

27—50.70(207) Consent to entry. The division shall take all reasonable actions to obtain written consent from the owner of record of the land or property to be entered in advance of such entry. The consent shall be in the form of a signed statement by the owner of record or their authorized agent which, as a minimum, includes a legal description of the land to be entered, the projected nature of work to be performed on the lands and any special conditions for entry. This statement shall not include any commitment by the division to perform reclamation work nor to compensate the owner for entry.
