

**661—158.1(321J) Scope and authority.**

**158.1(1)** The rules in this chapter establish standards and requirements that apply to ignition interlock devices installed in motor vehicles pursuant to court orders or administrative orders issued by the department of transportation pursuant to Iowa Code chapter 321J.

**158.1(2)** Various sections of Iowa Code chapter 321J require drivers who have been convicted of violating or administratively adjudged to have violated certain provisions of Iowa Code chapter 321J to have ignition interlock devices “of a type approved by the commissioner of public safety” installed on their vehicles in order to continue to drive legally. The rules in this chapter provide the standards for such approval.
