“Adult” means a person who is 18 years of age or older.

“Assessment” means the review of the current functioning of the member using the service in regard to the member’s situation, needs, strengths, abilities, desires, and goals.

“Benefits education” means providing basic information to understand and access appropriate resources to pursue employment, and knowledge of work incentives and the Medicaid for employed persons with disabilities (MEPD) program. “Career exploration,” also referred to as “career planning,” means a person-centered, comprehensive employment planning and support service that provides assistance for waiver program participants to obtain, maintain or advance in competitive employment or self-employment. Career exploration is a focused, time-limited service engaging a participant in identifying a career direction and developing a plan for achieving competitive, integrated employment at or above the state’s minimum wage. The outcome of this service is documentation of the participant’s stated career objective and a career plan used to guide individual employment support.

“Career plan” means a written plan documenting the member’s stated career objective and used to guide individual employment support services for achieving competitive, integrated employment at or above the state’s minimum wage.

“Case management” means case management services accredited under 441—Chapter 24 and provided according to 441—Chapter 90.

“Comprehensive service plan” means an individualized, person-centered, and goal-oriented plan of services written in language understandable by the member using the service and developed collaboratively by the member and the case manager.

“Customized employment” means an approach to supported employment which individualizes the employment relationship between employees and employers in ways that meet the needs of both. Customized employment is based on an individualized determination of the strengths, needs, and interests of the person with a disability and is also designed to meet the specific needs of the employer. Customized employment may include employment developed through job carving, self-employment or entrepreneurial initiatives, or other job development or restructuring strategies that result in job responsibilities being customized and individually negotiated to fit the needs of the individual with a disability. Customized employment assumes the provision of reasonable accommodations and supports necessary for the individual to perform the functions of a job that is individually negotiated and developed.

The outcome of this service is sustained paid employment at or above the minimum wage in an integrated setting in the general workforce in a job that meets personal and career goals. Supported employment services can be provided through many different service models.

“Supported self-employment” includes services and supports that assist the participant in achieving self-employment through the operation of a business; however, Medicaid funds may not be used to defray the expenses associated with starting up or operating a business. Assistance for self-employment may include aid to the individual in identifying potential business opportunities; assistance in the development of a business plan, including potential sources of business financing and other assistance in developing and launching a business; identification of the supports necessary for the individual to operate the business; and ongoing assistance, counseling and guidance once the business has been launched.

(6) The hours of support for long-term job coaching are based on the identified needs of the member as documented in the member's comprehensive service plan.

c. Small-group supported employment. Small-group supported employment services are training and support activities provided in regular business or industry settings for groups of two to eight workers with disabilities. The outcome of this service is sustained paid employment experience, skill development, career exploration and planning leading to referral for services to obtain individual integrated employment or self-employment for which an individual is compensated at or above the minimum wage, but not less than the customary wage and level of benefits paid by the employer for the same or similar work performed by individuals without disabilities.

(1) **Scope.** Small-group supported employment services must be provided in a manner that promotes integration into the workplace and interaction between members and people without disabilities (e.g., customers, coworkers, natural supports) in those workplaces. Examples include but are not limited to mobile crews and other business-based workgroups employing small groups of workers with disabilities in employment in integrated business settings; and small-group activities focused on

career exploration and development of strengths and skills that contribute to successful participation in individual community employment.

(2) Expected outcome of service. Small-group supported employment services are expected to enable the member to make reasonable and continued progress toward individual employment. Participation in small-group supported employment services is not a prerequisite for individual supported employment services. The expected outcome of the service is sustained paid employment and skill development which leads to individual employment in the community.

(3) Setting. Small-group supported employment services shall take place in integrated, community-based nonresidential settings separate from the member's residence.

(4) Service activities. Small-group supported employment services may include any combination of the following activities:

1. Employment assessment.
2. Person-centered employment planning.
3. Job placement (limited to service necessary to facilitate hire into individual employment paid at minimum wage or higher for a member in small-group supported employment who receives an otherwise unsolicited offer of a job from a business where the member has been working in a mobile crew or enclave).
4. Job analysis.
5. On-the-job training and systematic instruction.
6. Job coaching.
7. Transportation planning and training.
8. Benefits education.
9. Career exploration services leading to career advancement outcomes.
10. Other workplace support services may include services not specifically related to job skill training that enable the waiver member to be successful in integrating into the individual or community setting.

11. Transportation of the member during service hours.

d. Service requirements for all supported employment services.

(1) Community transportation options (e.g., transportation provided by family, coworkers, carpools, volunteers, self or public transportation) shall be identified by the member's interdisciplinary team and utilized before the service provider provides the transportation to and from work for the member. If none of these options are available to a member, transportation between the member's place of residence and the employment or service location may be included as a component part of supported employment services.

(2) Personal care or personal assistance and protective oversight may be a component part of supported employment services, but may not comprise the entirety of the service.

(3) Activities performed on behalf of a member receiving long-term job coaching or individual or small-group supported employment shall not comprise the entirety of the service.

(4) Concurrent services. A member's individual service plan may include two or more types of nonresidential services (e.g., individual supported employment, long-term job coaching, small-group supported employment, prevocational services, and day habilitation); however, more than one service may not be billed during the same period of time (e.g., the same hour).

(5) Integration requirements. In the performance of job duties, the member shall have regular contact with other employees or members of the general public who do not have disabilities, unless the absence of regular contact with other employees or the general public is typical for the job as performed by persons without disabilities.

(6) Compensation. Members receiving these services are compensated at or above the minimum wage, but not less than the customary wage and level of benefits paid by the employer for the same or similar work performed by individuals without disabilities. For supported self-employment, the member earns income that is equal to or exceeds the average income for the chosen business within a reasonable period of time. For small-group supported employment, if the member is not compensated at or above

minimum wage, the compensation to the member shall be in accordance with all applicable state and federal labor laws and regulations.

e. Limitations. Supported employment services are limited as follows:

(1) Total monthly costs of supported employment may not exceed the monthly cap on the cost of waiver services set for the individual waiver program.

(2) In absence of a monthly cap on the cost of waiver services, the total monthly cost of all supported employment services may not exceed \$3,059.29 per month.

(3) Individual supported employment is limited to 240 units per calendar year.

(4) Long-term job coaching is limited in accordance with 441—subrule 79.1(2).

(5) Small-group supported employment is limited to 160 units per week.

f. Exclusions. Supported employment services payments shall not be made for the following:

(1) Services that are available to the individual under a program funded under Section 110 of the Rehabilitation Act of 1973 or the Individuals with Disabilities Education Act (20 U.S.C. 1401 et seq.). Documentation that the service is not available to the individual under these programs shall be maintained in the service plan of each member receiving individual supported employment or long-term job coaching services.

(2) Incentive payments, not including payments for coworker supports, made to an employer to encourage or subsidize the employer's participation in a supported employment program.

(3) Subsidies or payments that are passed through to users of supported employment programs.

(4) Training that is not directly related to a member's supported employment program.

(5) Services involved in placing and stabilizing members in day activity programs, work activity programs, sheltered workshop programs or other similar types of vocational or prevocational services furnished in specialized facilities that are not a part of the general workplace.

(6) Supports for placement and stabilization in volunteer positions or unpaid internships. Such volunteer learning and unpaid training activities that prepare a person for entry into the general workforce are addressed through prevocational services and career exploration activities.

(7) Tuition for education or vocational training.

(8) Individual advocacy that is not related to integrated individual employment participation or is not member-specific.

(9) Medicaid funds may not be used to defray the expenses associated with starting up or operating a business.
