

**701—110.18(427) Property used in value-added agricultural product operations.** Fixtures used for cooking, refrigeration, or freezing of value-added agricultural products used in value-added agricultural processing or used in direct support of value-added agricultural processing are exempt from tax. Direct support includes storage by public refrigerated warehouses for processors of value-added agricultural products prior to the start of the value-added agricultural processing operation. The exemption does not apply to fixtures used primarily for retail sale or display. If the taxpayer is a retailer, there is a presumption that the fixtures are being used primarily for retail sale or display. The exemption applies only to fixtures that are attached in a manner set forth in Iowa Code section 427A.1(2).

The following definitions apply to this rule:

“*Fixture*” means property which was originally personal property but which by being physically attached to the realty becomes part of the realty and upon removal does not destroy the property to which it is attached.

“*Value-added agricultural processing*” means an operation whereby an agricultural product is subjected to some special treatment by artificial or natural means which changes its form, context, or condition, and results in a marketable agricultural product to be sold at retail. These operations are commonly associated with fabricating, compounding, germinating, or manufacturing.

“*Value-added agricultural product*” means an agricultural product which, through a series of activities or processes, may be sold at a higher price than its original purchase price.

This rule is intended to implement Iowa Code section 427A.1 as amended by 2001 Iowa Acts, House File 715.
