

871—24.29(96) Business closing.

24.29(1) Whenever an employer at a factory, establishment, or other premises goes out of business at which the individual was last employed and is laid off, the individual's account is credited with one-half, instead of one-third, of the wages for insured work paid to the individual during the individual's base period, which may increase the maximum benefit amount up to 26 times the weekly benefit amount or one-half of the total base period wages, whichever is less. This rule also applies retroactively for monetary redetermination purposes during the current benefit year of the individual who is temporarily laid off with the expectation of returning to work once the temporary or seasonal factors have been eliminated and is prevented from returning to work because of the going out of business of the employer within the same benefit year of the individual. This rule also applies to an individual who works in temporary employment between the layoff from the business closing employer and the claim for benefits. For the purposes of this rule, temporary employment means employment of a duration not to exceed four weeks.

24.29(2) Going out of business means any factory, establishment, or other premises of an employer which closes its door and ceases to function as a business; however, an employer is not considered to have gone out of business at the factory, establishment, or other premises in any case in which the employer sells or otherwise transfers the business to another employer, and the successor employer continues to operate the business.

24.29(3) Verification of going out of business. When the unemployment insurance representative is informed by the individual or has knowledge of an employer going out of business at a factory, establishment, or other premises, the unemployment insurance representative completes a Form 60-0240, Verification of Business Closing, and refers Form 60-0240 to the field audit section for assignment to a field auditor who verifies the business closing. A Form 62-2056, Review of Business Status for Closing Credits, is completed for each succeeding claimant who requests to be included in a redetermination for business closing credits. This form is added to the Form 60-0240 already in the department file for the appropriate pending investigation. Upon return of the Form 60-0240 from the field audit section, an unemployment insurance representative will issue the appropriate decisions to all claimants who requested that their unemployment insurance claim be redetermined as a business closing based on the results of the investigation.
