

**441—95.12(252B) Cooperation of public assistance applicants in establishing and obtaining support.**

If a person who is an applicant of FIP or Medicaid is required to cooperate in establishing paternity; in establishing, modifying, or enforcing child or medical support; or in enforcing spousal support, the requirements in 441—Chapters 41 and 75 apply. The appropriate staff in the FIP and Medicaid programs are designees of child support services to determine noncooperation and issue notices of that determination until the referral to child support services is completed.
