

701—601.7(422) Allocation of franchise tax revenues. For fiscal years prior to July 1, 2004, each quarterly distribution shall be made up of the tax shown due on the franchise tax returns received during that quarter, net of all refunds of franchise tax established during that quarter. In determining the portion of franchise tax revenues to be distributed to cities and counties for fiscal years prior to July 1, 2004, each financial institution, as defined by Iowa Code section 422.61, is required to submit the appropriate allocation data with the filing of its Iowa franchise tax return. Each financial institution shall accumulate or maintain data to properly determine the business activity ratios as prescribed in subrules 601.7(1) and 601.7(2). The allocation shall be made on the basis of business activity for each office location. The word “office” shall mean a branch office, a drive-in bank depository or any other establishment whereby the business pertaining to the financial institution is carried on.

601.7(1) *Business activity determination for a production credit association.* A production credit association shall measure its business activity on the basis of loan volume. “Loan volume” shall mean total loans originated during the taxable period. The business activity for each office location shall be that percentage of loans originated by each office to total loans originated for all office locations during the taxable period.

601.7(2) *Business activity determination for a financial institution other than a production credit association.* A financial institution, other than a production credit association, shall measure its business activity on a basis of net deposits. The business activity of each office shall be that percentage of average “savings and demand deposits net of withdrawals” for each office location to the total average “savings and demand deposits net of withdrawals” for all office locations.

This rule is intended to implement Iowa Code section 422.61.
