

191—94.2(508) Definitions. For purposes of this chapter, the following definitions shall apply:

“*2001 CSO Mortality Table*” means that mortality table consisting of separate rates of mortality for male and female lives, developed by the American Academy of Actuaries CSO Task Force from the Valuation Basic Mortality Table developed by the Society of Actuaries Individual Life Insurance Valuation Mortality Task Force, and adopted by the National Association of Insurance Commissioners in December 2002 and by the commissioner pursuant to 191—Chapter 91. The 2001 CSO Mortality Table is included in the Proceedings of the NAIC (2nd Quarter 2002) and supplemented by the 2001 CSO Preferred Class Structure Mortality Table. Unless the context indicates otherwise, the “2001 CSO Mortality Table” includes both the ultimate form of that table and the select and ultimate form of that table and includes both the smoker and nonsmoker mortality tables and the composite mortality tables. It also includes both the age-nearest-birthday and age-last-birthday bases of the mortality tables. Mortality tables in the 2001 CSO Mortality Table include the following:

1. “2001 CSO Mortality Table (F)” means that mortality table consisting of the rates of mortality for female lives from the 2001 CSO Mortality Table.
2. “2001 CSO Mortality Table (M)” means that mortality table consisting of the rates of mortality for male lives from the 2001 CSO Mortality Table.

“*2001 CSO Preferred Class Structure Mortality Table*” means mortality tables with separate rates of mortality for super preferred nonsmoker, preferred nonsmoker, residual standard nonsmoker, preferred smoker, and residual standard smoker splits of the 2001 CSO nonsmoker and smoker tables as adopted by the National Association of Insurance Commissioners at the September 2006 national meeting and published in the NAIC Proceedings (3rd Quarter 2006). Unless the context indicates otherwise, the “2001 CSO Preferred Class Structure Mortality Table” includes both the ultimate form of that table and the select and ultimate form of that table. It also includes both the smoker and non-smoker mortality tables, both the male and female mortality tables, the gender composite mortality tables, and both the age-nearest-birthday and age-last-birthday bases of the mortality tables.

“*Composite mortality tables*” means mortality tables with rates of mortality that do not distinguish between smokers and nonsmokers.

“*Smoker and nonsmoker mortality tables*” means mortality tables with separate rates of mortality for smokers and nonsmokers.

“*Statistical agent*” means an entity with proven systems for protecting the confidentiality of individual insured and insurer information, with the demonstrated resources for and a history of ongoing electronic communications and data transfer ensuring data integrity for insurer members or subscribers, and with a history of and the means for aggregation of data and accurate promulgation of experience modifications in a timely manner.
