

481—577.3(153) Level 1 expanded function procedures.

577.3(1) Level 1 expanded function procedures include:

- a.* Taking occlusal registrations;
- b.* Placement and removal of gingival retraction material;
- c.* Fabrication, temporary cementation, and removal of provisional restorations following review of the fit and function by the supervising dentist, and temporary recementation of provisional restorations;
- d.* Applying cavity liners and bases and desensitizing agents;
- e.* Applying bonding systems, which may include the placement of the attachments used in clear aligner systems, following review of the fit and function by the supervising dentist;
- f.* Placement, bonding, and removal of provisional orthodontic restorations as follows:
 - (1) Placement or bonding of orthodontic brackets and bands or provisional orthodontic appliances following review of the fit and function by the supervising dentist; and
 - (2) Removal of adhesive, orthodontic brackets and bands, or provisional orthodontic appliances using nonmotorized hand instrumentation;
- g.* Taking final impressions for fixed restorations or dental prosthetics;
- h.* Placement of temporary restorative materials following preparation of the tooth by a dentist;
- i.* Extraoral adjustment to acrylic dentures without making any adjustments to the prosthetic teeth;
- j.* Tissue conditioning (soft reline only); and
- k.* Placement, management, and removal of an intravenous (IV) infusion line for moderate sedation, deep sedation, or general anesthesia. Placement of an IV may include the administration of saline. Placement of an IV does not include the administration of any drugs or medications.

577.3(2) The following procedures are Level 1 expanded functions only for dental assistants and are within the scope of practice for dental hygienists:

- a.* Monitoring of patients receiving nitrous oxide inhalation analgesia, which may include increasing oxygen levels as needed, pursuant to the following:
 - (1) A dentist shall induce a patient and establish the maintenance level;
 - (2) A dental assistant may make adjustments that decrease the nitrous oxide concentration during the administration of nitrous oxide; and
 - (3) A dental assistant may turn off the oxygen delivery at the completion of the dental procedure.
- b.* Removal of adhesives using nonmotorized hand instrumentation.
