761—511.1(321E) Definitions. As used in this chapter, unless the context otherwise requires:

“*Compacted rubbish vehicle*” means any vehicle hauling rubbish that has been mechanically compacted with a hydraulic, electric, or air-operated ram.

“*Department*” means the Iowa department of transportation.

“*Dimensions*” or “*size*” means length, width or height limits.

“*Emergency interstate permit*” means a permit issued under Iowa Code section 321E.29B as enacted by 2021 Iowa Acts, House File 382.

“*Indivisible load*” means any load or vehicle exceeding applicable length or weight limits which, if separated into smaller loads or vehicles, would:

1. Compromise the intended use of the vehicle, i.e., make it unable to perform the function for which it was intended;
2. Destroy the value of the load or vehicle, i.e., make it unusable for its intended purpose; or
3. Require more than eight work hours to dismantle using appropriate equipment. The applicant for an indivisible load permit has the burden of proof as to the number of work hours required to dismantle the load.

“*Overdimensional*” or “*oversize*” means the exceeding of statutory length, width or height limits.

“*Permit*” means a permit issued under Iowa Code chapter 321E for the movement of an overdimensional or overweight vehicle, combination of vehicles, or vehicle with load. The term includes any additions or supplements thereto issued by the permit-issuing authority.

“*Permit-issuing authority*” means the:

1. Department’s motor vehicle division for permits for movement on the primary road system.
2. Authority responsible for the maintenance of a nonprimary system of highways or streets for permits for movement on that system. However, the motor vehicle division may issue single-trip permits on primary road extensions in cities in conjunction with movement on the rural primary road system.

“*Primary roads*” or “*primary road system*” is defined in Iowa Code section 306.3. The primary road system includes the interstate road system.

“*Raw forest products*” means the same as defined in Iowa Code section 321E.26.

“*Rubbish*” means any unwanted or useless material that has no commercial or practical value or use and that would normally be discarded.

“*Special or emergency situation*” means one or more of the following:

1. Circumstances where the movement is necessary to cooperate with cities, counties, other state agencies or other states in response to a national or other disaster.
2. Circumstances where the movement is necessary to cooperate with national defense officials.
3. Circumstances where the movement is necessary to cooperate with public or private utilities in order to maintain their public services.
4. Circumstances where the movement is essential to ensure safety and protection of any person or property due to an event such as, but not limited to, pollution of natural resources, a potential fire or an explosion.
5. Circumstances where weather or transportation problems create an undue hardship for citizens of the state of Iowa.
6. Circumstances where the movement involves emergency-type vehicles.
7. Uncommon or extraordinary circumstances where the movement is essential to the existence of an Iowa business and the move may be accomplished without causing undue hazards to the safety of the traveling public or undue damage to private or public property.
8. Other unique circumstances that warrant the issuance of a permit as determined by the permit-issuing authority.

“*Stafford Act*” means the Robert T. Stafford Disaster Relief and Emergency Assistance Act, Public Law No. 93-288, as amended, 42 U.S.C. §5121 et seq.

“*Statutory*” when used with size or weight limits refers to those limits found in Iowa Code chapter 321.

This rule is intended to implement Iowa Code sections 321E.9, 321E.15, 321E.26, 321E.29, 321E.29B as enacted by 2021 Iowa Acts, House File 382, 321E.30 and 321E.34.

511.2(4) Except as provided in rule 761—511.16(321,321E), permits may be issued only for the transporting of a single article which exceeds statutory size or weight limits or both, and which cannot reasonably be divided or reduced to statutory size and weight limits. However, permits may be issued for the transporting of property consisting of more than one article when:

- a. The statutory weight limits are not exceeded,
- b. One of the articles exceeds the statutory size limits, and
- c. The inclusion of other articles does not cause the statutory size limits to be exceeded by an additional amount.

511.2(5) Nothing in the permit shall be construed as waiving any load limits which have been or which might be established on any bridge or any road which is posted with embargo signs, unless specifically stated on the permit.

511.2(6) The state of Iowa, the department, and any other permit-issuing authority assume no responsibility for the property of the permit holder. 511.3(1) During the movement of a vehicle or object under permit, the permit holder shall comply with the terms and conditions of the permit and shall take all reasonable precautions to protect and safeguard the lives and property of the traveling public and adjacent property owners.

511.3(2) Movement shall be made only when roads are clear of ice and snow and visibility is at least one-quarter mile. Snow removal equipment operating under permit is exempt from this restriction while snow removal operations are conducted. EXCEPTION: Nothing in this subrule shall be construed to mean that the movement of a compacted rubbish vehicle permitted under rule 761—511.11(321E) shall be subject to this restriction.

511.3(3) Movement shall be permitted only during the hours from one-half hour before sunrise to one-half hour after sunset unless it is established by the permit-issuing authority that the movement can be better accomplished at another period of time because of traffic volume conditions.

511.3(4) Except as provided in Iowa Code section 321.457, no movement shall be permitted on the holidays of Memorial Day, Independence Day and Labor Day, after 12 noon on days preceding these holidays and holiday weekends, during holiday weekends, or during special events when abnormally high traffic volumes can be expected. A holiday weekend occurs when the holiday falls on Friday,

Saturday, Sunday or Monday. No movement shall be permitted until one-half hour before sunrise on the day after the holiday or holiday weekend.

511.3(5) Continuous moves. Vehicles and loads may travel by permit between one-half hour after sunset and one-half hour before sunrise if, in addition to the general provisions and general requirements specified by the permit, the following conditions are met.

 - (1) One lighted red lamp on each side at the rear of the load.
 - (2) One lighted yellow or amber lamp on each side at the front of the load.

However, the load for a multitrip permit does not have to be identified but the vehicle and load cannot exceed either the weight per axle or the total weight identified on the multitrip permit. Axle spacings cannot change.

511.4(3) *Validity.*

- a. Annual, annual oversize/overweight, annual raw forest products, compacted rubbish, and all-systems permits shall expire one year from the date of issuance.

Definitions:

Flags - Red or orange fluorescent flags at least 18" square must be mounted as follows: one flag at each front corner of the towing unit and one flag at each rear corner of the load. In addition, there must be a flag at any additional protrusion in the width of the load.

Signs - A sign reading "Oversize Load" must be used. The sign must be at least 18" high by 7' long with a minimum of 10" black letters, with a 1½" stroke, on a yellow background, and mounted on the front bumper and on the rear of the load. The rear sign for mobile homes and factory-built structures must be mounted at least 7' above the highway surface, measuring from the bottom of the sign.

Lights - A flashing or strobe amber light that is visible for at least 500 feet and provides 360° warning must be mounted on the towing unit and be visible from front and rear. More than one light may be necessary.

The permit-issuing authority may require additional escorts when deemed necessary. The signs or warning devices must be removed or covered when the vehicle is within legal dimensions.

If a permit holder is found to have willfully violated permit provisions, the motor vehicle division may, after notice and hearing, suspend, modify or revoke the permit privileges of the permit holder consistent with Iowa Code section 321E.20. If the permit that is suspended, modified, or revoked is an emergency interstate permit that is issued for a fleet operating under the permit holder's interstate or intrastate motor carrier number, the department may issue emergency interstate permits to individual vehicles operating under the interstate or intrastate motor carrier number.

This rule is intended to implement Iowa Code sections 321.492, 321E.16, and 321E.20 and section 321E.29B as enacted by 2021 Iowa Acts, House File 382.

761—511.20(321) Movement of combination vehicles on economic export corridors.

511.20(1) Designation of economic export corridors.

a. The department may in its discretion establish economic export corridors for the transportation of goods or products manufactured in Iowa to or through the state of South Dakota and for the return of unladen semitrailers or unladen full trailers used for the transportation of those goods or products. An economic export corridor shall not include any segment of the interstate system or any part of the national network of highways identified pursuant to 23 CFR Part 658. However, if appropriate, the department may petition the Federal Highway Administration to remove a road or road segment from the national network of highways for the purpose of including it in an economic export corridor.

b. The department may initiate designation of economic export corridors, or a request for economic export corridor designation may be submitted to the department by an interested party. If a proposed economic export corridor includes any roads or road segments that are under the jurisdiction of a city or a county, a resolution from all relevant local jurisdictions must be submitted to the department indicating their support for economic export corridor designation. The resolution must include a description of the proposed economic export corridor under local jurisdiction.

c. The department shall exercise due regard for the safety of the traveling public and the protection of the highway surfaces and structures when establishing an economic export corridor. Factors to be considered include ability of the proposed economic export corridor to safely accommodate combinations of vehicles described in subrule 511.20(2), taking into account physical configurations and restrictions and traffic demands and capacity, as well as connection to markets that will benefit from the established economic export corridor.

d. The department will post established economic export corridors on the department's website.

511.20(2) Combination vehicles that may be operated on an economic export corridor.

a. In addition to combinations of vehicles lawful for operation on roads or road segments not designated as an economic export corridor, the following combinations of vehicles may be operated on an economic export corridor designated under subrule 511.20(1) if the combinations of vehicles meet the requirements in paragraph 511.20(2) "b":

(1) A truck tractor-semitrailer-semitrailer converted to a full trailer by use of a dolly equipped with a fifth wheel which is considered a part of the trailer for all purposes, and not a separate unit; or

(2) A truck tractor-semitrailer-full trailer; or

(3) A truck tractor-semitrailer-semitrailer combination, where the semitrailers are connected by a rigid frame extension including a fifth wheel connection point attached to the rear frame of the first semitrailer.

b. The combination of vehicles shall meet all of the following requirements:

(1) The length of the combination of vehicles, excluding the length of the truck tractor, shall not exceed 81½ feet.

(2) The length of either semitrailer or full trailer shall not exceed 45 feet.

(3) The weight of the second semitrailer or full trailer shall not exceed the weight of the first semitrailer by more than 3,000 pounds.

(4) The gross weight of the combination of vehicles shall not exceed 80,000 pounds and the combination of vehicles shall not exceed the gross axle weight limits of Iowa Code section 321.463(2).

(5) The load on each semitrailer or full trailer in the combination shall be an indivisible load. For the purpose of issuing permits for height or width under Iowa Code chapter 321E, the combination of vehicles shall be considered an indivisible load so long as the load on each semitrailer or full trailer in the combination remains an indivisible load.

c. The length of the frame extension shall not be included when determining the overall length of the first semitrailer in a truck tractor-semi-trailer-semi-trailer combination in which the semi-trailers are connected by a rigid frame extension including a fifth wheel connection point attached to the rear frame of the first semitrailer.

d. For purposes of this subrule, “full trailer” means as defined in 49 CFR Section 390.5.
