

571—48.7(462A) Notification to the commission. If a PMV operator fails to cure an inadequacy in a required inspection report or to comply with a correction report for a critical system or maritime security deficiency within the applicable time period, a determination of inadequacy shall be forwarded to the commission and shall be subject to the appeal and contested case procedures of the department as established by 561—Chapter 7 and adopted by reference at 571—7.1(17A).

48.7(1) *Inspection reports.* The department shall, within 60 days of receipt of an initial inspection, quarterly or annual report, determine the adequacy of the report and shall notify the submitting party of such determination. The submitting party shall be given a minimum of 60 days to cure any inadequacy not involving critical systems or maritime security.

48.7(2) *Correction reports.* To minimize safety and maritime security risks to the public, the environment and the PMV itself, deficiencies found in critical systems or security systems shall be immediately reported to the department. After consulting with the PMV operator, the department may issue a correction report if the deficiency was not immediately corrected. The correction report will direct the PMV operator to take corrective action within a specific period of time that is based on the nature and severity of the deficiency.
