

**481—69.2 (231C) Program certification.** A program may obtain certification by meeting all applicable requirements. In addition, a program may be voluntarily accredited by a recognized accreditation entity. For the purpose of these rules, certification is equivalent to licensure.

**69.2(1) Posting requirements.** A program's current certificate shall be visibly displayed within the designated operation area of the program. In addition, the latest monitoring report, state fire marshal report, and food establishment inspections report issued pursuant to Iowa Code chapter 137F shall be made available to the public by the program upon request.

**69.2(2) Dementia-specific programs and door alarms.** If a program meets the definition of a dementia-specific assisted living program during two sequential certification monitorings, the program shall meet all requirements for a dementia-specific program, including the requirements set forth in rule 481—69.30(231C), subrules 69.29(2) and 69.29(4), paragraph 69.35(1) "d," and subrules 69.32(2) and 69.32(3), which include the requirements relating to door alarms and specialized locking systems.

**69.2(3) Dementia-specific program by definition.** If a program meets the definition of a dementia-specific assisted living program during two sequential certification monitorings based on the number of tenants served who have dementia between Stages 4 and 7 on the Global Deterioration Scale, the program shall be deemed a dementia-specific program by definition. If the number of tenants served who have dementia between Stages 4 and 7 on the Global Deterioration Scale goes below that which is required by the definition of dementia-specific program at any time after the program has been deemed dementia-specific by definition and the program is not holding itself out as providing dementia care in a specialized setting, the program will no longer be considered dementia-specific.
