d. Tracking and analysis. The provider shall track incident data and analyze trends to assess the health and safety of consumers served and determine if changes need to be made for service implementation or if staff training is needed to reduce the number or severity of incidents.

77.37(9) *Intake, admission, service coordination, discharge, and referral.*

a. The provider shall have written policies and procedures according to state and federal laws for intake, admission, service coordination, discharge and referral. Service coordination means activities designed to help individuals and families locate, access, and coordinate a network of supports and services that will allow them to live a full life in the community.

b. The provider shall ensure the rights of persons applying for services.

77.37(10) *Certification process.* Reviews of compliance with standards for initial certification and recertification shall be conducted by the department of human services' bureau of long-term care quality assurance staff. Certification carries no assurance that the approved provider will receive funding.

- a. Rescinded IAB 9/1/04, effective 11/1/04.
- b. Rescinded IAB 9/1/04, effective 11/1/04.
- c. Rescinded IAB 9/1/04, effective 11/1/04.
- d. The department may request any information from the prospective service provider which is considered pertinent to arriving at a certification decision. This may include, but is not limited to:
 - (1) Current accreditations, evaluations, inspections and reviews by regulatory and licensing agencies and associations.
 - (2) Fiscal capacity of the prospective provider to initiate and operate the specified programs on an ongoing basis.

77.37(11) *Initial certification.* The department shall review the application and accompanying information to see if the provider has the necessary framework to provide services in accordance with all applicable requirements and standards.

a. The department shall make a determination regarding initial certification within 60 days of receipt of the application and notify the provider in writing of the decision unless extended by mutual consent of the parties involved. Providers shall be responsible for notifying the appropriate county and the appropriate central point of coordination of the determination.

b. The decision of the department on initial certification of the providers shall be based on all relevant information, including:

- (1) The application for status as an approved provider according to requirements of rules.
- (2) A determination of the financial position of the prospective provider in relation to its ability to meet the stated need.
- (3) The prospective provider's coordination of service design, development, and application with the applicable region and other interested parties.
- (4) The prospective provider's written agreement to work cooperatively with the state, counties and regions to be served by the provider.

c. Providers applying for initial certification shall be offered technical assistance.

77.37(12) *Period of certification.* Provider certification shall become effective on the date identified on the certificate of approval and shall terminate in 270 calendar days, one year, or three calendar years from the month of issue. The renewal of certification shall be contingent upon demonstration of continued compliance with certification requirements.

a. Initial certification. Providers eligible for initial certification by the department shall be issued an initial certification for 270 calendar days based on documentation provided.

b. Recertification. After the initial certification, the level of certification shall be based on an on-site review unless the provider has been accredited for similar services by the Joint Commission on Accreditation of Healthcare Organizations (JCAHO), the Commission on Accreditation of Rehabilitation Facilities (CARF), the Council on Quality and Leadership in Supports for People with Disabilities (The Council), or the Council on Accreditation of Services for Families and Children (COA). The on-site reviews for supported community living and supported employment use interviews with consumers and significant people in the consumer's life to determine whether or not the 20 individual value-based outcomes set forth in subrules 77.37(1) and 77.37(2) and corresponding processes are present for the consumer. Respite services are required to meet Outcome 1 and participate in satisfaction surveys.

Once the outcomes and processes have been determined for all the consumers in the sample, a review team then determines which of the 20 outcomes and processes are present for the provider. A specific outcome is present for the provider when the specific outcome is determined to be present for 75 percent or more of the consumers interviewed. A specific process is present for the provider when the process is determined to be present for 75 percent or more of the consumers interviewed. Since the processes are in the control of the provider and the outcomes are more in the control of the consumer, length of certification will be based more heavily on whether or not the processes are in place to help consumers obtain desired outcomes.

An exit conference shall be held with the organization to share preliminary findings of the certification review. A review report shall be written and sent to the provider within 30 calendar days unless the parties mutually agree to extend that time frame.

Provider certification shall become effective on the date identified on the Certificate of Approval, Form 470-3410, and shall terminate in 270 calendar days, one year, or three calendar years from the month of issue. The renewal of certification shall be contingent upon demonstration of continued compliance with certification requirements.

c. The department may issue four categories of recertification:

(1) Three-year certification with excellence. An organization is eligible for certification with excellence if the number of processes present is 18 or higher and the number of outcomes and corresponding processes present together is 12 or higher. Both criteria need to be met to receive three-year certification with excellence. Corrective actions may be required which may be monitored through the assignment of follow-up monitoring either by written report, a plan of corrective actions and improvements, an on-site review, or the provision of technical assistance.

(2) Three-year certification with follow-up monitoring. An organization is eligible for this type of certification if the number of processes present is 17 or higher and the number of outcomes and corresponding processes present together are 11 or higher. Both criteria need to be met to receive three-year certification. Corrective actions are required which may be monitored through the assignment of follow-up monitoring either by written report, a plan of corrective actions and improvements, an on-site review, or the provision of technical assistance.

(3) One-year certification. An organization is eligible for this type of certification when the number of processes present is 14 or higher and the number of outcomes and processes together is 9 or higher. Both criteria need to be met to receive one-year certification. One-year certification may also be given in lieu of longer certification when previously required corrective actions have not been implemented or completed. Corrective actions are required which may be monitored through the assignment of follow-up monitoring either by written report, a plan of corrective actions and improvements, an on-site review, or the provision of technical assistance.

(4) Probational certification. A probational certification may be issued to those providers who cannot meet requirements for a one-year certification. This time period shall be granted to the provider to establish and implement corrective actions and improvement activities. During this time period the department may require monitoring of the implementation of the corrective actions through on-site visits, written reports or technical assistance. Probational certification issued for 270 calendar days shall not be renewed or extended, and shall require a full on-site follow-up review to be completed. The provider shall be required to achieve at least a one-year certification status at the time of the follow-up review in order to maintain certification.

d. During the course of the review, if a team member encounters a situation that places a member in immediate jeopardy, the team member shall immediately notify the provider, the department, and other team members. "Immediate jeopardy" refers to circumstances where the life, health, or safety of a member will be severely jeopardized if the circumstances are not immediately corrected.

(1) The provider shall correct the situation within 24 to 48 hours. If the situation is not corrected within the prescribed time frame, that portion of the provider's services that was the subject of the notification shall not be certified. The department shall be notified immediately to discontinue funding for that provider's service. If a member is in immediate jeopardy, the case manager or department service worker shall notify the county or region in the event the county or region is funding a service that may assist the member in the situation.

(2) If this action is appealed and the member, legal guardian, or attorney in fact under a durable power of attorney for health care wants to maintain the provider's services, funding can be reinstated. At that time the provider shall take appropriate action to ensure the life, health, and safety of the members deemed to be at risk as a result of the provider's inaction.

e. As a mandatory reporter, each team member shall be required to follow appropriate procedure in all cases where a condition reportable to child and adult protective services is observed.

f. The department may grant an extension to the period of approval for the following reasons:

(1) A delay in the department's approval decision which is beyond the control of the provider or department.

(2) A request for an extension from a provider to permit the provider to prepare and obtain department approval of corrective actions. The department shall establish the length of extensions on a case-by-case basis.

g. The department may revoke the provider's approval at any time for any of the following reasons:

(1) Findings of a site visit indicate that the provider has failed to implement the corrective actions submitted pursuant to paragraph 77.37(13) "e."

(2) The provider has failed to provide information requested pursuant to paragraph 77.37(13) "f."

(3) The provider refuses to allow the department to conduct a site visit pursuant to paragraph 77.37(13) "h."

(4) There are instances of noncompliance with the standards which were not identified from information submitted on the application.

h. An approved provider shall immediately notify the department, applicable county, or region, the applicable mental health and developmental disabilities planning council, and other interested parties of a decision to withdraw from a home- and community-based services intellectual disability waiver service.

i. Following certification, any provider may request technical assistance from the department to bring into conformity those areas found in noncompliance with HCBS requirements. If multiple deficiencies are noted during a review, the department may require that technical assistance be provided to a provider to assist in the implementation of the provider's corrective actions. Providers may be given technical assistance as needed.

j. Appeals. Any adverse action can be appealed by the provider under 441—Chapter 7.

77.37(13) Review of providers. Reviews of compliance with standards as indicated in this chapter shall be conducted by designated members of the HCBS staff.

a. This review may include on-site case record audits; review of administrative procedures, clinical practices, personnel records, performance improvement systems and documentation; and interviews with staff, consumers, the board of directors, or others deemed appropriate, consistent with the confidentiality safeguards of state and federal laws.

b. A review visit shall be scheduled with the provider with additional reviews conducted at the discretion of the department.

c. The on-site review team will consist of designated members of the HCBS staff.

d. Following a certification review, the certification review team leader shall submit a copy of the department's written report of findings to the provider within 30 working days after completion of the certification review.

e. The provider shall develop a plan of corrective action, if applicable, identifying completion time frames for each review recommendation.

f. Providers required to make corrective actions and improvements shall submit the corrective action and improvement plan to the Bureau of Long-Term Care, 1305 East Walnut Street, Des Moines, Iowa 50319-0114, within 30 working days after the receipt of a report issued as a result of the review team's visit. The corrective actions may include: specific problem areas cited, corrective actions to be implemented by the provider, dates by which each corrective measure will be completed, and quality assurance and improvement activities to measure and ensure continued compliance.

g. The department may request the provider to supply subsequent reports on implementation of a corrective action plan submitted pursuant to 77.37(13) "e" and 77.37(13) "f."

h. The department may conduct a site visit to verify all or part of the information submitted.

Probational certification shall not be renewed or extended and shall require a full on-site follow-up review to be completed. The provider must demonstrate compliance with all certification requirements at the time of the follow-up review in order to maintain certification.

a. Definitions.

"Major incident" means an occurrence involving a consumer during service provision that:

1. Results in the application of basic first aid;
2. Results in bruising;
3. Results in seizure activity;

5. Constitutes a prescription medication error.

b. Reporting procedure for minor incidents. Minor incidents may be reported in any format designated by the provider. When a minor incident occurs or a staff member becomes aware of a minor incident, the staff member involved shall submit the completed incident report to the staff member's supervisor within 72 hours of the incident. The completed report shall be maintained in a centralized file with a notation in the consumer's file.

c. Reporting procedure for major incidents. When a major incident occurs or a staff member becomes aware of a major incident:

(1) The staff member involved shall notify the following persons of the incident by the end of the next calendar day after the incident:

1. The staff member's supervisor.
2. The consumer or the consumer's legal guardian. EXCEPTION: Notification to the consumer is required only if the incident took place outside of the provider's service provision. Notification to the guardian, if any, is always required.
3. The consumer's case manager.

(2) By the end of the next calendar day after the incident, the staff member who observed or first became aware of the incident shall also report as much information as is known about the incident to the member's managed care organization in the format defined by the managed care organization. If the member is not enrolled with a managed care organization, the staff member shall report the information to the department's bureau of long-term care either:

1. By direct data entry into the Iowa Medicaid Provider Access System, or
2. By faxing or mailing Form 470-4698, Critical Incident Report, according to the directions on the form.

(3) The following information shall be reported:

1. The name of the consumer involved.
2. The date and time the incident occurred.
3. A description of the incident.
4. The names of all provider staff and others who were present at the time of the incident or who responded after becoming aware of the incident. The confidentiality of other waiver-eligible or non-waiver-eligible consumers who were present must be maintained by the use of initials or other means.

5. The action that the provider staff took to manage the incident.
6. The resolution of or follow-up to the incident.
7. The date the report is made and the handwritten or electronic signature of the person making the report.

(4) Submission of the initial report will generate a workflow in the Individualized Services Information System (ISIS) for follow-up by the case manager. When complete information about the incident is not available at the time of the initial report, the provider must submit follow-up reports until the case manager is satisfied with the incident resolution and follow-up. The completed report shall be maintained in a centralized file with a notation in the consumer's file.

d. Tracking and analysis. The provider shall track incident data and analyze trends to assess the health and safety of consumers served and determine if changes need to be made for service implementation or if staff training is needed to reduce the number or severity of incidents.

77.39(7) Intake, admission, service coordination, discharge, and referral.

a. The provider shall have written policies and procedures according to state and federal laws for intake, admission, service coordination, discharge and referral.

b. The provider shall ensure the rights of persons applying for services.

77.39(8) Certification process. Reviews of compliance with standards for initial certification and recertification shall be conducted by the department of human services' bureau of long-term care quality assurance staff. Certification carries no assurance that the approved provider will receive funding.

a. Rescinded IAB 9/1/04, effective 11/1/04.

b. Rescinded IAB 9/1/04, effective 11/1/04.

c. Rescinded IAB 9/1/04, effective 11/1/04.

d. The department may request any information from the prospective service provider which is considered pertinent to arriving at a certification decision. This may include, but is not limited to:

(1) Current accreditations, evaluations, inspections and reviews by regulatory and licensing agencies and associations.

(2) Fiscal capacity of the prospective provider to initiate and operate the specified programs on an ongoing basis.

77.39(9) Initial certification. The department shall review the application and accompanying information to see if the provider has the necessary framework to provide services in accordance with all applicable requirements and standards.

a. The department shall make a determination regarding initial certification within 60 days of receipt of the application and notify the provider in writing of the decision unless extended by mutual consent of the parties involved.

b. The decision of the department on initial certification of the providers shall be based on all relevant information, including:

(1) The application for status as an approved provider according to requirements of rules.

(2) A determination of the financial position of the prospective provider in relation to its ability to meet the stated need.

c. Providers applying for initial certification shall be offered technical assistance.

77.39(10) Period of certification. Provider certification shall become effective on the date identified on the certificate of approval and shall terminate in 270 calendar days, one year, or three calendar years from the month of issue. The renewal of certification shall be contingent upon demonstration of continued compliance with certification requirements.

a. Initial certification. Providers eligible for initial certification by the department shall be issued an initial certification for 270 calendar days based on documentation provided.

b. Recertification. After the initial certification, the level of certification shall be based on an on-site review unless the provider has been accredited for similar services by the Joint Commission on Accreditation of Healthcare Organizations (JCAHO), the Commission on Accreditation of Rehabilitation Facilities (CARF), the Council on Quality and Leadership in Supports for People with Disabilities (The Council), or the Council on Accreditation of Services for Families and Children (COA). The on-site reviews for supported community living and supported employment use interviews with consumers and significant people in the consumer's life to determine whether or not the 20 individual value-based outcomes set forth in subrules 77.39(1) and 77.39(2) and corresponding processes are present for the consumer. Respite services are required to meet Outcome 1 and participate in satisfaction surveys.

Once the outcomes and processes have been determined for all the consumers in the sample, a review team then determines which of the 20 outcomes and processes are present for the provider. A specific outcome is present for the provider when the specific outcome is determined to be present for 75 percent or more of the consumers interviewed. A specific process is present for the provider when the process is determined to be present for 75 percent or more of the consumers interviewed. Since the processes are in the control of the provider and the outcomes are more in the control of the consumer, length of certification will be based more heavily on whether or not the processes are in place to help consumers obtain desired outcomes.

An exit conference shall be held with the organization to share preliminary findings of the certification review. A review report shall be written and sent to the provider within 30 calendar days unless the parties mutually agree to extend that time frame.

Provider certification shall become effective on the date identified on the Certificate of Approval, Form 470-3410, and shall terminate in 270 calendar days, one year, or three calendar years from the month of issue. The renewal of certification shall be contingent upon demonstration of continued compliance with certification requirements.

c. The department may issue four categories of recertification:

(1) *Three-year certification with excellence.* An organization is eligible for certification with excellence if the number of processes present is 18 or higher and the number of outcomes and corresponding processes present together is 12 or higher. Both criteria need to be met to receive three-year certification with excellence. Corrective actions may be required which may be monitored through the assignment of follow-up monitoring either by written report, a plan of corrective actions and improvements, an on-site review, or the provision of technical assistance.

(2) *Three-year certification with follow-up monitoring.* An organization is eligible for this type of certification if the number of processes present is 17 or higher and the number of outcomes and corresponding processes present together is 11 or higher. Both criteria need to be met to receive three-year certification. Corrective actions are required which may be monitored through the assignment of follow-up monitoring either by written report, a plan of corrective actions and improvements, an on-site review, or the provision of technical assistance.

(3) *One-year certification.* An organization is eligible for this type of certification when the number of processes present is 14 or higher and the number of outcomes and processes present together is 9 or higher. Both criteria need to be met to receive one-year certification. One-year certification may also be given in lieu of longer certification when previously required corrective actions have not been implemented or completed. Corrective actions are required which may be monitored through the assignment of follow-up monitoring either by written report, a plan of corrective actions and improvements, an on-site review, or the provision of technical assistance.

(4) *Probational certification.* A probational certification may be issued to those providers who cannot meet requirements for a one-year certification. This time period shall be granted to the provider to establish and implement corrective actions and improvement activities. During this time period the department may require monitoring of the implementation of the corrective actions through on-site visits, written reports or technical assistance. Probational certification issued for 270 calendar days shall not be renewed or extended and shall require a full on-site follow-up review to be completed. The provider shall be required to achieve at least a one-year certification status at the time of the follow-up review in order to maintain certification.

d. During the course of the review, if a team member encounters a situation that places a consumer in immediate jeopardy, the team member shall immediately notify the provider, the department, and other team members. "Immediate jeopardy" refers to circumstances where the life, health, or safety of a member will be severely jeopardized if the circumstances are not immediately corrected.

(1) The provider shall correct the situation within 24 to 48 hours. If the situation is not corrected within the prescribed time frame, that portion of the provider's services that was the subject of the notification shall not be certified. The department shall immediately discontinue funding for that provider's service.

(2) If this action is appealed and the member, legal guardian, or attorney in fact under a durable power of attorney for health care wants to maintain the provider's services, funding can be reinstated. At that time the provider shall take appropriate action to ensure the life, health, and safety of the members deemed to be at risk as a result of the provider's inaction.

e. As a mandatory reporter, each team member shall be required to follow appropriate procedure in all cases where a condition reportable to child and adult protective services is observed.

f. The department may grant an extension to the period of approval for the following reasons:

(1) A delay in the department's approval decision which is beyond the control of the provider or department.

(2) A request for an extension from a provider to permit the provider to prepare and obtain department approval of corrective actions. The department shall establish the length of extensions on a case-by-case basis.

g. The department may revoke the provider's approval at any time for any of the following reasons:
(1) Findings of a site visit indicate that the provider has failed to implement the corrective actions submitted pursuant to paragraph 77.39(11) "d."

(2) The provider has failed to provide information requested pursuant to paragraph 77.39(11) "e."

(3) The provider refuses to allow the department to conduct a site visit pursuant to paragraph 77.39(11) "f."

(4) There are instances of noncompliance with the standards which were not identified from information submitted on the application.

h. An approved provider shall immediately notify the department, applicable county, or region, the applicable mental health and developmental disabilities planning council, and other interested parties of a decision to withdraw from an HCBS BI waiver service.

i. Following certification, any provider may request technical assistance from the department to bring into conformity those areas found in noncompliance with HCBS requirements. If multiple deficiencies are noted during a review, the department may require that technical assistance be provided to a provider to assist in the implementation of the provider's corrective actions. Providers may be given technical assistance as needed.

j. Appeals. Any adverse action can be appealed by the provider under 441—Chapter 7.

77.39(11) Departmental reviews. Reviews of compliance with standards as indicated in this chapter shall be conducted by the division of mental health and developmental disabilities quality assurance review staff. This review may include on-site case record audits, administrative procedures, clinical practices, and interviews with staff, consumers, and board of directors consistent with the confidentiality safeguards of state and federal laws.

a. Reviews shall be conducted annually with additional reviews conducted at the discretion of the department.

b. Following a departmental review, the department shall submit a copy of the department's determined survey report to the service provider, noting service deficiencies and strengths.

c. The service provider shall develop a plan of corrective action identifying completion time frames for each survey deficiency.

d. The corrective action plan shall be submitted to the Division of Mental Health and Developmental Disabilities, 5th Floor, Hoover State Office Building, Des Moines, Iowa 50319-0114, and include a statement dated and signed, if applicable, by the chief administrative officer and president or chairperson of the governing body that all information submitted to the department is accurate and complete.
