

**481—34.12(137D) Inspection and access to records.**

**34.12(1)** Home food processing establishments will be periodically inspected based on a risk assessment basis, either in person or virtually using video technology.

**34.12(2)** The regulatory authority may enter a food processing establishment at any reasonable hour to make an inspection. The regulatory authority will inspect only those areas related to preparing or storing food for sale. The manager or person in charge of the establishment shall afford free access to records and every part of the premises where homemade food items and ingredients are stored or prepared and render all aid and assistance necessary to enable the regulatory authority to make a thorough and complete inspection.
