

223—41.5(303) Conduct of the surveys.

41.5(1) All surveys are subject to all state and federal laws regarding trespass and egress and the protection of archaeological resources. Responsibility for compliance rests solely with the firm or individual conducting the survey.

41.5(2) Information collected from private and public repositories, individuals and groups, and within the public right-of-way including photography shall be subject to inclusion in the project file. All information collected from private and public repositories, individuals and groups, and within the public rights-of-way including photography shall be considered suitable for inclusion in project files and be made available to the public upon request.
