

**21—36.5(196) Water supply.**

**36.5(1)** Adequate potable water shall be provided from a source constructed, maintained, and operated according to Iowa law.

**36.5(2)** Water from a private water system shall be sampled at least annually for coliform.

**36.5(3)** Records of water tests must be maintained by license holders not served by a public water system. These records must be available to the department upon request.
