

571—30.59(455A,461A,462A) Project eligibility.

30.59(1) *Water trails development program.* The scoring committee will evaluate proposals for water trails development projects. Eligible projects may include master planning, engineering, and development such as water accesses with parking and related easement and property acquisition; navigational, interpretive, and warning signs; portages to aid navigation or avoid hazards; related amenities adjacent to the water trail such as access roads, canoe and bike racks, restrooms, picnic areas, campsites, and water-accessible cabins; and promotional, educational, and educational materials such as mapping, brochures, kiosks, display panels, and online information.

30.59(2) *Low-head dam public hazard program.* The scoring committee will evaluate proposals for projects that enhance safety and fish passage at low-head dams on or adjacent to navigable waters in Iowa. The department may divide grants into categories and scoring criteria corresponding to project types, such as warning signage, feasibility studies, engineering, and construction.
