650—20.1(153) Registration required. A person shall not practice on or after July 1, 2001, as a dental assistant unless the person has registered with the board and received a certificate of registration pursuant to this chapter.

650—20.2(153) Definitions. As used in this chapter:

“Dental assistant” means any person who, under the supervision of a dentist, performs any extraoral services including infection control or the use of hazardous materials or performs any intraoral services on patients. The term “dental assistant” does not include persons otherwise actively licensed in Iowa to practice dental hygiene or nursing who are engaged in the practice of said profession.

“Dental assistant trainee” means any person who is engaging in on-the-job training to meet the requirements for registration and who is learning the necessary skills under the personal supervision of a licensed dentist. Trainees may also engage in on-the-job training in dental radiography pursuant to 650—22.3(136C,153).

“Direct supervision” means that the dentist is present in the treatment facility, but it is not required that the dentist be physically present in the treatment room while the registered dental assistant is performing acts assigned by the dentist.

“General supervision” means that a dentist has examined the patient and has delegated the services to be provided by a registered dental assistant, which are limited to all extraoral duties, dental radiography, intraoral suctioning, and use of a curing light, intraoral digital imaging and intraoral camera. The dentist need not be present in the facility while these services are being provided.

“Personal supervision” for intraoral procedures means the dentist is physically present in the treatment room to oversee and direct all intraoral or chairside services of the dental assistant trainee. “Personal supervision” for extraoral procedures means a licensee or registrant is physically present in the treatment room to oversee and direct all extraoral services of the dental assistant trainee.

“Public health supervision” means all of the following:

1. The dentist authorizes and delegates the services provided by a registered dental assistant to a patient in a public health setting, with the exception that services may be rendered without the patient’s first being examined by a licensed dentist;
2. The dentist is not required to provide future dental treatment to patients served under public health supervision;
3. The dentist and the registered dental assistant have entered into a written supervision agreement that details the responsibilities of each licensee/registrant, as specified in subrule 20.15(2); and
4. The registered dental assistant has an active Iowa registration and a minimum of one year of clinical practice experience.

“Registered dental assistant” means any person who has met the requirements for registration and has been issued a certificate of registration.

“Trainee status expiration date” means 12 months from the date of issuance.

20.4(2) A licensed dentist may delegate to a dental assistant those procedures for which the dental assistant has received training. 650—20.5(153) Categories of dental assistants: dental assistant trainee, registered dental assistant. There are two categories of dental assistants. Both the supervising dentist and the registered dental assistant or dental assistant trainee are responsible for maintaining documentation of training. Such documentation must be maintained in the office of practice and shall be provided to the board upon request.

20.5(1) Registered dental assistant. Registered dental assistants are individuals who have met the requirements for registration and have been issued a certificate of registration. A registered dental assistant may, under general supervision, perform dental radiography, intraoral suctioning, use of a curing light and intraoral camera, and all extraoral duties that are assigned by the dentist and are consistent with these rules. During intraoral procedures, the registered dental assistant may, under direct supervision, assist the dentist in performing duties assigned by the dentist that are consistent with these rules. The registered dental assistant may take radiographs if qualified pursuant to 650—Chapter 22.

20.5(2) Dental assistant trainee. Dental assistant trainees are all individuals who are engaging in on-the-job training to meet the requirements for registration and who are learning the necessary skills under the personal supervision of a licensed dentist. Trainees may also engage in on-the-job training in dental radiography pursuant to rule 650—22.3(136C,153).

a. General requirements. The dental assistant trainee shall meet the following requirements:

(1) Successfully complete a course of study and examination in the areas of infection control, hazardous materials, and jurisprudence. The course of study shall be prior approved by the board and sponsored by a board-approved postsecondary school.

(2) If a trainee fails to become registered by the trainee status expiration date, the trainee must stop work as a dental assistant trainee. If the trainee has not yet met the requirements for registration, the trainee may reapply for trainee status but may not work until a new dental assistant trainee status certificate has been issued by the board.

b. Trainee restart.

(1) Reapplying for trainee status. A trainee may “start over” as a dental assistant trainee provided the trainee submits an application in compliance with subrule 20.6(1).

(2) Examination scores valid for three years. A “repeat” trainee is not required to retake an examination (jurisprudence, infection control/hazardous materials, radiography) if the trainee has successfully passed the examination within three years of the date of application.

(3) New trainee status expiration date issued. If the repeat trainee application is approved, the board office will establish a new trainee status expiration date by which registration must be completed.

(4) Maximum of two “start over” periods allowed. In addition to the initial 12-month trainee status period, a dental assistant is permitted up to two start over periods as a trainee. If a trainee seeks an additional start over period beyond two, the trainee shall submit a petition for rule waiver under 650—Chapter 7.

c. Trainees enrolled in cooperative education or work study programs. The requirements stated in this subrule apply to all dental assistant trainees, including a person enrolled in a cooperative education or work-study program through an Iowa high school. In addition, a trainee under 18 years of age shall not participate in dental radiography.

On or after May 1, 2013, a dentist supervising a person performing dental assistant duties must ensure that the person has been issued a trainee status certificate from the board office prior to the person’s first date of employment as a dental assistant. A dentist who has been granted a temporary permit to provide volunteer services for a qualifying event of limited duration pursuant to 650—subrule 13.3(3), or an Iowa-licensed dentist who is volunteering at such qualifying event, is exempt from this requirement for a dental assistant who is working under the dentist’s supervision at the qualifying event.

c. Prior to the trainee status expiration date, the dental assistant trainee is required to successfully complete a board-approved course of study and examination in the areas of infection control, hazardous materials, and jurisprudence. The course of study may be taken at a board-approved postsecondary

school or on the job using curriculum approved by the board for such purpose. Evidence of meeting this requirement prior to the trainee status expiration date shall be submitted by the employer dentist.

d. Prior to the trainee status expiration date, the dental assistant trainee's supervising dentist must ensure that the trainee has received a certificate of registration or has been issued start-over trainee status in accordance with rule 650—20.5(153) before performing any further dental assisting duties.

20.6(2) Registered dental assistant.

 3. Acknowledging that the CPR certificate will be retained and made available to board office staff as part of routine auditing and monitoring.
- (9) Any additional information required by the board relating to the character, education and experience of the applicant as may be necessary to evaluate the applicant's qualifications.

20.6(3) All applications must be signed and verified by the applicant as to the truth of the documents and statements contained therein.

20.6(4) A dental assistant who is licensed or registered in another jurisdiction but who is unable to satisfy the requirements for registration in this rule may apply for registration by verification, if eligible, in accordance with rule 650—20.17(272C).

2. Pursuant to Iowa Code section 147.4, upon any of the grounds for which registration may be revoked or suspended as specified in 650—Chapter 30.

[ARC 2028C, IAB 6/10/15, effective 7/15/15]

In lieu of the board's infection control examination, the board may approve an infection control examination given by another state licensing board if the board determines that the examination is substantially equivalent to the examination administered by the board.

20.10(2) Information on taking the examination may be obtained by contacting the board office at 400 S.W. 8th Street, Suite D, Des Moines, Iowa 50309-4687.

20.10(5) A score of 75 or better on the board infection control/hazardous material exam and a score of 75 or better on the board jurisprudence exam shall be considered successful completion of the examination. The board accepts the passing standard established by the Dental Assisting National Board for applicants who take the Dental Assisting National Board Infection Control Examination.

20.10(6) The written examination may be waived by the board, in accordance with the board's waiver rules at 650—Chapter 7, in practice situations where the written examination is deemed to be unnecessary or detrimental to the dentist's practice.

A dental assistant who assists a dentist in practicing dentistry in any capacity other than as a person supervised by a dentist in a dental office, or who directly or indirectly procures a licensed dentist to act as nominal owner, proprietor or director of a dental office as a guise or subterfuge to enable such dental assistant to engage directly or indirectly in the practice of dentistry, or who performs dental service directly or indirectly on or for members of the public other than as a person working for a dentist shall be deemed to be practicing dentistry without a license.

20.15(2) Responsibilities. When working together in a public health supervision relationship, a dentist and registered dental assistant shall enter into a written agreement that specifies the following responsibilities.

a. The dentist providing public health supervision must:

- (1) Be available to provide communication and consultation with the registered dental assistant;
- (2) Have age- and procedure-specific standing orders for the performance of services. Those standing orders must include consideration for medically compromised patients and medical conditions for which a dental evaluation must occur prior to the provision of services;
- (3) Specify a period of time in which an examination by a dentist must occur prior to providing further services;
- (4) Specify the location or locations where the services will be provided under public health supervision.

b. A registered dental assistant providing services under public health supervision may only provide services which are limited to all extraoral duties, dental radiography, intraoral suctioning, and use of a curing light and intraoral camera and must:

- (1) Maintain contact and communication with the dentist providing public health supervision;

- (5) Ensure that a procedure is in place for creating and maintaining dental records for the patients who are treated, including where these records are to be located.

c. The written agreement for public health supervision must be maintained by the dentist and the registered dental assistant and a copy filed with the board office within 30 days of the date on which the dentist and the registered dental assistant entered into the agreement. The dentist and registered dental assistant must review the agreement at least biennially.

d. The registered dental assistant shall file annually with the supervising dentist and the bureau of oral and health delivery systems a report detailing the number of patients seen, the services provided to patients and the infection control protocols followed at each practice location.
