

653—19.10(17A,124,147,148,154B,272C) Standards of practice—supervision of a conditional prescribing psychologist. A supervising physician shall be a person who is licensed to practice medicine and surgery or osteopathic medicine in Iowa who regularly prescribes psychotropic medications for the treatment of mental disorders as part of the physician's normal course of practice and who supervises a conditional prescribing psychologist. A supervising physician shall be board-certified in family medicine, internal medicine, neurology, pediatrics, or psychiatry. A supervising physician shall fully comply with the following standards of practice.

19.10(1) *Supervision.* A supervising physician shall provide appropriate oversight and direction to a conditional prescribing psychologist during the period of supervised practice to achieve patient safety and optimal clinical outcomes. A supervising physician shall ensure that appropriate clinical examinations and necessary testing are performed and that all psychopharmacology services provided are appropriate for the patient's condition. Supervision may be in person or via electronic communications in accordance with these rules.

19.10(2) *Primary supervising physician.* A supervising physician shall determine whether the supervising physician has been designated as a conditional prescribing psychologist's primary supervising physician and shall fulfill the responsibilities of the primary supervising physician in accordance with these rules. A conditional prescribing psychologist may have more than one supervising physician.

19.10(3) *Maximum number of conditional prescribing psychologists.* A supervising physician shall not supervise more than two conditional prescribing psychologists at one time.

19.10(4) *Minimum period of supervision.* The primary supervising physician shall ensure that a conditional prescribing psychologist completes a minimum of two years of supervised practice prescribing psychotropic medications to patients with mental disorders in accordance with these rules in order for the conditional prescribing psychologist to be eligible to apply for a prescription certificate.

19.10(5) *Minimum number of patients.* The primary supervising physician shall ensure that a conditional prescribing psychologist has seen a minimum of 300 patients who had a diagnosed mental disorder for whom pharmacological intervention was considered as a treatment option, even if a decision was made not to prescribe a psychotropic medication to the patient. The primary supervising physician shall ensure that a conditional prescribing psychologist has treated a minimum of 100 patients with psychotropic medication throughout the supervised practice period.

19.10(6) *Initial assessment.* Prior to supervising a conditional prescribing psychologist, each supervising physician shall assess the conditional prescribing psychologist's relevant education, training, experience, and competence.

19.10(7) *Scope of practice.* Each supervising physician shall ensure that all psychopharmacology services provided by a conditional prescribing psychologist are within the competence and scope of practice of the supervising physician and the conditional prescribing psychologist.

19.10(8) *Prescriptive authority.* Each supervising physician shall ensure that a conditional prescribing psychologist only prescribes psychotropic medications for the treatment of mental disorders.

19.10(9) *Prescriptions.* A supervising physician shall ensure that each prescription issued by a conditional prescribing psychologist identifies the prescriber as a "psychologist certified to prescribe" and includes the Iowa license number of the conditional prescribing psychologist and the name of the supervising physician.

19.10(10) *Active DEA and CSA registration.* A supervising physician shall ensure that a conditional prescribing psychologist has an active DEA registration and CSA registration at all times during the period of supervision.

19.10(11) *Patient populations.* A supervising physician shall ensure that a conditional prescribing psychologist only provides psychopharmacology services to patient populations within the conditional prescribing psychologist's education, training, experience, and competence. A supervising physician may establish limitations on the types of populations to whom a conditional prescribing psychologist may provide psychopharmacology services based on the conditional prescribing psychologist's education, training, experience, and competence.

19.10(12) *Psychotropic medications.* A supervising physician shall ensure that a conditional prescribing psychologist only prescribes psychotropic medications that are within the conditional

prescribing psychologist's education, training, experience, and competence. A supervising physician may establish limitations on the types of psychotropic medications that a conditional prescribing psychologist may prescribe based on the conditional prescribing psychologist's education, training, experience, and competence.

19.10(13) *Specialization.* A supervising physician shall ensure that a conditional prescribing psychologist has completed the following training during the supervised practice period to be eligible to prescribe psychotropic medications to the respective population as a prescribing psychologist:

a. Children. To prescribe to patients who are less than 17 years of age, a conditional prescribing psychologist shall complete at least one year of the required two years of supervised practice in either:

- (1) A pediatric practice,
- (2) A child and adolescent practice, or
- (3) A general practice provided the conditional prescribing psychologist treats a minimum of 50 patients who are less than 17 years of age.

b. Elderly patients. To prescribe to patients who are over 65 years of age, a conditional prescribing psychologist shall complete at least one year of the required two years of supervised practice in either:

- (1) A geriatric practice, or
- (2) A general practice with patients across the lifespan including patients who are over 65 years of age.

c. Serious medical conditions. To prescribe to patients with serious medical conditions including, but not limited to, heart disease, cancer, stroke, seizures, or comorbid psychological conditions, or patients with developmental disabilities and intellectual disabilities, a supervising physician shall ensure that a conditional prescribing psychologist has completed at least one year prescribing psychotropic medications to patients with serious medical conditions if the conditional prescribing psychologist intends to treat patients with serious medical conditions after the supervised practice period.

19.10(14) *Informed consent.* A supervising physician shall ensure that a conditional prescribing psychologist obtains appropriate informed consent before the conditional prescribing psychologist provides psychopharmacology services to a patient.

19.10(15) *Release of information.* A supervising physician shall ensure that a conditional prescribing psychologist obtains a release of information authorizing the conditional prescribing psychologist to share information with the supervising physician before the conditional prescribing psychologist provides psychopharmacology services to a patient.

19.10(16) *Primary care physician.* A supervising physician shall ensure that each patient has a designated primary care physician before a conditional prescribing psychologist provides psychopharmacology services to a patient. A supervising physician shall ensure that a conditional prescribing psychologist maintains a cooperative relationship with the primary care physician who oversees a patient's general medical care to ensure that necessary medical examinations are conducted, the psychotropic medication is appropriate for the patient's medical condition, and significant changes in the patient's medical or psychological condition are discussed. A supervising physician shall ensure that a conditional prescribing psychologist engages in appropriate consultation with a patient's designated primary care physician while the conditional prescribing psychologist is providing psychopharmacology services to a patient.

19.10(17) *Chart reviews.* A supervising physician shall personally review a representative sample of the conditional prescribing psychologist's patient charts.

19.10(18) *Performance evaluations.* A supervising physician shall regularly evaluate the clinical judgment, skills and performance of a conditional prescribing psychologist to safely provide psychopharmacology services to patients and provide appropriate feedback to the conditional prescribing psychologist.

19.10(19) *Supervision plan.* Prior to supervising a conditional prescribing psychologist, a supervising physician shall ensure that a conditional prescribing psychologist has an approved written supervision plan in place. A template may be obtained from the boards of medicine and psychology. The supervision plan shall define the nature and extent of the supervisory relationship and outline specific parameters for review of the supervisory relationship. The supervision plan shall take into account the supervising physician's and

conditional prescribing psychologist's relevant education, training, experience, and competence and the nature and scope of the psychopharmacology services to be provided. The supervising physician and conditional prescribing psychologist shall each maintain a copy of the supervision plan and provide a copy of the plan to the boards of medicine and psychology upon request. The supervision plan shall include the following:

a. Conditional prescribing psychologist's information. The name, license number, address, telephone number, and email address of the conditional prescribing psychologist.

b. Supervising physician's information. The name, license number, DEA registration number, CSA registration number, address, telephone number, email address, and practice locations of the supervising physician.

c. Designation of the primary supervising physician. Designation of the conditional prescribing psychologist's primary supervising physician.

d. Period of supervision. The beginning date of the supervision plan and estimated date of completion.

e. Locations and settings. A description of the locations and settings where and with whom supervision will occur.

f. Scope of practice. A description of the scope of practice of the supervising physician and the conditional prescribing psychologist.

g. Methods of communication. A description of how the supervising physician and conditional psychologist may communicate for appropriate supervision.

h. Initial assessment. A description of the steps the supervising physician has taken to assess a conditional prescribing psychologist's relevant education, training, experience, and competence prior to supervising the conditional prescribing psychologist.

i. Limitations on psychotropic medications. A description of any limitations on the types of psychotropic medications the conditional prescribing psychologist may prescribe consistent with the supervising physician's and prescribing psychologist's relevant education, training, experience, and competence.

j. Limitations on patient populations. A description of any limitations on the types of populations the conditional prescribing psychologist may treat with psychotropic medications consistent with the supervising physician's and prescribing psychologist's relevant education, training, experience, and competence.

k. Expectations and responsibilities. A description of the expectations and responsibilities of the supervisory relationship.

l. Specialization. A description of the specialized training to be completed by the conditional prescribing psychologist in order to provide psychopharmacology services to children (less than 17 years of age), elderly persons (over 65 years of age), or patients with serious medical conditions, including but not limited to heart disease, cancer, stroke, seizures, or comorbid psychological conditions, or patients with developmental disabilities and intellectual disabilities in accordance with subrule 19.3(4).

m. Chart reviews. A description of the steps the supervising physician has taken to personally review a representative sample of the conditional prescribing psychologist's patient charts.

n. Consultation between the supervising physician and the primary care physician. A requirement that the supervising physician consult with the patient's primary care physician on a regular basis regarding the patient's psychotropic treatment plan and any potential complications.

o. Performance evaluations. A description of the steps the supervising physician has taken to regularly evaluate the clinical judgment, skills and performance of a conditional prescribing psychologist to safely provide psychopharmacology services to patients and provide appropriate feedback to the conditional prescribing psychologist.

p. Termination of the supervision plan. A description of how the supervision plan may be terminated and the process for notifying affected patients.

q. Signatures. Signatures of the conditional prescribing psychologist and all supervising physicians.

r. Amendment to the supervision plan. A requirement that a conditional prescribing psychologist shall inform the board of psychology of any amendments to the supervision plan, including the addition of

any supervising physicians, within 30 days of the change and that any amendment to a supervisory plan be subject to approval of the board of psychology.

s. Request for extension. If the primary supervising physician determines that a conditional prescribing psychologist is unable to successfully complete the supervised practice prior to the expiration of the conditional prescription certificate, the conditional prescribing psychologist may request an extension of the conditional prescription certificate provided that the conditional prescribing psychologist and the primary supervising physician can demonstrate that the conditional prescribing psychologist is likely to successfully complete the supervised practice within the extended time requested.

19.10(20) Certification of completion. At the conclusion of the supervised practice period, the primary supervising physician shall certify the following:

a. Supervision. That each supervising physician has provided supervision to the conditional prescribing psychologist in accordance with these rules.

b. Minimum period of supervised practice. That the conditional prescribing psychologist has successfully completed a minimum of two years of supervised practice.

c. Minimum number of patients. That the conditional prescribing psychologist has seen a minimum of 300 patients who had a diagnosed mental disorder with whom pharmacological intervention was considered as a treatment option, even if a decision was made not to prescribe a psychotropic medication to the patient, and that the conditional prescribing psychologist has treated a minimum of 100 patients with psychotropic medication throughout the supervised practice period.

d. Specialization. That a conditional prescribing psychologist who intends to provide psychopharmacology services to children (less than 17 years of age), elderly persons (over 65 years of age), or patients with serious medical conditions, including but not limited to heart disease, cancer, stroke, seizures, or comorbid psychological conditions, or patients with developmental disabilities and intellectual disabilities, has successfully completed a minimum of one year of supervised practice with the respective populations during the supervised practice period.

e. Demonstrated competence. That a conditional prescribing psychologist has successfully completed the supervised practice period and demonstrated competence in psychopharmacology by demonstrating competency in the milestones sufficient to obtain a prescription certificate in accordance with paragraph 19.2(3)“f.”
