

641—42.4(136C) General administrative requirements for facilities using therapeutic radiation machines.**42.4(1)** Administrative controls.

a. The registrant shall be responsible for directing the operation of the therapeutic radiation machines that have been registered with the department.

b. The registrant or the registrant's agent shall ensure that the requirements of this chapter are met in the operation of the therapeutic radiation machine(s).

42.4(2) A therapeutic radiation machine that does not meet the provisions of these regulations cannot be used for irradiation of patients unless authorized by the department.
