

481—51.2 (135B) Classification, compliance and license.

51.2(1) Classification. For the purpose of administering the hospital licensing law, all institutions subject to licensure shall be classified as a critical access hospital, general hospital, long-term acute care hospital, or specialized hospital. The license issued by the department shall clearly identify the classification of the hospital.

51.2(2) Compliance requirements for each classification. A hospital shall comply with all of the general regulations for hospitals and shall comply with regulations pertaining to specialized services, if specialized services are provided in the hospital.

51.2(3) Separate license required. A separate license shall be required for each hospital even though more than one is operated under the same management. A separate license is not required for separate buildings of a hospital located on separate parcels of land, which are not adjoining but provide elements of the hospital's full range of services for the diagnosis, care, and treatment of human illness, including convalescence and rehabilitation, and which are organized under a single owner or governing board with a single designated administrator and medical staff.

51.2(4) Posting of license. The license shall be conspicuously posted on the main premises of the hospital.

51.2(5) The department shall recognize, in lieu of its own licensure inspection, the comparable inspections and inspection findings of The Joint Commission (TJC), the American Osteopathic Association (AOA), DNV GL – Healthcare (DNV GL), or the Center for Improvement in Healthcare Quality (CIHQ) if the department is provided with copies of all requested materials relating to the inspection process. In cases of the initial licensure, the department may require its own inspection when needed in addition to comparable accreditations to allow the hospital to begin operations. The department may also initiate its own inspection when it is determined that the inspection findings of TJC, AOA, DNV GL, or CIHQ are insufficient to address concerns identified as possible licensure issues.

51.2(6) Hospitals not accredited by TJC, AOA, DNV GL, or CIHQ shall be inspected by the department utilizing the current Medicare conditions of participation found in Title XVIII of the federal Social Security Act and 42 CFR Part 482, Subparts A, B, C, D, and E, or 42 CFR Part 485, Subpart F. Licensed-only hospitals shall be inspected utilizing the requirements of this chapter. The department may promulgate additional standards. The department may recognize, in lieu of its own licensure inspection, the comparable inspection and inspection findings of a Medicare conditions of participation survey.

This rule is intended to implement Iowa Code chapter 135B.
