

701—602.20(422) Disallowance of expenses to carry an investment subsidiary for tax years which begin on or after January 1, 1995. A financial institution which has an investment in an investment subsidiary on or after July 1, 1995, must allocate a portion of its total expenses used in computing its federal taxable income on a separate return basis to its investment subsidiary. The expenses which are allocable to the investment in an investment subsidiary are computed by multiplying the financial institution's total expenses used in computing its federal taxable income on a separate return basis by the ratio of the average adjusted basis in its investment subsidiary to the average adjusted basis for all assets of the financial institution. For tax years beginning on or after January 1, 1995, and before December 31, 1995, a financial institution which has an investment in an investment subsidiary on July 1, 1995, must allocate a portion of its total expenses for the entire tax year to its investment in an investment subsidiary even though it did not have an investment in an investment subsidiary for the entire tax year.

A calculation of the average for the tax year of the adjusted bases of a financial institution's investment in investment subsidiaries, and total assets, held each day of the tax year is the most accurate method for determining under Iowa Code subsection 422.61(3) the portion of a financial institution's total expenses that is allocable to the financial institution's investment in investment subsidiaries. However, the department will generally allow the average adjusted bases of an investment in investment subsidiaries for the tax year to be calculated using the average of the adjusted bases of the investment in investment subsidiaries held by the financial institution at the end of each month within the tax year. The department generally will allow the average bases of all assets of the financial institution for the tax year to be calculated using the average bases of all assets held by the financial institution at the end of each quarter of the tax year. A financial institution may compute for any tax year, without prior permission of the director, the average adjusted bases of investment in investment subsidiaries or total assets on a more frequent basis than set forth above. However, a financial institution may not compute these averages for any tax year on a less frequent basis than quarterly without obtaining prior approval of the director. This permission will be granted only in extraordinary circumstances. In addition, a financial institution may not compute these averages for any tax year on a less frequent basis than it used for the preceding tax year unless the financial institution obtains prior approval of the director. A financial institution that has elected to use an estimate of the adjusted tax bases of its total assets for each of the first three quarters of the taxable year under Internal Revenue Service's Revenue Ruling 90-44 for federal income tax purposes may use this estimate for Iowa franchise purposes.

602.20(1) For the purposes of this rule, the term "affiliate" means a corporation, trust, estate, association, or similar organization:

- a.* Of which a financial institution, directly or indirectly, owns or controls either a majority of the voting shares or more than 50 percent of the number of shares voted for the election of its directors, trustees, or other individuals exercising similar functions at the preceding election, or controls in any manner the election of a majority of its directors, trustees, or other individuals exercising similar functions; or
- b.* Of which control is held, directly or indirectly, through share ownership or in any other manner, by the shareholders of a financial institution who own or control either a majority of the shares of such financial institution or more than 50 percent of the number of shares voted for election of directors of such financial institution at the preceding election, or by trustees for the benefit of the shareholders of such financial institution; or
- c.* Of which a majority of its directors, trustees, or other individuals exercising similar functions are directors of any financial institution; or
- d.* Which owns or controls, directly or indirectly, either a majority of the voting shares of a financial institution or more than 50 percent of the number of shares voted for the election of directors of a financial institution at the preceding election, or controls in any manner the election of a majority of the directors of a financial institution, or for the benefit of those shareholders or members all or substantially all of the outstanding voting shares of a financial institution is held by trustees; or
- e.* Which is a bank holding company, as defined by the laws of the United States, of which a financial institution is a subsidiary, and any other subsidiary as defined by the laws of the United States, of a bank holding company.

602.20(2) For the purposes of this rule, the term “average adjusted basis” means the financial institution’s average adjusted basis as computed pursuant to Section 1016 of the Internal Revenue Code on a separate company basis.

602.20(3) For purposes of this rule, the term “investment subsidiary” means an affiliate that is owned, capitalized or utilized by a financial institution with one of its purposes being to make, hold, or manage, for and on behalf of the financial institution, investments in securities which the financial institution would be permitted by applicable law to make for its own account.

This rule is intended to implement Iowa Code section 422.61 as amended by 1995 Iowa Acts, chapter 193.
