

261—24.9(PL100-628) Grant awards. Grants will be awarded to individual applicants. IDEED may award a grant to a city or county government or a nonprofit organization on behalf of multiple applicants, at the discretion of IDEED and with the approval of those applicants affected and the local governmental unit. If a city, county or nonprofit organization is designated as the grantee of an award, that city, county or nonprofit organization will be responsible for coordination of requests for funds by eligible private, nonprofit recipients within its jurisdiction by consolidating them into one contract between the local governmental unit or nonprofit organization and IDEED. IDEED reserves the right to negotiate the amount of the grant award, the scale of the project, and alternative methods for completing the project.
