5.1(1) OSA is the appropriate authority for state and such federal agencies as are required by their agency rules to contact regarding actions such agencies may take that have the potential of affecting archaeological remains.

5.1(2) OSA, acting in its capacity as the state's principal agent in the coordination of archaeological matters, shall be advised of such projects early in the planning process in order to facilitate the conduct of any exploratory or salvage work as may be necessary.

5.1(3) OSA is authorized to enter into agreements and cooperative efforts with federal or states agencies concerned with archaeological salvage or the preservation of antiquities.
