

21—43.30(201A) Definitions. When used in this chapter:

“*Agricultural liming material*” means a product containing calcium and magnesium compounds capable of neutralizing soil acidity.

“*Brand*” means the term, designation, trade name, product name, or other specific designation under which individual agricultural liming material is offered for sale.

“*Bulk*” means in nonpackaged form.

“*Calcium carbonate equivalent*” means the acid-neutralizing capacity of an agricultural liming material expressed as percentage of pure calcium carbonate.

“*Effective calcium carbonate equivalent (ECCE)*” means the acid-neutralizing capacity of an agricultural liming material or specialty limestone.

“*Fineness*” means the percentage by weight of the material which will pass U.S. standard sieves of specified sizes.

“*Industrial by-product*” means agricultural liming material containing calcium or a combination of calcium with magnesium and capable of neutralizing soil acidity which is derived from any industrial waste or by-product.

“*Label*” means any written or printed material on or attached to the package or on the delivery ticket which accompanies bulk shipments.

“*Limestone*” means a material consisting essentially of calcium carbonate or a combination of calcium carbonate with magnesium carbonate capable of neutralizing soil acidity.

“*Pelletized lime*” means agricultural liming material containing calcium or a combination of calcium with magnesium and capable of neutralizing soil acidity which has been processed into pellet or granular form, with or without binding agents.

“*Percent*” or “*Percentage*” means by weight.

“*Permanent production facilities*” means stationary crushing and screening equipment which is immobile.

“*Person*” means individual, partnership, association, firm or corporation.

“*Portable plant*” means mobile crushing and screening equipment mounted on wheels.

“*Quarry lime*” means agricultural liming material containing calcium or a combination of calcium with magnesium which has been excavated from the earth and processed by crushing and screening and capable of neutralizing soil acidity.

“*Specialty limestone*” means agricultural liming material distributed primarily for nonfarm use, such as home gardens, lawns, shrubbery, flowers, golf courses, municipal parks, cemeteries, greenhouses and nurseries.

“*Ton*” means a net weight of 2,000 pounds avoirdupois.

“*Water treatment lime*” means agricultural liming material containing calcium or a combination of calcium with magnesium and capable of neutralizing soil acidity which is derived from water treatment plants.

“*Weight*” means the weight of undried agricultural liming material or specialty limestone offered for sale.
