

567—49.1(455B) Purpose. The purpose of this chapter is to protect the public health by protecting groundwater supplies from contamination by establishing uniform minimum standards and methods for nonpublic water supply well construction and reconstruction. This chapter provides minimum standards for installation of well pumps or equipment employed in withdrawing or obtaining water from a well for any use, except monitoring wells, including safeguards as may be necessary to protect from contamination the water in an aquifer and water being pumped from a well.
