

**721—28.3(48A) Duplicate and multiple voter registration record deletion process.**

**28.3(1)** The state registrar shall provide a search function within the I-Voters software to search for likely duplicate or multiple voter registration records. County registrars shall have the capability to activate this function.

**28.3(2)** During each calendar quarter, the county registrar shall activate the search function described in subrule 28.3(1) and review the list of likely duplicate or multiple voter registration records. The county registrar shall resolve duplicate or multiple records for the same voter. No voter shall have more than one voter record. The voter record associated with the most recent registration or other voter-initiated activity shall be considered the voter's current record. The voter shall be registered in the county of current record, and the voter record in any other county shall be merged with the record in the current county. Individual voter history and other voter data shall be transferred to the voter's record in the current county of registration.

**28.3(3)** The state registrar shall periodically request information from the electronic information registration center regarding the existence of duplicate registrations. Within 15 days of a county registrar's receipt of notification from the state registrar of the existence of a duplicate or multiple record, the county registrar shall follow the process outlined in subrule 28.3(2).

**28.3(4)** On an ongoing basis, the state registrar shall request reports from the electronic information registration center for the purpose of engaging in interstate checking of voter registration records with other participating states. The purpose of these interstate checks is to identify duplicate or multiple voter registration records. A report based on information provided by the electronic information registration center shall be timely provided to each county registrar.

**28.3(5)** Within 15 days of the receipt of a report produced by the state registrar in accordance with subrule 28.3(4), the county registrar shall review the list of likely duplicate or multiple voter registration records and determine the accuracy of the search results. If the voter is found to be registered to vote in another state more recently than the voter's last voter-initiated activity in Iowa, the commissioner shall make the voter's status "inactive" and the voter shall be mailed a forwardable National Voter Registration Act-compliant confirmation notice. The notice shall contain a statement in substantially the following form:

**28.3(6)** County registrars shall cooperate with each other to ensure that voter records are properly merged into the current county file.
