[Prior to 8/26/87, see Inspections and Appeals Department[481]—Chs 21 and 22]

481—31.1(137F) Inspection standards for food establishments. The department adopts, with the following exceptions, the 2009 Food Code with Supplement of the Food and Drug Administration as the state's "food code," which is the inspection standard for food establishments other than food processing plants.

31.1(1) *Certified food protection manager required.* For purposes of section 2-102.12 of the 2009 Food Code with Supplement, establishments that sell only prepackaged foods are not required to employ an individual who is a certified food protection manager. Temporary food establishments are not required to employ an individual who is a certified food protection manager. Bars or taverns at which food is not prepared, where customers may purchase alcoholic beverages, and where the serving of food is limited to the service of ice, beverages, prepackaged snack foods, popcorn, or peanuts and the reheating of commercially prepared foods that do not require assembly, such as frozen pizza or prepackaged sandwiches, are not required to employ an individual who is a certified food protection manager. For all other establishments, the following time frames apply for employment of an individual who is a certified food protection manager:

a. For establishments newly licensed after January 1, 2014, the requirement of section 2-102.12 must be met within six months of licensure.

b. Establishments in existence as of January 1, 2014, that do not receive a foodborne illness risk factor or public health intervention violation on or before July 1, 2017, shall meet the requirement of section 2-102.12 by January 1, 2018.

c. Establishments in existence as of January 1, 2014, that receive a foodborne illness risk factor or public health intervention violation on or before July 1, 2017, shall meet the requirement of section 2-102.12 within six months of the violation.

d. If the individual meeting the requirement of section 2-102.12 leaves employment with an establishment required to meet section 2-102.12, the establishment shall meet the requirement of section 2-102.12 within six months.

31.1(2) *Honey prepared in a residence.* Section 3-201.11 is amended to allow honey which is stored; prepared, including by placement in a container; or labeled at or distributed from the premises of a residence to be sold in a food establishment.

31.1(3) *Morel mushrooms.* Section 3-201.16, paragraph (A), is amended by adding the following:
"A food establishment or farmers market potentially hazardous food licensee may serve or sell morel mushrooms if procured from an individual who has completed a morel mushroom identification expert course. Every morel mushroom shall be identified and found to be safe by a certified morel mushroom identification expert whose competence has been verified and approved by the department through the expert's successful completion of a morel mushroom identification expert course provided by either an accredited college or university or a mycological society. The certified morel mushroom identification expert shall personally inspect each mushroom and determine it to be a morel mushroom. A morel mushroom identification expert course shall be at least three hours in length. To maintain status as a morel mushroom identification expert, the individual shall have successfully completed a morel mushroom identification expert course described above within the past three years. A person who wishes to offer a morel mushroom identification expert course must submit the course curriculum to the department for review and approval. Food establishments or farmers market potentially hazardous food licensees offering morel mushrooms shall maintain the following information for a period of 90 days from the date the morel mushrooms were obtained:

- "2. A copy of the morel mushroom identification expert's certificate of successful completion of the course, containing the date of completion; and
- "3. The quantity of morel mushrooms purchased and the date(s) purchased.

“Furthermore, a consumer advisory shall inform consumers by brochures, deli case or menu advisories, label statements, table tents, placards, or other effective written means that wild mushrooms should be thoroughly cooked and may cause allergic reactions or other effects.”

31.1(4) *Field-dressed wild game prohibition.* Subparagraph 3-201.17(A)(4) is amended to state that field-dressed wild game shall not be permitted in food establishments unless:

- a. The food establishment is also licensed and inspected by the Iowa department of agriculture and land stewardship, meat and poultry inspection bureau, pursuant to Iowa Code section 189A.3;
- b. All field-dressed wild game is adequately separated from food, equipment, utensils, clean linens, and single-service and single-use articles; and

- c. All employees, including volunteers, shall be under the direction of the person in charge. The person in charge shall ensure that the workers are effectively cleaning their hands, that potentially hazardous food is adequately cooked, held or cooled, and that all multiuse equipment or utensils are adequately washed, rinsed and sanitized.
- d. Employees and volunteers shall not work at a temporary food establishment or farmers market potentially hazardous food establishment if the employees and volunteers have open cuts, sores or communicable diseases. The person in charge shall take appropriate action to ensure that employees and volunteers who have a disease or medical condition transmissible by food are excluded from the food operation.
- e. Every employee and volunteer must sign a logbook with the employee's or volunteer's name, address, and telephone number and the date and hours worked. The logbook must be maintained for 30 days by the person in charge and be made available to the department upon request.

31.5(2) Food handling and service.

- a. *Dry storage.* All food, equipment, utensils and single-service items shall be stored off the ground and above the floor on pallets, tables or shelving.
