

**701—110.28(404B) Disaster revitalization area.** The governing body of a city or county may, by ordinance, designate an area of the city or county a disaster revitalization area if that area is within a county or portion of a county in which the governor has proclaimed a disaster emergency or the United States president has declared a major disaster. All real property within a disaster revitalization area is eligible to receive a 100 percent exemption from taxation on the increase in assessed value of the property if the increase in assessed value is attributable to revitalization of the property occurring between May 25, 2008, and December 31, 2013. The amount of increase in value shall be the difference between the assessed value of the property on January 1, 2007, and the assessed value of the property on January 1, 2010, and subsequent assessment years. The exemption is for a period not to exceed five years, starting with an assessment year beginning on or after January 1, 2010. A city or county may adopt a tax exemption percentage different from the 100 percent exemption. The different percentage adopted must not allow a greater exemption, but may allow a smaller exemption. If the homeowner elects to take the exemption provided in this rule, the homeowner may not claim any other value-added exemption. An application must be filed for each revitalization project resulting in increased assessed value for which an exemption is claimed. The application for exemption must be filed by the owner of the property with the local assessor by February 1 of the first assessment year for which the exemption is requested. After the tax exemption is granted, the exemption will continue for succeeding years without the taxpayer's having to file an application for exemption unless additional revitalization projects occur on the property. The ordinance must expire or be repealed no later than December 31, 2016.

This rule is intended to implement 2009 Iowa Acts, Senate File 457, sections 23 to 30.
