

641—38.5(136C) Permit to practice as a general nuclear medicine technologist with computed tomography endorsement. An individual applying for a nuclear medicine diagnostic computed tomography endorsement shall:

38.5(1) Maintain an active permit to practice as a general nuclear medicine technologist. Endorsements shall not be held without an active permit.

38.5(2) Submit proof of a passing score on the ARRT or NMTCB computed tomography examination.
