

265—3.5(16) Authority analysis of applications. Authority staff will analyze and underwrite each potential project and will make recommendations for funding assistance to the board of directors of the authority. Meeting the eligibility criteria in these rules is not a guaranty of receiving funds. Authority staff will determine the necessary and appropriate procedures and processes for underwriting and analysis to further the purposes of this program. In addition, the authority anticipates that because of the complex nature of each transaction, and the particular sets of circumstances attributable to each particular application/transaction, the terms and conditions of loans will vary from project to project. The authority will make available its general operating procedures and guidelines for this program, as such may be revised from time to time.
