

701—123.4(441) Certification of deputy assessors. A deputy assessor who has received credit equal to at least 90 classroom hours of instruction, of which at least 60 hours are tested, during each six-year period following the deputy's appointment as deputy assessor, shall be certified to the assessor employing the deputy as eligible to continue as deputy assessor in that position. Certification shall be only that the deputy has or has not met the requirements to be eligible to remain in that position. No scores or other information will be given to the assessor. For situations in which the required number of credit hours must be prorated, see rule 123.3(441).

If a deputy assessor fails to comply with continuing education requirements, the deputy shall be removed from that position and not reinstated until successful completion of the required hours of credit. Upon written request by a deputy seeking a waiver of the continuing education requirements, the director may waive the requirements for good cause. The number of credit hours required for the deputy to be eligible for appointment as a deputy in another jurisdiction shall be prorated according to the completed portion of the deputy's six-year term.
