

441—25.51(77GA, HF2545) Desired results areas. In order to receive funds from the incentive and efficiency pool established in 1998 Iowa Acts, House File 2545, section 8, subsection 2, each county shall collect and report performance measure data in the following areas:

25.51(1) Equity of access. Each county shall measure the extent to which services are available and used. Each county shall:

a. Report annually the total number of consumers served, as well as an unduplicated total of the number of consumers served by disability category.

b. Calculate and report annually the percentage of service provision by dividing the number of consumers served in a year by the county's population as defined in 1998 Iowa Acts, House File 2545, section 7.

c. Calculate and report annually the percentage of denial of access by dividing the number of new, completed applications denied by the total number of new applications for service that year. A new, completed application shall be defined as an initial application of a consumer or any former consumer who is reapplying for service eligibility after more than 30 days of not being enrolled in the system, for which the consumer has supplied the information required on the application form.

d. Report annually the county's eligibility guidelines, which may include, but are not limited to, the income level below which an individual or family must be in order to be eligible for county-funded services, the maximum amount of resources which an individual or family may have in order to be eligible for county-funded services, covered populations, and service access criteria.

25.51(2) Community-based supports. Each county shall measure the extent to which community-based supports are available and used. Each county shall calculate and report annually:

a. The service setting percentage by dividing the unduplicated number of persons served in each of the following service settings in a fiscal year by the total unduplicated number of consumers served, both in total and by population group: mental health institutes, state hospital schools, intermediate care facilities for the mentally retarded, other living arrangements over five beds as captured by the county chart of accounts, and employment settings which include sheltered workshops, enclaves and supported employment.

b. The home-based percentage by subtracting the number of consumers currently being served in residential placements from the total unduplicated number of consumers served, and dividing the difference by the total number of consumers served. The calculation shall be made both in total and by population group.

c. The inpatient spending percentage by dividing the amount the county spent for inpatient services by the amount the county spent for outpatient services. Each county shall also divide the unduplicated number of consumers who received inpatient services during the fiscal year by the total unduplicated number of consumers who received services during that same fiscal year. Inpatient services shall be defined as any acute care for which the county is wholly or partially financially responsible.

25.51(3) Consumer participation. Each county shall measure the extent to which consumers participate in all aspects of the service system.

a. Each county shall report annually on the number of opportunities during the year for consumers to participate in planning activities, which may include, but are not limited to, open forums, focus groups, consumer advisory committee meetings, and planning council meetings by calculating the total number of consumers participating in these activities and dividing by the unduplicated number of consumers served and also by the total population of the county. In addition, the county shall report duplicated and unduplicated total attendance at all of these meetings. These calculations shall be made for consumers and family members separately.

b. Each county which has a planning group shall calculate and report annually the planning group percentage by dividing the number of consumers who actively serve on the planning group by the total number of people on the planning group. This calculation shall be made for consumers and family members separately. For the purposes of this subrule, a planning group is any group of individuals designated by the board of supervisors, or if no designation has been made, any group acknowledged by

the central point of coordination administrator as assisting in the development of the county management plan.

c. Each county shall conduct a consumer satisfaction survey following adoption of more detailed rules for the survey.

25.51(4) Administration. Each county shall measure the extent to which the county services system is administered efficiently and effectively. Each county shall:

a. Calculate and report annually the administrative cost percentage by dividing the amount spent administering the county services system by the total amount spent from the services fund for the fiscal year.

b. Calculate and report annually the service responsiveness average by measuring the number of days between the date a new, completed application was submitted and the date a notice of decision of eligibility was sent to the consumer, adding all of these numbers of days, and dividing by the total number of new, completed applications for the fiscal year. A new, completed application shall be defined as an initial application of a consumer or an application of any former consumer who is reapplying for service eligibility after more than 30 days of not being enrolled in the system, for which the consumer has supplied the information required on the application form.

c. Report annually the number of appeals filed as a percent of the unduplicated total number of consumers served per year.
