

21—85.33(214A,208A) Motor fuel and antifreeze tests and standards. In the interest of uniformity, the tests and standards for motor fuel, including but not limited to renewable fuels such as ethanol blended gasoline, biodiesel, biodiesel blended fuel, and components such as an oxygenate, raffinate natural gasoline and motor vehicle antifreeze shall be those established by the American Society for Testing and Materials (ASTM) in effect on October 1, 2006. Diesel fuel which does not comply with ASTM international specifications may be stored in Iowa only if the diesel fuel is stored at a terminal for the purposes of blending the diesel fuel with biodiesel so that the finished biodiesel blended product does meet the applicable specifications. In addition, a motor fuel that contains more than one-half of 1 percent of methyl tertiary butyl ether (MTBE) by volume shall not be sold, offered for sale, or stored in Iowa.

This rule is intended to implement Iowa Code sections 208A.5, 208A.6 and 215.18 and 2006 Iowa Acts, House File 2754.
