architect will be deemed to have complied with the continuing education requirements set forth in this chapter if the architect attests in the required affidavit that for not less than 21 months of the preceding two-year period of licensure, the architect:

a. Has served honorably on active duty in the military service; or

b. Is a resident of another state or district having a continuing education requirement for licensure as an architect and has complied with all requirements of that state or district for practice therein; or

c. Is a government employee working as an architect and assigned to duty outside the United States.

1063.5(2) Architects who so attest on their affidavits that they are retired from active practice or are not engaged in active practice may maintain their licenses in retired or inactive status without satisfying CE requirements. Such architects may, however, reenter practice only after satisfying the board of their proficiency. Proficiency may be established by any one of the following:

a. Submitting verifiable evidence of compliance with the aggregate continuing education requirements for the reporting periods attested as retired from active practice or not engaged in active practice up to a maximum of 48 CEHs.

b. Retaking the architectural registration examination.

c. Fulfilling alternative reentry requirements determined by the board that serve to assure the board of the current competency of the architect to engage in the practice of architecture.

1063.5(3) The board may make exceptions for reasons of individual hardship, including health (certified by a medical doctor) or other good cause. More information is contained in 7—Chapter 2504.

[**ARC 7758C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/24/26]

These rules are intended to implement Iowa Code section 272C.2.

CHAPTER 1064
RULES OF CONDUCT

[Prior to 7/13/88, see Architectural Examiners, Board of[80]]
[Prior to 6/24/26, see Architectural Examining Board[193B] Ch 4]

Chapter rescission date pursuant to Iowa Code section 17A.7: 5/22/29

481—1064.1(544A,17A) Rules of conduct. Failure by a licensee to adhere to the provisions of Iowa Code sections 272C.10 and 544A.13 and the following rules of conduct is grounds for disciplinary action.

1064.1(1) *Definition.* The following definition applies as used in Iowa Code chapter 544A and this chapter of the architectural examining board rules, unless the context otherwise requires.

"Responsible charge" means the amount of control over and detailed professional knowledge of the content of technical submissions during their preparation as is ordinarily exercised by a licensed architect applying the necessary professional standard of care, including but not limited to an architect's integration of information from manufacturers, suppliers, installers; the architect's consultants, owners, contractors; or other sources the architect reasonably trusts that is incidental to and intended to be incorporated into the architect's technical submissions if the architect has coordinated and reviewed such information. Other review, or review and correction, of technical submissions after they have been prepared by others does not constitute the exercise of responsible charge because the reviewer has neither control over nor detailed professional knowledge of the content of such submissions throughout their preparation.

1064.1(2) *Competence.*

a. In practicing architecture, an architect will act with reasonable care and competence and will apply the technical knowledge and skill that is ordinarily applied by architects of good standing practicing in the same locality.

b. While an architect may rely on the advice of other professionals (e.g., attorneys, engineers and other qualified persons) as to the intent and meaning of all applicable state and municipal building laws and regulations, once having obtained such advice, an architect will not knowingly design a project in violation of these laws and regulations.

c. An architect may perform professional services only when the architect, together with those whom the architect may engage as consultants, is qualified by education, training and experience in the specific technical areas involved.

d. No person is permitted to practice architecture if, in the board's judgment upon receipt of medical testimony or evidence, the person's professional competence is substantially impaired by physical or mental disabilities.

1064.1(3) *Conflict of interest.*

a. An architect may accept compensation for services from more than one party on a project if the circumstances are fully disclosed to and agreed to in writing by all interested parties in advance of payment of such compensation.

b. If an architect has any business association or direct or indirect financial interest that is substantial enough to influence the architect's judgment in connection with the architect's performance of professional services, the architect will fully disclose, in writing, to the client or employer the nature of the business association or financial interest, and if the client or employer objects to the association or financial interest, the architect will either terminate such association or interest or offer to give up the commission or employment.

c. An architect may not solicit or accept compensation from material or equipment suppliers in return for specifying or endorsing the products.

d. When acting as the interpreter of building contract documents and the judge of contract performance, an architect will render decisions impartially, favoring neither party to the contract.

1064.1(4) *Full disclosure.*

a. When making public statements on architectural questions, an architect will disclose when compensation is being received for making the statements.

b. An architect will accurately represent to a prospective or existing client or employer the architect's qualifications, capabilities, and experience and the scope of the architect's responsibility in connection with work for which the architect is claiming credit.

c. If, in the course of work on a project, an architect becomes aware of a decision taken by the employer or client against the architect's advice that violates applicable state or municipal building laws and regulations and that may, in the architect's judgment, adversely affect the safety to the public of the finished project, the architect will:

(1) Report the decision to the local building inspector or other public official charged with enforcement of the applicable state or municipal building laws and regulations,

(2) Refuse to consent to the decisions, and

(3) In circumstances where the architect reasonably believes that other decisions will be taken, notwithstanding the architect's objection, terminate the architect's services with reference to the project.

d. An architect will not deliberately make a materially false statement or deliberately fail to disclose a material fact requested in connection with application for licensure or renewal of license.

e. An architect will not assist the application for licensure of a person known by the architect to be unqualified in respect to education, training, experience or character.

f. An architect possessing knowledge of a violation of these rules by another architect will report the knowledge to the board.

1064.1(5) *Compliance with laws.*

a. An architect will not, in the conduct of architectural practice, knowingly violate any state or federal criminal law. A "conviction" for purposes of this paragraph and Iowa Code section 544A.13 means a conviction of a felony related to the profession or occupation of the licensee or the conviction of any felony that would affect the licensee's ability to practice the profession of architecture and includes the court's acceptance of a guilty plea, a deferred judgment from the time of entry of the deferred judgment until the time the defendant is discharged by the court without entry of judgment, or other finding of guilt by a court of competent jurisdiction. A copy of the record of conviction, guilty plea, deferred judgment, or other finding of guilt is conclusive evidence. A licensed architect will notify the board of a conviction within 30 days of the conviction.

b. An architect will neither make nor offer to make any payment or gift to a government official (whether elected or appointed) with the intent of influencing the official's judgment in connection with a prospective or existing project in which the architect is interested.

c. An architect will comply with the licensing laws and regulations governing the architect's professional practice in any United States jurisdiction.

d. An Iowa-licensed architect will report to the board in writing any revocation, suspension, license denial, or other disciplinary action taken by a licensing authority in any other state or jurisdiction within 30 days of the final action.

1064.1(6) *Professional conduct.*

a. Each office engaged in the practice of architecture will have an architect resident regularly employed in that office having responsible charge of such work or, in the situation of work performed remotely, immediately available to furnish assistance or direction throughout the performance of the work.

b. An architect may only sign or seal drawings, specifications, reports or other professional work for which the architect has direct professional knowledge and direct supervisory control; provided, however, that in the case of the portions of professional work prepared by the architect's consultants, licensed under this or another professional licensing law of this jurisdiction, the architect may sign or seal that portion of the professional work if the architect has reviewed that portion, has coordinated its preparation and intends to be responsible for its adequacy.

c. An architect will neither offer nor make any gifts to any public official with the intent of influencing the official's judgment in connection with a project in which the architect is interested. Nothing in this rule will bar an architect from providing architectural services as a charitable contribution.

d. An architect will not engage in conduct involving fraud or wanton disregard of the rights of others.

e. Architects will adhere to the appropriate standards of conduct as outlined in the NCARB Model Rules of Conduct, dated July 2018, incorporated herein by reference.

1064.1(7) *Seal and certificate of responsibility.*

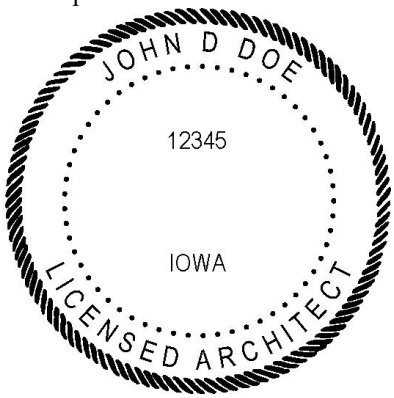
a. The seal under Iowa Code section 544A.28 includes:

(1) An outside circle with a diameter of approximately 1¾ inches.

(2) The name of the licensed architect and the words "Licensed Architect".

(3) The Iowa license number and the word "Iowa".

(4) The seal will substantially conform to the samples shown below:



b. A legible rubber stamp, electronic image or other facsimile of the seal may be used.

c. Each technical submission submitted to a client or any public agency, hereinafter referred to as the official copy, will contain an information block on its first page or on an attached cover sheet with application of a seal by the architect in responsible charge and an information block with application of a seal by each professional consultant contributing to the technical submission. The seal and original signature will be applied only to a final technical submission. Each official copy of a technical submission will be stapled, bound or otherwise attached together so as to clearly establish the complete extent of the technical submission. Each information block will display the seal of the individual responsible for that portion of the technical submission. The area of responsibility for each sealing professional will be designated in the area provided in the information block, so that responsibility for the entire technical submission is clearly established by the combination of the stated seal responsibilities. The information block will substantially conform to the sample shown below:

S E A L	I hereby certify that the portion of this technical submission described below was prepared by me or under my direct supervision and responsible charge. I am a duly licensed architect under the laws of the state of Iowa. _____ Signature Date Printed or typed name_____ License number_____ My license renewal date is June 30,_____ . Pages or sheets covered by this seal: _____ _____ _____ _____ _____

d. The information requested in each information block must be typed or legibly printed in permanent ink or a secure electronic signature. An electronic signature as defined in or governed by Iowa Code chapter 554D meets the signature requirements of this rule if it is protected by a security procedure, as defined in Iowa Code section 554D.103(14), such as digital signature technology. It is the licensee's responsibility to ensure, prior to affixing an electronic signature to a technical submission, that security

procedures are adequate to (1) verify that the signature is that of a specific person and (2) detect any changes that may be made or attempted after the signature of the specific person is affixed. The seal implies responsibility for the entire technical submission unless the area of responsibility is clearly identified in the information accompanying the seal.

e. The architect who signed the original submission is responsible for forwarding copies of all changes and amendments to the technical submission, which becomes a part of the official copy of the technical submission, to the public official charged with the enforcement of the state, county, or municipal building code.

f. An architect is responsible for the custody and proper use of the seal. Improper use of the seal is grounds for disciplinary action.

g. The seal appearing on any technical submission establishes prima facie evidence that said technical submission was prepared by or under the responsible charge of the individual named on that seal.

1064.1(8) *Communications.* An architect will, when requested, respond to communications from the board within 30 days of the mailing of such communication by certified mail. Failure to respond to such communication may be grounds for disciplinary action against the architect.

1064.1(9) *Architectural Experience Program supervisor.* The Architectural Experience Program supervisor, formerly known as the Intern Development Program supervisor, will timely respond to a request to verify experience hours reported to the National Council of Architectural Registration Boards' Architectural Experience Program when requested by NCARB, the board, or a subordinate, associate, or intern who is, or has been, supervised by the Architectural Experience Program supervisor.

This rule is intended to implement Iowa Code chapters 17A and 544A.

CHAPTER 1065
EXCEPTIONS
[Prior to 6/24/26, see Architectural Examining Board[193B] Ch 5]

Chapter rescission date pursuant to Iowa Code section 17A.7: 5/22/29

481—1065.1(544A) Definitions. The following definitions apply as used in Iowa Code chapter 544A and this chapter of the architectural examining board rules.

"Accessory buildings" means a building or structure of an accessory character and miscellaneous structures not classified in any specific occupancy or use. "Accessory buildings" are constructed, equipped and maintained to conform to the requirements corresponding to the fire and life hazard incidental to the buildings' occupancy. "Accessory buildings" is intended to encompass the uses listed in Group U of the 2015 International Building Code®.

"Agricultural building" means a structure designed to house farm implements, hay, grain, poultry, livestock or other agricultural products. For the purpose of this definition, this structure does not contain habitable space or a place of employment where agricultural products are processed or treated or packaged; nor will it be a place used by the public.

"Alter" or *"alteration"* means any change, addition or modification to an existing building in its construction or occupancy.

"Church" means a building or portion thereof intended for the performance of religious services.

"Commercial" or *"commercial use"* means the following:

1. The use of a building or structure, or a portion thereof, for office, professional, or service-type transactions, including storage of records and accounts,
2. The use of a building or structure, or a portion thereof, for the display and sale of merchandise, and involves stocks of goods, including wares or merchandise incidental to such purposes and accessible to the public.

"Commercial use" is intended to encompass the uses listed in Group B and Group M of the 2015 International Building Code®.

"Detached" means a structure separated by distance and not connected to another structure.

"Dwelling unit" means a single unit providing complete, independent living facilities for one or more persons, including permanent provisions for living, sleeping, eating, cooking and sanitation.

"Educational use" means the use of a building or structure, or a portion thereof used (1) by six or more persons at any one time for education purposes through twelfth grade; or (2) by six or more children for day care purposes. Rooms and spaces within places of religious worship providing such day care during religious functions and day cares serving five or fewer children are classified as part of the primary occupancy. "Educational use" is intended to encompass the uses listed in Group E of the 2015 International Building Code®.

"Factory-built buildings" means any structure that is, wholly or in substantial part, made, fabricated, formed, or assembled in manufacturing facilities for installation, or assembly and installation, on a building site. "Factory-built buildings" includes the terms "mobile home," "manufactured home," and "modular home."

"Family dwelling unit" means the same as "dwelling unit."

"Gross floor area" means the area included within the surrounding exterior walls of a building. Areas of the building not provided with surrounding walls are included in the building area if such areas are included within the horizontal projection of the supporting structure of the roof or floor above.

"Habitable space (room)" means a space in a structure for living, sleeping, eating or cooking. Bathrooms, toilet compartments, closets, halls, storage or utility space, and similar areas are not considered "habitable space."

"Hazardous use" means the use of a building or structure, or a portion thereof, that involves the manufacturing, processing, generation or storage of materials that constitute a physical or health hazard. "Hazardous use" is intended to encompass the uses listed in Group H of the 2015 International Building Code®.

"Industrial use" means the use of a building or structure, or a portion thereof, for assembling, disassembling, fabricating, finishing, manufacturing, packaging, repair, or processing operations that are not classified as hazardous use. "Industrial use" is intended to encompass the uses listed in Group F of the 2015 International Building Code®.

"Institutional use" means the use of a building or structure, or a portion thereof, in which persons are receiving custodial or medical care, in which persons are detained for penal or correctional purposes or in which the liberty of the occupants is restricted. Day care facilities as defined in educational use are not considered institutional uses. "Institutional use" is intended to encompass the uses listed in Group I of the 2015 International Building Code®. Facilities with five or fewer persons receiving custodial care may be considered a residential use or be considered part of the primary occupancy as listed in Group I of the 2015 International Building Code®.

"International Building Code" is a model building code developed by the International Code Council. The 2015 International Building Code® is available from the state library of Iowa or the board or online at codes.iccsafe.org.

"Light industrial" means buildings not more than one story in height and not exceeding 10,000 square feet in gross floor area that involve fabrication or manufacturing of noncombustible materials that, during finishing, packing, or processing, are not classified as hazardous use.

"Mixed building use" means a building containing more than one use classification.

"Nonstructural alterations" means modifications to an existing building that do not include any changes to structural members of a building, or do not modify means of egress, handicap accessible routes, fire resistivity or other life safety concerns.

"Occupancy" means a purpose for which a building, or part thereof, is used or intended to be used.

"Outbuildings" means the same as "accessory buildings."

"Place of assembly of people or public gathering" means the use of a building or structure, or a portion thereof, for the gathering of persons such as for civic, social, or religious functions; recreation, food or drink consumption; or awaiting transportation. "Place of assembly of people or public gathering" is intended to encompass the uses listed in Group A of the 2015 International Building Code®. Places of assembly with occupancy of fewer than 50 people are considered part of the primary occupancy.

"Residential use" means the use of a building or structure, or a portion thereof, for sleeping purposes when not classified as an institutional use. "Residential use" is intended to encompass the uses listed in Group R of the 2015 International Building Code®.

"Story" means that portion of a building included between the upper surface of any floor and the upper surface of the floor or roof next above.

"Structural members" consists of building elements that carry an imposed load of weight and forces in addition to their own weight including, but not limited to, loads imposed by forces of gravity, wind, and earthquake. Structural members include, but are not limited to, footings, foundations, columns, load-bearing walls, beams, girders, purlins, rafters, joists, trusses, lintels, and lateral bracing.

"Use" means the same as "occupancy."

"Warehouses" or *"warehouse use"* means the use of a building or structure, or portion thereof, for storage that is not classified as a hazardous use. "Warehouse use" is intended to encompass the uses listed in Group S of the 2015 International Building Code®.

[**ARC 7760C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/24/26]

481—1065.2(544A) Exceptions. An architect licensed in this state is required to perform professional architectural services for all buildings except those listed in Iowa Code section 544A.18.

[**ARC 7760C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/24/26]

481—1065.3(544A) Building use. The following criteria are used when applying the exceptions outlined in Iowa Code section 544A.18 and rule 481—1065.2(544A):

1065.3(1) *Building use takes priority over size.* In all cases, the use of the building takes priority over the size. For example, a place of assembly is not a commercial use, and would not constitute an exception even if the building is not more than one story in height and does not exceed more than 10,000 square feet in gross floor area.

1065.3(2) *Mixed building use.* In the case that a building contains more than one use, the most stringent use is applied to the entire building when applying the exceptions. For example, a two-story building containing a 6,000 square foot commercial space as well as 6,000 square feet of residential space on the second floor would be considered a 12,000 square foot, two-story commercial building for the purposes of the exception matrix.

1065.3(3) *Agricultural buildings.* Activities inherent to housing farm implements, farm inputs, farm products, and livestock or other agricultural products, such as recordkeeping, sanitation, storage of farm inputs, or equipment preparation, repair, or modifications, are not to be construed as a use in and of itself for the purposes of applying the exceptions. For example, welding operations to repair an implement or grain-handling equipment would not trigger the consideration of an agricultural building or a portion of the building as an industrial use.

1065.3(4) *Churches and accessory buildings.* When under the height and gross floor area noted in the exception and encompassing uses inherent to a church or an accessory building as defined, these buildings are exempted, even if the use within the building would normally not be exempted. For example, a church used as a place of assembly with occupancy of more than 50 people but still under the height and gross floor area noted would still be exempted even though the occupancy would place the building in the nonexempted category.

[**ARC 7760C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/24/26]

481—1065.4(544A) Exceptions matrix. The following matrix is compiled to illustrate the exceptions outlined in Iowa Code section 544A.18. The laws and rules governing the practice of engineering are not illustrated herein.

BUILDINGS NEW CONSTRUCTION			
Building Use Type	**Description**	**Architect Required**	**Architect May Not Be Required**
Agricultural use	Including grain elevators and feed mills		X
Churches and accessory buildings whether attached or separate	One or two stories in height, up to a maximum of 2,000 square feet in gross floor area		X
	Any number of stories in height, greater than 2,000 square feet in gross floor area	X	
	More than two stories in height	X	
Commercial use	One story in height, up to a maximum of 10,000 square feet in gross floor area		X
	One story in height, greater than 10,000 square feet in gross floor area	X	
	Two stories in height, up to a maximum of 6,000 square feet in gross floor area		X
	Two stories in height, greater than 6,000 square feet of gross floor area	X	
	More than two stories in height	X	
Detached residential use	One, two or three stories in height, containing 12 or fewer family dwelling units		X
	More than 12 family dwelling units	X	
	More than three stories in height	X	
	Outbuildings in connection with detached residential buildings		X
Educational use		X	
Hazardous use		X	
Industrial use		X	
Institutional use		X	
Light industrial use			X
Places of assembly		X	

BUILDINGS NEW CONSTRUCTION			
Building Use Type	**Description**	**Architect Required**	**Architect May Not Be Required**
Warehouse use	One story in height, up to a maximum of 10,000 square feet in gross floor area		X
	One story in height, greater than 10,000 square feet in gross floor area	X	
	More than one story in height	X	
Factory-built buildings	Any height and size, if certified by a professional engineer licensed under Iowa Code chapter 542B		X
	One or two stories in height, up to a maximum of 20,000 square feet in gross floor area		X
	One or two stories in height, greater than 20,000 square feet in gross floor area	X	
	More than two stories in height	X	
	More than 20,000 square feet in gross floor area	X	

ALTERATIONS TO EXISTING BUILDINGS				
Alteration Type	**Description**		**Architect Required**	**Architect May Not Be Required**
Structural alterations to exempt buildings	Modifications that change the structural members, means of egress, handicap accessible path, fire resistivity or other life safety concerns			X
Structural alterations to nonexempt buildings	Modifications that change the structural members, means of egress, handicap accessible path, fire resistivity or other life safety concerns		X	
Nonstructural alteration	That does not modify means of egress, handicap accessible path, fire resistivity or other life safety concerns			X
	That maintains the previous type of use			X
Nonstructural alteration that changes the use of the building from any other use to:	A place of assembly of people or public gathering		X	
	Educational use		X	
	Hazardous use		X	
	Residential use exempted	and is one, two or three stories in height and contains not more than 12 family dwelling units		X
	Residential use not exempted otherwise	and is more than three stories in height	X	
		and containing more than 12 family dwelling units	X	
Nonstructural alterations that change the use of the building from industrial or warehouse to:	Commercial or office use	and is one story in height and not greater than a maximum of 10,000 square feet in gross floor area		X
		and is one story in height and greater than 10,000 square feet in gross floor area	X	
		and is two stories in height and not greater than a maximum of 6,000 square feet in gross floor area		X
		and is two stories in height and greater than 6,000 square feet in gross floor area	X	
		and is more than two stories in height	X	
		and is greater than 10,000 square feet of gross floor area	X	

ALTERATIONS TO EXISTING BUILDINGS				
Alteration Type	**Description**		**Architect Required**	**Architect May Not Be Required**
Nonstructural alterations to:	Agricultural use	Including grain elevators and feed mills		X
	Churches and accessory building uses	One or two stories in height, up to a maximum of 2,000 square feet in gross floor area		X
		Any number of stories in height, greater than 2,000 square feet in gross floor area	X	
		More than two stories in height	X	
	Commercial use	One story in height, up to a maximum of 10,000 square feet in gross floor area		X
		One story in height, greater than 10,000 square feet in gross floor area	X	
		Two stories in height, up to a maximum of 6,000 square feet in gross floor area		X
		Two stories in height, greater than 6,000 square feet in gross floor area	X	
		More than two stories in height	X	
	Detached residential buildings	One, two or three stories in height, containing 12 or fewer family dwelling units		X
		More than 12 family dwelling units	X	
		More than three stories in height	X	
		Outbuildings in connection with detached residential buildings		X
	Educational use		X	
	Hazardous use		X	
	Industrial use		X	
	Institutional use		X	
	Light industrial use			X
	Places of assembly		X	
	Warehouse use	One story in height, up to a maximum of 10,000 square feet in gross floor area		X
		One story in height, greater than 10,000 square feet in gross floor area	X	
		More than one story in height	X	
	Factory-built buildings	Any height and size if entire building is certified by a professional engineer licensed under Iowa Code chapter 542B		X
		One or two stories in height, up to a maximum of 20,000 square feet of gross floor area		X
		One or two stories in height, greater than 20,000 square feet in gross floor area	X	
		More than two stories in height	X	
		More than 20,000 square feet in gross floor area	X	

[**ARC 7760C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/24/26]

These rules are intended to implement Iowa Code section 544A.18.

CHAPTER 1066
DISCIPLINARY ACTION AGAINST LICENSEES

[Previously Ch 4; Ch 5, IAB 3/2/83]
[Prior to 7/13/88, see Architectural Examiners, Board of[80]]
[Prior to 10/3/01, see 193B—Chapter 5]
[Prior to 6/24/26, see Architectural Examining Board[193B] Ch 6]

Chapter rescission date pursuant to Iowa Code section 17A.7: 5/22/29

481—1066.1(544A,272C) Disciplinary action. The architectural examining board has authority in Iowa Code chapters 544A, 17A and 272C to impose discipline for violations of these chapters and the rules promulgated thereunder.
[**ARC 7761C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/24/26]

481—1066.2(544A,272C) Investigation of complaints. The board will, upon receipt of a complaint in writing, or may, upon its own motion, pursuant to other evidence received by the board, review and investigate alleged acts or omissions that the board reasonably believes constitute cause under applicable law or administrative rules. In order to determine if probable cause exists for a hearing on a complaint, the investigators designated by the chairperson will investigate the allegations of the complaint. If the board determines that the complaint does not present facts that constitute a basis for disciplinary action, the board may take no further action.
[**ARC 7761C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/24/26]

481—1066.3(544A,272C) Peer investigative committee. A peer investigative committee may be appointed by the chairperson to investigate a complaint. The committee members will consist of one or more architects who have been licensed to practice in Iowa for at least five years, serving at the discretion of the chairperson. The committee will review and determine the facts of the complaint and make a report to the board in a timely manner.
[**ARC 7761C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/24/26]

481—1066.4(544A,272C) Investigation report. Upon completion of the investigation, the investigator(s) will prepare for the board's consideration a report containing the position or defense of the licensee to determine what further action is necessary. The board may:

1. Order the matter be further investigated.
2. Allow the licensee who is the subject of the complaint an opportunity to appear before a committee of the board for an informal discussion regarding the circumstances of the alleged violation.
3. Determine there is no probable cause to believe a disciplinary violation has occurred and close the case.
4. Determine there is probable cause to believe that a disciplinary violation has occurred.

[**ARC 7761C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/24/26]

481—1066.5(544A,272C) Informal discussion. If the board considers it advisable, or if requested by the affected licensee, the board may grant the licensee an opportunity to appear before the board or a committee of the board for a voluntary informal discussion of the facts and circumstances of an alleged violation. The licensee may be represented by legal counsel at the informal discussion. The licensee is not required to attend the informal discussion.

Unless disqualification is waived by the licensee, board members who personally investigated a disciplinary complaint are disqualified from making decisions at a later formal hearing. Because board members generally rely upon staff, investigators, auditors, peer review committees, or expert consultants to conduct investigations, the issue rarely arises. An informal discussion, however, is a form of investigation because it is conducted in a question-and-answer format. In order to preserve the ability of all board members to participate in board decision making, licensees who desire to attend an informal discussion will therefore waive their right to seek disqualification of a board member or staff based solely on the board member's or staff's participation in an informal discussion. Licensees would not be waiving their

right to seek disqualification on any other ground. By electing to attend an informal discussion, a licensee accordingly agrees that participating board members or staff are not disqualified from acting as a presiding officer in a later contested case proceeding or from advising the decision maker.

Because an informal discussion constitutes a part of the board's investigation of a pending disciplinary case, the facts discussed at the informal discussion may be considered by the board in the event the matter proceeds to a contested case hearing and those facts are independently introduced into evidence. The board may seek a consent order at the time of the informal discussion. If the parties agree to a consent order, a statement of charges will be filed simultaneously with the consent order.

[**ARC 7761C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/24/26]

481—1066.6(544A,272C) Decisions. The board will make findings of fact and conclusions of law and may take one or more of the following actions:

1066.6(1) Dismiss the charges.

1066.6(2) Revoke the architect's license.

1066.6(3) Suspend the licensee's license as authorized by law.

1066.6(4) Impose civil penalties, not to exceed $1,000. Civil penalties may be imposed for any of the disciplinary violations specified in Iowa Code sections 544A.13 and 544A.15 and these rules. Factors the board may consider when determining whether to assess civil penalties and the amount to assess include:

a. Whether other forms of discipline are being imposed for the same violation.

b. Whether the amount imposed will be a substantial deterrent to the violation.

c. The circumstances leading to the violation.

d. The severity of the violation and the risk of harm to the public.

e. The economic benefits gained by the licensee as a result of the violation.

f. The interest of the public.

g. Evidence of reform or remedial action.

h. Time lapsed since the violation occurred.

i. Whether the violation is a repeat offense following a prior cautionary letter, disciplinary order, or other notice of the nature of the infraction.

j. The clarity of the issues involved.

k. Whether the violation was willful and intentional.

l. Whether the licensee acted in bad faith.

m. The extent to which the licensee cooperated with the board.

n. Whether the licensee practiced architecture with a lapsed, inactive, suspended or revoked certificate of licensure.

1066.6(5) Impose a period of probation, either with or without conditions.

1066.6(6) Require reexamination, using one or more parts of the examination given to architectural licensee candidates.

1066.6(7) Require additional professional education, reeducation, or continuing education.

1066.6(8) Issue a citation and a warning.

1066.6(9) Issue a consent order.

[**ARC 7761C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/24/26]

481—1066.7(544A,272C) Voluntary surrender. Voluntary surrender of licensure is considered as disciplinary action. The board may accept the voluntary surrender of a license to resolve a pending disciplinary contested case or pending disciplinary investigation. The board will not accept a voluntary surrender of a license to resolve a pending disciplinary investigation unless a statement of charges is filed along with the order accepting the voluntary surrender. Such voluntary surrender is considered disciplinary action and will be published in the same manner as is applicable to any other form of disciplinary order.

[**ARC 7761C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/24/26]

These rules are intended to implement Iowa Code section 544A.13 and chapter 272C.

CHAPTER 1067
DISCIPLINARY ACTION—UNLICENSED PRACTICE

[Previously Ch 4; Ch 5, IAB 3/2/83]
[Prior to 7/13/88, see Architectural Examiners, Board of[80]]
[Prior to 10/3/01, see 193B—Chapter 5]
[Prior to 6/24/26, see Architectural Examining Board[193B] Ch 7]

Chapter rescission date pursuant to Iowa Code section 17A.7: 5/22/29

481—1067.1(544A,272C) Disciplinary action. The architectural examining board has authority in Iowa Code chapters 544A, 17A and 272C to impose discipline for violations of these chapters and the rules promulgated thereunder.
[**ARC 7762C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/24/26]

481—1067.2(544A,272C) Investigation of complaints. The board will, upon receipt of a complaint in writing, or may, upon its own motion, pursuant to other evidence received by the board, review and investigate alleged acts that the board reasonably believes constitute cause under applicable law or administrative rules. In order to determine if probable cause exists for a hearing on a complaint, the investigators designated by the chairperson will investigate the allegations of the complaint. If the board determines that the complaint does not present facts that constitute a basis for disciplinary action, the board may take no further action.
[**ARC 7762C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/24/26]

481—1067.3(544A) Civil penalties against unlicensed person. The board may impose civil penalties by order against a person who is not licensed as an architect pursuant to Iowa Code chapter 544A based on the unlawful practices specified in Iowa Code section 544A.15(3). In addition to the procedures set forth in Iowa Code section 544A.15(3), this rule applies.

1067.3(1) The notice of the board's intent to impose a civil penalty required by Iowa Code section 544A.15(3) may be served upon the unlicensed person by restricted certified mail, return receipt requested, or personal service in accordance with Rule of Civil Procedure 1.305. Alternatively, the unlicensed person may accept service personally or through authorized counsel. The notice includes the following:

a. A statement of the legal authority and jurisdiction under which the proposed civil penalty would be imposed.

b. Reference to the particular sections of the statutes and rules involved.

c. A short, plain statement of the alleged unlawful practices.

d. The dollar amount of the proposed civil penalty.

e. Notice of the unlicensed person's right to a hearing and the time frame in which a hearing is requested.

f. The address to which written request for hearing is made.

1067.3(2) Unlicensed persons need to request a hearing in writing within 30 days of the date the notice is mailed, if served through restricted certified mail to the last-known address, or within 30 days of the date of service, if service is accepted or made in accordance with Rule of Civil Procedure 1.305. A request for hearing is deemed made on the date of the United States Postal Service postmark or the date of personal service.

1067.3(3) If a request for hearing is not timely made, the board chair or the chair's designee may issue an order imposing the civil penalty described in the notice. The order may be mailed by regular first-class mail or served in the same manner as the notice of intent to impose civil penalty.

1067.3(4) If a request for hearing is timely made, the board issues a notice of hearing and conducts a hearing in the same manner as applicable to disciplinary cases against licensed architects.

1067.3(5) In addition to the factors set forth in Iowa Code section 544A.15(3), the board may consider the following when determining the amount of civil penalty to impose, if any:

a. The time lapsed since the unlawful practice occurred.

b. Evidence of reform or remedial actions.

c. Whether the violation is a repeat offense following a prior warning letter or other notice of the nature of the infraction.

d. Whether the violation involved an element of deception.

e. Whether the unlawful practice violated a prior order of the board, court order, cease and desist agreement, consent order, or similar document.

f. The clarity of the issue involved.

g. Whether the violation was willful and intentional.

h. Whether the unlicensed person acted in bad faith.

i. The extent to which the unlicensed person cooperated with the board.

1067.3(6) An unlicensed person may waive the right to hearing and all attendant rights and enter into a consent order imposing a civil penalty at any stage of the proceeding upon mutual consent of the board.

1067.3(7) The notice of intent to impose civil penalty and order imposing civil penalty are public records available for inspection and copying in accordance with Iowa Code chapter 22. Copies may be provided to the media, the National Council of Architectural Registration Boards, and other entities. Hearings are open to the public.

[**ARC 7762C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/24/26]

CHAPTERS 1068 to 1080
Reserved

LANDSCAPE ARCHITECTURAL EXAMINING BOARD

CHAPTER 1081
DESCRIPTION OF ORGANIZATION

[Prior to 3/9/88, see Landscape Architectural Examiners Board[540] Ch 1]
[Prior to 6/10/26, see Landscape Architectural Examining Board[193D] Ch 1]

Chapter rescission date pursuant to Iowa Code section 17A.7: 6/4/30

481—1081.1(544B,17A) Definitions. As used in these rules, the following definitions of words and terms shall apply:

"Board" means the landscape architectural examining board.

"CLARB" means the Council of Landscape Architectural Registration Boards.

"Evidence" means any document or record of any kind of drawings, specifications, photographs, diplomas, licensee statements, published data and certified personal statements as may be required as a part of any action on the part of the board. Each item of evidence shall be clearly marked to ensure positive and certain identification. It is the responsibility of the applicant to satisfy the board as to the sufficiency of the record and the evidence.

"Inactive" means that a landscape architect is not engaged in Iowa in any practice for which a certificate of licensure is required.

"Intern landscape architect" means an individual who is not licensed and has a degree in landscape architecture and is employed under the direct supervision of a professional landscape architect. The initials "I.L.A." should not be used.

"LARE" means the Landscape Architecture Registration Examination.

"Practice of landscape architecture" means the performance of professional service or offering to render professional services to clients, including any one or any combination of the professional services defined in Iowa Code section 544B.1(2).

"Professional landscape architect" means a person who obtains a license and engages in the practice of landscape architecture under the authority of Iowa Code chapter 544B. For the purposes of these rules, a professional landscape architect may be referred to as a landscape architect and may use the initials "P.L.A."

"Years of practical experience" means, for each year of practical experience the applicant has worked performing landscape architectural services, a minimum of 2,080 hours per year.

[**ARC 9154C**, IAB 4/30/25, effective 6/4/25; Editorial change: IAC Supplement 6/10/26]

481—1081.2(544B,17A) Organization and duties. The board consists of five licensed professional landscape architects and two members who are not licensed professional landscape architects and who represent the general public.

1081.2(1) *Qualifications of professional landscape architect board members.* Four of the five professional members will be actively engaged in the practice of landscape architecture or the teaching of landscape architecture in an accredited college or university and shall have been so engaged for five years preceding appointment, the last two of which shall have been in Iowa. One of the five professional members will be actively engaged in the practice of landscape architecture or the teaching of landscape architecture in an accredited college or university and may have been so engaged for fewer than five years preceding.

1081.2(2) *Election of chairperson and vice chairperson.* The board elects annually from its members a chairperson and a vice chairperson. A quorum of the board will be four members, and all final motions and actions must receive a vote by a majority of the members of the board.

1081.2(3) *Duties of board.* The board enforces the provisions of Iowa Code chapter 544B and makes rules for the examination of applications for licensure. The board keeps records of its proceedings. The board adopts an official seal that is affixed to all certificates of licensure granted. The board makes other rules, not inconsistent with law, as necessary for the proper performance of its duties. The board maintains a roster showing the name, place of business, residence, and date and number of the certificate of licensure of every professional landscape architect in the state.

1081.2(4) *Duties of chairperson.* The chairperson will, when present, preside at meetings, appoint committees, and perform all duties and powers of the chairperson.

1081.2(5) *Duties of vice chairperson.* The vice chairperson will, in the absence or incapacity of the chairperson, exercise the duties and powers of the chairperson.

[**ARC 9154C**, IAB 4/30/25, effective 6/4/25; Editorial change: IAC Supplement 6/10/26]

481—1081.3(544B,17A) Meetings. Calls for meetings are issued in accordance with Iowa Code section 21.4.

[**ARC 9154C**, IAB 4/30/25, effective 6/4/25; Editorial change: IAC Supplement 6/10/26]

481—1081.4(544B,17A) Order of business. The board executive will prepare an agenda listing all matters to be discussed at meetings. A copy of this agenda will be available to each member of the board.

[**ARC 9154C**, IAB 4/30/25, effective 6/4/25; Editorial change: IAC Supplement 6/10/26]

481—1081.5(17A) Interim waivers. In addition to the provisions of 7—Chapter 2504, the following will apply for interim rulings:

1081.5(1) The board chairperson, or vice chairperson if the chairperson is not available, may rule on a petition for waiver when it would not be timely to wait for the next regularly scheduled board meeting for a ruling from the board.

1081.5(2) The board administrator, upon receipt of a petition that meets all applicable criteria established in 7—Chapter 2504, will present the request to the board chairperson or vice chairperson along with all pertinent information regarding established precedent for granting or denying such requests.

1081.5(3) The chairperson or vice chairperson will reserve the right to hold an electronic meeting of the board when prior board precedent does not clearly resolve the request, input of the board is deemed required and the practical result of waiting until the next regularly scheduled meeting would be a denial of the request due to timing issues.

1081.5(4) A waiver report will be placed on the agenda of the next regularly scheduled board meeting and recorded in the minutes of the meeting.

1081.5(5) This rule on interim rulings does not apply if the waiver was filed in a contested case.

[**ARC 9154C**, IAB 4/30/25, effective 6/4/25; Editorial change: IAC Supplement 6/10/26; Editorial change: IAC Supplement 8/5/26]

These rules are intended to implement Iowa Code sections 544B.3, 544B.5, and 544B.15.

CHAPTER 1082
EXAMINATIONS AND LICENSING

[Prior to 3/9/88, see Landscape Architectural Examiners Board[540] Ch 2]
[Prior to 6/10/26, see Landscape Architectural Examining Board[193D] Ch 2]

Chapter rescission date pursuant to Iowa Code section 17A.7: 6/4/30

481—1082.1(544B,17A) Application for licensure by examination.

1082.1(1) Candidates will contact CLARB to start the examination licensure process by creating a council record. A candidate's council record will include verified history of the candidate's education, experience, examination and licensure history, and professional references and is used to apply for examination, licensure and certification.

1082.1(2) The candidate who successfully completes the LARE will complete an online application for certificate of licensure to the board after meeting one of the requirements listed below and requesting that the candidate's council record be transmitted to the board.

a. Graduation from a course in landscape architecture in a school, college, or university offering an accredited minimum four-year curriculum in landscape architecture, and a minimum of three years of practical experience in landscape architectural work that in the opinion of the board is of satisfactory character, at least one year of which must be under the supervision of a professional landscape architect or a person who becomes a professional landscape architect within one year after July 1, 2002.

b. Graduation from a nonaccredited course of landscape architecture of a minimum of four years in a school, college, or university and a minimum of four years of practical experience in landscape architectural work that in the opinion of the board is of satisfactory character, at least one year of which must be under the supervision of a professional landscape architect.

c. A minimum of ten years of practical experience in landscape architectural work that in the opinion of the board is of satisfactory character to properly prepare the applicant for the examination.

1082.1(3) A satisfactorily completed year of study in an accredited course of landscape architecture in an accredited school, college, or university may be accepted in lieu of one year of practical experience.

1082.1(4) A master's degree from an accredited school, college, or university may be accepted in lieu of one year of practical experience.

1082.1(5) Any four-year college or university degree may be accepted in lieu of two years of practical experience.

[**ARC 9155C**, IAB 4/30/25, effective 6/4/25; Editorial change: IAC Supplement 6/10/26]

481—1082.2(544B,17A) Procedure for processing applications. The board executive will determine when the legal requirements for licensure have been satisfied with regard to issuance of certificates, licenses or registrations, and the board executive will submit to the board any questionable application. An applicant's personal appearance before the board, if required, will be at the time and place designated by the board. Failure to supply additional evidence or information within 30 days from the date of the written request from the board, or failure to appear before the board when an appearance is requested, may be considered cause for disapproval of the application. Unless otherwise provided by law, a request for a rehearing before the board will be filed with the board in accordance with rule 481—506.26(17A). A judicial review can be filed in accordance with Iowa Code section 17A.19.

[**ARC 9155C**, IAB 4/30/25, effective 6/4/25; Editorial change: IAC Supplement 6/10/26]

481—1082.3(544B,17A) Registration of applicants. Applicants must meet the requirements of Iowa Code section 544B.9 for registration.

[**ARC 9155C**, IAB 4/30/25, effective 6/4/25; Editorial change: IAC Supplement 6/10/26]

481—1082.4(544B,17A) Written examination. The written examination will consist of the professional landscape architectural licensure examination published by CLARB and may include supplementary questions developed by the board.

[**ARC 9155C**, IAB 4/30/25, effective 6/4/25; Editorial change: IAC Supplement 6/10/26]

481—1082.5(544B,17A) Exemption from written examination. The board may exempt from written examination an applicant who meets one of the following criteria:

1082.5(1) The applicant holds a current CLARB certificate;

1082.5(2) The applicant holds a license to practice landscape architecture issued upon written examination by another jurisdiction and has submitted a certificate from the jurisdiction of original licensure verifying that the applicant passed the examination in that jurisdiction; or

1082.5(3) The applicant:

a. Holds an active license to practice landscape architecture issued by another jurisdiction whose current licensure requirements, including the examination requirements, are substantially equivalent to or exceed those required for licensure as a landscape architect in Iowa, and during the time period in which the applicant was issued an initial license in the other jurisdiction, that jurisdiction did not require a written examination for initial applicants but did require board review and approval of education and experience designed to demonstrate competence to practice;

b. Was grandfathered in under the laws of the other jurisdiction before written examinations for initial licensure were mandated by the other jurisdiction; and

c. Submits a certificate from the jurisdiction of original licensure verifying that the applicant was licensed during the period in which there was no written examination and submits proof of license in good standing.

[**ARC 9155C**, IAB 4/30/25, effective 6/4/25; Editorial change: IAC Supplement 6/10/26]

481—1082.6(544B,17A) Certificate of licensure. When an applicant has qualified for licensure under this chapter and has paid the required license fee, board staff will enroll the applicant's name in the roster of professional landscape architects and issue to the applicant a certificate of licensure.

1082.6(1) *License number.* The certificate will indicate the license number of the landscape architect that must appear on the professional landscape architect's seal and on all works signed by the professional landscape architect.

1082.6(2) *Certificate.* Only one certificate of licensure will be issued to a professional landscape architect. The certificate will be displayed in a conspicuous place at the place of employment.

[**ARC 9155C**, IAB 4/30/25, effective 6/4/25; Editorial change: IAC Supplement 6/10/26]

481—1082.7(17A,272C,544B) Renewal of certificates of licensure. Certificates of licensure expire biennially on June 30. In order to maintain authorization to practice in Iowa, a licensee is required to renew the certificate of licensure prior to July 1 of the year of expiration. A licensee who fails to renew by the expiration date is not authorized to practice landscape architecture in Iowa until the certificate is reinstated as provided in rule 481—1082.8(544B,17A).

1082.7(1) It is the policy of the board to email to each licensee a notice of the pending expiration date at the licensee's last-known address approximately one month prior to the date the certificate of licensure is scheduled to expire. Failure to receive this notice does not relieve the licensee of the responsibility to timely renew the certificate and pay the renewal fee. A licensee should contact the board office if the licensee does not receive a renewal notice prior to the date of expiration.

1082.7(2) If grounds exist to deny a timely and sufficient application to renew, the board will send notification to the applicant. Grounds may exist to deny an application to renew if, for instance, the licensee failed to satisfy the continuing education as required as a condition for licensure. If the basis for denial is pending disciplinary action or disciplinary investigation that is reasonably expected to culminate in disciplinary action, the board will proceed as provided in 481—Chapter 506. If the basis for denial is not related to a pending or imminent disciplinary action, the applicant may contest the board's decision as provided in rule 481—506.33(17A,272C).

1082.7(3) When a licensee appears to be in violation of mandatory continuing education requirements, and after or in lieu of giving the licensee an opportunity to come into compliance under 481—subrule 1083.3(3), the board may, in lieu of proceeding to a contested case hearing on the denial of a renewal application as provided in rule 481—Chapter 506, offer the licensee the opportunity to sign a consent order. While the terms of the consent order will be tailored to the specific circumstances at issue, the consent order will typically impose a penalty between $50 and $250, depending on the severity of the

violation; establish deadlines for compliance; and require that the licensee complete hours equal to double the deficiency in addition to the required hours; and may impose additional educational requirements on the licensee. Any additional hours completed in compliance with the consent order cannot again be claimed at the next renewal. The board will address subsequent offenses on a case-by-case basis. A licensee is free to accept or reject the offer. If the offer of settlement is accepted, the licensee will be issued a renewed certificate of licensure and will be subject to disciplinary action if the terms of the consent order are not complied with. If the offer of settlement is rejected, the matter will be set for hearing, if timely requested by the licensee pursuant to 481—Chapter 506.

1082.7(4) The board may notify licensees whose certificates of licensure have expired. The failure of the board to provide this courtesy notification or the failure of the licensee to receive the notification will not extend the date of expiration.

1082.7(5) A licensee who continues to practice landscape architecture in Iowa after licensure has expired will be subject to disciplinary action. Such unauthorized activity may also be grounds to deny a licensee's application for reinstatement.

1082.7(6) Licensees will notify the board within 30 days of any change of address or business connection.

1082.7(7) Inactive status. This subrule establishes a procedure under which a person issued a certificate of licensure as a landscape architect may apply to the board to register as inactive. Licensure under this subrule is available to a licensee residing within or outside the state of Iowa who is not using the title "landscape architect" while offering services as a landscape architect. A person eligible to register as inactive may, as an alternative to licensure, allow the certificate of licensure to lapse. During any period of inactive status, a person will not engage in the practice of landscape architecture while using the title "landscape architect" or any other title that might imply that the person is offering services as a landscape architect in violation of Iowa Code section 544B.18. The board will continue to maintain a database of persons licensed as inactive, including information that is not routinely maintained after a certificate of licensure has lapsed through the person's failure to renew. A person who registers as inactive will accordingly receive a renewal notice if the notice is sent by the board, board newsletters, and other mass communications from the board.

a. Affirmation. The renewal application will contain a statement in which the applicant affirms that the applicant will not engage in the practice of landscape architecture while using the title "landscape architect" in violation of Iowa Code section 544B.18, without first complying with all rules governing reinstatement to active status. A person on inactive status may reinstate to active status at any time pursuant to rule 481—1082.8(544B,17A).

b. Renewal. A person licensed as inactive may renew the person's certificate of licensure on the biennial schedule described in this rule. This person will be exempt from the continuing education requirements and will be charged a reduced renewal fee as provided in rule 481—1082.10(544B,17A). An inactive certificate of licensure will lapse if not timely renewed.

c. Permitted practices. A person may, while licensed as inactive, perform for a client, business, employer, government body, or other entity those services that may lawfully be provided by a person to whom a certificate of licensure has never been issued. For an "inactive" licensee, such services may be performed as long as the person does not in connection with such services use the title "landscape architect" or any other title restricted for use only by landscape architects pursuant to Iowa Code section 544B.18 (with or without additional designations such as "inactive"). Restricted titles may be used only by active landscape architects who are subject to continuing education requirements to ensure that the use of such titles is consistently associated with the maintenance of competency through continuing education.

d. Prohibited practices. A person who, while licensed as inactive, engages in any of the practices described in Iowa Code section 544B.18 is subject to disciplinary action.

[**ARC 9155C**, IAB 4/30/25, effective 6/4/25; Editorial change: IAC Supplement 6/10/26]

481—1082.8(544B,17A) Reinstatement.

1082.8(1) An individual may reinstate a lapsed certificate of licensure to active status as follows:

a. Pay the current renewal fee;

b. Pay the reinstatement fee of $100 plus $25 per month or partial month of expired licensure up to a maximum of $750. All applicants for reinstatement shall be assessed the $100 reinstatement fee. The $25-per-month fee shall not be assessed if the applicant for reinstatement did not, during the period of lapse, engage in any acts or practices for which an active landscape architect license is required in Iowa. Falsely claiming an exemption from the monthly fee is a ground for discipline; in addition, other grounds for discipline may arise from practicing on a lapsed certificate, license or permit to practice;

c. Provide a written statement outlining the professional activities that the applicant performed in Iowa during the period of nonlicensure. The statement shall include a list of all projects with which the applicant had involvement and shall explain the service provided by the applicant; and

d. Submit documented evidence of completion of continuing education based on the licensee's date of licensure.

(1) A professional landscape architect who holds a license in Iowa for less than 12 months from the date of initial licensure will not be required to report continuing education on the June 30 renewal on which the applicant failed to renew and 12 continuing education hours for each year or portion of a year of expired licensure up to a maximum of 48 continuing education hours; however, the hours reported will not have been earned more than four years prior to the date of the application to reinstate to active status.

(2) A professional landscape architect who holds a license in Iowa for more than 12 months, but less than 24 months from the date of initial licensure, will be required to report 12 contact hours that should have been reported on the June 30 renewal on which the applicant failed to renew and 12 continuing education hours for each year or portion of a year of expired licensure up to a maximum of 48 continuing education hours; however, the hours reported will not have been earned more than four years prior to the date of the application to reinstate to active status.

(3) A professional landscape architect who holds a license in Iowa for 24 months or more from the date of initial licensure will be required to report 24 contact hours that should have been reported on the June 30 renewal on which the applicant failed to renew and 12 continuing education hours for each year or portion of a year of expired licensure up to a maximum of 48 continuing education hours; however, the hours reported shall not have been earned more than four years prior to the date of the application to reinstate to active status.

(4) All continuing education hours must be completed in health, safety, and welfare subjects acquired in structured educational activities and be in compliance with the requirements in 481—Chapter 1083. The continuing education hours used for reinstatement may not be used again at the next renewal.

(5) Out-of-state residents may submit a statement from their resident state's licensing board as documented evidence of compliance with their resident state's mandatory continuing education requirements during the period of nonlicensure. The statement will bear the seal of the licensing board. Out-of-state residents whose resident state has no mandatory continuing education will comply with the documented evidence requirements outlined in this subrule.

1082.8(2) An individual may reinstate an inactive license to an active license as follows:

a. The individual will pay the current active licensure fee. If the individual is reinstating to active status at a date that is less than 12 months from the next biennial renewal date, one-half of the current active licensure fee will be paid.

b. The individual will submit documented evidence of completion of 24 contact hours of continuing education in health, safety, and welfare subjects in compliance with the requirements in 481—Chapter 1083. The continuing education hours used for reinstatement to active status cannot be used again at the next renewal.

c. The individual will complete the appropriate continuing education for subsequent renewals.

(1) At the first biennial renewal date of July 1 that is less than 12 months from the date of the filing of the application to restore the certificate of licensure to active status, the individual will not be required to report continuing education.

(2) At the first biennial renewal date of July 1 that is more than 12 months, but less than 24 months, from the date of the filing of the application to restore the certificate of licensure to active status, the individual will report 12 hours of previously unreported continuing education.

d. The individual will provide a written statement in which the applicant affirms that the applicant has not engaged in any of the practices in Iowa that are listed in Iowa Code section 544B.1(2) during the period of inactive licensure.

1082.8(3) The board will review reinstatement applications on a case-by-case basis and may, at its discretion, require that the applicant take the LARE as a prerequisite to reinstatement to active status.

[**ARC 9155C**, IAB 4/30/25, effective 6/4/25; Editorial change: IAC Supplement 6/10/26]

481—1082.9(544B,17A) Responsibility for accuracy of applications. The landscape architect is responsible for verifying the accuracy of the information submitted on applications regardless of how the application is submitted or by whom it is submitted. For instance, if the office manager of a landscape architect's firm submits an application for renewal on behalf of the landscape architect and that information is incorrect, the landscape architect will be held responsible for the information and may be subject to disciplinary action.

[**ARC 9155C**, IAB 4/30/25, effective 6/4/25; Editorial change: IAC Supplement 6/10/26]

481—1082.10(544B,17A) Fee schedule. The appropriate fee shall accompany the application.

Fees for examination subjects shall be paid directly to the testing service selected by CLARB.	
Exemption fee	$300
(This certificate of licensure is to be effective to the June 30 which is at least 12 months beyond the date of the application.)	
Wall certificate replacement fee	$25
Certificate of licensure fee	$15/month
(This certificate of licensure is to be effective the day of board action until June 30.)	
Biennial licensure fee (active)	$350
Biennial licensure fee (inactive)	$100
Reinstatement of lapsed licensure to active status	$100 + renewal fee + $25 per month or partial month of lapsed licensure; not to exceed $750
Reinstatement of inactive or retired status to active status	$350
(If less than 12 months from the next biennial renewal, one-half of the current active licensure fee shall be paid.)	
Prelicense determination fee	$25

[**ARC 9155C**, IAB 4/30/25, effective 6/4/25; Editorial change: IAC Supplement 6/10/26]

Chapter rescission date pursuant to Iowa Code section 17A.7: 6/4/30

481—1083.1(544B,17A) Definitions. As used in these rules, the following definitions will apply:

"Distance learning" means any education process based on the geographical separation of student and instructor. "Distance learning" includes computer-generated programs, webinars, and home-study/correspondence programs.

"Health, safety, and welfare subjects" means technical and professional subjects that the board deems appropriate to directly safeguard the public's health, safety, and welfare. Such subjects include design, environmental systems, site design, land use analyses, landscape architecture programming, grading and drainage, storm water management, erosion control, site and soil analyses, accessibility, building codes, review of state registration laws including the rules of professional conduct, evaluation and selection of products and materials, cost analysis, construction methods, contract documentation, construction contract administration, construction administration, construction-phase office procedures, project management, and the like.

"Hours of continuing education" means a contact hour spent in either structured educational activities or individually planned activities intended to increase the professional landscape architect's knowledge and competence in public protection subjects and related practice subjects. "Contact hour" is defined as the typical 50-minute classroom instructional session or its equivalent.

"Structured educational activities" means educational activities in which the teaching methodology consists primarily of systematic presentation of public protection subjects or related practice subjects by qualified individuals or organizations including monographs, courses of study taught in person or by correspondence, organized lectures, presentations or workshops, and other means through which identifiable technical and professional subjects are presented in a planned manner.

[**ARC 9156C**, IAB 4/30/25, effective 6/4/25; Editorial change: IAC Supplement 6/10/26]

481—1083.2(544B,17A) Continuing education requirements. In order for professional landscape architects to provide competent, professional services to the public, continuing education will consist of learning experiences that enhance, expand and keep current the skills, knowledge, and abilities of practicing professionals. Professional landscape architects may pursue learning experiences in technical, nontechnical, regulatory, ethics and business practice areas, provided that the continuing education directly benefits the health, safety, and welfare of the public.

1083.2(1) Hours required. Each registrant will complete during each two-year licensing term a minimum of 24 hours of continuing education approved by the board. Compliance with the continuing education requirements is a prerequisite for license renewal.

1083.2(2) Within any biennial renewal period, 24 hours of continuing education must be acquired and will be in health, safety, and welfare subjects acquired in structured educational activities. A licensee may apply up to 12 continuing education hours obtained in excess of the requirement for a renewal period to the continuing education requirements for the following renewal period. Continuing education hours may be acquired in any location.

1083.2(3) A professional landscape architect who holds a license in Iowa for less than 12 months from the date of initial licensure will not be required to report continuing education at the first license renewal. A professional landscape architect who holds a license in Iowa for more than 12 months but less than 24 months from the date of initial licensure will be required to report 12 hours of continuing education in health, safety, and welfare subjects earned in the preceding 12 months at the first license renewal.

1083.2(4) Sources of continuing education. The following suggested list may be used by all licensees to determine the types of activities that may fulfill the continuing education requirements. All hours of continuing education must also comply with the directive in subrule 1083.2(2).

a. Hours of continuing education in attendance at short courses or seminars dealing with landscape architectural subjects and sponsored by colleges, universities or professional organizations.

b. Hours of continuing education in attendance at presentations on landscape architectural subjects that are held in conjunction with conventions or at seminars related to material use and function. Presentations such as those presented by CLARB, American Society of Landscape Architects, Construction Specification Institute, Construction Products Manufacturers Council or similar organizations devoted to landscape architecture education may qualify.

c. Hours of continuing education in attendance at short courses or seminars relating to business practice or new technology and offered by colleges, universities, professional organizations or system suppliers.

d. Hours of continuing education spent presenting or teaching courses or seminars in landscape architecture. Three preparation hours may be claimed for each class hour spent teaching landscape architectural courses or seminars. College or university faculty members may not claim credit for teaching regular curriculum courses.

e. Hours of continuing education spent learning through professional service to the public that draws upon the licensee's professional expertise on boards and commissions, such as serving on planning commissions, building code advisory boards, urban renewal boards, code study commissions or community boards. Hours of continuing education under this paragraph will be limited to six hours earned in any biennial renewal period.

f. Hours of continuing education spent in landscape architectural research that is published or formally presented to the profession or public. Credit may be claimed only following proof of publication or presentation. Hours of continuing education under this paragraph will be limited to 12 hours earned in any biennial renewal period.

g. Hours of continuing education spent in distance learning that concludes with an examination or other verification of course completion.

h. College or university courses dealing with landscape architectural subjects or business practices. Each semester hour equals 15 hours of continuing education. A quarter hour equals ten hours of continuing education.

i. Hours of continuing education spent in educational tours or tours in areas significant to landscape architecture when the tour is sponsored by college, university or professional organizations and verification of participation is provided by the tour sponsor. Self-guided tours do not qualify. Hours of continuing education under this paragraph will be limited to six hours earned in any biennial renewal period.

j. Hours of continuing education spent attending in-house educational programs, including dinner, luncheon, and breakfast meetings.

1083.2(5) Financing. It is the responsibility of each licensee to finance the costs for continuing education.

[**ARC 9156C**, IAB 4/30/25, effective 6/4/25; Editorial change: IAC Supplement 6/10/26]

481—1083.3(544B,17A) Compliance.

1083.3(1) Each professional landscape architect will file with the board a signed report, under penalty of perjury, on forms provided by the board or by online renewal, setting forth the continuing education activities in which the professional landscape architect has participated. The report will be filed with the renewal application for each two-year renewal period in which the claimed hours of continuing education were completed. The information in the report will include:

a. The school, firm or organization conducting the course.

b. The location of the course.

c. The title of the course and a description of the content.

d. Names of the principal instructor(s).

e. The dates attended.

f. All hours claimed.

g. In instances of service on a professional or community board, or other undocumented hours of continuing education (non-health, safety, and welfare documentation such as learning units or professional development hours), the licensee will provide a narrative description of the materials the licensee reviewed,

the nature of the licensee's service, and a description as to how the licensee's claimed hours of continuing education have contributed to the health, safety, and welfare of the public.

This information shall be kept by the licensee for reported hours of continuing education for two years.

1083.3(2) A professional landscape architect's continuing education report forms or online renewal may be selected for review by the board for verification of compliance with these requirements. Evidence of compliance will be maintained by the professional landscape architect for two years after the period for which the form was submitted and will include written verification of attendance by someone other than the licensee. Examples of evidence may include but are not limited to a certificate of completion presented by the program sponsor, a letter from an employer verifying attendance at an in-firm training session, or copies of minutes from public service meetings. Canceled checks, slideshow presentations, email confirmation or receipts for payments of fees to attend a program are not evidence of actual attendance and are not acceptable.

1083.3(3) Any discrepancy between the number of continuing education hours reported and the number of continuing education hours actually supported by documentation may result in a disciplinary review. If, after the disciplinary review, the board disallows any continuing education hours, or the licensee has failed to complete the required continuing education hours, the landscape architect will have 60 days from board notice to either provide further evidence of having completed the continuing education hours disallowed or remedy the discrepancy by completing the required number of continuing education hours (provided that such continuing education hours will not again be used for the next renewal). Extension of time may be granted on an individual basis and will be requested by the licensee within 30 days of notification by the board. If the licensee fails to comply with the requirements of this subrule, the licensee may be subject to disciplinary action.

[**ARC 9156C**, IAB 4/30/25, effective 6/4/25; Editorial change: IAC Supplement 6/10/26]

481—1083.4(544B,17A) Hearings. In the event of denial, in whole or in part, of any application for approval of credit for continuing education activity, the licensee will have the right, within 20 days after the date of notification of the denial by mail, to request a hearing by the board. The hearing will be held within 60 days after receipt of the request for the hearing. The decision of the board will be final.

[**ARC 9156C**, IAB 4/30/25, effective 6/4/25; Editorial change: IAC Supplement 6/10/26]

481—1083.5(544B,17A) Physical disability, illness, hardship, or extenuating circumstances. The board may, in individual cases involving physical disability, illness (certified by a medical doctor), hardship, or extenuating circumstances, grant waivers of the continuing education requirements for a period of time not to exceed one year. No waiver or extension of time will be granted unless the licensee makes a written request to the board for such action.

[**ARC 9156C**, IAB 4/30/25, effective 6/4/25; Editorial change: IAC Supplement 6/10/26]

481—1083.6(544B,17A) Methods of compliance and exemptions.

1083.6(1) A licensee licensed to practice as a professional landscape architect will be deemed to have complied with the continuing education requirements during the continuing education compliance period that the licensee:

a. Serves honorably on active duty in the military service; or

b. Resides in another state or district having a continuing education requirement for the occupation or profession and meets all the requirements of that state or district for practice therein; or

c. Is a government employee working as a professional landscape architect and assigned to duty outside the United States; or

d. Is approved by the board for periods of active practice and absence from the state.

1083.6(2) If the licensee was not engaged in active practice as a professional landscape architect and will maintain inactive status during the period for which renewal is requested, the board may exempt the licensee from continuing education. No exemption will be granted without a written request from the licensee.

[**ARC 9156C**, IAB 4/30/25, effective 6/4/25; Editorial change: IAC Supplement 6/10/26]

481—1083.7(544B,17A) Grounds for denial of license renewal. Failure of a licensee to complete the continuing education requirements as set forth in this chapter, failure to file a report of completed continuing education, or failure to submit a written request for waiver or exemption will be grounds for the board to deny renewal of the license.

[**ARC 9156C**, IAB 4/30/25, effective 6/4/25; Editorial change: IAC Supplement 6/10/26]

This chapter is intended to implement Iowa Code chapters 17A and 544B and Executive Order 10.

CHAPTER 1084
RULES OF PROFESSIONAL CONDUCT AND DISCIPLINE PROCEDURES

[Prior to 3/9/88, see Landscape Architectural Examiners Board[540] Ch 4]
[Prior to 6/10/26, see Landscape Architectural Examining Board[193D] Ch 4]

Chapter rescission date pursuant to Iowa Code section 17A.7: 6/4/30

481—1084.1(544B,17A) Rules of conduct. Failure by a licensee to adhere to the provisions of Iowa Code chapters 272C and 544B and rules implementing either chapter will be grounds for disciplinary action.

1084.1(1) *Definition.* The following definition applies as used in Iowa Code chapter 544B and this chapter unless the context otherwise requires.

"Official copy" means technical submission for purposes of required approval.

1084.1(2) *Competence.*

a. When practicing landscape architecture, a professional landscape architect will act with reasonable care and competence and will apply the technical knowledge and skill that is ordinarily applied by a landscape architect of good standing practicing in the same locality.

b. When designing a project, a professional landscape architect will take into account all applicable state and municipal building laws and regulations. While professional landscape architects may rely on the advice of other professionals (e.g., attorneys, architects, engineers and other qualified persons) as to the intent and meaning of the regulations, once such advice is obtained, a landscape architect will not knowingly design a project in violation of these laws and regulations.

c. A professional landscape architect will undertake to perform professional services only when the professional landscape architect together with those whom the professional landscape architect may engage as consultants are qualified by education, training and experience in the specific technical areas involved.

d. No person will be permitted to practice landscape architecture if, in the board's judgment, upon receipt of medical testimony or evidence, the person's professional competence is substantially impaired by physical or mental disabilities or substance abuse.

1084.1(3) *Conflict of interest.*

a. A professional landscape architect will not accept compensation for services from more than one party on a project unless the circumstances are fully disclosed and agreed to (such disclosures and agreement to be in writing) by all interested parties.

b. If a professional landscape architect has any business association or direct or indirect financial interest that is substantial enough to influence judgment in connection with the professional landscape architect's performance of professional services, the professional landscape architect will fully disclose, in writing, to the client or employer the nature of the business association or financial interest. If the client or employer objects to the association or financial interest, the professional landscape architect shall either terminate such association or interest or offer to give up the commission or employment.

c. A professional landscape architect will not solicit or accept compensation from material or equipment suppliers in return for specifying or endorsing the products.

d. When acting as the interpreter of building contract documents and the judge of contract performance, a professional landscape architect shall render decisions impartially, favoring neither party to the contract.

1084.1(4) *Full disclosure.*

a. A professional landscape architect making public statements on landscape architectural questions will disclose when compensation is being received for making the statements.

b. A professional landscape architect will accurately represent to a prospective or existing client or employer the professional landscape architect's qualifications and the scope of the professional landscape architect's responsibility in connection with work for which the professional landscape architect is claiming credit.

c. If, in the course of work on a project, a professional landscape architect becomes aware of an action taken by the employer or client against the professional landscape architect's advice that violates applicable state or municipal building laws and regulations and that will, in the professional landscape

architect's judgment, adversely affect the safety to the public of the finished project, the professional landscape architect shall:

(1) Report the decision to the local building inspector or other public official charged with enforcement of the applicable state or municipal building laws and regulations,

(2) Refuse to consent to the decision, and

(3) In circumstances when the professional landscape architect reasonably believes that other actions will be taken, notwithstanding the landscape architect's objection, terminate the professional landscape architect's services with reference to the project. In the case of a termination in accordance with this clause, the professional landscape architect will have no liability to the professional landscape architect's client or employer on account of such termination.

d. A professional landscape architect will not deliberately make a materially false statement or deliberately fail to disclose a material fact requested in connection with application for licensure or renewal of license.

e. A professional landscape architect will not assist in the application for licensure of a person known by the professional landscape architect to be unqualified with respect to education, training, experience or character.

f. A professional landscape architect possessing knowledge of a violation of these rules by another professional landscape architect will report the knowledge to the board.

1084.1(5) *Compliance with laws.*

a. A professional landscape architect will not, in the conduct of landscape architectural practice, knowingly violate any state or federal criminal law.

b. A professional landscape architect will neither offer nor make any payment to a government official (whether elected or appointed) with the intent of influencing the official's judgment in connection with a prospective or existing project in which the professional landscape architect is interested.

c. A professional landscape architect will comply with the licensure laws and regulations governing the landscape architect's professional practice in any United States jurisdiction.

1084.1(6) *Professional conduct.*

a. Each office maintained for the preparation of drawings, specifications, reports or other professional work will have a professional landscape architect regularly employed in or assigned to that office who has responsible control of such work.

b. A professional landscape architect will not sign or seal drawings, specifications, reports or other professional work for which the landscape architect does not have direct professional knowledge and direct supervisory control, provided, however, that in the case of the portions of professional work prepared by the landscape architect's consultants, licensed under this or another professional licensure law of this jurisdiction, the professional landscape architect may sign or seal that portion of the professional work if the landscape architect has reviewed that portion, has coordinated its preparation and intends to be responsible for its adequacy.

c. A professional landscape architect will neither offer nor make any gifts to any public official with the intent of influencing the official's judgment in connection with a project in which the professional landscape architect is interested. Nothing in this rule shall prohibit a professional landscape architect from providing landscape architect services as a charitable contribution.

d. A professional landscape architect will not engage in conduct involving fraud or wanton disregard of the rights of others.

1084.1(7) *Seal and certificate of responsibility.*

a. Each professional landscape architect will procure a seal with which to identify all technical submissions issued by the professional landscape architect for use in Iowa as provided in Iowa Code section 544B.12.

b. Description of seal. The diameter of the outside circle shall be approximately 1¾ inches. The seal will include the name of the professional landscape architect and the words "Professional Landscape Architect, State of Iowa." The professional landscape architect's Iowa license number will be included. The seal shall substantially conform to the sample shown below.

c. A legible rubber stamp, an electronic image or other facsimile of the seal may be used.

d. Each technical submission to a client or any public agency, hereinafter referred to as the official copy, will contain an information block on its first page or on an attached cover sheet with application of a seal by the professional landscape architect in responsible charge and an information block with application of a seal by each professional consultant contributing to the technical submission. The seal and original signature will be applied only to a final technical submission. Each official copy of a technical submission shall be stapled, bound or otherwise attached together so as to clearly establish the complete extent of the technical submission. Each information block shall display the seal of the individual responsible for that portion of the technical submission. The area of responsibility for each sealing professional will be designated in the area provided in the information block, so that responsibility for the entire technical submission is clearly established by the combination of the stated seal responsibilities. The information block shall substantially conform to the sample shown below:

SEAL License Expires:	I hereby certify that the portion of this technical submission described below was prepared by me or under my direct supervision and responsible charge. I am a duly licensed professional landscape architect under the laws of the state of Iowa. _____ Printed or typed name or secure electronic signature _____ Signature _____ Pages or sheets covered by this seal: _____ _____

e. The information requested in each information block must be typed or legibly printed in permanent ink or digital signature as defined in or governed by Iowa Code chapter 554D on each official copy. An electronic signature as defined in or governed by Iowa Code chapter 554D meets the signature requirements of this rule if it is protected by a security procedure, as defined in Iowa Code section 554D.103(14), such as digital signature technology. It is the licensee's responsibility to ensure, prior to affixing an electronic signature to a landscape architecture document, that security procedures are adequate to (1) verify that the signature is that of a specific person and (2) detect any changes that may be made or attempted after the signature of the specific person is affixed. The seal implies responsibility for the entire technical submission unless the area of responsibility is clearly identified in the information accompanying the seal.

f. It will be the responsibility of the professional landscape architect who signed the original submission to forward copies of all changes and amendments to the technical submission, which shall become a part of the official copy of the technical submission, to the public official charged with the enforcement of the state, county or municipal building code.

g. A professional landscape architect is responsible for the custody and proper use of the seal. Improper use of the seal shall be grounds for disciplinary action.

h. The seal appearing on any technical submission will be prima facie evidence that said technical submission was prepared by or under the responsible control of the individual named on that seal.

1084.1(8) *Communications.* A professional landscape architect will, when requested, respond to communications from the board within 30 days of the mailing of such communication by certified mail. Failure to respond to such communication may be grounds for disciplinary action against the professional landscape architect.

[**ARC 9157C**, IAB 4/30/25, effective 6/4/25; Editorial change: IAC Supplement 6/10/26]

481—1084.2(544B,17A) Receipt of complaints. The board will receive and review all complaints that the board reasonably believes indicate that a licensee may have committed an act that is cause for disciplinary action.

1084.2(1) *Complaints.* Any person may file a complaint with the board charging that a licensee may have committed an act that is in violation of applicable law or rules. The complaint will be written and signed by the complainant and accompanied with substantial evidence indicating when, where, and how the licensee committed the violation. All complaints filed with the board will be privileged and held confidential pursuant to Iowa Code section 272C.6(4) by all board members, peer review committee members and staff. A person filing a complaint will receive immunities in accordance with Iowa Code section 272C.8.

1084.2(2) *Board-instigated complaints.* Upon presentation of evidence by a board member, the board's staff, or other state agency, the board may determine that a complaint should be opened and an investigation begun to determine if a licensee may have committed an act that is in violation of applicable law or rules.

[**ARC 9157C**, IAB 4/30/25, effective 6/4/25; Editorial change: IAC Supplement 6/10/26]

481—1084.3(544B,17A) Peer review committee. At any point during the complaint procedure or the investigatory procedure and prior to determining whether probable cause exists that a violation has occurred, the board may appoint a peer review committee to assist the board in reaching its decision by conducting an investigation(s) of the complaint.

1084.3(1) *Makeup of the peer review committee.* The committee will consist of one or more professional landscape architects who are selected for their knowledge and experience in the particular aspect of landscape architecture involved in the complaint. The following are ineligible for membership:

a. Members of the board.

b. Close relatives of the alleged violator(s) or complainant.

c. Individuals employed by the same firm or governmental unit as the alleged violator or complainant.

1084.3(2) *Authority.* The committee's investigation will be limited to interviewing of complainants, the alleged violator, individuals with knowledge of the alleged violation, and individuals with knowledge of the alleged violator's reputation in the community. The committee may not hire legal counsel, investigators, secretarial help or any other assistants without written authorization from the board.

1084.3(3) *Compensation.* Committee members may receive per diem compensation equal to that received by board members for performing board duties. Committee members may be paid reasonable and necessary expenses that are incurred for travel, meals and lodging while performing committee duties within a budget limitation established by the board.

[**ARC 9157C**, IAB 4/30/25, effective 6/4/25; Editorial change: IAC Supplement 6/10/26]

481—1084.4(544B,272C) Investigation report of complaints.

1084.4(1) *Board consideration of report to determine further action.* Upon completion of the investigation, the investigator(s) will prepare for the board's consideration a report containing the position or defense of the licensee so the board may determine what further action is necessary. The board may:

a. Order that the matter be further investigated.

b. Allow the licensee who is the subject of the complaint an opportunity to appear before the designated discipline committee for an informal discussion regarding the circumstances of the alleged violation.

c. Determine there is no probable cause to believe that a violation has occurred and close the case.

d. Determine there is probable cause to believe that a violation has occurred.

1084.4(2) *Informal discussion.*

a. An informal discussion is intended to provide a licensee an opportunity to share the licensee's account of a complaint in an informal setting before the board determines whether probable cause exists to initiate a disciplinary proceeding. A licensee is not required to attend an informal discussion. Because disciplinary investigations are confidential, the licensee cannot bring other persons to an informal discussion, but licensees may be represented by legal counsel.

b. Unless disqualification is waived by the licensee, board members or staff who personally investigate a disciplinary complaint are disqualified from making decisions or assisting the decision makers at a later formal hearing. Because board members generally rely upon investigators, peer review committees, or expert consultants to conduct investigations, the issue rarely arises. An informal discussion, however, is a form of investigation because it is conducted in a question-and-answer format. In order to preserve the ability of all board members to participate in board decision making and to receive the advice of staff, a licensee who desires to attend an informal discussion must therefore waive the right to seek disqualification of a board member or staff based solely on the board member's or staff's participation in an informal discussion. A licensee would not waive the right to seek disqualification on any other ground. By electing to attend an informal discussion, a licensee accordingly agrees that participating board members or staff are not disqualified from acting as a presiding officer in a later contested case proceeding or from advising the decision maker.

c. Because an informal discussion constitutes a part of the board's investigation of a pending disciplinary case, the facts discussed at the informal discussion may be considered by the board in the event the matter proceeds to a contested case hearing and those facts are independently introduced into evidence.

[**ARC 9157C**, IAB 4/30/25, effective 6/4/25; Editorial change: IAC Supplement 6/10/26]

481—1084.5(544B,272C) Dispensation. The board will make findings of fact and conclusions of law and may take one or more of the following actions:

1. Dismiss the charges.
2. Revoke the professional landscape architect's license.
3. Suspend the professional landscape architect's license as authorized by law.
4. Impose civil penalties, the amount of which will be set at the discretion of the board but will not exceed $1,000. Civil penalties may be imposed for any of the disciplinary violations of Iowa Code sections 544B.15, 272C.9(2), 272C.9(3), and 272C.10 and these rules or for repeated offenses.
5. Impose a period of probation, either with or without conditions.
6. Require reexamination, using one or more parts of the examination given to professional landscape architectural licensee candidates.
7. Require additional professional education, reeducation, or continuing education.
8. Issue a citation or warning.
9. Issue a consent order.
10. Accept voluntary surrender of license. Voluntary surrender of a license is considered a disciplinary action.

[**ARC 9157C**, IAB 4/30/25, effective 6/4/25; Editorial change: IAC Supplement 6/10/26]

These rules are intended to implement Iowa Code chapters 17A and 544B and Executive Order 10.

Chapter rescission date pursuant to Iowa Code section 17A.7: 5/22/29

481—2001.1(543B) Mission of the commission. The mission of the Iowa real estate commission is to protect the public through the examination, licensing, and regulation of real estate brokers, salespersons, and firms pursuant to Iowa Code chapter 543B, Real Estate Brokers and Salespersons; to administer Iowa Code chapter 543C, Sales of Subdivided Land Outside of Iowa; and to administer Iowa Code chapter 557A, Time-Shares.

The commission is a policymaking body with authority to promulgate rules for the regulation of the real estate industry consistent with all applicable statutes. Administrative support services are furnished by the professional licensing and regulation division of the department of inspections, appeals, and licensing. The commission or duly authorized representative may inspect subdivided land outside of Iowa pursuant to Iowa Code section 543C.4.

[**ARC 7763C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2001.2(543B) Correspondence and communications. Correspondence and communications with the commission should be addressed or directed to the commission office.

[**ARC 7763C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2001.3(543B) Meetings of the commission. Meetings of the commission are held at times scheduled by the commission in the offices of the commission or at a place designated by the commission. Special meetings may be called by the chairperson or executive officer of the commission, who sets the time and place of the meeting.

[**ARC 7763C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2001.4(543B) Custodian of records, filings, and requests for public information. Rescinded by 2026 Iowa Acts, Senate File 2463, section 4, effective July 1, 2026.

481—2001.5(543B) Investigation and subpoena. Commission rules regarding investigations and investigatory subpoenas may be found in 481—Chapter 2018 and in the model rules governing professional licensing division programs at 481—Chapters 500 through 507.

[**ARC 7763C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2001.6(543B) Impaired licensee review committees. Commission rules governing impaired licensee review committees may be found in the model rules governing professional licensing division programs at rule 481—505.5(272C).

[**ARC 7763C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

These rules are intended to implement Iowa Code chapters 17A, 252J, 261, 272C and 543B.

[Filed 8/9/02, Notice 6/26/02—published 9/4/02, effective 10/9/02]

[Editorial change: IAC Supplement 6/10/26]
[Editorial change: IAC Supplement 6/24/26]
[Content rescinded by 2026 Iowa Acts, Senate File 2463, section 4—editorially removed in IAC Supplement 7/8/26, effective 7/1/26]

CHAPTER 2002
DEFINITIONS

[Prior to 6/15/88, see Real Estate Commission[700] Ch 2]
[Prior to 9/4/02, see 193E—1.1(543B) and 193E—2.2(543B)]
[Prior to 6/10/26, see Real Estate Commission[193E] Ch 2]

Chapter rescission date pursuant to Iowa Code section 17A.7: 5/22/29

481—2002.1(543B) Definitions.

"Additional license" means any officer or partner license(s) issued based upon and dependent or contingent upon the primary or main officer or partner license, but assigned to a different corporation or partnership.

"Advance fees" means any fees charged for services to be paid in advance of the rendering of such services including, without limitation, any fees charged for listing, advertising, or offering for sale or lease any real property, but excluding any fees paid solely for advertisement in a newspaper of general circulation.

"Affiliated licensee" means a broker associate or salesperson, as defined in Iowa Code section 543B.5(5) and 543B.5(19), who is under the supervision of a broker.

"Agency disclosure" means the same as defined in Iowa Code section 543B.5(2).

"Applicant" means a person who has applied for or intends to apply for a real estate salesperson or real estate broker license.

"Application form" means the form furnished by the commission to be completed and submitted to apply for an original license as a real estate salesperson, real estate broker, real estate firm or trade name.

"Branch office license" means the same as "duplicate license" as used in Iowa Code section 543B.31.

"Broker" means any person holding an Iowa real estate broker license as defined in Iowa Code section 543B.3.

"Brokerage agreement" means the same as defined in Iowa Code section 543B.5(7).

"Broker associate" means the same as defined in Iowa Code section 543B.5(5).

"Buyer" includes a purchaser, tenant, vendee, lessee, party to an exchange, or grantee of an option. Selected rules in these chapters will at times refer separately to "buyers" and "tenants" to clarify licensees' duties and obligations.

"Client" means the same as defined in Iowa Code section 543B.5(9).

"Commercial" means property that is used exclusively for business purposes or to generate income and not intended for human inhabitants or property of more than four dwelling units.

"Commission" means the real estate commission.

"Common source information companies" means any individual, corporation, limited liability company, business trust, estate, trust, partnership, association, or any other legal entity (except any government or governmental subdivision or agency, or any officer or employee thereof acting in such individual's official capacity) that is a source, compiler, or supplier of information regarding real estate for sale or lease and other data and includes, but is not limited to, multiple listing services.

"Compensation" means payment to a broker or licensee for real estate services performed.

"Completed application" means an original or renewal application timely received with all necessary information, documents, signatures, fees or penalties.

"Confidential information" means information made confidential by statute, regulation, or express instructions from the client. Confidential information does not include "material adverse facts" as defined in Iowa Code section 543B.5(14). Confidential information includes, but is not limited to, the following:

1. Information concerning the client that, if disclosed to the other party, could place the client at a disadvantage when bargaining;
2. That the seller or landlord is willing to accept less than the asking price or lease price for the property;
3. That the buyer or tenant is willing to pay more than the asking price or lease price for the property;
4. The motivating factors for the party selling or leasing the property;

5. The motivating factors for the party buying or leasing the property;
6. That the seller or landlord will agree to sale, lease, or financing terms other than those offered;
7. That the buyer or tenant will agree to sale, lease, or financing terms other than those offered;
8. The seller's or landlord's real estate needs;
9. The buyer's or tenant's real estate needs;
10. The seller's or landlord's financial information, except that the seller's ability to sell and the landlord's ability to lease are considered a material fact;
11. The buyer's or tenant's financial qualifications, except that the buyer's ability to buy and the tenant's ability to lease are considered a material fact.

Confidential information is not disclosable unless one of the following applies:

1. The client to whom the information pertains provides informed written consent to disclose the information;
2. The disclosure is mandated by statute or regulation, or failure to disclose the information would constitute fraudulent representation;
3. The information is made public or becomes public by the words or conduct of the client to whom the information pertains or from a source other than the licensee; or
4. The disclosure is necessary to defend the licensee against an accusation of wrongful conduct in an actual or threatened judicial proceeding, an administrative proceeding before the commission, or in a proceeding before a professional committee.

"Consumer" means a person seeking or receiving real estate brokerage services.

"Contract between the buyer and seller" means an offer to purchase, a sales contract, an option, a lease-purchase option, an offer to lease, or a lease.

"Conviction" means the same as defined in Iowa Code section 543B.15(3).

"Customer" means the same as defined in Iowa Code section 543B.5(11).

"Designated broker" means the broker or broker associate designated as the person in charge of and responsible for supervision of a main office or branch office as defined in Iowa Code section 543B.5(11).

"Dual agent" means a licensee who, with the written informed consent of all the parties to a contemplated real estate transaction, has entered into a brokerage agreement with and therefore represents the seller and buyer or both the landlord and tenant in the same in-house transaction.

"Duplicate license" or *"replacement license"* means a license reissued for the remainder of a license term, at the written request of the broker, to replace a lost or destroyed license.

"Electronic format" means a record generated, communicated, received, or stored by electronic means, and is in a format that has the continued capability to be retrieved and legibly printed upon request.

"Examination" means a licensure examination necessary before issuance of a license.

"Examinee" means a person who has registered or intends to register to take a licensure examination.

"Filed" means that documents or application and fees are considered filed with the commission on the date postmarked, not the date metered, or on the date personally delivered to the commission office.

"Firm" means a licensed partnership, association, limited liability company, or corporation.

"Licensee" means the same as defined in Iowa Code section 543B.5(13).

"Listing broker" means the real estate broker who obtains a listing of real estate or of an interest in a residential cooperative housing corporation.

"Ministerial acts" means those acts that a licensee may perform for a consumer that are informative in nature and do not rise to the level of specific assistance on behalf of a consumer. For purposes of these rules, ministerial acts include but are not limited to the following:

1. Providing responses to general consumer inquiries—whether made via telephone, in person, or through digital communication—regarding the availability and pricing of brokerage services, as well as the price, location, condition as reflected on the seller's disclosure, and distinguishing features of specific properties;
2. Attending an open house and responding to general questions from a consumer about the facts and features of the property;
3. Setting an appointment to view property;
4. Accompanying an appraiser, inspector, contractor, or similar third party on a visit to a property;

5. Referring a person to another broker or service provider; or

6. A listing broker showing a property to a customer to which the listing broker has a brokerage agreement with a seller to the property.

"Moral turpitude" means an act of baseness, vileness, or depravity, in the private and social duties which a person owes to another person or to society in general, contrary to the accepted and customary rule of right and duty between person and person. It is conduct that is contrary to justice, honesty and good morals. Various factors may cause an offense which is generally not regarded as constituting moral turpitude to be regarded as such. A crime of moral turpitude as specified in Iowa Code section 543B.15(3) shall include without limitation forcible felonies as delineated in Iowa Code section 702.11.

"Original license" means the license of a salesperson, broker, or firm that covers the first term of licensure in Iowa. A license applied for and reissued after the final deadline for renewal of a license is also an original license.

"Primary license" or *"main license"* means the original license issued based upon examination, including any subsequent renewals or reinstatements of the license. Continuing education is necessary to renew to active status.

"Principal broker" means a broker who is either a real estate proprietor, a partner in a real estate partnership, or an officer in a real estate corporation.

"Real estate team" means two or more licensees assigned to the same broker, working together to provide real estate brokerage services and representing themselves to the public as a team.

"Renewal application form" means the form furnished by the commission to be completed and submitted to apply for renewal of a license as a real estate salesperson, real estate broker, real estate firm, branch office or trade name.

"Representative" means a person or entity representing the interests of the client, on the client's behalf, but that is not the agent or broker of the client.

"Residential" means properties that are used primarily for living purposes rather than for business or industrial use.

"Salesperson" means any person holding an Iowa real estate salesperson license as defined in Iowa Code section 543B.5(19).

"Seller" includes an owner, landlord, vendor, lessor, party to an exchange, or grantor of an option. Selected rules in these chapters will at times refer separately to "sellers" and "landlords" to clarify licensees' duties and obligations.

"Selling broker" means a real estate broker who finds and obtains a buyer in a transaction.

"Showing" means the act of a licensee providing a client physical or virtual access to a property that is being sold by a seller.

"Single agent" means a licensee who represents only one party in a real estate transaction. A single agent includes a broker and any affiliated broker associates or salespersons representing a party exclusively or nonexclusively, regardless of whether the single agent be all affiliated broker associates or salespersons, or only the identified broker associates or salespersons, or a group of identified broker associates or salespersons. A single agent may be one of the following:

1. "Seller's agent," which means a licensee who represents the seller in a real estate transaction;
2. "Landlord's agent," which means a licensee who represents the landlord in a leasing transaction;
3. "Buyer's agent," which means a licensee who represents the buyer in a real estate transaction; and
4. "Tenant's agent," which means a licensee who represents the tenant in a leasing transaction.

"Sole-proprietor broker" means an individual or single license broker who privately owns and manages a real estate company.

"Specific assistance" means any communication beyond casual conversation concerning the facts and features of a property which occurs prior to the point of discussing price range or any specific, financial qualifications of the buyer or tenant, or selling or buying motives or objectives of the seller or buyer, or tenant or landlord, or eliciting or accepting information involving a proposed or preliminary offer associated with a specific property, in which the person may unknowingly divulge any confidential personal or financial information, which, if disclosed to the other party, could harm the party's bargaining position. For the purposes of these rules, "specific assistance" does not include preliminary conversations

or "small talk" concerning location and property styles, or responses to general factual questions from a potential buyer or tenant concerning facts and features of properties which have been advertised for sale or lease.

"Status" means the condition of a real estate license. A license may be active, inactive, expired, suspended, revoked or canceled. "Inactive license" is defined in Iowa Code section 543B.5(12).

"Third party" means a person or entity that is not a client, is not a party to the transaction, and has no agency relationship to a real estate brokerage.

"Timely" means done or occurring at a reasonable time under the circumstances.

"Timely received" means postmarked, not metered, not later than midnight on the last date of the deadline specified by the Iowa Code or commission rules.

"Transaction" means the sale, exchange, purchase, or rental of, or the granting or acceptance of, an option to sell, exchange, purchase, or rent an interest in real estate, but excluding the subleasing of an interest in a residential cooperative housing corporation, when the leases are for one year or less.

"Type" means the category to which a broker license or firm license is issued. A broker license may be issued as a sole-proprietor broker, broker officer, broker partner, or broker associate. A firm license may be issued as a corporation, partnership or association.

"Undisclosed dual agent" means a licensee representing two or more clients in the same transaction whose interests are adverse without the knowledge and informed consent of the clients.

This rule is intended to implement Iowa Code chapters 17A, 272C and 543B.

CHAPTER 2003
BROKER LICENSE

[Prior to 6/15/88, see Real Estate Commission[700] Ch 3]
[Prior to 9/4/02, see 193E—2.10(543B) to 193E—2.12(543B) and 193E—3.3(543B)]
[Prior to 6/10/26, see Real Estate Commission[193E] Ch 3]

Chapter rescission date pursuant to Iowa Code section 17A.7: 5/22/29

481—2003.1(543B) Broker licensure. An applicant is only eligible for a broker license by satisfying Iowa Code section 543B.15.

2003.1(1) An applicant for a real estate broker's license who has been convicted of a disqualifying criminal offense in a court of competent jurisdiction in this state or in any other state, territory, or district of the United States, or in any foreign jurisdiction, may be denied a license by the commission on the grounds of the conviction as provided by Iowa Code section 272C.15 and rule 481—502.2(272C).

2003.1(2) An applicant for a broker license may use active experience as a former Iowa salesperson or active salesperson experience in another state or jurisdiction, or a combination of both, to satisfy the experience requirement for a broker license under Iowa Code section 543B.15(7) only if the former Iowa salesperson or applicant from another state or jurisdiction was actively licensed for not less than 24 months and if the license on which the experience is based has not been expired for more than three years prior to the date the completed broker application with fee is filed with the commission.

[**ARC 7765C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2003.2(543B) License examination. Examinations for licensure as a real estate broker are conducted by the commission's authorized representative.

2003.2(1) *Testing service.* The commission will negotiate an agreement with a testing service relating to examination development, test scheduling, examination sites, grade reporting and analysis. The commission approves the form, contract, and method of administration. The examination is conducted in accordance with approved procedures formulated by the testing agency. Applicants register and pay examination fees directly to the testing service.

2003.2(2) *Requests for waiver.* The commission will consider each request for a waiver of commission rules or of the qualifications for licensure on an individual basis. The commission may require additional supporting information. If the applicant's experience or prelicense education is found to be less than equivalent to the statutory requirement, the commission may suggest methods of satisfying the deficiency. If a waiver is granted, the applicable examination must be passed before the end of the sixth month following the date of the waiver.

2003.2(3) *Eligibility to sit for examination.* An individual may only sit for the examination after meeting the qualifications set out in Iowa Code section 543B.15. An examinee is obligated to show one of the following at the examination site:

a. Evidence that prelicense education has been completed within the last two years.

b. The letter from the commission granting a waiver of prelicense education.

c. A written authorization from the commission for individuals planning to qualify under rule 481—2005.3(543B) or 481—2005.11(543B).

d. A written authorization from the commission for individuals planning to seek reinstatement of an expired license.

2003.2(4) *Failure to pass examination.* An examinee who takes an examination and fails is eligible to apply to retake the examination at any time the examination is offered by filing a new registration form and paying the examination fee, unless the qualifying time period for the prelicense education or granted waiver has expired.

[**ARC 7765C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2003.3(543B) Application for broker license. An applicant who applies for a broker's license will submit to the commission a completed application, license fee, proof of required education, and test score reports not later than the last working day of the sixth calendar month following the qualifying real estate

examination. As required by Iowa Code section 543B.15(9), the completed application must be received within 210 calendar days of the completion of the criminal history check.

2003.3(1) *Application contents.* The applicant for licensure attests to the accuracy of the detailed personal, financial, and business information concerning the applicant included on the application.

2003.3(2) *License terms.* Real estate broker, salesperson, trade name, branch office, and firm licenses are issued for a three-year term, counting the remaining portion of the year issued as a full year. Licenses expire on December 31 of the third year of the license term. Branch office licenses and trade name licenses are issued for the remaining portion of the license term of the license to which each is assigned.

2003.3(3) *Denial of application.* An application may be denied on the grounds provided in Iowa Code chapter 543B and in 481—Chapter 506. The administrative processing of an application does not prevent the later initiation of a contested case to challenge a licensee's qualifications for licensure.

[**ARC 7765C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2003.4(543B) Broker continuing education.

2003.4(1) To renew a license in active status, each broker or broker associate completes a minimum of 36 hours of approved programs, courses or activities. Licensees who complete continuing education hours in excess of the requirements for renewal may apply up to 50 percent of the required hours to the following renewal period. Licensees may apply a maximum of 18 hours from the previous renewal period. Licensees cannot carry over any hours toward the mandatory eight-hour law update course or the four-hour ethics course.

2003.4(2) Brokers and broker associates complete approved courses in the following subjects to renew to active status, except in accordance with 481—Chapter 2016.

Law Update	8 hours
Ethics	4 hours
Electives	24 hours

2003.4(3) A license may be renewed in inactive status without the completion of continuing education. Prior to reactivating a license that has been issued inactive due to the licensee's failure to submit evidence of continuing education, the licensee submits an application to reactivate to active status with evidence that all deficient continuing education hours have been completed. Licensees who complete continuing education hours in excess of the requirements for renewal may apply up to 50 percent of the required hours to the following renewal period. Licensees may apply a maximum of 18 hours from the previous renewal period. Licensees cannot carry over any hours toward the mandatory eight-hour law update course or the four-hour ethics course.

[**ARC 7765C**, IAB 4/17/24, effective 5/22/24; **ARC 9245C**, IAB 5/14/25, effective 6/18/25; Editorial change: IAC Supplement 6/10/26]

481—2003.5(17A,272C,543B) Renewing a broker license. To remain authorized to act as a real estate broker, a broker renews a real estate license before the expiration date of the license. Brokers who fail to renew a real estate license before expiration are not authorized to practice as real estate brokers in Iowa. Termination of a broker's authority to practice real estate in Iowa automatically terminates the authority of all salespersons employed by or assigned to the broker.

2003.5(1) *Application forms.* Applications for renewal of a broker's license may be found on the commission's website. Brokers renew electronically. While the commission generally mails reminders to brokers in the November preceding license expiration, the failure of the commission to mail a reminder does not excuse the broker from the requirement to renew prior to the expiration of the license.

2003.5(2) *Qualifications for renewal.* The commission grants an application to renew a broker's license if:

a. The application is timely received by the commission by December 31, or within the 30-day grace period after expiration as provided by Iowa Code section 543B.28.

b. The application is accompanied by the regular renewal fee and, if received by the commission after midnight December 31 but prior to midnight January 30, is accompanied by a penalty of $25.

c. The application is fully completed with all necessary information, including proper disclosure of completed continuing education and errors and omissions insurance.

d. The application does not include grounds to deny a license, such as the revocation of a license in another jurisdiction or a criminal conviction.

2003.5(3) *Incomplete or untimely applications to renew.* Renewal applications received by the commission after midnight January 30 will be treated as applications to reinstate an expired license under rule 481—2003.6(272C,543B).

a. Applications to renew or reinstate a broker's license which are incomplete or which are not accompanied by the proper fee may be returned to the broker for additional information or fee.

b. Alternatively, the commission may retain the application, and notify the applicant that the application cannot be granted without further information or fee.

2003.5(4) *Insufficient continuing education.* Renewal applications which do not report completion of required continuing education, but which are otherwise timely and sufficient and accompanied with the proper fee, are renewed in inactive status. In the event of a factual dispute regarding the broker's intent to renew in inactive status or a broker's completion of continuing education, the commission may deny the application and provide the applicant with an opportunity for hearing according to the procedures set forth in 481—Chapter 506.

2003.5(5) *Denial of application to renew.* An application to renew may be denied on the grounds provided in Iowa Code chapter 543B and in 481—Chapter 506. The administrative processing of an application to renew does not prevent the later initiation of a contested case to challenge a licensee's qualifications for licensure.

2003.5(6) *Renewal of inactive or suspended license.* An inactive or suspended license expires if not timely renewed. The status of a license does not affect the requirement to renew.

[**ARC 7765C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2003.6(272C,543B) Reinstatement of an expired broker license. A real estate broker who fails to renew or file a completed renewal application by midnight January 30 of the first year following expiration may reinstate the license within three years of expiration by submitting a complete and sufficient application accompanied by the regular renewal fee and an additional reinstatement fee of $25 for each partial or full month following expiration. From the date of expiration to the date of reinstatement, the broker is not authorized to practice as a real estate broker in Iowa.

2003.6(1) *Continuing education.* A broker either fully satisfied all continuing education or has retaken and passed the broker examination to reinstate an expired broker license.

2003.6(2) *Starting over.* A broker who fails to reinstate an expired license by December 31 of the third year following expiration is treated as if the former broker had never been licensed in Iowa. Such a former broker starts over in the licensing process and must first qualify and apply for a salesperson license.

2003.6(3) *Denial of application.* An application may be denied on the grounds provided in Iowa Code chapter 543B and in 481—Chapter 506. The administrative processing of an application does not prevent the later initiation of a contested case to challenge a licensee's qualifications for licensure.

[**ARC 7765C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

These rules are intended to implement Iowa Code chapters 17A, 272C and 543B.

CHAPTER 2004
SALESPERSON LICENSE

[Prior to 9/4/02, see 193E—2.10(543B), 193E—2.11(543B), 193E—3.2(543B), and 193E—3.3(543B)]
[Prior to 6/10/26, see Real Estate Commission[193E] Ch 4]

Chapter rescission date pursuant to Iowa Code section 17A.7: 5/22/29

481—2004.1(543B) General criteria for salesperson license. A person who is licensed under and employed by or otherwise associated with a real estate broker or firm is a "salesperson" as defined in Iowa Code section 543B.5(20) and rule 481—2002.1(543B).

2004.1(1) An original application for a salesperson license cannot be issued to inactive status.

2004.1(2) If the license is transferred, as provided in rule 481—2006.2(543B), the salesperson may work immediately for the new broker.

2004.1(3) A salesperson is assigned to a licensed broker or firm and cannot conduct business independently.

2004.1(4) Except as provided in Iowa Code section 543B.21, an applicant for a salesperson license must meet all qualifications under Iowa Code section 543B.15.

2004.1(5) An applicant for a real estate salesperson license who has been convicted of a disqualifying criminal offense in a court of competent jurisdiction in this state or in any other state, jurisdiction, territory, or district of the United States, or in any foreign jurisdiction, may be denied a license by the commission on the grounds of the conviction as provided by Iowa Code section 272C.15 and rule 481—502.2(272C).

2004.1(6) An applicant for a real estate salesperson license who has had a professional license of any kind revoked in this or any other jurisdiction may be denied a license by the commission on the grounds of the revocation.

2004.1(7) Salesperson prelicense education requirements. As required by Iowa Code section 543B.15(8) and 481—Chapter 2016, the required course of study for the salesperson licensing examination consists of 60 live instruction or online learning hours of real estate principles and practices. To be eligible to take the examination, the 60 live education or online learning hours of real estate principles and practices are completed during the 12 months prior to taking the examination. The applicant will also provide evidence of successful completion of the following courses: 12 hours of Developing Professionalism and Ethical Practices, 12 hours of Buying Practices and 12 hours of Listing Practices. The prelicense education will expire after 12 months.

[**ARC 7766C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2004.2(543B) License examination. Examinations for licensure as a real estate salesperson are conducted by the commission or its authorized representative.

2004.2(1) *Testing service.* The commission will negotiate an agreement with a testing service relating to examination development, test scheduling, examination sites, grade reporting and analysis. The commission will approve the form, contract, and method of administration. The examination is conducted in accordance with approved procedures formulated by the testing service. Applicants register and pay examination fees directly to the testing service.

2004.2(2) *Requests for waiver.* The commission will consider each request for a waiver of commission rules or of the qualifications for licensure on an individual basis. The commission may require additional supporting information. If the applicant's prelicense education is found to be less than equivalent to the statutory requirement, the commission may suggest methods of satisfying the deficiency. If a waiver is granted, the applicable examination must be passed before the end of the sixth month following the date of the waiver.

2004.2(3) *Eligibility to sit for examination.* An individual may only sit for the examination after meeting the qualifications set out in Iowa Code section 543B.15. An examinee is obligated to show one of the following at the examination site:

a. Evidence that 60 live education or online learning hours of real estate principles and practices have been completed.

b. A letter from the commission granting a waiver of prelicense education.

c. A written authorization from the commission for individuals planning to qualify under rule 481—2005.3(543B) or 481—2005.11(543B).

2004.2(4) *Failure to pass examination.* An examinee who takes an examination and fails is eligible to apply to retake the examination at any time the examination is offered by filing a new registration form and paying the examination fee, unless the qualifying time period for the prelicense education or waiver granted has expired.

[**ARC 7766C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2004.3(543B) Application for salesperson license. An applicant who passes a qualifying examination and applies for a license must file with the commission a completed application with license fee, proof of required education, and test score report not later than the last working day of the sixth calendar month following the qualifying real estate examination. As required by Iowa Code section 543B.15(9), the completed application must be received within 210 calendar days of the completion of the criminal history check.

2004.3(1) *Application contents.* The application includes detailed personal, financial, and business information concerning the applicant, and the applicant for licensure attests to its accuracy.

2004.3(2) *License terms.* A salesperson license is issued for a three-year term, counting the remaining portion of the year issued as a full year. Licenses expire on December 31 of the third year of the license term.

2004.3(3) *Denial of application.* An application may be denied on the grounds provided in Iowa Code chapter 543B and in 481—Chapter 506. The administrative processing of an application does not prevent the later initiation of a contested case to challenge a licensee's qualifications for licensure.

[**ARC 7766C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2004.4(543B) Salesperson continuing education requirements.

2004.4(1) As a requirement of license renewal in active status, each salesperson completes a minimum of 36 hours of approved programs, courses or activities. Licensees who complete continuing education hours in excess of the requirements for renewal may apply up to 50 percent of the required hours to the following renewal period. Licensees may apply a maximum of 18 hours from the previous renewal period. Licensees cannot carry over any hours toward the mandatory eight-hour law update course or the four-hour ethics course.

2004.4(2) Salespersons renewing licenses shall complete approved courses in the following subjects to renew to active status, except in accordance with 481—Chapter 2016.

Law Update . . . . . 8 hours
Ethics. . . . . 4 hours
Electives. . . . . 24 hours

2004.4(3) A salesperson license may be renewed to inactive status without completion of continuing education. Prior to reactivating a license that has been issued inactive due to failure to submit evidence of continuing education, the licensee must submit evidence that all deficient continuing education hours have been completed. Licensees who complete continuing education hours in excess of the requirements for renewal may apply up to 50 percent of the required hours to the following renewal period. Licensees may apply a maximum of 18 hours from the previous renewal period. Licensees cannot carry over any hours toward the mandatory eight-hour law update course or the four-hour ethics course.

[**ARC 7766C**, IAB 4/17/24, effective 5/22/24; **ARC 9246C**, IAB 5/14/25, effective 6/18/25; Editorial change: IAC Supplement 6/10/26]

481—2004.5(543B) Renewing a license. To remain authorized to act as a real estate salesperson, a salesperson must renew a real estate license before the expiration date of the license. Salespersons who fail to renew a real estate license before expiration are not authorized to practice as real estate salespersons in Iowa.

2004.5(1) *Application forms.* Applications for renewal of a salesperson license may be found on the commission's website. Salespersons will renew electronically. While the commission generally mails reminders to salespersons in the November preceding license expiration, the failure of the commission to mail a reminder does not excuse the salesperson from the requirement to timely renew.

2004.5(2) *Qualifications for renewal.* The commission shall grant an application to renew a salesperson license if:

a. The application is timely received by the commission by December 31, or within the 30-day grace period after expiration as provided by Iowa Code section 543B.28.

b. The application is accompanied by the regular renewal fee and, if received by the commission after midnight December 31, but prior to midnight January 30, is accompanied by a penalty of $25.

c. The application is fully completed with all necessary information, including proper disclosure of required continuing education and errors and omissions insurance.

d. The application fails to reveal grounds to deny a license, such as a criminal conviction or the revocation of a license in another jurisdiction.

2004.5(3) *Incomplete or untimely applications to renew.* Renewal applications received by the commission, or postmarked, after midnight January 30 shall be treated as applications to reinstate an expired license under rule 481—2004.6(272C,543B).

a. Applications to renew or reinstate a salesperson license which are incomplete or which are not accompanied by the proper fee may be returned to the salesperson for additional information or fee.

b. Alternatively, the commission may retain the application and notify the applicant that the application cannot be granted without further information or fee.

2004.5(4) *Insufficient continuing education.* Renewal applications which do not report completion of required continuing education, but which are otherwise timely and sufficient and accompanied with proper fee, shall be renewed in inactive status. In the event of a factual dispute regarding the salesperson's intent to renew in inactive status or a salesperson's compliance with continuing education requirements, the commission may deny the application and provide the applicant with an opportunity for hearing according to the procedures set forth in 481—Chapter 506 and rule 481—2018.13(543B).

2004.5(5) *Denial of application to renew.* An application to renew may be denied on the grounds provided in Iowa Code chapter 543B and in 481—Chapter 506. The administrative processing of an application to renew shall not prevent the later initiation of a contested case to challenge a licensee's qualifications for licensure.

2004.5(6) *Renewal of inactive or suspended license.* An inactive or suspended license must be timely renewed or it shall expire. The status of a license does not affect the requirement to renew.

[**ARC 7766C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2004.6(272C,543B) Reinstatement of an expired salesperson license. A real estate salesperson who fails to renew or fails to file a complete renewal application form by midnight January 30 of the first year following expiration may reinstate the license within three years of expiration by submitting a complete and sufficient application accompanied by the regular renewal fee and an additional reinstatement fee of $25 for each partial or full month following expiration. From the date of expiration to the date of reinstatement, the salesperson is not authorized to practice as a real estate salesperson in Iowa.

2004.6(1) *Continuing education.* An application to reinstate an expired salesperson license must report that the salesperson either fully satisfied all required continuing education or has retaken and passed the salesperson examination. A salesperson holding an expired license who wishes to retake the salesperson examination must obtain written authorization from the commission to show at the examination site.

2004.6(2) *Deposit of reinstatement fees.* Reinstatement fees collected under this rule shall be transmitted to the treasurer's office and credited to the education fund established in Iowa Code section 543B.54.

2004.6(3) *Starting over.* A salesperson who fails to reinstate an expired license by December 31 of the third year following expiration shall be treated as if the former salesperson had never been licensed in Iowa. Such a former salesperson must start over in the licensing process and qualify and apply for a salesperson license.

2004.6(4) *Denial of application.* An application may be denied on the grounds provided in Iowa Code chapter 543B and in 481—Chapter 506. The administrative processing of an application shall not prevent the later initiation of a contested case to challenge a licensee's qualifications for licensure.

[**ARC 7766C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

These rules are intended to implement Iowa Code chapters 17A, 272C and 543B.

CHAPTER 2005
LICENSEES OF OTHER JURISDICTIONS AND RECIPROCITY

[Prior to 9/4/02, see 193E—2.3(543B)]
[Prior to 6/10/26, see Real Estate Commission[193E] Ch 5]

Chapter rescission date pursuant to Iowa Code section 17A.7: 5/22/29

481—2005.1(543B) Licensees of other jurisdictions. As provided in Iowa Code section 543B.21, a nonresident of this state may be licensed as a real estate broker or a real estate salesperson upon complying with all the provisions and conditions of Iowa Code chapter 543B and commission rules relative to resident brokers or salespersons.

2005.1(1) A person licensed in another state or jurisdiction making application in Iowa by reciprocity or as provided in rule 481—2005.3(543B) or 481—2005.11(543B) may qualify for a salesperson license in Iowa.

2005.1(2) A person licensed as a broker or broker associate in another state or jurisdiction making application in Iowa by reciprocity or as provided in rule 481—2005.3(543B) or 481—2005.11(543B) may qualify for the same type of broker or broker associate license in Iowa. The person meets all criteria for an Iowa broker license as provided in rule 481—2003.1(543B). If the person does not meet the criteria, the person may qualify for a salesperson license if the person meets, at a minimum, the criteria for an Iowa salesperson license as provided in 481—Chapter 2004.

2005.1(3) A person may only perform activities in Iowa as provided by Iowa Code chapter 543B after qualifying for and being issued a real estate license.

[**ARC 7767C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2005.2(543B) Nonresident application. Each applicant under rule 481—2005.3(543B) or under a reciprocal licensing agreement or memorandum applies on forms provided by the commission under Iowa Code section 543B.16. The application includes but is not limited to a certification of license from the state of original licensure containing all information required by Iowa Code section 543B.21 and an affidavit certifying that the applicant has reviewed and is familiar with and will be bound by the Iowa real estate license law and the rules of the commission.

[**ARC 7767C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2005.3(543B) License by examination. A nonresident applicant licensed as a real estate salesperson or broker in a state or jurisdiction which does not have a reciprocal licensing agreement or memorandum with Iowa, or an applicant who does not qualify for reciprocal licensing, may be issued a comparable Iowa license by passing the real estate examination under the following circumstances:

2005.3(1) Broker. The person has been actively licensed as a broker or broker associate, the person meets all criteria for an Iowa broker's license as provided in rule 481—2003.1(543B), and the license has not been inactive or expired for more than six months immediately preceding the date of passage of the national portion and Iowa portion of the broker real estate examination.

2005.3(2) Salesperson. The person has been actively licensed as a salesperson and the license has not been inactive or expired for more than six months immediately preceding the date of passage of the Iowa portion of the salesperson real estate examination.

2005.3(3) The applicant submits a written request for authorization to sit for the appropriate examination.

2005.3(4) The applicant submits certification of the applicant's current qualifying license from the licensing authority that issued the license.

[**ARC 7767C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2005.4(543B) Licensure by reciprocity. The commission may, as provided in Iowa Code section 543B.21, enter into specific written reciprocal licensing agreements or memorandums with other individual states or jurisdictions having similar licensing criteria and grant an Iowa license to licensees from

those states or jurisdictions on the same basis as Iowa licensees are granted licenses by those states or jurisdictions.

2005.4(1) The applicant is not a resident of Iowa.

2005.4(2) A license issued pursuant to this rule is based upon a nonresident salesperson or broker license issued by examination.

2005.4(3) A license issued pursuant to this rule is assigned to the same broker or firm as the nonresident license upon which it is based.

2005.4(4) If an applicant establishes residency in Iowa, that person does not qualify for licensure by reciprocal licensing agreement or memorandum.

2005.4(5) An Iowa license issued by reciprocity is based upon the nonresident license issued by examination in that other state or jurisdiction and is issued to the same broker and location as the nonresident license. The nonresident broker and firm, if applicable, must also be licensed in Iowa.

2005.4(6) A reciprocity agreement or memorandum of understanding is only a method to apply for licensure and does not grant any exception to mandatory license laws of Iowa or the other state or jurisdiction.

2005.4(7) An Iowa licensee wishing to obtain a license in any other state or jurisdiction should contact that state's or jurisdiction's licensing board for information and applications.

[**ARC 7767C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2005.5(543B) Renewal of a license issued by reciprocity. All renewal criteria for a real estate broker or salesperson license issued by examination apply to a license issued by reciprocity.

Continuing education reciprocity is specifically provided for in the reciprocal license agreement or memorandum, or in a separate reciprocal continuing education agreement or memorandum.

[**ARC 7767C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2005.6(543B) Reinstatement of a license issued by reciprocity. All reinstatement criteria for a real estate broker license or salesperson license issued by examination apply to a license issued by reciprocity.

2005.6(1) Starting over. A broker or salesperson who fails to file a complete application to reinstate an expired license by midnight December 31 of the third year following expiration is treated as if the former broker or salesperson had never been licensed in Iowa.

2005.6(2) A broker or salesperson must qualify for reciprocity in order to reinstate an expired reciprocal broker or salesperson license.

2005.6(3) If the broker or salesperson has moved into Iowa and no longer qualifies for reciprocity, the expired license is reinstated in the same manner as a license issued by examination as provided in rule 481—2003.6(272C,543B) for brokers and rule 481—2004.6(272C,543B) for salespersons.

[**ARC 7767C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2005.7(543B) Nonresident real estate offices and licenses required. All nonresident applicants for licensure in Iowa shall qualify for and obtain a license pursuant to Iowa Code section 543B.2(2) and rule 481—2007.1(543B).

2005.7(1) If the applicant is a broker associate or salesperson of a nonresident broker, the nonresident employing broker must have an Iowa broker license.

2005.7(2) If the applicant is employed by or otherwise associated with a nonresident real estate firm as defined in rule 481—2002.1(543B), that firm must apply and qualify for an Iowa license.

a. No firm as defined in rule 481—2002.1(543B) may be granted an Iowa license unless at least one member or officer of the firm applies for and is granted an Iowa broker license.

b. Every member or officer of the firm and every employee or associated real estate licensee who acts as a real estate broker, broker associate, or salesperson in Iowa must apply for and be granted an Iowa license.

2005.7(3) As provided by Iowa Code section 543B.22, a nonresident broker or firm is not obligated to maintain a definite place of business in Iowa if that broker or firm maintains an active place of business within the resident state or jurisdiction.

[**ARC 7767C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2005.8(543B) Actions against nonresidents. The application for a nonresident license is accompanied by an executed irrevocable written consent to suits and actions at law or in equity as provided in Iowa Code section 543B.23.

[**ARC 7767C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2005.9(543B) Nonresident continuing education. Nonresident licensees shall fully comply with all continuing education unless a separate education agreement is in place between Iowa and the nonresident state or jurisdiction.

[**ARC 7767C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2005.10(543B) License discipline reporting. If an Iowa licensee has a real estate license disciplined, suspended or revoked by any other state or jurisdiction, that disciplinary action will be considered prima facie evidence of violation of Iowa Code section 543B.29 or 543B.34 or both, and a hearing may be held to determine whether similar disciplinary action should be taken against the Iowa licensee. Failure to notify the commission within 15 days of an adverse action taken by another state or jurisdiction is cause for disciplinary action.

[**ARC 7767C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2005.11(543B) Licensure by verification. A person licensed in another state or jurisdiction may qualify for an Iowa salesperson or broker license through verification by making application as provided in rule 481—501.1(272C). In addition to all requirements provided by rule 481—501.1(272C), an applicant for a license through verification shall also submit to the commission proof of passing the Iowa portion of the salesperson or broker real estate examination.

2005.11(1) *License terms.* Once the applicant submits an approved application and appropriate licensing fees, a license will be issued for a three-year term, counting the remaining portion of the year issued as a full year. Licenses expire on December 31 of the third year of the license term.

2005.11(2) Reserved.

[**ARC 7767C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

These rules are intended to implement Iowa Code chapters 17A, 272C and 543B.

[Editorial change: IAC Supplement 6/10/26]

CHAPTER 2006
TERMINATION AND TRANSFER
[Prior to 6/10/26, see Real Estate Commission[193E] Ch 6]

Chapter rescission date pursuant to Iowa Code section 17A.7: 5/22/29

481—2006.1(543B) Terminating employment or association. When a licensee is discharged by the affiliated broker or the licensee terminates the employment or association with the affiliated broker, the licensee immediately ceases all activities that need an active real estate license until such time as a new affiliated broker makes written request for the license and the license is reassigned to the new affiliated broker.

2006.1(1) When a broker discharges a salesperson or broker associate, the broker complies with all criteria of Iowa Code section 543B.33. The releasing broker makes a reasonable effort to ensure that an application to inactivate the licensee is submitted electronically to the commission within 72 hours of the discharge date.

2006.1(2) The licensee may terminate the employment or association by providing written notice to the affiliated broker advising the effective date of the termination and requesting that the license be immediately returned to the commission. The affiliated broker cannot refuse to comply with the request. The releasing broker makes every reasonable effort to ensure that the commission receives the electronic application within 72 hours of the termination date.

[**ARC 7768C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2006.2(543B) Transfer of license and necessary transfer application. All requests for transfer of license are made on the necessary electronic application for license transfer available from the commission. The license transfer application is only used for transferring the license from the affiliated broker to a new affiliated broker. This transfer application is only to be used if the transferring licensee has obtained the necessary information from the new affiliating broker. The license transfer application cannot be used for licensees who are terminated or who quit prior to obtaining a new affiliating broker. The transfer application cannot be backdated to a new affiliated broker.

2006.2(1) The license transfer process involves three steps, and each step needs to be correctly completed to qualify as a valid transfer. The steps are as follows:

a. The transferring licensee submits the electronic transfer application available from the commission.

b. Both the new affiliating broker and releasing broker electronically approve the transfer request within 48 hours of receiving notification from the commission of the transfer request.

c. The electronic transfer application is approved and issued by the commission.

2006.2(2) Transfer effective date. The effective date of the transfer is the date of approval and issuance from the commission.

[**ARC 7768C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

These rules are intended to implement Iowa Code chapters 17A, 272C and 543B.

[Filed 8/9/02, Notice 6/26/02—published 9/4/02, effective 10/9/02]
[Filed ARC 8284B (Notice ARC 8058B, IAB 8/26/09), IAB 11/18/09, effective 12/23/09]
[Filed ARC 7768C (Notice ARC 7447C, IAB 1/10/24), IAB 4/17/24, effective 5/22/24]
[Editorial change: IAC Supplement 6/10/26]

CHAPTER 2007
OFFICES AND MANAGEMENT

[Prior to 9/4/02, see 193E—Ch 1 and 193E—2.14(543B) to 193E—2.17(543B)]
[Prior to 6/10/26, see Real Estate Commission[193E] Ch 7]

Chapter rescission date pursuant to Iowa Code section 17A.7: 5/22/29

481—2007.1(543B) Real estate offices and licenses needed.

2007.1(1) Every Iowa resident real estate firm or self-employed broker maintains an office as provided in Iowa Code section 543B.31.

A nonresident Iowa real estate broker or firm is not obligated to maintain a definite place of business within Iowa as provided in Iowa Code section 543B.22.

2007.1(2) Sharing office space. It is acceptable for more than one broker to operate in an office at the same address if each broker maintains all records and trust accounts separate from all the others. Each broker operates under a business name, which clearly identifies the broker as an individual within the group of brokers.

2007.1(3) Branch office. A licensed Iowa real estate firm or sole-proprietor broker maintaining a branch office displays a commission-issued branch office license in that location. The branch office license is issued in the name of the firm or sole-proprietor broker and includes the license number and the physical address of the branch office. The branch office license is issued at a reduced fee and has the same expiration date of the primary license.

2007.1(4) When a real estate brokerage firm closes, the principal broker or a designated representative follows procedures as provided in 481—Chapter 2008.

2007.1(5) A licensed officer of a corporation or partnership may be licensed as an officer or partner of more than one corporation or partnership. The main or primary license for which the full license fee was paid is maintained in active status to keep any additional licenses that were issued at a reduced fee active and in effect. A broker officer licensed to more than one corporation or partnership may be the designated broker of more than one corporation or partnership.

Continuing education is needed only for renewal of the main or primary license.

2007.1(6) When a branch office closes, notice in writing, electronically or otherwise, shall be given to the commission.

2007.1(7) Each actively licensed broker associate and salesperson is licensed under a broker.

2007.1(8) A broker associate or salesperson may not be licensed under more than one broker during the same period of time.

[**ARC 7769C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2007.2(543B) Notification needed.

2007.2(1) Partnerships, associations, and corporations are obligated to obtain a license before acting as a real estate broker. Failure of a broker to inform the commission in writing, electronic or otherwise, within five working days that the broker has formed a new partnership, association or corporation, or has changed the type of the business, is prima facie evidence of a violation of Iowa Code section 543B.1.

2007.2(2) Failure of a broker to inform the commission in writing, electronic or otherwise, within five working days of a change in type of license as sole-proprietor broker, partner, officer or broker associate is prima facie evidence of a violation of Iowa Code sections 543B.1 and 543B.29(1).

2007.2(3) Failure of a broker to inform the commission in writing, electronic or otherwise, within five working days of a change of address of a proprietorship, partnership, or corporation is prima facie evidence of a violation of Iowa Code section 543B.32.

2007.2(4) Failure of a broker to return a license electronically to the commission office to ensure that it is received within 72 hours after a salesperson or broker associate is discharged or terminates employment is prima facie evidence of a violation of Iowa Code section 543B.33.

2007.2(5) Failure of a licensee to inform the commission in writing, electronic or otherwise, within five working days of a change of residence address or mailing address is prima facie evidence of a violation of Iowa Code sections 543B.16 and 543B.18.

[**ARC 7769C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2007.3(543B) Suspended and revoked licenses.

2007.3(1) As of the effective date of a suspended or revoked license, the licensee cannot engage in any activity that needs a real estate license as defined in Iowa Code chapter 543B.

2007.3(2) When a sole-proprietor broker, corporation or partnership license is suspended or revoked, all licensees associated with or assigned to that sole-proprietor broker, corporation or partnership are automatically placed on inactive status for the duration of the suspension or revocation, unless transferred to another sole-proprietor broker, corporation or partnership.

a. When a suspension or revocation is determined, the commission also determines whether the corporation or partnership license is automatically canceled.

b. If the broker whose license is suspended or revoked is the only licensed broker officer of a corporation, the corporation license will automatically be canceled.

2007.3(3) A licensee whose license is suspended or revoked may receive compensation during the period of suspension or revocation only for those acts performed and for which compensation was earned when the person was actively licensed prior to the effective date of the suspension or revocation.

This rule does not determine if a licensee is entitled to compensation; such entitlement would depend upon the licensee's written employment or association agreement with the former affiliated broker and is a matter of contract law.

2007.3(4) All brokerage and property management agreements are canceled by the broker whose license is suspended or revoked upon receipt of the order of revocation or suspension and prior to the effective date of the order.

a. The seller or landlord, or buyer or tenant, are advised that the seller or landlord, or buyer or tenant, may enter into a brokerage agreement with another broker of choice.

b. A broker whose license is suspended or revoked cannot sell or assign brokerage or management agreements to another broker without the written consent of the client, and any sale or assignment of brokerage or management agreements are completed prior to the effective date of the order.

2007.3(5) A broker whose license is suspended or revoked cannot finalize any pending closings. This responsibility is given to another broker, an attorney, a financial institution, or an escrow company.

a. Transfer of this responsibility is done with the written approval of all parties to the transaction.

b. All parties to the transaction are advised of the facts concerning the situation and are provided the name, address, and telephone number of the responsible entity where all trust and escrow moneys will be held, with the written approval of all parties.

2007.3(6) A broker whose license is suspended or revoked is barred from advertising real estate in any manner as a broker. All advertising, including but not limited to signs, is removed or covered within ten calendar days after the effective date of the suspension or revocation.

The real estate brokerage telephone is not answered in any manner to indicate the broker is active in the real estate business.

[**ARC 7769C**, IAB 4/17/24, effective 5/22/24; **ARC 9247C**, IAB 5/14/25, effective 6/18/25; Editorial change: IAC Supplement 6/10/26]

481—2007.4(543B) Barred practices. For purposes of this rule, only the term "real estate licensee" means "real estate broker or real estate salesperson" as defined in Iowa Code chapter 543B. A licensee participating in any of the practices described in this rule is deemed to be engaging in unethical conduct and a practice harmful or detrimental to the public within the meaning of Iowa Code section 543B.29(1).

2007.4(1) An arrangement in which a real estate licensee needs or conditions, in connection with the sale of a lot, that the real estate licensee receive from the homebuilder an exclusive right to sell or list the house to be constructed on the lot.

2007.4(2) An arrangement in which a real estate licensee agrees to sell lots on behalf of a developer on the condition that the developer obligates each homebuilder purchasing such a lot to list the house to be constructed with the real estate licensee.

2007.4(3) An arrangement in which a real estate licensee, in connection with the sale of a lot to a consumer or homebuilder, obligates the consumer or homebuilder to pay compensation on the value of the house to be constructed on the lot.

2007.4(4) Any arrangement pursuant to which the sale of real estate to a prospective purchaser is conditioned upon the listing of real estate owned by the prospective purchaser with the real estate licensee.

2007.4(5) An arrangement in which a real estate licensee, in connection with the sale of a lot to a consumer, obligates the consumer to use a specified homebuilder to build the house to be constructed on the lot.

2007.4(6) Any arrangement in which a real estate licensee enters into an agreement with a mortgage broker, bank, savings and loan, or other financial institution pursuant to which the making of a loan is directly or indirectly conditioned upon payment of compensation to the real estate licensee.

2007.4(7) Any arrangement pursuant to which a real estate licensee who is affiliated with a mortgage broker, bank, savings and loan association or other financial institution benefits from the practice by the affiliated financial institution of granting mortgage loans or any other loan or financial services or the availability of other benefits directly or indirectly conditioned upon the use of the real estate services of the affiliated licensee.

2007.4(8) Any arrangement barred by Iowa Code section 543B.60A.

This rule is intended only to regulate the licensing of real estate licensees in the state of Iowa. This rule is not intended nor should it be interpreted to supplant Iowa Code chapter 553 (Iowa Competition Law) or as authorizing or approving business practices which are not specifically barred in this rule. The commission, upon receipt of any formal written complaint filed against a licensee alleging a violation of this rule, in addition to evaluating such complaint for license revocation or suspension under Iowa Code chapter 543B, forwards a copy of such complaint to the attorney general of the state of Iowa and to the United States Attorney for investigation and appropriate action.

[**ARC 7769C**, IAB 4/17/24, effective 5/22/24; **ARC 9247C**, IAB 5/14/25, effective 6/18/25; Editorial change: IAC Supplement 6/10/26]

481—2007.5(543B) Loan finder fees. The acceptance of a fee or anything of value by a real estate licensee from a lender or financing company for the referral or steering of a client to the lender for a loan is considered not in the best interest of the public and constitutes a violation of Iowa Code sections 543B.29(3) and 543B.34(8).

[**ARC 7769C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2007.6(543B) Lotteries barred. Licensees cannot engage in lotteries and schemes of sales involving selling of certificates, chances or other devices, whereby the purchaser is to receive property to be selected in an order to be determined by chance or by some means other than the order of prior sale, or whereby property more or less valuable will be secured according to chance or the amount of sales made, or whereby the price will depend upon chance or the amount of sales made, or whereby the buyer or tenant will not receive, rent, or lease any property. Such activities are declared to be methods by reason of which the public interests are endangered.

[**ARC 7769C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2007.7(543B) Broker needed to furnish progress report. After an offer to buy has been made by a buyer and accepted by a seller, either party may demand at reasonable intervals and the broker furnishes a detailed statement showing the current status of the transaction.

[**ARC 7769C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2007.8(543B) Disclosure of licensee interest, acting as a principal, and status as a licensee. A licensee cannot act in a transaction on the licensee's own behalf, on behalf of the licensee's immediate family, or on behalf of the brokerage, or on behalf of an organization or business entity in which the licensee has an interest, unless the licensee provides written disclosure of that interest to all parties to the transaction in accordance with Iowa Code section 543B.56(3)*"b."* Disclosure obligated under this rule is made at the time of or prior to the licensee's providing specific assistance to the party or parties to the transaction. Copies of the disclosure may be provided in person, electronically or by mail, as soon

as reasonably practical. If no specific assistance is provided, disclosure is provided prior to the parties' forming a legally binding contract, either prior to an offer made by the buyer or tenant or prior to an acceptance by the seller or landlord, whichever comes first.

2007.8(1) *Licensee acting as a principal.* A licensee cannot acquire any interest in any property, directly or indirectly, nor can the licensee sell any interest in which the licensee, directly or indirectly, has an interest without first making written disclosure of the licensee's true position clear to the other party. Satisfactory proof of this disclosure is produced by the licensee upon request of the commission. Whenever a licensee is in doubt as to whether an interest, relationship, association, or affiliation obligates disclosure under this rule, the safest course of action is to make the written disclosure.

2007.8(2) *Status as a licensee.* Before buying, selling, or leasing real estate as described above, the licensee discloses in writing any ownership, or other interest, which the licensee has or will have and the licensee's status to all parties to the transaction. An inactive status license does not exempt a licensee from providing the obligated disclosure.

2007.8(3) *Dual capacity.* The licensee does not act in a dual capacity of agent and undisclosed principal in any transaction.

[**ARC 7769C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2007.9(543B) Financial interest disclosure needed. A licensee who has any affiliated business arrangement or relationship with any provider of settlement services, as defined below, and directly or indirectly refers business to that provider or affirmatively influences the selection of that provider discloses the arrangement and any financial interest to the person whose business is being referred or influenced. The obligated disclosure is acknowledged by the separate signatures of the person or persons whose business is being referred or influenced. The disclosure is given and signed before or at substantially the same time that the business is referred or the provider is selected. If the disclosure is made on a separate form, the licensee retains a copy of the signed disclosure in the transaction file for a period of five years after the execution.

2007.9(1) An affiliated business arrangement means an arrangement in which a real estate licensee, or an associate of a real estate licensee, has either an affiliate relationship with or a direct or beneficial ownership interest of more than 1 percent in the business entity providing the service or product.

a. An associate means one who has one or more of the following relationships with a real estate licensee:

(1) A spouse, parent, or child of a real estate licensee;

(2) A corporation or business entity that controls, is controlled by, or is under common control with a real estate licensee;

(3) An employee, officer, director, partner, franchiser or franchisee of a real estate licensee; or

(4) Anyone who has an agreement, arrangement or understanding with a real estate licensee or brokerage, the purpose or substantial effect of which is to enable the real estate licensee to refer for any service, settlement service, or business or product related to the transaction and to benefit financially from the referral of that business.

b. Settlement services include services in connection with a real estate transaction including, but not limited to, the following: mortgage or other financing; title searches; title examinations; the provisions of title certificates, title insurance, hazard insurance; services rendered by an attorney; the preparation of documents; property surveys; the rendering of credit reports or appraisals; pest, fungus, mechanical or other inspections; services rendered by a real estate agent or broker; and the handling of the processing and closing of settlement.

c. An affiliated business arrangement does not include an arrangement in which a real estate licensee, or an associate of a real estate licensee, gives or pays undisclosed compensation in a transaction to any other licensee for a referral to provide real estate brokerage services, including franchise affiliates, if there is no direct or beneficial ownership interest of more than 1 percent in the business entity providing the service. Referral fees or compensation paid by a licensee to another licensee under these conditions are exempted from the disclosure criteria.

2007.9(2) No particular language is needed for the disclosure. To assist real estate licensees and the public, the commission recommends the following sample language:

DISCLOSURE OF REFERRAL OF BUSINESS

I understand that ___(name of real estate licensee)____ has an affiliate relationship with or owns an interest in ____(name of company to which business is being referred)___ and is also recommending that I employ this company for _____(type of service)_____.

I understand that ____(name of real estate licensee)_____ may earn financial benefits from my use of this company. I understand that I am not obligated to use this company, and may select a different company if I wish to do so. This form has been fully explained to me and I have received a copy.

(Date) (Signature of person whose business is being referred)

2007.9(3) The term "franchise" has the same meaning as set forth in 24 CFR Chapter XX, Section 3500.15(c) as of April 1995.

2007.9(4) The term "affiliate relationship" means the relationship among business entities where one entity has effective control over the other by virtue of a partnership or other agreement or is under common control with the other by a third entity or where an entity is a corporation related to another corporation as parent to subsidiary by an identity of stock ownership.

2007.9(5) The term "beneficial ownership" means the effective ownership of an interest in a provider of settlement services or the right to use and control the ownership interest involved even though legal ownership or title may be held in another person's name.

2007.9(6) The term "direct ownership" means the holding of legal title to an interest in a provider of settlement services except where title is being held for the beneficial owner.

2007.9(7) The term "control" as used in the definition of "affiliate relationship" means that a person:

a. Is a general partner, officer, director, or employer of another person;

b. Directly or indirectly or acting in concert with others, or through one or more subsidiaries, owns, holds with power to vote, or holds proxies representing more than 20 percent of the voting interests of another person;

c. Affirmatively influences in any manner the election of a majority of the directors of another person; or

d. Has contributed more than 20 percent of the capital of the other person.

[**ARC 7769C**, IAB 4/17/24, effective 5/22/24; **ARC 9247C**, IAB 5/14/25, effective 6/18/25; Editorial change: IAC Supplement 6/10/26]

481—2007.10(543B) Agency-designated broker responsibilities. The following conditions and circumstances, together with the education and experience of licensed and unlicensed employees and independent contractors, is considered when determining whether or not the designated broker has met the supervisory responsibilities as set forth by Iowa Code section 543B.62(3)*"b."*

2007.10(1) When making a determination, the commission may consider, but is not limited to consideration of, the following:

a. Availability of the designated broker/designee to assist and advise regarding brokerage-related activities;

b. General knowledge of brokerage-related staff activities;

c. Availability of quality training programs and materials to licensed and unlicensed employees and independent contractors;

d. Supervisory policies and practices in the review of competitive market analysis, listing contracts, sales contracts and other contracts or information prepared for clients and customers;

e. Frequency and content of staff meetings;

f. Written company policy manuals for licensed and unlicensed employees and independent contractors;

g. Ratio of supervisors to licensed employees and independent contractors; and

h. Assignment of an experienced licensee to work with new licensees.

2007.10(2) The designated broker disseminates, in a timely manner, to licensed employees and independent contractors all regulatory information received by the brokerage pertaining to the practice of real estate brokerage.

[**ARC 7769C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2007.11(543B) Supervision needed. An employing or affiliated broker is responsible for providing supervision of any salesperson or broker associate employed by or otherwise associated with the broker as a representative of the broker. The existence of an independent contractor relationship or any other special compensation arrangement between the broker and the salesperson or broker associate does not relieve either the broker or the salesperson or broker associate of duties, obligations or responsibilities obligated by law.

2007.11(1) Each salesperson and broker associate keeps the broker fully informed of all activities being conducted on behalf of the broker in accordance with Iowa Code section 543B.62(3)*"b."*

2007.11(2) The activities of a salesperson or broker associate acting as a principal in the sale, lease, rental, or exchange of property owned by the licensee could impact the salesperson's or broker associate's license and the license of the employing or affiliated broker.

a. When a licensee is acting as a principal, the licensee keeps the employing or affiliated broker fully informed of all activities.

b. While this rule does not obligate that a licensee list property owned by the licensee with the employing or affiliated broker, the broker may obligate as a condition of employment or affiliation that the licensee list the property with the employing or affiliated broker or pay compensation.

2007.11(3) A broker associate means the same as defined in Iowa Code section 543B.5(5) and rule 481—2002.1(543B). A broker associate is subject to the provisions of Iowa Code sections 543B.24 and 543B.33 and commission rules pertaining to salespersons during the time the broker remains a broker associate.

2007.11(4) A broker who sponsors a salesperson during the salesperson's first year of licensure must be able to demonstrate that the broker has the time available and experience necessary to adequately supervise an inexperienced salesperson.

[**ARC 7769C**, IAB 4/17/24, effective 5/22/24; **ARC 9247C**, IAB 5/14/25, effective 6/18/25; Editorial change: IAC Supplement 6/10/26]

481—2007.12(543B) Compensation controversies. The commission will not and is not authorized by law to consider or conduct hearings involving disputes over fees or compensation between cooperating brokers, salespersons, and other brokers.

2007.12(1) A former employing or affiliated broker may pay compensation directly to a broker associate or salesperson who is presently assigned to another broker or firm, or whose license is inactive, expired, suspended or revoked, only if the compensation was earned while the broker associate or salesperson was actively licensed and assigned to the former broker. Whether or not compensation was earned while the broker associate or salesperson was licensed with the former broker depends upon the licensee's written agreement with the former broker. The commission will not determine whether compensation is earned or whether compensation is to be paid.

2007.12(2) If the licensee is presently assigned to another broker or firm, the former broker does not pay the compensation to the new employing or affiliated broker or firm.

2007.12(3) An Iowa real estate broker may pay compensation or a fee to or receive compensation or a fee from a nonresident broker who is actively licensed in the broker's resident state but not licensed in Iowa. The nonresident broker takes no part in the listing, showing, negotiating offers or any other functions of a broker in Iowa unless actively licensed in Iowa.

2007.12(4) Upon the termination of association or employment with the affiliated broker or firm, the broker associate or salesperson cannot take or use any written listing or brokerage agreements secured during the association or employment. Said listings and brokerage agreements remain the property of the broker or firm and may be canceled only by the broker and the seller, unless the terms of the listing or brokerage agreement state otherwise.

[**ARC 7769C**, IAB 4/17/24, effective 5/22/24; **ARC 9247C**, IAB 5/14/25, effective 6/18/25; Editorial change: IAC Supplement 6/10/26]

481—2007.13(543B) Support personnel for licensees; permitted and barred activities. Whenever a licensee affiliated with a broker engages support personnel to assist the affiliated licensee in the activities of the real estate brokerage business, both the firm or designated broker and the affiliated licensee are responsible for supervising the acts or activities of the support personnel; however, the affiliated licensee has the primary responsibility for supervision subject to Iowa Code section 543B.7A. Unless the support person holds a real estate license, the support person cannot perform any activities, duties, or tasks of a real estate licensee as identified in Iowa Code sections 543B.3 and 543B.6 and may perform only ministerial duties that do not need discretion or the exercise of the licensee's own judgment. Personal assistants are considered support personnel.

2007.13(1) Individuals actively licensed with one firm or broker cannot work as support personnel for a licensee affiliated with another firm or broker. Individuals with an inactive status license may work as support personnel for a licensee but cannot participate in any activity that needs a real estate license.

2007.13(2) Any real estate brokerage firm or broker that allows an affiliated licensee to employ, or engage under an independent contractor agreement, support personnel to assist the affiliated licensee in carrying out brokerage activities complies with the following:

a. Implement a written company policy authorizing the use of support personnel by licensees;

b. Specify in the written company policy, which may incorporate the duties listed in subrule 2007.13(4), any duties that the support personnel may perform on behalf of the affiliated licensee;

c. Ensure that the affiliated licensee and the support personnel receive copies of the duties that support personnel may perform.

2007.13(3) Broker supervision and improper use of license and office. While individual and designated brokers are responsible for supervising the real estate-related activities of all support personnel, an affiliated licensee employing a personal assistant has the primary responsibility for supervision of that personal assistant. A broker is not held responsible for inadequate supervision if:

a. The unlicensed person violated a provision of Iowa Code chapter 543B or of commission rules that is in conflict with the designated broker's specific written policies or instructions;

b. Reasonable procedures have been established to verify that adequate supervision was being provided;

c. The broker, upon hearing of the violation, attempted to prevent or mitigate the damage;

d. The broker did not participate in the violation; and

e. The broker did not attempt to avoid learning of the violation.

2007.13(4) In order to provide reasonable assistance to licensees and their support personnel, but without defining every permitted activity, the commission has identified certain tasks that unlicensed support personnel under the direct supervision of a licensee affiliated with a firm or broker may not perform.

a. Permitted activities include but are not limited to the following:

(1)	Answer the telephone, provide information about a listing to licensees, and forward calls from the public to a licensee;
(2)	Submit data on listings to a multiple listing service;
(3)	Check on the status of loan commitments after a contract has been negotiated;
(4)	Assemble documents for closings;
(5)	Secure documents that are public information from the courthouse and other sources available to the public;
(6)	Have keys made for company listings;
(7)	Write advertisements and promotional materials for the approval of the licensee and designated broker;
(8)	Place advertisements in magazines, newspapers, websites, social media, and other media as directed by the designated broker;
(9)	Record and deposit earnest money, security deposits, and advance rents, and perform other bookkeeping duties;
(10)	Type contract forms as directed by the licensee or the designated broker;
(11)	Monitor personnel files;
(12)	Compute compensation checks;

(13)	Place signs on property;
(14)	Order items of routine repair as directed by a licensee;
(15)	Act as courier for such purposes as delivering documents or picking up keys. The licensee remains responsible for ensuring delivery of all executed documents obligated by Iowa law and commission rules;
(16)	Schedule appointments with the seller or the seller's agent in order for a licensee to show a listed property;
(17)	Arrange dates and times for inspections;
(18)	Arrange dates and times for the mortgage application, the preclosing walk-through, and the closing;
(19)	Schedule an open house;
(20)	Perform physical maintenance on a property;
(21)	Accompany a licensee to an open house or a showing and perform the following functions as a host or hostess: 1. Open the door and greet prospects as they arrive; 2. Hand out or distribute prepared printed material; 3. Have prospects sign a register or guest book to record names, addresses and telephone numbers; 4. Accompany prospects through the home for security purposes and not answer any questions pertaining to the material aspects of the house or its price and terms;
(22)	Independently host open houses for tours attended by licensed brokers and salespersons only;
(23)	Advertise and list property for rent;
(24)	Show property for rent;
(25)	Collect rent and deposits for the rental of property; or
(26)	Complete and execute form agreements for the rental of property.

b. Barred activities include but are not limited to the following:

(1)	Making cold calls by telephone or in person or otherwise contacting the public for the purpose of securing prospects for listings, sale, or exchanges;
(2)	Independently hosting open houses, kiosks, home show booths, or fairs attended by the public;
(3)	Preparing promotion materials or advertisements without the review and approval of licensee and designated broker;
(4)	Showing property for sale independently;
(5)	Answering any questions on title, financing, or closings (other than time and place);
(6)	Answering any questions regarding a listing except for information on price and amenities expressly provided in writing by the licensee;
(7)	Discussing or explaining a contract, listing, agreement, or other real estate document with anyone outside the firm;
(8)	Negotiating or agreeing to any compensation, management fee, or referral fee on behalf of a licensee, seller, or buyer with another licensee, client, or customer;
(9)	Discussing with the owner of real property the terms and conditions of the real property offered for sale or lease;
(10)	Collecting or holding deposit moneys, other moneys or anything of value received from the owner of real property or from a prospective buyer;
(11)	Providing owners of real property or prospective buyers with any advice, recommendations or suggestions as to the sale, purchase, or exchange of real property that is listed, to be listed, or currently available for sale; or
(12)	Holding one's self out in any manner, orally or in writing, as being licensed or affiliated with a particular firm or real estate broker as a licensee.

[**ARC 7769C**, IAB 4/17/24, effective 5/22/24; **ARC 9247C**, IAB 5/14/25, effective 6/18/25; Editorial change: IAC Supplement 6/10/26]

481—2007.14(543B) Information provided by nonlicensed support personnel limited. Nonlicensed support personnel may, on behalf of the employer licensee, provide information concerning the sale, exchange, purchase, or advertising of real estate only to another licensee. Support personnel provides information only to another licensee that has been provided to the personnel by the employer licensee either verbally or in writing.

[**ARC 7769C**, IAB 4/17/24, effective 5/22/24; **ARC 9247C**, IAB 5/14/25, effective 6/18/25; Editorial change: IAC Supplement 6/10/26]

481—2007.15(543B) Presenting purchase agreements. All written offers to purchase received by a listing broker or listing agent are promptly presented to the seller for formal acceptance or rejection. The formal acceptance or rejection of the offer is promptly communicated to the prospective buyers. Unless there is written agreement between the seller and the listing broker directing otherwise, the listing broker is obligated to present back-up offers until the transaction has closed.

2007.15(1) A client's broker seeking compensation from another broker will obtain authorization and agreement from the cooperating broker prior to closing of the real estate transaction.

2007.15(2) Immediately upon receiving an offer to purchase signed and dated by the buyer with consideration, if any, the listing agent provides a copy of the offer to purchase to the buyer as a receipt.

2007.15(3) A client's agent or representative cannot negotiate directly or indirectly with a seller or buyer, or landlord or tenant, if the agent knows, or acting in a reasonable manner should have known, that the seller or buyer, or landlord or tenant, has a written unexpired brokerage agreement for services on an exclusive basis.

2007.15(4) A listing agent cannot refuse to permit a client's agent or representative to be present at any step in a real estate transaction, including but not limited to viewing a property, seeking information about a property, or negotiating directly or indirectly with an agent about a property listed by such agent, and an agent cannot refuse to show a property listed by that agent or otherwise deal with a represented client who requests that the client's agent or representative be present at any step in the real estate transaction, except as provided in this subrule.

a. The client's agent or representative does not have the right to be present at any discussion of confidential matters or evaluation of the offer by the seller and the listing agent.

b. Unless the seller provides written instructions to the listing agent to exclude a client's agent or representative from being present when the offer is presented, it is not unlawful for the client's agent or representative to be present.

c. Compliance with this rule does not need or obligate a listing broker to split any compensation or to otherwise compensate a client's agent.

1 Effective date of amendment to rule 1.21 delayed 70 days by the Administrative Rules Review Committee.

2 Effective date of 1.31(543B) delayed 70 days by the Administrative Rules Review Committee at its meeting held July 8, 1993.

3 Effective date of 1.1, definition of "referral fee"; 1.41, introductory paragraph; and subrules 1.41(3) and 1.41(7) delayed 70 days by the Administrative Rules Review Committee at its meeting held April 7, 2000; rescinded IAB 6/28/00, effective 6/9/00.

CHAPTER 2008
CLOSING A REAL ESTATE BUSINESS

[Prior to 6/10/26, see Real Estate Commission[193E] Ch 8]

Chapter rescission date pursuant to Iowa Code section 17A.7: 5/22/29

481—2008.1(543B) Closing a real estate firm. The following steps are necessary for the voluntary closing of a real estate brokerage firm. The individual broker or the designated broker:

2008.1(1) Notifies the commission via electronic application upon closing the firm. The following information may be included:

a. The date the firm closed or will close;

b. The location where records and files will be stored for a minimum of five years; and

c. The name, address, and telephone number of the custodian who will be storing the records and files;

2008.1(2) Notifies all licensees associated with the firm in writing of the effective date of the closing. The former affiliated broker makes every reasonable effort to return the licenses of any licensees associated with the firm at the time of closing to the commission within 72 hours, with written notice that the firm is closed;

2008.1(3) Notifies all clients as well as parties and co-brokers to existing contracts, in writing, advising of the date the firm will close. All clients are advised in writing that they may enter into a new brokerage or management agreement with the broker of their choice;

2008.1(4) Removes advertising signs from all properties that were listed with or managed by the firm. Arranges to cancel advertising in the name of the firm, including office signs, Internet to include websites and social media, and telephone listing advertisements;

2008.1(5) Maintains all escrow or trust accounts until all moneys are transferred to the lending institution, an escrow company or an attorney for closing of the transaction, or are otherwise properly disbursed as agreed to in writing by the parties having an interest in the funds; and

2008.1(6) Arranges for pending contracts to be closed by a lending institution, an escrow company or an attorney. In the case of a sale, transfer or merger of an existing brokerage, the acquiring broker may close the pending transactions acquired from the selling broker after having first obtained the express written consent of all parties to the transactions. The broker notifies all parties involved in pending transactions as to the name, address, and telephone number of the closing agent.

[**ARC 7770C**, IAB 4/17/24, effective 5/22/24; **ARC 9248C**, IAB 5/14/25, effective 6/18/25; Editorial change: IAC Supplement 6/10/26]

481—2008.2(543B) Involuntary closing of a sole-proprietor brokerage. Upon the death or disability of a sole-proprietor broker in which the affairs of the broker cannot be carried on, the following steps are necessary for closing the real estate brokerage business:

2008.2(1) All licensees associated with the broker cease all brokerage activity until their licenses have been transferred to another broker;

2008.2(2) The executor or legal representative of the broker's estate, if an attorney or a broker, may conclude pending business; and

2008.2(3) The administrator or executor of the broker's estate or the legal representative of the broker may follow the procedures established in rule 481—2008.1(543B) for voluntary closing.

[**ARC 7770C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2008.3(543B) Involuntary closing of a corporation, partnership, or association brokerage firm.

2008.3(1) In the event of an involuntary closing of a brokerage firm as a result of the death or incapacity of one or more of the licensed broker officers, broker partners or broker associates of a real estate corporation, partnership or association in which the affairs of the broker, partnership, corporation or association cannot be carried on, the following steps are necessary for closing the real estate brokerage business:

a. All licensees associated with the firm cease all brokerage activity until their licenses have been transferred to another broker;

b. The executor of the broker's estate, if an attorney, or the legal representative of the firm may conclude pending business; and

c. The administrator or executor of the broker's estate or the legal representative of the broker may follow the procedures established in rule 481—2008.1(543B) for voluntary closing.

2008.3(2) In the event of the death or incapacity of a designated broker for a firm, the affairs of the firm may be carried on by naming a new designated broker. The commission is notified of the change within 72 hours.

[**ARC 7770C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

These rules are intended to implement Iowa Code chapters 17A, 272C and 543B.

[Filed 8/9/02, Notice 6/26/02—published 9/4/02, effective 10/9/02]

[Filed ARC 7770C (Notice ARC 7449C, IAB 1/10/24), IAB 4/17/24, effective 5/22/24]

[Filed ARC 9248C (Notice ARC 8854C, IAB 2/19/25), IAB 5/14/25, effective 6/18/25]

[Editorial change: IAC Supplement 6/10/26]

CHAPTER 2009
FEES
[Prior to 9/4/02, see 193E—2.9(543B)]
[Prior to 6/10/26, see Real Estate Commission[193E] Ch 9]

Chapter rescission date pursuant to Iowa Code section 17A.7: 5/22/29

481—2009.1(543B) Fees.

2009.1(1) Original license or renewal.

Broker license	$170
Additional officer or partner license	$50
Firm license	$170
Branch office license	$50
Trade name license	$50
Salesperson license	$125

2009.1(2) Fee for renewal of broker and salesperson license between January 1 and January 30 following expiration of license is the regular renewal fee plus $25 reinstatement fee.

Broker license	$195
Salesperson license	$150

Reinstatement fee is not applicable to a firm license, additional officer license, additional partner license, trade name license, or branch office license.

2009.1(3) Fee for certification of license is $25.

[**ARC 7771C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2009.2(543B) Refunds and bad payments.

2009.2(1) Fees remitted with an application for license will be refunded if the commission finds the applicant is not qualified for a license.

2009.2(2) Fees will not be refunded for the unexpired term of a license that has been issued and is in effect.

2009.2(3) A fee remitted in error will be refunded if it is received as a separate check. If not received as a separate check, a fee remitted in error will be refunded if a written request is received within 30 days of receipt of the fee.

2009.2(4) Payment of a fee with a bad payment is prima facie evidence of a violation of Iowa Code section 543B.29(1) or 543B.34(8) or both.

2009.2(5) If a bad payment is received for an original license, the application for license is deemed incomplete and the license null and void.

2009.2(6) If a bad payment is received for renewal of a license, the application is deemed incomplete and the license issued for the new term is deemed null and void. If a replacement payment is not received by the commission by the date of expiration of the license (December 31), the appropriate reinstatement fee is added to the unpaid renewal fee.

[**ARC 7771C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2009.3(543B) Examination fee. The examination fee is paid directly to the testing service at the prevailing rate established by contract between the commission and the testing service.

[**ARC 7771C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

These rules are intended to implement Iowa Code section 543B.27.

[Filed 8/9/02, Notice 6/26/02—published 9/4/02, effective 10/9/02]
[Filed ARC 7771C (Notice ARC 7450C, IAB 1/10/24), IAB 4/17/24, effective 5/22/24]
[Editorial change: IAC Supplement 6/10/26]

CHAPTER 2010
ADVERTISING

[Prior to 9/4/02, see 193E—Ch 1]
[Prior to 6/10/26, see Real Estate Commission[193E] Ch 10]

Chapter rescission date pursuant to Iowa Code section 17A.7: 5/22/29

481—2010.1(543B) Advertising. A broker cannot advertise to sell, buy, exchange, rent, or lease property in a manner indicating that the offer is being made by a private party not engaged in the real estate business, and no real estate advertisement can show only a post office box number, telephone number or street address. Every licensee, when advertising real estate, will use the licensed business name or the name under which the broker is licensed and affirmatively and unmistakably indicate that the party is a real estate licensee and not a private party. Each broker when operating under a franchise or trade name other than the broker's own name may license the franchise or trade name with the commission or clearly reveal in all advertising that the broker is the licensed individual who owns the entity using the franchise or trade name. An individual licensee or real estate team that is not a principal broker or firm is not required to register a trade name. An individual licensee or real estate team shall conspicuously display the name of the brokerage immediately preceding or immediately following the individual licensee's name or real estate team name in any advertising or information made available to the public. For purposes of this rule, "conspicuously display" shall mean advertisement that, when presented, a reasonable person would be able to identify or observe.

2010.1(1) Advertising includes all forms of identification, representation, promotion and solicitation disseminated in any manner and by any means of communication to the public for any purpose related to licensed real estate activity. Forms of advertising include, but are not limited to, real estate brokerage checks, letterhead, email, signs, websites, social media and business cards.

2010.1(2) Real estate advertising cannot be misleading or deceptive or intentionally misrepresent any property, terms, values, or policies and services of the brokerage.

2010.1(3) All advertising is conducted under the supervision of the broker. The broker ensures the accuracy of the information and, upon becoming aware of a material error or an advertisement that is in violation of this chapter or Iowa Code chapter 543B, the broker promptly corrects the error or problem within ten calendar days.

2010.1(4) A licensed firm advertising or marketing on a website or social media account that is either owned by or controlled by the licensed firm includes the following data on each page of the site on which the firm's advertisement or information appears:

a. Conspicuously display, in a font size that is readable to a reasonably prudent person, the firm or tradename as registered with the commission (abbreviations are not permitted) immediately preceding or immediately following the individual licensee's name or real estate team name;

b. The city and state in which the firm's main office is located; and

c. The states in which the firm holds a real estate brokerage license.

2010.1(5) A licensee advertising or marketing on a website or social media account that is either owned by or controlled by the licensee includes the following data on each page of the site on which the licensee's advertisement or information appears:

a. The licensee's legal name;

b. Conspicuously display the name of the firm or trade name with which the licensee is affiliated as that firm name is registered with the commission (abbreviations are not permitted) immediately preceding or immediately following the individual licensee's name or real estate team name;

c. The city and state in which the licensee's office is located; and

d. The states in which the licensee holds a real estate broker or salesperson license.

2010.1(6) A firm using any Internet electronic communication for advertising or marketing, including but not limited to email, websites, and social media accounts, includes the information in 481—subrule 2010.1(4).

2010.1(7) A licensee using any Internet electronic communication for advertising or marketing, including but not limited to email, websites, and social media accounts, includes on the first or last page of all communications the information in subrule 2010.1(5).

[**ARC 7772C**, IAB 4/17/24, effective 5/22/24; **ARC 9249C**, IAB 5/14/25, effective 6/18/25; Editorial change: IAC Supplement 6/10/26]

481—2010.2(543B) Advertising under own name. Salespersons and broker associates are barred from advertising under their own names unless they are the owners of the property they are advertising for sale, rent, lease or exchange, and on which no brokerage fees are to be paid. The sale is completely a "for sale by owner" transaction. The property cannot be listed or advertised in any way that would make it appear to be listed with a brokerage. The affiliated licensee cannot function in any capacity that needs a real estate license, and the licensee is responsible for all advertising conducted on the licensee's own behalf.

[**ARC 7772C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2010.3(543B) Signs on property. Placing a sign on any property offering it for sale, rent, lease, or exchange without the written consent of the owner is not considered in the best interest of the general public.

2010.3(1) When a listing expires, unless a new written listing or extension is obtained, the licensee immediately ceases advertising and active marketing of the property. The licensee makes every reasonable effort to remove signs as quickly as possible.

2010.3(2) The licensee makes every reasonable effort to remove signs from the property after the transaction is closed. Sold signs and other signs are not left on properties without the written consent of the new owner of record.

[**ARC 7772C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

These rules are intended to implement Iowa Code chapters 17A, 272C and 543B.

[Filed 8/9/02, Notice 6/26/02—published 9/4/02, effective 10/9/02]
[Filed ARC 7772C (Notice ARC 7451C, IAB 1/10/24), IAB 4/17/24, effective 5/22/24]
[Filed ARC 9249C (Notice ARC 8855C, IAB 2/19/25), IAB 5/14/25, effective 6/18/25]
[Editorial change: IAC Supplement 6/10/26]

CHAPTER 2011
BROKERAGE AGREEMENTS AND LISTINGS

[Prior to 9/4/02, see 193E—Ch 1]
[Prior to 6/10/26, see Real Estate Commission[193E] Ch 11]

Chapter rescission date pursuant to Iowa Code section 17A.7: 5/22/29

481—2011.1(543B) Brokerage agreements. All brokerage agreements will be in writing, including the amount of compensation to be paid with disclosure that states compensation is negotiable and not set by law, the signatures of all parties concerned and a definite expiration date not to exceed one calendar year in length from the effective date, for residential properties. An exclusive brokerage agreement or exclusive right to sell agreement clearly indicates that it is such an agreement. A legible copy of every written brokerage agreement or other written authorization is given to the client by a licensee as soon as the signature of the client is obtained.

1. A listing agreement should properly identify the property and contain the terms and conditions under which the property is to be sold, including but not limited to the list price and any compensation to be earned from the sale of the property.

2. A buyer representation agreement is required for all residential properties. Open houses, auctions, and commercial properties are exempt from usage of a buyer representation agreement.

2011.1(1) A licensee cannot solicit or enter into a brokerage agreement with a buyer or seller if the licensee knows or has reason to know that the buyer or seller has a written unexpired exclusive brokerage agreement or exclusive right to sell listing agreement to the property with another broker unless the buyer or seller initiates the discussion and the licensee has not directly or indirectly solicited the brokerage agreement.

a. However, if the buyer or seller initiates the discussion, the licensee may negotiate and enter into a brokerage agreement that will take effect after the expiration of the current brokerage agreement.

b. If the buyer or seller initiates the discussion, the licensee may inform the buyer or seller that the buyer or seller needs to allow the current brokerage agreement to expire or obtain a mutually acceptable cancellation from the broker before any further discussion can take place.

2011.1(2) A real estate licensee cannot negotiate a sale, exchange, or lease of real property directly with a seller if it is known that the seller has a written unexpired contract in connection with the property that grants an exclusive right to sell to another broker.

2011.1(3) A real estate licensee cannot negotiate a sale, purchase, exchange, or lease of real property directly with a buyer or seller if it is known that the buyer or seller has a written unexpired exclusive brokerage agreement with another broker.

2011.1(4) All brokerage agreements are written and cannot be assigned, sold, or otherwise transferred to another broker without the express written consent of all parties to the original agreement, unless the terms of the agreement state otherwise. Upon termination of association or employment with the principal broker, the affiliated broker associate or salesperson cannot solicit, take, or use any written brokerage agreements secured during the association or employment. Said brokerage agreements remain the property of the principal broker and may be canceled only by the broker and the client.

2011.1(5) Net listing barred. No licensee makes or enters into a net listing agreement for the sale of real property or any interest in real property. A net listing agreement is an agreement that specifies a net sale price to be received by the owner with the excess over that price to be received by the broker as compensation. The taking of a net listing is unprofessional conduct and constitutes a violation of Iowa Code sections 543B.29(3) and 543B.34(8).

[**ARC 7773C**, IAB 4/17/24, effective 5/22/24; **ARC 8102C**, IAB 7/10/24, effective 8/14/24; **ARC 9477C**, IAB 8/6/25, effective 9/10/25; Editorial change: IAC Supplement 6/10/26]

481—2011.2(543B) Cooperation, compensation, and compliance.

2011.2(1) Every written brokerage agreement includes, at a minimum, the criteria set forth in Iowa Code section 543B.56A and the following provisions:

a. Brokerage agreements will contain a statement disclosing the brokerage policy on cooperating with and compensating other brokerages or the other parties' agent in the sale, lease, rental, or purchase of real estate, including whether the brokerage intends to split the compensation with other brokerages and any other method for negotiating compensation for another party's broker. Such disclosure serves to inform the client of any policy that would limit the participation of any other brokerage; and

b. All brokerage agreements comply with Iowa real estate law and commission rules, including but not limited to rules 481—2011.1(543B) and 481—2011.4(543B) and 481—Chapter 2015.

2011.2(2) Duration of relationship. The relationships commence at the time of the brokerage agreement and continue until closing of the transaction or performance or completion of the agreement by which the broker was engaged within the term of the agreement and not exceeding 12 months. If the transaction does not close, or the agreement for which the broker was engaged is not performed or completed for any reason, the relationship ends at the earlier of the following:

a. The date of expiration agreed upon by the parties; or

b. Any termination by written agreement of the parties.

2011.2(3) Obligation terminated. In addition to any continuing duty or obligation provided in the written agreement or pursuant to Iowa law and commission rules, a broker or brokerage engaged as a seller's or landlord's agent, buyer's or tenant's agent, or dual agent and affiliated licensees have the duty after termination, expiration, completion, or performance of the brokerage agreement to:

a. Account for all moneys and property related to and received during the engagement; and

b. Keep confidential all information received during the course of the engagement which was made confidential by request or instructions from the engaging party or is otherwise confidential by statute or rule.

2011.2(4) Compensation. In any real estate transaction, the broker's compensation may be paid by the seller, the buyer, the landlord, the tenant, a third party, or splitting of compensation between brokers.

a. Payment of compensation is not to be construed to determine or establish an agency relationship. The payment of compensation to a broker does not determine whether a brokerage relationship has been created between any broker and a seller, landlord, buyer, or tenant paying such compensation.

b. Written permission of the client is needed as follows:

(1) A seller's or landlord's agent may split compensation paid by such seller or landlord with another broker, with the written consent of the seller or landlord.

(2) A buyer's or tenant's agent may split compensation paid by such buyer or tenant with another broker, with the written consent of the buyer or tenant.

(3) Without the written approval of the client, a seller's or landlord's agent cannot propose to the buyer's or tenant's agent that such seller's or landlord's agent may be compensated by splitting compensation paid by such buyer or tenant.

(4) Without the written approval of the client, a buyer's or tenant's agent cannot propose to the seller's or landlord's agent that such buyer's or tenant's agent may be compensated by splitting compensation paid by such seller or landlord.

c. A broker may be compensated by more than one party for services in a transaction.

d. A licensee cannot accept, receive or charge an undisclosed compensation for a transaction.

e. A licensee cannot give or pay an undisclosed compensation to any other licensee for a transaction, except payment for referrals to other licensees, including franchise affiliates, to provide real estate brokerage services, if there is no direct or beneficial ownership interest of more than 1 percent in the business entity providing the service.

f. A licensee cannot pay any undisclosed rebate to any party to a transaction.

g. A licensee cannot give any undisclosed credit against compensation due from a client or licensee to any party to a transaction.

h. A licensee cannot accept, receive or charge any undisclosed payments for any services provided by any third party to any party to a transaction including but not limited to payments for procuring insurance or for conducting a property inspection related to the transaction.

i. The provisions of these rules do not apply to a gratuitous gift, such as flowers or a door knocker, to a buyer or tenant subsequent to closing and not promised or offered as an inducement to buy or lease, as long as any client relationship has terminated.

j. The provisions of these rules do not apply to a free gift, such as prizes, money, or other valuable consideration, to a potential party to a transaction or lease prior to the parties' signing a contract to purchase or lease and not promised or offered as an inducement to sell, buy, or lease, as long as no client relationship has been established with the buyer or lessee.

k. The seller or landlord may authorize a portion of the proceeds of the sale of real property or other negotiated term of an agreement or contract to pay compensation to other brokers who are part of the same real estate transaction as the seller or landlord, including a buyer's or tenant's broker solely representing the buyer or tenant. The payment of compensation may be a direct payment from the seller or landlord to the other brokers who are part of the same real estate transaction as the seller or landlord, including a buyer's or tenant's broker solely representing the buyer or tenant.

2011.2(5) Any compensation or fee in any brokerage agreement is fully negotiable among the parties to that brokerage agreement. Once the parties to a brokerage agreement have agreed to a compensation or fee, no licensee other than a party to that brokerage agreement attempts to alter, modify, or change or induce another person to alter, modify, or change a compensation or fee that has previously been agreed upon without the prior written consent of the parties to that brokerage agreement.

2011.2(6) The seller or landlord may, in the brokerage agreement, authorize the seller's or landlord's broker to disburse part of the broker's compensation to other brokers, including a buyer's or tenant's broker solely representing the buyer or tenant.

2011.2(7) Nothing contained in this rule shall obligate any buyer or tenant or seller or landlord to pay compensation to a licensee representing the buyer or tenant or seller or landlord in a real estate transaction unless the buyer or tenant or seller or landlord has entered into a written brokerage agreement with the broker specifying the compensation terms and conditions, in accordance with Iowa real estate license law and commission rules.

[**ARC 7773C**, IAB 4/17/24, effective 5/22/24; **ARC 8102C**, IAB 7/10/24, effective 8/14/24; **ARC 9477C**, IAB 8/6/25, effective 9/10/25; Editorial change: IAC Supplement 6/10/26]

481—2011.3(543B) Terms or conditions. A licensee cannot write, prepare or otherwise use a contract containing terms or conditions that would violate real estate laws in Iowa Code chapter 543B or commission rules. The broker is responsible to ensure that all preprinted documents and forms used follow these rules.

[**ARC 7773C**, IAB 4/17/24, effective 5/22/24; **ARC 9477C**, IAB 8/6/25, effective 9/10/25; Editorial change: IAC Supplement 6/10/26]

481—2011.4(543B) Distribution of executed instruments. Upon execution of any instrument in connection with a real estate transaction, a licensee, as soon as practicable, delivers a legible copy of the original instrument to each of the parties thereto. It is the responsibility of the licensee to prepare sufficient copies of such instruments to satisfy this criteria. The broker retains copies for five years.

[**ARC 7773C**, IAB 4/17/24, effective 5/22/24; **ARC 9477C**, IAB 8/6/25, effective 9/10/25; Editorial change: IAC Supplement 6/10/26]

481—2011.5(543B) Enforcing a protective clause. To enforce a protective clause beyond the expiration of an exclusive brokerage agreement, there must be a provision for the protective clause in the brokerage agreement that establishes a definite protection period. In writing and prior to the expiration of the brokerage agreement, the broker furnishes to the party the names and available contact information of persons to whom the property was presented or a list of each property that was shown during the active term of the brokerage agreement and for whom protection is sought. Delivery is by personal or electronic service with written acknowledgment of receipt, or by regular mail or certified mail postmarked prior to the expiration of the brokerage agreement, return receipt requested.

[**ARC 9477C**, IAB 8/6/25, effective 9/10/25; Editorial change: IAC Supplement 6/10/26]

481—2011.6(543B) Rebates and inducements.

2011.6(1) A licensee cannot pay compensation, any part of compensation, or valuable consideration to an unlicensed third party for performing brokerage functions or engaging in any activity that needs a real estate license. Referral fees or finder's fees paid to unlicensed third parties for performing brokerage activities, or engaging in any activity that needs a real estate license, are barred.

2011.6(2) In a brokerage agreement, the broker is principal party to the contract. The broker may, with proper disclosure, pay a portion of the compensation earned to an unlicensed seller, landlord, buyer, or tenant that is a principal party to the brokerage agreement. This will be deemed a reduction in the amount of the earned compensation.

2011.6(3) A licensee may present a gratuitous gift, such as flowers or a door knocker, to the buyer or tenant subsequent to closing and not promised or offered as an inducement to buy or lease. The permission and disclosure criteria of rule 481—2011.3(543B) do not apply as long as any client relationship has terminated.

2011.6(4) A licensee may present free gifts, such as prizes, money, or other valuable consideration, to a potential party to a transaction or lease, prior to that party's signing a contract to purchase or lease and not promised or offered as an inducement to buy or lease. It is the licensee's responsibility to ensure that the promotion is in compliance with other Iowa laws, such as gaming regulations. The permission and disclosure criteria of rule 481—2011.3(543B) do not apply as long as no client relationship has been established with the buyer or lessee.

2011.6(5) The offering by a licensee of a free gift, prize, money, or other valuable consideration as an inducement is free from deception and does not serve to distort the true value of the real estate service being promoted.

2011.6(6) A licensee may make donations to a charity, or other not-for-profit organization, for each listing or closing, or both, that the licensee has during a specific time period. The receiving entity may be selected by the licensee or by a party to the transaction. The contribution may be in the name of the licensee or in the name of a party to the transaction. Contributions are permissible only if the following conditions are met:

a. There are no limitations placed on the payment;

b. The donation is for a specific amount;

c. The receiving entity does not act or participate in any manner that would need a license;

d. The licensee exercises reasonable care to ensure that the organization or fund is a bona fide nonprofit;

e. The licensee exercises reasonable care to ensure that the promotional materials clearly explain the terms under which the donation will be made; and

f. All necessary disclosures are made.

[**ARC 7773C**, IAB 4/17/24, effective 5/22/24; **ARC 8102C**, IAB 7/10/24, effective 8/14/24; **ARC 9477C**, IAB 8/6/25, effective 9/10/25; Editorial change: IAC Supplement 6/10/26]

481—2011.7(543B) New construction. A contract with a builder to construct or attach personal property or other type of structure to land and thereby produce an improvement to real estate is a real estate transaction. A licensee makes written disclosure revealing that the licensee and the licensee's broker or brokerage firm will receive a commission, compensation, or valuable consideration for its efforts in the transaction, as obligated by paragraph 2011.3(6)*"d."* Written disclosure is necessary regardless of the type of representation provided by the licensee or if the licensee provides no representation.

[**ARC 7773C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

These rules are intended to implement Iowa Code chapters 17A, 272C and 543B.

CHAPTER 2012
DISCLOSURE OF RELATIONSHIPS

[Prior to 9/4/02, see 193E—Ch 1]
[Prior to 6/10/26, see Real Estate Commission[193E] Ch 12]

Chapter rescission date pursuant to Iowa Code section 17A.7: 5/22/29

481—2012.1(543B) Written company policy needed. Every licensed sole-proprietor single broker, firm, partnership, limited liability company, association, or corporation has a written company policy. Regardless of the type or types of agency relationships offered, a written company policy is needed.

2012.1(1) The written company policy identifies and describes the types of real estate brokerage relationships in which the broker and affiliated licensees may engage with seller, landlord, buyer, or tenant as a part of any real estate brokerage business activities.

2012.1(2) In addition, every real estate brokerage that offers representation to both buyers and sellers, and tenants and landlords, also specifically addresses the following:

a. The appointed agent's policy and brokerage procedures intended to prevent any mishandling of information through both formal and informal sharing of information within the brokerage; and

b. The arrangement of brokerage office space and the personal relationships of affiliated licensees who are representing clients with adverse interests.

2012.1(3) A broker is not obligated to offer or engage in more than one type of brokerage relationship as enumerated in rules 481—2012.3(543B) through 481—2012.5(543B).

[**ARC 7774C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2012.2(543B) Disclosure of agency.

2012.2(1) A licensee cannot represent any party or parties to a real estate transaction or otherwise act as a real estate broker or salesperson unless that licensee makes disclosure to all obligated parties to the transaction identifying which party or parties, if any, that licensee represents in the transaction. Disclosure pursuant to this rule is made by the licensee at the time the licensee provides specific assistance to the client or nonrepresented customer.

2012.2(2) Verbal disclosure needed. The disclosure obligated by subrule 2012.2(1) is made verbally by the licensee prior to the licensee's providing specific assistance to the client or nonrepresented customer. A change in the licensee's representation that makes the initial verbal disclosure incomplete, misleading, or inaccurate obligates that a new verbal disclosure be made immediately.

2012.2(3) Written disclosure needed. The written disclosure obligated by subrule 2012.2(1) is made by the licensee to all parties to a real estate transaction identifying which party the licensee represents in the transaction.

a. The written disclosure is needed to be made to the buyer or tenant prior to any offer, lease, or rental agreement being made or signed by the buyer or tenant, and prior to any offer, lease, or rental agreement being signed or accepted by the seller or landlord.

b. The written disclosure is acknowledged by separate signatures. A change in the licensee's representation that makes the initial written disclosure incomplete, misleading, or inaccurate obligates that a new verbal disclosure be made that is followed by a new written disclosure signed by all parties to the transaction as soon as practical.

2012.2(4) A licensee representing a buyer or tenant informs the listing broker, the listing agent, or the seller or landlord of the agency relationship in accordance with Iowa Code section 543B.57(5). If the property is not listed, the obligated disclosure is made to the unrepresented seller or landlord.

2012.2(5) The obligation of either the seller or landlord or buyer or tenant to pay compensation to a broker does not establish an agency relationship or affect any agency relationship.

2012.2(6) Nothing contained in this rule bars a party from entering into a written brokerage agreement with a broker that contains duties, obligations, and responsibilities that are in addition to those specified in Iowa real estate license law and commission rules.

2012.2(7) A licensee cannot be the agent for both the buyer or tenant without following Iowa Code section 543B.58(1).

2012.2(8) A licensee may work with and establish different types of agency relationships with the same client, in separate transactions. Examples of different agency relationships with the same client in separate transactions include, but are not limited to, the following:

a. A common example includes a licensee acting as a listing or seller's agent selling a property in one transaction and also working with and representing this same person in another transaction as a buyer's agent in the purchase of a different property.

b. A licensee may act as a dual agent in either of the separate transactions, or both, with the written permission of the parties to the specific transaction and if the broker or brokerage has a written company policy that includes disclosed dual agency for in-house transactions or same agent transactions.

c. Regardless of the type of agency relationship provided in each transaction, the licensee complies with the criteria of Iowa Code chapter 543B and this rule in establishing the relationships for each separate transaction.

2012.2(9) An agency relationship disclosure is not needed when the licensee is acting solely as a principal and not as an agent for another or when a written communication from the licensee is a solicitation of business.

2012.2(10) If the seller, landlord, buyer, or tenant refuses to sign the agency disclosure document, or refuses to sign acknowledging receipt of the disclosure, the licensee notes that fact and includes the date, place, time, and the names of others in attendance on a copy of the agency disclosure document and obtains other documentation establishing delivery of the disclosure and maintains the written documentation, including but not limited to copies of facsimile, restricted delivery certified mail, and other communications, in the transaction file.

2012.2(11) A licensee who is offering real estate brokerage services as an auctioneer makes the written disclosure to the buyer and obtains the acknowledgment of receipt obligated by law and rules, prior to the buyer's entering into a written purchase agreement for the property. For the purposes of this rule, the identification of the successful bidder constitutes the first meaningful contact with a buyer when specific assistance is provided. After the first meaningful contact, the first practical opportunity to make the necessary disclosures to the buyer depends upon the circumstances. While it is not necessary, it is recommended that licensees disclose in all advertisements and flyers that they are licensed agents representing the seller and, prior to crying the auction, announce that they are licensed real estate agents representing the seller.

a. Disclosure under this rule applies only to the day of the auction.

b. If the licensee provides brokerage services prior to the auction, the disclosure is made either orally or in writing prior to or at the time of specific assistance being provided.

2012.2(12) The licensee retains a copy of the disclosure form signed by the prospective buyer, seller, landlord or tenant, or the documentation and copies as obligated in subrule 2012.2(10) as follows:

a. If an offer is accepted, the signed or noted copy is retained by the broker in the closed transaction file for a period of five years from the date of the signature or note.

b. If the offer is not accepted, a signed and noted copy is retained with the rejected offer for a period of five years.

2012.2(13) Failure of a licensee to comply with this rule is prima facie evidence of a violation of Iowa Code section 543B.34(4).

2012.2(14) Failure of a licensee to act consistent with disclosure representations made pursuant to this rule is prima facie evidence of a violation of Iowa Code section 543B.34(4).

2012.2(15) Nothing in this rule affects the validity of title to real property transferred based solely on the reason that any licensee failed to conform to the provisions of this rule.

2012.2(16) A sole-proprietor single broker or firm is not obligated to offer or engage in more than one type of brokerage relationship as enumerated in rules 481—2012.3(543B) through 481—2012.5(543B).

2012.2(17) The licensee offering brokerage services to a person as a buyer's or tenant's agent, or who is providing brokerage services to a person as a seller's or landlord's agent, discloses in writing to that person the type or types of brokerage relationships the broker and affiliated licensees are offering to that person before entering into a brokerage agreement with that person.

[**ARC 7774C**, IAB 4/17/24, effective 5/22/24; **ARC 8102C**, IAB 7/10/24, effective 8/14/24; **ARC 9478C**, IAB 8/6/25, effective 9/10/25; Editorial change: IAC Supplement 6/10/26]

481—2012.3(543B) Single agent representing a seller or landlord.

2012.3(1) *Duty to seller or landlord.* A licensee representing a seller or landlord as an exclusive seller's agent or an exclusive landlord's agent have the following duties and obligations:

a. Perform the terms of the written agreement made with the seller or landlord;

b. Exercise reasonable skill and care for the seller or landlord;

c. Promote the interests of the seller or landlord with the utmost care, integrity, honesty, and loyalty, including but not limited to the following:

(1) Seeking a price and terms which are acceptable to the seller or landlord, except that the licensee is not obligated to seek additional offers to purchase the property while the property is subject to a contract for sale or to seek additional offers to lease the property while the property is subject to a lease or letter of intent to lease;

(2) Presenting all written offers to and from the seller or landlord in a timely manner regardless of whether the property is subject to a contract for sale or lease or a letter of intent to lease, unless it is provided for by the brokerage agreement;

(3) Disclosing to the seller or landlord all material adverse facts pursuant to Iowa Code section 543B.56(1);

(4) Advising the client to obtain expert advice as to material matters about which the licensee knows but the specifics of which are beyond the expertise of the licensee;

(5) Preserving the seller's or landlord's confidential information as defined in rule 481—2002.1(543B), unless disclosure is mandated by law or unless failure to disclose such information would constitute fraud or dishonest dealing, including but not limited to the following:

1. Information concerning the seller or the landlord that, if disclosed to the other party, could place the seller or landlord at a disadvantage when bargaining;

2. That the seller or landlord is willing to accept less than the asking price or lease price for the property;

3. What the motivating factors are for the client's selling or leasing the property;

4. That the seller or landlord will agree to sale, lease, or financing terms other than those offered;

5. The seller's or landlord's real estate needs;

6. The seller's or landlord's financial information;

(6) Accounting in a timely manner for all money and property received;

(7) Providing brokerage services honestly and in good faith;

(8) Complying with all criteria of Iowa Code chapter 543B and all commission rules and regulations;

(9) Complying with any applicable federal, state, or local laws, rules, or ordinances, including fair housing and civil rights statutes and regulations.

2012.3(2) *Duty to a buyer or tenant.* A licensee acting as an exclusive seller's or exclusive landlord's agent discloses to any customer all material adverse facts actually known by the licensee pursuant to Iowa Code section 543B.56.

a. The licensee owes no duty to conduct an independent inspection of the property for the benefit of the buyer or tenant and owes no duty to independently verify the accuracy or completeness of any statement made by the seller or landlord or any independent inspector, unless the licensee knows or has reason to believe the information is not accurate.

b. Nothing in this rule precludes the obligation of a buyer or tenant from the responsibility of protecting the buyer's or the tenant's own interest by means of, but not limited to, inspecting the physical condition of the property and verifying important information.

c. A real estate brokerage engaged by a seller or landlord in a real estate transaction may provide assistance to an unrepresented buyer or tenant by providing information and assistance concerning professional services not related to real estate brokerage services.

2012.3(3) *Alternative properties.* The licensee may show alternative properties not owned by the seller or landlord to buyers or tenants and may list competing properties for sale or lease without breaching any duty or obligation to the seller or landlord.

[**ARC 7774C**, IAB 4/17/24, effective 5/22/24; **ARC 9478C**, IAB 8/6/25, effective 9/10/25; Editorial change: IAC Supplement 6/10/26]

481—2012.4(543B) Single agent representing a buyer or tenant.

2012.4(1) *Duty to buyer or tenant.* A licensee representing a buyer or tenant as an exclusive buyer's or an exclusive tenant's agent have the same duties and obligations as mentioned in subrule 2012.3(1).

a. Perform the terms of any written agreement made with the client;

b. Exercise reasonable skill and care for the client;

c. Promote the interests of the client with the utmost good faith, loyalty, and fidelity, including but not limited to the following:

(1) Seeking a property at a price and terms which are acceptable to the buyer or tenant, except that the licensee is not obligated to seek other properties while the client is a party to a contract to purchase property, or to a lease or letter of intent to lease, unless it is provided for by the brokerage agreement;

(2) Presenting all written offers to and from the client in a timely manner regardless of whether the client is already a party to a contract to purchase property or is already a party to a contract or letter of intent to lease;

(3) Disclosing to the buyer or tenant material adverse facts concerning the property and the transaction that are actually known by the licensee, pursuant to Iowa Code section 543B.56;

(4) Advising the buyer or tenant to obtain expert advice on material matters about which the licensee knows but the specifics of which are beyond the expertise of the licensee;

(5) Preserving the buyer's or tenant's confidential information as defined in rule 481—2002.1(543B), unless disclosure is mandated by law or unless failure to disclose such information would constitute fraud or dishonest dealing, including but not limited to the following:

1. Information concerning the buyer or the tenant that, if disclosed to the other party, could place the client at a disadvantage when bargaining;
2. That the buyer or tenant is willing to pay more than the asking price or lease price for the property;
3. What the motivating factors are for the party's buying or leasing the property;
4. That the buyer or tenant will agree to sale, lease, or financing terms other than those offered;
5. The buyer's or tenant's real estate needs;
6. The buyer's or tenant's financial qualifications;

(6) Accounting in a timely manner for all money and property received;

(7) Providing brokerage services honestly and in good faith;

(8) Complying with all criteria of Iowa Code chapter 543B and all commission rules;

(9) Complying with any applicable federal, state, or local laws, rules, and ordinances, including fair housing and civil rights statutes and regulations.

2012.4(2) *Duty to a seller or landlord.* A licensee acting as an exclusive buyer's or an exclusive tenant's agent discloses to any customer all material adverse facts actually known by the licensee, pursuant to Iowa Code section 543B.56.

a. The licensee owes no duty to conduct an independent investigation of the buyer's or tenant's financial condition for the benefit of the seller or landlord and owes no duty to verify the accuracy or completeness of any statement made by the buyer or tenant or any independent source, unless the licensee knows or has reason to believe the information is not accurate.

b. Nothing in this rule limits the obligation of a seller or landlord from the responsibility of protecting the seller's or landlord's own interest by means of, but not limited to, verifying information concerning or provided by the buyer or tenant.

c. A real estate brokerage engaged by a buyer or tenant in a real estate transaction may provide assistance to an unrepresented seller or landlord by providing information and assistance concerning professional services not related to real estate brokerage services.

2012.4(3) *Competing buyers or tenants.* The licensee may show properties in which the buyer or tenant is interested to other buyers or tenants, may assist other competing buyers or tenants, and may enter into brokerage agreements with other competing buyers or tenants without breaching any duty or obligation to the buyer or tenant.

[**ARC 7774C**, IAB 4/17/24, effective 5/22/24; **ARC 9478C**, IAB 8/6/25, effective 9/10/25; Editorial change: IAC Supplement 6/10/26]

481—2012.5(543B) Disclosed dual agent.

2012.5(1) A brokerage which has a company policy that permits disclosed dual agency for in-house transactions provides a disclosed dual agency consent agreement to the client or prospective client prior to engaging in any activities of a dual agent. If any seller, landlord, buyer, or tenant rejects dual agency, or refuses to sign consent to dual agency, the licensee cannot act as a dual agent. The dual agency consent agreement complies with Iowa law and commission rules including, but not limited to, the criteria to inform the prospective clients that they are not obligated to consent to dual agency representation as provided by subrule 2012.5(2).

a. A licensee may act as a dual agent only with the informed consent of all parties to the transaction. The informed consent is evidenced by a written agreement pursuant to Iowa law and commission rules.

b. A dual agent is an agent for both the seller and buyer or the landlord and tenant and has the duties and obligations needed for a single agent representing a seller or landlord and for a single agent representing a buyer or tenant, unless otherwise provided for in this rule.

c. A dual agent discloses to the client all material adverse facts concerning the property that are actually known by the licensee, pursuant to Iowa Code section 543B.56.

d. A dual agent cannot disclose to one client confidential information about the other client and preserves a seller's or a landlord's, or a buyer's or a tenant's, confidential information as defined in rule 481—2002.1(543B), unless disclosure is mandated by law, or failure to disclose such information would constitute fraud or dishonest dealing, or disclosure is authorized by express instruction. A dual agent does not terminate the dual agency relationship by making the disclosures mandatory or permitted by the dual agency consent agreement. Confidential information includes the same information as 481—subrule 2012.3(1) or 2012.4(1).

e. In any transaction, a licensee may withdraw from representing a client who has not consented to a disclosed dual agency at any time prior to the existence of the dual agency, which is prior to discussing any seller's or landlord's property with a potential buyer or tenant and prior to discussing any potential buyer or tenant with a seller or landlord, when both the seller or landlord and the buyer or tenant are represented by and are clients of the licensee.

(1) All withdrawals are made in writing and acknowledged by the separate signatures of the clients.

(2) Such withdrawal does not prejudice the ability of the licensee to continue to represent the other client in the transaction or limit the licensee from representing the client in other transactions not involving a dual agency.

2012.5(2) A dual agency consent agreement:

a. Fairly and accurately describes the type of representation the licensee will provide each client;

b. Contains a statement of the licensee's duties under Iowa Code section 543B.56(1);

c. Contains a statement of the licensee's duties under Iowa Code section 543B.56(2);

d. Informs the clients that representing more than one party to a transaction may present a conflict of interest;

e. Informs the clients that they are not obligated to consent to dual agency;

f. Provides additional information that the licensee determines is necessary to clarify the licensee's relationship with each client, including any changes from prior types of representation;

g. Describes the confidential information a dual agent will not disclose to one client about the other client; and

h. Includes a statement that the clients understand the licensee's duties and consent to the licensee's providing brokerage services to more than one client.

2012.5(3) No particular disclosure language is needed. The commission recommends use of the following sample language to satisfy the mandatory disclosure regarding conflict of interest:

Representing more than one party to a transaction can create a conflict of interest since both clients may rely upon the broker's advice and the clients' respective interests may be adverse to each other. Broker will endeavor to be impartial between seller and buyer and will not represent the interest of either the seller or buyer to the exclusion or detriment of the other.

2012.5(4) Potential dual agency agreement. A brokerage which has a company policy that permits disclosed dual agency for in-house transactions and that elects to use a potential dual agency agreement

provides the agreement to the client or prospective client prior to engaging in any activities of a dual agent. Such consent agreement complies with Iowa law and commission rules.

a. The potential dual agency agreement should be provided to the seller or landlord prior to entering into a listing agreement or a contract for seller or landlord brokerage services.

b. The potential dual agency agreement should be provided to the buyer or tenant prior to entering into a buyer or tenant agreement .

c. If the parties to a proposed transaction or contract have agreed in writing to potential dual agency, a dual agency consent disclosure is presented to the buyer or tenant prior to the buyer's or tenant's signing an offer to purchase or a rental or lease agreement. The buyer or tenant may accept or reject dual agency at this point in the transaction.

d. If the parties to a proposed transaction or contract have agreed in writing to potential dual agency, a dual agency consent disclosure is presented to the seller or landlord prior to the seller's or landlord's signing or accepting an offer to purchase or a rental or lease agreement. The seller or landlord may accept or reject dual agency at this point in the transaction.

e. If the parties to a proposed transaction or contract have agreed in writing to potential dual agency, the obligated subsequent dual agency consent disclosure is property-specific and complies with Iowa law and commission rules.

[**ARC 7774C**, IAB 4/17/24, effective 5/22/24; **ARC 9478C**, IAB 8/6/25, effective 9/10/25; Editorial change: IAC Supplement 6/10/26]

481—2012.6(543B) Appointed agents within a brokerage. Iowa Code section 543B.59 authorizes a designated broker to elect to appoint in writing one or more different licensees affiliated with the broker to act as agent to represent exclusively different clients in the same transaction, to the exclusion of all other affiliated licensees within the real estate brokerage. A licensee cannot disclose, except to the licensee's designated broker, information made confidential by request or instructions of the client the licensee is representing or otherwise confidential by statute or rule, except information allowed by this chapter or mandated to be disclosed by law.

2012.6(1) The designated broker may want to include in the written company policy some or all of the appointed agents within the brokerage and may want to include the procedure by which the appointment of the agent or agents is made.

2012.6(2) The designated broker may decide that since both seller and buyer, or landlord and tenant, brokerage relationships are being offered to consumers by the broker's company, only the affiliated licensee who, on behalf of the designated broker, entered into the listing agreement with the seller or leasing agreement with the landlord will represent the seller or landlord as that client's agent. In that scenario, other licensees affiliated with the designated broker may represent buyers or tenants as their agents in any transactions dealing with the subject property.

2012.6(3) The designated broker may decide that since both seller and buyer, or landlord and tenant, brokerage relationships are being offered to consumers by the broker's company, only the affiliated licensee who, on behalf of the designated broker, entered into the buyer representation agreement with the buyer or leasing agreement with the tenant will represent the buyer or tenant as that client's agent. In that scenario, other licensees affiliated with the designated broker may represent sellers or landlords as their agents in any transactions dealing with the subject property.

2012.6(4) If any seller, landlord, buyer, or tenant who is a client of the broker refuses to sign and consent to the appointed agent within the brokerage appointed by that same broker for the other party to the transaction, then the broker and licensees affiliated with the broker cannot act as an appointed agent for that other party.

[**ARC 7774C**, IAB 4/17/24, effective 5/22/24; **ARC 9478C**, IAB 8/6/25, effective 9/10/25; Editorial change: IAC Supplement 6/10/26]

481—2012.7(543B) Appointed agent procedures and disclosure.

2012.7(1) Prior to entering into a brokerage agreement, a real estate brokerage notifies a client in writing of the real estate brokerage's appointed agent policy and those affiliated licensees in accordance

with Iowa Code section 543B.59(1). The appointed agent disclosure includes, at a minimum, the following provisions:

a. The name of the appointed agent(s);

b. A statement that the appointed agent will be representing the client as the client's agent and will owe the client duties as set forth in Iowa Code section 543B.56(1) and 543B.56(2);

c. A statement that the brokerage may be representing both the seller and the buyer in connection with the sale or purchase of real estate;

d. A statement that other affiliated licensees may be appointed during the term of the brokerage agreement should the appointed agent not be able to fulfill the terms of the brokerage agreement or as by agreement between the designated broker and the client. An appointment of another affiliated licensee or an additional affiliated licensee does not relieve the first appointed agent of any of the duties owed to the client. At any time of the appointment of the new or additional agents, the designated broker complies with the provisions of this rule; and

e. A provision for the client to consent or not consent in writing to the appointment.

2012.7(2) Implementation of the appointed agent within a brokerage relationship. Any broker may elect to offer the appointed agent relationship. The broker cannot implement the use of the relationship until such time as the broker has fully complied with all Iowa laws and commission rules.

a. The broker cannot, without the written consent of the clients, appoint an affiliated licensee to act as an appointed agent in any transaction involving a written exclusive single agent or dual agent brokerage agreement that was in effect prior to the broker's implementing the appointed agent relationship.

b. If the client of an appointed agent wants to consider a property on which the broker has a prior existing exclusive single agent or dual agent brokerage agreement, the broker cannot allow the use of the appointed agent without first obtaining the written consent of that particular seller or landlord to the appointed agent relationship.

c. If the written consent of the client to allow the appointed agency relationship is not given or cannot be obtained, the broker refers the client of the appointed agent to another broker for representation at least for the purpose of considering such property.

2012.7(3) A designated broker cannot be considered to be a dual agent solely because the designated broker makes an appointment under this rule, except that any licensee who, with prior written consent of all parties, personally represents both the seller and buyer or both the landlord and tenant in a transaction is a dual agent and needs to comply with the rules governing dual agents.

2012.7(4) Appointed agent and designated broker responsibilities.

a. A designated broker appointing an affiliated licensee(s) to act as an agent of a client takes ordinary and necessary care to protect confidential information disclosed by the client to the appointed agent.

b. An appointed agent may disclose to the brokerage's designated broker, or a designee specified by the designated broker, confidential information of a client for the purpose of seeking advice or assistance for the benefit of the client in regard to a possible transaction, or to comply with the broker's supervisory duties. Confidential information is treated as such by the designated broker or other specified representative of the broker and is not disclosed unless otherwise obligated by Iowa law and related commission rules or requested or permitted in writing by the client who originally disclosed the confidential information.

c. If a designated broker elects to use the appointed agent within a firm authority set forth in Iowa Code section 543B.59, and when the affiliated licensee appointed also acts in a supervisory capacity under the designated broker, such as branch managers, sales managers and the like, these appointed licensees may be treated in the same manner as the designated broker for purposes of determining dual agency under Iowa Code section 543B.59(2), only if the designated broker authorizes and provides for such supervisory positions in the written company policy.

(1) A designated broker may elect to authorize and appoint an affiliated licensee in a supervisory capacity to supervise and assist licensees appointed to exclusively represent a seller or landlord in a transaction.

(2) A designated broker may elect to authorize and appoint an affiliated licensee in a supervisory capacity to supervise and assist licensees appointed to exclusively represent a buyer or tenant in a transaction.

(3) A licensee in a supervisory capacity that is authorized and appointed to supervise and assist licensees appointed to represent a seller or landlord, or buyer or tenant, exclusively, have the same duties, obligations, and responsibilities as the designated broker.

(4) The use of an authorized appointed agent does not relieve the designated broker of duties, obligations, and responsibilities mandated by law or rules.

2012.7(5) Licensee's duty to designated broker or designee. A licensee keeps the brokerage's designated broker or that broker's designee fully informed of all activities conducted on behalf of the brokerage and notifies the designated broker or that broker's designee of any other activities that might impact on the responsibility of the designated broker or that broker's designee.

[**ARC 7774C**, IAB 4/17/24, effective 5/22/24; **ARC 9478C**, IAB 8/6/25, effective 9/10/25; Editorial change: IAC Supplement 6/10/26]

These rules are intended to implement Iowa Code chapters 17A, 272C and 543B.

CHAPTER 2013
TRUST ACCOUNTS AND CLOSINGS

[Prior to 9/4/02, see 193E—Ch 1]
[Prior to 6/10/26, see Real Estate Commission[193E] Ch 13]

Chapter rescission date pursuant to Iowa Code section 17A.7: 5/22/29

481—2013.1(543B) Trust account. All earnest payments, all rents collected, property management funds, and other trust funds received by the broker in such capacity or broker associate or salesperson on behalf of the broker's client are deposited in a trust account maintained by the broker in an identified trust account, with the word "trust" in the name of the account, in a federally insured depository institution and, for the purposes of this rule, may be referred to as the "depository."

2013.1(1) All money belonging to others received by the broker, broker associate or salesperson on the sale, rental, purchase, or exchange of real property located in Iowa are trust funds and are deposited in a trust account as directed by the principals to a transaction constituting dealing in real estate. This includes, but is not limited to, receipts from property management contracts; rental or lease contracts; advance fee contracts; escrow contracts; collection contracts; earnest money contracts; or money received by a broker for future investment or other purpose, except a nonrefundable retainer need not be placed in an escrow account if specifically provided for in the written agreement between the broker and the broker's principal.

a. All trust funds are deposited into the trust account no later than five banking days after the date indicated on the document that the last signature of acceptance of the offer to purchase, rent, lease, exchange, or option is obtained unless otherwise specified in the contract.

b. Money belonging to others cannot be invested in any type of fixed-term maturity account, security or certificate without the written consent of the party or parties to whom the money belongs.

c. A broker cannot commingle personal funds in a trust account unless authorized by Iowa Code section 543B.46(4).

The broker ensures that personal funds are deposited to cover bank service charges as specified in Iowa Code section 543B.46 and that at no time are trust moneys used to cover any charges. Upon notification that the broker's personal funds are not sufficient to cover service charges initiated by the bank that are above the normal maintenance charges, the broker deposits personal funds to correct the deficiency within 15 calendar days of the closing date of that bank statement.

d. Money held in the trust account, which becomes due and payable to the broker, is promptly withdrawn by the broker.

e. The broker cannot use the trust account as a business operating account or for personal use. Commissions, salaries, related items and normal business expenses are not disbursed directly from the trust account.

2013.1(2) As authorized by Iowa Code section 543B.46(1), all interest earned on the trust account is transferred on a calendar quarter basis to the state. The amount to be remitted to the state will be the amount of interest earned less any service charges directly attributable to the criteria of maintaining an interest-bearing account and of remitting the interest to the state. The broker may have the depository remit the interest directly or the broker may remit the interest but, in either case, it is the responsibility of the broker to see that the interest is remitted.

a. If the interest is remitted by the broker, the broker should use the commission-approved Real Estate Interest Remittance Form and include a copy of the applicable bank statement(s) showing the interest paid and the service charges attributable to maintaining the account.

b. If the interest is remitted by the broker, the broker mails the interest remittance check and mandatory documentation to:

The State of Iowa
c/o Bankers Trust Company
P.O. Box 4686
Des Moines, Iowa 50306

c. The depository should use the name "Iowa Finance Authority" and the federal tax identification number (TIN) 52-1699886 on the 1099 reporting form when reporting interest to the IRS.

d. The depository should send the 1099 reporting form to:

Iowa Finance Authority
2015 Grand Avenue
Des Moines, Iowa 50312

e. If the property management or rental account is interest-bearing, the interest is transferred on a calendar quarter basis to the state unless there is a written agreement paying the interest to the property owner.

f. A broker enters into a written agreement to pay interest to a buyer or seller in a transaction, or to a third party if requested by the parties to the contract and agreed to by the broker, if the client's trust funds can earn net interest. In determining whether a client can earn net interest on funds placed in trust, the broker takes into consideration all relevant factors including the following:

(1) The amount of interest that the funds would earn during the period in which they are reasonably expected to be deposited;

(2) The cost of establishing and administering an individual interest-bearing trust account in which the interest would be transmitted to the client, including any needed tax forms; and

(3) The capability of the financial institution to calculate and pay interest to individual clients through subaccounting or otherwise.

2013.1(3) With disclosure to and the written agreement of all parties, a trust account may bear interest to be disbursed to (1) the buyer or seller involved in a real estate purchase, sale or exchange transaction, or (2) the property owner, if the property management or rental contract contains this specific provision, or (3) as otherwise specifically allowed or provided in Iowa Code sections 562A.12(2) and 562B.13(2), or (4) a third party if requested by the parties to the contract and agreed to by the broker. Disbursements of interest on trust funds are subject to all provisions of law that obligate a broker to safeguard and account for the handling of funds of others.

2013.1(4) Receipts from property management and rental account transactions may be deposited in a trust account separate from real estate transaction funds. If separately maintained, this account does not need to be an interest-bearing account.

a. The broker provides to the broker's client a complete accounting of all moneys received and disbursed from the trust account(s) not less often than annually.

b. A broker may only utilize a separate property management or rents trust account for those moneys received by a broker pursuant to a written property management or rental agreement.

2013.1(5) A broker is needed to open and maintain one or more trust accounts if the broker is in the practice of depositing funds in a trust account. For each separate trust account opened, the broker files with the commission a written Consent to Examine and Audit Trust Account form, which irrevocably authorizes the commission to examine and audit the trust account. The form of consent is prescribed by and available from the commission and includes the account names and number and the name and address of the depository.

a. If the broker is not in the practice of depositing trust funds in a trust account, the broker files an affidavit with the commission on a form prescribed by and available from the commission.

b. If trust funds are received by the broker after filing an affidavit, the broker immediately opens a trust account and files the appropriate Consent to Examine and Audit Trust Account form with the commission.

c. As provided by Iowa Code section 543B.46(3), a consent to examine is not necessary for a separate farm business operating account or a separate property management account.

2013.1(6) Each broker obligated to maintain a trust account maintains at all times a record of each account, as mandated by these rules, in the place of business, consisting of at least the following:

a. A record called a journal which records in chronological order all receipts and disbursements of moneys in the trust account.

(1) For receipts, the journal for each trust account includes the date, name of depositor, the check number and the amount deposited, and the name of principal or identify the property.

(2) For disbursements, the journal for each trust account includes the date, name of payee, name of principal or identify the property, the check number and the amount disbursed.

(3) The journal provides a means for monthly reconciliation on a written worksheet of the general ledger balance with the bank balance and with the individual ledger accounts to ensure agreement.

b. Real estate sales transactions additionally need an individual ledger account identified by the property or the principal, which records all receipts and disbursements of the transaction and clearly separates the transaction from all others. The individual ledger account includes the date, check number, amount, name of payee or depositor or explanation of activity with a running balance.

c. Property management trust account records additionally include an individual ledger account for each tenant, identifying the tenant's rental unit and security deposit and including all receipts and disbursements together with check number and date. The journal for each account is maintained as an owner's ledger account for all properties owned by each owner showing receipts and disbursements applicable to each property managed.

(1) All disbursements are documented by bids, contracts, invoices or other appropriate written documentation.

(2) The running balance may be determined at the time of monthly reconciliation.

d. Trust account supporting documents include, but are not limited to, the following:

(1) Bank statements;

(2) Canceled checks;

(3) Copies of contracts, listing, sales, rental and leasing;

(4) Closing statements;

(5) Pertinent correspondence; and

(6) Any additional items necessary to verify or explain an entry.

2013.1(7) Funds, including interest on trust funds, are only disbursed from the trust account as provided in Iowa Code section 543B.46(1) and by the terms and conditions of the contract or escrow agreement. No funds are disbursed from the trust account prior to the closing, or other than as provided by the terms of the escrow agreement, without the informed written consent of all the parties. In the event of a dispute over the return or forfeiture of an earnest money deposit or the disbursement of an escrow deposit held by a broker, the broker continues to hold the deposit in the trust account until one of the following conditions is met:

a. The broker is in receipt of a written release from all parties to the transaction consenting to the disposition of the deposit or escrow funds; or

b. The broker is in receipt of a final judgment of the court directing the disposition of the deposit or escrow funds; or

c. There is a final decision of a binding alternative dispute resolution process, or mediation directing the disposition of the deposit or escrow funds; or

d. A civil court action is filed by one or more of the parties to determine the disposition of the deposit or escrow funds, at which time the broker may seek court authorization to pay the deposit or escrow funds into court.

2013.1(8) No funds are disbursed from the trust account prior to the closing without the informed written consent of all the parties to the transaction as provided in subrule 2013.1(7), except in accordance with this rule. Nothing in this rule obligates a broker to remove money from the broker's trust account when the disposition of such money is disputed by the parties to the transaction. The commission will not take disciplinary action against a broker who in good faith disburses trust account moneys pursuant to this rule.

a. In the absence of a pending civil court action or written agreement, it is not grounds for disciplinary action when, upon passage of 30 days from the date of the dispute, a broker disburses the earnest money deposit to a buyer, renter, or lessee in a transaction based upon a good faith decision that a contingency has not been met, but disbursement is made only after the broker has given 30 days' written notice by certified mail to all parties concerned at their last-known addresses, setting forth the broker's proposed action and the grounds for the decision.

b. In the absence of a pending civil action or written agreement, it is not grounds for disciplinary action when, upon passage of six months from the date of the dispute, a broker disburses the earnest money deposit to a seller or landlord in a transaction based upon a good faith decision that the buyer, renter, or lessee has failed to perform as agreed, but disbursement is made only after the broker has given 30 days' written notice by certified mail to all parties concerned at their last-known addresses, setting forth the broker's proposed action and grounds for the decision.

c. If a buyer or seller, or a landlord or lessee, or a renter demands the return of the earnest money deposit, the broker consults with the other party who may agree or disagree with the return.

2013.1(9) Under no circumstances is the broker entitled to withhold any portion of the earnest money when a transaction fails to consummate even if a commission is earned. The earnest money is disposed of as provided in subrule 2013.1(7), 2013.1(8), or 2013.1(10), and the broker pursues any claim for commission or compensation against the broker's client.

2013.1(10) Interpleader. Anytime the broker in good faith believes that the parties disputing the return of the deposit will not agree on the disposition of the deposit or file a civil court action to determine the disposition of the deposit, then the broker may elect to file an interpleader action with the appropriate court pursuant to Iowa Rules of Civil Procedure and pay the deposit into court. The broker may, in filing such an interpleader court action:

a. Attempt to claim a part of the deposit pursuant to the listing contract with the seller, if the seller is successful in the suit.

b. Disclaim any part of the deposit and request the court to restrain the buyer and the seller from naming the broker in the civil suit and order them to litigate their claims to the deposit.

2013.1(11) A trust account may bear interest to be disbursed to the buyers or sellers or to a third party if requested by the parties to the contract and agreed to by the broker with the written approval of all parties to the contract or to the owner if the trust account is for a property management account and the management contract so specifies, or as otherwise specifically allowed or provided in Iowa Code sections 562A.12(2) and 562B.13(2). The account is a separate account from the account(s) which is to accrue interest to the state. Interest is disbursed to the owner or owners of the funds at the time of settlement of the transaction or as agreed to in the management contract and is properly accounted for on closing statements. A broker does not disburse interest on trust funds except as provided in subrules 2013.1(3) and 2013.1(7). Service charges for the account are a business expense of the broker and are not deducted from the proceeds.

2013.1(12) Property management account funds may be withdrawn at any time for the purpose of returning the funds to the payee in accordance with the terms of the contract or receipt.

2013.1(13) Property management funds may be withdrawn when and if the broker reasonably believes, from evidence available, that the tenant has obtained a rental or lease through information supplied by or on behalf of the broker.

2013.1(14) Trust funds that are not traceable to any individual for disbursement from the trust account are unclaimed property. In accordance with Iowa Code chapter 556, after three years, unclaimed trust funds are reported and remitted to the Treasurer, State of Iowa, Unclaimed Property Division.

[**ARC 7775C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2013.2(543B) Closing transactions. It is mandatory for every broker to deliver to the seller in every real estate transaction, at the time the transaction is consummated, a complete detailed statement, showing all of the receipts and disbursements handled by the broker. Also, the broker at the same time delivers to the buyer a complete statement showing all moneys received in the transaction from the buyer and how and for what the same were disbursed.

2013.2(1) In the event all funds being held by the broker for a transaction cannot be disbursed at the time of closing, the broker obtains an escrow agreement signed by both parties to the transaction which directs the broker regarding the future disbursement of the funds.

2013.2(2) The broker retains all trust account records and a complete file, which includes but is not limited to the records mandated by rule 481—2013.5(543B), on each transaction for a period of at least five years after the date of the closing. Records mandated by this rule may be retained as an electronic record as provided by rule 481—2013.5(543B).

2013.2(3) The listing broker is responsible for the closing even though the closing may be completed by another licensee.

2013.2(4) If the closing transaction is handled through an unlicensed escrow agent and the escrow agent renders a closing statement, the listing broker ensures that funds which the broker has received or paid as part of the transaction are accounted for properly.

2013.2(5) In the case of a cooperative sale between brokers, the listing broker may elect to close the transaction or, by prior agreement, authorize the selling broker to close.

a. If the listing broker so elects, the selling broker has the buyer make the earnest money check or money order payable to the listing broker and immediately delivers the earnest money check or money order along with the offer to purchase to the listing broker or listing agent.

b. Unless by prior agreement the listing broker has authorized the selling broker to close, the offer to purchase designates that the earnest money is held in trust by the listing broker.

c. Unless by prior agreement the listing broker has authorized the selling broker to close, when cash is accepted as earnest money by the selling agent, the selling agent deposits the money in the selling broker's trust account in accordance with commission rules, and then immediately transfers the earnest money deposit to the listing broker by issuing a check drawn on the selling broker's trust account.

2013.2(6) Any means other than cash or an immediately cashable check are not accepted as earnest money unless that fact is communicated to the seller prior to the acceptance of the offer to purchase, and is stated in the offer to purchase.

2013.2(7) Brokers acting as agents for the buyer in a specific real estate transaction have the same criteria for retention of copies as stated in this rule, except that a buyer's agent who is not a party to the listing contract is not obligated to retain a copy of the listing contract or the seller's settlement statement.

2013.2(8) Iowa Court Rule 37.5, limited real estate practice. All Iowa real estate licensees should be aware that Iowa Court Rule 37.5 authorizes nonlawyers to select, prepare, and complete certain legal documents incident to residential real estate transactions of four units or less. The preparation of documents beyond that authorized by this court rule may constitute the unauthorized practice of law.

[**ARC 7775C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2013.3(543B) Salesperson cannot handle closing. A salesperson cannot handle the closing of any real estate transaction except under the direct supervision or with the consent of the employing broker.

[**ARC 7775C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2013.4(543B) Consent to return earnest money not necessary. When an offer to purchase is withdrawn or the acceptance is revoked without liability pursuant to Iowa Code chapter 558A, any earnest money deposit is promptly returned to the buyer without delay. The seller's consent and agreement to release the funds is not necessary. A copy of the written revocation or withdrawal is retained with the trust account supporting documents.

[**ARC 7775C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2013.5(543B) File recordkeeping. Every broker retains for a period of at least five years true copies of all business books; accounts, including voided checks; records; contracts; closing statements; disclosures; signed documents; the listing; any offers to purchase; and all correspondence relating to each real estate transaction that the broker has handled and each property managed. The records are made available for reproduction and inspection by the commission, staff, and commission-authorized representatives at all times during usual business hours at the broker's regular place of business. If the brokerage closes, the records are made available for reproduction and inspection by the commission, staff, and commission-authorized representatives upon request.

2013.5(1) Contracts and other documents that have been changed or altered to the point where the language is unreadable and faxed contracts and documents in which the language is unreadable are not acceptable records and are redrafted and signed by the parties.

2013.5(2) Copies of unreadable documents are not acceptable as true copies of the originals regardless of the medium.

2013.5(3) Electronic records. The files, records, and other documents mandated by this chapter may be stored in electronic format for convenience and efficiency in a system for electronic record storage, analysis, and retrieval.

a. A record obligated by this chapter may be retained as an electronic record only if the record storage medium can be easily accessed and the records can be readily retrieved and transferred to a legible printed form upon request.

b. The scanning or electronic generation of a record is monitored to ensure that the copy is clear, legible and true before the original is shredded.

c. Once the original record is transferred to the appropriate electronic storage medium consistent with this rule, the commission will no longer need the retention of the record in its original medium. For the purposes of this chapter, electronic records are considered the same as originals.

[**ARC 7775C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2013.6(543B) Licensee acting as a principal. When a licensee is acting in the capacity of a real estate broker, broker associate or salesperson and is also a principal in the sale, lease, rental or exchange of property owned by the licensee, all payments, rent, or security deposits received from the lessee, renter or buyer are deposited into the broker's trust account. The use of the broker's trust account is not needed if all of the following exist:

1. The sale, rental, or exchange is strictly, clearly and completely a "by owner" transaction and there is not a listing or brokerage agreement;
2. No commission or other compensation is paid to or received by the licensee; and
3. The licensee does not function throughout the transaction in any capacity requiring a real estate license.

[**ARC 7775C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

These rules are intended to implement Iowa Code chapters 17A, 272C and 543B.

CHAPTER 2014
SELLER PROPERTY CONDITION DISCLOSURE

[Prior to 9/4/02, see 193E—Ch 1]
[Prior to 6/10/26, see Real Estate Commission[193E] Ch 14]

Chapter rescission date pursuant to Iowa Code section 17A.7: 5/22/29

481—2014.1(543B) Property condition disclosure. The criteria of this chapter applies to transfers of real estate subject to Iowa Code chapter 558A. For purposes of this chapter, "transfer" means the same as Iowa Code section 558A.1(5) and "agent" means the same as Iowa Code section 558A.1(1).

2014.1(1) *Additional disclosure.* Nothing in this rule is intended to prevent any additional disclosure or to relieve the parties or agents in the transaction from making any disclosure otherwise mandated by law or contract.

2014.1(2) *Licensee responsibilities to seller.* At the time a licensee obtains a listing, the listing licensee obtains a completed disclosure signed and dated by each seller represented by the licensee.

a. A licensee representing a seller delivers the executed statement to a potential buyer, a potential buyer's agent, or any other third party who may be representing a potential buyer, prior to the seller's making a written offer to sell or the seller's accepting a written offer to buy.

b. The licensee representing a seller attempts to obtain the buyer's signature and date of signature on the statement and provides the seller and the buyer with fully executed copies of the disclosure and maintains a copy of the written acknowledgment in the transaction file. If the licensee is unable to obtain the buyer's signature, the licensee obtains other documentation establishing delivery of the disclosure and maintains the written documentation in the transaction file.

c. If the transaction closes, the listing broker maintains the completed disclosure statement for a minimum of five years.

d. The executed disclosure statement is delivered to the buyer(s) or the buyer's agent in accordance with Iowa Code section 558A.2(2). If there is more than one buyer, any one buyer or buyer's agent may accept delivery of the executed statement.

2014.1(3) *Licensee responsibilities to buyer.* A licensee representing a buyer in a transfer notifies the buyer of the seller's obligation to deliver the property disclosure statement.

a. If the disclosure statement is not delivered when mandated, the licensee notifies the buyer that the buyer may revoke or withdraw the offer and follows Iowa Code section 558A.2(2).

b. Reserved.

2014.1(4) *Inclusion of written reports.* A written report or opinion prepared by a person qualified to render the report or opinion may be included in a disclosure statement. A report may be prepared by those authorized by Iowa Code section 558A.4(1)*"b."*

a. The seller identifies the necessary disclosure items which are to be satisfied by the report.

b. If the report is prepared for the specific purpose of satisfying the disclosure criteria, the preparer of the report follows Iowa Code section 558A.4(1)*"b."*

c. A licensee representing a seller provides the seller with information on the proper use of reports if reports are used as part of the disclosure statement.

2014.1(5) *Amended disclosure statement.* A licensee's obligations with respect to any amended disclosure statement are the same as the licensee's obligations with respect to the original disclosure statement. A disclosure statement is amended if authorized by Iowa Code section 558A.3(2).

2014.1(6) *Acknowledgment of receipt of disclosure statement by electronic means.* Whether or not a licensee assists in a real estate transaction, electronic delivery of any property disclosure statement mandated by Iowa Code chapter 558A is not deemed completed until written acknowledgment of receipt is provided to the transferor by the transferee or the transferee's agent. Acceptable acknowledgment of receipt includes return of a fully executed copy of the property disclosure statement to the transferor by the transferee or the transferee's agent; or a letter, electronic mail, text message, or other written correspondence to the transferor from the transferee or the transferee's agent acknowledging receipt. A

computer-generated read receipt, facsimile delivery confirmation, or other automated return message is not deemed acknowledgment of receipt for purposes of this rule.

2014.1(7) *Minimum disclosure statement contents for all transfers.* All property disclosure statements, whether or not a licensee assists in the transaction, contain at a minimum the information mandated by the following sample statement. No particular language is necessary in the disclosure statement provided that the necessary disclosure items are included and the disclosure complies with Iowa Code chapter 558A. To assist real estate licensees and the public, the commission recommends use of the following sample language:

RESIDENTIAL PROPERTY SELLER DISCLOSURE STATEMENT

Property address: _____

PURPOSE:

Use this statement to disclose information as mandated by Iowa Code chapter 558A. This law obligates certain sellers of residential property that includes at least one and no more than four dwelling units to disclose information about the property to be sold. The following disclosures are made by the seller(s) and not by any agent acting on behalf of the seller(s).

INSTRUCTIONS TO SELLER(S):

1. Seller(s) completes this statement. Respond to all questions, or attach reports allowed by Iowa Code section 558A.4(2);
2. Disclose all known conditions materially affecting this property;
3. If an item does not apply to this property, indicate that it is not applicable **(N/A)**;
4. Please provide information in good faith and make a reasonable effort to ascertain the necessary information. If the necessary information is **unknown** or is **unavailable** following a reasonable effort, use an **approximation** of the information, or indicate that the information is **unknown (UNK)**. All **approximations** are identified as **approximations (AP)**;
5. Additional pages may be attached as needed;
6. Keep a copy of this statement with your other important papers.

1. Basement/Foundation: Any known water or other problems?	Yes [ ]	No [ ]
2. Roof: Any known problems?	Yes [ ]	No [ ]
Any known repairs?	Yes [ ]	No [ ]
If yes, date of repairs/replacement: ____/____/____		
3. Sewer System: Any known problems?	Yes [ ]	No [ ]
Any known repairs?	Yes [ ]	No [ ]
If yes, date of repairs/replacement: ____/____/____		
4. Heating System(s): Any known problems?	Yes [ ]	No [ ]
Any known repairs?	Yes [ ]	No [ ]
If yes, date of repairs/replacement: ____/____/____		
5. Central Cooling System(s): Any known problems?	Yes [ ]	No [ ]
Any known repairs?	Yes [ ]	No [ ]
If yes, date of repairs/replacement: ____/____/____ If N/A check here [ ]		
6. Plumbing System(s): Any known problems?	Yes [ ]	No [ ]
Any known repairs?	Yes [ ]	No [ ]
If yes, date of repairs/replacement: ____/____/____		
7. Electrical System(s): Any known problems?	Yes [ ]	No [ ]
Any known repairs?	Yes [ ]	No [ ]
If yes, date of repairs/replacement: ____/____/____		
8. Pest Infestation (e.g., termites, carpenter ants): Any known problems?	Yes [ ]	No [ ]
If yes, date(s) of treatment: ____/____/____		
Any known structural damage?	Yes [ ]	No [ ]
If yes, date(s) of repairs/replacement: ____/____/____		
9. Asbestos: Any known to be present in the structure?	Yes [ ]	No [ ]
If yes, explain: _____		
10. Radon: Any known tests for the presence of radon gas?	Yes [ ]	No [ ]

If yes, date of last report: ____/____/____
and results: _____

11. Lead-Based Paint: Any known to be present in the structure? Yes [ ] No [ ]
12. Flood Plain: Do you know if the property is located in a flood plain? Yes [ ] No [ ]
13. Are there currently, or have there ever been, any lead water service lines present? Yes [ ] No [ ] Unknown [ ]

If yes, please provide more information: _____

14. Zoning: Do you know the zoning classification of the property? Yes [ ] No [ ]
If yes, what is the zoning classification? _____
15. Covenants: Is the property subject to restrictive covenants? Yes [ ] No [ ]
If yes, attach a copy or state where a true, current copy of the covenants can be obtained:
_____
16. Shared or Co-Owned Features: Any features of the property known to be shared in common with adjoining landowners, such as walls, fences, roads, and driveways whose use or maintenance responsibility may have an effect on the property? Yes [ ] No [ ]
Any known *"common areas"* such as pools, tennis courts, walkways, or other areas co-owned with others, or a Homeowner's Association which has any authority over the property? Yes [ ] No [ ]
17. Physical Problems: Any known settling, flooding, drainage or grading problems? Yes [ ] No [ ]
18. Structural Damage: Any known structural damage? Yes [ ] No [ ]
19. Well and Pump: Any known problems? Yes [ ] No [ ]
If N/A check here [ ]
Any known repairs? Yes [ ] No [ ]
If yes, date of repairs/replacement: ____/____/____
Any known water tests? Yes [ ] No [ ]
If yes, date of last report: ____/____/____
and results: _____
20. Septic Tanks/Drain Fields: Any known problems? Yes [ ] No [ ]
If N/A check here [ ]
Location of tank:
_____
Date tank last cleaned: ____/____/____

You need to explain any *"YES"* response(s) above. Use the back of this statement or additional sheets as necessary: _____
_____
_____
_____

SELLER(S) DISCLOSURE:

Seller(s) discloses the information regarding this property based on information known or reasonably available to the Seller(s).
The Seller(s) has owned the property since ____/____/____. The Seller(s) certifies that as of the date signed this information is true and accurate to the best of my/our knowledge.
Seller(s) acknowledges that Buyer(s) be provided with the "Iowa Radon Home-Buyers and Sellers Fact Sheet" prepared by the Iowa Department of Health and Human Services.

Seller_____ Seller_____
Date ____/____/____ Date ____/____/____

BUYER(S) ACKNOWLEDGMENT:
Buyer(s) acknowledges receipt of a copy of this Real Estate Disclosure Statement. This statement is not intended to be a warranty or to substitute for any inspection Buyer(s) may wish to obtain.
Buyer(s) acknowledges receipt of the "Iowa Radon Home-Buyers and Sellers Fact Sheet" prepared by the Iowa Department of Health and Human Services.

Buyer_____ Buyer_____

Date ____/____/____ Date ____/____/____

This rule is intended to implement Iowa Code chapters 17A, 272C, 543B, and 558A.

CHAPTER 2015
PROPERTY MANAGEMENT
[Prior to 9/4/02, see 193E—Ch 1]
[Prior to 6/10/26, see Real Estate Commission[193E] Ch 15]

Chapter rescission date pursuant to Iowa Code section 17A.7: 5/22/29

481—2015.1(543B) Property management. A licensee cannot rent or lease real estate, offer to rent or lease real estate, negotiate or offer or agree to negotiate the rental or leasing of real estate, list or offer to list real estate for the leasing or rental of real estate, assist or direct in the negotiation of any transaction calculated or intended to result in the leasing or rental of real estate or show property to prospective renters or lessees of real estate unless the licensee's broker holds a current written property management agreement or other written authorization signed by the owner of the real estate or the owner's authorized agent.

2015.1(1) Every property management agreement or other written authorization between a broker and an owner of real estate includes, but is not limited to, the following:

a. Proper identification of the property to be managed.

b. All terms and conditions under which the property is to be managed and the powers and authority given to the broker by the owner.

c. Terms and conditions under which the broker will remit property income to the owner and when the broker will provide periodic written statements of property income and expenses to the owner, which is done no less than annually.

d. Which payments of property-related expenses are to be made by the broker to third parties.

e. Amount of fee or commission to be paid to the broker and when it will be paid.

f. Amount of security deposits and prepaid rents to be held by the broker or the owner.

g. Effective date of the agreement.

h. Terms and conditions for termination of the property management agreement by the broker or the owner of the property.

i. Signatures of the broker and owner or the owner's authorized agent.

2015.1(2) The licensee gives the owner or the owner's authorized agent a legible copy of every written property management agreement or written authorization at the time the signature of the owner is obtained, and the licensee's broker retains a copy.

2015.1(3) A licensee who is managing the leasing or rental of real estate may act as an agent in the sale or exchange of that real estate only if the property management agreement clearly grants the specific authorization and contains all of the necessary elements for a listing as set forth in rule 481—2011.1(543B) or if a separate listing agreement is secured.

2015.1(4) The broker deposits all funds received on behalf of the owner, by no later than five banking days after receipt of the funds, into a trust account maintained by the broker, under the broker's control and in compliance with Iowa Code section 543B.46 and rule 481—2013.1(543B).

2015.1(5) If the property management agreement is terminated or transferred for any reason, the property manager:

a. Terminates the management activities of the property as provided in the agreement and except as otherwise provided by the agreement;

b. Notifies the owner and any tenants of the property of the termination;

c. Provides the owner, not later than 30 days after the effective date of the termination, with any unobligated funds due the owner under the agreement and not later than 60 days after the effective date of the termination, provides the owner with a final accounting of the owner's ledger account, the amount of any obligated funds held in the property manager's client trust account under the agreement, a statement that explains why obligated funds are being held by the property manager and a statement of when and to whom the obligated funds will be disbursed by the property manager;

d. May disburse any unobligated funds only to the owner or, with the proper written authorization of the owner, to another property manager designated in writing by the owner;

e. Immediately notifies each tenant that the conditionally refundable deposit will be transferred to the owner or to a new property manager and, at the same time, provides the name and address of the owner or the new property manager to whom these deposits will be transferred.

2015.1(6) If any of the unobligated funds held by the property manager under the terminated agreement represent tenants' conditionally refundable deposits received from current tenants, the property manager:

a. Cannot expend any tenant's conditionally refundable deposits for payment of any expenses or fees not otherwise allowed by the tenant's rental or lease agreements, and

b. If any tenant terminates tenancy at the same time as or prior to the termination of the management of the rented or leased property, the licensee completes any final accounting, inspection or other procedure obligated by the tenant's rental or lease agreement, by the Uniform Residential Landlord and Tenant Law, Mobile Home Parks Residential Landlord and Tenant Law, or by the property management agreement, unless the owner directs otherwise in writing.

2015.1(7) Financial dealings under a property management agreement are conducted subject to the following:

a. A check is not issued or presented for payment prior to sufficient funds being in the owner's account to cover the check.

b. Transfers of funds between two or more accounts maintained for the same owner may be made if proper entries are made on the ledgers of the accounts affected and the broker maintains the specific written authorization of the owner.

Transfers of funds between an individual owner's accounts are done by writing billings and receipts debiting and crediting the appropriate accounts. Transfers are not done by ledger entries alone.

c. The broker cannot withdraw, pay or transfer money from the owner's account in excess of the remaining credit balance at the time of withdrawal, payment or transfer.

d. Management fees are withdrawn from the owner's account at least once a month unless the agreement provides otherwise. The fees are identified by property name or account number for which the fees were earned and withdrawn by the broker and deposited into the broker's business operating account. Fees are not paid directly from the owner's trust account to the broker.

e. Conditionally refundable deposits are placed in a trust account until refund is made or until all or a portion of the deposit accrues to the owner under the tenant's agreement.

If refundable deposits are not maintained in a separate trust account, the running balance of the account does not, at any time, go below the total of the refundable deposits being held in the account.

f. The total of balances of the individual property management accounts of the broker equals the balance shown on the journal, the account ledgers, and the reconciled bank balance of the broker.

All accounts and records are in compliance with Iowa Code section 543B.46 and rule 481—2013.1(543B).

g. Except as otherwise specifically allowed or provided in Iowa Code sections 562A.12(2) and 562B.13(2), if refundable deposits and funds are received from others pursuant to a property management agreement, deposited in an interest-bearing trust account, and there is not a separate written agreement to pay the interest earned to the owner or tenant, the interest is paid to the state pursuant to Iowa Code section 543B.46. The property manager does not receive or benefit from the interest.

The written approval agreement is signed by each party having an interest in the funds, fully disclosing how the funds are to be handled by the property manager, who will benefit from the interest earnings, how and when interest earnings will be paid and any limitations that may be provided for on the withdrawal of the funds deposited in the interest-bearing trust account.

This rule is intended to implement Iowa Code chapters 17A, 272C, and 543B.

CHAPTER 2016
PRELICENSE EDUCATION AND CONTINUING EDUCATION

[Prior to 9/4/02, see 193E—Ch 3]
[Prior to 6/10/26, see Real Estate Commission[193E] Ch 16]

Chapter rescission date pursuant to Iowa Code section 17A.7: 5/22/29

481—2016.1(543B) Definitions. For the purpose of these rules, the following definitions apply:

"Affirmative marketing" means the entire scope of social laws and ethics that are concerned with civil rights as they apply especially to housing and to the activities of real estate licensees.

"Approved program, course, or activity" means a continuing education program, course, or activity meeting the standards set forth in these rules which has received advance approval by the commission pursuant to these rules.

"Approved provider" means a person or an organization that has been approved by the commission to conduct continuing education activities pursuant to these rules.

"Broker" means any person holding an Iowa real estate broker license as defined in Iowa Code section 543B.3.

"Commission" means the real estate commission.

"Continuing education" means education needed as a condition to license renewal.

"Credit hour" means the value assigned by the commission to a prelicense or continuing education program, course, or activity.

"Distance learning" or *"online learning"* means a planned teaching/learning experience with a geographic separation of student and instructor that utilizes a wide spectrum of technology-based systems, including computer-based instruction, to reach learners at a distance. Home-study courses that include written materials, exercises and tests mailed to the provider for review are included in this definition.

"Guest speaker" means an individual who teaches a real estate education course on a one-time-only or very limited basis and who possesses a unique depth of knowledge and experience in the subject matter the individual proposes to teach.

"Hour" means 50 minutes of instruction.

"Inactive license" means the same as defined in Iowa Code section 543B.5(12).

"Licensee" means the same as defined in Iowa Code section 543B.5(13).

"Live instruction" means an educational program delivered in a traditional classroom setting or by electronic means whereby the instructor and student have real-time visual and audio contact to carry out their essential tasks.

"Prelicense course" means instruction consisting of one or more courses meeting the criteria of Iowa Code section 543B.15.

"Salesperson" means any person holding an Iowa real estate salesperson license as defined in Iowa Code section 543B.5(3).

[**ARC 7778C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2016.2(543B) Salesperson prelicense criteria.

2016.2(1) *Mandatory course of study.*

a. The mandatory course of study for the salesperson licensing examination consists of 60 live instruction or distance/online learning hours of real estate principles and practices to comply with the criteria of Iowa Code section 543B.15. The curriculum includes, but is not limited to, the following subjects:

Introduction to Real Estate and Iowa License Law	12 hours
Ownership, Encumbrances, Legal Descriptions, Transfer of Title and Closing	12 hours
Contracts, Agency and Antitrust	12 hours
Valuation, Finance and Real Estate Math	12 hours
Property Management/Leasing, Fair Housing, Environmental Risks and Health Issues	12 hours

b. At the time of submission of an application, an applicant applying for an original salesperson license also provides evidence of the following live instruction courses: 12 hours of Developing Professionalism and Ethical Practices, 12 hours of Buying Practices and 12 hours of Listing Practices. All the necessary education is completed during the 12 months prior to the date the application is postmarked or received.

2016.2(2) *Completion of prelicense education.* Successful completion of the salesperson prelicense education includes passage of an examination(s) designed by the approved provider that is sufficiently comprehensive to measure the student's knowledge of all aspects of the course(s). Times allotted for examinations may be regarded as hours of instruction.

2016.2(3) *Substitution of courses.* Written requests for substitution of the salesperson prelicense education courses specified in subrule 2016.2(1) may be granted if the applicant submits evidence of successful completion of a course or courses which are substantially similar to the courses specified in subrule 2016.2(1). Courses completed more than 12 months prior to commission consideration for approval do not qualify for substitution.

[**ARC 7778C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2016.3(543B) Broker prelicense education criteria.

2016.3(1) *Mandatory course of study.* The mandatory course of study to take the broker examination consists of Iowa Code section 543B.15(7). Approved courses include the following subjects:

Contract Law and Contract Writing	6 hours
Iowa Real Estate Trust Accounts	6 hours
Principles of Appraising and Market Analysis	6 hours
Real Estate Law and Agency Law	6 hours
Real Estate Finance	6 hours
Federal and State Laws Affecting Iowa Practice	6 hours
Real Estate Office Organization, Administration and Human Resources	12 hours
Real Estate Technology and Data Security	6 hours
Ethics and Safety Issues for Brokers	6 hours

2016.3(2) *Completion of prelicense education.* Successful completion of the broker prelicense education includes passage of an examination(s) designed by the approved provider that is sufficiently comprehensive to measure the student's knowledge of all aspects of the course(s). Times allotted for examinations may be regarded as hours of instruction.

2016.3(3) *Substitution of courses.* Written requests for substitution of the broker prelicense education courses specified in subrule 2016.3(1) may be granted if the applicant submits evidence of successful completion of a course or courses which are substantially similar to the courses specified in subrule 2016.3(1). Any course completed more than 24 months prior to commission consideration for approval does not qualify for substitution.

[**ARC 7778C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2016.4(543B) Continuing education criteria.

2016.4(1) All individual real estate licenses are issued for three-year terms, counting the remaining portion of the year of issue as a full year. All individual licenses expire on December 31 of the third year of the license term.

2016.4(2) As a criteria of license renewal in an active status, each real estate licensee completes a minimum of 36 hours of approved programs, courses or activities. Licensees who complete continuing education hours in excess of the requirements for renewal may apply up to 50 percent of the required hours to the following renewal period. Licensees may apply a maximum of 18 hours from the previous renewal period. Licensees cannot carry over any hours toward the mandatory eight-hour law update course nor the four-hour ethics course. Approved courses in the following subjects are completed to renew a license to active status:

Law Update	8 hours
Ethics	4 hours
Electives	24 hours

2016.4(3) During each three-year renewal period a course may be taken for credit only once. A course may be repeated for credit only if the course numbers and instructors are different.

2016.4(4) A maximum of 24 hours of continuing education may be taken by distance/online learning each three-year renewal period.

2016.4(5) A licensee unable to attend educational offerings because of a disability may make a written request to the commission setting forth an explanation and verification of the disability. Licensees making requests need to meet the definition of a person with a disability found in the Americans with Disabilities Act as amended by the ADA Amendments Act of 2008 (ADAAA).

2016.4(6) In addition to courses approved directly by the commission, the following will be deemed acceptable as continuing education:

a. Credits earned in a state which has a continuing education criteria for renewal of a license if the course is approved by the real estate licensing board of that state for credit for renewal. However, state-specific courses are not acceptable.

b. Courses sponsored by the National Association of Realtors (NAR) or its affiliates.

[**ARC 7778C**, IAB 4/17/24, effective 5/22/24; **ARC 9480C**, IAB 8/6/25, effective 9/10/25; Editorial change: IAC Supplement 6/10/26]

481—2016.5(543B) Continuing education records. Applicants for license renewal pursuant to Iowa Code section 543B.15 certify that the number of hours of continuing education needed to renew a license was completed as described in rule 481—2016.4(543B).

2016.5(1) The commission will verify by random audit or on a test basis the education claimed by the licensee. It is the responsibility of the licensee to maintain records that support the continuing education claimed and the validity of the credits. Documentation is retained by the licensee for a period of six years after the effective date of the license renewal.

2016.5(2) It will not be acceptable for a licensee to include on a renewal application continuing education which has not yet been completed, is outside the renewal period, or for which prior approval or postapproval has not been previously granted.

2016.5(3) Failure to provide necessary evidence of completion of claimed education within 30 days of the written notice from the commission results in the license's being placed on inactive status. Prior to activating a license that has been placed on inactive status pursuant to this provision, the licensee submits to the commission satisfactory evidence that all necessary continuing education has been completed.

2016.5(4) Filing a false affirmation is prima facie evidence of a violation of Iowa Code section 543B.29(1).

[**ARC 7778C**, IAB 4/17/24, effective 5/22/24; **ARC 9480C**, IAB 8/6/25, effective 9/10/25; Editorial change: IAC Supplement 6/10/26]

481—2016.6(543B) Reactivating an inactive license. A license may be renewed without the necessary continuing education, but it is only renewed to an inactive status. Prior to reactivating a license that has been issued inactive due to failure to submit evidence of continuing education, the licensee submits evidence that all deficient continuing education hours have been completed. Licensees who complete continuing education hours in excess of the requirements for renewal may apply up to 50 percent of the required hours to the following renewal period. Licensees may apply a maximum of 18 hours from the previous renewal period. Licensees cannot carry over any hours toward the mandatory eight-hour law update course nor the four-hour ethics course.

[**ARC 7778C**, IAB 4/17/24, effective 5/22/24; **ARC 9480C**, IAB 8/6/25, effective 9/10/25; Editorial change: IAC Supplement 6/10/26]

481—2016.7(543B) Full-time attendance. Successful completion of continuing education needs full-time attendance throughout the program, course or activity. A student who arrives late, leaves during class or leaves early does not receive a certificate.

[**ARC 7778C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2016.8(543B) Education criteria for out-of-state licensees. Subrule 2016.4(2) applies to every Iowa real estate licensee unless exempted by Iowa Code section 272C.2(5).

[**ARC 7778C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2016.9(543B) Examination as a substitute for continuing education.

2016.9(1) A salesperson may satisfy all continuing education deficiencies by taking and passing the real estate salesperson examination. An authorization letter is obtained from the commission prior to scheduling the examination with the examination administrator.

a. If the salesperson takes and passes the salesperson examination within the six months immediately preceding the expiration of the license, the salesperson examination score report may be substituted for the necessary hours of continuing education credit for the current license term and will satisfy all previous deficiencies.

b. A salesperson who is otherwise qualified to be a broker and who passes the broker licensing examination is not needed to furnish evidence of credit for continuing education earned as a salesperson.

2016.9(2) A broker may satisfy all continuing education deficiencies by taking and passing the real estate broker examination. An authorization letter is obtained from the commission prior to scheduling the examination with the examination administrator. If the broker takes and passes the broker examination within the six months immediately preceding the expiration of the license, the broker examination score report may be substituted for the necessary hours of continuing education credits for the current license term and will satisfy all previous deficiencies.

[**ARC 7778C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2016.10(543B) Use of prelicense courses as continuing education.

2016.10(1) Salespersons and brokers may take up to 24 hours of the salesperson prelicense courses specified in subrule 2016.2(1) as continuing education. However, a newly licensed salesperson cannot use credits from the salesperson prelicense course(s) to meet the continuing education criteria of the first renewal term.

2016.10(2) Broker prelicense courses taken by a salesperson may be applied as continuing education for renewal of the salesperson license and also may be used as prelicense credit to qualify for a broker license.

2016.10(3) A broker may take broker prelicense courses as continuing education, but a newly licensed broker cannot use as continuing education credits from the prelicense courses taken to qualify for the broker license.

[**ARC 7778C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2016.11(543B) Requests for prior approval or postapproval of a course(s). A licensee seeking credit for attendance and participation in a course, program, or other continuing education activity that is to be conducted by a school not otherwise approved by the commission may apply for approval to the commission at least 21 days in advance of the beginning of the activity. The commission approves or denies the application in writing within 14 days of receipt of the application.

2016.11(1) The application for prior approval of a course or an activity includes the following information:

a. School or organization or person conducting the activity.

b. Location of the activity.

c. Title and brief description of the activity or title and course outline.

d. Credit hours requested.

e. Date of the activity.

f. Principal instructor(s).

2016.11(2) The application for postapproval of a course or an activity includes the following information:

a. School, firm, organization or person conducting the activity.

b. Location of the activity.

c. Title, description of activity, and course outline.

d. Credit hours requested for approval.

e. Date of the activity.

f. Principal instructor(s).

g. Verification of attendance.

[**ARC 7778C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

These rules are intended to implement Iowa Code chapters 17A, 272C, and 543B.

CHAPTER 2017
APPROVAL OF SCHOOLS, COURSES AND INSTRUCTORS

[Prior to 9/4/02, see 193E—3.5(543B)]
[Prior to 6/10/26, see Real Estate Commission[193E] Ch 17]

Chapter rescission date pursuant to Iowa Code section 17A.7: 5/22/29

481—2017.1(543B) Administrative criteria for schools, courses and instructors. All schools, courses and instructors of prelicense and continuing education receive advance approval of the commission.

2017.1(1) Schools, courses and instructors are approved on forms prescribed by the commission for 24-month periods, including the month of approval. Approval is obtained for each course that an instructor proposes to teach.

2017.1(2) A course outline and all necessary forms are submitted for approval at least 30 days prior to the first offering of the program, course or activity.

2017.1(3) Evidence of compliance with or exemption from Iowa Code sections 714.18 through 714.25 is furnished to the commission.

2017.1(4) Potential participants of all approved courses are clearly informed of the hours to be credited, policies concerning registration, payment of fees, refunds and attendance criteria.

2017.1(5) School staff and instructors allow access to any classes conducted to any member of the commission or its duly appointed representatives.

2017.1(6) No part of any approved course is used to advertise or solicit orally or in writing any product or service.

2017.1(7) The school shows that procedures are in place to ensure that the student who completes an approved course is the student who enrolled in the course.

2017.1(8) School staff and instructors are available during normal business hours to answer student questions and provide assistance as necessary.

2017.1(9) The commission may at any time evaluate an approved school or instructor. If the commission finds there is a basis for consideration of revocation of the approval of the school or the instructor, the commission gives notice by ordinary mail or email to the coordinator of that school or to the instructor of a hearing on the possible revocation at least 20 days prior to the hearing.

2017.1(10) The commission may deny or withdraw approval of a program, course, or activity, but the decision to deny or withdraw approval may be appealed within 20 days of the date of mailing the notice of denial or withdrawal.

2017.1(11) Each application for approval designates an individual as coordinator for the school in responsible charge of its operation who is also the contact for the commission. The coordinator is responsible for complying with the commission’s rules relating to schools and for submitting reports and information if needed by the commission.

2017.1(12) An approved school cannot apply to itself either as part of its name or in any other manner the designation of “college” or “university” in such a way as to give the impression that it is an educational institution conforming to the standards and qualifications prescribed for colleges and universities unless the school, in fact, meets those standards and qualifications.

2017.1(13) Advertising and prospectus information. No approved school provides any information to the public or to prospective students that is misleading.

2017.1(14) Maximum hours of instruction. There is no more than eight classroom hours in any single day of instruction.

2017.1(15) Each approved school establishes and maintains for each student a complete, accurate and detailed record of instruction undertaken and satisfactorily completed in the areas of study prescribed by these rules. The records are maintained for a period of not less than five years. The commission assigns a number to each approved school and assigns a number to each approved program, course or activity. The approved school includes these reference numbers in correspondence with the commission and includes these numbers on certificates of attendance issued by the approved school.

[**ARC 7779C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2017.2(543B) Certificates of attendance.

2017.2(1) Each approved school under rule 481—2017.1(543B) provides an individual certificate of attendance to each licensee upon completion of the program, course, or activity. The certificate contains the following information:

a. School name and number;

b. Program, course or activity name and number;

c. Name and address of licensee;

d. Date on which the program, course or activity was completed;

e. Number of approved credit hours;

f. Instructor's name;

g. Signature of coordinator or other person authorized by the commission; and

h. A notation as to whether credit hours are to be used as distance learning or as live instruction.

2017.2(2) An attendance certificate is not issued to a licensee who is absent from a continuing education program, course, or activity. The program, course, or activity is completed in its entirety. A student who arrives late, leaves during class or leaves early does not receive an attendance certificate.

[**ARC 7779C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2017.3(543B) Instructors taking license examinations for auditing purposes.

2017.3(1) Instructors who take the salesperson or broker examination for auditing purposes first obtain written consent from the commission.

2017.3(2) Any instructor who wishes to retake an examination for auditing purposes may be granted permission after 12 months have passed.

[**ARC 7779C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2017.4(543B) Continuing education credit for instructors.

2017.4(1) Commission-approved instructors may receive up to six hours of continuing education credit toward renewal of a real estate license for verified attendance at an instructor development workshop approved by the commission. The instructor may use continuing education credit only once in each three-year renewal period.

2017.4(2) An instructor may receive continuing education credit for approved education courses that the instructor teaches, but not more than six hours of credit in any three-year license renewal period.

[**ARC 7779C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2017.5(543B) Acceptable course topics.

2017.5(1) The commission will consider courses in the following areas to be acceptable for approval:

a. Real estate ethics;

b. Legislative issues that influence real estate practice, including both pending and recent legislation;

c. The administration of licensing provisions of real estate law and rules, including compliance and regulatory practices;

d. Real estate financing, including mortgages and other financing techniques;

e. Real estate market analysis and evaluation, including site evaluations, market data, and feasibility studies;

f. Real estate brokerage administration, including office management, trust accounts, and employee contracts;

g. Real estate mathematics;

h. Real property management, including leasing agreements, accounting procedures, and management contracts;

i. Real property exchange;

j. Land use planning and zoning;

k. Real estate securities and syndications;

l. Estate building and portfolio management;

m. Accounting and taxation as applied to real property;

n. Land development;

o. Market analysis;
p. Real estate market procedures;
q. Technology and the practice of real estate;
r. Safety;
s. Fair housing; and
t. Diversity, equity and inclusion.

2017.5(2) Other course topics. A course topic may be approved if it is determined that it includes such facts, concepts and current information about which licensees are knowledgeable to conduct real estate negotiations and transactions and better protect client, customer and public interest. The same criteria will be used to evaluate courses that do not otherwise qualify under rule 481—2017.5(543B).

[**ARC 7779C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2017.6(543B) Nonqualifying courses. The following course offerings do not qualify as continuing education:

2017.6(1) Courses of instruction designed to prepare a student for passing the real estate salesperson examination;

2017.6(2) Sales promotion or other meetings held in conjunction with a licensee's general business;

2017.6(3) A course certified by the use of a challenge examination. All students complete the necessary number of classroom hours to receive certification;

2017.6(4) Meetings which are a normal part of in-house staff or employee training;

2017.6(5) Orientation courses for licensees, such as those offered through local real estate boards.

[**ARC 7779C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2017.7(543B) Standards for approval of courses of instruction. The commission may approve live classroom instruction, distance education programs and paper and pencil home-study courses, subject to the following conditions:

2017.7(1) The course pertains to real estate topics that are integrally related to the real estate industry; and

2017.7(2) The course allows the participants to achieve a high level of competence in serving the objectives of consumers who engage the services of licensees; and

2017.7(3) The course qualifies for at least one credit hour.

[**ARC 7779C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2017.8(543B) Responsibilities of instructors and course developers.

2017.8(1) Instructors are competent in the subject matter and skilled in the use of appropriate teaching methods that have been proven effective through educational research and development.

2017.8(2) Course content and materials are accurate and consistent with currently accepted standards relating to the program's subject matter.

2017.8(3) Instructor and student materials are updated no later than 30 days after the effective date of a change in standards, laws or rules. Course content will not be considered current and up-to-date unless the new standards have been incorporated into the course or the instructor informs the participants of the new standards.

2017.8(4) Instructors attend workshops or instructional programs, as reasonably requested by the commission, to ensure that effective teaching techniques are used and current, relevant and accurate information is taught.

2017.8(5) All courses have an appropriate means of written evaluation by the participants. Evaluations include but are not limited to relevance of material, effectiveness of presentation and course content.

[**ARC 7779C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2017.9(543B) Standards for approval of classroom courses.

2017.9(1) The commission may approve live classroom courses, subject to the following criteria.

2017.9(2) The course application is accompanied by a comprehensive course outline that includes:

a. Description of course.

b. Purpose of course.

c. Level of difficulty.

d. Detailed learning objectives for each major topic that specify the level of knowledge or competency the student should demonstrate upon completing the course.

e. Description of the instructional methods utilized to accomplish the learning objectives.

f. Copies of all instructor and student course materials.

g. Course examination(s) or the diagnostic assessment method(s) utilized to achieve the course learning objectives, when applicable.

h. A description of the plan in place to periodically review course material with regard to changing federal and state statutes.

i. A statement of any attendance make-up policy that the school has in place.

[**ARC 7779C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2017.10(543B) Standards for approval of distance learning courses. The commission may approve distance learning courses, subject to the following criteria:

2017.10(1) The provider's purpose or mission statement is available to the public.

2017.10(2) The course outline includes clearly stated learning objectives and desired student competencies for each module of instruction and a description of how the program promotes interaction between the learner and the program.

2017.10(3) The course content is accurate and up-to-date. The provider describes the plan in place to periodically review course material with regard to changing federal and state statutes.

2017.10(4) The course is designed to ensure that student progress is evaluated at appropriate intervals and mastery of the material is achieved before a student can progress through the course material.

a. Students completing distance learning continuing education complete a final examination containing 10 questions for a one-hour course, 20 questions for a two-hour course, 30 questions for a three-hour course, 40 questions for a four-hour course, and 60 questions for a six- or eight-hour course.

b. A passing score of 80 percent is needed for course credit to be granted. There is no limit to the number of times a final examination may be taken to achieve a passing score.

2017.10(5) The provider shows that qualified individuals are involved in the design of the course.

2017.10(6) The provider lists individuals who provide technical support to students and state the specific times when support is available.

2017.10(7) A manual is provided to each registered student. It includes, but is not limited to, faculty contact information, student assignments and course criteria, broadcast schedules, testing information, passing scores, resource information, fee schedule and refund policy.

2017.10(8) The provider retains a statement signed by the student that affirms that the student completed the necessary work and examinations.

2017.10(9) The provider states in the course materials that the information presented in the course should not be used as a substitute for competent legal advice.

2017.10(10) Courses submitted for approval are sufficient in scope and content to justify the hours requested by the provider.

2017.10(11) Courses that have obtained approval from the Association of Real Estate License Law Officials (ARELLO) are automatically approved in Iowa.

2017.10(12) All computer-based continuing education and prelicense courses are completed within six months of the date of purchase.

[**ARC 7779C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2017.11(543B) Standards for approval of paper and pencil home-study courses. The commission may approve paper and pencil home-study courses, subject to the following criteria:

2017.11(1) Courses are arranged in chapter format and include a table of contents.

2017.11(2) Overview statements that preview the content of the chapter are included for each chapter.

2017.11(3) Courses are designed to ensure that student progress is evaluated at appropriate intervals. The assessment process measures what each student has learned and not learned at regular intervals

throughout each module of the course. The student completes and returns quizzes to the provider to receive credit for the course.

2017.11(4) Students completing paper and pencil home-study continuing education complete a final examination containing 10 questions for a one-hour course, 20 questions for a two-hour course, 30 questions for a three-hour course, 40 questions for a four-hour course, and 60 questions for a six- or eight-hour course.

2017.11(5) A passing score of 80 percent is needed for course credit to be granted. There is no limit to the number of times a final examination may be taken to achieve a passing score.

2017.11(6) A licensee has six months from the date of purchase to complete all quizzes and assignments and to pass the final examination.

2017.11(7) The provider includes information that clearly informs the licensee of the course completion deadline, passing score needed, chapter quiz completion criteria and any other relevant information regarding the course.

2017.11(8) The provider states in the course materials that the information presented in the course should not be used as a substitute for competent legal advice.

2017.11(9) The provider retains a statement signed by the student that affirms that the student completed the necessary work and examinations.

2017.11(10) The provider is available to answer student questions or provide assistance as necessary during normal business hours.

2017.11(11) Courses submitted for approval are sufficient in scope and content to justify the hours requested by the provider.

[**ARC 7779C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2017.12(543B) Qualifying as an instructor.

2017.12(1) Individuals may be approved to teach prelicense and continuing education when they have shown proof of attendance of six hours at an instructor development workshop approved by the commission within 12 months preceding approval and have met the instructor qualification criteria.

2017.12(2) Guest speakers and individuals currently certified by a nationally recognized organization, such as a DREI, that has similar instructor standards are exempt, with prior approval of the commission, from the instructor qualification criteria and the instructor development workshop criteria.

2017.12(3) An applicant may be approved as an instructor when it is determined that the applicant evidences the ability to teach and communicate and possesses in-depth knowledge of the subject matter to be taught.

a. The applicant demonstrates the ability to teach by meeting at least one of the following criteria:

(1) Holds a bachelor's degree or higher in education from an accredited college (copy(ies) of transcript(s) to be attached); or

(2) Holds a current teaching credential or certificate in any field (copy to be attached); or

(3) Holds a certificate of completion from a real estate instructor institute, workshop or school approved by the real estate commission and has experience in the area of instruction (specific teaching experiences to be detailed); or

(4) Holds a full-time current appointment to the faculty of an accredited college; or

(5) Holds a current teaching designation from an organization approved by the real estate commission (evidence to be attached).

b. The applicant demonstrates in-depth knowledge of the subject matter by meeting at least one of the following criteria:

(1) Holds a bachelor's degree or higher from an accredited college with a major in a field of study directly related to the subject matter of the course the applicant proposes to teach, such as business, economics, accounting, real estate or finance (copy of transcript to be attached); or

(2) Holds a bachelor's degree or higher from an accredited college and five years of real estate experience directly related to the subject matter of the course the applicant proposes to teach (copy of transcript to be attached and documentation to explain how applicant's experience is directly related to the subject matter the applicant proposes to teach); or

(3) Be a licensed attorney in practice for at least three years in an area directly related to the subject matter of the course the applicant proposes to teach; or

(4) Be a highly qualified professional with a generally recognized professional designation such as, but not limited to, FLI, MAI, SIOR, SREA, CRB, CRS, CPM, but not including GRI, and two years of education from a postsecondary institution (evidence of both to be attached); or

(5) Have extensive instructional background in real estate education and experience in real estate as evidenced by a valid broker's license or five years of active real estate experience as a salesperson (evidence to be provided). In addition, three recently written letters of recommendation that attest to the applicant's in-depth knowledge combined with the ability to teach and communicate the subject the applicant proposes to teach; or

(6) Other, as the commission may determine.

[**ARC 7779C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

These rules are intended to implement Iowa Code chapters 17A, 272C, and 543B.

CHAPTER 2018
INVESTIGATIONS AND DISCIPLINARY PROCEDURES

[Prior to 9/4/02, see 193E—Ch 4]
[Prior to 6/10/26, see Real Estate Commission[193E] Ch 18]

Chapter rescission date pursuant to Iowa Code section 17A.7: 5/22/29

481—2018.1(17A,272C,543B) Disciplinary and investigative authority. The commission is empowered to administer Iowa Code chapters 17A, 272C, and 543B and related administrative rules for the protection and well-being of those persons who may rely upon licensed individuals for the performance of real estate services within this state or for clients in this state. To perform these functions, the commission is broadly vested with authority, pursuant to Iowa Code sections 17A.13, 272C.3 through 272C.6, 272C.10, 543B.9, 543B.29, 543B.34 to 543B.41, and 543B.61 to review and investigate alleged acts or omissions of licensees, determine whether disciplinary proceedings are warranted, initiate and prosecute disciplinary proceedings, establish standards of professional conduct, and impose discipline.
[**ARC 7780C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2018.2(17A,272C,543B) Grounds for discipline. The commission may initiate disciplinary action against a licensee on any of the following grounds:

1. All grounds set forth in Iowa Code sections 543B.29, 543B.34 and 543B.61.
2. A violation of the rules of professional and business conduct described in 481—Chapters 2006 through 2008, 2010 through 2015 and 2019.
3. Failure to comply with an order of the commission imposing discipline.
4. Violation of Iowa Code sections 272C.3(2) and 272C.10.
5. Continuing to practice real estate with an expired or inactive license, or without satisfying the continuing education mandated by 481—Chapter 2016 or the errors and omissions insurance mandated by 481—Chapter 2019.
6. Knowingly aiding or abetting a licensee, license applicant or unlicensed person in committing any act or omission which is a ground for discipline under this rule or otherwise knowingly aiding or abetting the unlicensed practice of real estate in Iowa.
7. Failure to fully cooperate with a licensee disciplinary investigation, including failure to respond to a commission inquiry within 14 calendar days of the date of mailing by certified mail of a written communication directed to the licensee's last address on file at the commission office.
8. A violation of one or more of the acts or omissions upon which civil penalties may be imposed, as described in subrule 2018.14(5).

[**ARC 7780C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2018.3(17A,272C,543B) Initiation of disciplinary investigations. The commission may initiate a licensee disciplinary investigation upon the commission's receipt of information suggesting that a licensee may have violated a law or rule enforced by the commission which, if true, would constitute a ground for licensee discipline.
[**ARC 7780C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2018.4(272C,543B) Sources of information. Without limitation, the following nonexclusive list of information sources may form the basis for the initiation of a disciplinary investigation or proceeding:

1. News articles or other media sources.
2. Reports filed with the commission by the commissioner of insurance pursuant to Iowa Code section 272C.4(9).
3. Complaints filed with the commission by any member of the public.
4. License applications or other documents submitted to the commission.
5. Reports to the commission from any regulatory or law enforcement agency from any jurisdiction.
6. Commission audits of licensee compliance, such as those involving continuing education, trust accounts, or errors and omissions insurance.

[**ARC 7780C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2018.5(17A,272C,543B) Conflict of interest. If the subject of a complaint is a member of the commission, or if a member of the commission has a conflict of interest in any disciplinary matter before the commission, that member abstains from participation in any consideration of the complaint and from participation in any disciplinary hearing that may result from the complaint.

[**ARC 7780C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2018.6(272C,543B) Complaints. Written complaints may be submitted to the commission office by mail, email, online via the commission's website, or personal delivery by any member of the public with knowledge of possible law or rule violations by licensees. Timely filing is encouraged to ensure the availability of witnesses and to avoid initiation of an investigation under conditions which may become substantially altered during a period of delay.

2018.6(1) *Contents of a written complaint.* Written complaints may be submitted on forms provided by the commission which are available from the commission office and on the commission's website. Written complaints, whether submitted on a commission complaint form or in other written medium, contain the following information:

a. The full name, address, and telephone number of the complainant (person complaining).

b. The full name, address, and telephone number of the respondent (licensee against whom the complaint is filed).

c. A statement of the facts and circumstances giving rise to the complaint, including a description of the alleged acts or omissions which the complainant believes demonstrates that the respondent has violated or is violating laws or rules enforced by the commission.

d. If known, citations to the laws or rules allegedly violated by the respondent.

e. Evidentiary supporting documentation.

f. Steps, if any, taken by the complainant to resolve the dispute with the respondent prior to filing a complaint.

g. The address of the property involved.

2018.6(2) *Immunity.* A person is not civilly liable for filing a complaint unless such act is done with malice as provided by Iowa Code section 272C.8(1)*"a."* Employees cannot be discriminated against as a result for filing a complaint as provided by Iowa Code section 272C.8(1)*"c."*

2018.6(3) *Role of complainant.* The role of the complainant in the disciplinary process is limited to providing the commission with factual information relative to the complaint. A complainant is not party to any disciplinary proceeding which may be initiated by the commission based in whole or in part on information provided by the complainant.

2018.6(4) *Role of the commission.* The commission does not act as an arbiter of disputes between private parties, nor does the commission initiate disciplinary proceedings to advance the private interests of any person or party. The role of the commission in the disciplinary process is to protect the public by investigating complaints and initiating disciplinary proceedings in appropriate cases. The commission possesses sole decision-making authority throughout the disciplinary process, including the authority to determine whether a case will be investigated, the manner of the investigation, whether a disciplinary proceeding will be initiated, and the appropriate licensee discipline to be imposed, if any.

2018.6(5) *Initial complaint screening.* All written complaints received by the commission are initially screened by the commission's administrator or designated staff to determine whether the allegations of the complaint fall within the commission's investigatory jurisdiction and whether the facts presented, if true, would constitute a basis for disciplinary action against a licensee. Complaints which are clearly outside the commission's jurisdiction, which clearly do not allege facts upon which disciplinary action would be based, or which are frivolous may be closed by the commission administrator or may be referred by the commission administrator to the commission for closure at the next scheduled commission meeting. All other complaints are referred by the commission administrator to the commission's disciplinary committee for committee review as described in rule 481—2018.9(17A,272C,543B). If a complainant objects in writing to the closure of the complaint by the commission administrator, the administrator will refer the objection to the disciplinary committee or commission for reconsideration.

2018.6(6) *Withdrawal or amendment.* A complaint may be amended or withdrawn at any time prior to official notification of the respondent and thereafter at the sole discretion of the commission. The commission may choose to pursue a matter even after a complaint has been withdrawn.
[**ARC 7780C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2018.7(272C,543B) Case numbers. Whether based on a written complaint received by the commission or a complaint initiated by the commission, all complaint files are tracked by a case numbering system. Complaints are assigned case numbers in chronological order with the first two digits representing the year in which the complaint was received or initiated, and the second three digits representing the order in which the case file was opened (e.g., 01-001, 01-002, 01-003). The commission's administrator maintains a case file log noting the date each case file was opened, whether disciplinary proceedings were initiated in the case, and the final disposition of the case. Once a case file number is assigned to a complaint, all persons communicating with the commission regarding that complaint are encouraged to include the case file number to facilitate accurate records and prompt response.
[**ARC 7780C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2018.8(272C,543B) Confidentiality of complaint and investigative information. All complaint and investigative information received or created by the commission is privileged and confidential pursuant to Iowa Code section 272C.6(4) and as such is not subject to discovery, subpoena, or other means of legal compulsion for release to any person except as provided in Iowa Code section 272C.6.
[**ARC 7780C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2018.9(17A,272C,543B) Investigation procedures.

2018.9(1) *Disciplinary committee.* The commission chair may appoint two members of the commission to serve on a commission disciplinary committee. The chair may appoint a standing committee or may appoint different members to serve on the committee on an as-needed basis. The disciplinary committee is a purely advisory body which reviews complaint files referred by the commission's administrator, generally supervises the investigation of complaints, and makes recommendations to the full commission on the disposition of complaints. Except as provided by rule 481—2018.10(17A,272C,543B), members of the committee do not personally investigate complaints, but they may review the investigative work product of others in formulating recommendations to the commission.

2018.9(2) *Committee screening of complaints.* Upon the referral of a complaint from the commission's administrator or from the full commission, the committee determines whether the complaint presents facts which, if true, suggest that a licensee may have violated a law or rule enforced by the commission. If the committee concludes that the complaint does not present facts which suggest such a violation or that the complaint does not otherwise constitute an appropriate basis for disciplinary action, the committee refers the complaint to the full commission with the recommendation that it be closed with no further action. If the committee determines that the complaint does present a credible basis for disciplinary action, the committee may either immediately refer the complaint to the full commission recommending that a disciplinary proceeding be commenced or initiate a disciplinary investigation.

2018.9(3) *Committee procedures.* If the committee determines that additional information is necessary or desirable to evaluate the merits of a complaint, the committee may assign an investigator or expert consultant, appoint a peer review committee, provide the licensee an opportunity to appear before the disciplinary committee for an informal discussion as described in rule 481—2018.10(17A,272C,543B) or request commission staff to conduct further investigation. Upon completion of an investigation, the investigator, expert consultant, peer review committee or commission staff presents a report to the committee. The committee reviews the report and determines what further action is necessary. The committee may:

a. Request further investigation.

b. Determine there is not probable cause to believe a disciplinary violation has occurred and refer the case to the full commission with the recommendation of closure.

c. Determine there is probable cause to believe that a law or rule enforced by the commission has been violated, but that disciplinary action is unwarranted on other grounds, and refer the case to the full

commission with the recommendation of closure. The committee may also recommend that the licensee be informally cautioned or educated about matters which could form the basis for disciplinary action in the future.

d. Determine there is probable cause to believe a disciplinary violation has occurred and either attempt informal settlement, subject to approval by the full commission, or refer the case to the full commission with the recommendation that the commission initiate a disciplinary proceeding (contested case).

e. Stay further action on the complaint if, for instance, there is a pending criminal case or civil litigation and the committee feels it would be in the best interest of the public and respondent to await the final outcome of the litigation. Additionally, the committee may stay further action on a complaint when the respondent's license is expired or revoked.

2018.9(4) *Subpoena authority.* The commission is authorized in connection with a disciplinary investigation to issue subpoenas to compel witnesses to testify or persons to produce books, papers, records and any other real evidence, whether or not privileged or confidential under law, which the commission deems necessary as evidence in connection with a disciplinary proceeding or relevant to the decision of whether to initiate a disciplinary proceeding, pursuant to Iowa Code sections 17A.13(1), 272C.6(3) and 543B.36. Commission procedures concerning investigative subpoenas are set forth in rule 481—503.5(17A,272C).

[**ARC 7780C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2018.10(17A,272C,543B) Informal discussion. If the disciplinary committee considers it advisable, or if requested by the affected licensee, the committee may grant the licensee an opportunity to appear before the committee for a voluntary informal discussion of the facts and circumstances of an alleged violation, subject to the provisions of this rule.

2018.10(1) An informal discussion is intended to provide a licensee an opportunity to share the licensee's side of a complaint in an informal setting before the commission determines whether probable cause exists to initiate a disciplinary proceeding. Licensees are not obligated to attend an informal discussion. Because disciplinary investigations are confidential, the licensee cannot bring other persons to an informal discussion, but licensees may be represented by legal counsel. When an allegation is made against a firm, the firm may be represented by the designated broker, a managing partner, member or other firm representative.

2018.10(2) Unless disqualification is waived by the licensee, commission members or staff who personally investigate a disciplinary complaint are disqualified from making decisions or assisting the decision makers at a later formal hearing. Because commission members generally rely upon investigators, peer review committees, or expert consultants to conduct investigations, the issue rarely arises. An informal discussion, however, is a form of investigation because it is conducted in a question and answer format. In order to preserve the ability of all commission members to participate in commission decision making and to receive the advice of staff, licensees who desire to attend an informal discussion therefore waive their right to seek disqualification of a commission member or staff based solely on the commission member's or staff's participation in an informal discussion. Licensees would not be waiving their right to seek disqualification on any other ground. By electing to attend an informal discussion, a licensee accordingly agrees that a participating commission member or staff person is not disqualified from acting as a presiding officer in a later contested case proceeding or from advising the decision maker.

2018.10(3) Because an informal discussion constitutes a part of the commission's investigation of a pending disciplinary case, the facts discussed at the informal discussion may be considered by the commission in the event the matter proceeds to a contested case hearing and those facts are independently introduced into evidence.

2018.10(4) The disciplinary committee, subject to commission approval, may propose a consent order at the time of the informal discussion. If the licensee agrees to a consent order, a statement of charges is filed simultaneously with the consent order, as provided in rule 481—506.35(17A, 272C).

[**ARC 7780C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2018.11(17A,272C,543B) Closing complaint files.

2018.11(1) *Grounds for closing.* Upon the recommendation of the administrator pursuant to subrule 2018.6(5), the recommendation of the disciplinary committee pursuant to rule 481—2018.9(17A,272C,543B), or on its own motion, the commission may close a complaint file, with or without prior investigation. Given the broad scope of matters about which members of the public may complain, it is not possible to catalog all possible reasons why the commission may close a complaint file. The commission will take into consideration the severity of the alleged violation, the sufficiency of the evidence, the possibility that the problem can be better resolved by other means available to the parties, whether the matter has been the subject of a local board proceeding, the clarity of the laws and rules which support the alleged violation, whether the alleged violation is likely to recur, the past record of the licensee, whether the licensee has previously received a cautionary letter concerning the act or omission at issue, and other factors relevant to the specific facts of the complaint. The following nonexclusive list illustrates the grounds upon which the commission may close a complaint file:

a. The complaint alleges matters outside the commission's jurisdiction.

b. The complaint does not allege a reasonable or credible basis to believe that the subject of the complaint violated a law or rule enforced by the commission.

c. The complaint is frivolous or trivial.

d. The complaint alleges matters more appropriately resolved in a different forum, such as civil litigation to resolve a contract dispute, or more appropriately addressed by alternative procedures, such as outreach education or rulemaking.

e. The matters raised in the complaint are situational, isolated, or unrepresentative of a licensee's typical practice, and the licensee has taken appropriate steps to ensure future compliance and prevent public injury.

f. Resources are unavailable or better directed to other complaints or commission initiatives in light of the commission's overall budget and mission.

g. Extenuating factors exist which weigh against the imposition of public discipline.

2018.11(2) *Closing orders.* The commission's administrator may enter an order stating the basis for the commission's decision to close a complaint file. If entered, the order cannot contain the identity of the complainant or the respondent, and cannot disclose confidential complaint or investigative information. If entered, closing orders will be indexed by case number and are a public record pursuant to Iowa Code section 17A.3(1)*"d."* A copy of the order may be mailed to the complainant, if any, and to the respondent. The commission's decision whether or not to pursue an investigation, to institute disciplinary proceedings, or to close a file is not subject to judicial review.

2018.11(3) *Cautionary letters.* When a complaint file is closed, the commission may issue a confidential letter of caution to a licensee which informally cautions or educates the licensee about matters which could form the basis for disciplinary action in the future if corrective action is not taken by the licensee. Informal cautionary letters do not constitute disciplinary action, but the commission may take such letters into consideration in the future if a licensee continues a practice about which the licensee has been cautioned.

2018.11(4) *Reopening closed complaint files.* The commission may reopen a closed complaint file if, after closure, additional information arises which provides a basis to reassess the merits of the initial complaint.

[**ARC 7780C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2018.12(17A,272C,543B) Initiation of disciplinary proceedings. Disciplinary proceedings may only be initiated by the affirmative vote of a majority of a quorum of the commission at a public meeting. Commission members who are disqualified are not included in determining whether a quorum exists. When two or more members of the commission are disqualified or otherwise unavailable for any reason, the administrator may request the special appointment of one or more substitute commission members pursuant to Iowa Code section 17A.11(5).

[**ARC 7780C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2018.13(17A,272C,543B) Disciplinary contested case procedures. Unless in conflict with a provision of Iowa Code chapter 543B or commission rules in this chapter, all of the procedures set forth in 481—Chapter 506 applies to disciplinary contested cases initiated by the commission.
[**ARC 7780C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2018.14(272C,543B) Disciplinary sanctions.

2018.14(1) *Type of sanctions.* The commission has authority to impose, alone or in combination, the following disciplinary sanctions:

a. Revocation of a license.

b. Suspension of a license for a period of time or indefinitely.

c. Nonrenewal of a license.

d. Ban permanently, until further order of the commission, or for a specified period of time, the engagement in specified procedures, methods or acts.

e. Probation. As a condition to a period of probation, the commission may impose terms and conditions deemed appropriate by the commission including, but not limited to, substance abuse evaluation and such care and treatment as recommended in the evaluation or otherwise appropriate under the circumstances.

f. Mandate additional continuing education. The commission may specify that a designated amount of continuing education be taken in specific subjects and may specify the time period for completing these courses. The commission may also specify whether this continuing education be in addition to the continuing education routinely needed for license renewal. The commission may also specify that additional continuing education be a condition for the termination of any suspension or reinstatement of a license.

g. Require reexamination.

h. Impose a monitoring or supervision arrangement.

i. Downgrade a license from a broker license to a salesperson license.

j. Issue a reprimand.

k. Order a physical or mental examination with periodic reports to the commission, if deemed necessary.

l. Impose civil penalties, the amount of which is at the discretion of the commission, but does not exceed $2,500 per violation as authorized by Iowa Code section 543B.48. Civil penalties may be imposed for any of the disciplinary violations specified in rule 481—2018.2(17A,272C,543B) and as listed in subrule 2018.14(5).

2018.14(2) *Imposing discipline.* Discipline may only be imposed against a licensee by the authorization of Iowa Code section 272C.6(5). When determining the nature and severity of the sanction to be imposed against a particular licensee or groups of licensees, the commission may consider the following factors:

a. The relative seriousness of the violation as it relates to assuring the citizens of this state professional competency.

b. The facts of the particular violation.

c. Number of prior violations.

d. Seriousness of prior violations.

e. Whether remedial action has been taken.

f. The impact of the particular activity upon the public.

g. Such other factors as may reflect upon the competency, ethical standards and professional conduct of the licensee, including those listed in subrule 2018.14(6).

2018.14(3) *Voluntary surrender.* The commission may accept the voluntary surrender of a license to resolve a pending disciplinary contested case or pending disciplinary investigation. The commission cannot accept a voluntary surrender of a license to resolve a pending disciplinary investigation unless a statement of charges is filed along with the order accepting the voluntary surrender. Such a voluntary surrender is considered disciplinary action and is published in the same manner as is applicable to any other form of disciplinary order.

2018.14(4) *Notification criteria.* Whenever a broker's license is revoked, suspended, limited, or voluntarily surrendered under this chapter, the licensee follows the procedures set forth in rule 481—2007.3(543B). Strict compliance with these procedures is a condition for an application for reinstatement. Whenever a salesperson's or broker associate's license is revoked, suspended, limited, or voluntarily surrendered under this chapter, the licensee immediately notifies the licensee's broker, and:

a. Within seven days of receipt of the commission's final order, notifies in writing all clients of the fact that the license has been revoked, suspended, limited, or voluntarily surrendered. Such notice advises the client to immediately contact the broker, unless the limitation at issue would not impact the real estate services provided for that client.

b. Within 30 days of receipt of the commission's final order, the licensee files with the commission copies of the notices sent pursuant to paragraph 2018.14(4)*"a."* Compliance with this criteria is a condition for an application for reinstatement.

2018.14(5) *Violations for which civil penalties may be imposed.* The following is a nonexclusive list of violations upon which civil penalties may be imposed:

a. Engaging in activities requiring a license when license is inactive.

b. Failing to maintain a place of business.

c. Improper care and custody of license:

(1) Failing to properly display license(s).

(2) Failing to return license in a timely manner (received within 72 hours as provided by 481—subrules 2006.1(1) and 2006.1(2)).

(3) Failing to notify associate when license is returned.

(4) Failing to provide mailing address of associate when license is returned.

d. Failing to inform commission and remit necessary fees if appropriate:

(1) When changing business address (five working days).

(2) When changing status (five working days).

(3) When changing form of firm (five working days).

(4) When opening a trust account by not filing a consent to examine for the account.

(5) When changing residence address or mailing address (five working days).

(6) When independently obtained errors and omissions insurance status, coverage or provider changes (five working days).

e. Maintaining inadequate transaction records such as:

(1) Failing to maintain a general ledger.

(2) Failing to maintain individual account ledgers.

(3) Failing to retain records on file.

f. Improper trust account and closing procedures:

(1) Failing to deposit funds as necessary.

(2) Disbursing trust funds prior to closing without written authorization.

(3) Withholding earnest money unlawfully when the transaction fails to consummate.

(4) Failing to obtain escrow agreement for undisbursed funds.

(5) Failing to remit and account for interest on closing statements.

(6) Computing closing statements improperly.

(7) Failing to provide closing statements.

(8) Retaining excess personal funds in the trust account.

(9) Failing as a salesperson or broker associate to immediately turn funds over to the broker.

(10) Failing to deposit trust funds in interest-bearing account in accordance with Iowa Code section 543B.46.

(11) Failing to account for and remit to the state accrued interest due in accordance with Iowa Code section 543B.46.

g. Failing to immediately present offer.

h. Advertising without identifying broker or clearly indicating advertisement is by a licensee.

i. Failing to provide information to the commission when requested relative to a complaint (14 calendar days).

j. Failing to obtain all signatures needed on contracts or to obtain signatures or initials of all parties to changes in a contract.

k. Placing a sign on property without consent, or failure to remove a sign when requested.

l. Failing to furnish a progress report when requested.

m. Failing by a broker to supervise salespersons or broker associates.

n. Failing by a broker associate or salesperson to keep the employing broker informed.

o. Issuing an insufficient funds check to the commission for any reason or to anyone else in the individual's capacity as a real estate licensee.

p. Issuing an insufficient funds check on the broker's trust account.

q. Engaging in conduct which constitutes a barred practice or tying arrangement as banned by these rules.

r. Failing to inform clients of real estate brokerage firm of the date the firm will cease to be in business and the effect upon sellers' listing agreements.

s. Failing to have a brokerage agreement signed as outlined in Iowa Code section 543B.56A.

t. Violating any of the remaining provisions in 481—Chapters 2001 through 2022 that have not heretofore been specified in this rule.

2018.14(6) *Amount of civil penalties.* Factors the commission may consider when determining whether to assess and the amount of civil penalties include:

a. Whether other forms of discipline are being imposed for the same violation.

b. Whether the amount imposed will be a substantial deterrent to the violation.

c. The circumstances leading to the violation.

d. The severity of the violation and the risk of harm to the public.

e. The economic benefits gained by the licensee as a result of the violation.

f. The interest of the public.

g. Evidence of reform or remedial action.

h. Time elapsed since the violation occurred.

i. Whether the violation is a repeat offense following a prior cautionary letter, disciplinary order, or other notice of the nature of the infraction.

j. The clarity of the issues involved.

k. Whether the violation was willful and intentional.

l. Whether the licensee acted in bad faith.

m. The extent to which the licensee cooperated with the commission.

n. Whether the licensee with a lapsed, inactive, suspended, limited or revoked license improperly engaged in practices which need licensure.

[**ARC 7780C**, IAB 4/17/24, effective 5/22/24; **ARC 9250C**, IAB 5/14/25, effective 6/18/25; Editorial change: IAC Supplement 6/10/26]

481—2018.15(17A,272C,543B) Reinstatement. The term "reinstatement" as used in this rule includes both the reinstatement of a suspended license and the issuance of a new license following the revocation, voluntary revocation, or voluntary surrender of a license.

2018.15(1) Any person whose license has been revoked or suspended by the commission, or who has voluntarily surrendered a license to the commission or has agreed to a voluntary revocation of a license, may apply to the commission for reinstatement in accordance with the terms of the order of revocation, voluntary surrender, voluntary revocation, or suspension.

2018.15(2) Unless otherwise provided by law, if the order of revocation, voluntary revocation, voluntary surrender, or suspension did not establish terms upon which reinstatement might occur, initial application for reinstatement cannot be made until at least two years have elapsed from the date of the order or the date the commission accepted the order.

2018.15(3) Following the revocation or surrender of a broker or salesperson license, an applicant for reinstatement, as a condition of reinstatement, start over as an original applicant for a salesperson license, regardless of the type of license the applicant previously held. The applicant is obligated to satisfy all preconditions for licensure as a salesperson.

2018.15(4) In addition to the provisions of rule 481—506.32(272C), the following provisions apply to license reinstatement proceedings:

a. The commission may grant an applicant's request to appear informally before the commission prior to the issuance of a notice of hearing on an application to reinstate if the applicant requests an informal appearance in the application and agrees not to seek to disqualify, on the ground of personal investigation, commission members or staff before whom the applicant appears.

b. An order granting an application for reinstatement may impose such terms and conditions as the commission deems desirable, which may include one or more of the types of disciplinary sanctions described in rule 481—2018.14(272C,543B).

c. The commission cannot grant an application for reinstatement when the initial order which revoked, suspended or limited the license; denied license renewal; or accepted a voluntary surrender was based on a criminal conviction and the applicant cannot demonstrate to the commission's satisfaction that:

(1) All terms of the sentencing or other criminal order have been fully satisfied;

(2) The applicant has been released from confinement and any applicable probation or parole; and

(3) Restitution has been made or is reasonably in the process of being made to any victims of the crime.

[**ARC 7780C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

These rules are intended to implement Iowa Code chapters 17A, 272C and 543B.

[Filed 5/6/83, Notice 3/2/83—published 5/25/83, effective 7/1/83]

CHAPTER 2019
REQUIREMENTS FOR MANDATORY ERRORS AND OMISSIONS INSURANCE

[Prior to 9/4/02, see 193E—Ch 6]
[Prior to 6/10/26, see Real Estate Commission[193E] Ch 19]

Chapter rescission date pursuant to Iowa Code section 17A.7: 5/22/29

481—2019.1(543B) Insurance definitions.

"Aggregate limit" is a provision in an insurance contract limiting the maximum liability of an insurer for a series of losses in a given time period such as the policy term.

"Claims-made" means policies written under a claims-made basis will cover claims made (reported or filed) during the year the policy is in force for incidents which occur that year or during any previous period the policyholder was insured under the claims-made contract. This form of coverage is in contrast to the occurrence policy which covers today's incident regardless of when a claim is filed even if it is one or more years later.

"Extended reporting period" is a designated period of time after a claims-made policy has expired during which a claim may be made and coverage triggered as if the claim had been made during the policy period.

"Licensee" is any active individual broker, broker associate, or salesperson; any partnership; or any corporation.

"Per claim limit" means the maximum limit payable, per licensee, for damages arising out of the same error, omission, or wrongful act.

"Prior acts coverage" applies to policies on a claims-made versus occurrence basis. Prior acts coverage responds to claims which are made during a current policy period, but the act or acts causing the claim or injuries for which the claim is made occurred prior to the inception of the current policy period.

"Proof of coverage" means a copy of the actual policy of insurance, a certificate of insurance or a binder of insurance.

"Retroactive date" is a provision found in many claims-made policies. The policy will not cover claims for injuries or damages that occurred prior to the retroactive date even if the claim is first made during the policy period.

"Umbrella type coverage" means a policy that provides insurance coverage for the broker or firm and all licensees assigned.

[Editorial change: IAC Supplement 6/10/26]

481—2019.2(543B) Insurance criteria—general. The group coverage insurance policy selected by the commission is approved by the Iowa insurance division. As a condition of licensure, all active real estate licensees follow Iowa Code section 543B.47(1) regarding mandatory errors and omissions insurance.

2019.2(1) Who submits plan of coverage. The following persons submit proof of insurance when needed or when requested:

a. Any active individual broker, broker associate, broker sole proprietor or salesperson.

b. Any active firm.

2019.2(2) Inactive status. Individuals whose licenses are on inactive status as defined in Iowa Code section 543B.5(12) do not need to carry errors and omissions insurance as authorized by Iowa Code section 543B.47(1).

2019.2(3) Territory. All resident Iowa licensees are covered for activities contemplated under Iowa Code chapter 543B both in and out of the state of Iowa. Nonresident licensees participating under the state plan are not covered both in and out of the state of Iowa unless the state plan selected by the commission will cover participating nonresidents when involved in real estate activities in the nonresident state.

2019.2(4) Insurance form. Licensees may obtain errors and omissions coverage through the insurance carrier selected by the commission to provide the group policy coverage. The following are minimum criteria of the group policy to be issued to the Iowa real estate commission including, as named insureds, all licensees who have paid the necessary premium:

a. All activities contemplated under Iowa Code chapter 543B are included as covered activities;

b. A per claim limit is not less than $100,000;

c. An annual aggregate limit is not less than $100,000;

d. Limits are to apply per licensee, per claim;

e. Defense costs are to be payable in addition to damages;

f. The contract of insurance pays, on behalf of the insured person(s), liabilities owed.

2019.2(5) Contract period. The contract between the insurance carrier or program manager and the commission may be written for a one- to three-year period with the option to renew or renegotiate each year thereafter. The commission reserves the right to terminate the contract after written notice to the carrier at least 120 days prior to the end of any policy term and place the contract out for bid.

a. Policy periods are not less than 12-month policy terms.

b. The policy provides full and complete prior acts coverage.

(1) If the licensee purchased full prior acts coverage on or after July 1, 1991, that licensee continues to be guaranteed full prior acts coverage if insurance carriers are changed in the future.

(2) The retroactive date of the master policy is never later than July 1, 1991, for those that can provide proof of continuous coverage to that date.

(3) The retroactive date for each licensee is individually determined by the inception date of coverage and proof of continuous coverage to that date.

(4) The retroactive date for any new licensee who first obtains a license after July 1, 1991, is individually determined by the effective date of the license, the inception date of coverage, and proof of continuous coverage to that date.

2019.2(6) Any licensee insured in the state selected program whose license becomes inactive will not be charged an additional premium if the license is reinstated during the policy period.

2019.2(7) Any licenses issued other than at renewal and insured by the state selected program are subject to a pro-rata premium.

[**ARC 7781C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2019.3(543B) Other coverage. Licensees are not mandated to purchase insurance coverage through the group policy selected by the commission and may obtain errors and omissions coverage independently if the coverage contained in the policy complies with the following:

2019.3(1) For active individual licensees, all provisions of Iowa Code section 543B.47 apply.

If the other coverage is an individual policy, it is each licensee's responsibility to provide proof of independently carried insurance coverage to the Iowa real estate commission when needed.

2019.3(2) For all active partnerships and corporations, otherwise known as firms, all provisions of Iowa Code section 543B.47 apply.

a. If the other coverage is an individual policy covering the firm, it is the designated broker's responsibility to provide proof of the firm's independently carried insurance coverage to the Iowa real estate commission when needed.

b. If the other coverage is an umbrella type policy covering the firm and all licensees assigned that perform real estate activities, it is the responsibility of the designated broker of the firm to provide a list of licensees assigned to the firm that are covered under the firm's insurance policy to the Iowa real estate commission when needed.

2019.3(3) For sole-proprietor single license brokers, all provisions of Iowa Code section 543B.47 apply.

a. If the broker's other coverage is an individual policy, it is each licensee's responsibility to provide proof of the independently carried insurance coverage to the Iowa real estate commission when needed, as provided in subrule 2019.3(1).

b. If the other coverage is an umbrella type policy covering the broker and all licensees assigned that perform real estate activities, it is the responsibility of the broker to provide a list of licensees assigned to the broker that are covered under the broker's insurance policy to the Iowa real estate commission when needed.

2019.3(4) For independently carried individual type coverage, the following apply:

a. All activities contemplated under Iowa Code chapter 543B are included as covered activities.

b. A per claim limit is not less than $100,000.

c. The maximum deductible for an individual policy for damages and defense, each licensee, and each claim is not more than the deductible of the commission group policy for the current policy term.

2019.3(5) For firms and sole-proprietor brokerages with independently carried firm umbrella type coverage, the following apply:

a. All activities contemplated under Iowa Code chapter 543B are included as covered activities.

b. A per claim limit is not less than $100,000.

c. An aggregate limit is:

(1) Not less than $250,000 for a broker or firm with two through ten licensees;

(2) Not less than $500,000 for a broker or firm with 11 through 40 licensees;

(3) Not less than $1,000,000 for a broker or firm with 41 or more licensees.

d. There is no maximum deductible limit for firm umbrella type coverage policy.

e. If a firm size change or a sole-proprietor brokerage size change results in a higher aggregate minimum criteria, that firm or broker corrects the deficiency within one year, or the next renewal term of the insurance policy, whichever comes first.

2019.3(6) To comply with the provisions of the Iowa errors and omissions law, if other independently carried insurance is provided, as proof of errors and omissions coverage for individual or firm umbrella type coverage, the other insurance carrier agrees to either a noncancelable policy, or provides a letter of commitment to notify the Iowa real estate commission 30 days prior to the intention to cancel the policy.

2019.3(7) Whenever commission criteria, coverage, or limits change, the commission provides a reasonable transition period to allow the licensee or firm with other coverage the opportunity to change carriers or coverage to comply with all criteria and limits, providing the present policy was in effect and in compliance with all prior criteria. The licensee or firm corrects the deficiency within one year, or not later than the next renewal term of the insurance policy, whichever comes first.

2019.3(8) It is the responsibility of each individual licensee to notify the commission when changing insurance status, coverage, or provider when necessary or when requested.

2019.3(9) It is the responsibility of the designated broker of the firm to notify the commission when changing insurance status, coverage, or provider when necessary or when requested.

2019.3(10) Self-insurance does not comply with the provisions of the Iowa errors and omissions insurance law.

[**ARC 7781C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2019.4(543B) Administrative criteria—general.

2019.4(1) It is the responsibility of the insurance carrier or program manager to obtain approval from the Iowa division of insurance for the group policy before inception of the program or policy period.

2019.4(2) It is the responsibility of the insurance carrier or program manager to handle administrative duties relative to operation of the program selected by the commission, including billing and premium collection, toll-free access for questions, and claim processing and general informational mailings.

2019.4(3) It is the responsibility of the insurance carrier or program manager to send a billing notice to each licensee.

2019.4(4) It is the responsibility of the insurance carrier or program manager to collect all premiums due and verify proper payment.

A schedule of licensees who have paid the proper premium and who have coverage in force is provided electronically to the commission at agreed time intervals.

2019.4(5) It is the responsibility of the insurance carrier or program manager to issue individual certificates to each licensee and a master policy to the commission.

2019.4(6) It is the responsibility of the insurance carrier or program manager to market its program and to develop and distribute informational brochures about the coverages provided, services available and criteria of Iowa Code section 543B.47.

a. The content of any brochures or other literature provided is the responsibility of the insurance carrier or program manager.

b. Advertising materials may be reviewed by the executive officer for the commission or appropriate staff person for content only and not for a legal determination of compliance with Iowa law or division of insurance criteria.

2019.4(7) It is the responsibility of the insurance carrier or program manager to provide educational seminars in the state of Iowa at the request of the commission and subject to terms and conditions agreeable to each party involved.

[**ARC 7781C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2019.5(543B) Commission responsibilities. The commission provides the insurance carrier or program manager an electronic schedule of all active licensees approximately three months in advance of inception (or renewal), or as otherwise agreed upon, which the insurance carrier or program manager may use to issue billing notices.

2019.5(1) The insurance carrier or program manager provides the commission with a schedule of insured licensees. The commission will be responsible for comparing this schedule against its own records to determine which licensees elected not to participate in the state program and those that have failed to furnish the commission with acceptable proof of insurance necessary for continued licensure.

2019.5(2) It is the responsibility of the commission to review proof of other insurance received from licensees not participating in the state program and to confirm that the other insurance meets the minimum criteria of these rules.

2019.5(3) The commission may mandate that an approved standard form be used to submit proof of other insurance coverage for review.

[**ARC 7781C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2019.6(543B) Compliance.

2019.6(1) The commission needs receipt of proof of errors and omissions insurance from new licensees before the license is issued.

2019.6(2) The commission needs receipt of proof of errors and omissions insurance from the applicant before reinstating an expired license.

2019.6(3) The commission needs receipt of proof of errors and omissions insurance before reactivating an inactive status license to active status.

2019.6(4) Applicants for license renewal need to attest and certify that they have current errors and omissions insurance in effect that meets Iowa insurance criteria.

a. The commission will verify by random audit or on a test basis the insurance compliance attested to by the licensee.

b. Licensees participating in the state group program cannot be audited if commission records indicate the insurance carrier or program manager has submitted current proof of coverage.

c. Licensees with other insurance coverage cannot be audited if commission records indicate the current proof of coverage has been submitted.

d. The commission may randomly audit by any factor as will provide a reasonable sampling given the volume, purpose and scope of audit.

e. The commission may randomly audit as the result of any complaint filed with the commission whether or not adequate insurance coverage was questioned in the complaint.

f. The commission may audit compliance with insurance coverage at any time the commission has reasonable cause to question a licensee's compliance.

2019.6(5) A licensee is needed to carry insurance on an uninterrupted basis and cannot avoid discipline simply by acquiring insurance after receipt of an audit notice.

2019.6(6) Failure to comply with Iowa Code section 543B.47(6) within 20 calendar days of the commission's request is prima facie evidence of a violation of Iowa Code sections 543B.15(5) and 543B.47(1) and is grounds for the denial of an application for licensure, the denial of an application to renew a license, or the suspension or revocation of a license.

2019.6(7) Submitting false documentation of insurance coverage, or falsely claiming to have or attesting to having insurance coverage, is prima facie evidence of violation of Iowa Code sections 543B.29(1) and 543B.34(1).

2019.6(8) Failure to provide required proof of insurability within 30 days of written notice by the commission results in the placement of the license on inactive status. A license that has been placed on

inactive status pursuant to this provision is not reactivated until satisfactory evidence has been provided verifying that coverage is current and in full force and effect.
[**ARC 7781C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2019.7(543B) Records and retention. It is the responsibility of the licensee to maintain records which support the validity of the insurance. Documentation is retained by the licensee for a period of three years after the license renewal date or the anniversary of the license renewal date.
[**ARC 7781C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

These rules are intended to implement Iowa Code chapters 17A, 272C and 543B.

[Filed 4/26/91, Notice 3/20/91—published 5/15/92, effective 6/19/91]
[Filed 12/4/92, Notice 9/30/02—published 12/23/92, effective 1/27/93]

CHAPTER 2020
TIME-SHARE FILING

[Prior to 9/4/02, see 193E—2.8(557A)]
[Prior to 6/10/26, see Real Estate Commission[193E] Ch 20]

Chapter rescission date pursuant to Iowa Code section 17A.7: 5/22/29

481—2020.1(557A) Time-share interval filing fees. Each initial filing made pursuant to Iowa Code sections 557A.11 and 557A.12 are accompanied by a basic filing fee of $100 plus $25 for every 100 time-share intervals or fraction thereof included in the offering.

2020.1(1) A registration fee is paid with the filing of an application for registration consolidating additional time-share intervals with a prior registration and a fee of $50 plus an additional fee of $25 for every 100 time-share intervals or fraction thereof included in the offering.

2020.1(2) A fee is not charged for amendments to the property report as a result of amendments to the initial filing, unless the commission determines the amendments are made for the purpose of avoiding the payment of a fee, in which event the amendment may be treated as an application for registration consolidating additional time-share intervals with a prior registration.

This rule is intended to implement Iowa Code chapter 557A.

CHAPTER 2021
ENFORCEMENT PROCEEDINGS AGAINST UNLICENSED PERSONS
[Prior to 6/10/26, see Real Estate Commission[193E] Ch 21]

Chapter rescission date pursuant to Iowa Code section 17A.7: 5/22/29

481—2021.1(17A,543B) Civil penalties against unlicensed persons.

2021.1(1) *Commission authority.* The commission is authorized to issue a cease and desist order and to impose a civil penalty as authorized by Iowa Code section 543B.34(3) against any person who is not licensed by the commission but who acts in the capacity of a real estate broker or salesperson.

2021.1(2) *Unlicensed person.* An "unlicensed person" includes any individual or business entity that has never been licensed by the commission, has voluntarily surrendered a license issued by the commission, or has allowed a license issued by the commission to lapse and the time in which the license could have been reinstated pursuant to rule 481—2003.6(272C,543B) or 481—2004.6(272C,543B) has passed.

[**ARC 7783C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2021.2(17A,543B) Unlawful practices. Practices by unlicensed persons that are subject to civil penalties include but are not limited to:

1. Acts or practices by unlicensed persons that need licensure pursuant to Iowa Code sections 543B.1, 543B.3, 543B.6, and 543B.56A and that do not fall into the exceptions listed in Iowa Code section 543B.7.
2. Violating Iowa Code section 543B.1.
3. Violating one or more of the provisions of Iowa Code section 543B.34 as they relate to acts or practices by unlicensed persons.
4. Use or attempted use of a licensee's license or an expired, suspended, revoked, or nonexistent license.
5. Falsely impersonating a licensed real estate professional.
6. Providing false or forged evidence of any kind to the commission in obtaining or attempting to obtain a license.
7. Knowingly aiding or abetting an unlicensed person in any activity identified in this rule.

[**ARC 7783C**, IAB 4/17/24, effective 5/22/24; **ARC 9251C**, IAB 5/14/25, effective 6/18/25; Editorial change: IAC Supplement 6/10/26]

481—2021.3(17A,543B) Investigations. The commission is authorized by Iowa Code sections 17A.13(1) and 543B.34(3) to conduct such investigations as are needed to determine whether grounds exist to issue a cease and desist order and to impose civil penalties against an unlicensed person. Such investigations conform to the procedures outlined in 481—Chapter 503 and 481—Chapter 2018. Complaint and investigatory files concerning unlicensed persons are not confidential except as may be provided in Iowa Code chapter 22.

[**ARC 7783C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2021.4(17A,543B) Subpoenas. Pursuant to Iowa Code sections 17A.13(1) and 543B.34, the commission is authorized in connection with an investigation of an unlicensed person to issue subpoenas to compel persons to produce books, papers, records and any other real evidence, whether or not privileged or confidential under law, which the commission deems necessary as evidence in connection with the civil penalty proceeding or relevant to the decision of whether to initiate a civil penalty proceeding. Commission procedures concerning investigatory subpoenas are set forth in rule 481—503.5(17A,272C).

[**ARC 7783C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2021.5(17A,543B) Notice of intent to impose civil penalty. Prior to issuing a cease and desist order and imposing a civil penalty against an unlicensed person, the commission provides the unlicensed person written notice and the opportunity to request a contested case hearing. Notice of the commission's intent to issue a cease and desist order and to impose a civil penalty are served by certified mail, return receipt requested, or personal service in accordance with Iowa Rule of Civil Procedure 1.305. Alternatively, the

unlicensed person may accept service personally or through authorized counsel. The notice includes the following:

1. A statement of the legal authority and jurisdiction under which the proposed cease and desist order would be issued and the civil penalty would be imposed.
2. Reference to the particular sections of the statutes and rules involved.
3. A short, plain statement of the alleged unlawful practices.
4. The dollar amount of the proposed civil penalty and the nature of the intended order to obligate compliance with Iowa Code chapter 543B.
5. Notice of the unlicensed person's right to a hearing and the time frame in which hearing is requested.
6. The address to which written request for hearing is made.

[**ARC 7783C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2021.6(17A,543B) Requests for hearings.

2021.6(1) Unlicensed persons request a hearing within 30 days of the date the notice is received if served through certified mail, or within 30 days of the date of service if service is accepted or made in accordance with Iowa Rule of Civil Procedure 1.305. A request for hearing is in writing and is deemed made on the date of the nonmetered United States Postal Service postmark or the date of personal service.

2021.6(2) If a request for hearing is not timely made, the commission chair or the chair's designee may issue an order imposing a civil penalty and compliance with Iowa Code chapter 543B, as described in the notice. The order may be mailed by regular first-class mail or served in the same manner as the notice of intent to impose civil penalty.

2021.6(3) If a request for hearing is timely made, the commission issues a notice of hearing and conducts a contested case hearing in the same manner as applicable to disciplinary cases against licensees. Rules governing such hearings may be found in 481—Chapter 506 and 481—Chapter 2018.

2021.6(4) An unlicensed person who fails to timely request a contested case hearing has failed to exhaust "adequate administrative remedies" as that term is used in Iowa Code section 17A.19(1).

2021.6(5) An unlicensed person who is aggrieved or adversely affected by the commission's final decision following a contested case hearing may seek judicial review as provided in Iowa Code section 17A.19.

2021.6(6) An unlicensed person may waive the right to hearing and all attendant rights and enter into a consent order imposing a civil penalty and compliance with Iowa Code chapter 543B at any stage of the proceeding upon mutual consent of the commission.

2021.6(7) The notice of intent to issue an order and the order are public records available for inspection and copying in accordance with Iowa Code chapter 22. Copies may be published as provided in 481—subrule 506.31. Hearings are open to the public.

[**ARC 7783C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2021.7(17A,543B) Alternative procedure. The commission may, as an alternative to the notice and request for hearing procedures described in rules 481—2021.5(17A,543B) and 481—2021.6(17A,543B), issue a statement of charges and notice of hearing in a format similar to that used for licensee discipline.

[**ARC 7783C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2021.8(17A,543B) Factors to consider. The commission may consider the following when determining the amount of civil penalty to impose, if any:

1. Whether the amount imposed will be a substantial economic deterrent to the violation.
2. The circumstances leading to the violation.
3. The severity of the violation and the risk of harm to the public.
4. The economic benefits gained by the violator as a result of noncompliance.
5. The interest of the public.
6. The time lapsed since the unlawful practice occurred.
7. Evidence of reform or remedial actions.

8. Whether the violation is a repeat offense following a prior warning letter or other notice of the nature of the infraction.

9. Whether the violation involved an element of deception.

10. Whether the unlawful practice violated a prior order of the commission, court order, cease and desist agreement, consent order, or similar document.

11. The clarity of the issue involved.

12. Whether the violation was willful and intentional.

13. Whether the unlicensed person acted in bad faith.

14. The extent to which the unlicensed person cooperated with the commission.

[**ARC 7783C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2021.9(17A,543B) Enforcement options. In addition, or as an alternative, to the administrative process described in these rules, the commission may seek an injunction in district court, enter into a consent agreement with the unlicensed person, or issue an informal cautionary letter.

[**ARC 7783C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

These rules are intended to implement Iowa Code chapters 17A and 543B.

CHAPTER 2022
WHOLESALING OF RESIDENTIAL PROPERTY
[Prior to 6/10/26, see Real Estate Commission[193E] Ch 22]

Chapter rescission date pursuant to Iowa Code section 17A.7: 6/18/30

481—2022.1(543B) Real estate wholesaling. A licensed real estate broker may engage in residential real estate wholesaling or represent a nonlicensed wholesaler in a residential real estate transaction provided proper disclosure is made under the guidelines in Iowa Code section 543B.6A.
[**ARC 9252C**, IAB 5/14/25, effective 6/18/25; Editorial change: IAC Supplement 6/10/26]

481—2022.2(543B) Disclosure of wholesaling. A real estate wholesaler shall provide disclosure to all parties to the residential real estate wholesaling transaction prior to executing a contract to purchase or conveying an equitable interest to another party, including but not limited to the following:

2022.2(1) The legal identities of all parties to the transaction, including the current titleholder for the residential property, the wholesaler, the purchaser of the equitable interest, and any real estate licensee who represents a party in the transaction.

2022.2(2) An explanation of the wholesaling process, including but not limited to the following:

a. A wholesaler holds an equitable interest in the property, not legal title.

b. A wholesaler is selling its equitable interest in the property to another party.

c. A wholesaler may earn a profit from the sale of its equitable interest in the property.

2022.2(3) Wholesaling disclosure: "This transaction constitutes real estate wholesaling, meaning the wholesaler holds only an equitable interest in the property and may not be able to convey title."
[**ARC 9252C**, IAB 5/14/25, effective 6/18/25; Editorial change: IAC Supplement 6/10/26]

481—2022.3(543B) Penalties. Residential real estate wholesalers who do not comply with the required disclosures or licensing requirements shall be subject to a civil fine of up to $10,000 or 10 percent of the sale price for each transaction in violation of Iowa Code section 543B.6A, and the seller or buyer may cancel the contract at any time prior to closing without penalty and retain any earnest money paid by the wholesaler. Civil penalties shall be enforced at the discretion of the real estate commission.
[**ARC 9252C**, IAB 5/14/25, effective 6/18/25; Editorial change: IAC Supplement 6/10/26]

These rules are intended to implement Iowa Code section 543B.6A.

[Filed ARC 9252C (Notice ARC 8861C, IAB 2/19/25), IAB 5/14/25, effective 6/18/25]

REAL ESTATE APPRAISER EXAMINING BOARD

CHAPTER 2031
ORGANIZATION AND ADMINISTRATION

[Prior to 2/20/02, see 193F—Chapters 2, 9 and 11]
[Prior to 6/10/26, see Real Estate Appraiser Examining Board[193F] Ch 1]

Chapter rescission date pursuant to Iowa Code section 17A.7: 5/22/29

481—2031.1(543D) Description.

2031.1(1) The purpose of the real estate appraiser examining board is to administer and enforce the provisions of Iowa Code chapter 543D with regard to the appraisal of real property in the state of Iowa, examination of candidates, issuance of licenses, investigation of alleged violations by licensees, and discipline of those regulated by the board. Through its actions, the board seeks to promote and maintain a high level of public trust in professional appraisal practice.

2031.1(2) The board maintains an office at 6200 Park Avenue, Suite 100, Des Moines, Iowa 50321.

2031.1(3) All board action under Iowa Code chapter 543D will be taken under the supervision of the director, as provided in Iowa Code section 543D.23 and these implementing rules.

[**ARC 7837C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 1/22/25; Editorial change: IAC Supplement 6/10/26]

481—2031.2(543D) Administrative authority.

2031.2(1) The director is vested with authority to review, approve, modify, or reject all board action pursuant to Iowa Code chapter 543D. The director may exercise all authority conferred upon the board and has to have access to all records and information to which the board has access. In supervising the board, the director will independently evaluate the substantive merits of recommended or proposed board actions which may be anticompetitive.

2031.2(2) In performing its duties and in exercising its authority under Iowa Code chapter 543D, the board may take action without preclearance by the director if the action is ministerial or nondiscretionary. As used in this chapter, the words “ministerial or nondiscretionary” include any action expressly mandated by state or federal law, rule, or regulation; by the AQB; or by the appraisal subcommittee. The board may, for example, grant or deny an application for initial or reciprocal certification as a real estate appraiser, an application for registration as an associate real estate appraiser, or an application for a temporary practice permit by an out-of-state appraiser, on any ground expressly mandated by state or federal law, rule, or regulation; by the AQB; or by the appraisal subcommittee.

2031.2(3) Prior to taking discretionary action under Iowa Code chapter 543D, the board will secure approval of the director if the proposed action is or may be anticompetitive. As used in this chapter, the word “discretionary” includes any action that is authorized but not expressly imposed by state or federal law, rule, or regulation; by the AQB; or by the appraisal subcommittee. Examples of discretionary action include orders in response to petitions for rulemaking, declaratory orders, or waivers from rules, rulemaking, disciplinary proceedings against licensees, administrative proceedings against unlicensed persons, or any action commenced in the district court.

2031.2(4) Determining whether any particular action is or may be anticompetitive is necessarily a fact-based inquiry dependent on a number of factors, including potential impact on the market or restraint of trade. With respect to disciplinary actions, for instance, a proceeding against a single licensee for violating appraisal standards would not have an impact on the broader market and would accordingly not be an anticompetitive action. Commencement of disciplinary proceedings which affect all or a substantial subset of appraisers may have a significant market impact. When in doubt as to whether a proposed discretionary action is or may be anticompetitive, the board may submit the proposed action to the director for preclearance.

2031.2(5) A person aggrieved by any final action of the board taken under Iowa Code chapter 543D may appeal that action to the director within 20 days of the date the board issues the action.

a. The appeal process applies whether the board action at issue was ministerial or nondiscretionary, or discretionary, and whether the proposed action was or was not submitted through a preclearance process before the director.

b. No person aggrieved by a final action of the board may seek judicial review of that action without first appealing the action to the director.

c. Records, filings, and requests for public information. Final board action, regardless of whether such board action is ministerial, nondiscretionary, or discretionary, will be immediately effective when issued by the board but is subject to review or appeal to the director. If a timely review is initiated or a timely appeal is taken, the effectiveness of such final board action will be delayed during the pendency of such review or appeal.

[**ARC 7837C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2031.3(543D) Annual meeting. The annual meeting of the board will be the first meeting scheduled after April 30. At this time, the chairperson and vice chairperson are elected to serve until their successors are elected.

[**ARC 7837C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2031.4(543D) Other meetings. In addition to the annual meeting, and in addition to other meetings, the time and place of which may be fixed by resolution of the board, any meeting may be called by the chairperson of the board or by joint call of a majority of its members.

[**ARC 7837C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2031.5(543D) Executive officer's duties.

2031.5(1) The executive officer is to cause complete records to be kept of applications for examination and registration, certificates and permits granted, and all necessary information in regard thereto.

2031.5(2) The executive officer is to determine when the legal obligations for certification and registration have been satisfied with regard to issuance of certificates or registrations, and the executive officer will submit to the board any questionable application.

2031.5(3) The executive officer will keep accurate minutes of the meetings of the board. The executive officer will keep a list of the names of persons issued certificates as certified general real property appraisers, certified residential real property appraisers and associate real property appraisers.

[**ARC 7837C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2031.6(543D) Records, filings, and requests for public information. Rescinded by 2026 Iowa Acts, Senate File 2463, section 4, effective July 1, 2026.

481—2031.7(543D) Adoption, amendment or repeal of administrative rules. Rescinded by 2026 Iowa Acts, Senate File 2463, section 4, effective July 1, 2026.

481—2031.8(543D) Types of appraiser classifications. There are four types of appraiser classifications:

1. Associate residential real property appraiser. This classification consists of those persons who meet the obligations of 481—Chapter 2034.
2. Associate general property appraiser. This classification consists of those persons who meet the obligations of 481—Chapter 2034.
3. Certified residential real property appraiser. This classification consists of those persons who meet the obligations of 481—Chapter 2035.
4. Certified general real property appraiser. This classification consists of those persons who meet the obligations of 481—Chapter 2035.

[**ARC 7837C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2031.9(543D) Qualified state appraiser certifying agency.

2031.9(1) The real estate appraiser examining board is a state appraiser certifying agency in compliance with Title XI of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989

(FIRREA). As a result, persons who are issued certificates by the board to practice as certified real estate appraisers are authorized under federal law to perform appraisal services for federally related transactions and are identified as such in the National Registry maintained by the Appraisal Subcommittee (ASC).

2031.9(2) The board will adhere to the criteria established by the Appraiser Qualifications Board (AQB) of the Appraisal Foundation when registering associate appraisers or certifying certified appraisers under Iowa Code chapter 543D. To the extent that the rules conflict with the minimum obligations outlined in the current version of the AQB criteria, the minimum standards established in the criteria will apply and these rules will give way to the minimum obligations to comply with federal rule, law, or policy.

[**ARC 7837C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2031.10(543D) AQB criteria.

2031.10(1) No person may be certified as a certified appraiser unless the person is eligible under the January 1, 2026, AQB criteria.

2031.10(2) The January 1, 2026, AQB criteria outline the conditions under which applicants for certification are eligible to take the mandated examinations.

[**ARC 7837C**, IAB 4/17/24, effective 5/22/24; **ARC 0078D**, IAB 2/18/26, effective 3/25/26; Editorial change: IAC Supplement 6/10/26]

These rules are intended to implement Iowa Code sections 543D.4, 543D.5, 543D.7, 543D.17, 543D.20 and 543D.22 and chapter 272C.

CHAPTER 2032
DEFINITIONS

[Prior to 2/20/02, see 193F—Chapter 1]
[Prior to 6/10/26, see Real Estate Appraiser Examining Board[193F] Ch 2]

Chapter rescission date pursuant to Iowa Code section 17A.7: 5/22/29

481—2032.1(543D) Applicability. The following definitions apply to the rules of the real estate appraiser examining board:

"Appraisal Foundation" means the same as defined in Iowa Code section 543D.2(3).

"Appraisal subcommittee" means the appraisal subcommittee of the Federal Financial Institutions Examination Council.

"AQB" means the Appraiser Qualifications Board of the Appraisal Foundation.

"AQB Criteria" or *"the Criteria"* means the Real Property Appraiser Qualification Criteria and Interpretations of the Criteria, effective as of January 1, 2026.

"ASB" means the Appraisal Standards Board of the Appraisal Foundation.

"Associate real property appraiser" means the same as defined in Iowa Code section 543D.2(6).

"Certified appraiser" means an individual who has been certified in one of the following two classifications:

1. The certified residential real property appraiser classification is qualified to appraise one to four residential units without regard to value or complexity.
2. The certified general real property appraiser classification is qualified to appraise all types of real property.

"Director" means the same as defined in Iowa Code section 543D.2(9)*"a."*

"FFIEC" means the Federal Financial Institutions Examination Council.

"FIRREA" means the Financial Institutions Reform Recovery and Enforcement Act of 1989.

"USPAP" means the Uniform Standards of Professional Appraisal Practice published by the Appraisal Foundation, effective as of January 1, 2024.

This rule is intended to implement Iowa Code section 543D.2.

[**ARC 7838C**, IAB 4/17/24, effective 5/22/24; **ARC 0079D**, IAB 2/18/26, effective 3/25/26; Editorial change: IAC Supplement 6/10/26]

CHAPTER 2033
GENERAL PROVISIONS FOR EXAMINATIONS
[Prior to 6/10/26, see Real Estate Appraiser Examining Board[193F] Ch 3]

Chapter rescission date pursuant to Iowa Code section 17A.7: 5/22/29

481—2033.1(543D) Examinations. Applicants for a license from the board need to take the examination from the board-approved testing service.

[**ARC 7839C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2033.2(543D) Conduct of applicant.

2033.2(1) Any individual who subverts or attempts to subvert the examination process may, at the discretion of the board, have the individual's examination scores declared invalid for the purpose of certification in Iowa, be barred from the appraisal certification examinations in Iowa, or be subject to the imposition of other sanctions that the board deems appropriate.

2033.2(2) Conduct that subverts or attempts to subvert the examination process includes, but is not limited to:

a. Conduct that violates the security of the examination materials, such as removing from the examination room any of the examination materials; reproducing or reconstructing any portion of the examination; aiding by any means in the reproduction or reconstruction of any portion of the examination; selling, distributing, buying, receiving, or having unauthorized possession of any portion of a future, current, or previously administered examination.

b. Conduct that violates the standard of test administration, such as communicating with any other examination candidate during the administration of the examination; copying answers from another candidate or permitting one's answers to be copied by another candidate during the examination; or referencing any books, notes, written or printed materials or data of any kind, other than the examination materials distributed.

c. Conduct that violates the examination process, such as falsifying or misrepresenting educational credentials or other information needed for admission to the examination; impersonating an examination candidate or having an impersonator take the examination on one's behalf.

2033.2(3) Any examination candidate who challenges a decision of the board under this rule may request a contested case hearing. The request for hearing will be in writing, will briefly describe the basis for the challenge, and will be filed in the board's office within 30 days of the date of the board decision that is being challenged.

[**ARC 7839C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2033.3(543D) Application for certification or registration. Applicants for certification or registration have to successfully complete the appropriate examination.

2033.3(1) All initial applications for certification or associate registration will be made through the board's online system. The board may deny an application as described in Iowa Code sections 543D.12 and 543D.17. The board may also deny an application based on disciplinary action pending or taken against an applicant consistent with Iowa Code section 272C.12.

2033.3(2) Reserved.

[**ARC 7839C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

These rules are intended to implement Iowa Code section 543D.8.

CHAPTER 2034
ASSOCIATE REAL ESTATE APPRAISER
[Prior to 2/20/02, see rule 193F—3.6(543D)]
[Prior to 6/10/26, see Real Estate Appraiser Examining Board[193F] Ch 4]

Chapter rescission date pursuant to Iowa Code section 17A.7: 5/22/29

481—2034.1(543D) Qualifications to register as an associate appraiser.

2034.1(1) *Education.* A person applying for registration as an associate appraiser will, at a minimum, satisfactorily complete all AQB-approved, qualifying education courses needed under the AQB criteria specifying educational standards applicable for registration as an associate appraiser.

2034.1(2) *Background check.* A state and national criminal history check will be performed on any new associate appraiser applicant. The applicant will authorize release of the results of the criminal history check to the board. If the criminal history check was not completed within 180 calendar days prior to the date the license application is received by the board, the board may perform a new state and national criminal history check or may reject and return the application to the applicant.

2034.1(3) *Application process.* After completing the AQB associate appraiser obligations, a person applying as an associate appraiser can then access the application through the board's online system. A sufficient application within the meaning of Iowa Code section 17A.18(2) will include all information as outlined in the board's online system and be accompanied by the applicable fee.

2034.1(4) *Registration denial.* The board may deny an application for registration as an associate appraiser on any ground identified in 481—subrule 2033.4(1) or on any ground upon which the board may impose discipline against an associate appraiser, as provided in 481—Chapter 2036.

[**ARC 7840C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2034.2(543D) Supervision of associate appraisers.

2034.2(1) *Direct supervision.* An associate appraiser is subject to the direct supervision obligations set by the AQB criteria.

2034.2(2) *Supervisor registration.* An associate appraiser, other than a PAREA associate, will identify all supervisors by whom the associate will be supervised through the board's online system and will promptly notify the board in the event of any change in supervisors. An associate appraiser, other than a PAREA associate, who does not have at least one approved active supervisor meeting the supervision obligations will be placed in inactive status until such time as the associate finds a supervisor. Associate appraisers wishing to maintain an inactive license have to continue to renew on a biennial basis in accordance with rule 481— 2034.3(543D).

2034.2(3) *Scope of practice.* The scope of practice for an associate appraiser is set by the AQB criteria.

2034.2(4) *Logs.* An associate appraiser will maintain an appraisal experience log consistent with the AQB criteria.

[**ARC 7840C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2034.3(543D) Renewal of associate appraiser registration. An associate appraiser registration has to be renewed on a biennial basis as more fully described in 481—Chapter 2038. An associate appraiser is subject to the same continuing education obligations applicable to a certified appraiser as a precondition for renewal. Continuing education obligations are outlined in 481—Chapter 2040.

[**ARC 7840C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2034.4(543D) Progress toward certification as a certified residential appraiser or certified general appraiser.

2034.4(1) *Associate classification.* The associate appraiser classification is intended for those persons training to become certified appraisers and is not intended as a long-term method of performing appraisal services under the supervision of a certified appraiser in the absence of progress toward certification. As

a result, the board may impose deadlines for achieving certification, or for satisfying certain prerequisites toward certification.

2034.4(2) *Progress reports.* In order to assess an associate appraiser's progress toward certification, the board may request periodic progress reports from the associate appraiser and from the associate appraiser's supervisory appraiser or appraisers.

[**ARC 7840C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2034.5(543D) Applying for certification as a certified residential appraiser or certified general appraiser. An associate appraiser may apply for certification as a certified residential real estate appraiser or as a certified general real estate appraiser as set by the AQB criteria and consistent with Iowa Code chapter 543D and the rules of the board.

[**ARC 7840C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2034.6(272C,543D) Reinstating or reactivating an associate registration.

2034.6(1) In order to reinstate or reactivate an associate registration that has lapsed or been placed in inactive or retired status, the applicant has to complete all continuing education obligations for reinstatement as required by board rule and the AQB criteria. Any qualifying education course taken under this rule as continuing education will also apply as qualifying education toward certification. If the applicant has completed all qualifying education prior to applying to reinstate a lapsed, retired, or inactive associate registration, the applicant may use any approved continuing education course as required by board rule and the AQB criteria.

2034.6(2) If an appraiser's registration is placed in inactive status as a result of the appraiser's failure to maintain at least one approved active supervisor meeting the obligations of this chapter pursuant to subrule 2034.2(2), the applicant will complete the continuing education in accordance with subrule 2034.6(1) in order to reinstate the associate registration but is not obligated to pay any reinstatement fee otherwise due so long as the associate has not renewed the registration to inactive status or allowed the registration to lapse prior to reinstating or reactivating the registration.

[**ARC 7840C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2034.7(543D) Supervisory appraiser requirements. Iowa follows the AQB criteria and USPAP concerning supervisory appraiser requirements.

[**ARC 7840C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

These rules are intended to implement Iowa Code chapters 543D and 272C.

CHAPTER 2035
CERTIFIED REAL ESTATE APPRAISER

[Prior to 4/17/24, see 193F—Chapter 6]
[Prior to 6/10/26, see Real Estate Appraiser Examining Board[193F] Ch 5]

Chapter rescission date pursuant to Iowa Code section 17A.7: 5/22/29

481—2035.1(543D) General.

2035.1(1) Iowa Code chapter 543D regulates appraisal services performed in this state when appraiser certification is needed under federal law. Iowa recognizes two types of certification: certified residential real estate appraiser and certified general real estate appraiser. Iowa does not provide licenses for the "licensed real estate appraiser" category recognized under federal law. More information can be found in 12 CFR Section 34.43. Therefore, appraisal services involving federally related transactions in the state have to be performed by an Iowa certified real estate appraiser with the appropriate certification for the property at issue, or by a person holding an appropriate license or certification from a foreign jurisdiction who also has been issued a temporary practice permit under Iowa Code section 543D.11(2).

2035.1(2) The chart below outlines the differences between two certifications issued by the board.

	Certified Residential Real Estate Appraiser	**Certified General Real Estate Appraiser**
Property type that can be appraised	Residential units ranging from one to four tenants	All real estate, including commercial and agricultural
Qualifying education core curriculum	200 hours	300 hours
Qualifying education	Bachelor's degree or higher from an accredited college, junior college, community college, or university; or, an associate's degree in specific fields, 30 semester hours of college-level course working in specific areas, 30 semester hours of CLEP examinations, or any combination CLEP/college-level covering appropriate hours and topics	Bachelor's degree or higher from an accredited college, junior college, community college, or university
Experience	1,500 hours accumulated in no less than 12 months	3,000 hours with a minimum of 1,500 hours general accumulated in no less than 18 months
Examination	Certified residential real property appraiser examination or the certified general real property appraiser examination	Certified general real property appraiser examination

2035.1(3) All appraisers performing services regulated by the board are obligated to comply with USPAP.

[**ARC 7842C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2035.2(543D) Education. Applicants for certification by the board have to meet the educational obligations of the AQB criteria.

[**ARC 7842C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2035.3(543D) Examination. The prerequisites for taking the AQB-approved examination are collegiate education, experience, work product review, and completion of all creditable course hours as specified in this chapter. The core criteria hours, collegiate education, and all experience have to be completed as specified in this chapter. Equivalency will be determined in accordance with the AQB. USPAP qualifying education will be awarded only when the class is instructed by at least one AQB-certified USPAP instructor who holds a state-issued certified appraiser credential in active status and good standing.

2035.3(1) In order to qualify to sit for the appropriate certified real estate appraiser examination, the applicant has to complete the board's application form and provide copies of documentation of completion of all courses claimed that qualify the applicant to sit for the examination.

a. A sufficient application within the meaning of Iowa Code section 17A.18(2) has to:

(1) Be through the board's online system;

(2) Be signed by the applicant, be certified as accurate, or display an electronic signature by the applicant if submitted electronically;

(3) Be fully completed;

(4) Reflect, on its face, full compliance with all applicable continuing education obligations; and

(5) Be accompanied by the fee specified in 481—Chapter 2041.

b. The core criteria, collegiate education, experience, and work product review have to be completed and documentation submitted to the board at the time of application to sit for the examination.

2035.3(2) The board may verify educational credits claimed. Undocumented credits will be sufficient cause to invalidate the examination results.

2035.3(3) Responsibility for documenting the educational credits claimed rests with the applicant.

2035.3(4) An applicant has to supply a true and accurate copy of the original examination scores when applying for certification.

2035.3(5) If an applicant who has passed an examination does not obtain the related appraiser credential within 24 months after passing the examination, that examination result loses its validity to support issuance of an appraiser credential. To regain eligibility for the credential, the applicant has to retake and pass the examination. This obligation applies to individuals obtaining an initial certified credential or upgrading from an associate credential.

[**ARC 7842C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2035.4(543D) Supervised experience needed for initial certification. Except as otherwise permitted herein, all experience needed to obtain certification has to be obtained consistent with Iowa Code section 543D.9.

2035.4(1) *Acceptable experience.* The board will accept as qualifying experience the documented experience attained while the applicant for initial certification was in an educational program recognized by the Appraiser Qualifications Board and Appraisal Subcommittee as providing qualifying experience for certification, whether or not the applicant was registered as an associate real estate appraiser at the time the educational program was completed. Such programs approved by federal authorities (e.g., practical applications of real estate appraisal (PAREA)) will incorporate direct supervision by a certified real estate appraiser and such additional program features as to satisfy the purpose of requiring that qualifying experience be attained by the applicant as a real estate appraiser.

2035.4(2) *Exceptions.* Applicants for certified real estate appraiser certification in Iowa may utilize experience obtained in the absence of registration as an associate real estate appraiser under the following circumstances:

a. Subject to any obligations or limitations established by applicable federal authorities, including the AQB and appraisal subcommittee (ASC), or applicable federal law, rule, or policy, hours qualifying for experience in any jurisdiction will be considered qualifying hours for experience in Iowa without board approval or authorization, as long as the applicant is able to establish by clear and convincing evidence all of the following:

(1) The qualifying hours obtained were completed in another jurisdiction under the direct supervision of an appropriate active certified real estate appraiser in that jurisdiction in accordance with the AQB and the jurisdiction's laws, rules, or policies.

(2) The nature of the experience attained in another jurisdiction is qualitatively and substantially equivalent to the experience an associate real estate appraiser would receive under the direct supervision of a certified real estate appraiser in this state.

b. Reserved.

[**ARC 7842C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2035.5(543D) Demonstration of experience. The board applies the dictates of Iowa Code section 543D.9 and the AQB criteria in determining whether the experience necessary for certification has been met.

2035.5(1) An applicant is obligated to appear before the board to supplement or verify evidence of experience.

2035.5(2) The board may inspect documentation relating to an applicant's claimed experience.

[**ARC 7842C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2035.6(543D) Work product review.

2035.6(1) An applicant will submit a complete appraisal log at the time of application for examination and experience consistent with the AQB criteria. Three appraisal reports will be selected by the board from the log. The applicant will submit electronically one copy of each report and work file for each of the selected appraisals along with the appropriate fee. The work product submission will not be redacted by the applicant. The board reserves the right to request additional appraisals if those submitted by the applicant raise issues concerning the applicant's competency or compliance with applicable appraisal standards or the degree to which the submitted appraisals are representative of the applicant's work product.

2035.6(2) The board will treat all appraisals received as confidential pursuant to USPAP. While applicants are encouraged to submit appraisals actually performed for clients, applicants may submit demonstration appraisals if based on factual information and clearly marked as demonstration appraisals.

2035.6(3) An applicant seeking original certification as a certified general real estate appraiser will submit one residential appraisal and two nonresidential appraisals for review. An applicant seeking an upgrade certification to a certified general real estate appraiser will submit two nonresidential appraisals for review.

2035.6(4) The board will submit the appraisals to a peer review consultant for an opinion on the appraiser's compliance with applicable appraisal standards.

2035.6(5) The work product review process is not intended as an endorsement of an applicant's work product. No applicant or appraiser will represent the results of work product review in communications with a client or in marketing to potential clients in a manner that falsely portrays the board's work product review as an endorsement of the appraiser or the appraiser's work product. Failure to comply may be grounds for discipline.

2035.6(6) The board views work product review, in part, as an educational process. While the board may deny an application based on an applicant's failure to adhere to appraisal standards or otherwise demonstrate a level of competency upon which the public interest can be protected, the board will attempt to work with applicants deemed in need of assistance to arrive at a mutually agreeable remedial plan. A remedial plan may include additional education, desk review, a mentoring program, or additional precertification experience.

2035.6(7) An applicant who is denied certification based on the work product review described in this rule, or on any other ground, will be entitled to a contested case hearing. Notice of denial will specify the grounds for denial, which may include any of the work performance-related grounds for discipline against a certified appraiser.

2035.6(8) If probable cause exists, the board may open a disciplinary investigation based on the work product review of an applicant. A potential disciplinary action could arise, for example, if the applicant is a certified residential real estate appraiser seeking an upgrade to a certified general real estate appraiser, or where the applicant is uncertified and is working under the supervision of a certified real estate appraiser who cosigned the appraisal report.

2035.6(9) After accumulating a minimum of 500 hours of appraisal experience, an applicant may voluntarily submit work product to the board to be reviewed by a peer reviewer for educational purposes only. A maximum of three reports may be submitted for review during the experience portion of the certification process. Work product submitted for educational purposes only will not result in disciplinary action on either the associate appraiser or the associate appraiser's supervisor so long as the appraisal review did not reveal negligent or egregious errors or omissions. The fee for voluntary submissions of work product for review is provided in 481—Chapter 2041.

2035.6(10) The board will retain the appraisals for as long as needed as documentation of the board's actions for the Appraisal Subcommittee or as needed in a pending proceeding involving the work product of the applicant or the applicant's supervisor. When no longer needed for such purposes, the work product may be retained or destroyed at the board's discretion.

[**ARC 7842C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2035.7(543D) PAREA. PAREA utilizes simulated experience training and serves as an alternative to the traditional supervisor/trainee experience model. PAREA programs have to be AQB-approved and meet all the applicable AQB criteria. An applicant who meets the prerequisites of a PAREA program prior to commencement of training and who receives a valid certificate of completion from an AQB-approved PAREA program, has met the allotted experience obligations as outlined in the AQB criteria for that specific PAREA program. PAREA program experience allotment will be awarded per the AQB criteria at the time of program completion.

Applicants claiming PAREA experience credit are not allowed partial credit for PAREA training (rules 481—2035.1(543D) through 481—2035.7(543D)).

[**ARC 7842C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2035.8(543D) Upgrade from a certified residential real estate appraiser to a certified general real estate appraiser. To upgrade from a certified residential real estate appraiser to a certified general real estate appraiser, an applicant has to satisfy all obligations of this rule, which include work product review and a state and national criminal history check as provided in Iowa Code section 543D.22.

2035.8(1) *Education.*

a. Collegiate education. Certified residential real estate appraisers have to satisfy the college-level education obligations of the AQB.

b. Core criteria. In addition to the formal education and core criteria educational obligations originally needed to obtain a certified residential credential, an applicant has to meet the current AQB obligations before taking the AQB-approved examination.

2035.8(2) *Examination.* An applicant has to satisfy the examination obligations.

2035.8(3) *Supervision and experience.*

a. Experience. An applicant has to satisfy all of the experience obligations while in active status and in accordance with AQB criteria.

b. Supervision. Subject to applicable exceptions, all nonresidential experience obtained and applied toward obtaining a certified general credential as part of the upgrade process will be performed under the tutelage of a certified general real property appraiser, subject to AQB-required coursework.

[**ARC 7842C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

These rules are intended to implement Iowa Code sections 543D.5, 543D.8, 543D.9, and 543D.22.

[Filed ARC 7842C (Notice ARC 7262C, IAB 1/24/24), IAB 4/17/24, effective 5/22/24]

[Editorial change: IAC Supplement 6/10/26]

CHAPTER 2036
DISCIPLINARY ACTIONS AGAINST CERTIFIED AND ASSOCIATE APPRAISERS

[Prior to 4/17/24, see 193F—Chapter 7]
[Prior to 6/10/26, see Real Estate Appraiser Examining Board[193F] Ch 6]

Chapter rescission date pursuant to Iowa Code section 17A.7: 5/22/29

481—2036.1(17A,272C,543D) Disciplinary authority. The board is empowered to regulate the real estate appraiser profession for the protection and well-being of the public trust. To perform these functions, the board is broadly vested with authority to review and investigate alleged acts or omissions of applicants and licensees and to address disciplinary concerns under Iowa law.
[**ARC 7843C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2036.2(543D) Standards of practice. All registered associate appraisers and certified real estate appraisers will comply with the USPAP edition applicable to each appraisal assignment.
[**ARC 7843C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2036.3(17A,272C,543D) Grounds for discipline. The board may initiate disciplinary action against a registered associate appraiser or a certified real estate appraiser based on any one or more of the following grounds:

2036.3(1) *Code violations.* Any violation of an Iowa Code provision that authorizes imposition of licensee sanctions:

a. False representation of a material fact, whether by word or by conduct, by false or misleading allegation, or by concealment of that which should have been disclosed;

b. Attempting to file or filing with the board any false or forged diploma, course certificate, identification, credential, license, registration, certification, examination report, affidavit, or other record;

c. Failing or refusing to provide complete information in response to a question on an application for initial or renewal registration or certification; or

d. Otherwise participating in any form of fraud or misrepresentation by act or omission.

2036.3(2) *Professional incompetence.* Professional incompetence includes, but is not limited to:

a. A substantial lack of knowledge or ability to discharge professional obligations within the scope of practice.

b. A substantial deviation from the standards of learning or skill ordinarily possessed and applied by other practitioners in the state of Iowa acting in the same or similar circumstances.

c. A failure to exercise the degree of care that is ordinarily exercised by the average practitioner acting in the same or similar circumstances.

d. Failure to conform to the minimal standards of acceptable and prevailing practice of registered associate appraisers or certified real property appraisers in this state.

e. A willful, repeated, or material deviation from USPAP standards, or other act or omission that demonstrates an inability to safely practice in a manner protective of the public's interest, including any violation of USPAP's competency rule.

2036.3(3) *Deceptive practices.* Deceptive practices are grounds for discipline, whether or not actual injury is established, and include but are not limited to:

a. Knowingly making misleading, deceptive, untrue or fraudulent representations in the practice of real property appraising.

b. Use of untruthful or improbable statements in advertisements. Use of untruthful or improbable statements in advertisements includes, but is not limited to, an action by a registrant or certificate holder in making information or intention known to the public that is false, deceptive, misleading or promoted through fraud or misrepresentation.

c. Falsification of business records or appraisal logs through false or deceptive representations or omissions.

d. Submission of false or misleading reports or information to the board including information supplied in an audit of continuing education, reports submitted as a condition of probation, or any reports identified in this rule.

e. Making any false or misleading statement in support of an application for registration or certification submitted by another.

f. Knowingly presenting as one's own a certificate or registration, certificate or registration number, or signature of another or of a fictitious registrant or certificate holder, or otherwise falsely impersonating a certified appraiser or registered associate appraiser.

g. Representing oneself as a registered associate appraiser or certified appraiser when one's registration or certificate has been suspended, revoked, surrendered, or placed on inactive or retired status, or has lapsed.

h. Permitting another person to use the registrant's or certificate holder's registration or certificate for any purposes.

i. Fraud in representations as to skill or ability.

j. Misrepresenting a specialized service as an appraisal assignment in violation of Iowa Code section 543D.18(3) or (5).

2036.3(4) *Unethical, harmful or detrimental conduct.* Registrants and certificate holders engaging in unethical conduct or practices harmful or detrimental to the public may be disciplined whether or not injury is established. Behaviors and conduct that are unethical, harmful or detrimental to the public may include, but are not limited to, the following actions:

a. Verbal or physical abuse, improper sexual contact, or making suggestive, lewd, lascivious, offensive or improper remarks or advances, if such behavior occurs within the practice of real property appraising or if such behavior otherwise provides a reasonable basis for the board to conclude that such behavior within the practice of real estate appraising would place the public at risk.

b. Engaging in a professional conflict of interest, or otherwise violating the public trust, as provided in USPAP's ethics rule.

c. Aiding or abetting any unlawful activity for which a civil penalty can be imposed under rule 481—2042.2(543D).

2036.3(5) *Lack of proper qualifications.*

a. Continuing to practice as a registered associate appraiser or certified real property appraiser without satisfying the continuing education for registration or certificate renewal.

b. Acting as a supervisor without proper qualification, as provided in rule 481—2034.7(543D).

c. Habitual intoxication or addiction to the use of drugs, or impairment that adversely affects the registrant's or certificate holder's ability to practice in a safe and competent manner.

d. Any act, conduct, or condition, including lack of education or experience and careless or intentional acts or omissions, that demonstrates a lack of qualifications that are necessary to ensure a high standard of professional care as provided in Iowa Code section 272C.3(2)*"b,"* or that impairs a practitioner's ability to safely and skillfully practice the profession.

e. Failure to meet the minimum qualifications for registration as an associate appraiser or certification as a certified real property appraiser.

f. Practicing outside the scope of a certification, or outside the scope of a supervisor's certification.

2036.3(6) *Negligence by the registrant or certificate holder in the practice of the profession.* Negligence by the registrant or certificate holder in the practice of the profession includes but is not limited to:

a. A failure to exercise due care including negligent delegation of duties to or supervision of associate appraisers, or other employees, agents, or persons, in developing an appraisal, preparing an appraisal report, or communicating an appraisal, whether or not injury results.

b. Neglect of contractual or other duties to a client.

2036.3(7) *Professional misconduct.*

a. Violation of a regulation or law of this state, another state, or the United States, which relates to the practice of real estate appraising.

b. Engaging in any conduct that subverts or attempts to subvert a board investigation.

c. Revocation, suspension, or other disciplinary action taken by a licensing authority of this state or another state, territory, or country. A stay by an appellate court will not negate this obligation; however, if such disciplinary action is overturned or reversed by a court of last resort, discipline by the board based solely on such action will be vacated.

d. A violation of Iowa Code section 543D.18.

e. A violation of Iowa Code section 543D.20 (limitations on persons assisting in the development or reporting of a certified appraisal).

f. Failure to retain records as provided in Iowa Code section 543D.19.

g. Violation of the terms of an initial agreement with the impaired practitioner review committee or violation of the terms of an impaired practitioner recovery contract with the impaired practitioner review committee.

2036.3(8) *Willful or repeated violations.* The willful or repeated violation or disregard of any provision of Iowa Code chapter 272C or 543D, or any administrative rule adopted by the board in the administration or enforcement of such chapters.

2036.3(9) *Failure to report.*

a. Failure by a registrant or certificate holder or an applicant for a registration or certificate to report in writing to the board any revocation, suspension, or other disciplinary action taken by a licensing authority, in Iowa or any other jurisdiction, within 30 calendar days of the final action.

b. Failure of a registrant or certificate holder or an applicant for a registration or certificate to report, within 30 calendar days of the action, any voluntary surrender of a professional license to resolve a pending disciplinary investigation or action, in Iowa or any other jurisdiction.

c. Failure to notify the board of a criminal conviction within 30 calendar days of the action, regardless of the jurisdiction where it occurred.

d. Failure to notify the board within 30 calendar days after occurrence of any adverse judgment in a professional or occupational malpractice action, or settlement of any claim involving malpractice, regardless of the jurisdiction where it occurred.

e. Failure to report another registrant or certificate holder to the board for any violation listed in these rules, pursuant to Iowa Code section 272C.9(2), promptly after the registrant or certificate holder becomes aware that a reportable violation has occurred.

f. Failure to report to the board the appraiser's principal place of business and any change in the appraiser's principal place of business within 30 calendar days of such change.

g. Failure of an associate appraiser or supervisor to timely respond to board requests for information, as provided in 481—Chapter 2034.

2036.3(10) *Failure to comply with board order.* Failure to comply with the terms of a board order or the terms of a settlement agreement or consent order, or other decision of the board imposing discipline.

2036.3(11) *Conviction of a crime.*

a. Conviction, in this state or any other jurisdiction, of any felony offense that directly relates to the profession, or of any crime that is substantially related to the qualifications, functions, duties or practice of a person developing or communicating real estate appraisals to others. Any crime involving deception, dishonesty or disregard for the safety of others will be deemed directly related to the practice of real property appraising. A certified copy of the final order or judgment of conviction or plea of guilty in this state or in another jurisdiction will be conclusive evidence of the conviction. "Conviction" includes any plea of guilty or nolo contendere, including Alford pleas, or finding of guilt whether or not judgment or sentence is deferred, withheld, or not entered, and whether or not the conviction is on appeal. If such conviction is overturned or reversed by a court of last resort, discipline by the board based solely on the conviction will be vacated. A conviction qualifies as a felony offense if the offense is designated as a felony in the jurisdiction in which the conviction occurred, or if the offense is committed in this state, the offense would be a felony, without regard to its designation elsewhere. An offense directly relates to the profession if either:

(1) The actions taken in furtherance of an offense are actions customarily performed within the scope of practice of the profession, or

(2) The circumstances under which an offense was committed are circumstances customary to the profession.

b. Notwithstanding the foregoing, a conviction may be grounds for revocation or suspension only if an unreasonable risk to public safety exists because the offense directly relates to the duties and responsibilities of the profession.

[**ARC 7843C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

These rules are intended to implement Iowa Code chapters 17A, 272C and 543D and 2007 Iowa Acts, Senate File 137.

[Filed ARC 7843C (Notice ARC 7263C, IAB 1/24/24), IAB 4/17/24, effective 5/22/24]
[Editorial change: IAC Supplement 6/10/26]

CHAPTER 2037
INVESTIGATIONS AND DISCIPLINARY PROCEDURES

[Prior to 4/17/24, see 193F—Chapter 8]
[Prior to 6/10/26, see Real Estate Appraiser Examining Board[193F] Ch 7]

Chapter rescission date pursuant to Iowa Code section 17A.7: 5/22/29

481—2037.1(272C,543D) Disciplinary action. The real estate appraiser examining board has authority under applicable law to impose discipline for violations of law.
[**ARC 7844C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2037.2(17A,272C,543D) Initiation of disciplinary investigations. The board may initiate a licensee disciplinary investigation upon the board's receipt of information suggesting that a licensee may have violated the licensee's legal obligations under the Iowa Code or board rule.
[**ARC 7844C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2037.3(17A,272C,543D) Conflict of interest. If the subject of a complaint is a member of the board, or if a member of the board has a conflict of interest in any disciplinary matter before the board, that member will abstain from participation in any consideration of the complaint and from participation in any disciplinary hearing that may result from the complaint.
[**ARC 7844C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2037.4(272C,543D) Complaints. Written complaints need to be submitted to the board through the board's online system. The board may also initiate its own complaints.

2037.4(1) *Role of complainant.* The role of the complainant in the disciplinary process is limited to providing the board with factual information relative to the complaint. A complainant is not party to any disciplinary proceeding which may be initiated by the board based in whole or in part on information provided by the complainant.

2037.4(2) *Role of the board.* The board does not act as an arbiter of disputes between private parties, nor does the board initiate disciplinary proceedings to advance the private interest of any person or party. The role of the board in the disciplinary process is to protect the public by investigating complaints and initiating disciplinary proceedings in appropriate cases. The board possesses sole decision-making authority throughout the disciplinary process, including the authority to determine whether a case will be investigated, the manner of the investigation, whether a disciplinary proceeding will be initiated, and the appropriate licensee discipline to be imposed, if any.

2037.4(3) *Initial complaint screening.* Tips that are not complaints will be evaluated by the disciplinary committee but may not be assigned a case number or further investigated. Complaints that have been submitted and assigned a case number will be referred to the discipline committee. Final decisions on complaints will be made by the board.
[**ARC 7844C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2037.5(272C,543D) Case numbers. Whether based on written complaint received by the board or complaint initiated by the board, all complaint files will be tracked by a case numbering system. Once a case file number is assigned to a complaint, all persons communicating with the board regarding that complaint are encouraged to include the case file number to facilitate accurate records and prompt response.
[**ARC 7844C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2037.6(17A,272C,543D) Investigation procedures.

2037.6(1) *Disciplinary committee.* The board chairperson will annually appoint two to three members of the board to serve on the board's disciplinary committee. The disciplinary committee is a purely advisory body that reviews complaint files referred by the board's executive officer, generally supervises the investigation of complaints, and makes recommendations to the full board on the disposition of

complaints. Members of the committee will not personally investigate complaints, but they may review the investigative work product of others in formulating recommendations to the board.

2037.6(2) *Screening of complaints.* All complaints presented to the board will be screened, evaluated and, where appropriate, investigated.

[**ARC 7844C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2037.7(17A,272C,543D) Informal discussion. If the disciplinary committee considers it advisable, or if requested by the affected licensee, the committee may grant the licensee any opportunity to appear before the committee for a voluntary informal discussion of the facts and circumstances of an alleged violation, subject to the provisions of this rule.

2037.7(1) Because disciplinary investigations are confidential, only the licensee's legal representative may attend the information discussion with the board.

2037.7(2) Unless disqualification is waived by the licensee, board members or staff who personally investigate a disciplinary complaint are disqualified from making decisions or assisting the decision makers at a later formal hearing. Because board members generally rely upon investigators, peer review committees, or expert consultants to conduct investigations, the issue rarely arises. An informal discussion, however, is a form of investigation because it is conducted in a question and answer format. In order to preserve the ability of all board members to participate in board decision making and to receive the advice of staff, licensees who desire to attend an informal discussion waive their right to seek disqualification of a board member or staff based solely on the board member's or staff's participation in an informal discussion. Licensees would not be waiving their right to seek disqualification on any other ground. By electing to attend an informal discussion, a licensee accordingly agrees that participating board members or staff are not disqualified from acting as a presiding officer in a later contested case proceeding or from advising the decision maker.

2037.7(3) Because an informal discussion constitutes a part of the board's investigation of a pending disciplinary case, the facts discussed at the informal discussion may be considered by the board in the event the matter proceeds to a contested case hearing and those facts are independently introduced into evidence.

2037.7(4) The disciplinary committee, subject to board approval, may propose a consent order at the time of the informal discussion.

[**ARC 7844C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2037.8(272C,543D) Peer review committee (PRC). A peer review committee may be appointed by the board to investigate a complaint.

[**ARC 7844C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2037.9(17A,272C,543D) Closing complaint files.

2037.9(1) *Grounds for closing.* The board may close a complaint file, with or without prior investigation.

2037.9(2) *Cautionary letters.* The board may issue a confidential letter of caution to a licensee when a complaint file is closed that informally cautions or educates the licensee about matters that could form the basis for disciplinary action in the future if corrective action is not taken by the licensee. Informal cautionary letters do not constitute disciplinary action, but the board may take such letters into consideration in the future if a licensee continues a practice about which the licensee has been cautioned.

2037.9(3) *Reopening closed complaint files.* The board may reopen a closed complaint file if additional information arises after closure that provides a basis to reassess the merits of the initial complaint. Complaint files may also be reopened when a complaint has been previously closed due to the lapse of the licensee's license.

[**ARC 7844C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2037.10(17A,272C,543D) Initiation of disciplinary proceedings. Disciplinary proceedings may only be initiated by the affirmative vote of a majority of a quorum of the board at a public meeting. Board members who are disqualified will not be included in determining whether a quorum exists. If, for example, two members of the board are disqualified, three members of the board constitute a quorum of the remaining five board members for purposes of voting on the case in which the two members are

disqualified. When three or more members of the board are disqualified or otherwise unavailable for any reason, the executive officer may request the special appointment of one or more substitute board members pursuant to Iowa Code section 17A.11(5).

[**ARC 7844C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2037.11(543D) Decisions. The board will make findings of fact and conclusions of law, and set forth the board's decision, order, or both in the case. The board's decision may include, without limitation, any of the following outcomes, either individually or in combination:

1. Dismissing the charges;
2. Suspending or revoking the appraiser's certification or associate's registration as authorized by law;
3. Imposing civil penalties, the amount to be set at the discretion of the board but not exceeding $1,000 per violation. Civil penalties may be imposed for any of the disciplinary violations specified in Iowa Code section 543D.17 and chapter 272C or for any repeat offenses;
4. Imposing a period of probation, either with or without conditions;
5. Obligating the licensee to undergo reexamination;
6. Obligating the licensee to take additional professional education, reeducation, or continuing education;
7. Issuing a citation and a warning;
8. Imposing desk review of the appraiser's work product;
9. Issuing a consent order either with or without conditions;
10. Imposing consultation with one or more peer reviewers;
11. Revoking an appraiser's eligibility to supervise;
12. Compelling submission of monthly logs;
13. Placing limitations on a licensee's practice, such as removing a licensee's authority to act as an instructor; and
14. Imposing any other form of discipline authorized by a provision of law that the board, in its discretion, believes is warranted under the circumstances of the case.

[**ARC 7844C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2037.12(272C,543D) Mitigating and aggravating factors. Factors the board may consider when determining whether to impose discipline and what type of discipline to impose include but are not limited to:

2037.12(1) History and background of respondent.

a. Whether the respondent was a registered associate appraiser or a certified appraiser at the time of the violation.

b. Prior disciplinary history or cautionary letters.

c. Length of certification or registration at the time of the violation.

d. Disciplinary history of current or prior supervisor.

e. Degree of cooperation with investigation.

f. Extent of self-initiated reform or remedial action after the date of the violation.

g. Whether the volume or geographic range of the respondent's practice is, or was at the time of the violation, reasonable under the circumstances.

h. Whether the respondent practiced with a lapsed, inactive, retired, suspended, revoked, or surrendered certificate or registration.

2037.12(2) Nature of violations, not limited to:

a. Length of time since the date of the violation.

b. Whether the violation is isolated or recurring.

c. Whether there are multiple violations or appraisals involved.

d. Whether the violation is in the nature of an error or situational carelessness or neglect, or reflects a more fundamental lack of familiarity with applicable appraisal methodology or standards.

e. Indicia of bad faith, false statements, deceptive practices, or willful and intentional acts, whether within the circumstances of the violation or in the course of the board's investigation or disciplinary proceeding.

f. Evidence of improper advocacy or other violation of the USPAP ethics rule or of Iowa Code section 543D.18 or 543D.18A(1).

g. The clarity of the issue or standard involved.

h. Whether the respondent practiced outside the scope of practice authorized by respondent's certification or registration.

i. Whether the violation relates to the respondent's supervisory role, the respondent's individual appraisal practice, or both.

2037.12(3) Interest of the public, not limited to:

a. Degree of financial or other harm to a client, consumer, lending institution, or others.

b. Risk of harm, whether or not the violation caused actual harm.

c. Economic or other benefit gained by respondent or by others as a result of the violation.

d. Deterrent impact of discipline.

e. Whether the respondent issued a corrected appraisal report when warranted.

[**ARC 7844C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2037.13(272C,543D) Voluntary surrender. The board may accept the voluntary surrender of a license to resolve a pending disciplinary contested case or pending disciplinary investigation. The board will not accept a voluntary surrender of a license to resolve a pending disciplinary investigation unless a statement of charges is filed along with the order accepting the voluntary surrender. Such voluntary surrender is considered disciplinary action and will be published in the same manner as is applicable to any other form of disciplinary order.

[**ARC 7844C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2037.14(272C,543D) Reinstatement. The following provisions apply to license reinstatement proceedings:

2037.14(1) The board may grant an applicant's request to appear informally before the board prior to the issuance of a notice of hearing on an application to reinstate if the applicant requests an informal appearance in the application and agrees not to seek to disqualify, on the ground of personal investigation, board members or staff before whom the applicant appears.

2037.14(2) An order granting an application for reinstatement may impose such terms and conditions as the board deems desirable, which may include one or more of the types of disciplinary sanctions described in rule 481—2037.14(272C,543D).

2037.14(3) The board will not grant an application for reinstatement when the initial order that revoked, suspended or placed limitations on the license, denied license renewal, or accepted a voluntary surrender was based on a criminal conviction and the applicant cannot demonstrate to the board's satisfaction that:

a. All terms of the sentencing or other criminal order have been fully satisfied;

b. The applicant has been released from confinement and any applicable probation or parole; and

c. Restitution has been made or is reasonably in the process of being made to any victims of the crime.

2037.14(4) A state and national criminal history check may be performed on any applicant applying to reinstate registration or credential consistent with Iowa Code section 543D.22.

[**ARC 7844C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

These rules are intended to implement Iowa Code sections 543D.5, 543D.17, and 543D.18 and chapters 17A and 272C.

[Filed ARC 7844C (Notice ARC 7264C, IAB 1/24/24), IAB 4/17/24, effective 5/22/24]
[Editorial change: IAC Supplement 6/10/26]

CHAPTER 2038
RENEWAL, EXPIRATION AND REINSTATEMENT OF CERTIFICATES AND REGISTRATIONS, RETIRED STATUS, AND INACTIVE STATUS

[Prior to 4/17/24, see 193F—Chapter 9]
[Prior to 6/10/26, see Real Estate Appraiser Examining Board[193F] Ch 8]

Chapter rescission date pursuant to Iowa Code section 17A.7: 5/22/29

481—2038.1(272C,543D) Biennial renewal.

2038.1(1) Licenses have to be renewed on a biennial basis or they lapse.

2038.1(2) Persons licensed before June 30, 2024, will maintain their biennial renewal timelines. For licensees initially licensed after June 30, 2024, all licenses will expire biennially on June 30.

Example: Certified general licensee obtains licensure on May 25, 2025. License will expire on June 30, 2026, with the first year being a partial year.

2038.1(3) An application to renew a certificate or registration has to be submitted through the board's online system.

2038.1(4) All continuing education claimed on a biennial renewal needs to have been acquired during the renewal period. In addition, all continuing education claimed on a biennial renewal has to have been taken and completed prior to submission of the renewal application.

[**ARC 7845C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2038.2(272C,543D) Notices.

2038.2(1) The board may send renewal notices to licensed appraisers. However, it is the licensee's responsibility to renew timely.

2038.2(2) Certified and associate appraisers have to ensure that their contact information on file with the board office is current and that the board is notified within 30 days of any changes.

[**ARC 7845C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2038.3(272C,543D) Renewal procedures.

2038.3(1) *Date of filing.* Certified and associate appraisers have to file a complete renewal application with the board by the June 30 deadline in the biennial renewal year. An application will be deemed filed on the date of board receipt, the date of electronic submission or, if payment is mailed, the date postmarked but not the date metered.

2038.3(2) *Continuing education.* An applicant for renewal has to report the applicant's compliance with the continuing education obligations provided in 481—Chapter 2040.

2038.3(3) *Background disclosures.* An applicant for renewal has to disclose such background and character information as the board requests, which may include disciplinary action taken by any jurisdiction regarding a professional license of any type, the denial of an application for a professional license of any type by any jurisdiction, and the conviction of any crime.

2038.3(4) *Insufficient applications.* The board will reject applications that are insufficient.

2038.3(5) *Resubmission of rejected applications.* The board will promptly notify an applicant of the basis for rejecting an insufficient renewal application. Applicants may correct deficiencies and resubmit an application. Resubmitted applications are deemed received on the date of electronic submission.

2038.3(6) *Administrative processing not determinative.* The administrative processing of an application to renew a certificate or registration will not prevent the board from subsequently challenging the application based on new information, such as after-acquired information of continuing education violations.

2038.3(7) *Denial of timely and sufficient application to renew.* If grounds exist to deny an application to renew, the board will send notification to the applicant stating the grounds for denial.

[**ARC 7845C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2038.4(272C,543D) Failure to renew.

2038.4(1) The certificate or registration of a certified or associate appraiser lapses unless the appraiser submits a timely and sufficient renewal application by the expiration date.

2038.4(2) Certified and associate appraisers are not authorized to practice or to hold themselves out to the public as certified or registered appraisers during the period of time that the certificate or registration is lapsed. Any violation of this subrule will be grounds for discipline.

2038.4(3) Reinstatement. The board may reinstate a lapsed certificate or registration upon the applicant's submission of an application to reinstate and completion of all of the following:

a. Paying a penalty as provided by board rule; and

b. Paying the current renewal fee as provided by board rule; and

c. Paying the Appraisal Subcommittee National Registry fee as provided by board rule; and

d. Completing a state and national criminal history check as required by law; and

e. Providing evidence of completed continuing education outlined in rule 481—2040.2(272C,543D), as modified for associate appraisers in subrule 2038.4(6), if the licensee wishes to reinstate to active status; and

f. Providing a written statement outlining the professional activities of the applicant in the state of Iowa during the period in which the applicant's license had lapsed. The statement will describe all appraisal services performed, with or without the use of the titles described in Iowa Code section 543D.15, for all appraisal assignments that federal or state law, rule, or policy mandate to be performed by a certified real estate appraiser.

2038.4(4) Reinstating associate appraisers are to follow special continuing education obligations. The board seeks to ensure that associate appraisers make progress toward full completion of all qualifying education needed for eventual certification, as provided in the rules. As a result, an associate appraiser applying to reinstate a registration that has been lapsed for 12 months or longer will complete the most recent seven-hour USPAP course, and only qualifying education toward the continuing education needed for reinstatement, until all qualifying education has been completed. If the applicant has already completed all qualifying education or has to have continuing education hours beyond those needed to fully complete all qualifying education, the applicant may use any approved continuing education course in addition to the mandatory seven-hour USPAP course.

[**ARC 7845C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2038.5(272C,543D) Inactive status.

2038.5(1) *General purpose.* A licensee who is not engaged in Iowa in any practice licensed by the board may allow a license to lapse or register as inactive. The board will continue to maintain a database of persons registered as inactive as well as those whose license has lapsed. A person registered in inactive status is not allowed to perform services in this state regulated by the board. Continuing education is not required for licensees in inactive status.

2038.5(2) *Eligibility.* A person holding an active license may apply on forms through the board's online system to register as inactive if the person is not engaged in appraisal practice in the state of Iowa for which a certificate or associate registration is needed. Inactive status is not available to an individual who has had a board-issued license revoked or suspended. A person seeking inactive status may be actively engaged in the practice of real estate appraising in another jurisdiction.

2038.5(3) *Affirmation.* The application form will contain a statement in which the applicant affirms that the applicant will not engage in any conduct that would require an Iowa license without first complying with all rules governing reactivation to active status. A person in inactive status may reactivate to active status at any time pursuant to subrule 2038.5(6).

2038.5(4) *Renewal.* A person registered as inactive will need to renew biennially. Licensees in inactive status may continue to renew in inactive status. Active licensees may register in inactive status if, for instance, they have not completed all continuing education obligations needed for active status renewal. Any licensee in inactive status must satisfy all outstanding continuing education obligations before reinstating to active status. Continuing education obligations do not accrue during the period of inactive registration.

2038.5(5) *Grounds for discipline.* Licensees are not authorized to practice or to hold themselves out to the public as board-licensed appraisers during the period of time that the licensee is in retired or inactive status. Any violation of this subrule will be grounds for discipline.

2038.5(6) *Reactivation.* A person registered as inactive will apply to reactivate to active status prior to engaging in any practice in Iowa that necessitates active licensure by the board. An application to reactivate to active status will be through the board's online system. Prior to reactivation to active status, the applicant has to complete all education that would have been needed had the applicant been on active status, including the required courses set by the AQB criteria. All such continuing education has to be verified whether or not the applicant has been in active practice in another jurisdiction. Such an applicant will be given credit for the most recent renewal fees previously paid if the applicant applies to reactivate in the same biennium at other than the applicant's regular renewal date. An associate licensee changing from active to inactive status during a biennial renewal period will not, however, be entitled to a refund of any of the fees previously paid to attain active status.

[**ARC 7845C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2038.6(272C,543D) Retired status. A certified licensee may place the licensee's license in retired status. For purposes of this rule, the term "retired" means the person has retired from working as a certified appraiser and has requested to be placed in retired status through the board's online system. A licensee in retired status may request that the license be placed back into active status so long as the licensee is still within the biennial period of the last active status. The board will not provide a refund of biennial registration and certification fees when an application for retired status is granted in a biennium in which the applicant has previously paid the biennial fees for either active or inactive status. Licensees in retired status are exempt from the renewal obligation. While in retired status, appraisers cannot hold themselves out to the public as being certified appraisers during the period of time that the license is in retired status.

[**ARC 7845C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2038.7(272C,543D) Property of the board. Every license issued by the board will, while it remains in the possession of the holder, be preserved by the holder but will, nevertheless, always remain the property of the board.

[**ARC 7845C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

These rules are intended to implement Iowa Code section 543D.5.

[Filed ARC 7845C (Notice ARC 7265C, IAB 1/24/24), IAB 4/17/24, effective 5/22/24]
[Editorial change: IAC Supplement 6/10/26]

CHAPTER 2039
RECIPROCITY

[Prior to 4/17/24, see 193F—Chapter 10]
[Prior to 6/10/26, see Real Estate Appraiser Examining Board[193F] Ch 9]

Chapter rescission date pursuant to Iowa Code section 17A.7: 5/22/29

481—2039.1(543D) Nonresident certification by reciprocity.

2039.1(1) A nonresident of Iowa seeking certification in this state can apply for reciprocity through the board's online system and pay the board-established fee.

2039.1(2) The board may issue a reciprocal certificate to a nonresident individual who is certified and demonstrates good standing in another state. An appraiser who is listed in good standing on the National Registry of the Appraisal Subcommittee satisfies the good standing obligation without additional documentation. An appraiser who is not listed in good standing on the National Registry of the Appraisal Subcommittee will need to supply an official letter of good standing issued by the licensing board of the appraiser's resident state and bearing its seal.

2039.1(3) A reciprocal certified appraiser will comply with all provisions of Iowa law and rules.

2039.1(4) Reciprocal certified appraisers are obligated to pay the federal registry fee as set forth in the board's rules.

[**ARC 7846C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2039.2(543D) Temporary practice permit.

2039.2(1) The board will recognize, on a temporary basis, the license of a certified appraiser issued by another state for a period of six months, unless the applicant requests, and is approved for, a one-time extension. An extension request has to be received prior to the expiration date of the issuance of the temporary practice permit. An extension may be granted for up to six months past the original expiration date so long as the applicant is still eligible for a temporary practice permit.

2039.2(2) The appraiser has to apply through the board's online system. The appraiser seeking a temporary practice permit must meet the other qualifying factors associated with reciprocity, including good standing and payment of the appropriate fee. The temporary practice permit will authorize the licensee to perform appraisal on the properties listed on the permit.

2039.2(3) An appraiser holding an inactive, retired, or lapsed certificate as a real estate appraiser in Iowa may apply for a temporary practice permit if the appraiser holds an active, unexpired certificate as a real estate appraiser in good standing in another jurisdiction and is otherwise eligible for a temporary practice permit.

2039.2(4) An appraiser who was previously a registered associate or certified appraiser in Iowa whose Iowa license has been revoked or surrendered in connection with a disciplinary investigation or proceeding is ineligible to apply for a temporary practice permit in Iowa.

2039.2(5) The board may deny an application for a temporary practice permit based on prior discipline in this jurisdiction or other jurisdictions.

2039.2(6) An appraiser holding an inactive, retired, or lapsed Iowa certificate who applies to reinstate to active status in Iowa will not be given credit for any fees paid during the biennial period for one or more temporary practice permits.

2039.2(7) An appraiser holding a license to practice as a real estate appraiser in another jurisdiction may practice in Iowa without applying for a temporary practice permit or paying any fees as long as the appraiser does not perform appraisal services in Iowa that require licensure in this state.

2039.2(8) The board will receive and approve an application for a temporary practice permit before the applicant is eligible to practice in Iowa under a temporary practice permit. Applicants will apply using the board's online system. The board will grant or deny all applications for temporary practice permits within the requirements set by the ASC. Applicants disclosing discipline or criminal convictions will need to attach supporting documentation so that the board can assess whether grounds exist to deny the application. Falsification of information or failure to disclose material information will be grounds to deny the application, deny subsequent applications, or to reinstate a lapsed or inactive Iowa license.

[**ARC 7846C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

These rules are intended to implement Iowa Code sections 543D.10 and 543D.11.

[Filed ARC 7846C (Notice ARC 7266C, IAB 1/24/24), IAB 4/17/24, effective 5/22/24]

CHAPTER 2040
CONTINUING EDUCATION
[Prior to 4/17/24, see 193F—Chapter 11]
[Prior to 6/10/26, see Real Estate Appraiser Examining Board[193F] Ch 10]

Chapter rescission date pursuant to Iowa Code section 17A.7: 5/22/29

481—2040.1(272C,543D) Definitions. For the purpose of these rules, the following definitions shall apply:

"Approved program" means a continuing education program, course, or activity that satisfies the standards set forth in these rules and has received advance board approval pursuant to these rules.

"Approved provider" means a person or an organization that has been approved by the board to conduct continuing education programs pursuant to these rules.

"Asynchronous" means that the instructor and student interact in an educational offering in which the student progresses at the student's own pace through structured course content and scheduled quizzes and examinations.

"Board" means the same as defined in Iowa Code section 543D.2(7).

"Continuing education" means education that is obtained by a person certified to practice real estate appraising in order to maintain, improve, or expand skills and knowledge obtained prior to initial certification or registration, or to develop new and relevant skills and knowledge, all as a condition of renewal.

"Credit hour" means the value assigned by the board, or the AQB, to a continuing or qualifying education program.

"Distance education" means any education process based on the geographical separation of student and instructor. "Distance education" includes asynchronous, synchronous, and hybrid educational offerings.

"Guest speaker" means an individual who teaches an appraisal education program on a one-time-only or very limited basis and who possesses a unique depth of knowledge and experience in the subject matter.

"Hybrid," also known as a blended course, means a learning environment that allows for both in-person and online (synchronous or asynchronous) interaction.

"Live instruction" means an educational program delivered in a classroom setting where both the student and the instructor are present in the same room.

"Qualifying education" means education that is obtained by a person seeking certification as a real property appraiser prior to initial certification or registration.

"Synchronous" means that in an educational offering the instructor and student interact online simultaneously, as in a phone call, video chat or live webinar, or web-based meeting.

[**ARC 7847C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2040.2(272C,543D) Continuing education obligations.

2040.2(1) Board-licensed appraisers have to demonstrate compliance with the continuing education set by the AQB criteria.

2040.2(2) All continuing education credit hours may be acquired in approved education programs.

2040.2(3) Instructors claiming continuing education credit may be requested to provide supporting documentation to ascertain course content and related details.

2040.2(4) An applicant seeking to renew an initial license issued less than 185 days prior to renewal is not obligated to report any continuing education. An applicant seeking to renew an initial certificate or registration issued for 185 days to 365 days prior to renewal has to demonstrate completion of at least 14 credit hours, including the National USPAP continuing education course or its AQB equivalent. An applicant seeking to renew an initial certificate or registration issued 365 days prior to renewal or more has to demonstrate completion of at least 28 credit hours, including seven credit hours of the most recent National USPAP continuing education.

2040.2(5) Prior to reinstatement or reactivation of a certified general or residential registration, a licensee in inactive, retired, or lapsed status has to complete all continuing education hours that would have been needed if the licensee was in active status. The hours will also include the most recent edition of a National USPAP Update course.

2040.2(6) During each two-year renewal period, a continuing education program may be taken for credit only once.

2040.2(7) At least 50 minutes of every class hour have to be attended by the student to count as an hour of continuing education.

2040.2(8) An applicant may claim continuing education credits that have been approved by another jurisdiction that has a continuing education obligation for license renewal in that jurisdiction if the applicable program was approved by the other jurisdiction's appraisal regulatory body or the AQB for continuing education purposes at the time the applicant completed the course. The burden of proof in this regard is on the applicant. All other programs have to be approved upon application to the board pursuant to this chapter.

2040.2(9) A person certified or registered to practice real estate appraising in Iowa will be deemed to have complied with Iowa's continuing education obligation for periods in which the person is a resident of another state or district having continuing education obligations for real estate appraising and meets all obligations of that state or district.

2040.2(10) A person certified or registered to practice real estate appraising in Iowa who completes an education course approved by both the board and another appraiser regulatory body, for which the approved hours vary, will only be allowed to claim the hours approved by the board to meet the obligations of renewal of the person's associate registration or certified credential in Iowa. A person certified or registered to practice real estate appraising in Iowa who completes an educational course not approved in Iowa, but approved by either the AQB or by another appraiser regulatory body, may claim the hours awarded by either the AQB or the appraiser regulatory body of the other jurisdiction.

[**ARC 7847C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2040.3(272C,543D) Minimum program qualifications.

2040.3(1) The board will only approve continuing education programs that provide a formal program of learning that contributes to the growth in the professional knowledge and professional competence of real estate appraisers.

2040.3(2) Continuing education programs as listed in the AQB criteria are accepted by the board, as well as the following appraisal topics, which the board has determined are integrally related to appraisal topics in the state:

a. Agriculture production and economics;

b. Agronomy/soil; and

c. Real estate appraisal technology (e.g., drones).

2040.3(3) The following programs will not be acceptable:

a. Sales promotion meetings held in conjunction with the appraiser's general business;

b. Time devoted to breakfast, lunch, or dinner;

c. A program certified by the use of a challenge examination. The number of hours will be completed to receive credit hours; and

d. Programs that do not provide at least two credit hours.

2040.3(4) Continuing education credit will be granted only for whole hours, with a minimum of 50 minutes constituting one hour.

2040.3(5) Continuing education credit may be approved for university or college courses, when an official transcript is provided, in qualifying topics according to the following formula: Each semester hour of credit will equal 15 credit hours and each quarter hour of credit will equal 10 credit hours.

[**ARC 7847C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2040.4(272C,543D) Standards for provider and program approval. Providers and programs will satisfy the following minimum standards in order to be preapproved in accordance with the procedures established in this chapter and in order to maintain approved status:

2040.4(1) The program will be taught or developed by individuals who have the education, training and experience to be considered experts in the subject matter of the program and competent in the use of teaching methods appropriate to the program.

2040.4(2) Programs will be taught by instructors who have successfully completed an instructor development workshop within 24 months preceding board approval of the program. Certified USPAP instructors and instructors approved via a course delivery mechanism approval per the AQB criteria will be considered to have met this obligation.

2040.4(3) In determining whether an instructor is qualified to teach a particular program, the board will consider whether the instructor has an ability to teach and an in-depth knowledge of the subject matter.

2040.4(4) An instructor may demonstrate the ability to teach by meeting one or more of the following criteria:

a. Hold a bachelor's degree or higher in education from an accredited college;

b. Hold a current teaching credential or certificate in any real estate or real estate-related fields;

c. Hold a certificate of completion in the area of instruction from an instructor institute, workshop or school that is sponsored by a member of the Appraisal Foundation;

d. Hold a full-time current appointment to the faculty of an accredited college; and

e. Other, as the board may determine.

2040.4(5) An instructor may demonstrate in-depth knowledge of the program's subject matter by meeting one or more of the following criteria:

a. Hold a bachelor's degree or higher from an accredited college with a major in a field of study directly related to the subject matter of the course the instructor proposes to teach, such as business, economics, accounting, real estate or finance;

b. Hold a bachelor's degree or higher from an accredited college and have five years of appraisal experience related to the subject matter of the course the instructor proposes to teach;

c. Hold a generally recognized professional real property appraisal designation or be a sponsor member of the Appraisal Foundation; and

d. Other, as the board may determine.

2040.4(6) Only AQB-certified USPAP instructors, listed on the website of the Appraisal Foundation may teach the National USPAP courses, or the AQB-approved equivalent.

2040.4(7) Course content and materials will be accurate, consistent with currently accepted standards relating to the program's subject matter and updated no later than 30 days after the effective date of a change in standards, laws, or rules.

2040.4(8) Programs will have an appropriate means of written evaluation by participants. Evaluations will include the relevance of the materials, effectiveness of presentation, content, facilities, and such additional features as are appropriate to the nature of the program.

2040.4(9) No part of any course will be used to solicit memberships in organizations, recruit appraisers for affiliation with any organization or advertise the merits of any organization or sell any product, or service.

2040.4(10) Providers will clearly inform prospective participants of the number of credit hours preapproved by the board for each program and all applicable policies concerning registration, payment, refunds, attendance obligations, and examination grading.

2040.4(11) Procedures will be in place to monitor whether the person receiving credit hours is the person who attended or completed the program.

2040.4(12) Providers will be accessible to students during normal business hours to answer questions and provide assistance as necessary.

2040.4(13) Providers will comply with or demonstrate exemption from the provisions of Iowa Code sections 714.14 to 714.25.

2040.4(14) Providers will designate a coordinator in charge of each program who will act as the board's contact on all compliance issues.

2040.4(15) Programs will not offer more than eight credit hours in a single day.

2040.4(16) Providers will not provide any information to the board, the public, or prospective students that is misleading in nature. For example, providers will not refer to themselves as a "college" or "university" unless qualified as such under Iowa law.

2040.4(17) Providers will establish and maintain for a period of five years complete and detailed records on the programs successfully attended by each Iowa participant.

2040.4(18) Providers will issue an individual certificate of attendance to each participant upon successful completion of the program.

2040.4(19) Program providers and instructors are solely responsible for the accuracy of all program materials, instruction, and examinations. Board approval of a provider or program is not an assurance or warranty of accuracy and will not be explicitly or implicitly marketed or advertised as such.

2040.4(20) Providers will apply for approval using the board's online system.

2040.4(21) Providers will notify the board within 30 days of a change in the provider's primary contact, name, business address, or any other change that may affect the provider's tax identification number or bond obligations with the Iowa college aid commission.

[**ARC 7847C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2040.5(272C,543D) Acceptable distance education courses. Distance education involves geographical separation of student and instructor. A distance education course is acceptable to meet class hour obligations if it complies with the generic education criteria in the current AQB criteria.

[**ARC 7847C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2040.6(272C,543D) Applications for approval of programs. Applications for approval of programs will be submitted through the board's online system. All non-AQB courses are approved for 24 months, including the month of approval. Programs approved for distance education or by the AQB may be approved by the board. Board approval of a program will only be valid for the shortest period of time such a program is approved by either organization.

2040.6(1) Approval will be obtained for each program separately. With the exception of hybrid courses, courses that are offered via more than one delivery method will require separate program approvals.

2040.6(2) A nonrefundable fee of $50 will be submitted for each program except for programs that are submitted for approval by the primary provider and that have been approved by the AQB through the AQB Course Approval Program (CAP).

2040.6(3) All online applications and attachments will be submitted for approval at least 30 days prior to the first offering of each program or, if renewing, within 30 days of the course expiration date. The board will approve or deny each program, in whole or part, within 15 days of the date the board receives a fully completed application. Upon approval of an application for course offering, the board will specify the number of credit hours allowed. Payments for course program applications will be made within 30 calendar days of board approval or the application approval may be reversed.

2040.6(4) Applications for non-AQB CAP courses will request information including, but not limited to, the following:

a. Program description;

b. Program purpose;

c. Learning objectives that specify the level of knowledge or competency the student should demonstrate upon completing the program;

d. Description of the instructional methods utilized to accomplish the learning objective;

e. Identifying information for all guest speakers or instructors and such documentation as is necessary to verify compliance with the instructor qualifications described in this chapter;

f. Copies of all instructor and student program materials or, in the case of a one-time course offering, a statement that attests all instructor and student materials will be submitted to the board within ten calendar days of the course offering;

g. Copies of all examinations and a description of all grading procedures;

h. A description of the diagnostic assessment method(s) used when examinations are not given;

i. Such information as needed to verify compliance with board rules;

j. The name, address, telephone number, and email address for the program's coordinator; and

k. Such other information as the board deems reasonably needed for informed decision making.

2040.6(5) Application forms for courses that are AQB CAP-approved will include information as deemed necessary for accurate documentation but may be more limited than information set forth in this chapter.

2040.6(6) The board will assign each provider and program a number. This number will be placed on all correspondence with the board, all subsequent applications by the same provider, and all certificates of attendance issued to participants.

[**ARC 7847C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2040.7(272C,543D) Waiver of application fees. Application fees may be waived for approved programs sponsored by a governmental entity when the program is offered at no cost or at a nominal cost to participants. A request for waiver of application fees should be made by the provider or certificate holder at the time the application is filed with the board.

[**ARC 7847C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2040.8(272C,543D) Authority to approve education. The executive officer has the authority to approve or deny education applications subject to the applicant's right to a hearing as provided for in this chapter.

[**ARC 7847C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2040.9(272C,543D) Appraiser request for preapproval of continuing education programs. An appraiser seeking credit for attendance and participation in a program that is to be conducted by a provider not accredited or otherwise approved by the board will apply for approval to the board at least 15 days in advance of the commencement of the activity. The board will approve or deny the application in writing. The online application for prior approval of a continuing education activity will include the following fee and information:

1. Application fee of $25;
2. School, firm, organization or person conducting the program;
3. Location of the program;
4. Title and hour-by-hour outline of the program, course or activity;
5. Credit hours requested for approval;
6. Date of program; and
7. Principal instructor(s).

[**ARC 7847C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2040.10(272C,543D) Appraiser request for postapproval of continuing education program. An appraiser seeking credit for attendance and participation in a program that was not conducted by an approved provider or approved by the licensing authority in another state or otherwise approved by the board may submit a request for credit for the program. Within 15 days after receipt of the request, the board will advise the requester in writing whether the program is approved and the number of hours allowed. Appraisers not complying with the obligation of this rule may be denied credit for the program. Application for postapproval of a continuing education program will include the following fee and information:

1. Application fee of $25;
2. School, firm, organization or person conducting the program;
3. Location of the program;
4. Title of program and description of program;
5. Credit hours requested for approval;
6. Date(s) of program;
7. Student and instructor materials;
8. Principal instructor(s); and
9. Verification of attendance.

[**ARC 7847C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2040.11(272C,543D) Review of provider or program. The board on its own motion or upon receipt of a complaint or negative evaluation may monitor or review any approved program or provider and may withdraw approval of the provider or program and disallow all or any part of the approved hours granted to the provider based on evidence that the obligations of this chapter have not been met. The provider, as a condition of approval, agrees to allow the board or its authorized representatives to monitor ongoing

compliance with board rules through means including, but not limited to, unannounced attendance at programs.

[**ARC 7847C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2040.12(272C,543D) Hearings. Any person aggrieved by board action related to this chapter may request a contested case hearing before the board.

[**ARC 7847C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

These rules are intended to implement Iowa Code sections 543D.5, 543D.9 and 543D.16 and chapter 272C.

[Filed ARC 7847C (Notice ARC 7267C, IAB 1/24/24), IAB 4/17/24, effective 5/22/24]
[Editorial change: IAC Supplement 6/10/26]

CHAPTER 2041
FEES

[Prior to 4/17/24, see 193F—Chapter 12]
[Prior to 6/10/26, see Real Estate Appraiser Examining Board[193F] Ch 11]

Chapter rescission date pursuant to Iowa Code section 17A.7: 5/22/29

481—2041.1(543D) Fees.

Initial examination application fee	$150
Biennial registration fee for active status (initial, reciprocal, renewal):	
Associate/Certified real property appraiser > one year	$200
Associate/Certified real property appraiser < one year	$100
Biennial registration fee for inactive status (initial, reciprocal, renewal):	
Certified real property appraiser	$100
Associate real property appraiser	$50
Temporary practice permit fee (each request)	$100
Reinstatement of a lapsed or retired license (lapsed or retired to active status)	$150 (plus the registration fee)
Reactivation of an inactive or retired license (inactive or retired to active status)	$50 (plus the registration fee)
Formal wall certificate	$25
Work product review fees:	
Original submission, certified residential	$300
Original submission, certified general	$650
Additional residential reports as requested by the board	$150 per report
Additional nonresidential reports as requested by the board	$250 per report
Voluntary submission of residential reports for review	$150 per report
Voluntary submission of nonresidential reports for review	$250 per report
Course application fee (non-AQB-approved courses and secondary providers)	$50
Pre-/post-course application fee	$25
Background check	$51
Add supervisory appraiser	$25
Add course instructor	$10
Waiver to administrative rules	$25
Late renewal of associate or certified	$50
ASC National Registry fee > one year, separate from registration fee (collected by the board for FFIEC)	$80
ASC National Registry fee < one year, separate from registration fee (collected by the board for FFIEC)	$40
Examination fee (and reexamination fee) (to be paid to the examination provider)	Current provider rate

[**ARC 7848C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2041.2(543D) Prorating of registration fees. An applicant applying for initial or reciprocal registration or certification within 12 months from the applicant's renewal date, pursuant to rule 481—2038.1(543D), will pay half the fee. An applicant applying for initial or reciprocal registration or certification more than 12 months from the applicant's renewal date will pay the full registration fee. An applicant applying to reinstate or reactivate a lapsed registration or certification within 12 months from the applicant's renewal date, pursuant to rule 481—2038.1(543D), will pay half the renewal fee plus the applicable reactivation or reinstatement fee. An applicant applying to reinstate or reactivate a lapsed registration or certification more than 12 months from the applicant's renewal date will pay the full renewal fee plus the applicable reactivation or reinstatement fee.

[**ARC 7848C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

These rules are intended to implement Iowa Code section 543D.6.

[Filed ARC 7848C (Notice ARC 7268C, IAB 1/24/24), IAB 4/17/24, effective 5/22/24]

[Editorial change: IAC Supplement 6/10/26]

CHAPTER 2042
ENFORCEMENT PROCEEDINGS AGAINST NONLICENSEES

[Prior to 4/17/24, see 193F—Chapter 16]
[Prior to 6/10/26, see Real Estate Appraiser Examining Board[193F] Ch 12]

Chapter rescission date pursuant to Iowa Code section 17A.7: 5/22/29

481—2042.1(543D) Civil penalties against nonlicensees. The board may impose civil penalties by order against a person who is not licensed by the board based on the unlawful practices specified in Iowa Code section 543D.21.

[**ARC 7855C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2042.2(543D) Grounds for imposing civil penalties. Grounds for issuing an order requiring compliance with Iowa Code chapter 543D or imposing civil penalties up to $1,000 for each violation include:

2042.2(1) Violating Iowa Code section 543D.15(1)*"a."*

2042.2(2) Failing to obtain a temporary practice permit under Iowa Code section 543D.11(2).

2042.2(3) Falsely impersonating a licensee by using the certification or registration title, number or signature of a licensee, or by using the nonexistent certification or registration title, number or signature of a fictitious holder of a board-issued license.

2042.2(4) Violating Iowa Code section 543D.21(4)*"e."*

2042.2(5) Violating Iowa Code section 543D.20(1)*"a," "b," "c,"* or *"d."*

2042.2(6) Violating Iowa Code section 543D.18A.

[**ARC 7855C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2042.3(543D) Notice of intent to impose civil penalties.

2042.3(1) The notice of the board's intent to issue an order to compel compliance with Iowa Code section 543D.21 and to impose a civil penalty will be served upon the nonlicensee by certified mail, return receipt requested, or by personal service in accordance with Iowa Rule of Civil Procedure 1.305. Alternatively, the nonlicensee may accept service personally or through authorized counsel.

2042.3(2) The notice will include the following:

a. A statement of the legal authority and jurisdiction under which the proposed civil penalty would be imposed.

b. Reference to the particular sections of the statutes and rules involved.

c. A short, plain statement of the alleged unlawful practices.

d. The dollar amount of the proposed civil penalty and the nature of the intended order to compel compliance with Iowa Code section 543D.21.

e. Notice of the nonlicensee's right to a hearing and the time frame in which hearing has to be requested.

f. The address to which a written request for hearing has to be made.

[**ARC 7855C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2042.4(543D) Request for hearing.

2042.4(1) Nonlicensees have to request a hearing within 30 days of the date the notice is received or service is accepted. A request for hearing has to be in writing and is deemed made on the date of the non-metered United States Postal Service postmark or the date of personal delivery to the board office.

2042.4(2) If a request for hearing is not timely made, as described in the notice, the board chairperson or the chairperson's designee may issue an order imposing a civil penalty and requiring compliance with Iowa Code chapter 543D. The order may be mailed by regular first-class mail or served in the same manner as the notice of intent to impose a civil penalty.

2042.4(3) If a request for hearing is timely made, the board will issue a notice of hearing and conduct a hearing in the same manner as applicable to disciplinary cases against licensees. Hearings involving nonlicensees are open to the public.

2042.4(4) A nonlicensee may waive the right to hearing and all attendant rights and enter into a consent order imposing a civil penalty and requiring compliance with Iowa Code chapter 543D at any stage of the proceeding upon mutual consent of the board.

2042.4(5) The notice of intent to issue an order and the order are public records available for inspection and copying in accordance with Iowa Code chapter 22.

[**ARC 7855C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

These rules are intended to implement Iowa Code chapters 17A and 543D.

[Filed ARC 7855C (Notice ARC 7272C, IAB 1/24/24), IAB 4/17/24, effective 5/22/24]

[Editorial change: IAC Supplement 6/10/26]

CHAPTER 2043
LICENSURE OF PERSONS LICENSED IN OTHER JURISDICTIONS

[Prior to 4/17/24, see 193F—Chapter 26]
[Prior to 6/10/26, see Real Estate Appraiser Examining Board[193F] Ch 13]

Chapter rescission date pursuant to Iowa Code section 17A.7: 5/22/29

481—2043.1(272C) Definitions.

"Issuing jurisdiction" means the duly constituted authority in another state that has issued a professional license, certificate, or registration to a person.

"License" or *"licensure"* means any license that may be granted by the board.

[**ARC 7865C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

481—2043.2(272C) Licensure of persons licensed in other jurisdictions.

2043.2(1) An individual who establishes residency in this state or who is married to an active duty member of the military forces of the United States and who is accompanying the member on an official permanent change of station to a military installation located in this state may apply for licensure under this rule on forms provided by the board. A certification or registration will be issued if all of the following conditions are met:

a. The person is currently licensed, certified, or registered by at least one other issuing jurisdiction in the profession or occupation applied for with a substantially similar scope of practice and is in good standing in all issuing jurisdictions in which the person holds a license, certificate, or registration. A license, certificate, or registration issued by another jurisdiction that is classified as a licensed residential real property credential or with a scope of practice of a licensed residential real property appraiser, as defined by the AQB criteria, other applicable federal law, rule, or policy, will not be considered a profession or occupation with a substantially similar scope of practice as it relates to a certification or registration as an associate real property appraiser, certified residential real property appraiser, or a certified general real property appraiser.

b. The person has been licensed, certified, or registered by the other issuing jurisdiction forming the basis of the application.

c. When the person was licensed by the other issuing jurisdiction forming the basis of the application, the issuing jurisdiction imposed minimum educational and experience obligations, and the issuing jurisdiction verifies that the person met those obligations in order to be licensed in that issuing jurisdiction. Generally, given federal mandates, the minimum educational and experience obligations to become certified as a real estate appraiser are substantially the same nationwide within the applicable classification and scope of practice.

d. The person previously passed an AQB-approved examination by the other issuing jurisdiction for licensure, certification, or registration.

e. The person has not had a license, certificate, or registration revoked and has not voluntarily surrendered a license, certificate, or registration in any other issuing jurisdiction or country while under investigation for unprofessional conduct.

f. The person has not had discipline imposed by any other regulating entity in this state or another issuing jurisdiction or country. If another jurisdiction has taken disciplinary action against the person, the appropriate licensing board shall determine if the cause for the action was corrected and the matter resolved. If the licensing board determines that the matter has not been resolved by the jurisdiction imposing discipline, the licensing board will not issue or deny a license, certificate, or registration to the person until the matter is resolved.

g. The person does not have a complaint, allegation, or investigation pending before any regulating entity in another issuing jurisdiction or country that relates to unprofessional conduct. If the person has any complaints, allegations, or investigations pending, the appropriate licensing board shall not issue or deny a license, certificate, or registration to the person until the complaint, allegation, or investigation is resolved.

h. The person pays all applicable fees. The fees for applying for licensure under this rule will be the same as the fees for reciprocal licensure.

i. The person does not have a criminal history that would prevent the person from holding the license applied for in this state.

2043.2(2) An individual applying for licensure under this rule will provide, as applicable, proof of current residency in the state of Iowa or proof of the military member's official permanent change of station to the state of Iowa.

a. Proof of residency may include, by way of example:

(1) Residential mortgage, lease, or rental agreement;

(2) Utility bill;

(3) Bank statement;

(4) Paycheck or pay stub;

(5) Property tax statement;

(6) A federal or state government document; or

(7) Any other document that reliably confirms Iowa residency.

b. Proof of permanent change of station to the state of Iowa includes documentation issued by the appropriate branch of the military requiring a permanent change of station or otherwise indicating or demonstrating a permanent change of station has occurred.

2043.2(3) In order to be considered a sufficient application, an application for licensure under this rule must include all appropriate information as required by this rule and, if applicable, the submission of fingerprints and an appropriate authorization of release as may be necessary to facilitate the board's completion of a criminal history check and any corresponding fee.

2043.2(4) A person issued a license under this rule is subject to the jurisdiction of the board.

2043.2(5) An applicant who is aggrieved by the board's decision to deny an application for a license under this rule may request a contested case hearing. A request for such a contested case hearing will be granted only if the board receives the request within 30 days of issuance of the board's decision.

[**ARC 7865C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 6/10/26]

These rules are intended to implement Iowa Code chapters 543D and 272C and 2019 Iowa Acts, House File 288.

APPRAISAL MANAGEMENT COMPANIES

CHAPTER 2050
APPRAISAL MANAGEMENT COMPANIES
[Prior to 1/22/25, see Banking Division[187] Ch 25]

Chapter rescission date pursuant to Iowa Code section 17A.7: 1/1/28

481—2050.1(17A,543E) Definitions. For the purposes of this chapter, the definitions in Iowa Code chapter 543E shall apply. In addition, unless the context otherwise requires, the following definitions shall apply:

"Nationwide multistate licensing system" or *"NMLS"* means a mortgage licensing system owned and operated by the State Regulatory Registry, LLC, a wholly owned subsidiary of the Conference of State Bank Supervisors.

"Owner" means a person who owns or has the power to vote more than 10 percent of the shares of an appraisal management company.

"Ownership" means being an owner or otherwise having the power to vote more than 10 percent of the shares of an appraisal management company.

"Registrant" means a person who is registered as an appraisal management company in this state.

[**ARC 2869C**, IAB 12/21/16, effective 1/1/17; Editorial change: IAC Supplement 1/22/25]

481—2050.2(17A,543E) Application for registration.

2050.2(1) An application for registration to operate an appraisal management company in Iowa shall be submitted to the administrator through the NMLS or as otherwise prescribed by the administrator. All information requested in the application shall be provided on or with the application form, including but not limited to any and all information required by Iowa Code section 543E.8(2). The administrator may consider an application withdrawn if the application does not contain all of the information required and the missing information is not submitted to the administrator within 30 days after the administrator requests the missing information.

2050.2(2) Appraiser panel. The application shall include a list of all certified and licensed appraisers who are independent contractors and are currently on the applicant's appraiser panel and shall also include any additional certified and licensed appraisers who are independent contractors and who in the 12 months immediately preceding submission of the application have performed appraisals, for the applicant or for persons that have ordered appraisals through the applicant, for covered transactions or for secondary mortgage market participants in connection with covered transactions in which the dwelling is located in this state. The application shall include the name, the certification or license number, the date the appraiser joined the panel, and the date the appraiser left the panel, if applicable, for each appraiser included on the applicant's appraiser panel. The applicant's appraiser panel shall include all appraisers the applicant has engaged to perform one or more appraisals for or in connection with a covered transaction or for a secondary mortgage market participant in connection with a covered transaction in this state and all appraisers the applicant has accepted for future consideration for such appraisal assignments.

2050.2(3) All owners and controlling persons of the applicant must authorize a fingerprint background check, through the NMLS or as otherwise prescribed by the administrator, for the purpose of conducting a national criminal history background check through the Federal Bureau of Investigation. This requirement applies to all owners and controlling persons, regardless of whether the individual has previously applied as an owner or controlling person of an appraisal management company under Iowa Code chapter 543E.

2050.2(4) The applicant shall submit an application fee, initial registration fee, and background investigation fee in the amounts provided in subrule 2050.8(5), as well as the fee required for registration on the appraisal management company national registry maintained by the appraisal subcommittee as specified in subrule 2050.8(5). The applicant shall also pay any additional fees required by the NMLS, including but not limited to, the following: system processing fees and background check fees. The applicant will be refunded the initial registration fee and the appraisal management company national registry fee if the application is denied.

2050.2(5) If any information material to the application changes after the applicant files the initial application but before the administrator approves or denies the application, the applicant shall provide updated information to the administrator in writing within 10 calendar days of the change. The administrator may deny the application when such a material change in information has occurred and the applicant has failed to provide updated information within the prescribed time frame.

2050.2(6) An applicant for registration to operate an appraisal management company in Iowa must file with the administrator a $25,000 surety bond in compliance with the provisions of Iowa Code section 543E.19.

2050.2(7) A registration shall lapse on the next succeeding December 31 after it is issued, but a registration granted on or after November 1 and before December 31 shall not lapse until December 31 of the following year. For example, a registration granted on November 17, 2017, would not expire until December 31, 2018. An applicant whose registration is granted on or after November 1 and before December 31 may be required, as determined by the appraisal subcommittee, to pay the fee for registration on the appraisal management company national registry in full for both calendar years. For example, while a registration granted on November 17, 2017, would not lapse until December 31, 2018, the registrant may be required to pay the national registry fee in full for 2017 and 2018.

[**ARC 2869C**, IAB 12/21/16, effective 1/1/17; Editorial change: IAC Supplement 1/22/25]

481—2050.3(17A,543E) Grounds for denial of a registration. The administrator may deny an application for registration to operate an appraisal management company, or issue a registration subject to restriction, for any of the reasons that follow.

2050.3(1) This state or another state or jurisdiction has canceled, revoked, denied, suspended, or refused to renew the applicant's registration to operate an appraisal management company or has denied, suspended, or refused to renew a similar registration under this state's or the other state's or jurisdiction's law. An agreement made between a person and this state or another state or jurisdiction not to operate as an appraisal management company may be considered a denial of that person's registration to operate an appraisal management company in this state or the other state or jurisdiction.

2050.3(2) An owner or controlling person of the applicant has been barred, removed, or prohibited from owning or serving as the controlling person of an appraisal management company, or from serving in any capacity in a financial institution by any state or federal regulatory agency, including but not limited to the Office of the Comptroller of the Currency, the Federal Deposit Insurance Corporation (FDIC), the Board of Governors of the Federal Reserve System, or the U.S. Department of Housing and Urban Development.

2050.3(3) An owner or controlling person of the applicant is or was the owner or controlling person of another appraisal management company in another state or jurisdiction, if such other state or jurisdiction has canceled, revoked, denied, suspended, or refused to renew the registration or application for registration of such other appraisal management company under this state's or the other state's or jurisdiction's law. An agreement made between a person and this state or another state or jurisdiction not to operate as the owner or controlling person of an appraisal management company may be considered a denial of that person's application to serve as the owner or controlling person of an appraisal management company in this state or the other state or jurisdiction.

2050.3(4) An owner or controlling person of the applicant has been convicted of forgery, embezzlement, obtaining money under false pretenses, theft, extortion, conspiracy to defraud, tax evasion, or another similar offense, in a court of competent jurisdiction in this state or in any other state, territory, or district of the United States or in any foreign jurisdiction. For the purposes of this subrule, "convicted of" includes a guilty plea, deferred judgment, deferred sentence, or other similar finding of guilt by a court of competent jurisdiction.

2050.3(5) The applicant, or an owner or controlling person of the applicant, has made a false submission of material fact on an application for registration or has been otherwise implicated in the submission of a false application.

2050.3(6) An owner or controlling person of the applicant has demonstrated a lack of moral character in a manner that the administrator reasonably believes will impair the ability of the owner or controlling

person to operate an appraisal management company in full compliance with the public interest and state policies described in Iowa Code chapter 543E.

2050.3(7) For any reason listed in Iowa Code section 543E.17(1).

2050.3(8) The applicant has failed to include all of the information required in the application or has failed to pay any fee required under Iowa Code chapter 543E or this chapter.

[**ARC 2869C**, IAB 12/21/16, effective 1/1/17; Editorial change: IAC Supplement 1/22/25]

481—2050.4(17A,543E) Renewal of registration.

2050.4(1) To remain registered to operate an appraisal management company in Iowa, a registrant must renew a registration before the date the registration lapses. A registrant who holds a lapsed registration shall not directly or indirectly engage in or attempt to engage in business as an appraisal management company or advertise or hold itself out as engaging in or conducting business as an appraisal management company in Iowa until the administrator has reinstated the lapsed registration or has approved a new registration.

2050.4(2) An application to renew a registration shall be submitted to the administrator, through the NMLS or as otherwise prescribed by the administrator, no earlier than November 1 and no later than December 1 of the year for which the registration is valid. For example, for a registration that will lapse on December 31, 2017, an application for renewal shall be submitted by December 1, 2017. All requested information, including any material change to information contained in the original application, shall be provided to the administrator as directed by the NMLS or as otherwise prescribed by the administrator. Applications for renewal of a registration must be accompanied by a fee as specified in subrule 2050.8(5). The administrator may also assess late fees as specified in subrule 2050.8(5) for applications submitted after December 1.

2050.4(3) The administrator shall grant an application to renew a registration if:

a. The administrator receives the application and the appropriate renewal fee by December 1, or the administrator receives the application after December 1 but before January 1 and it is accompanied by the appropriate renewal fee and the appropriate late fee;

b. The application is fully completed and includes all necessary information; and

c. The application does not reveal grounds that would be sufficient to deny initial registration, or issue a registration subject to restriction, pursuant to rule 481—2050.4(17A,543E).

[**ARC 2869C**, IAB 12/21/16, effective 1/1/17; Editorial change: IAC Supplement 1/22/25]

481—2050.5(17A,543E) Reinstatement of lapsed registration.

2050.5(1) The registration of an appraisal management company that has lapsed for failure to satisfy the minimum standards for renewal may be reinstated if the registrant meets the following requirements:

a. The application for reinstatement is submitted between January 1 and February 28 of the year immediately following the year the registration lapsed.

b. All minimum requirements for renewal of registration for the year in which the registration lapsed are satisfied prior to submission of the application for reinstatement. The registrant seeking to reinstate a registration must submit all information required to renew a registration pursuant to rule 481—2050.4(17A,543E).

c. The registrant pays a reinstatement fee as specified in subrule 2050.8(5), in addition to the renewal fee, and any late charges.

2050.5(2) An appraisal management company whose registration has lapsed and who fails to meet the requirements for reinstatement specified in this rule must apply for a new registration and meet the requirements in effect at that time for a new registration.

[**ARC 2869C**, IAB 12/21/16, effective 1/1/17; Editorial change: IAC Supplement 1/22/25]

481—2050.6(17A,543E) Changes in the registrant's name, location, or ownership.

2050.6(1) A registrant wishing to change the principal location of an appraisal management company shall notify the administrator through the NMLS, or as otherwise prescribed by the administrator, within 15 days of making the change. The notice shall include proof that the registrant has either obtained a new bond

or amended the existing mandatory bond to reflect the new location. The registrant shall submit a fee as specified in subrule 2050.8(5) in association with the change.

2050.6(2) Registrants must notify the administrator no later than 15 days following a change in name and must submit to the administrator a fee as specified in subrule 2050.8(5).

2050.6(3) The prior written approval of the administrator is required whenever a change in ownership of a registrant is proposed. When a change in ownership of a registrant is proposed, the party that will assume ownership of the registrant shall give notice to the administrator through the NMLS, or as otherwise prescribed by the administrator, at least 30 days before the proposed change will take effect. The party that will assume ownership of the registrant shall furnish the administrator through the NMLS, or as otherwise prescribed by the administrator, with the same information required of initial applicants for registration, along with a fee as specified in subrule 2050.8(5). The administrator shall approve or deny the request in accordance with the provisions of rule 481—2050.3(17A,543E).

2050.6(4) The prior written approval of the administrator is required whenever a change of the designated controlling person of a registrant is proposed. When change of the designated controlling person of a registrant is proposed, the party that will become the designated controlling person of the registrant shall give notice to the administrator through the NMLS, or as otherwise prescribed by the administrator, at least 30 days before the proposed change will take effect. The party that will become the designated controlling person of the registrant shall furnish the administrator through the NMLS, or as otherwise prescribed by the administrator, with the same information required of initial applicants for designation as a controlling person, along with the appropriate fee. The administrator shall approve or deny the request in accordance with the provisions of rule 481—2050.3(17A,543E).

2050.6(5) Failure to notify the administrator within the prescribed time as required by this rule may subject the registrant to disciplinary action. However, in the event the death, incapacity, or unexpected resignation of a designated controlling person, or a similar circumstance, makes it impossible for a registrant to provide 30 days' advance notice, no disciplinary action shall be taken if the party that will become the designated controlling person of the registrant provides the notice described in subrule 2050.6(4) promptly and no later than 10 days after learning that a new controlling person must be designated.

[**ARC 2869C**, IAB 12/21/16, effective 1/1/17; Editorial change: IAC Supplement 1/22/25]

481—2050.7(17A,543E) Notice of significant events. A registrant shall notify the administrator immediately and in writing within 15 calendar days of the occurrence of any of the following events.

2050.7(1) The registrant or any of the registrant's officers, directors, owners, or affiliates file for bankruptcy protection or commence reorganization proceedings.

2050.7(2) A prosecuting authority files criminal charges against the registrant or any of a registrant's officers, directors, owners, or affiliates.

2050.7(3) Another state or jurisdiction institutes registration denial, cease and desist, suspension or revocation procedures, or other regulatory action against the registrant or any of the registrant's officers, directors, owners, or affiliates.

[**ARC 2869C**, IAB 12/21/16, effective 1/1/17; Editorial change: IAC Supplement 1/22/25]

481—2050.8(17A,543E) Fees.

2050.8(1) *Examination or investigation fees.* A registrant shall pay an investigation or examination fee as determined by the administrator based on the actual cost of the operation of the finance bureau of the banking division, as described in Iowa Code section 543E.10(1).

2050.8(2) *Examination or investigation late fees.* A registrant shall pay the administrator the total charge for an examination or investigation within 30 days after the administrator has requested payment. If a registrant fails to pay an examination or investigation fee by the due date, the administrator may assess an additional penalty as identified in subrule 2050.8(5) for each day the fee is overdue.

2050.8(3) *Late fees for failing to respond.* In the process of administering this chapter, the administrator may require a person to provide responses to formal orders, examinations, or complaint inquiries. If a person fails to respond within 30 days of the request, the administrator may assess a fee as specified in subrule 2050.8(5).

2050.8(4) *NMLS system processing fees.* In addition to the fees set forth in this chapter, the applicant or registrant shall pay any fee assessed by the NMLS attributed to the registrant's record in the NMLS system including but not limited to the initial set-up fee, an annual processing fee, and any fees associated with changing or updating the registrant's record.

2050.8(5) *Fees.*

Application for registration fee	$250
Registration fee (initial) (not applicable to preregistration)	$750
Registration fee (annual renewal)	$750
Background investigation fee	$51
Appraisal management company national registry fee (not applicable to preregistration)	As determined by the appraisal subcommittee
NMLS fees	As determined by the NMLS
Fee for late submission of application for renewal	$50
Fee to reinstate a lapsed registration	$250
Reissuance or replacement of a lost, destroyed, or stolen registration	$25
Fee for change of principal location	$25
Fee for change of name	$25
Fee for change of ownership	$150
Fee for change of controlling person	$150
Fee for late payment of examination or investigation fees	5 percent of amount due per day beyond 30 days past due
Fee for late response to examination request	$10 per day beyond 30 days past due
Conversion fee for preregistered persons (applicable only when converting a preregistration to a registration)	$150
Dishonored check fee	$30
Examination or investigation fee	$100 per hour
Mailing list fee	$30
Fee for letter of good standing	$25

[**ARC 2869C**, IAB 12/21/16, effective 1/1/17; Editorial change: IAC Supplement 1/22/25]

481—2050.9(17A,543E) Registrant records.

2050.9(1) *General record requirements.* The following requirements apply to all records a registrant is required to keep pursuant to Iowa Code section 543E.13 and this chapter:

a. The registrant may keep records as a hard copy or in an electronic equivalent.

b. The registrant shall maintain all books and records in good order and shall produce books and records for the administrator upon request. Failure to produce such books and records within 30 days of the administrator's request may be grounds for disciplinary action against the registrant.

c. The obligation to maintain required records continues even after the registrant ceases business operations in Iowa and turns in or surrenders its registration. The owners and directors of the registrant are responsible for ensuring that this requirement is met for the period required under Iowa Code section 543E.13 and this chapter.

d. The registrant shall keep all required records for at least five years from the date the record was created, unless a longer retention period is required by statute.

2050.9(2) *Required records.* A registrant operating an appraisal management company shall keep, and be able to retrieve or access from its principal place of business, an appraisal request and assignment log, a true and complete copy of each appraisal performed, a payment log, applications for registration, a dispute resolution policy, and certain corporate records.

a. Appraisal request and assignment log. A registrant shall maintain a log of all appraisal services requested, including those requests for service that the registrant does not fulfill. A record of the appraiser assigned to each request for appraisal services accepted by the registrant shall also be kept. The record shall include a description of the assignment, the certification or registration number of the assigned appraiser, the certification possessed by the assigned appraiser, and the expiration date of the appraiser's certification.

b. Appraisal files. For each appraisal service assigned by a registrant to an appraiser, the registrant shall keep a record of the award or engagement letter giving the appraisal assignment to the appraiser;

the assigned appraiser's acceptance of the assignment; all material communications between the registrant, the assigned appraiser, and the service requestor regarding a consumer credit transaction secured by the principal dwelling of an Iowa consumer, or the securitization thereof; and the appraisal report created by the assigned appraiser.

c. Payment log. A record shall be kept of all payments made by a registrant in association with the provision of appraisal services and shall include the date the payment was made, the amount paid, the appraisal services for which payment was made, and the date on which the appraiser provided the results of the completed appraisal service to the registrant.

d. Dispute resolution policy. A registrant shall maintain a copy of a dispute resolution policy for appraisers who request a review of a decision made by the registrant. The dispute resolution policy shall provide for a written response to the appraiser's request for review, a written statement of the outcome of the dispute resolution process, and a copy of all relevant documents to the appraiser upon request. The dispute resolution policy shall provide for external review of the decision in question or internal review of the decision in question by an officer or employee of a registrant who holds a higher position than the individual who made the decision in question.

e. Corporate records. A registrant shall maintain lists of all owners, directors, officers, and employees, as well as the minutes from meetings of the registrant's board of directors if the registrant's corporate structure includes a board of directors.

2050.9(3) *General business records.* In addition to the required records, a registrant must keep the following general business records for at least five years from the date the record was created:

a. All checkbooks, check registers, bank statements, deposit slips, withdrawal slips, and canceled checks (or copies thereof) relating to the registrant's operation of an appraisal management company.

b. Complete records (including invoices and supporting documentation) for all expenses and fees paid in connection with each appraisal, including a record of the date and amount of all such payments actually made in connection with each appraisal.

c. Copies of all federal tax withholding forms, reports of income for federal taxation, and evidence of payments to all employees, independent contractors, and others compensated by a registrant in connection with the operation of an appraisal management company.

d. All correspondence and other records relating to the maintenance of any surety bond required by Iowa Code chapter 543E.

e. Copies of all reports of audits, examinations, inspections, reviews, investigations, or other similar functions performed by any third party, including but not limited to the administrator or any other regulatory or supervisory authority.

2050.9(4) *Disposal of records.* If a registrant or former registrant disposes of records at the end of the retention period, the registrant or former registrant shall dispose of the records in a reasonable manner that safeguards any identification information, as defined in Iowa Code section 715A.8(1)*"a."* The owners and directors of registrants and former registrants are responsible for ensuring that this requirement is met.

[**ARC 2869C**, IAB 12/21/16, effective 1/1/17; Editorial change: IAC Supplement 1/22/25]

481—2050.10(17A,543E) Examinations, investigations, and complaints.

2050.10(1) The administrator may, at any time and as often as the administrator deems necessary, examine a registrant's books, accounts, records, and files and investigate a registrant to assess potential violations of applicable appraisal-related laws, regulations, rules, or orders.

2050.10(2) The administrator may investigate complaints about, or alleged violations committed by, any registrant.

2050.10(3) The following shall constitute a complaint or alleged violation:

a. A written complaint received from a consumer, member of the public, employee, business affiliate, or other governmental agency.

b. Notice to the administrator from any source that the registrant, or any owner or controlling person thereof, has been the subject of disciplinary proceedings in another jurisdiction.

c. Notice to the administrator from any source that any owner or controlling person of the registrant has been convicted of forgery, embezzlement, obtaining money under false pretenses, extortion, conspiracy

to defraud, or other similar offense, in a court of competent jurisdiction in this state or in any other state, territory, or district of the United States, or in any foreign jurisdiction.
[**ARC 2869C**, IAB 12/21/16, effective 1/1/17; Editorial change: IAC Supplement 1/22/25]

481—2050.11(17A,543E) Disciplinary action.

2050.11(1) The administrator has authority pursuant to Iowa Code chapters 543E and 17A to impose discipline for violations of Iowa Code chapter 543E and this chapter.

2050.11(2) Grounds for discipline. The administrator may impose any of the disciplinary sanctions set out in Iowa Code section 543E.17(1) when the administrator finds any of the following:

a. The registrant, or an owner or controlling person thereof, has violated a provision of Iowa Code chapter 543E or this chapter.

b. The registrant, or an owner or controlling person thereof, fails to fully cooperate with an examination or investigation, including failing to respond to an inquiry from the administrator within 30 calendar days of the date the administrator mails a written communication directed to the registrant's last-known address on file with the administrator.

c. The registrant, or an owner or controlling person thereof, has engaged in any conduct that subverts or attempts to subvert an examination or investigation by the administrator.

d. The registrant continues to operate an appraisal management company without an active and current registration.

e. The registrant fails to timely notify the administrator of the occurrence of any of the significant events set forth in rule 481—2050.7(17A,543E).

f. The registrant fails to notify the administrator of a change in ownership, controlling person, name, or principal place of business.

g. Another state or jurisdiction has denied, suspended, revoked, or refused to renew the registrant's registration or authorization to operate an appraisal management company under the other state's or jurisdiction's law.

h. The registrant fails to create and maintain complete and accurate records as required by state or federal law, regulation, or rule.

i. The registrant, or an owner or controlling person thereof, has violated an order of the administrator.

j. The registrant has abandoned its place of business for 60 or more days.

k. The registrant fails to pay any fee required by Iowa Code chapter 543E or this chapter or to maintain a bond required by Iowa Code chapter 543E.

l. A fact or condition exists which, had it existed at the time of the original application for registration, would have warranted the administrator to refuse to issue the original registration.

2050.11(3) A registrant may surrender a registration by delivering to the administrator a written notice of surrender.
[**ARC 2869C**, IAB 12/21/16, effective 1/1/17; Editorial change: IAC Supplement 1/22/25]

481—2050.12(17A,543E) Appraisal management company national registry maintained by the appraisal subcommittee. The administrator shall transmit to the appraisal subcommittee information and fees as necessary for inclusion on the appraisal management company national registry.

2050.12(1) *Registered appraisal management companies.* The administrator shall transmit to the appraisal subcommittee all information regarding registered appraisal management companies required for inclusion on the appraisal management company national registry, including but not limited to a roster of appraisal management companies registered in this state and records relating to any disciplinary action taken against a registrant.

2050.12(2) *Federally regulated appraisal management companies.* The administrator shall collect from a federally regulated appraisal management company all fees required for registration on the appraisal management company national registry maintained by the appraisal subcommittee. A federally regulated appraisal management company shall also pay all fees associated with the administration of this rule, including but not limited to fees required by the NMLS. The administrator shall collect from a federally regulated appraisal management company the following information necessary for the fulfillment of this

obligation: the name, address, and telephone number of the company; the national registry identification number and tax identification number of the company; the start date of the company's registration on the appraisal management company national registry; the name of and contact information for a contact person for the company; and any other information as required by the administrator.

[**ARC 2869C**, IAB 12/21/16, effective 1/1/17; Editorial change: IAC Supplement 1/22/25]

481—2050.13(17A,543E) Preregistration.

2050.13(1) A person who is not required to register as an appraisal management company because its appraiser panel does not meet or exceed the size requirements specified in Iowa Code section 543E.3(2) may apply to the administrator for preregistration as an appraisal management company. If the administrator approves the application, the applicant will receive a preliminary notice indicating that the administrator intends to approve the applicant for registration as an appraisal management company, based on the information submitted, as soon as the appraiser panel that the applicant oversees meets or exceeds the statutory size requirements. The administrator's preliminary intent to approve registration will remain subject to change in the event that the administrator receives additional information indicating that registration should be denied.

2050.13(2) An applicant seeking preregistration as an appraisal management company must follow the application procedures prescribed in rule 481—2050.2(17A,543E), including providing all required information. The applicant shall indicate that the applicant is applying for preregistration as an appraisal management company. The applicant shall submit the application fee required by rule 481—2050.2(17A,543E), but an applicant under this provision need not submit the initial registration fee or the fee required by the appraisal management company national registry. The administrator shall approve or deny the application for preregistration based on the criteria enumerated in rule 481—2050.3(17A,543E). Even if the administrator approves the application for preregistration, the applicant will not be registered on the appraisal management company national registry.

2050.13(3) A person who has received preregistration as an appraisal management company must apply for registration as an appraisal management company at least 30 days before the appraisal panel that the preregistered person oversees meets or exceeds the size requirements specified in Iowa Code section 543E.3(2). The applicant shall submit a conversion application to the administrator, through the NMLS or as otherwise prescribed by the administrator, specifying the new size of the applicant's appraiser panel as required by subrule 2050.2(2), updating all required information as necessary, and including any other information as prescribed by the administrator. The applicant shall also submit a conversion fee, the initial registration fee, and the fee required by the appraisal management company national registry as specified in subrule 2050.8(5).

2050.13(4) The administrator shall approve the application for registration unless additional information submitted by the applicant, or otherwise received by the administrator, indicates that the applicant is ineligible for registration based on the criteria enumerated in rule 481—2050.3(17A,543E). After the administrator approves registration, the applicant will be registered on the appraisal management company national registry and must comply with the provisions of Iowa Code chapter 543E and this chapter.

HEARING AID SPECIALISTS

CHAPTER 2060
LICENSURE OF HEARING AID SPECIALISTS

[Prior to 5/29/02, see 645—120.2(154A) to 120.6(154A) and 120.10(154A)]
[Prior to 10/30/24, see Professional Licensure Division[645] Ch 121]
[Prior to 5/29/02, see 481—120.2(154A) to 120.6(154A) and 120.10(154A)]

Chapter rescission date pursuant to Iowa Code section 17A.7: 6/18/30

481—2060.1(154A) Definitions. For purposes of these rules, the following definitions apply:

"Active license" means a license that is current and has not expired.

"Department" means the department of inspections, appeals, and licensing.

"Dispense" or *"sell"* means a transfer of title or of the right to use by lease, bailment, or any other means, but excludes a wholesale transaction with a distributor or hearing aid specialist, and excludes the temporary, charitable loan or educational loan of a hearing aid without remuneration.

"Grace period" means the 30-day period following expiration of a license when the license is still considered to be active.

"Hearing aid specialist" means any person engaged in the fitting, dispensing and sale of hearing aids and providing hearing aid services or maintenance by means of procedures stipulated by Iowa Code chapter 154A or the department. These rules are not intended to regulate unlicensed people who sell, dispense, market, use, distribute, or provide customer support to over-the-counter hearing aids as regulated by the U.S. Food and Drug Administration.

"Inactive license" means a license that has expired because it was not renewed by the end of the grace period.

"License" means a license issued by the state to a hearing aid specialist.

"Licensee" means any person licensed to practice as a hearing aid specialist in the state of Iowa.

"Licensure by endorsement" means the issuance of an Iowa license to practice as a hearing aid specialist to an applicant who is or has been licensed in another state.

"National examination" means the standardized licensing examination of the International Hearing Society (IHS) or its successor organization.

"Reactivate" or *"reactivation"* means the process as outlined in rule 481—2060.8(17A,147,272C) by which an inactive license is restored to active status.

"Reinstatement" means the process as outlined in rule 481—506.31(272C). Once the license is reinstated, the licensee may apply for active status.

"Temporary permit" means a permit issued while the applicant is in training to become a licensed hearing aid specialist.

"Trainee" means the holder of a temporary permit.

[**ARC 9285C**, IAB 5/14/25, effective 6/18/25]

481—2060.2(154A) Temporary permits.

2060.2(1) The applicant will submit a completed online application and pay the nonrefundable licensure fee specified in rule 481—507.7(147,154A). The application will be accompanied by a statement from the employer, which includes the following information:

a. The type of supervision to be provided to the trainee;

b. A list of the subjects to be covered;

c. The books and other training materials to be used for training; and

d. An outline of the training program to prepare the trainee for examination.

2060.2(2) A temporary permit is valid for two years and shall not be renewable.

2060.2(3) The department reserves the right to deny an application for a temporary permit or rescind a temporary permit once issued.

[**ARC 9285C**, IAB 5/14/25, effective 6/18/25]

481—2060.3(154A) Supervision requirements.

2060.3(1) The supervisor(s) of temporary permit holders will:

a. Have a current hearing aid specialist license valid for the preceding 24 months;

b. Have two years of actual experience in testing, fitting, and dispensing of hearing aids;

c. Supervise no more than three trainees at the same time;

d. Be responsible for training the temporary permit holder;

e. For the first 90 days, provide a minimum of 20 hours of direct supervision;

f. Provide direct supervision for any client activity that would require dispensing of hearing aids, including evaluation, selection, fitting or selling of hearing aids in the first 90 days;

g. Evaluate the audiograms and determine which hearing aid and ear mold will best compensate for hearing loss;

h. Cosign all audiometric evaluations and contracts processed by the trainee for the duration of the temporary permit;

i. Submit, on a department-approved form, a supervision report for trainees prior to taking the department-approved examination. A supervision report is required each time the temporary permit holder submits a request to take the examination; and

j. Notify the department within 15 days of the termination of the holder of a temporary permit.

2060.3(2) A trainee with a temporary permit will notify the department in writing within ten days of an interruption of training due to loss of supervision and, within 30 days, obtain a replacement supervisor for continuance of the training period. A statement will be signed by each supervisor.

2060.3(3) If a statement by the replacement supervisor is not submitted, the trainee will revert to new trainee status.

[**ARC 9285C**, IAB 5/14/25, effective 6/18/25]

481—2060.4(154A) Requirements for initial licensure. The following criteria apply to licensure:

2060.4(1) The applicant will submit a completed online application and pay the nonrefundable licensure fee specified in rule 481—507.7(147,154A).

2060.4(2) The applicant will provide verification of passing one of the following examinations:

a. The national examination through IHS. The applicant may not take the national examination through IHS more than six times without department approval.

b. The Praxis Examination in audiology through the Educational Testing Service.

2060.4(3) Applicants who hold a temporary permit are required to submit a supervisory report in accordance with paragraph 2060.3(1)*"i."*

2060.4(4) An applicant who has been licensed in another state will provide verification of license from the jurisdiction in which the applicant has most recently been licensed, sent directly from the jurisdiction to the department. The applicant must also disclose any public or pending complaints against the applicant in any other jurisdiction. Web-based verification may be substituted for verification directly from the jurisdiction's board office if the verification provides:

a. Licensee's name;

b. Date of initial licensure;

c. Current licensure status; and

d. Any disciplinary action taken against the license.

2060.4(5) An applicant who has relocated to Iowa from a state that did not require licensure to practice the profession may submit proof of work experience in lieu of educational and training requirements, if eligible, in accordance with rule 481—501.2(272C).

2060.4(6) Incomplete applications that have been on file in the department for more than two years will be considered invalid and destroyed unless requested in writing by the candidate.

[**ARC 9285C**, IAB 5/14/25, effective 6/18/25]

481—2060.5(154A) Licensure by endorsement.

2060.5(1) Applicants who have been a licensed hearing aid specialist under the laws of another jurisdiction may apply for licensure by endorsement by submitting the following:

a. Verification the applicant meets the requirements of rule 481—2060.4(154A);

b. Evidence of licensure requirements that are similar to those required in Iowa;

c. Official verification of one of the following:

(1) A passing score on the national examination determined by IHS;

(2) A passing score on an examination that the department determines is equivalent to the national examination; or

(3) Current certification from the National Board for Certification in Hearing Instrument Sciences; and

d. Evidence of:

(1) Completing a minimum of 24 continuing education hours within the 24 months prior to application; or

(2) Continuing education certificates that verify that the minimum hours of continuing education required by a state(s) in which the licensee is currently licensed have been met.

2060.5(2) A person who is licensed in another jurisdiction but who is unable to satisfy the requirements for licensure by endorsement may apply for licensure by verification, if eligible, in accordance with rule 481—501.1(272C).

[**ARC 9285C**, IAB 5/14/25, effective 6/18/25]

481—2060.6(154A) Display of license. Hearing aid specialists will display their original licenses in a conspicuous public place at the primary site of practice.

[**ARC 9285C**, IAB 5/14/25, effective 6/18/25]

481—2060.7(154A) License renewal.

2060.7(1) The biennial license renewal period for a hearing aid specialist license will begin on January 1 of each odd-numbered year and end on December 31 of the next even-numbered year. The licensee is responsible for renewing the license prior to its expiration.

2060.7(2) A licensee applying for renewal will:

a. Meet the continuing education requirements of rule 481—2061.2(154A) and the mandatory reporting requirements of subrule 2060.7(4). A licensee whose license was reactivated during the current renewal compliance period may use continuing education credit earned during the compliance period for the first renewal following reactivation; and

b. Submit the completed renewal application and renewal fee before the license expiration date.

An individual who was issued a license within six months of the license renewal date will not be required to renew the license until the next renewal two years later.

2060.7(3) Late renewal. The license will become late when the license has not been renewed by the expiration date on the renewal. The licensee will be assessed a late fee as specified in 481—subrule 507.7(4). To renew a late license, the licensee will complete the renewal requirements and submit the late fee within the grace period.

2060.7(4) Mandatory reporter training requirements.

a. A licensee who examines, attends, counsels, or treats children, dependent adults or both in the scope of the licensee's professional practice will complete the applicable department of health and human services training relating to the identification reporting of child abuse, dependent adult abuse, or both. Written documentation of training completion should be maintained for three years. The training is not required if the licensee is engaged in active duty military service or holds a waiver demonstrating a hardship in complying with these training requirements.

b. The department may select licensees for audit of compliance with the requirements in rule 481—2061.2(154A).

2060.7(5) A two-year license will be issued after the requirements of the rule are met. If the department receives adverse information on the renewal application, the department will issue the renewal license but may refer the adverse information for further consideration or disciplinary investigation.

2060.7(6) Inactive license. A licensee whose license is inactive continues to hold the privilege of licensure in Iowa, but may not practice until the license is reactivated.

[**ARC 9285C**, IAB 5/14/25, effective 6/18/25]

481—2060.8(17A,147,272C) License reactivation. To apply for reactivation of an inactive license, a licensee will:

2060.8(1) Submit a completed online reactivation application and payment of the nonrefundable application fee.

2060.8(2) Provide verification of current competence to practice as a hearing aid specialist by satisfying one of the following criteria:

a. If the license has been on inactive status for five years or less, an applicant will provide the following:

(1) Verification of the license(s) from the jurisdiction in which the applicant has most recently been licensed showing the licensee's name, date of initial licensure, current licensure status and any disciplinary action taken against the license; and

(2) Verification of completion of 24 hours of continuing education within two years of application for reactivation.

b. If the license has been on inactive status for more than five years, an applicant must provide the following:

(1) Verification of the license(s) from the jurisdiction in which the applicant has most recently been licensed showing the licensee's name, date of initial licensure, current licensure status and any disciplinary action taken against the license; and

(2) Verification of completion of 48 hours of continuing education within two years of application for reactivation.

[**ARC 9285C**, IAB 5/14/25, effective 6/18/25]

481—2060.9(17A,147,272C) License reinstatement. A licensee whose license has been revoked, suspended, or voluntarily surrendered must apply for and receive department-approved reinstatement of the license and must apply for and be granted reactivation of the license prior to practicing as a hearing aid specialist in this state.

[**ARC 9285C**, IAB 5/14/25, effective 6/18/25]

These rules are intended to implement Iowa Code chapters 17A, 147, 154A and 272C.

CHAPTER 2061
CONTINUING EDUCATION FOR HEARING AID SPECIALISTS
[Prior to 10/30/24, see Professional Licensure Division[645] Ch 122]

Chapter rescission date pursuant to Iowa Code section 17A.7: 5/22/29

481—2061.1(154A) Definitions. For the purpose of these rules, the following definitions will apply:

"Active license" means a license that is current and has not expired.

"Approved program/activity" means a continuing education program/activity meeting the standards set forth in these rules.

"Audit" means the selection of licensees for verification of satisfactory completion of continuing education requirements during a specified time period.

"Continuing education" means planned, organized learning acts designed to maintain, improve, or expand a licensee's knowledge and skills in order for the licensee to develop new knowledge and skills relevant to the enhancement of practice, education, or theory development to improve the safety and welfare of the public.

"Hour of continuing education" means at least 50 minutes spent by a licensee in actual attendance at and completion of an approved continuing education activity.

"Inactive license" means a license that has expired because it was not renewed by the end of the grace period.

"Independent study" means a subject/program/activity that a person pursues autonomously that meets standards for approval criteria in the rules.

"License" means a license issued by the state to a hearing aid specialist.

"Licensee" means any person licensed to practice as a hearing aid specialist in the state of Iowa.

[**ARC 7818C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 10/30/24]

481—2061.2(154A) Continuing education requirements.

2061.2(1) The biennial continuing education compliance period extends for a two-year period beginning on January 1 of each odd-numbered year and ending on December 31 of the next even-numbered year. Each biennium, each person who is licensed to practice as a hearing aid specialist in this state is required to complete a minimum of 24 hours of continuing education. A minimum of two hours will be in the content areas of Iowa hearing aid specialist law and rules, or ethics. Licensees who complete continuing education hours in excess of the requirements for renewal may apply up to 50 percent of the required hours to the following renewal period. Licensees may apply a maximum of 12 hours from the previous renewal period.

2061.2(2) Those persons licensed for the first time shall not be required to complete continuing education as a prerequisite for the first renewal of their licenses. Continuing education hours acquired anytime from the initial licensing until the second license renewal may be used.

2061.2(3) Hours of continuing education credit may be obtained by attending and participating in a continuing education activity.

2061.2(4) The licensee is responsible for the cost of continuing education.

[**ARC 7818C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 10/30/24; **ARC 9286C**, IAB 5/14/25, effective 6/18/25]

481—2061.3(154A,272C) Standards.

2061.3(1) *General criteria.* A continuing education activity that meets all of the following criteria is appropriate for continuing education credit if the continuing education activity:

a. Is an organized program of learning fundamental to the practice of the profession that contributes directly to the professional competency of the licensee;

b. Is conducted by individuals who have specialized education, training and experience in the subject matter of the program;

c. Fulfills stated program goals, objectives, or both; and

d. Provides proof of attendance including:

(1) Date, place, course title, presenter(s);

(2) Number of program contact hours; and

(3) Certificate of completion or evidence of successful completion of the course provided by the course sponsor.

2061.3(2) *Specific criteria.* Continuing education hours of credit may be obtained by completing the following in person or virtually:

a. Academic coursework if the coursework is offered by an accredited postsecondary educational institution. The maximum number of continuing education hours of credit for academic coursework per biennium is 15 hours with:

b. 1 academic semester hour = 15 continuing education hours; and 1 academic quarter hour = 10 continuing education hours.

c. A maximum of four hours of credit may be obtained by independent study. Independent study hours are subject to the requirements stated in the rules in this chapter and in 481—Chapter 500.

d. Attending programs or conferences or business, technical, or professional seminars that enhance a licensee's ability to provide quality hearing health care services.

e. Mandatory reporter training as specified in 481—subrule 2060.7(4). Hours reported for credit shall not exceed the hours required for compliance.

[**ARC 7818C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 10/30/24; Editorial change: IAC Supplement 8/20/25]

These rules are intended to implement Iowa Code section 272C.2 and chapter 154A.

CHAPTER 2062
PRACTICE OF HEARING AID DISPENSING
[Prior to 10/30/24, see Professional Licensure Division[645] Ch 123]

Chapter rescission date pursuant to Iowa Code section 17A.7: 5/22/29

481—2062.1(154A) Definitions. For the purposes of these rules, the following definitions apply:

"Health history" means a series of questions pertaining to all of the following: client hearing needs and expectations, communication issues, otological conditions, medications, and previous amplification.

"Hearing aid fitting" means any of the following: the measurement of human hearing by any means for the purpose of selections, adaptations, and sales of hearing aids, and the instruction and counseling pertaining thereto, and demonstration of techniques in the use of hearing aids, and the making of earmold impressions as part of the fitting of hearing aids.

"Sales receipt" means a written record that is provided to a person who purchases a hearing aid. The sales receipt must be in compliance with these rules and be signed by the purchaser and the licensed hearing aid specialist. The requirements for the sales receipt may be found in rule 481—2062.3(154A).

[**ARC 7819C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 10/30/24]

481—2062.2(154A) Requirements prior to sale of a hearing aid.

2062.2(1) Except as otherwise stated in these rules, no hearing aid shall be sold to an individual 18 years of age or older unless the individual:

a. Provides a health history to a licensed hearing aid specialist;

b. Presents a physician statement verifying that a medical evaluation, preferably by a physician specializing in diseases of the ear, has been done within the previous six months and stating the individual's hearing loss, and that the individual may benefit from a hearing aid. In lieu of this requirement, the individual may verify in writing that the individual has been advised to obtain a medical evaluation by a licensed physician specializing in diseases of the ear, or if no such licensed physician is available in the community, then a duly licensed physician, and that the individual chooses to waive said evaluation; and

c. Is given a hearing examination that utilizes appropriate established procedures and instrumentation for the measurement of hearing and the fitting of hearing aids and that includes but is not limited to an assessment of the following: air conduction, bone conduction, masking capability, speech reception thresholds, speech discrimination, uncomfortable loudness levels (UCL), and most comfortable levels (MCL).

2062.2(2) Any medical evaluation completed by a licensed physician requires all of the following prior to the sale of a hearing aid to an individual: receipt of the physician statement and clearance for amplification; and completion by the licensed hearing aid specialist of a current written health history and hearing examination that includes all of the procedures required in these rules, unless the physician order specifies otherwise. In the event an audiogram is provided by the physician, this testing requirement is waived. All records provided to the licensed hearing aid specialist will be maintained in the individual's records in accordance with the recordkeeping requirements in these rules.

2062.2(3) Whenever any of the following conditions are found to exist either from observations by the licensed hearing aid specialist or person holding a temporary permit or on the basis of information furnished by a prospective hearing aid user, the hearing aid specialist or person holding a temporary permit will, prior to fitting and selling a hearing aid to any individual, suggest to that individual in writing that the individual should consult a licensed physician specializing in diseases of the ear, or if no such licensed physician is available in the community, then a duly licensed physician:

a. Visible congenital or traumatic deformity of the ear.

b. History of, or active drainage from the ear within the previous 90 days.

c. History of sudden or rapidly progressive hearing loss within the previous 90 days.

d. Acute or chronic dizziness.

e. Unilateral hearing loss of sudden or recent onset within the previous 90 days. Significant air-bone gap (greater than or equal to 15dB ANSI 500, 1000 and 2000 Hz. average).

f. Obstruction of the ear canal by structures of undetermined origin, such as foreign bodies, impacted cerumen, redness, swelling, or tenderness from localized infections of the otherwise normal ear canal.

2062.2(4) Testing is not required in cases in which replacement hearing aids of the same make or model are sold within one year of the original sale, unless a medical evaluation occurs during this period, which requires compliance with the requirements stated in 2062.2(2).

2062.2(5) Except as otherwise provided in these rules, for individuals younger than 18 years of age, all of the requirements stated in these rules are applicable. In addition, the following are required:

a. Written authorization of a parent or legal guardian consenting to the services covered in these rules, and

b. An original signature on all documents required by law or these rules to be signed, including all sales transactions and receipts, required notifications, and warranty agreements.

2062.2(6) For individuals 12 years of age or younger, all of the requirements stated in these rules are applicable. In addition, the parent or legal guardian must first present a written, signed recommendation for a hearing aid from a licensed physician specializing in otolaryngology. The recommendation must have been made within the preceding six months. In the event of a lost or damaged hearing aid, a replacement of an identical hearing aid may be provided within one year, unless a medical evaluation occurs during this period, which requires compliance with the requirements stated in 2062.2(2).

[**ARC 7819C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 10/30/24]

481—2062.3(154A) Requirements for sales receipt. Upon sale of a hearing aid device, the licensee shall provide to the person a sales receipt, which will include the following:

1. Licensee's signature.
2. Licensee's business address.
3. Licensee's license number.
4. Client signature and address.
5. Make, model, and serial number of the hearing aid furnished.
6. Statement to the effect that the aid or aids delivered to the purchaser are used or reconditioned, if that is the fact.
7. Full terms of sale, including:

- The date of sale;
- Specific warranty terms, including whether any extended warranty is available through the manufacturer;
- Specific return policy; and
- Whether any trial period is available.

8. The following statement in type no smaller than the largest used in the body copy portion of the receipt:

"The purchaser has been advised that any examination or representation made by a licensed hearing aid specialist in connection with the fitting or selection and selling of this hearing aid is not an examination, diagnosis, or prescription by a person licensed to practice medicine in this state and therefore, must not be regarded as medical opinion or advice."

[**ARC 7819C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 10/30/24]

481—2062.4(154A) Requirements for recordkeeping. A licensee shall keep and maintain records in the licensee's office or place of business at all times, and each such record shall be kept and maintained for a seven-year period.

2062.4(1) The records for each person will include:

a. A complete record of each test performed and the results of the test.

b. A copy of any written recommendations.

c. A copy of medical clearances or waivers.

d. A copy of the written sales receipt.

e. A copy of terms of sale, including any warranty. A record of any adjustments or services provided on the hearing aid device, including whether such services were provided under warranty or other agreement.

f. A notation that the client consented, either verbally or in writing, to a service or services provided through a telehealth appointment, if applicable.

2062.4(2) No less than 30 days prior to closure of a licensee's business, the licensee will provide written notification to clients of the location at which records will be maintained for a period of no less than 30 days following closure and the procedure to obtain those records. The licensee may arrange the transfer of records to another licensee for the purpose of maintenance of the records, provided that all contractual agreements have been satisfied.

[**ARC 7819C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 10/30/24]

481—2062.5(154A) Telehealth appointments. A licensee may conduct a telehealth appointment so long as the services are provided in accordance with this rule.

2062.5(1) A "telehealth appointment" is one wherein the licensee provides testing or adjustment services to a client using technology where the hearing aid specialist and the client are not at the same physical location during the appointment.

2062.5(2) Conducting a telehealth appointment with a client who is physically located in Iowa during the appointment, regardless of the location of the hearing aid specialist, requires Iowa licensure.

2062.5(3) When conducting a telehealth appointment, a licensee will utilize technology that is secure, HIPAA-compliant (Health Insurance Portability and Accountability Act of 1996, PL 104–191, August 21, 1996, 110 Stat 1936), and that includes, at a minimum, audio and video equipment that allows for two-way, real-time interactive communication between the licensee and the client. The licensee may use non-real-time technologies to prepare for an appointment or to communicate with clients between appointments.

2062.5(4) A licensee who conducts a telehealth appointment will be held to the same standard of care as a licensee who provides in-person services. A licensee will not utilize a telehealth appointment if the standard of care for the particular service cannot be met using telehealth technology.

2062.5(5) Prior to the first telehealth appointment with a client, the licensee will obtain informed consent from the client that is specific to the service or services that will be provided in the telehealth appointment. The informed consent will specifically inform the client of, at a minimum, the following:

a. The risks and limitations of the use of technology to the specific service;

b. The potential for unauthorized access to protected health information; and

c. The potential for disruption of technology during a telehealth appointment.

2062.5(6) A licensee will only conduct a telehealth appointment if the licensee is competent to provide the particular service using telehealth technology. A licensee's competence to provide a particular service using telehealth technology will be established by the licensee's education, training, and experience.

2062.5(7) A licensee who conducts a telehealth appointment will note in the client's record that the service or services were provided through a telehealth appointment.

CHAPTER 2063
DISCIPLINE FOR HEARING AID SPECIALISTS

[Prior to 5/29/02, see 645—120.11(272C)]
[Prior to 10/30/24, see Professional Licensure Division[645] Ch 124]

Chapter rescission date pursuant to Iowa Code section 17A.7: 9/10/30

481—2063.1(154A,272C) Grounds for discipline. The department may impose any of the disciplinary sanctions provided in rule 481—504.3(272C) when the department determines that the licensee is guilty of any of the following acts or offenses or those listed in 481—Chapter 504:

2063.1(1) Failure to comply with the current Code of Ethics of the International Hearing Society (2023). The department hereby adopts by reference the current Code of Ethics of the International Hearing Society, available at www.ihsinfo.org.

2063.1(2) Advertising that hearing testing or hearing screening is a medical examination used to diagnose or refer.

2063.1(3) Except in cases of selling replacement hearing aids of the same make or model within one year of the original sale, a hearing aid will not be sold without adequate diagnostic testing and evaluation using established procedures to assess hearing needs as defined in 481—Chapter 2062. Testing equipment will be calibrated to current standards at least annually or more often if necessary. The distributor will keep with the testing equipment a certificate indicating the date of calibration.

CERTIFICATE OF NEED PROGRAM

CHAPTER 2202
CERTIFICATE OF NEED PROGRAM

[Prior to 7/29/87, Health Department[470] Ch 202]
[Prior to 9/4/24, see Public Health Department[641] Ch 202]

Chapter rescission date pursuant to Iowa Code section 17A.7: 6/5/29

481—2202.1(10A) Definitions. For purposes of this chapter, the following definitions apply:

"Acute care category of bed usage," as the term applies in Iowa Code section 10A.713(2)*"k,"* is the same as the acute care categories listed in the state survey section of the American Hospital Association Annual Survey of Hospitals.

"Any expenditure in excess of five hundred thousand dollars," as defined in Iowa Code section 10A.711(18)*"e,"* means new capital expenditures necessary to operate the service for a year.

"Any mobile health service with a value in excess of one million five hundred thousand dollars," as defined in Iowa Code section 10A.711(18)*"l,"* means the value of all equipment used to provide the service, including the trailer. The party providing the equipment is the applicant regardless of the location of that party.

"Appropriate geographic service area," as the term applies to defining affected persons in Iowa Code section 10A.711(1)*"c,"* is defined as follows:

1. For applications regarding hospitals, hospitals located in the same county and in Iowa counties contiguous to the county wherein the applicant hospital's proposed project will be located.
2. For applications regarding health care facilities, other health care facilities located in the same county and in Iowa counties contiguous to the county wherein the applicant's proposed health care facility will be located.
3. For applications sponsored by other than the hospitals or health care facilities specified in paragraphs "1" and "2," those providers within the same county who offer similar service or might logically be viewed as potential providers of such service.

"Bed capacity" is defined as follows:

1. For hospitals, bed capacity is defined as the total facility licensed beds as reported on the state survey section of the American Hospital Association Annual Survey of Hospitals.
2. For health care facilities, bed capacity is defined as a facility's licensed bed capacity according to the department of inspections, appeals, and licensing.

"Cardiac catheterization service," as the term applies to a new or changed institutional health service in Iowa Code section 10A.711(18)*"m"*(1), means the initiation or expansion of this service.

"Consumers served by a new institutional health service" means those consumers residing in the service area as determined by the department.

"Long-term (acute) care hospital," for purposes of these rules, means a hospital that has been approved to participate in the Title XVIII (Medicare) program as a long-term care hospital-prospective payment system (LTCH-PPS) hospital in accordance with 42 CFR Part 412 as amended to March 29, 1985.

"Open heart surgical service," as the term applies to new or changed institutional health service in Iowa Code section 10A.711(18)*"m"*(2), means the initiation or expansion of this service.

"Organ transplantation service," as the term applies to a new or changed institutional health service in Iowa Code section 10A.711(18)*"m"*(3), means the initiation or expansion of this service. Each type of organ transplant shall be considered separately.

"Permanent change in bed capacity of an institutional health facility" includes but is not limited to the following:

1. A conversion of a long-term acute care hospital, a rehabilitation hospital or a psychiatric hospital as defined by federal regulations to a general acute care hospital or to a different type of specialty hospital.
2. A hospital that has deleted beds pursuant to Iowa Code section 10A.713(2)*"g"* for the purpose of receiving designation as a critical access hospital reestablishes the deleted beds at a later time, provided

that the number of beds reestablished does not exceed the number of beds maintained prior to the deletion as reported on the bed reduction form.

"Physical facility," as the term applies in Iowa Code section 10A.711(18)*"f,"* means a separately licensed facility.

"Private offices and private clinics of an individual physician, dentist, or other practitioner or group of health care providers." The meaning of this term as used in Iowa Code section 10A.713(2)*"a"* is determined by looking at factors that include but are not limited to:

1. The type of health care service delivered.
2. The control and supervision of medical judgment in the care of and treatment of patients.
3. The control and supervision of professional assistants, including nurses, physician associates, and technicians.
4. The ownership and maintenance of medical records of patients.

This term excludes an ambulatory surgical center as defined in Iowa Code section 135R.1.

"Radiation therapy service applying ionizing radiation for the treatment of malignant disease using megavoltage external beam equipment," as the term applies to new or changed institutional health service in Iowa Code section 10A.711(18)*"m"*(4), means the initiation or expansion of this service.

"Rehabilitation hospital," for the purposes of these rules, means a hospital that has been approved to participate in the Title XVIII (Medicare) program as an inpatient rehabilitation facility-prospective payment system (IRF-PPS) hospital in accordance with 42 CFR Part 412.23(b), 412.25 or 412.29 as amended to March 29, 1985.

"Relocation of an institutional health facility," as the term applies to new or changed institutional health service in Iowa Code section 10A.711(18)*"b,"* means the replacement of a facility located in one county with a facility located in another county.

"Value in excess of one million five hundred thousand dollars," as used in Iowa Code section 10A.711(18)*"g,""h,""i"* and *"j,"* means the value of the equipment including any applicable sales tax, delivery charge and installation charge. With respect to the initiation of radiation therapy services applying ionizing radiation for the treatment of malignant disease using the megavoltage external beam equipment, the term includes the cost of constructing a vault.

[**ARC 7932C**, IAB 5/1/24, effective 6/5/24; Editorial change: IAC Supplement 9/4/24; Editorial change: IAC Supplement 6/10/26]

481—2202.2(10A) Letter of intent.

2202.2(1) Before applying for a certificate of need, the sponsor of a proposed new institutional health service or changed institutional health service will electronically submit a letter of intent meeting the criteria noted in Iowa Code section 10A.715(1) and containing the project's estimated cost (site costs, land improvements, facility costs, movable equipment and financing costs, and any applicable sales tax for movable equipment, any applicable delivery charge for movable equipment, and any applicable installation charge for movable equipment).

2202.2(2) The department will make available on the certificate of need web page all criteria and standards that are pertinent to an application.

2202.2(3) A letter of intent received by the department is valid for a period of one year from the date of receipt by the department. The sponsor may renew the validity of a letter of intent by providing written notification to the department prior to the one-year expiration date.

[**ARC 7932C**, IAB 5/1/24, effective 6/5/24; Editorial change: IAC Supplement 9/4/24]

481—2202.3(10A) Determination of reviewability. A sponsor of a proposed project may submit a written request for a determination of reviewability as to whether the project requires a certificate of need.

2202.3(1) The request should include sufficient details of the proposed project and cite the sections of the Iowa Code that the sponsor relies upon to assert the project is not reviewable.

2202.3(2) Upon receipt of a written request from the sponsor of a project, the department will determine if a proposed project requires a certificate of need under Iowa Code sections 10A.711 through 10A.729. The department may request additional information about the project to make the determination.

a. If it is determined that a certificate of need is required, the sponsor will be notified by the department and the request for nonreviewability will be considered the letter of intent for purposes of 2202.2(2).

b. If it is determined that a certificate of need is not required, the sponsor will be notified by the department and the determination of nonreviewability will be placed on the next agenda of the state health facilities council for consideration.

c. The notification to the sponsor of the results of the department's review of the request will include specific Iowa Code citations relied upon to support the determination.

[**ARC 7932C**, IAB 5/1/24, effective 6/5/24; Editorial change: IAC Supplement 9/4/24]

481—2202.4(10A) Submission of application.

2202.4(1) *Application form.*

a. A sponsor of a proposed project for a new or changed institutional health service will submit to the department an application for certificate of need by using the appropriate application form found on the certificate of need web page. All information requested in the application form will be required in the absence of a waiver by the department.

b. An original application and all attachments shall be submitted via electronic mail.

c. The department will establish and maintain electronic files on each application.

2202.4(2) *Application fee.* The application fee specified in Iowa Code section 10A.713(1) is based on the total cost of the project, including site costs, land improvements, facility costs, movable equipment, and financing costs.

a. The fee for leased or donated new institutional health services is calculated in the same manner as if the new institutional health services were purchased.

(1) The leased equipment fee is based on total value of the lease, plus sales tax, delivery and installation.

(2) The lease of space includes the cost of a one-year-lease payment for the space, in addition to other costs associated with the project.

(3) Financing costs are not applicable on leases or cash purchases.

b. The application fee will be refunded by the department for any application that is voluntarily withdrawn from the review process in the amounts specified in Iowa Code section 10A.713(1).

c. For purposes of this subrule and Iowa Code section 10A.713(1), the term "submission" means the day the application is received by the department.

[**ARC 7932C**, IAB 5/1/24, effective 6/5/24; Editorial change: IAC Supplement 9/4/24]

481—2202.5(10A) Organizational procedures.

2202.5(1) The presence of three members of the council shall constitute a quorum.

2202.5(2) The chair and all other council members present will cast votes or abstain, as the case may be, on all council action. No proxy votes shall be allowed.

2202.5(3) A vote of a majority of those present will be necessary to take action on any motion before the council. A tie vote means no action on the motion.

2202.5(4) The council will, at the first meeting after July 1 of each odd-numbered year, elect a vice-chair to perform the duties of the chair in the chair's absence, when the chair has a conflict of interest or when the chair so directs.

2202.5(5) A council member will refrain from participating in an application review process if the member:

a. Has a personal bias or prejudice concerning the applicant;

b. Has acted as counsel to the applicant or a competitor of the applicant in the same or adjoining county within the past two years;

c. Has a financial interest in the outcome of the application process or any other significant personal interest that could be substantially affected by the outcome of the case;

d. Has a spouse or relative within the third degree of relationship that (1) is affiliated with or represents the applicant or a competitor of the applicant in the same or adjoining county; (2) has a known financial or significant personal interest that could be substantially affected by the outcome of the

application process; or (3) is likely to testify on behalf of the applicant or an affected person at public hearing; or

e. Has any other legally sufficient cause to refrain from participating in the application review process.

[**ARC 7932C**, IAB 5/1/24, effective 6/5/24; Editorial change: IAC Supplement 9/4/24]

481—2202.6(10A) Public hearing on application. Public hearings conducted pursuant to Iowa Code section 10A.716(3)*"b"* are not contested cases. Judicial review pursuant to Iowa Code section 17A.19 of final agency decisions under Iowa Code section 10A.719 will be treated as other agency action.

2202.6(1) The council will use the following meeting format:

a. Announcement of application under review.

b. Presentation of department report.

c. Applicant presentation.

d. Affected persons' presentation.

e. Applicant's rebuttal.

f. Council discussion, motion and final decision.

2202.6(2) The notice of an accepted application issued pursuant to Iowa Code section 10A.716(2) will inform the applicant and affected persons of the deadlines for the electronic submission to the department of written statements or other materials. These deadlines will also be posted on the certificate of need web page.

Written submissions received by the department after the deadlines established in this notice will not be considered by the department or the council unless submitted at the public hearing solely to support oral testimony or upon a showing of good cause.

2202.6(3) The applicant, affected persons, or their designated representatives will be given the opportunity to make oral presentations to the council. Other interested persons may be given the opportunity to make oral presentations to the council.

2202.6(4) Oral testimony that simply duplicates material received in writing will not be heard. The applicant and affected persons will present only one witness for each issue raised unless permission is requested and granted by the chair.

2202.6(5) All questions to an applicant or affected person presenting oral testimony will be directed from the council or council staff unless permission is requested and granted by the chair. Persons making oral presentations to the council are not expected to be placed under oath.

2202.6(6) The council may designate technical consultants or experts to assist in its activities as defined by the council.

[**ARC 7932C**, IAB 5/1/24, effective 6/5/24; Editorial change: IAC Supplement 9/4/24]

481—2202.7(10A) Summary review. Pursuant to Iowa Code section 10A.717, an applicant requesting a summary review will abide by the following procedures:

2202.7(1) Electronically submit a written request for summary review and a copy of the application and all attachments. The applicant is not required to submit a letter of intent pursuant to Iowa Code section 10A.715 prior to submitting a written request for a summary review.

2202.7(2) The eligibility of an application for summary review pursuant to Iowa Code section 10A.717 does not mandate or require such review. The department will make the decision as to whether an application will be reviewed in the summary review process.

2202.7(3) Upon receipt of a written request for summary review, an application, and the fee required by Iowa Code section 10A.713(1), the department will notify the applicant in writing within 15 calendar days if the application is complete and if a summary review will be granted.

2202.7(4) If an application is deemed incomplete, the department will state specifically in writing what information is needed to make the application complete.

2202.7(5) If the department notifies the applicant that a summary review will not be performed, this decision is binding on the applicant and the application will be entered into the formal review process on the date of written notice that such application will not be reviewed summarily.

2202.7(6) A summary review of an application for a certificate of need will be completed within 60 calendar days of the acceptance of an application by the department.

2202.7(7) At any time during the summary review process, an application may be withdrawn without prejudice from the process. The applicant may then submit the application for a formal 90-day review.

[**ARC 7932C**, IAB 5/1/24, effective 6/5/24; Editorial change: IAC Supplement 9/4/24]

481—2202.8(10A) Extension of review time.

2202.8(1) A formal review of an application for a certificate of need pursuant to Iowa Code section 10A.716 may be extended by the department on the basis of any of the following criteria:

a. In order to review competing applications simultaneously;

b. In the case of technologically innovative equipment, to obtain additional information necessary to evaluate the proposal. The department will specify in writing such additional information as necessary;

c. At the request of the applicant;

d. At the request of at least two members of the state health facilities council in order to allow additional time for deliberation on all evidence present. The council will specify the time of the delay and the date on which the final decision will be rendered.

2202.8(2) An extension by the department made pursuant to 2202.8(1) will in no case be more than 60 calendar days beyond the time a decision is required under Iowa Code section 10A.719 unless the applicant and department agree.

2202.8(3) Where none of the provisions of 2202.8(1) are applicable and where an application will be automatically denied because of the expiration of time required by Iowa Code section 10A.719 for the issuance of a written decision by the council, the department will notify the applicant of the likelihood of an automatic denial and will ask the applicant to request in writing an extension of the review time. Where an extension is so requested, the application will be heard at the next regularly scheduled meeting of the council or at any time agreeable to the applicant and the department.

[**ARC 7932C**, IAB 5/1/24, effective 6/5/24; Editorial change: IAC Supplement 9/4/24]

481—2202.9(10A) Rehearing of certificate of need decision.

2202.9(1) The applicant or any affected person who has participated or sought unsuccessfully to participate in the formal review procedure prescribed in Iowa Code section 10A.716 may, for good cause shown, file an application for rehearing in writing with the department stating the specific grounds therefor and the relief sought, within 20 calendar days after the date of the issuance of the final decision on an application for certificate of need.

2202.9(2) Grounds for rehearing include but are not limited to:

a. New significant, relevant information that was unavailable at the date of the hearing;

b. Significant changes in factors or circumstances relied upon by the council in reaching its decision;

c. Demonstration that the council has materially failed to follow its adopted procedures in reaching its decision; or

d. Such other bases as the council determines constitute good cause.

2202.9(3) An application for rehearing is deemed to have been denied unless the council grants the application in writing within 20 calendar days after its filing.

2202.9(4) If the application for rehearing is granted, the council may issue an order modifying the initial final order, or may set the matter for consideration at a subsequent meeting date. If public hearing is granted on the application for rehearing, notice will be provided ten calendar days prior to hearing to the person applying for rehearing, the applicant and other affected persons upon request pursuant to 481—2202.10(10A).

2202.9(5) The council will issue the final decision on rehearing, stating the basis for its decision, within 30 calendar days after the application for rehearing was granted or 30 calendar days after public hearing on rehearing, whichever is later.

2202.9(6) If a rehearing is not requested or an affected party remains dissatisfied after the request for rehearing, an appeal may be taken in the manner provided by Iowa Code chapter 17A. A request for rehearing is not required prior to appeal under Iowa Code section 17A.19.

[**ARC 7932C**, IAB 5/1/24, effective 6/5/24; Editorial change: IAC Supplement 9/4/24]

481—2202.10(10A) Status reports to affected persons. Affected persons are entitled to status reports from the department while a formal application review is in progress pursuant to Iowa Code section 10A.718. The department will maintain a log of all requests for written status reports by affected persons. Affected persons who request written status reports will submit an electronic request, identifying the specific information requested, which may include notification of the council's final decision, any application for rehearing, or the filing of a petition for judicial review. The formal process does not preclude informal contacts with department staff for verbal status reports. Printed copies of the council's final decision, an application for rehearing, a petition for judicial review, or any other public record will be provided upon request.

[**ARC 7932C**, IAB 5/1/24, effective 6/5/24; Editorial change: IAC Supplement 9/4/24]

481—2202.11(10A) Finality. The certificate of need application process is continuous beginning with submission of a letter of intent or request for waiver of a letter of intent through issuance of a final decision by the council subject to judicial review under Iowa Code chapter 17A.

2202.11(1) The following stages of the process are intermediate and subject to judicial review only to the extent they meet criteria for intermediate review under Iowa Code section 17A.19:

a. A decision by the department pursuant to 481—2202.3(10A) that a proposed project does not require a certificate of need;

b. A decision by the department to waive submission of the letter of intent and substitute summary review; and

c. The rejection of an application by the department that fails to provide all information required under Iowa Code section 10A.713(1).

2202.11(2) The following stages of the process are final decisions subject to judicial review as final agency action under Iowa Code section 17A.19:

a. A decision by the department to disallow summary review;

b. A decision by the council that a proposed project does not require a certificate of need;

c. A decision by the council to approve or deny an application;

d. The council's final ruling on an application for rehearing; and

e. A decision by the council to revoke a certificate of need pursuant to 481—2202.13(10A).

[**ARC 7932C**, IAB 5/1/24, effective 6/5/24; Editorial change: IAC Supplement 9/4/24]

481—2202.12(10A) Project progress reports.

2202.12(1) The sponsor of an approved application will submit a progress report using the form available on the certificate of need web page six months after approval at hearing.

2202.12(2) Progress reports shall fully identify the project and indicate the current status of the project in descriptive terms. The reports should also reflect an amended project schedule if necessary.

[**ARC 7932C**, IAB 5/1/24, effective 6/5/24; Editorial change: IAC Supplement 9/4/24]

481—2202.13(10A) Request for extension of certificate.

2202.13(1) A request by the applicant for an extension of a certificate of need should be filed with the department using the form available on the certificate of need web page no later than 30 days prior to the expiration of the certificate of need.

2202.13(2) A request for extension should fully identify the project and indicate the current status of the project in descriptive terms.

2202.13(3) Any affected person has the right to submit to the department in writing, or orally at the council meeting at which the extension request is considered, information that may be relevant to the question of granting an extension.

2202.13(4) When an extension has been requested, the council will approve or deny the request at a meeting of the council preceding the expiration of the certification. The certificate of need may be revoked by the council at the end of the certification period for insufficient progress in developing the project.

2202.13(5) If the extension is denied, the applicant has the right to appeal under the provisions of Iowa Code section 10A.720.

[**ARC 7932C**, IAB 5/1/24, effective 6/5/24; Editorial change: IAC Supplement 9/4/24]

481—2202.14(10A) Application changes after approval.

2202.14(1) Once a project has been approved by the council, no changes that vary from or alter the number of approved beds, the approved services or the approved cost by an amount indicated in 2202.14(2) may be made unless requested by the applicant and approved by the council. Requests should be made in writing and filed with the department electronically.

2202.14(2) An increase in the actual cost of the project over and above that originally approved will automatically generate review by the council if the increase exceeds the originally approved amount by:

a. Fifteen percent for projects up to $999,999.99;

b. Twelve percent for projects from $1,000,000.00 to $4,999,999.99;

c. Eight percent for projects $5,000,000.00 and over.

An increase in the approved cost that falls below the above percentages will be reported to the department.

2202.14(3) Failure to notify and receive permission of the council to change the project as originally approved may result in the imposition of sanctions provided in Iowa Code section 10A.723. The council may make a recommendation to the department regarding the imposition of a sanction and the amount of the fine to be imposed.

[**ARC 7932C**, IAB 5/1/24, effective 6/5/24; Editorial change: IAC Supplement 9/4/24]

481—2202.15(10A) Sanctions. Hearings to determine class I or class II violations pursuant to Iowa Code section 10A.723 will be conducted in accordance with the department's procedural rules for contested cases found at 7—Chapter 2506.

[**ARC 7932C**, IAB 5/1/24, effective 6/5/24; Editorial change: IAC Supplement 9/4/24; Editorial change: IAC Supplement 8/5/26]

481—2202.16(10A) Reporting requirements. For the purposes of the annual reports and data compilation required in Iowa Code sections 10A.725 and 10A.727, the department will utilize the AHA Annual Survey of Hospitals with the state survey addendum for hospitals and the cost reports for health care facilities submitted to the Medicaid enterprise of the department of health and human services.

[**ARC 7932C**, IAB 5/1/24, effective 6/5/24; Editorial change: IAC Supplement 9/4/24]

These rules are intended to implement Iowa Code sections 10A.711 through 10A.729.

CHAPTER 2203
STANDARDS FOR CERTIFICATE OF NEED REVIEW

[Prior to 7/29/87, Health Department[470] Ch 203]
[Prior to 9/4/24, see Public Health Department[641] Ch 203]

Chapter rescission date pursuant to Iowa Code section 17A.7: 6/5/29

481—2203.1 Reserved.

481—2203.2(10A) Cardiac catheterization and cardiovascular surgery standards.

2203.2(1) *Purpose and scope.*

a. These standards are measures of some of those criteria found in Iowa Code sections 10A.714(1) *"a"* through *"q"* and 10A.714(3). Criteria that are measured by a standard are cited in parentheses following each standard.

b. Certificate of need applications that are to be evaluated against these cardiac catheterization and cardiovascular surgery standards include:

(1) Proposals to commence or expand capacity to perform cardiac catheterization.

(2) Proposals to add new or replace cardiovascular surgery services.

(3) Any other applications that relate to cardiac catheterization or cardiovascular surgery.

2203.2(2) *Definitions.*

a. Adult cardiac catheterization laboratory—a diagnostic facility exclusively for intracardiac or coronary artery catheterization on adults.

b. Pediatric cardiac catheterization laboratory—the same as adult cardiac catheterization laboratory, except exclusively for children and infants.

c. Cardiac catheterization—

(1) Intracardiac—a diagnostic study of the heart, pulmonary arteries, or both, in which a small catheter passes through a vein or artery in the neck, leg or arm and advances into the great vessels, the heart or the pulmonary arteries. Through this procedure one can measure pressure within the heart and in adjacent veins and arteries, collect blood samples for blood gas analysis and inject radiopaque material, and visualize cardiac and vessel anatomy. The procedure permits detection of congenital and acquired heart abnormalities, the study of ventricular function, the estimation of the orifice size, the placement of pacemakers, etc. Cardiac catheterization is incomplete without cineangiography, intracardiac pressure measurements, blood gas analysis and the ability to diagnose intracardiac shunts.

(2) Coronary artery catheterization—a diagnostic study of the coronary arteries, in which a small catheter passes through an artery in the leg, neck or arm into a coronary artery orifice. Intravascular pressure measurements are taken, and angiography of the coronary arteries is performed. Catheterization and cineangiocardiography of the left ventricle are an integral part of this procedure.

d. Angiography—

The photographic recording of X-ray or radiologic images of blood vessels, in any part of the body—the heart, the head, the great vessels, the kidney, etc. In the procedure blood vessels are injected with a radiopaque chemical. Immediately following injection, X-rays are employed to image the path of the injected chemical. These X-ray images are then photographically recorded.

e. Angiocardiography—

The recording of moving X-ray images (fluoroscopic images) of the heart and great vessels. After injection of radiopaque chemicals, moving X-rays of the chemical's flow are projected on a screen called a fluoroscope. Moving pictures (cineangiocardiography) or still pictures in sequence (serialography) may be recorded of the X-ray image.

f. Adult cardiovascular surgery—cardiovascular surgery exclusively for adults.

g. Pediatric cardiovascular surgery—cardiovascular surgery exclusively for infants and children.

h. Cardiovascular surgery—the services associated with and surgery performed for congenital or acquired diseases of the heart, great vessels, or pericardium, including the placement of travenous and epicardial pacemakers.

(1) Open heart surgery—cardiovascular surgery in which an incision of sufficient size is made to allow direct vision of the area. Open heart surgery requires temporary use of a heart-lung (cardiopulmonary bypass) machine, as blood flow through the heart is greatly reduced or stopped altogether.

(2) Coronary artery surgery—surgery to correct inadequate blood flow to the heart using revascularization techniques to bypass significantly obstructed coronary artery lesions.

i. Closed heart surgery—cardiovascular surgery in which a small incision and repairs are made without direct vision of the area.

2203.2(3) *Availability of services.*

a. Minimum utilization—cardiovascular surgery (Iowa Code section 10A.714(1)*"c,""g,""h"*).

(1) Adult cardiovascular surgical programs should project an annual minimum rate of over 200, or no approval will be granted. Higher case loads over 200 per annum are encouraged.

(2) Pediatric cardiovascular surgical units should project a minimum of 100 pediatric heart operations after the first year, at least 75 of which must be open heart procedures.

(3) Combined adult/pediatric cardiovascular surgery units should project the minimum projected annual rates for both adult and pediatric surgery.

(4) Applicants should project utilization of cardiovascular surgery, catheterization and cardiac care units based upon service area population demographics, current regional or national utilization rates of the service, disease incidence and prevalence rates, current cardiac care treatment modes, and in consideration those adult cardiovascular surgery units currently operating in Iowa, and bordering states within the project's service area.

b. Expansions—cardiovascular surgery (Iowa Code section 10A.714(1)*"c,""d,""e,""g,""h"*).

(1) There should be no additional adult cardiovascular surgery units initiated, unless each existing unit within the project's service area is operating at a minimum of 200 open heart surgery cases per year.

(2) There should be no additional pediatric cardiovascular surgery units initiated, unless each existing unit within the project's service area is operating at 100 surgeries per year. If one team serves more than one institution, the numbers for those institutions should be combined.

(3) If the annual utilization of the other cardiovascular surgery units within the area is below the levels noted above, future utilization above that current level must be reasonably projected or reasons for permanently utilizing the equipment below the level must be demonstrated.

(4) The applicant will demonstrate that an attempt was made to determine with the cooperation of existing providers whether such a reduction would occur. Existing providers of consequence are generally within two hours' surface travel time for adult services and within three for pediatric services.

c. Minimum utilization—cardiac catheterization (Iowa Code section 10A.714(1)*"c,""d,""g,""h"*).

(1) Adult cardiac catheterization laboratories should be projected to operate at a minimum of 300 catheterizations per annum.

(2) Pediatric catheterization laboratory units should project a minimum of 150 catheterizations annually.

(3) Combined units should meet each of the adult and pediatric standards.

(4) Applicant should project utilization of cardiac catheterization units based upon service area population demographics, current regional or national utilization rates of the service, disease incidence and prevalence rates, current cardiac care treatment modes, and in consideration those adult cardiovascular surgery units currently operating in Iowa, and bordering states within the project's service area.

d. Expansions—cardiac catheterizations (Iowa Code section 10A.714(1)*"c,""d,""e,""g,""h"*).

(1) There should be no additional adult cardiac catheterization unit opened unless the number of studies per year in each existing unit within the project's service area is greater than 300. No additional pediatric unit should be opened unless the number of studies per year in each existing unit within the project's services area is greater than 150.

(2) If the annual utilization of the other cardiovascular surgery units within the area is below the levels noted above, future utilization above that current level must be reasonably projected or reasons for permanently utilizing the equipment below the level must be demonstrated.

(3) The applicant must demonstrate that an attempt was made to determine with the cooperation of existing providers whether such a reduction would occur. Existing providers of consequence are those within two hours' surface travel time for adults or three for pediatrics.

2203.2(4) *Costs.*

a. Financial feasibility. (Iowa Code section 10A.714(1)*"f,""i,""p"*) Cardiovascular surgery and catheterization equipment and associated remodeling or construction should be depreciated over a period consistent with generally accepted accounting standards.

b. Cost-effectiveness. Proposed new or replacement cardiac catheterization laboratories cost per catheterization and cardiovascular surgery services estimated costs per surgery should when compared to their peers demonstrate cost-effectiveness.

2203.2(5) *Accessibility.* (Iowa Code section 10A.714(1)*"c,""d"*)

a. Cardiovascular surgery units and cardiac catheterization labs should meet the needs of the communities that the units and labs are meant to serve.

b. Cardiac catheterization and cardiovascular surgery service should be provided regardless of ability to pay, in consideration of those programs available in the state that serve the medically indigent.

2203.2(6) *Quality.* (Iowa Code section 10A.714(1)*"i,""k"*)

a. Each surgery unit and cardiac catheterization lab shall demonstrate a reasonable set of criteria that are used in selecting appropriate candidates for surgery and catheterization.

b. Staffing minimums.

(1) The open heart surgery team should minimally consist of:

1. At least two certified or board-eligible cardiovascular surgeons for the first 75 to 130 pediatric open heart surgeries. If pediatric surgery is performed, one surgeon must have special training and experience in surgery for congenital cardiac defects.
2. Board-certified or board-eligible adult or pediatric cardiologist(s). The latter only if pediatric surgery is performed, the former only if adult surgery is performed.
3. Board-certified or board-eligible anesthesiologist with special training in the management of cardiovascular cases' respiratory care.
4. Radiologist trained in the cardiovascular field.
5. Pathologist familiar with cardiac problems.
6. Surgical nursing staff specially trained in heart disease.
7. Cardiopulmonary bypass pump technicians.
8. Other ancillary staff as needed.

(2) Each applicant will document that the proposed surgery unit can be so staffed when completed and operational.

c. Equipment and facilities. The applicant seeking to provide cardiovascular surgery should demonstrate that the following support services will be available:

(1) General X-ray diagnostic facilities and facilities for emergency X-rays on a 24-hour basis.

(2) A cardiac catheterization laboratory or angiography lab available on a 24-hour basis.

(3) A cardiographics laboratory, with facilities for recording the following tests: EKG, vector cardiogram, phonocardiogram, echocardiogram, and exercise stress testing.

(4) A supporting blood bank and hematology laboratory.

(5) A microbiology laboratory.

d. Cardiac catheterization labs serving infants and children should have biplane angiographic equipment, either cineangiocardiographic or cut film. Pediatric cardiac catheterization labs should be supervised by board-certified or board-eligible pediatric cardiologists; adult cardiac catheterization labs should be supervised by a board-certified or board-eligible adult cardiologist.

2203.2(7) *Continuity.* (Iowa Code section 10A.714(1)*"g,""h,""i,""k"*)

a. The applicant should demonstrate that an attempt was made to solicit letters of support from area hospitals and physicians to indicate a community need.

b. The applicant should provide documentation that emergency medical transport services will be available.

c. Institutions providing cardiovascular surgery services should include mechanisms for comprehensive medical followup including adequate medical records exchange.

2203.2(8) *Acceptability.* (Iowa Code section 10A.714(1)) Facilities with cardiovascular surgery and cardiac catheterization indicate a willingness to observe and respect the rights of patients.

[**ARC 7933C**, IAB 5/1/24, effective 6/5/24; Editorial change: IAC Supplement 9/4/24]

481—2203.3(10A) Radiation therapy standards.

2203.3(1) *Purpose and scope.*

a. These standards provide guidelines to assist the council in applying those criteria in Iowa Code sections 10A.714(1)*"a"* through *"r"* and 10A.714(3). Criteria that are measured by a standard are cited in parentheses following each standard.

b. Certificate of need applications that are to be evaluated against these radiation therapy standards include:

(1) Proposals to commence or expand the kind or capacity of megavoltage radiation therapy services.

(2) Proposals to replace a megavoltage radiation therapy unit.

(3) Any other applications that relate to megavoltage radiation therapy.

2203.3(2) *Definitions.*

"Conjoint radiation oncology center" or *"cancer center"* means a multi-institution, multidisciplinary network to provide radiation therapy for cancer patients. Integration of patient care management, common utilization of personnel and equipment, and a single system of records between center institutions ensures optimal care regardless of entry portal.

"Dosimetrist" means a staff member who calculates, verifies, and develops treatment plans for the radiation dose distributions that will be delivered to patients. The dosimetrist is an essential member of the treatment planning team and works closely with radiation oncologists and radiation physicists.

"Megavoltage therapy" means the use of ionizing radiation in excess of one million electron volts. Energies above one million electron volts cause considerably less skin damage, increase depth dose markedly, and result in much less scatter from the therapeutic beam. Megavoltage machines are classified as follows:

1. Electron accelerator. A machine such as a linear accelerator that uses a supply of electrons, which are accelerated into high energy beams. These electron beams are either caused to strike a target resulting in high energy X-ray production or are used themselves as the treatment beam. Electron accelerators generate over one million electron volts.

2. Heavy particle accelerator. A machine such as a cyclotron that produces beams of high energy particles such as protons, neutrons, pions, carbon ions, or other heavy ions with masses greater than that of an electron.

3. Isotope sources (gamma ray teletherapy units).

Cobalt 60 units—emit gamma rays of approximately 1.2 million electron volts.

"Megavoltage therapy unit" means a piece of megavoltage therapeutic radiologic equipment that provides megavoltage therapy.

"New occurrence" means a course of treatment for a new occurrence on a given patient at a given radiation therapy facility. First-time radiation therapy at a new facility is based on each round of treatment.

"Radiation modality" means the method of applying ionizing radiation in the treatment of patients with malignant disease using megavoltage external beam equipment.

"Radiation oncologist" means a physician authorized user trained in accordance with 641—subrule 41.3(5).

"Radiation therapy facility" or *"facility"* means the physical space that houses a megavoltage therapy unit and accompanying support equipment.

"Radiation therapy physicist" means an individual who works closely with radiation oncologists and is responsible for the safe and accurate delivery of radiation to patients. A radiation therapy physicist conducts quality control programs for the equipment and procedures, as well as calibrating the equipment. A radiation therapy physicist shall practice in accordance with 641—subrule 41.3(6).

"Radiation therapy technologist" means an individual who possesses an Iowa permit to practice as a radiation therapist in accordance with rule 641—42.7(136C).

"Service area" means the county in which the facility is located and any other counties from which the applicant expects to draw patients with a cancer diagnosis who need radiation therapy treatment.

"Simulation" means the precise mock-up of a patient treatment with an apparatus that uses planar X-rays, magnetic resonance imaging device, or computed tomography scanner, which is used in reproducing the two-dimensional or three-dimensional internal or external geometry to the patient, for use in treatment planning and delivery.

"Superficial X-ray therapy" means the use of a conventional X-ray machine, which generates X-rays of up to 150 kilovolts (150 kv), to treat superficial lesions, such as skin cancer.

"Treatment" means radiation fields applied in a single patient visit fraction or delivery session.

2203.3(3) *Availability.*

a. Minimum utilization. (Iowa Code section 10A.714(1)*"c,""g,""h"*)

(1) A megavoltage radiation therapy unit and cobalt units should treat at least 250 new occurrences annually within three years after initiation of the service.

(2) The expected number of new occurrences needing megavoltage radiation therapy annually in a service area should be calculated as follows:

1. Multiply the service area population times 0.00582 (5.82/1,000 population was the mean cancer incidence rate in 2017 in Iowa as filed by the Surveillance, Epidemiology, and End Results (SEER) Program).

2. Multiply this product times .5 (50 percent of all new occurrences receive radiation therapy).

(3) The expected volume of utilization sufficient to support the need for a new megavoltage therapy unit should be calculated as follows: each unit shall provide a minimum of 5,000 treatments per annum. Megavoltage treatments should be projected by multiplying the number of projected new occurrences needing megavoltage therapy times 20, which will result in no fewer than 5,000 treatments per annum.

(4) Applicants shall account for other providers of radiation therapy in the service area including, but not limited to, factors such as technological capability and quality. Applicants shall address in their application other providers and the impact on those providers in the service area and compare technological capability and quality.

(5) Applicants should provide a map of the expected service area.

(6) Institutions that form a conjoint oncology center should have at least 500 new occurrences annually.

b. Simulator availability. A simulator should be available within a radiation oncology department.

2203.3(4) *Accessibility.* (Iowa Code section 10A.714(1)*"c,""d"*) Radiation therapy services should be provided regardless of ability to pay, in consideration of those programs available in the state that serve the medically indigent.

2203.3(5) *Quality.* (Iowa Code section 10A.714(1)*"i,""k"*)

a. Minimum staffing requirements for radiation therapy facilities:

(1) Each facility will have the services of at least one radiation oncologist.

(2) Each facility will have the services of at least one radiation therapy physicist.

(3) Each facility will have the services of radiation therapy technologists that should be staffed at a level of two technologists per megavoltage unit.

(4) Each facility should have the services of nurses.

(5) Each facility should have the services of at least one dosimetrist.

(6) Each facility should have the services of one radiation therapist or radiation technologist competent to operate a CT simulator.

b. Each conjoint center will have at least two cancer biologists available.

c. Each conjoint center will have one radiation technologist available for each simulator.

d. The long-range plans for radiation therapy services shall be submitted to the Iowa department of health and human services.

e. Multidisciplinary tumor boards should be established in all institutions housing megavoltage machines.

f. A source of continuing education should exist within each conjoint center to reach participating community referral hospitals and physicians.

g. Each conjoint center should have a unified training program in radiation therapy for radiation oncologists.

h. Each radiation therapy facility should offer psychosocial counseling services and nutritional counseling.

2203.3(6) *Continuity.* (Iowa Code section 10A.714(1)*"g," "h," "i," "k"*) The applicant should demonstrate that an attempt was made to solicit letters and establish referral agreements from area hospitals and physicians to indicate their willingness to participate in a cooperative endeavor to refer to the proposed service.

[**ARC 7933C**, IAB 5/1/24, effective 6/5/24; Editorial change: IAC Supplement 9/4/24]

481—2203.4(10A) Computerized tomography standards.

2203.4(1) *Purpose and scope.*

a. These standards are measures of some of those criteria in Iowa Code section 10A.714(1)*"a"* through *"l."* Criteria that are measured by a standard are cited in parentheses following each standard.

b. Certificate of need applications that are to be evaluated against these computerized tomography standards include:

(1) Proposals to commence or expand the capacity of computerized tomography services.

(2) Any other applications that relate to computerized tomography services.

2203.4(2) *Definitions.*

a. Computerized tomographic (CT) scanner—a diagnostic tool that rotates about and that sends X-ray beams through the body or brain. The X-ray beams that emerge from the body or brain are absorbed by a detector. Differences in the amount of X-rays absorbed by the detector indicate differences in tissue density. As the scanner rotates, it takes many images of a volume or cross-section. The images on the detector are transmitted to a computer that displays on a monitor a reconstructed cross-sectional slice or volume. Contrast media is often injected to alter absorption of the detector. If the scan is repeated, it is called enhancement. Studies of the heart, arteries and veins may be done with contrast only.

(1) Whole body scanner—one capable of imaging the entire body.

(2) Head scanner—one capable of imaging only the brain and structures adjacent to the head.

b. Enhanced scan—a scan performed on a patient who has been administered a contrast medium so that specific organs or areas of the body will be displayed more distinctly on the scan image.

c. Minimum shared-market area for a scanner (hereafter referred to as "area")—the smallest geographic area within which any scanner installation is judged to affect the utilization rate of any other scanner is the community (as defined by the U.S. Bureau of the Census) or a Standard Metropolitan Statistical Area (where an area is so designated).

d. Emergency medical service (EMS) level II trauma service—the level of various services and staffing that qualify a facility to be designated by the emergency medical service division of the Iowa department of health and human services, using the facilities categorization criteria of such services that is in effect on the date of the enactment of this standard.

e. Shared service agreements—a multi-institutional arrangement for coordination or consolidation of services or sharing of support services. Among the various types of arrangements are referred services, purchased or joint contract services, multisponsored services and regional services.

f. CT consortia—a cooperative venture in which two or more institutions form a separate entity that is created for the purpose of owning, leasing, planning for, and maintaining the use of the scanner. Each facility in the consortium maintains its autonomy for all other services.

g. Applicant—an applicant may be a facility or a consortium of facilities within an area, or a physician or group of physicians.

h. General imaging procedures—a radiological diagnostic procedure performed on an X-ray machine or similar radiological diagnostic instrument.

i. Active oncology service—full, multidisciplinary cancer care, provided by a medical team that would include: surgery, gynecology, medical oncology, radiation oncology, pathology, diagnostic radiology and nuclear medicine. The surgery specialties that might be available would include: thoracic, abdominal, genitourinary and gynecological. The active oncology staff would include those specialists with training in oncology, hematology, and pathology and who spend at least half of their time at the institution.

j. Radiotherapy service—the therapeutic application of megavoltage radiation, using a linear accelerator or cobalt unit. The availability of such service at a hospital would necessitate personnel trained in the therapeutic application of radiology.

k. Chemotherapy service—the treatment of cancer by chemical agents.

2203.4(3) *Determination of need.*

a. Applicants who do not have a scanner, or who have a scanner and seek a certificate for one or more additional scanners.

(1) Applicants in areas with no other scanners.

1. Applicants must have performed at least 30,000 general imaging procedures during the past calendar year or 12 months, or

2. Demonstrate that during the past calendar year or 12 months, the applicant performed diagnostic procedures equivalent to 1500 HECTs (head equivalent CTs), using the following:

100% of the number of patients referred to other facilities for CT diagnosis × 1.75 (in the case of head scans) and 2.75 (in the case of body scans)

(2) Applicants in areas with one or more scanners.

1. An applicant must meet the requirement of need, described in subparagraph 2203.4(3)*"a"*(1), and

2. The average level of utilization for scanners within the area was at least 3000 HECTs (plus or minus 10 percent) for the past calendar year or 12 months. The average level of utilization will be determined by adding the number of HECTs performed during the period at all area facilities divided by the number of facilities.

3. The University of Iowa Hospitals and Clinics is specifically exempted from consideration under numbered paragraph 2203.4(3)*"a"*(2)"2" because it has a service area that encompasses the entire state and adjoining states. The utilization statistics for the University Hospital will therefore neither affect nor be affected by Mercy Hospital, Iowa City. Additionally, the utilization statistics for scanners at the University of Nebraska Hospitals and Clinics and St. Joseph's Hospital (both in Omaha) will not affect the need for scanners at hospitals in Council Bluffs.

b. Replacement scanners—applicants who currently have a scanner.

(1) All applicants seeking to replace a scanner with another scanner, head or body.

1. The applicant must demonstrate that the applicant's use of the applicant's current scanner was at least at the operating capacity level during the last calendar year or 12 months, or

2. Below the operating capacity level, but above 1500 CT scan level, and the applicant must demonstrate reasons for permanently utilizing their scanner below operating capacity level and demonstrate that discontinuation of their scanner service would impair the applicant's ability to respond to the emergency needs of the area. Reasons for utilizing the scanner below the capacity should include a unique patient or procedure mix that would define the capacity level differently for this applicant.

(2) Reserved.

2203.4(4) *Costs and financial feasibility.* (Iowa Code section 10A.714(1)*"f," "i," "p"*) CT scanners should be depreciated over a period of not less than seven years. Remodeling shall be depreciated as appropriate by generally accepted accounting principles.

a. Cost-effectiveness. Applicants should demonstrate for themselves and the health care system that the most cost-effective method of providing CT services has been chosen. Proposed new and replacement CT scanner's cost per CT scan should, when compared to their peers, demonstrate cost-effectiveness.

b. Reserved.

2203.4(5) *Accessibility.* (Iowa Code section 10A.714(1)*"c," "d"*)

a. All scanners must be available to meet the needs of the communities the scanners are meant to serve.

b. Services should be provided to all patients regardless of the patient's ability to pay, taking into consideration the availability of those programs available in the state that serve the medically indigent.

c. Applicants will demonstrate a willingness to accept referrals for CT services from all area physicians.

2203.4(6) *Quality.* (Iowa Code section 10A.714(1)*"i," "k"*)

a. Data on use and costs of the CT scanners should be submitted to the Iowa department of health and human services as a condition of approval. (Iowa Code section 10A.714(1)*"a," "h"*)

b. All scanners.

(1) All applicants must demonstrate that they have on their staff or will acquire on their staff a full-time diagnostic radiologist, trained in the use of the CT scanner, or other physicians with comparable training and expertise.

(2) All applicants must document that they have on their medical staff individuals who are qualified to operate a scanner and interpret and act upon the diagnostic results. Such documentation may include reference to board certification, apprenticeship, academic credentials or such other qualifications that would prompt a medical staff to accept the responsibility for offering this new service. Applicants who intend to acquire staff with the desired expertise should provide signed letters of intent from the incoming medical personnel. Applicants who intend to upgrade the specialty skills of their staff should document a plan for training their current staff in the use of CT scanners.

(3) All applicants should have a complement of other diagnostic modalities available. Applicants seeking body scanners should also have available ultrasound and conventional X-ray services.

(4) All applicants should have the facilities for treating the conditions diagnosed by imaging with the scanner or should demonstrate referral agreements with treatment facilities, in the event that the scanner will be used as a screening device.

(5) All applicants should have on their staff or available on a consultative basis the services of a biomedical engineer or medical physicist, with special training in CT applications. These functions may also be provided by contract with the scanner manufacturer.

2203.4(7) *Continuity.* (Iowa Code section 10A.714(1)*"g," "h," "i," "k"*)

a. The applicant should demonstrate that an attempt was made to solicit letters of support from area hospitals and physicians to indicate a community need for the proposed service.

b. The applicant should provide documentation that emergency medical transport services will be available.

c. The applicant should demonstrate an emphasis on the availability of outpatient CT procedures and that an appropriate percentage of all CT procedures will be done on an outpatient basis.

2203.4(8) *Acceptability.* (Iowa Code section 10A.714(1)*"k"*) Providers of CT services should indicate a willingness to observe the rights of patients.

[**ARC 7933C**, IAB 5/1/24, effective 6/5/24; Editorial change: IAC Supplement 9/4/24]

481—2203.5(10A) Long-term care.

2203.5(1) *Purpose and scope.*

a. These standards are measures of criteria found in Iowa Code section 10A.714(1)*"a"* through *"g."* Criteria that are measured by a standard are cited in parentheses following each standard.

b. Certificate of need applications that are to be evaluated against these standards include applications to:

(1) Construct, develop, offer new, modernize, replace, renovate, or relocate intermediate care or skilled nursing care beds in nursing homes or hospitals.

(2) Expand bed capacity in intermediate care or skilled nursing care facilities or designated units in hospitals.

2203.5(2) *Definitions.*

"Intermediate care facility" or *"ICF"* means any institution, place, building, or agency providing for a period exceeding 24 consecutive hours accommodation, board, and nursing services, the need for which is certified by a physician, to three or more individuals, not related to the administrator or owner thereof within the third degree of consanguinity, who by reason of illness, disease, or physical or mental infirmity require nursing services that can be provided only under the direction of a registered nurse or a licensed practical nurse.

"Rural counties" means all counties not designated by the U.S. Census as SMA (Standard Metropolitan Area) counties.

"Skilled nursing facility" or *"SNF"* means any institution, place, building, or agency providing for a period exceeding 24 consecutive hours accommodation, board, and nursing services, the need for which

is certified by a physician, to three or more individuals not related to the administrator or owner thereof within the third degree of consanguinity who by reason of illness, disease, or physical or mental infirmity require continuous nursing care services and related medical services, but do not require hospital care. The nursing care services provided must be under the direction of a registered nurse on a 24-hour-per-day basis.

"Urban counties" means those counties designated by the U.S. Census as SMA (Standard Metropolitan Area) counties.

2203.5(3) *Availability and need.* (Iowa Code section 10A.714(1)*"c," "d," "e," "g," "h"*)

a. The following formula shall be used as a means of projecting the approximate number of intermediate and skilled nursing care beds needed to serve the projected population five years into the future:

(1) Rural counties:

[.09(65 + population) + .0015 (64 – population)] × 110% equals total long-term care bed need
Combined SNF and ICF bed need equals 2/3 (total long-term care bed need)
Assumed RCF bed need equals 1/3 (total long-term care bed need).

(2) Urban counties:

[.07(65 + population) + .0015 (64 – population)] × 110% equals total long-term care bed need
Combined SNF and ICF bed need equals 2/3 (total long-term care bed need)
Assumed RCF bed need equals 1/3 (total long-term care bed need).

(3) Economic development authority population projections are adopted for use in the determination of long-term care bed need.

(4) The department of inspections, appeals, and licensing will calculate long-term care bed need figures annually, using population projections five years into the future.

b. For purposes of comparing "need" to "existing" beds in a given county, the following shall be considered in the calculation of "existing" beds:

(1) ICF and SNF beds licensed at freestanding facilities in the county.

(2) Additional ICF and SNF beds previously approved through certificate of need but not yet licensed.

(3) ICF and SNF beds in designated units in hospitals in the county.

c. The statistical calculation of bed need shall serve as a guideline for the health facilities council in reviewing need for the proposed long-term care beds. Other factors that may be considered by the council include, but are not limited to:

(1) The availability and utilization of other ICF and SNF services in the county, or within the applicant's service area.

(2) The availability and utilization of other long-term care services in nearby hospitals, such as skilled care available through the swing bed program.

(3) The availability of supportive living arrangements that may or may not be licensed as residential care facilities (RCF).

(4) The availability of home health and other in-home services.

(5) The availability of other services to the elderly.

(6) The availability of ICF and SNF services in neighboring counties.

(7) Utilization by out-of-state residents of facilities in counties bordering other states, where the applicant provides evidence that in-migration of long-term care patients exceeds out-migration to the bordering state.

(8) Programs and services directed at special populations whose needs cannot otherwise be met, or whose needs cannot be met cost-effectively at other facilities.

d. In documenting need for a project, the applicant shall identify the service area and target population, including a description of the methodology used by the applicant in determining need for the requested beds and the expected sources of referrals. The applicant shall document that the number of beds requested is appropriate to address the identified need. The applicant shall also identify how the target population is currently being cared for, and what hardship is being experienced by the absence of the proposed beds.

2203.5(4) *Quality.* (Iowa Code section 10A.714(1)*"i," "k"*) The applicant shall document that the applicant has contacted the health and safety division of the department of inspections, appeals, and

licensing to conform with physical standards, staffing requirements, and other licensing requirements to assess the potential for provision of quality care at the facility. When necessary, the applicant shall attempt to arrange an on-site visit to the facility to determine compliance with physical requirements, and shall provide documentation of this site visit or attempts to arrange such a site visit.

2203.5(5) *Continuity.* (Iowa Code section 10A.714(1)*"g," "h," "k"*)

a. The applicant shall document the relationship of the facility's proposed services to other health and long-term care services in the community such as physician and hospital services, habilitation, rehabilitation, transportation or other services. The facility should be capable of providing or arranging for the provision of a continuum of long-term care services.

b. The facility should be capable of providing or arranging for the provision of a comprehensive program of coordinated patient services. The applicant shall provide evidence of contracts for services, appropriate staffing patterns and ratios, and licensure of personnel as necessary.

2203.5(6) *Accessibility and acceptability.* (Iowa Code section 10A.714(1)*"c," "d"*)

a. Population subgroups that have traditionally been underserved, such as adolescents, the elderly, women, racial minorities, mentally ill, intellectually disabled, and developmentally disabled should be considered when planning for or reviewing long-term care facilities.

b. The applicant shall document to what extent Medicaid patients will be served by the proposed beds, using past Medicaid utilization as an indicator or, in the case of a new facility, projecting anticipated Medicaid utilization.

2203.5(7) *Costs and financial feasibility.* (Iowa Code section 10A.714(1)*"e," "f," "i," "p"*)

a. The applicant shall identify capital and operating costs associated with the project, identify sources of funding to cover those costs, and demonstrate that the project is financially feasible.

b. Construction costs shall be in line with construction costs of other similar projects.

c. The applicant shall provide budgets for the first three years of operation, including documentation of all assumptions used. The budget shall include anticipated sources of revenue, including the percentage of revenue from private pay, Medicaid, Medicare and other patient revenues.

d. Proposed charges per patient day should be justifiable when compared to current charges of other similarly licensed facilities in the applicant's service area, or other similar facilities elsewhere in the state. If charges are significantly higher or lower, the applicant shall provide a description of proposed programs or services that explain the difference in charges.

[**ARC 7933C**, IAB 5/1/24, effective 6/5/24; Editorial change: IAC Supplement 9/4/24]

These rules are intended to implement Iowa Code section 10A.722.

481—2203.6 to **2203.11** Reserved.

481—2203.12(10A) Magnetic resonance imaging services standards.

2203.12(1) *Purpose and scope.*

a. These standards are measures of some of those criteria in Iowa Code section 10A.714(1)*"a"* through *"q."* Criteria that are measured by a standard are cited in parentheses following each standard.

b. Certificate of need applications that are to be evaluated against these standards include:

(1) Proposals to commence or expand the capacity of magnetic resonance imaging services.

(2) Proposals to replace a magnetic resonance imaging unit.

(3) Any other applications that relate to magnetic resonance imaging.

2203.12(2) *Definitions.*

"Area" means the community or a metropolitan statistical area (as defined by the U.S. Office of Management and Budget and used by the U.S. Census Bureau).

"CT (computed tomography) procedure" means a CT study of a single site of anatomic interest during an individual patient visit.

"Magnetic resonance imaging (MRI)" means a diagnostic modality that employs a combination of magnetic and radio frequency fields and computers to produce images of body organs and tissues.

"MRI procedure" means each discrete MRI study of one patient.

"MRI unit" means the essential equipment and facility necessary to operate one MRI system.

2203.12(3) *Availability and need.* (Iowa Code section 10A.714(1)*"c," "d," "e," "g," "h"*)

a. Applicants in areas with no other MRI units. Applicant must document a future utilization of reasonably projected MRI procedure volume for the fiscal year period after projected installation.

b. Applicants in areas with one or more MRI units currently in operation or approved by certificate of need for operation.

(1) Applicant must meet the requirement of need described in paragraph 2203.12(3)*"a,"* and

(2) The other MRI unit(s) within the area must have been operating at a minimum of 2,000 MRI procedures annually (or 500 in three months), or proportionately more if the MRI unit runs more than one ten-hour shift.

(3) If the annual utilization of the other MRI unit(s) within the area has been below 2,000 procedures, future utilization above that current level must be reasonably projected or reasons for permanently utilizing the equipment below the 2,000 procedure level must be demonstrated.

c. Applicants seeking to replace an MRI unit.

(1) The applicant must demonstrate that the existing MRI unit has been operating at the level of at least 3,000 procedures during the most recent annual period.

(2) If the applicant's annual utilization has been below 2,000 procedures, the applicant must reasonably project future utilization above that level or demonstrate reasons for permanently utilizing the equipment below that level.

d. Applicants seeking to add an additional MRI unit.

(1) The applicant must demonstrate that the existing MRI unit(s) has been operating at the level of at least 3,500 procedures during the most recent annual period.

(2) The applicant must demonstrate that the demand significantly exceeds the 2,000 procedures annually.

(3) If the applicant's annual utilization has been below 2,000 procedures, the applicant must reasonably project future utilization above that level or demonstrate reasons for permanently utilizing the equipment below that level.

2203.12(4) *Quality and continuity.* (Iowa Code section 10A.714(1)*"g," "h," "i," "k"*)

a. The proposed MRI unit should function as a component of a comprehensive inpatient or outpatient diagnostic service. The proposed MRI unit must have the following modalities on-site or through referral arrangements:

(1) Ultrasound.

(2) Computed tomography.

(3) Angiography.

(4) Nuclear medicine.

(5) Conventional radiography.

b. The proposed MRI unit must be located in a facility that has, either in-house or through referral arrangement, the resources necessary to treat most of the conditions diagnosed or confirmed by MRI. The following medical specialties must be available during MRI service hours on-site or by referral arrangements: neurology or neurosurgery, oncology and cardiology.

c. A proposal to provide new or expanded MRI must include satisfactory assurances that the services will be offered in a physical environment that conforms to federal standards, manufacturer's specifications, and licensing agencies' requirements.

d. The applicant must provide evidence that the proposed MRI equipment has been certified for clinical use by the U.S. Food and Drug Administration or will be operated under the approval and authority of an institutional review board whose membership is consistent with U.S. Department of Health and Human Services regulations.

e. Applicants for MRI should document that the necessary qualified staff are available to operate the proposed unit. The following minimum staff will be available to the MRI unit:

(1) A board-eligible or board-certified radiologist or any other board-eligible or board-certified licensed physician whose exclusive responsibility for at least a two-year period prior to submission of a certificate of need request has been in the acquisition and interpretation of clinical images. This individual shall have a knowledge of MRI through training, experience, or documented postgraduate education. The individual shall also have training with a functional MRI facility.

(2) Qualified engineering personnel, available to the institution during MRI service hours, with training and experience in the operation and maintenance of the MRI equipment.

(3) Diagnostic radiologic technologists or other certified technologists with expertise in computed tomography or other cross-sectional imaging methods, at a staffing level consistent with the hospital's expected MRI service volume.

(4) Other appropriate physicians shall be available during MRI service hours in clinical specialties such as neurology or neurosurgery, oncology and cardiology.

f. The applicant shall demonstrate how emergencies within the MRI unit will be managed in conformity with accepted medical practice.

2203.12(5) *Accessibility and acceptability.* (Iowa Code section 10A.714(1)*"c," "d"*)

a. MRI facilities should have adequate scheduled hours to avoid an excessive backlog of cases and to meet the needs of the communities the scanners are meant to serve.

b. Selection of patients for clinical MRI studies must guarantee equal access to all persons regardless of insurance coverage or ability to pay.

2203.12(6) *Costs and financial feasibility.* (Iowa Code section 10A.714(1)*"e," "f," "i," "p"*)

a. The applicant shall identify capital and operating costs associated with the proposed MRI unit, identify sources of funding to cover those costs, and demonstrate that the project is financially feasible.

b. The applicant shall provide budgets for the first three years of operation, including documentation and justification of all assumptions used.

c. The applicant must document its projected average cost per procedure and charge per procedure for the first three years. Charges for MRI should be reasonably related to service cost, and comparable to MRI charges at other facilities in the state.

d. The applicant shall demonstrate that alternatives were considered and the proposed application is the most cost-effective and will accomplish the goals of the project.

[**ARC 7933C**, IAB 5/1/24, effective 6/5/24; Editorial change: IAC Supplement 9/4/24]

481—2203.13(10A) Positron emission tomography services standards.

2203.13(1) *Purpose and scope.*

a. These standards are measures of some of those criteria in Iowa Code section 10A.714(1)*"a"* through *"q."* Criteria that are measured by a standard are cited in parentheses following each standard.

b. Certificate of need applications that are to be evaluated against these standards include:

(1) Proposals to commence or expand the capacity of positron emission tomography services.

(2) Proposals to replace a positron emission tomography unit.

(3) Any other applications that relate to positron emission tomography.

2203.13(2) *Definitions.*

"Area" means the community or a metropolitan statistical area (as defined by the U.S. Office of Management and Budget and used by the U.S. Census Bureau).

"CT (computed tomography)" means an imaging method in which a cross-sectional image of the structures in a body plane is reconstructed by a computer program from the X-ray absorption of beams projected through the body in the image plane.

"Cyclotron" means an apparatus for accelerating protons or neutrons to high energies by means of a constant magnet and an oscillating electric field.

"MRI (magnetic resonance imaging)" means a diagnostic modality that employs a combination of magnetic and radio frequency fields and computers to produce images of body organs and tissues.

"Radiopharmaceutical" means a radioactive pharmaceutical used for diagnostic or therapeutic purposes.

"PET procedure" means an image-scanning sequence derived from a single administration of PET, equated with a single injection of the tracer.

"Positron emission tomography (PET)" means an imaging method in which positron-emitting radionuclides, which are produced either by a cyclotron or generator, and a nuclear camera are used to create pictures of organ function rather than structure.

"SPECT (single photon emission computed tomography)" means a camera-based imaging system using the radionuclides in the routine practice of nuclear medicine.

2203.13(3) *Availability and need.* (Iowa Code section 10A.714(1)*"c," "d," "e," "g," "h"*)

a. Applicants in areas with no other PET units.

(1) Applicants should demonstrate a reasonable potential utilization of a PET unit based on diversified inpatient and outpatient case mix thresholds including:

1. Intracranial cases.

- Primary brain tumors 50/year
- Metastasis 100/year
- Cerebral vascular disease 200/year
- Organic brain disease and dementia/psychiatric diagnoses (including epilepsy-seizure disorders) 500/year
- Spinal 100/year

2. Cardiovascular cases.

- Ischemic heart disease (including acute and chronic infarction) 1200/year

3. Neoplasms (head, neck, thorax (excluding heart), abdomen, pelvic, prostate and musculoskeletal 1300/year.

(2) Applicants should have other diagnostic capabilities, on-site or through referral arrangements, with appropriate volumes including:

	Proposed Threshold
Nuclear medicine imaging services	5,600
Single photon emission computed tomography (including brain, bone, liver, Gallium and Thallium stress)	1,600
CT	8,000
MRI	2,400

(3) Applicants should demonstrate secondary and tertiary service capability, on-site or through referral arrangements, including cardiac surgery, cardiology, internal medicine, general surgery, hematology/oncology, neurology, pathology, thoracic surgery and psychiatry.

b. Applicants in areas with one or more PET units currently in operation or approved by the certificate of need program for operation.

Existing PET units within the area (whether basic or enhanced) should have been operating at a minimum of 1000 PET procedures during the most recent annual period as reported to the certificate of need program according to paragraph 2203.13(6)*"e."*

2203.13(4) *Quality and continuity.* (Iowa Code section 10A.714(1)*"g," "h," "i," "k"*)

a. The proposed PET unit should function as a component of a comprehensive inpatient or outpatient diagnostic service. The proposed PET unit should have the following modalities (and capabilities) on-site or through referral arrangements:

(1) Computed tomography.

(2) Magnetic resonance imaging.

(3) Nuclear medicine — (cardiac, SPECT).

(4) Conventional radiography.

b. The proposed PET unit should be located in a facility that has, either in-house or through referral arrangement, the resources necessary to treat most of the conditions diagnosed or confirmed by PET. The following medical specialties should be available during PET service hours on-site or by referral arrangements: cardiology, neurology, neurosurgery, oncology, and psychiatry.

c. A proposal to provide new or expanded PET must include satisfactory assurances that services will be offered in a physical environment that conforms to federal standards, manufacturer's specifications, and licensing agencies' requirements. The following areas are to be addressed:

(1) Quality control and assurance of radiopharmaceutical production of generator or cyclotron-produced agents;

(2) Quality control and assurance of PET tomograph and associated instrumentation;

(3) Radiation protection and shielding;

(4) Radioactive emissions to the environment.

d. The applicant will provide evidence that the proposed PET equipment has been certified for clinical use by the U.S. Food and Drug Administration or will be operated under the approval and authority of an institutional review board whose membership is consistent with U.S. Department of Health and Human Services regulations.

e. Applicants for PET will document that the necessary qualified staff are available to operate the proposed unit. The applicants will document the PET training and experience of the staff. The following minimum staff will be available to the PET unit:

(1) One or more nuclear medicine imaging physician(s) available to the PET unit who have been licensed by the state for the handling of medical radionuclides and whose primary responsibility for at least a one-year period prior to submission of the certificate of need application has been in acquisition and interpretation of tomographic images. This individual shall have knowledge of PET through training, experience, or documented postgraduate education. The individual shall also have training with a functional PET facility.

(2) Qualified PET radiochemist or radiopharmacist personnel, available to the facility during PET service hours, with at least one year of training. The individual(s) will demonstrate experience in the testing of chemical, radiochemical, and radionuclidic purity of PET radiopharmaceutical syntheses.

(3) Qualified engineering and physics personnel, available to the facility during PET service hours, with training and experience in the operation and maintenance of the PET equipment.

(4) Qualified radiation safety personnel, available to the facility at all times, with training and experience in the handling of short-lived positron-emitting nuclides.

(5) Certified nuclear medicine technologists with expertise in computed tomographic nuclear medicine imaging procedures, at a staffing level consistent with the proposed center's expected PET service volume.

(6) Other appropriate personnel should be available during PET service hours, which may include certified nuclear medicine technologists, computer programmers, nurses, and radiochemistry technicians.

f. The applicant will demonstrate how emergencies within the PET unit will be managed in conformity with accepted medical practice.

2203.13(5) *Accessibility and acceptability.* (Iowa Code section 10A.714(1)*"c," "d"*)

a. PET facilities should have adequate scheduled hours to avoid an excessive backlog of cases.

b. Selection of patients for clinical PET studies will guarantee equal access to all persons regardless of insurance coverage or ability to pay.

c. In addition to accepting patients from participating institutions, facilities performing clinical PET procedures should accept appropriate referrals from other local providers. These patients will be accommodated to the extent possible by extending the hours of service and by prioritizing patients according to standards of need and appropriateness rather than source of referral.

2203.13(6) *Costs and financial feasibility.* (Iowa Code section 10A.714(1)*"e," "f," "i," "p"*)

a. The applicant will identify capital and operating costs associated with the proposed PET unit, identify sources of funding to cover those costs, and demonstrate that the project is financially feasible.

b. The applicant will provide budgets for the first three years of operation, including documentation and justification of all assumptions used.

c. The applicant will document its projected average cost per procedure and charge per procedure for the first three years. Charges for PET should be reasonably related to service cost and comparable to PET charges at other facilities in the state.

d. The applicant should verify whether the service is eligible for reimbursement by public and private third-party payers.

e. The applicant should demonstrate that alternatives were considered and the proposed application is the most cost-effective and should accomplish the goals of the project.

UNIFORM RULES ON AGENCY PROCEDURE

CHAPTER 2500
DEFINITIONS

Chapter rescission date pursuant to Iowa Code section 17A.7: 6/19/31

The Uniform Rules on Agency Procedure, 7—Chapters 2500 through 2506, are rules generally applicable to agencies pursuant to Iowa Code section 17A.24. Additions, exceptions, or amendments to the corresponding chapter are below.
[**ARC 0435D**, IAB 7/22/26, effective 6/19/26]

481—2500.2(17A) Scope and applicability. 7—Chapter 2500 provides the definitions used by the agency in uniform rule proceedings. The following are additions to and expansions of the definitions found in 7—Chapter 2500 and applicable to 7—Chapters 2501 through 2506:

"Custodian" means an agency that owns and exercises control over public records. The originating agency, if any, is the custodian of records that are used to perform work or a service for the originating agency.

"Department" means the department of inspections, appeals, and licensing authorized by Iowa Code chapter 10A or, for purposes of this chapter, a division, board, or commission under the administrative authority of the department pursuant to Iowa Code chapter 10A that has rulemaking and waiver authority to whom this chapter is applicable.

"Director" means the director of the department, the director's designee, or a division, board, or commission under the administrative authority of the department pursuant to Iowa Code chapter 10A that has rulemaking and waiver authority or such division's, board's, or commission's designee.

"Originating agency" means any government agency that has requested the department to perform work or a service on its behalf. An originating agency retains custody of all records provided by the originating agency to the department.

"Person" means an individual, corporation, limited liability company, government or governmental subdivision or association, or any legal entity.
