#### **201—50.2(356,356A) General provisions.**

**50.2(1) *Applicability.*** These rules apply to all facilities regulated by Iowa Code chapters 356 and 356A except temporary holding facilities which are covered by 201—Chapter 51.

**50.2(2) *Capacity.*** Established capacities as determined by these rules shall not be exceeded except in the event of an emergency and then only for such a period of time as is necessary to arrange for alternate housing or release of sufficient prisoners to bring the number of persons confined into compliance with the rated capacity.

**50.2(3) *Right to inspect and visit.*** The chief jail inspector or authorized representatives shall visit and inspect jails and may do so on an unannounced basis. Jail personnel and supervisors shall cooperate in inspections and shall exhibit to the inspectors, upon request, all books, records, medical records, data, documents and accounts pertaining to a jail or to the prisoners confined and shall assist inspectors to perform the functions, powers and duties of their office. Provisions of the first paragraph of Iowa Code section 356.43 shall control to the extent of any inconsistency of the provisions of this subrule.

**50.2(4) *Other standards.*** Nothing contained in these standards shall be construed to prohibit local officials from adopting standards and requirements governing their employees and facilities, provided such standards and requirements exceed and do not conflict with standards mandated in this chapter. These standards shall not be construed as authority to violate any state fire safety standard, building standard, health and safety code, or any constitutional requirement. No jail shall be operated without substantially meeting these rules, absent the granting of a waiver/variance.

**50.2(5) *Equal opportunity.*** Facilities, programs, and services shall be available on an equitable basis to both males and females even though each standard does not specify that it applies to both males and females.

**50.2(6) *Nondiscriminatory treatment.*** Each jail administrator shall ensure that staff and prisoners are not subject to discriminatory treatment based upon race, religion, nationality, disability, sex or age absent compelling reason for said discriminatory treatment. Discrimination on the basis of a disability is prohibited in the provision of services, programs, and activities.

**201—50.3(356,356A) Inspection and compliance.** The chief jail inspector or authorized representatives shall visit and inspect each jail within this state at least annually to determine the degree of compliance with these standards and within 45 days of each inspection shall report the results to the sheriff and the governing body responsible for the facility.

If a residential facility is operated by a judicial district department of correctional services, the regional deputy director of the department of corrections and the regional deputy director’s personnel shall be responsible for all inspections and approvals and shall have the same powers as the members of the jail inspection unit in carrying out these rules.

**50.3(1) *Notice of noncompliance with minimum standards.*** Whenever the determination is made that a jail or other holding facility is not in compliance with established minimum state jail standards, the chief administrator of the affected governmental facility will be notified by letter posted or personal delivery of the need to bring the facility into compliance. The jail inspection unit shall issue a notice of noncompliance to the responsible jail administrator and the governing body of each instance in which the jail fails to comply with the minimum standards established under these rules. The letter shall contain

a listing of the statute(s) and rule(s) with which the facility is not in compliance and a description of the deficiencies and shall specifically identify each minimum standard with which the jail has failed to comply.

**50.3(2) Enforcement of minimum standards; remedial orders.** Upon receipt of a notice of noncompliance pursuant to subrule 50.3(1), the responsible authorities shall initiate appropriate corrective measures within the time prescribed by the jail inspection unit in its notice (which shall not exceed 90 days) and shall complete the corrections within a reasonable time as prescribed by the notice of noncompliance. The jail inspector may agree with the responsible authorities to a plan of action detailing corrective steps with corresponding time frames which will bring the facility into compliance within a reasonable time. If the responsible officials receiving a notice of noncompliance fail to initiate corrective measures or to complete the corrective measures within the time prescribed, the jail inspection unit may order the jail in question or any portion thereof closed, that further confinement of prisoners or classifications of prisoners in the noncomplying jail or any portion thereof be prohibited, or that all or any number of prisoners then confined be transferred to and maintained in another jail or detention facility, or any combination of remedies.

An order for closure shall contain the following:

- a. Statute(s) and rule(s) violated.
- b. A brief description of the deficiencies.
- c. The effective date of the order.
- d. An explanation of remedies required before reopening.

This order shall be the notice of noncompliance pursuant to Iowa Code section 356.43 and 201—Chapter 12 concerning contested cases. The matter shall then proceed in accordance with 201—Chapter 12. The jail inspector may agree with the responsible authorities to a plan of action detailing corrective steps with corresponding time frames which would bring the facility into compliance within a reasonable time. The remedial order shall be in writing and shall specifically identify each minimum standard with which the jail has failed to comply. Such remedial order shall become final and effective 30 days after receipt thereof. In the event immediate closure is required, emergency action shall proceed pursuant to 201—12.24(17A).

**50.3(3) Precedent.** Because rules cannot adequately anticipate all potential specific factual situations and circumstances presented for action, determination or adjudication by the jail inspection unit, the nature of the action taken with regard to any matter or the disposition of any matter pending before the jail inspection unit is not necessarily of meaningful precedential value, and the department shall not be bound by the precedent of any previous action, determination, or adjudication in the subsequent disposition of any matter pending before it.

This rule is intended to implement Iowa Code sections 17A.10, 17A.12 and 356.43.

**50.4(1) Building to meet existing codes.** All facilities are required to be structurally sound and to meet existing building code and health code requirements.

##### **50.4(2) Professional inspections.**

a. The state jail inspector may require for good reason that an agency operating a jail cause it to be examined by an architect, engineer, licensed electrician, health inspector, plumber, heating and air conditioning specialist, food establishment inspector, state fire marshal or fire inspector or any other person with expertise which may be of assistance to the state jail inspector in making an informed decision relative to the jail operation or structure. Inspection by a municipal inspector qualified in these areas may be permitted.

b. Any facility determined to be deficient following inspection may be ordered closed by the jail inspector, or specific conditions limiting its operation may be imposed in lieu of closing.

An order of closure shall contain the following:

- (1) Statute(s) and rule(s) violated.
- (2) A brief description of the deficiencies.
- (3) The effective date of the order.

(4) An explanation of remedies required before reopening.

An order of closure shall adhere to subrules 50.3(1) and 50.3(2). This order shall be the notice of noncompliance pursuant to Iowa Code section 356.43 and 201—Chapter 12 concerning contested cases. The matter shall then proceed in accordance with 201—Chapter 12.

c. In the event that any agency fails to cooperate in an inspection, the jail inspector may arrange for an inspection and the agency operating the facility shall be financially responsible for any expense involved.

**50.4(3) Heating and ventilation.** All detention and living areas shall be reasonably heated and ventilated, with air flow sufficient to admit fresh air and remove disagreeable odors, to ensure healthful and comfortable living and working conditions for prisoners and staff. Fans and an adequate supply of cold liquids will be made available and utilized when indoor temperatures exceed 85° Fahrenheit.
