

575—2.2(465C) Management provisions.

2.2(1) Administration and management. The administrative and management authority shall be agreed upon by the board, the property owner, and the manager.

2.2(2) Management plan. For each preserve, an authorized representative of the owner shall prepare a management plan in consultation with the department staff assigned to the board. The management plan shall be consistent with the articles of dedication and shall include identification of uses of the preserve that are compatible and incompatible with its dedication as a preserve. The management plan shall be amended from time to time as appropriate in response to new information. The management plan and amendments shall be submitted to the board for approval. The department shall keep a copy of the current management plan. A management plan for a new preserve shall be submitted for approval by the board in conjunction with approval of dedication of the preserve. Management plans for existing preserves shall be prepared and submitted for approval as resources are available. If the director and board disagree concerning the plan for a department-managed preserve, the disagreement shall be resolved by obtaining commission approval of a management plan.
