

CHAPTER 103
MOBILE RADIO TRANSMITTERS

571—103.1(481A) Definitions.

“One-way mobile radio transmitters” means radios capable of transmitting a radio signal only. The signal is tracked or located by radio telemetry or by location of an audible sound signal. The system is not capable of transmitting voice signals.

“Two-way mobile radio transmitters” means radios capable of transmitting and receiving voice messages. An example would be a CB radio or a cellular telephone.

571—103.2(481A) Falconry. Licensed falconers may use one-way mobile radio transmitters to recover free-flying birds of prey properly banded and covered on their falconry permit.

571—103.3(481A) Hunting dogs. Any person hunting with the aid of a dog may use, at any time, a one-way mobile transmitter designed to track or aid in the recovery of the dog.

These rules are intended to implement Iowa Code section 481A.24.
