

441—24.31(225C) Standards for individual crisis response services. Crisis response services provided to children and youth include coordination with parents, guardians, family members, natural supports, and service providers and with other systems such as education, juvenile justice and child welfare.

Crisis response services for individuals who have co-occurring or multi-occurring diagnoses focus on the integration and coordination of treatment services, and supports necessary to stabilize the individual, without regard to which condition is primary. Crisis response services are not to be denied due to the presence of a co-occurring substance abuse condition or developmental or neurodevelopmental disability.
