- (2) During transportation to a hospital;

- (4) Until patient care is directly assumed by a physician or by authorized hospital personnel; and
- (5) During transfer from one medical care facility to another or to a private home.

An emergency medical care provider shall not routinely function without the direct supervision of a physician, physician assistant, or registered nurse. 131.3(2) When emergency medical care personnel are functioning in a capacity identified in 131.3(1) "*a.*," they may perform emergency and nonemergency medical care without contacting a supervising physician or physician designee if written protocols have been approved by the service program medical director which clearly identify when the protocols may be used in lieu of voice contact.
