81.2(8) General restriction. Anglers must comply with the most restrictive set of regulations applicable to the water on which they are fishing. Where length limits apply, fish less than the legal length must be immediately released into the water from which they were caught.

81.2(9) Catfish. For the purpose of this rule, stream catfish bag and possession limits apply at the federal flood control impoundments of Rathbun Lake, Red Rock Lake, Saylorville Lake, and Coralville Lake.

81.2(10) Identification of catch. No person shall transport or possess on any waters of the state any fish unless (a) the species of any such fish can be readily identified and a portion of the skin (at least 1 square inch) including scales is left on all fish or fillets and (b) the length of fish can be determined when length limits apply. "On any waters of the state" includes from the bank or shoreline in addition to wading and by boat.

81.2(11) Method of take. Artificial light may be used in the taking of any fish. The following species of fish may be taken by hand fishing, snagging, spearing, and bow and arrow: common carp, bighead carp, grass carp, silver carp, black carp, bigmouth buffalo, smallmouth buffalo, black buffalo, quillback carpsucker, highfin carpsucker, river carpsucker, spotted sucker, white sucker, shorthead redhorse, golden redhorse, silver redhorse, sheepshead, shortnose gar, longnose gar, dogfish, gizzard shad, and goldfish. All other species of fish not hooked in the mouth, except paddlefish legally taken by snagging, must be returned to the water immediately with as little injury as possible. A fish is foul hooked when caught by a hook in an area other than in the fish's mouth. Snagging is defined as the practice of jerking any type of hook or lure, baited or unbaited, through the water with the intention of foul hooking fish. No hook larger than a 5/0 treble hook or measuring more than 1¼ inches in length when two of the hook points are placed on a ruler are permitted when snagging. In all waters of the Mississippi River, the daily bag and possession limit applied individually to crappie, yellow perch and rock bass shall be 25 and 50, respectively. In all waters of the Mississippi River, the daily bag and possession limit applied in the aggregate for bluegill and pumpkinseed and for white bass and yellow bass shall be 25 and 50, respectively.

81.2(13) Culling. It is prohibited to sort, cull, high-grade, or replace any fish already in possession. Participants in permitted black bass tournaments are exempted. Any fish taken into possession by holding in a live well, on a stringer or in other fish-holding devices is part of the daily bag limit. Once the daily

bag limit of a particular species is reached, fishing for that species is permitted as long as all fish of that species caught are immediately released.
