

591—13.1(455G) Definitions. As used herein:

“Administrator” means the person or organization responsible for the day-to-day administrative activities of the program.

“Board” means the Iowa comprehensive petroleum underground storage tank fund board or its representatives.

“Community remediation” means a program of coordinated testing, planning or remediation involving two or more tank sites potentially connected with a continuous contaminated area.

“DNR” means the Iowa department of natural resources.

“Packaged community remediation” means the grouping together of more than one community remediation project in the overall request for proposal process developed by the board. The purpose of the packaged community remediation program is to provide for the efficient handling of multiple community remediation projects and to develop accurate environmental data to ensure correct site classification, appropriate corrective action design, monitoring and cleanup to DNR’s standards. Each site in a packaged community remediation project shall meet the DNR’s requirements relative to site cleanup reports and corrective action.

“Site cleanup report (SCR)” means a report that addresses the overall size and scope of contamination involving an underground storage tank site. The report is designed to advise DNR and the UST board of pertinent information concerning the release reported at that site. The report must address all pertinent requirements of Iowa Code section 455B.474, subsection 1, paragraphs *“d”* and *“f.”*
