The authority will identify specific types of investments for which it intends to provide financial assistance on the application form or forms.

119.5(2) Applications will be accepted and processed by authority staff on a continuing basis, or the authority may establish application periods as announced on the authority's website. 261—119.6(15) Application scoring criteria.

119.6(1) When applications for financial assistance under the program are reviewed by authority staff or a technical review panel, the criteria below will be considered and the application scored as described. There is no minimum score required for funding under the program. However, a lower score indicates that the authority views the application less favorably than an application with a higher score.

119.6(2) The criteria under which each application will be scored are:

a. The percentage of the applicant business's revenue derived from the sale of manufactured goods: 20 points. Applicants who derive a higher percentage of revenue from the sale of manufactured goods will receive higher scores in this category.

b. The extent to which the manufacturer's proposed manufacturing 4.0 technology investment is consistent with the opportunities identified in the assessment completed by the center for industrial

research and service at Iowa state university of science and technology pursuant to subrule 119.4(7): 20 points.

c. The extent to which the investment integrates smart technologies into existing manufacturing operations: 15 points.

d. The sufficiency of the proposed investment's financing structure, the feasibility of the sources of funds, and the appropriateness of the proposed uses of the funds: 15 points.

e. The extent to which the investment will enhance an applicant's workforce: 10 points.

f. The extent to which the applicant has planned for long-term use of the manufacturing 4.0 technology investment and an overall transition to smart technologies: 10 points.

g. The extent to which the investment corresponds to the specific type of investment identified by the authority on the application form or forms: 10 points.

119.7(2) Any substantive change to a proposed investment shall require an amendment to the contract. Amendments shall be requested in writing. No amendment shall be valid until approved by the board. The authority may execute nonsubstantive or corrective changes to the contract without board approval.

[ARC 5972C, IAB 10/6/21, effective 9/17/21]

Disbursement of funds under the contract will be on a reimbursement basis for expenses incurred by the applicant after the date of application and as provided under the contract.

[ARC 5972C, IAB 10/6/21, effective 9/17/21]
