574.10(1) "Teledentistry" means a dentist is providing or supervising dental services using technology when the patient is in another location.

574.10(2) A dentist may not provide teledentistry services to a patient based solely on the responses to an electronic questionnaire consisting of a static set of questions.

574.10(3) The standard of dental care is the same whether a patient is seen in person or through a teledentistry encounter.

a. The use of teledentistry is not an expansion of the scope of practice for dental hygienists or dental assistants.

b. A dentist may only use teledentistry if utilizing evidence-based standards of practice and practice guidelines to ensure patient safety, quality of care, and positive outcomes.

574.10(4) When teledentistry will be utilized, a dentist, in addition to the requirements of rule 481—574.8(153), is responsible for ensuring informed consent covers the following:

a. A description of the types of dental care services provided via teledentistry, including limitations on services;

b. The identity, contact information, practice location, licensure, credentials, and qualifications of all licensees and registrants involved in the patient's dental care, which should be publicly displayed on a website or provided in writing to the patient; and

c. Precautions for technological failures or emergency situations.

574.10(5) A dentist may only use teledentistry to conduct an examination for a new patient or for a new diagnosis if the examination is conducted in accordance with evidence-based standards of practice to sufficiently establish an informed diagnosis.

a. A dentist shall not conduct a dental examination using teledentistry if the standard of care necessitates an in-person dental examination.

b. Once an examination has been conducted, a dentist may delegate the services to be provided by a licensed dental hygienist or registered dental assistant. A dentist shall not delegate expanded functions when teledentistry is being utilized.

c. A dentist may only delegate services to licensees and registrants employing the levels of supervision as permitted in this chapter and 481—Chapters 570, 575, 576 and 577.

d. A supervising dentist may authorize the use of teledentistry in conjunction with public health supervision.

574.10(6) A dentist may only use teledentistry if the dentist has adequate knowledge of the nature and availability of local dental resources to provide appropriate follow-up care as needed. A dentist shall refer a patient to an acute care facility or an emergency department when necessary for the safety of the patient or in the case of emergency.

574.10(7) A teledentistry encounter shall be clearly characterized as such in a patient record.

574.10(8) All dentists, dental hygienists, and dental assistants shall ensure that the use of teledentistry complies with the privacy, breach and security requirements of the Health Insurance Portability and Accountability Act of 1996 (HIPAA), 45 CFR Part 160, Part 162, and Part 164, and any amendments of as of August 30, 2024.

481—574.11(153) Public health supervision allowed. A dentist who meets the requirements of this rule may provide public health supervision to a dental hygienist or registered dental assistant if the dentist has an active Iowa license and the services are provided in public health settings as defined in rule 481—570.1(153).

574.11(1) Minimum clinical practice required. A licensed dental hygienist or registered dental assistant is eligible to practice under public health supervision and provide services if the hygienist or assistant has an active license or registration and a minimum of one year of clinical practice experience.

574.11(2) Public health supervision agreements. When working under a public health supervision relationship, a dental hygienist or dental assistant shall enter into a written agreement with a dentist that addresses and complies with the following items:

- a. Specify the location or locations where the public health services will be provided.
- b. Include the preferred method of contact for ongoing communication and consultation between the dental hygienist or dental assistant.
- c. Have age- and procedure-specific standing orders for the performance of services. The standing orders should include consideration for medically compromised patients and medical conditions for which the standard of care would dictate that a dental evaluation occur prior to the provision of services.
- d. Specify a period of time in which an examination by a dentist must occur prior to providing further services. This examination requirement does not apply to educational services, assessments, screenings, and fluoride if specified in the supervision agreement.
- e. Specify whether the agreement permits the dental hygienists to apply silver diamine fluoride. The supervision agreement may include provisions for use of silver diamine fluoride if the dentist and the dental hygienist complete board-approved training and the provisions comply with board-approved protocols.
- f. Specify a procedure for creating and maintaining dental records for the patients who are treated by the dental hygienist or dental assistant, including where these records are to be located.
- g. Review the written agreement a minimum of once every two years, and maintain a copy of the agreement for reference.
- h. File a copy of the agreement with dental and oral health program of the department of health and human services within 30 days of entering into or updating an agreement and provide a copy of the agreement to the board upon request.

574.11(3) Dental hygiene and dental assistant services. A dental hygienist or dental assistant may provide the services specified in the public health supervision agreement pursuant to the following:

- a. A dental hygienist may provide services that fall within the scope of practice pursuant to 481—Chapter 576, except for the administration of local anesthesia or nitrous oxide inhalation analgesia.
- b. A registered dental assistant providing services under public health supervision may perform all extraoral duties, take dental radiographs, assist with intraoral suctioning, use a curing light and take images using an intraoral camera.
- c. Each patient shall sign a consent form that clarifies that dental public health services do not take the place of regular dental checkups at a dental office and are meant for people who otherwise would not have access to dental services.
- d. After receiving dental public health services, the dental hygienist or dental assistant will provide to the patient, parent or guardian a written plan for referral to a dentist and assessment of further dental treatment needs.

574.11(4) Reporting requirements. Each dental hygienist or dental assistant who rendered services under public health supervision at any time during the calendar year is obligated to complete a summary report at least annually or at the completion of a program. The dental hygienist or dental assistant will file the report with the dental and oral health program of the department of health and human services to assess the impact of the program.

- a. The report filed by each dental hygienist should include, at a minimum, information related to the number of patients seen and services provided.

b. The report filed by each dental assistant should include, at a minimum, information related to the number of patients seen, the services provided to patients and the infection control protocols followed at each public health location. The department will provide summary reports to the board on an annual basis.

c. The dental and oral health program should provide summary reports to the board annually or upon request.

574.12(1) The following billing practices are deemed to constitute deception, misrepresentation, overbilling, fraud or a combination thereof:

a. Accepting a third-party payment under a copayment plan as payment in full and not collecting the patient's portion without disclosing that to the third-party payer.

b. Increasing a fee to a patient merely because the patient has insurance.

c. Submitting a claim form to a third party and knowingly reporting incorrect treatment dates.

d. Describing a dental procedure incorrectly on a third-party claim form in order to receive a greater payment or intentionally making a noncovered procedure appear to be a covered procedure.

e. Recommending or performing unnecessary dental services or procedures.

f. Billing for services not rendered. A dentist may bill for those services that have started or been rendered, for actual costs incurred in the treatment of the patient, or for missed appointments.

g. Billing or drawing on a patient's line of credit prior to services being started or rendered. A dentist may bill or draw on a patient's line of credit for those services that have been rendered or for actual costs incurred in the treatment of the patient.

574.12(2) A dentist may allow patients to prepay for services, in whole or in part, on a voluntary basis.

574.12(3) Payments accepted by a dentist under a government-funded program, a sponsored access program, or a participating agreement entered into under a program of a third party are not considered as evidence of overbilling when determining whether a charge to a patient or to another third party on behalf of a patient not covered under any of these programs constitutes overbilling under this rule.

[ARC 8988C, IAB 3/5/25, effective 4/9/25]

574.13(2) *Discontinuance of practice.* When a dentist intends to discontinue practice at a practice, or upon death or incapacitation, the following provisions apply to minimize disruptions in patients' access to dental care:

a. A licensee or appointed representative shall notify all active patients in writing, by making the same notification available on the website of the dental practice for no less than 30 days, or by publication once a week for three consecutive weeks in a newspaper of general circulation that the licensee intends to discontinue the practice of dentistry and include guidance for the continuance of dental care, or how to make reasonable arrangements for the transfer of patient records or complete copies thereof to the patient, patient's guardian, or succeeding licensee.

b. A dentist should appoint another Iowa licensee, representative or entity who, upon the death or incapacitation of the dentist, is able to retain the patient records and assist patients with access to their records in compliance with state and federal law.

[ARC 8988C, IAB 3/5/25, effective 4/9/25]

481—574.15(153) Communications. Communications by inclusion or omission to the public must be accurate.

574.15(1) The following standards apply to the communications related to the practice of dentistry:

- a. Statements, testimonials, photographs, graphics or other means of communication shall not convey false, untrue, deceptive, or misleading information.
- b. Communications should not incite an individual's anxiety in an excessive or unfair way, and they should not create unjustified expectations of results.
- c. Communications that refer to benefits or other attributes of dental procedures or products that involve significant risks must also include realistic assessments of the safety and efficacy of those procedures or products. Communications should also include information about alternatives where necessary to avoid deception.
- d. Communications must neither misrepresent a dentist's credentials, training, experience or ability nor contain claims of superiority that cannot be substantiated.

574.15(2) Dentists are encouraged to engage in truthful, nondeceptive advertising. Dentists who engage in the types of advertising that do the following shall take care to ensure that ads are consistent with these rules:
