

282—14.132(272) Requirements for a Class G license. A nonrenewable Class G license valid for two years may be issued to an individual who must complete a school guidance counseling practicum or internship in an approved program in preparation for the school guidance counselor endorsement. The Class G license may be issued under the following limited conditions:

14.132(1) Verification of a baccalaureate degree from a regionally accredited institution.

14.132(2) Verification from the institution that the individual is admitted and enrolled in an approved school guidance counseling program.

14.132(3) Verification that the individual has completed the coursework and competencies required prior to the practicum or internship.

Written documentation of the above requirements must be provided by the official at the institution where the individual is completing the approved school guidance counseling program and forwarded to the Iowa board of educational examiners with the application form for licensure.
