CHAPTER 16
PRESCRIBING, ADMINISTERING, AND DISPENSING DRUGS
[Prior to 5/18/88, Dental Examiners, Board of[320]]

"Authorized delegate" means a licensed or registered health care professional, such as a dental
hygienist, dental assistant or registered nurse, who has obtained PMP log-in credentials. A dental
assistant trainee may not serve as an authorized delegate.

"Controlled substance" means a drug or other substance listed in division II of Iowa Code chapter
124.

"Opioid" means a drug that produces an agonist effect on opioid receptors and is indicated or used
for the treatment of pain.

"Prescription drug" means a drug, as classified by the United States Food and Drug Administration,
that is required to be prescribed or administered to a patient by a practitioner prior to dispensation.

"Prescription monitoring program" or "PMP" means the information program for drug prescribing
and dispensing administered by the Iowa board of pharmacy.

650—16.2(153) Scope of authority and prescribing requirements.

16.2(1) A license to practice dentistry issued by this board permits the licensee to prescribe,
administer, or dispense prescription drugs if the use is directly related to the practice of dentistry and
is within the scope of the dentist-patient relationship. Registration with the federal Drug Enforcement
Administration and the Iowa board of pharmacy further extends this privilege to controlled substances.

16.2(2) Prescribing by a licensed dentist must be directly related to the practice of dentistry. A
dental examination and medical history must be taken before a dentist initially prescribes, administers,
or dispenses a prescription drug to a patient, except for patients who receive fluoride dispensed under
protocols approved by the bureau of oral and health delivery systems of the department of public health.
A prescription drug prescribed, administered, or dispensed by a licensed dentist must be for a diagnosed
condition and be included in a dental treatment plan. The patient’s dental record must contain written
evidence of the examination and medical history.

16.2(3) On each occasion when a prescription drug is prescribed, administered, or dispensed to
a patient, an entry must be made in the patient’s dental record containing the following information: the
name, quantity, and strength of the prescription drug; the directions for its use; the date of issuance; and
the condition for which the prescription drug was used.

16.2(4) The prescribing, administering, and dispensing of prescription drugs shall be done in
accordance with all applicable state and federal laws.

16.2(5) When controlled substances are purchased, administered, or dispensed, a dentist shall
maintain records and accountability in accordance with 657—Chapter 10.

16.2(6) A dentist shall not self-prescribe or self-administer controlled substances.

16.2(7) Prescribing, administering, or dispensing controlled substances to members of the licensee’s
immediate family is prohibited, except in the case of an acute dental condition or on an emergency
basis for a dental condition when the licensee conducts an examination, establishes a patient record, and
maintains proper documentation.

650—16.3(153) Dispensing—requirements for containers and labeling.

16.3(1) Containers. A prescription drug shall be dispensed in a suitable container designed to protect
its integrity in accordance with all applicable federal and state laws.

16.3(2) Labeling. A label shall be affixed to the container in which a prescription drug is dispensed
bearing the following information:
1. Name and address of the dentist.
2. Name of the patient.
3. Date dispensed.
4. Directions for use.
5. Name, quantity, and strength of medication.
6. If it is Schedule II, III, or IV controlled substance, the federal transfer warning statement must appear on the label as follows: “Caution: Federal law prohibits the transfer of this drug to any person other than the patient for whom it was prescribed.”
7. Cautionary statements, if any.

650—16.4(153) Prescription requirements.

16.4(1) Prior to January 1, 2020, a prescription drug order may be written or transmitted to a pharmacy orally, by fax, or through electronic prescribing in accordance with applicable federal and state laws. A dentist shall take adequate measures to prevent prescription forgery from occurring. Beginning January 1, 2020, all prescription drug orders, including prescriptions for controlled substances, must be electronically prescribed unless exempted. Beginning January 1, 2020, a dentist who fails to comply with the electronic prescription mandate may be subject to a nondisciplinary administrative penalty of $250 per violation, up to a maximum of $5,000 per calendar year.

16.4(2) A dentist may delegate to a licensed dental hygienist or registered dental assistant the preparation of a prescription for the review, authorization, and manual or electronic signature of the dentist, but the dentist is responsible for the accuracy, completeness, and validity of the prescription.

16.4(3) A dentist shall securely maintain the unique authentication credentials issued to the dentist for utilization of the electronic prescription application and authentication of the dentist’s electronic signature. Unique authentication credentials issued to any individual shall not be shared with or disclosed to any other individual.

[ARC 4409C, IAB 4/24/19, effective 5/29/19]

650—16.5(153) Required use of the PMP.

16.5(1) Before a dentist issues an opioid prescription or dispenses an opioid, a dentist or authorized delegate shall query the PMP. The query shall be performed within 48 hours prior to a prescription being issued or dispensed and shall be done for each patient, each time an opioid prescription is authorized or dispensed.

16.5(2) A dentist who dispenses a controlled substance is required to report the dispensing to the PMP within one business day in accordance with 657—Chapter 37.
