

**441—172.10 (234) Service requirements.** A contractor providing a safety plan service shall meet the following requirements:

**172.10(1)** The service shall meet the minimum expectations defined in the contract.

**172.10(2)** The contractor shall provide interventions and supports based on the particular service needs identified for each child and family.

**172.10(3)** The contractor shall design interventions that:

- a.* Promote identification and enhancement of family strengths and protective capacities;
- b.* Address the factors that have placed the child in “conditionally safe” status;
- c.* Strengthen family connections to community resources and informal supports; and
- d.* Are culturally competent and respectful of the family’s cultural, ethnic, and racial identity and values.
