**201—51.2(356,356A) General provisions.** These rules apply to all temporary holding facilities regulated by Iowa Code chapter 356 or 356A.

**51.2(1) Capacity.** Established capacities as determined by these rules shall not be exceeded except in the event of an emergency, and then only for such a period of time as is necessary to arrange for alternate housing or release of sufficient detainees to bring the number of persons confined into compliance with the rated capacity.

**51.2(2) Right to inspect and visit.** The chief jail inspector or authorized representatives shall visit and inspect temporary holding facilities and may do so on an unannounced basis. Facility personnel and supervisors shall cooperate in inspections and shall exhibit to the inspectors, upon request, all books, records, medical records, data, documents and accounts pertaining to a temporary holding facility or to the detainees confined and shall assist inspectors to perform the functions, powers and duties of their office. Provisions of the first paragraph of Iowa Code section 356.43 shall control to the extent of any inconsistency of the provisions of this subrule.

**51.2(3) Other standards.** Nothing contained in these standards shall be construed to prohibit local officials from adopting standards and requirements governing their employees and facilities, provided these standards and requirements exceed and do not conflict with standards mandated in this chapter. These standards shall not be construed as authority to violate any state fire safety standard, building standard, health and safety code, or any constitutional requirement. No facility shall be operated without

substantially meeting these rules unless operating under a waiver granted according to the provisions of 201—Chapter 7, Iowa Administrative Code.

**51.2(4) *Equal opportunity.*** Facilities, programs, and services shall be available on an equitable basis to both males and females even though each standard does not specify that it applies to both males and females.

**51.2(5) *Nondiscriminatory treatment.*** Each facility administrator shall ensure that staff and detainees are not subject to discriminatory treatment based upon race, religion, nationality, disability, sex or age, absent compelling reason for said discriminatory treatment. Discrimination on the basis of a disability is prohibited in the provision of services, programs and activities.

**201—51.3(356,356A) Inspection and compliance.** The chief inspector or authorized representatives shall visit and inspect each facility within this state at least annually to determine the degree of compliance with these standards and within 45 days of each inspection shall report the results to the temporary holding facility administrator and the governing body responsible for the facility.

**51.3(1) *Notice of noncompliance with minimum standards.*** Whenever the determination is made that a temporary holding facility is not in compliance with established minimum standards, the chief administrator of the affected governmental facility will be notified by letter posted or personal delivery of the need to bring the facility into compliance. The jail inspection unit shall issue a notice of noncompliance to the responsible facility administrator and the governing body of each instance in which the facility fails to comply with the minimum standards established under these rules. The letter shall contain a listing of the statute(s) and rule(s) with which the facility is not in compliance and a description of the deficiencies and shall specifically identify each minimum standard with which the facility has failed to comply.

**51.3(2) *Enforcement of minimum standards; remedial orders.*** Upon receipt of a notice of noncompliance pursuant to subrule 51.3(1), the responsible authorities shall initiate appropriate corrective measures within the time prescribed by the jail inspection unit in its notice (which shall not exceed 90 days) and shall complete the corrections within a reasonable time as prescribed by the notice of noncompliance. The jail inspector may agree with the responsible authorities to a plan of action detailing corrective steps with corresponding time frames which will bring the facility into compliance within a reasonable time. If the responsible officials receiving notice of noncompliance fail to initiate corrective measures or to complete the corrective measures within the time prescribed, the jail inspection unit may order the facility in question or any portion thereof closed, that further confinement of detainees or classifications of detainees in the noncomplying facility or any portion thereof be prohibited, or that all or any number of detainees then confined be transferred to and maintained in another facility, or any combination of remedies.

An order for closure shall contain the following:

- a. Statute(s) and rule(s) violated.
- b. A brief description of the deficiencies.
- c. The effective date of the order.
- d. An explanation of remedies required before reopening.

This order shall be the notice of noncompliance pursuant to Iowa Code section 356.43 and 201—Chapter 12 concerning contested cases. The matter shall then proceed in accordance with 201—Chapter 12. The jail inspector may agree with the responsible authorities to a plan of action detailing corrective steps with corresponding time frames which would bring the facility into compliance within a reasonable time. The remedial order shall be in writing and shall specifically identify each minimum standard with which the facility has failed to comply. Such remedial order shall become final and effective 30 days after receipt thereof. In the event immediate closure is required, emergency action shall proceed pursuant to 201—12.24(17A).

**51.3(3) *Precedent.*** Because rules cannot adequately anticipate all potential specific factual situations and circumstances presented for action, determination or adjudication by the jail inspection unit, the nature of the action taken with regard to any matter or the disposition of any matter pending before the jail inspection unit is not necessarily of meaningful precedential value, and the department shall

not be bound by the precedent of any previous action, determination, or adjudication in the subsequent disposition of any matter pending before it.

This rule is intended to implement Iowa Code sections 17A.10, 17A.12 and 356.43.

Inspection by a municipal inspector qualified in these areas may be permitted.

*b.* Any facility determined to be deficient following inspection may be ordered closed by the jail inspector or specific conditions limiting its operation may be imposed in lieu of closing.

An order of closure shall contain the following:

- (1) Statute(s) and rule(s) violated.

Temporary holding facilities may be inspected by the fire marshal, or by personnel of local fire departments deemed by the fire marshal qualified to conduct inspections, on a schedule determined by the fire marshal. The state jail inspection unit of the Iowa department of corrections, a temporary holding facility administrator, or the chief executive of an agency which administers a temporary holding facility may request the state fire marshal to inspect a temporary holding facility for compliance with fire safety standards. If the state fire marshal finds, based on such an inspection, that a temporary holding facility is not in substantial compliance with fire safety standards, the state fire marshal may require the facility administrator to submit a plan of correction of violations of these standards to the fire marshal.
