

199—10.2(479) Petition for permit.

10.2(1) A petition for a permit shall be made to the board upon the form prescribed and shall include all required exhibits. The petition shall be considered as filed upon receipt at the office of the board. An original and two copies of the petition and exhibits shall be filed. Required exhibits shall be in the following form:

a. Exhibit A. A legal description showing, at minimum, the general direction of the proposed route through each quarter section of land to be crossed, including township and range and whether on private or public property, public highway or railroad right-of-way, together with such other information as may be deemed pertinent. Construction deviation of 660 feet (one-eighth mile) from proposed routing will be permitted.

If it becomes apparent that there will be deviation of greater than 660 feet (one-eighth mile) in some area from the proposed route as filed with the board, construction of the line in that area shall be suspended. Exhibits A, B, E, and F reflecting the deviation shall be filed, and the procedures hereinafter set forth to be followed upon the filing of a petition for permit shall be followed.

b. Exhibit B. Maps showing the proposed routing of the pipeline. Strip maps will be acceptable. Two copies of such maps shall be filed. The maps may be to any scale appropriate for the level of detail to be shown, but not smaller than one inch to the mile. The following minimum information shall be provided:

(1) The route of the pipeline which is the subject of the petition, including the starting and ending points, and when paralleling a road or railroad, which side it is on. Multiple pipelines on the same right-of-way shall be indicated.

(2) The name of the county, county and section lines, and section, township and range numbers.

(3) The location and identity of public roads, railroads, major streams or bodies of water, and other pertinent natural or man-made features influencing the route.

(4) The name and corporate limits of cities, and the name and boundaries of any public lands or parks.

(5) Other pipelines and the identity of the owner.

c. Exhibit C. A showing on forms prescribed by this board of engineering specifications covering the engineering features, materials and manner of construction of the proposed pipeline, its approximate length, diameter and the name and location of each railroad and primary highway and the number of secondary highways to be crossed, if any, and such other information as may be deemed pertinent.

d. Exhibit D. Satisfactory attested proof of solvency and financial ability to pay damages in the sum of \$250,000 or more; or surety bond satisfactory to this board in the penal sum of \$250,000 with surety approved by this board, conditioned that the petitioner will pay any and all damages legally recovered against it growing out of the operation of its pipeline or gas storage facilities in the state of Iowa; security satisfactory to this board as a guarantee for the payment of damages in the sum of \$250,000; or satisfactory proofs that the company has property subject to execution within this state, other than pipelines, of a value in excess of \$250,000.

e. Exhibit E. Consent or other showing of right of appropriate public highway authorities, or railroad companies, where the pipeline will be placed longitudinally on, over or under, or at other than an approximate right angle to railroad tracks or highway, when such consent is obtained prior to filing of the petition and hearing shall be filed with the petition.

If the exact and specific route is uncertain at the time of petition, a statement shall be made by petitioner that all consents or other showing of right will be obtained prior to construction and copies filed with this board.

f. Exhibit F. This exhibit shall contain the following:

(1) A statement of the purpose of the project and a description of how the services rendered by the pipeline will promote the public convenience and necessity.

(2) A general statement covering each of the following topics: the nature of the lands, waters, and public or private facilities to be crossed; the possible use of alternative routes; the relationship of the proposed pipeline to present and future land use and zoning ordinances; and the inconvenience or undue injury which may result to property owners as a result of the proposed project.

(3) For an existing pipeline, the year of original construction and a description of any amendments or reportable changes since the permit or latest renewal permit was issued.

g. Exhibit G. If informational meetings were required, an affidavit that such meetings were held in each county affected by the proposed project and the time and place of each meeting. Copies of the mailed notice letter and the published notice(s) of the informational meeting shall be attached to the affidavit.

h. Exhibit H. This exhibit is required only if the petition requests the right of eminent domain. The extent of the eminent domain request may be uncertain at the time the petition is filed. However, this exhibit must be in final form before a hearing is scheduled. It shall consist of a map of the route showing the location of each property for which the right of eminent domain is sought and for each such property:

- (1) The legal description of the property.
- (2) The legal description of the desired easement.
- (3) A specific description of the easement rights being sought.
- (4) The names and addresses of the owners of record and parties in possession of the property.
- (5) A map drawn to an appropriate scale showing the boundaries of the property, the boundaries and dimensions of the proposed easement, the location of pipelines or pipeline facilities within the proposed easement, the location of and distance to any building within 300 feet of the proposed pipeline, and any other features pertinent to the location of the line to the rights being sought.

i. Exhibit I. If pipeline construction on agricultural land as defined in 199—subrule 9.1(3) is proposed, a land restoration plan shall be prepared and filed as provided in rule 199—9.2(479,479A,479B).

j. Underground storage. If permission is sought to construct, maintain and operate facilities for underground storage of gas, the petition shall include the following information, in addition to that stated above:

- (1) A description of the public or private highways, grounds and waters, streams and private lands of any kind under which the storage is proposed, together with a map.
- (2) Maps showing the location of proposed machinery, appliances, fixtures, wells, and stations necessary for the construction, maintenance, and operation of the facilities.

k. Other exhibits. The board may require filing of additional exhibits if further information on a particular project is deemed necessary.

10.2(2) Petitions proposing new pipeline construction on an existing easement where the company has previously constructed a pipeline shall include a statement indicating whether any unresolved damage claims remain from the previous pipeline construction, and if so shall provide the name of each landowner or tenant, a legal description of the property involved, and the status of proceedings to settle the claim.

A petition for permit proposing a new pipeline construction on an existing easement where the company has previously constructed a pipeline will not be acted upon by the board if a damage claim from the installation of its previous pipeline has not been determined by negotiation, arbitration, or court action. This paragraph will not apply if the damage claim is under litigation or arbitration.

10.2(3) Statement of damage claims.

a. A petition for permit proposing new pipeline construction will not be acted upon by the board if the company does not have on file with the board a written statement as to how damages resulting from the construction of the pipeline shall be determined and paid.

The statement shall contain the following information: the type of damages which will be compensated for, how the amount of damages will be determined, the procedures by which disputes may be resolved, and the manner of payment.

The statement shall be amended as necessary to reflect changes in the law, company policy, or the needs of a specific project.

b. A copy of this statement shall be mailed with the notice of informational meeting as provided for in Iowa Code section 479.5. Where no informational meeting is required, a copy shall be provided to each affected party prior to entering into negotiations for payment of damages.

c. Nothing in this rule shall prevent a party from negotiating with the company for terms which are different, more specific, or in addition to the statement filed with the board.

This rule is intended to implement Iowa Code sections 479.5, 479.17, 479.26, 479.42, and 479.43.
