CHAPTER 175
FAIR INFORMATION PRACTICES AND PUBLIC RECORDS

641—175.1(17A,22) Definitions. For purposes of this chapter, the following definitions apply:

“Agency” or “department” means the Iowa department of public health.

“Confidential record” means a record which is not available as a matter of right for examination and copying by members of the public under applicable provisions of law. Confidential records include records or information contained in records that the department is prohibited by law from making available for examination by members of the public, and records or information contained in records that are specified as confidential by Iowa Code section 22.7, or other provision of law, but that may be disclosed upon order of a court, the lawful custodian of the record, or by another person duly authorized to release the record. Mere inclusion in a record of information declared confidential by an applicable provision of law does not necessarily make that entire record a confidential record.

“Custodian” means the department or a person lawfully delegated authority by the department to act for the department in implementing Iowa Code chapter 22.

“Open record” means a record other than a confidential record.

“Personally identifiable information” means information about or pertaining to an individual in a record which identifies the individual and which is contained in a record system.

“Record” means the whole or a part of a “public record” as defined in Iowa Code section 22.1 that is owned by or in the physical possession of the department.

“Record system” means any group of records under the control of the department from which a record may be retrieved by a personal identifier such as the name of an individual, number, symbol, or other unique retriever assigned to an individual.

641—175.2(17A,22) Statement of policy. The purpose of this chapter is to facilitate broad public access to open records and to facilitate sound department determinations with respect to the maintenance of confidential records and the implementation of the fair information practices Act. The department is committed to the policies set forth in Iowa Code chapter 22, and department staff shall cooperate with members of the public in implementing the provisions of that chapter.

641—175.3(17A,22) Requests for access to records.

175.3(1) Location of record. A request for access to a record should be directed to the division where the record is maintained. If the location of the record is not known by the requester, the request shall be directed to the Iowa Department of Public Health, Public Information Officer, Lucas State Office Building, Des Moines, Iowa 50319-0075, Attention: Record Request. The department will forward the request to the appropriate person.

175.3(2) Office hours. Open records shall be made available during all customary office hours, which are 8 a.m. to 4:30 p.m. daily, excluding Saturdays, Sundays and legal holidays.

175.3(3) Request for access. Requests for access to open records may be made in writing, in person, by telephone, or by electronic means. A person requesting a record shall identify the particular record sought by name or description in order to facilitate the location of the record. A person requesting a record by mail, telephone, or by electronic means shall include the name, address, and telephone number of the person requesting the information in order to facilitate delivery of the record. A person shall not be required to give a reason for requesting an open record.

175.3(4) Response to requests. The custodian shall provide prompt access to an open record upon request unless the size or nature of the request makes prompt access infeasible. If the size or nature of the request for access to an open record requires time for compliance, the custodian shall comply with the request as soon as feasible. The custodian may delay access to an open record for one of the purposes authorized by Iowa Code section 22.8(4) or 22.10(4). The custodian shall promptly give notice to the requester of the reason for any delay in access to an open record and an estimate of the length of that delay and, upon request, shall promptly provide that notice to the requester in writing.
The custodian of a record may deny access to the record by members of the public only on the grounds that such a denial is warranted under Iowa Code sections 22.8(4) and 22.10(4), or that it is a confidential record, or that its disclosure is prohibited by a court order.

175.3(5) Security of record. No person may, without permission from the custodian, search or remove any record from the department files. The custodian or a designee of the custodian shall supervise examination and copying of department records. Records shall be protected from damage and disorganization.

175.3(6) Copying. A reasonable number of copies of an open record may be made in the department’s office. If photocopy equipment is not available in the department office where an open record is kept, the custodian shall permit its examination in that office and shall arrange to have copies promptly made elsewhere.

175.3(7) Fees.
    a. When charged. The department may charge a reasonable fee in connection with the examination or copying of records. To the extent permitted by applicable provisions of law, the payment of fees may be waived when the imposition of fees is inequitable or when a waiver is in the public interest.
    b. Copying and postage costs. Price schedules for published materials and for photocopies of records supplied by the department shall be prominently posted in department offices. Copies of records may be made by or for members of the public on department photocopy machines or from electronic storage systems at cost as determined and posted in department offices by the custodian. When the mailing of copies of records is requested, the actual costs of such mailing may also be charged to the requester.
    c. Search and supervisory fee. An hourly fee may be charged for actual department expenses in searching for and supervising the examination and copying of requested records. The fee shall be based upon the actual costs incurred. The department shall post the hourly fees to be charged in routine cases for search and supervision of records. Except as provided in Iowa Code section 144.46, no fee shall be charged if the records are not made available for inspection, or if the time required does not exceed one hour in duration, or if the time required for the search was the result of department error or record-keeping problems. Iowa Code section 144.46 specifically allows for fees for vital record searches when the record is not copied or is not found, and this Iowa Code section is implemented by 641—96.4(144).
    d. Advance deposits.
        (1) Fulfillment of a request for a copy of a public record may be contingent upon receipt of payment of expenses to be incurred in fulfilling the request, and such estimated expenses shall be communicated to the requester prior to fulfillment of the request. When the estimated total fee chargeable under this subrule exceeds $25, the custodian may require a requester to make an advance payment to cover all or a part of the estimated fee.
        (2) When a requester has previously failed to pay a fee chargeable under this subrule, the custodian may require payment of the prior fee and advance payment of the full amount of any estimated fee before the custodian processes a new request from that requester.

641—175.4(17A.22) Access to confidential records. Under Iowa Code section 22.7 or other applicable provisions of law, the lawful custodian may disclose certain confidential records to particular persons under certain limited circumstances if the person is legally entitled to the record. In requesting the custodian to permit the examination and copying of such a confidential record, the following procedures apply and are in addition to those specified for requests for access to records in rule 175.3(17A,22).

175.4(1) Proof of identity. A person requesting access to a confidential record may be required to provide proof of identity or authority to secure access to the record.

175.4(2) Requests. The custodian may require a request to examine and copy a confidential record to be in writing. A person requesting access to such a record may be required to sign a certified statement or affidavit enumerating the specific reasons justifying access to the confidential record and to provide any proof necessary to establish relevant facts.

175.4(3) Notice to subject of record and opportunity to obtain injunction. After the custodian receives a request for access to a confidential record, and before the custodian releases such a record,
the custodian may make reasonable efforts to notify promptly any person who is a subject of that record, is identified in that record, and whose address or telephone number is contained in that record. To the extent such a delay is practicable and in the public interest, the custodian may give the subject of such confidential record to whom notification is transmitted a reasonable opportunity to seek an injunction under Iowa Code section 22.8, and indicate to the subject of the record the specific period of time during which disclosure will be delayed for that purpose. The department is not required to provide notification or an opportunity to seek an injunction under this subrule and retains sole discretion as to whether to pursue such action.

175.4(4) Requests denied. When the custodian denies a request for access to a confidential record, the custodian shall promptly notify the requester. If the requester indicates to the custodian that a written notification of the denial is desired, the custodian shall promptly provide such a notification that is signed by the custodian and that includes:
   a. The name and title or position of the custodian responsible for the denial; and
   b. A citation to the provision of law vesting authority in the custodian to deny disclosure of the record and a brief statement of the reasons for the denial.

175.4(5) Request granted. When the custodian grants a request for access to a confidential record to a particular person, the custodian shall notify that person and indicate any lawful restrictions imposed by the custodian on that person’s examination and copying of the record.

641—175.5(17A,22) Requests for treatment of a record as a confidential record and its withholding from examination. The custodian may treat a record as a confidential record and withhold it from examination only to the extent that the custodian is authorized by Iowa Code section 22.7, another applicable provision of law, or a court order to refuse to disclose that record to members of the public.

175.5(1) Persons who may request. Any person who would be aggrieved or adversely affected by disclosure of a record and who asserts that Iowa Code section 22.7, another applicable provision of law, or a court order authorizes the custodian to treat the record as a confidential record may request the custodian to treat that record as a confidential record and to withhold it from public inspection.

175.5(2) Request. A request that a record be treated as a confidential record and be withheld from public inspection shall be in writing and shall be filed with the custodian. The request must set forth the legal and factual basis justifying such confidential treatment for that record, and the name, address, and telephone number of the person authorized to respond to any inquiry or action of the custodian concerning the request. A person requesting treatment of a record as a confidential record may also be required to sign a certified statement or affidavit enumerating the specific reasons justifying the treatment of that record as a confidential record and to provide any proof necessary to establish relevant facts. Requests for treatment of a record as a confidential record for a limited time period shall also specify the precise period of time for which that treatment is requested.

A person filing such a request shall, if possible, accompany the request with a copy of the record in question from which those portions for which such confidential record treatment has been requested have been deleted. If the original record is being submitted to the department by the person requesting such confidential treatment at the time the request is filed, the person shall indicate conspicuously on the original record that all or portions of it are confidential.

175.5(3) Failure to request. Failure of a person to request confidential record treatment for a record does not preclude the custodian from treating it as a confidential record. However, if a person who has submitted business information to the department does not request that it be withheld from public inspection under Iowa Code sections 22.7(3) and 22.7(6), the custodian of records containing that information may proceed as if that person has no objection to its disclosure to members of the public.

175.5(4) Timing of decision. A decision by the custodian with respect to the disclosure of a record to members of the public may be made when a request for its treatment as a confidential record is filed or when the custodian receives a request for access to the record by a member of the public.

175.5(5) Request granted or deferred. If a request for such confidential record treatment is granted, or if action on such a request is deferred, a copy of the record from which the matter in question has been deleted and a copy of the decision to grant the request or to defer action upon the request will be made
available for public inspection in lieu of the original record. If the custodian subsequently receives a
request for access to the original record, the custodian will make reasonable and timely efforts to notify
any person who has filed a request for its treatment as a confidential record that is not available for public
inspection of the pendency of that subsequent request.

175.5(6) Request denied and opportunity to seek injunction. If a request that a record be treated as
a confidential record and be withheld from public inspection is denied, the custodian shall notify the
requester in writing of that determination and the reasons therefor. On application by a requester, the
custodian may engage in a good faith, reasonable delay in allowing examination of the record so that the
requester may seek injunctive relief under the provisions of Iowa Code section 22.8 or other applicable
provision of law. However, such a record shall not be withheld from public inspection for any period
of time if the custodian determines that the requester had no reasonable ground to justify the treatment
of that record as a confidential record. The custodian shall notify requester in writing of the time period
allowed to seek injunctive relief or the reasons for the determination that no reasonable grounds exist
to justify the treatment of that record as a confidential record. The custodian may extend the period
of good faith, reasonable delay in allowing examination of the record so that the requester may seek
injunctive relief only if no request for examination of that record has been received, or if a court directs
the custodian to treat it as a confidential record, or to the extent permitted by another applicable provision
of law, or with the consent of the person requesting access.

641—175.6(17A,22) Procedure by which additions, dissents, or objections may be entered into
certain records. Except as otherwise provided by law, a person may file a request with the custodian
to review, and to have a written statement of additions, dissents, or objections entered into a record
containing personally identifiable information pertaining to that person. However, a person who is a
subject of such a record shall not be authorized to alter the original copy of that record or to expand the
official record of any agency proceeding. A requester shall send the request to review such a record or
the written statement of additions, dissents, or objections to the custodian or to the division in which the
record is maintained. The request to review such a record or the written statement of such a record of
additions, dissents, or objections must be dated and signed by requester, and shall include the current
address and telephone number of the requester or the requester’s representative.

641—175.7(17A,22) Consent to disclosure by the subject of a confidential record. Except as
otherwise provided by law, a person who is the subject of a confidential record may have a copy of the
portion of that record concerning the subject disclosed to a third party. A request for such a disclosure
must be in writing and must identify the particular record or records that may be disclosed, and the
particular person or class of persons to whom they may be disclosed. The person who is the subject of
the record and, where applicable, the person to whom the record is to be disclosed, may be required to
provide proof of identity. Appearance of counsel before the department on behalf of a person who is the
subject of a confidential record is deemed to constitute consent for the department to disclose records
about that person to the person’s attorney.

641—175.8(17A,22) Notice to suppliers of information. When the department requests a person to
supply information about that person, the department may notify the person of the use that will be made
of the information, which persons outside the department might routinely be provided this information,
which parts of the requested information are required and which are optional, and the consequences of a
failure to provide the information requested. This notice may be given in these rules, on the written form
used to collect the information, on a separate fact sheet or letter, in brochures, in formal agreements, in
contracts, in handbooks, in manuals, verbally, or by other appropriate means.

641—175.9(17A,22) Disclosures without the consent of the subject.

175.9(1) The department shall routinely disclose open records without the consent of the subject.
175.9(2) To the extent allowed by law, disclosure of confidential records may occur without the consent of the subject. Following are instances where disclosure, if lawful, will generally occur without notice to the subject:

a. For a routine use as defined in rule 175.10(17A,22) or in the notice for a particular record system.

b. To a recipient who has provided the department with advance written assurance that the record will be used solely as a statistical research or reporting record. The department shall not release confidential data or information pursuant to this chapter unless the department and the recipient have executed an agreement which includes the conditions under which the confidential data or information may be used and a restriction on the further disclosure of the data or information.

c. To another government agency or to an instrumentality of any governmental jurisdiction within or under the control of the United States for a civil, administrative, or criminal law enforcement activity if the activity is authorized by law, and if an authorized representative of such government agency or instrumentality has submitted a written request to the department specifying the record desired and the law enforcement activity for which the record is sought.

d. To an individual pursuant to a showing of compelling circumstances affecting the health or safety of any individual if a notice of the disclosure is transmitted to the last-known address of the subject.

e. To the legislative services agency under Iowa Code section 2A.3.

f. Disclosures in the course of employee disciplinary proceedings.

g. In response to a court order or subpoena.

h. To the office of citizens’ aide pursuant to Iowa Code section 2C.9.

641—175.10(17A,22) Routine use.

175.10(1) Defined. “Routine use” means the disclosure of a record without the consent of the subject for a purpose which is compatible with the purpose for which the record was collected. “Routine use” includes disclosures required or authorized by statute or rule.

175.10(2) To the extent allowed by law, the following uses are considered routine uses of all department records:

a. Disclosure to those officers, employees, and agents of the department who have a need for the record in the performance of their duties.

b. Disclosure to employees of federal, state and local agencies and other researchers for purposes of bona fide research. The department shall not release data or information pursuant to this paragraph unless the department and the researcher have executed an agreement which includes the conditions under which the confidential data or information may be used and restrictions on further disclosure of the data or information.

c. Disclosure of information indicating an apparent violation of the law to appropriate law enforcement authorities for investigation and possible criminal prosecution, civil court action, or regulatory order.

d. Disclosure to the department of inspections and appeals for matters in which it is performing services or functions on behalf of the department.

e. Transfers of information within the department, to other state or federal agencies, or to local units of government as necessary to administer the program for which the information is collected or as necessary to administer a program within the other governmental agency. Confidential information transferred within the department or provided to other agencies pursuant to this paragraph shall continue to maintain its confidential status and shall not be rereleased by the receiving agency.

f. Information released to staff of federal and state entities for audit purposes or for purposes of determining whether the department is operating a program lawfully.

g. Any disclosure specifically authorized by the statute or rule under which the record was collected or maintained.
641—175.11(17A,22) Consensual disclosure of confidential records.

175.11(1) Consent to disclosure by a subject individual. To the extent permitted by law, the subject may consent in writing to department disclosure of confidential records as provided in rule 175.7(17A,22).

175.11(2) Complaints to public officials. A letter from a subject of a confidential record to a public official which seeks the official’s intervention on behalf of the subject in a matter that involves the department may be to the extent permitted by law be treated as an authorization to release sufficient information about the subject to the official to resolve the matter.

641—175.12(17A,22) Release to subject.

175.12(1) The subject of a confidential record may file a written request to review confidential records about that person as provided in rule 175.6(17A,22). However, the department need not release the following records to the subject:

a. The identity of a person providing information to the department need not be disclosed directly or indirectly to the subject of the information when the information is authorized to be held confidential pursuant to Iowa Code section 22.7(18) or other provision of law.

b. Records need not be disclosed to the subject when they are the work product of an attorney or are otherwise privileged.

c. Peace officers’ investigative reports may be withheld from the subject, except as required by the Iowa Code.

d. As otherwise authorized by law.

175.12(2) Where a record has multiple subjects with interest in the confidentiality of the record, the department shall take reasonable steps to protect confidential information relating to another subject.

641—175.13(17A,22) Availability of records.

175.13(1) General. Department records are open for public inspection and copying subject to supervision unless otherwise provided by statute or rule.

175.13(5) Portions of department staff manuals, instructions or other statements issued shall be kept confidential when such documents set forth criteria or guidelines to be used by department staff in auditing, in making inspections, in settling commercial disputes or negotiating commercial arrangements, or in the selection or handling of cases, such as operational tactics or allowable tolerances or criteria for the defense, prosecution or settlement of cases, when disclosure of these statements would:

a. Enable law violators to avoid detection;
b. Facilitate disregard of requirements imposed by law; or
c. Give a clearly improper advantage to persons who are in an adverse position to the department.

175.13(6) Records which constitute attorney work product or attorney-client communications or which are otherwise privileged shall be kept confidential. Attorney work product is confidential under Iowa Code sections 22.7(4), 622.10 and 622.11, Iowa R.C.P. 1.503, Fed. R. Civ. P. 26(b)(3), and case law. Attorney-client communications are confidential under Iowa Code sections 622.10 and 622.11, the rules of evidence, the Code of Professional Responsibility, and case law.

175.13(7) Records exempted from public inspection under Iowa Code section 22.7 or any other provision of law shall be kept confidential.

641—175.14(17A,22) Personally identifiable information. This rule describes the nature and extent of personally identifiable information which is collected, maintained, and retrieved by the department by personal identifiers in record systems as defined in rule 175.1(17A,22). For each record system, this rule describes the legal authority for the collection of that information and the means of storage of that information. A data processing system does not match, collate, or permit the comparison of personally
identifiable information in one record system with personally identifiable information in another record system unless so indicated. The record systems maintained by the department are as follows:

175.14(1) Division of acute disease prevention and emergency response.

a. Records of reportable diseases and other diseases and health conditions collected pursuant to Iowa Code chapter 139A. These records are stored on paper, electronically, or both, depending on the specific type of record. Except for statistical reports, these records are confidential as outlined in 175.13(2)“a.”

b. Records of reportable sexually transmitted diseases or infections collected pursuant to Iowa Code chapter 139A. These records are stored on paper, electronically, or both, depending on the specific type of record. Except for statistical reports, these records are confidential as outlined in 175.13(2)“b.”
